MACEDONIAN CRY HAS BECOME THE WORLD'S cry. From all nations sitting in darkness, nations teeming with millions of benighted heathens, there is going up a constant prayer for help. The Gospel they say is the help we so much need. They say it will make us better, more cultured, civilized and refined. We see other nations Christianized, go ahead apace, and far outstripping us. Are you going to obey this cry—come over and help us—from these nations of darkness and superstition. We are under as a great an obligation to do this as Paul ever was. Just so certainly as there came ringing into the ears of Paul this divine command so it comes with as great force and power to the Christian nations of to-day, "go." It is a binding command. You may have your own opinion in the matter, you may say it will increase the obligation of the heathen. You may say that there are plenty of heathens at home and also that charity begins at home. There are three kinds of Christians to-day, Mission Christians, Anti-Mission Christians and Omission Christians. A great many I fear belong to the last class. The great question was, are we professing Christians? Do we recognize Christ as captain and leader of the Christian host? In the matter of a God-given command like this no one has a right to an opinion about the matter. The question is one of loyalty to Jesus Christ. When He says go, it is a proof of the efficacy of our love to Him to obey. We cannot be disloyal to a God given command and the same time be loyal to God. I declare unto you be a true Christian rather than a loud professor of sanctimoniousness. Be opposed rather than indifferent to Christian missionaries. The obligation to answer the cry of heathenism is greater even in this day than it was in Paul's time because means of access is greater. Then it took the most noted Roman emperor to encircle his 700 000 acres of land in the swiftest chariot some 70 days. Now we can circumnavigate the world in less time than that. There was a time not long ago when we had to search for a place to implant the Christian banner but now all barriers have been overcome, all obstacles surmounted and all difficulties wiped away. Catholic Spain, sunny Italy with her Protestant chapel are saying give us the gospel. Syria, the pivot point of missions through the west by means of the printing press is overcoming paganism and the sway of Mohammed. So it was all along the line. Our obligations are greater to-day than they were in Palestine because every undertaking has been successful. Nothing in the world pays so well as missions. Dr. Ryerson is the authority for stating that while it costs only 80 cents to convert a sinner in Pagan lands it costs $6 40 to convert one in Christian lands. In Christian lands the amount given towards the missions averages 7½ cents a member while in Pagan lands it reaches $1.25 from each convert. What a vast difference! Did Christian missions pay? Every country that had sent out missionaries had see not been benefitted a thousand fold in trade and commerce? Christian missionaries are everywhere the friends of the government. While there was the reflex influence in this enterprise, there was also the reflex influence of increased spiritual activity among the church and its members. He believed the only thing in the present day that is going to save the Christian church from stagnation is the missionary cause. Years ago twenty eight out of thirty Baptist churches in the state of Massachusetts refused to contribute to missionaries. They have all long since been wiped out of existence while the other two remain and have become thousands. Napoleon once said the army that stayed in its own entrenchments was already beaten. Christianity was like this; until she sent a band of 7,000 missionaries and 40,000 Bibles to obey this divine command of the text. It was a fight against tremendouos odds. The barriers against the systems of caste and ignorance, superstition and prejudice are being broken. The progress of Christianity during these last twenty years has been greater than in the preceeding 1800 years. During the last half century the Christian church has gained 21,000,000 of adherents alone for Christ. Fifty years ago there were seven Protestant missionary societies. To-day there are over seventy such societies, together with seventy-two Women's Foreign Missionary Societies and many other auxiliary ones. Twenty-five years ago the first missionary landed in Japan. In Calabar no native could become a Christian under pain of instant death owing to the Juju's, but these are now away there. But the rebellion of 1868 was a great triumph for Christ, and had swept every barrier away. In 1840 Ebbone, the first Protestant missionary went to the Northwest to do work among the Indians there. Look at the grand and triumphant results there and in China, Japan, everywhere, no matter where. We are calling for one hundred more missionaries and $2 000 000 to carry on the work. You say it is impossible; you cannot get it; you cannot raise it. During the years of the Crimean war the English Government furnished 782 000 men, whose blood the land drank, an expended for purposes of war $300 000 000. This much was done to carry on the war. Already the universities and colleges of Canada and America are educating 5000 young men, waiting for the money to be raised in order to afford them the coveted opportunity for employment in the work. The preacher closed by urging upon all the necessity of giving liberally to this great cause, which he said was one of the greatest institutions of the church, and laid very near his heart.

Foggy Days in London.

The results of twenty years of study of London fogs was given in a paper presented by F. J. Brodie at the last meeting of the Royal Meteorological Society. Mr. Brodie stated December is the worst month for fog, the average number of foggy days in that month being 10.2 as compared with 9.2 in October, 8.8 in November, 8.9 in January and 6.6 in February.

Humorosities.

"I suppose ha! ha! simpered young Slimpate, "you ladies can't help remembering once in a while that this is leap year?" "I confess I hadn't thought of it this evening at all," coldly replied Miss Quickstep.—Chicago Tribune.

Ready for Inspection.—New boarder—Where is your mother, Bubby? She said she was going to show me a room. Bubby—Mom will be here soon. She's up in that room now a-warming the thermometer.

It has been suggested that the secret of antediluvian longevity was some method of keeping the blood pure, warm and vigorous. Moderns accomplish the same purpose by using Ayer's Sarsaparilla—the best blood medicine ever brought to light.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take. dw

THE BEST FAMILY PILL IN USE

FOR SALE BY ALL DEALERS

Keep the Works in good order.

Norman, Ont., January 15, 1890.

W. H. Comstock, Brockville, Ont.

Dear Sir,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. Atwell.

The Travellers' Safe-Guard.

Amagaudus Pond, N.S., Jan. 27, '90.

W. H. Comstock, Brockville, Ont.

Dear Sir,—For many years, I have been a firm believer in your "Dr. Morse's Indian Root Pills." Not with a blind faith, but a confidence wrought by an actual personal experience of their value and merit. My business is such that I spend much of my time away from home, and I would not consider my travelling outfit complete without a box of Morse's Pills. Yours, &c.,

"German Syrup"

G. Gloger, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else how remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's German Syrup. Last winter a lady called at my store, who was suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief." ⑦

Coughs, Sore Throat, Hoarseness,

BBB

THE GUIDING STAR TO HEALTH.

BURDOCK BLOOD BITTERS

Regulates the stomach, liver and bowels, unlocking the clogged secretions and carrying off all foul humors and impurities from the system, thus curing dyspepsia, biliousness, constipation, headache, scrofula, salt rheum, sour stomach, dizziness, heartburn, rheumatism, and all diseases of the stomach, liver, bowels and blood. It antagonizes all blood poison, removing all impurities from a common pimple to the most scrofulous sore.

ITS EFFECTS IN HEADACHE are truly surprising, having made complete cures in obstinate cases of more than 20 years' standing, which had resisted all other treatment. As a

SPRING BLOOD PURIFIER

it has long held first place, and continues to be esteemed by press and people, the best and purest remedy ever devised to remove tired feeling, restore elasticity and buoyancy to the constitution, and tone up the entire system to bounding health and strength.

Price $1 per bottle, 6 for $5, or less than 1c. a dose.

Burdock BLOOD BITTERS

Sold by all Druggists.

Cook's Cotton Root COMPOUND.

A recent discovery by an old physician. *Successfully used monthly by thousands of* LADIES. Is the only perfectly safe and reliable medicine discovered. Fashion Notes.

A mauve and crystal head bodice is charming.

The moderately high Medicis collars rolled with the fronts are decidedly becoming.

A passementerie of white tinsel leaves is edged with gold tinsel and gemmed with big pearls.

Pretty collars and cuffs are made of Irish lace edgings by gathering them on ribbon run through the meshes.

Good slippers in fanciful designs are the newest fad, they combine so beautifully with every shade of ball-gown.

Irish guipure, point de gene, and the heavier Russian lace are inexpensive but often extremely pleasing.

Plenty of ribbons are used in trimmings; *the most* elegant are brocaded or striped, or both, and they should match in color the material of the dress.

Black stockings are apt to assume a greenish look after repeated washings. We are told that a simple way of preserving the color is to wash them in water free of soda, and in the last rinsing water to add a tablespoonful of good vinegar. Wring them out and clap them into shape. A hot iron tends to destroy the color, particularly if they are wet.

Lions in the Way.

Ethel, whose utmost ambition is to attain to good manners and who *greatly* desires to be considered one of the best-bred of little girls, finds many obstacles in her progress towards that goal. An impetuous little tongue and a willful little temper are lions in her way. One day when she had been more overborne by these infirmities than usual and had been reproached by her mamma for impoliteness to some little friends, she exclaimed despairingly: "O, dear, mamma, I don't believe I shall ever have any manners; not a *single* manner!

Knows How It Is Himself.

Mr. Labouchere, in horror and defiance of the suffrage idea, exclaims: "Women are incomprehensible creatures and capable of anything; by turns angels and demons. And there are men who would see them vote. I would sooner give children razors and scissors to play with." But Mrs. Labouchere, a clever and graceful speaker upon political subjects, is frequently heard upon the platform at women's Liberal meetings. Political controversies must be frequent and interesting in the Labouchere household.

She Treed Him.

She—What is that little silver design on your lapel?

He—Examine it.

She—It's a tiny tree with an axe lying near.

He—Exactly. It means that I only need to be axed.

Dan's Diamond.

A funny incident is related of Dan, an ostrich in Robinson's circus. Dan died lately in Cincinnati, of la grippe.

Six months ago, while the circus was exhibiting at Montreal, Dan was impertinent and dishonest enough to deliberately pick off a diamond from a gentleman's shirt front. The gentleman was gazing at Dan at the time, and it was certainly very unkind of Dan so to reward his admiration, but he did.

The gentleman remonstrated about the matter, but Dan absolutely refused to return the stolen property or to give any equivalent for what he had taken.

But the gentleman to-day is rejoicing in his recovered diamond. After Dan died, the diamond was found where he had secreted it—in the coating of his stomach. And perhaps the Montreal gentleman values it more highly because of its queer adventure and strange resurrection.

What a Fall Was There.

He was declaiming the woodshed at the top of a 14-year-old voice:

"F-r-i-e-n-d-s! R-o-m-e-y-e-n-s! C-o-u-n-t-r-y-m-e-n!"

At this moment his mother came up behind him and added *the missing link.*

"Lend me your ears!"

Then she marched him off into the house by those aural appendages and set him to work paring the potatoes for dinner.

Mr. C. Harper, Ottawa, Ont., writes: "I have pleasure in stating that your Pink Pills are a wonderful tonic and reconstructor of the system. Since beginning their use I have gained on an average a pound of flesh a week. I have recommended them to a number of my friends, who declare that they are the only medicine that they have ever used that do all that is claimed for it. Sold by all dealers. dw

News About Town

It is the current report about town that Kemp's Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle *free of cost.* It is guaranteed to relieve and cure. The large bottles cost 50c and $1. dw

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or prickly sensations about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, nervousness, timidity, sunken eyes surrounded with leaden circle, oily looking skin etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, palpitation, numbness, palpitation, skip beats, hot flashes, rash of blood to the head, dull pain in the heart with beats strong, rapid and irregular the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

CROUP.

Its Proper and Sufficient Treatment Till the Doctor Comes.

To begin with croup, that terror of all parents whose children are subject to this *malady. The* mother who has once been roused by the hoarse barking cough so unmistakable in its warning is never likely to forget the thrill of terror which seemed to make her very heart stop beating. No matter whether it be true or false croup, the alarm at the moment is the same, and in neither case is there any time to be lost. If the cough does not seem very tight, and is not accompanied by strangling, begin giving syrup of ipecac in doses of fifteen drops every twenty minutes. Continue this until the child's breathing is relieved, or until he vomits. But should he awake with symptoms of choking and great difficulty of breathing, administer at once a teaspoonful of the ipecac into which has been stirred a good pinch of powdered alum. Should this not cause vomiting in fifteen minutes, repeat the dose, and assist its action by making the child drink a cupful of warm water. Place him in as hot a bath as he can bear—about 100 degrees—and keep him there at least ten minutes, spreading blankets over the tub to prevent the water cooling. He should be supported in a reclining position, so that as much of his body as possible may be under water. When he is taken out, roll him at once in heated blankets, and put him to bed in a warm but well-ventilated room. He may sometimes be relieved by inhaling steam. It possible, get a doctor immediately.

Take great care the day after croup that the child is not exposed to cold. There used to be a comforting theory current that no child ever had croup after midnight, but, alas! time and experience have proved this a pleasant fallacy.—Harper's Bazar.

Uncomfortable Wedding Ring.

The Bayanzi, who live along the Upper Congo, have a strange custom which makes life a burden to the married woman. Brass rods are welded into great rings around the necks of the wives. Many of these rings worn by the women, whose husbands are well to do, weigh as much as thirty pounds, and this burden must be carried by the poor creatures as long as they live. Frequently one sees a poor woman whose neck is galled by the heavy weight and in places the skin is rubbed off by the ring. This is a sure sign that the ring has been recently welded around the neck. After a short time the skin becomes calloused and then the strange ornament produces no abrasion. The weight is a perpetual tax upon the energies. In every crowd of women may be seen a number who are supporting the *ring* with their hands, and thus for a time are relieving their weary shoulders of the burden. A ring is never put around a woman's neck until she is believed to have attained her full physical development. Once on it is no easy matter to get it off. The natives have no files, and, although they can hammer a lot of brass rods into one, it is very difficult for them to cut the thick mass of metal. Women who increase largely in flesh after the rings have been fastened on their necks are in danger of strangling to death, for instances of this sort have occurred. The women, however, regard the curious ornament with pride, imagine it enhances their importance and beauty, and wear their burdens with light hearts. Brass is the money of the country and in putting it around their wives' necks the men are certain that it will not be stolen or foolishly expended. — Boston Courier.

When you buy your spring medicine you should get the best, and that is Hood's Sarsaparilla. It thoroughly purifies the blood.

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of a flesh and blood maker, and has been used with marked success by the physicians in the insane asylum, penitentiary and Hotel Dieu, and general hospital, Kingston. In big bottles at 50c. and $1 00, at Peterborough drug stores. dw

PAIN from indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this. dw

It Leads the Leaders.

The foremost medicine of the day, Burdock Blood Bitters, is a purely vegetable compound possessing perfect regulating powers over all the organs of the system and controlling their secretions. It so purifies the blood that it cures all blood humors and diseases from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, renders it unequalled as a cure for all diseases of the skin. From one to two bottles will cure boils, pimples, blotches, muddy rash, scurf, tetter, and all simple forms of skin disease. From two to four bottle will cure salt rheum or eczema, shingles, scrofula, ulcers, abscesses, running sores, and all skin eruptions. It is noticeable how quickly it effects from skin diseases are relieved and aggravated by intolerable itching. But this quickly subsides on the removal of the disease by B. B. B. Passing on to graver yet prevalent diseases such as scrofulous swellings, humors and scrofula, we have undoubted proof that from three to six bottles are internally and by outward application (where the skin is broken) to the affected parts, will effect a cure. The great mission of B. B. B. is to regulate the liver, kidneys, bowels and blood, to correct acidity and wrong action of the stomach and to open the channels of the system to carry off all clogged and impure secretions, allowing nature thus to aid recovery and remove without fail bad blood, liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disorder of the liver, kidneys, bowels, stomach and blood.

We guarantee every bottle of B. B. B. Should any person not receive relief after using the first bottle, we will refund the money on application, personally or by letter. We will also have [illegible] and information proving the efficacy of B. B. B. in the above named cases on application to T. MILBURN & Co., Toronto, Ont. dw

CARTER'S LITTLE LIVER PILLS.

CURE Sick Headache and relieves all the ter[rible] dent to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

What would you like —in the way of a corset?

Something that's easy and comfortable, with "bones" that can't break, kink or roll up—something that fits like a glove and clasps the figure closely.

Then you want the B. & C. Corset.

If you find that you don't, after wearing for two or three weeks, you have only to return it and get your money back.

ASK YOUR DRY GOODS DEALER FOR THESE CORSETS. dw

I HAVE GAINED STRENGTH!

"I could have reported a month or two sooner, but I wanted to see if the cure was permanent, and can safely say that I believe it is. I weigh fifteen pounds more than I did when I commenced. I have gained strength and that general enervation has disappeared. I will always remember you as my benefactor."

The original of above is on file in our office. It is No. 56 in a collection of over 2,000 similar letters from patients. We have a

RATIFY THE TREATY FIRST.

What is Lord Salisbury's Ultimatum to Mr. Blaine.

LONDON, March 28.—Lord Salisbury, under date of March 26, has replied as follows to Sir Julian Pauncefote in response to Mr. Wharton's note, March 22: "In reply to your telegram of the 23rd inst. notice has been given to owners of ships sailing for Behring Sea that both agreements at present under discussion, between Great Britain and the United States, that as to arbitration, and that as an intermediate arrangement may affect liberty of sealing in Behring Sea, they have, therefore, notice of their liability to possible interruption and will sail subject to that notice. The question of time is not therefore urgent.

Inform the President that we concur in thinking that when the treaty has been ratified there will arise a new state of things. Until it is ratified our conduct is governed by the language of your note of June 14, 1890. But when it is ratified both parties must admit that contingent rights have become vested in the other which both desire to protect.

We think that the prohibition of sealing if it stands alone will be unjust to British sealers if the decision of the arbitrators should be adverse to the United States.

We are, however, willing when the treaty has been ratified to agree to an arrangement similar to that of last year if the United States will consent that the arbitrators should in the event of a decision adverse to the United States assess the damage which the probibition of sealing shall have inflicted on British sealers during the pendency of the arbitration, and in the event of a decision adversed to Great Britain, should assess the damages which the limitation of slaughter, shall during the pendency of arbitration, have inflicted on the United States or its lessees.

As an alternative case we are also willing after the ratification of the treaty to prohibit sealing in the disputed water of vessels be excepted from prohibition which produce a certificate that they have given security for such damages as the arbitrators may assess in case of a decision adverse to Great Britain the arbitrators to receive the necessary authority on that behalf. In this case a restriction of slaughter on the islands will not in point of equitp be necessary. Her Majesty's Government are unable to see any other than one of these two methods of restricting seal hunting in the disputed waters during the arbitration which would be equitable to both parties.

A later note from Lord Salisbury to Sir Julian Pauncefote, dated March 26, says:

With further reference to your telegram of the 23rd inst. I am not prepared to admit as I gather that the President thinks that we have objected to the arbitrators having jurisdiction as to damages inflicted in the past by the party against whom the award is given. I only objected to Her Majesty's Government being liable for acts they have not committed. I am ready to consent to a reference on this point on the following terms: "That in case the arbitrators shall decide in favor of the British Government that Government may ask them further to decide whether the United States Government have since 1885 taken any action in Behring directly inflicting wrongful loss on British subjects, and if so to assess the damages incurred thereby; that in case the arbitrators shall decide in favor of the Government of the United States that Government may ask them to decide further whether the British Government have since 1885 taken any action in Behring Sea directly inflicting wrongful loss on the United States or their lessees, and if so to assess the damages incurred thereby."

WASHINGTON, March 27.—The note of Sir Julian Pauncefote of June 14, referred to in Lord Salisbury's reply of the 26th, expresses regret that assurances had not been given that British sealing vessels would not be interfered with by the United States revenue cruisers in the Behring Sea outside of territorial waters during the continuance of negotiations, and protesting against any such interference with the vessels of British subjects in the prosecution of their legitimate industry on the high seas.

The protest expresses the anxiety of Her Majesty's Government to co-operate with the Government of the United States in such measures as may be found to be expedient for the protection of the seal fisheries. But they cannot admit the right of the United States of their own sole motion to restrict for this purpose the freedom of navigation of Behring Sea. In protesting against such interference Her Majesty's Government will hold the Government of the United States responsible for the consequences that may ensue from such interference with British vessels.

LONDON, March 28. Referring to the reported article between Russia and the United States in the matter of the Behring Sea question, The St. James' Gazette today says: "Both sides know that the United States is not going to war with Great Baitain, but we cannot allow Russia to interfere." Some of the London papers fear a conflict might be precipitated by the indiscreet action of naval officers. Vice-Admiral Sir Nowell Salmon has written a letter which is published to-day in which he says that the commanding naval officer will be instructed to capture any vessel, whatever flag she sails under, that he finds catching seals within what the United States claims to be mare clausum, using force if necessary, The British commanding officer will be ordered to forcibly prevent any such interference with British vessels. "If both officers execute their instructions," Admiral Salmon asks, "how can a collision be avoided."

LONDON, March 27.—In the House of Commons Mr. Fenwick (Liberal), a working collier, moved a resolution in favor of the payment of members of the House of Commons £365 a year, in order to enable representatives of the industrial classes to be elected.

Mr. Balfour admitted that there was much to be said in favor of the resolution, but he thought it would destroy the freedom, independence and dignity of parliamentary government which the country had enjoyed for centuries.

Sir George Trevelyan (Liberal) supported the resolution.

The resolution was rejected 227 to 162.

The Touch of Sympathy.

Some time ago a certain woman lost her little baby. It was an only child, and of course the mother thought there never was and never would be another half so nice. And when the little thing breathed its last she was inconsolable. While the narrator was at the house a neighbor came in, and precipitating herself into the childless woman's arms, she exclaimed, "Poor Mrs. B——, I know just how you feel. I've been through it all myself. Last week my pet kitten died!"—Lewiston Journal.

HANGED WHILE SMILING.

Welcomes Death With a Hope That He Would Meet Nothing But Happiness.

LOUISVILLE, Ky., March 28.—Henry Smith, a negro, was hanged in the jail yard Saturday morning. When he mounted the scaffold Smith, whose courage had never left him, stepped to the front and made a short speech. He said he had nothing to say but to welcome death. He was satisfied that he would pass into that world where there was nothing but happiness. He closed with a fervent amen.

He then stepped on the trap. As the noose was put around his neck Smith laughed and said, "be careful." He was smiling all the while. The drop fell at 6.22 and at 6.38 he was pronounced dead. His neck was broken.

The murder for which Smith was executed was committed on the afternoon of May 18, 1891. Without provocation he shot down his employer, Louis Specht, a white man. After lingering five days Specht died.

CHILD MURDER.

Shocking Find at Niagara Falls—The Case is Shrouded in Mystery.

NIAGARA FALLS, N.Y., March 28.—J. V. Banks made a horrible discovery in a field at the corner of Pine-street and Portage-road, near Oakwood cemetery, Wednesday afternoon, which has greatly shocked our community. While repairing a fence he noticed a pile of loose dirt and thinking it very strange he proceeded to investigate. He found a cigar box hardly covered with earth which contained a child prematurely born. The body was cramped into the small space and wrapped up in a newspaper, the New York Mail and Express.

Dr. McCarthy made an examination which showed a pure case of abortion. The fœtus appeared to be about six months old and was probably a female. The body was slightly decomposed, and it had probably been buried for several weeks. Owing to the earth being frozen the guilty parties did not take the pains to bury it very deep. The cold weather kept the body in good condition.

Coroner Walsh took charge of the remains and empanelled a jury. The inquest will be held to-night.

Up to Thursday night Coroner Walsh had found no trace of the guilty parties and it is extremely doubtful if anything will be brought to light at the inquest.

HOW THE STRIKE WAS AVERTED.

Concessions By the G.T.R. Company to Its Conductors and Brakesmen.

MONTREAL, March 28.—Messrs. Wilkins and Morrisey, the trainmen's delegates, left Montreal for the west Saturday night. One of the delegates said on leaving: "To-day the superintendents were out all over the line to meet the men, ascertain their grievances and rectify them. Such being the case, our mission here is ended."

Mr. Wainwright furnishes the list of concessions made as follows: We agree to advance the pay of passenger conductors 25 cents per day of 150 miles, to furnish them with two complete suits of uniform, instead of one suit and a pea jacket, as at present, and to equalize their pay on local runs.

To the brakemen we offer the reduction of the present number of grades, which will put more men into the highest class for pay. We will furnish them with cap and official buttons for their clothing as well. We admit that there are inequalities in their allowances, and we are not only willing, but anxions to abolish them and do full justice to the men.

They Had to Eat the Dog.

NEW YORK, March 28.—During the trip of the Minnie Laurie from Hayti to New York the provisions gave out and the crew began to eat coffee and cocoa beans. Two days passed without a morsel of substantial food touching their lips. Then, in a moment of desperation, somebody suggested killing the dog. One of the sailors brought Jack upon the deck, and he was quickly shot. The cook took charge of him, and that night the sailors revelled in choice dog steak. Jack lasted for two days, and on the third day a sail hove in sight and a stock of provisions was secured.

A Londoner's Dramatic Suicide.

GRAND RAPIDS, March 28.—J. C. Mustill, blacksmith, grabbed a butcher knife from a Bridge-street saloon free lunch counter last night, slashed the blade across his throat, replaced the knife and walked out without attracting attention. The blood on the floor led to an investigation, and following the traces Mustill was found in the rear of the building dying from his injuries. In his pocket was a letter from his wife signed "Daisy," regretting that she had run away from him and attributing her error to drink. On the back of the letter was scrawled in the dead man's handwriting a request that his body be shipped to London, Ont., where he formerly lived and where he has relatives.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. MILLINERY
OPENING
—AT—
TURNBULL'S
—ON—
TUESDAY AND WEDNESDAY,
April 5th and 6th.

Our commodious Millinery Show Rooms will be formally opened to display all the Novelties, in Millinery, of the season on April 5th and 6th. We could have opened a week earlier, but thought that the weather might be unseasonable and it also gives us a longer time to make preparations for a more elaborate display. We have taken every advantage to procure New and Cheap Goods in order to make our Millinery Rooms unusually attractive.

SPRING MANTLES AND WRAPS.

There will also be on display a magnificent stock of Imported Spring Wraps and Jackets.

WHITE UNDERWEAR.

Ladies when in the show room will do well to examine our large stock of White Underwear.

PRINCE MICHAEL JAILED

ON COMPLAINT OF HIS ST. THOMAS WIFE.

One of His Spiritual Wives Also Locked Up and Five of the Angels Held as Witnesses—The Long-Haired Prophet Treats His Captors With Contempt.

DETROIT, March 29.—Prince Michael (M. K. Mills) is in the lock-up. The long-haired prophet and Elizabeth Courts, one of his spiritual wives, were arrested on a charge of adultery preferred by a St. Thomas, Ont., woman. Detectives swooped upon the "God house," and informed the Prince and Miss Courts that they were wanted. Both had been informed of the impending arrest and took matters very coolly.

James Daily, "Lucifer" Durand, Joseph Bell, Jennie Sutton, Bernice Bickley, Alice Courts, Clara Bendie and May Webster were also taken into custody as witnesses.

The women are all "angels," and members of Michael's household.

"Come in, gentlemen," remarked the Prince, when Detective Boeberitz rang the door bell. Michael shook hands very affably with all the visitors, and was very solicitous of their spiritual welfare.

"I am prepared to go even unto death to save my beloved people," remarked Michael. "E'en unto crucifixion, as I did nearly 2000 years ago. Lead on, I am prepared to follow the scoffers and unbelievers."

"I Am the Great I Am."

"I Am the Great I Am," shouted Michael as he mounted the steps of the patrol wagon. "Glory; we will follow thee," responded the faithful.

They were tumbled into the wagon and driven to the police station.

Asked his age, Prince Michael replied dramatically: "Before Abraham was I was. I don't know my spiritual age." His temporal age was given as 35.

A search of his person disclosed but $46 in currency.

Eliza Courts, his alleged paramour, gave her age as 49, and she looked it.

Mrs. M. K. Mills, the Prince's real wife, who made the complaint against Michael and Lizzie Courts, charging adultery, fears bodily harm if she returns to the colony and will be the guest of the wife of Sheriff Hanley until the case is concluded.

The Neglected Wife's Story.

The story of Mrs. Mills' wrongs goes to show that she has been a fearfully abused and maltreated woman. She has been kept bound 12 hours hand and foot by Prince Michael and the Courts woman, and that she was not only so bound but that she was exhibited to the other angels of the God house as an example of what would happen if any one should dare to rebel against the Prince who claims he expects to become Jesus Christ.

Mrs. Mills, who has been married to the prince for 15 years, says her married life was happy enough until they ran across Eliza Courts in Illinois, but that since that unhappy event she has been compelled to stand aside to make room for Eliza and in reality has been little more than a slave for the Prince and his paramour.

After prosecuting the two she will return to her former home near St. Thomas, Ont.

Prince Michael (M. K. Mills) is a native of Elgin County, Ontario. He is a grandson of the Rev. Thomas Mills, one of the pioneers of the county, who in the earlier days took up land in the 2nd concession of Yarmouth. The elder's son married a Miss Fordyce. They had five children, one of whom was Prince Michael. Michael worked for some years in an ax handle factory in South Yarmouth. He possessed a certain amount of mechanical genius, but in other respects was a very commonplace individual. He took the world easy and it was never supposed by the neighbors that he would win either fame or fortune. He finally married a nice young girl, well connected, the adopted daughter of a leading farmer. She it is who now has him arrested.

MANY VESSELS BURNED.

A Lighted Match Dropped by a Sailor Causes Considerable Excitement.

BARCELONA, March 29.—In the harbor here a sailor on a lighter which was transporting petroleum from an American ship to the docks dropped a lighted match on one of the barrels. The barrel took fire and in a moment was ablaze. The fire leaped from stem to stern and the crew of the lighter jumped and swam ashore or to other boats. The lighter drifted around in the harbor, a mass of flames, and the burning oil ran out on the water. Six vessels at anchor near the spot where the lighter took fire tried to get away, but the rapidity with which the blazing oil was blown toward them left them no time. The corvette Thyria caught fire at the water's edge and those of the crew on board had to get away on the other side in small boats or jump and swim until picked up. The corvette's decks were on fire within a few minutes and the vessel was burned to the water's edge and sank within an hour. The four steamers Cassila, Albono, Waller and Pi caught shortly after the Thyria was abandoned. Their crews had already got away. Attempts were made to tow them away from the other shipping and to bring streams of water from other boats to bear upon them, but the oil in the harbor rendered these attempts so unsafe that no volunteers could be kept at the work. The warship Lapanto was started from her moorings but before she could get under way one of the burning steamers swung up beside her and her rigging caught fire. Before this could be extinguished burning brands were blown on the deck by the rising wind and the commander was unable to keep the few men not absent on leave at work fighting the flames. They lowered the boats and with the aid of a launch which had come out to them escaped unhurt. The Lepanto sank this evening. The launch Caiman also was burned and sunk.

Not a life was lost, although several men were injured while trying to beat back the flames from the Lepanto. The wildest panic prevailed among the ships in the harbor during the fire and many that were at a distance from the lighter when it took fire saved themselves only by standing seaward immediately. The spectacle of the six burning ships was watched by thousands on the docks.

Diseases of the Chest and Lungs.

These diseases are too well known to require any description. How many thousands are carried every year to the silent grave by that dreadful scourge, consumption, which always commences with a slight cough. Keep the blood pure and healthy by taking a few doses of Dr. Morse's Indian Root Pills each week, and all cases of any kind is impossible. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

THE REPLY ACCEPTED.

HARRISON ACCEPTS THE OFFER OF SALISBURY.

The Modus Vivendi Will Be Extended and the United States Will Agree to Stand the Costs in Case of an Adverse Decision.

LONDON, March 28.—In the House of Lords Lord Herschell asked whether Lord Salisbury would give further information as to whether there had been any modification in the terms of Behring Sea modus vivendi.

Lord Salisbury replied that the information the Government had laid upon the table contained the whole correspondence concerning the matter that had been exchanged up to within 24 hours of its publication. He had absolutely no later information.

Continuing, Lord Salisbury said: "I shall not hazard any comment on our views or those of the United States. I do not see any advantage in a discussion of the correspondence at this stage. I have perhaps deviated from my usual course in disclosing the entire correspondence before the negotiations are concluded, but I thought it only fair and tending to promote a due appreciation of the questions at issue to put the whole matter before Parliament and the public."

Harrison Says He Is Well Pleased With Salisbury's Ultimatum

WASHINGTON, March 29.—The President devoted yesterday morning to consideration of the Behring Sea matter with a view of framing an answer to Lord Salisbury's note of the 26th inst. He had the benefit of the advice of Secretary Blaine, Senator Sherman and General Foster, who were in conference with him on the subject for some time. It is understood the President is pleased with Lord Salisbury's present attitude and will accept his conditions for a modus vivendi.

The Senate during the morning hours discussed with some slight incidental reference to the Behring Sea matter the proposition to transfer the revenue marine service to the navy.

At 2 p.m., on motion of Mr. Sherman, the Senate went into secret session on Behring Sea question.

Lord Salisbury's last communication to the President stating the grounds upon which he would consent to renew the modus vivendi as to Behring Sea was laid before the Senate soon after it went into executive session this afternoon. The President added to the letter the statement that Lord Salisbury's reply was very satisfactory to this Government and that he was preparing an acceptance of Lord Salisbury's tender with a few modifications that could doubtless be arranged without difficulty.

Canadian Railways in the U. S.

WASHINGTON, March 29.—Senator Gorman reintroduced his bill of last Congress prohibiting Canadian railroads from doing business in the United States until they comply with the Interstate Commerce Act.

SEEKING A TENTH WIFE.

Remarkable Man Who Has Been a Groom Nine Times.

PEEKSKILL, N.Y., March 29.—Having already laid nine wives in the grave, Barton Turner, a widower of 81 years, is looking for wive Number 10. Outside of the land of the Mormons he is supposed to beat all previous American records for marrying. He waited until he was 26 before wedding his first wife. She died in three months, but No. 2 lived for 29 years. Since then he has been a groom and a chief mourner at funerals in rapid succession. After exhausting the marriageable materials of this town 20 years ago, he went to Poughkeepsie, got four in that neighborhood and now comes back here and is eagerly looking for a tenth wife among the granddaughter's of his first wife's neighbors.

Nova Scotia's Budget.

HALIFAX, N.S., March 29.—In the House of Assembly yesterday Premier Fielding made the annual financial statement of the province, from which it appeared the total expenditure for the past year was $692,538, the largest item being $215,484 for education. The revenue was $661,541, leaving a balance against the province of $30,997. The largest items of income were $432,822, Dominion subsidy, and $169,287 from mines royalties.

Electrocution of Cotto.

SING SING, N.Y., March 29.—Cotto was electrocuted at 10.55 a.m. yesterday. The execution differed but little from those which have taken place in the past. Cotto murdered Louis Frank Elosa, in New Utrecht, L.I. He was with Elosa's wife and the pair wanted to get rid of Elosa.

Spots of Sport.

Bob Leadley has been signed to manage the Eastern League team at Buffalo.

A permanent organization of the cycling clubs of New York, Brooklyn and New Jersey has been effected.

A triangular inter-collegiate league has been formed in Maine by Bates, Colby and Bowdoin. Each nine plays 4 games with each of the other two clubs.

Billy Rhines, the crack young pitcher of Cincinnati, broke his left collar bone while practising in a gymnasium and will not be able to go into the box for three weeks.

Eddie Burke has signed with Cincinnati. Ed. Crane will play with a Boston semi-professional nine. Mike Slattery has promised to try and put a Haverhill club in the New England League. This trio possessed the freedom of Toronto at one time.

London parties are evidently going to stand by their Queen's Plate candidates, or especially Alberta. The Forest citizens sent down a lot of money last week for the winter books and backed the Hodgens filly heavily at 20 to 1 and 14 to 1, the latter figure having been forced on Saturday. Bay Court, the other London candidate, was not so much in demand. Berlin and Waterloo money came in fast on Seagram's O'Donoghue, the latest odds against the b.c. being 6 to 1, which makes him the present favorite for the guineas. Next comes the Woodstock filly and a fair amount at 8 to 1 was placed on Japonica. Gorman's Gladstone already carries considerable. Not a dollar has been placed on either of the Hendrie fillies.

Judicial Vacancy Filled.

OTTAWA, March 29.—Hon. P. L. Hanington of Dorchester, N.B., formerly Premier of New Brunswick and at present leader of the Conservative Opposition in the Local Legislature, has been appointed to the Provincial Supreme Court judgeship rendered vacant by the death of Judge Wetmore.

Increase in Railway Rates.

MONTREAL, March 29.—The railways are contemplating an increase in through rates from England and also in local freight charges. The new spring tariffs have not yet been issued, but it is understood there will be something like a 20 per cent. advance.

AFTER JUDGE ELLIOT.

LONDONERS PETITION PARLIAMENT TO REMOVE HIM

Alleging That He Is a Political Partisan, and His Continuance as a Judge Would Tend to Destroy Public Confidence in the Administration of Justice.

OTTAWA, March 29.—Mr. Lister presented a petition in the House yesterday signed by a large number of electors of the city of London, which, summarized, sets forth that William Elliot is a judge of the County Court;

That appeals were made against the names of 640 Conservatives on the electors' lists;

That the persons objected to claimed that the appeals could not be heard, for the reasons that the objections taken were invalid, inasmuch as the words "not qualified" were simply used;

That the revising officer held the notices insufficient, but not invalid or void, and gave leave to the appellants to serve amended notices, which was done;

That the appeal was taken from his decision to Judge Elliot, who decided that the notices were invalid, but that he had no authority to interfere with the revising officer's power, and ordered an amendment to adjourn the court; that the revising officer, upon that expression of opinion by Judge Elliot, refused to proceed with the trial of the appeals. Application was then made to the Queen's Bench for a mandamus to compel the revising officer to go on with the trial, and that court unanimously decided that the notices were valid and ordered the revising officer to go on with the appeals.

That the revising officer went on with the trial, and after hearing all the evidence struck off 228 names. An appeal was then taken by the Conservatives from the Queen's Bench Division of the Court of Appeal, and the three judges of the court held that the original notices were valid and expressed amazement that there should be any question about it. This expression of opinion of the Court of Appeal was given at the express request of Mr. Hellmuth, who was acting for the Conservatives, he stating to the court that he wanted an expression of opinion for the guidance of Judge Elliot.

That Judge Elliot did not give any judgment, his reasons being that the Conservatives gave notice of appeal to the Supreme Court.

That this appeal was abandoned and that after the election Judge Elliot gave judgment, again holding that the notice was invalid and that the names struck off by the revising officer should be retained on the lists. Of these 131 persons voted, 128 for Carling and three for Hyman. Without these votes Hyman had a majority of 22 votes.

That the said Judge Elliot, during the election and while the appeals were pending, contributed editorials and wrote, under an assumed name, articles to The London Free Press of the most violent and partisan character, bearing upon the revision of the voters' lists and political questions and particularly upon the election for Carling and against Hyman; that after the election and before he decided the appeals he—in strong and violent language—denounced Hyman and his supporters and stated that Carling was certain of the seat.

It is charged that the conduct of Judge Elliot in writing these newspaper articles pending the appeals and in making the declarations he did and in afterwards carrying out the spirit of such articles by overruling a judgment of the Queen's Bench Division of the Court of Appeal shows him to be a violent political partisan, incapable to give judgment on a subject of such importance as these appeals, and that he is wholly unfit to exercise judicial functions on the matter of such appeals, and that he subordinated his decision as a judge to his desires as an active and bitter partisan, and that his continuance in the position of a judge owing to his extreme partisanship will tend to destroy public confidence in the administration of justice, and that the petition be taken in favorable consideration, etc.

Mr. Pridham, who defeated James Trow in South Perth, and Hon. John Hearn, successor of Hon. Thomas McGreevy in Quebec West, were introduced to-day and took their seats amid Conservative cheers.

Indian Lands in British Columbia.

The British Columbia members made a move to-day in favor of an amendment to the Indian Act which would enable the Government to sell Indian reserves in that province for the benefit of the Indians, but got severely sat on by the Minister of the Interior, who plainly and flatly said that he would not consent to giving a lot of land grabbers a chance to gobble up the Indian lands.

Mr. Barnard, in moving for papers giving details about Indian reserves, advocated the selling of the lands on the grounds that the British Columbia Indians would never become farmers and that they would neither use the lands themselves or allow others to utilize them.

The little debate which sprang up before the motion for the return was carried developed the curious spectacle of Hon. David Mills and Billy Paterson of Brant supporting the policy of the Government and urging that the present policy with regard to Indian lands should be maintained.

Gave Up Its Dead.

PETERBORO, March 29. The body of Richard Wigmore, jr., who [illegible] missing from Norwood since December, was found floating in the river near Mathews' packing house on Sunday. The body was terribly decomposed.

Pat Rooney, the Actor, Dead.

NEW YORK, March 29.—Pat Rooney, the well-known Irish comedian, died in this city yesterday of pneumonia. He had just returned from Wilmington, Delaware.

Terrible Snowstorms in Britain.

LONDON, March 29. [illegible] storms are again reported in the north of Wales, England and Scotland, with the drifts from two to five feet in height.

The storm was terrible off Berwick, and it is feared the Newcastle steamer Halmrook foundered, with the loss of 12 lives.

A [illegible] was washed ashore there and a portion of a vessel and her masts are visible from Berwick.

Timely Notification.

PARIS, March 29.—On the roof of a house occupied by policemen was found to-day the following inscription: "This house will shortly be blown up with dynamite."

At a meeting of the Municipal Council to-day M. Lose, replying to questions, announced that all of the authors of the recent dynamite outrages except two had been arrested.

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as Headache, Dizziness, partial deafness, loss or impairment of smell, foul breath, hawking and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of Nasal Balm. Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. Nasal Balm is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., Brockville, Ont.

NEVER FAILS. CURES COLD IN HEAD AND CATARRH

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 25c. a month, $2.00 for six months.

Daily Examiner.

TUESDAY, MARCH 29, 1892.

Every Province Has Felt Its Wonderful Effects.

It can be safely asserted, that no other remedy has so quickly met with favor and approbation in Canada, like Harvard Bronchial Syrup. Every province in the Dominion has felt its wonderful effects. Men and women ask for it, and will take no other; and druggists find it to their advantage to keep it in stock, so great is the demand.

A Lower Province druggists says:—"Our people ask for Harvard Bronchial Syrup, and will have no other. Of course I am aware of its good qualities, and do not feel surprised at the large and increasing sales.

An Ontario druggist writes:—"Send me another gross of Harvard Bronchial Syrup; it is the best cough and cold remedy I ever sold. All my customers speak well of it, and recommend it to their friends."

A Winnipeg druggist writes:—"Harvard Bronchial Syrup is taking the place of all other cough remedies in this city. Once used it always becomes the favorite, owing to its very prompt action."

A St. John, N.B., druggists says:—"Your great cough, croup and throat remedy, Harvard Bronchial Syrup, is meeting with phenomenal success here. It is a most valuable preparation, and must become the best seller in every drug store. It certainly deserves success."

Douro.

Council Meeting.

(From Our Own Correspondent.)

Douro council met at the Town Hall on Monday, March 21st, 1892. Present, John Maloney, Reeve, and Councillors Garbutt, Walsh and Bullock. The minutes of the previous meeting were read and confirmed. Moved by Mr. Garbutt, seconded by Mr. Bullock, that a bylaw be passed to raise the sum of $900 for the purpose of purchasing a school site, building a school house and furnishing the same in S.S. No. 4. Moved by Mr. Garbutt, seconded by Mr. Walsh, that the Reeve interview John Porter with a view to purchasing a gravel pit from said Mr. Porter, on lot 5 con. 9. Moved by Mr. Garbutt, seconded by Mr. Walsh, that the sum of $335 be appropriated on the roads and bridges of the municipality during the year 1892 as follows, viz: Ward No. 1, $170; and in Wards Nos. 2. 3 and 4 the sum of $150 each; on Dummer road, $120; on boundary between Douro, Otonabee and Asphodel, $75; between Douro and Dummer, $20. On motion of Mr. Garbutt, seconded by Mr. Walsh, the council adjourned to the 30th day of May next, then to meet as a Court of Revision on the assessment roll of the municipality and for the transaction of other business.—Carried.

After the Grip

And after typhoid fever, diptheria, pneumonia, or other prostrating diseases, Hood's Sarsaparilla is just what is needed to restore the strength and vigor so much desired, and to expel all poison from the blood. It has had wonderful success in many such cases.

Hood's Pills act especially upon the liver, rousing it from torpidity to its natural duties, cure constipation and assist digestion.

No Lady's Toilet is Complete

Without a tube of Dyer's Jelly of Cucumber and Roses for making the skin smooth and soft. Try it; druggists keep it. W. A. DYER & Co., Montreal. 3d74

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of a flesh and blood maker, and has been used with marked success by the physicians in the insane asylum, penitentiary and Hotel Dieu, and general hospital, Kingston. In big bottles at 50c. and $1.00, at Peterborough drug stores. dw

An Open Letter of Thanks

Addressed to Mr. W. Telford, the Bard of Smith.

WM. TELFORD, ESQ.

DEAR SIR,—My attention has been directed to some lines written by you and printed in the daily EXAMINER of the 25th inst. Although there are very many in our Order much better fitted to express in words the thanks due to you for your kind appreciation of the good already accomplished by the Canadian Order of Foresters, I must not neglect what I deem my duty as one of the D.D.H.C.R.'s, more especially as my name was coupled with my esteemed friend and colleague Bro. Nesbitt, nor permit such an unsolicited "testimonial" to pass unnoticed. In my own name and I think I may add every name connected with Order in the County of Peterborough. I thank you most heartily and sincerely for your very kind method of expressing your good feeling towards the Brotherhood, and only regret, as I am led to believe you do, from the words in your "Prologue," that your are too old to become one of us. Our secrets are only for the purpose of protecting ourselves from possible imposition, but I am quite sure that every true Forester does not consider there is a line fence between the fraternity and outsiders, and will not hesitate to do all in his power to help those whom he knows worthy of assistance. Your lines are sufficient proof that no such fence exists between outsiders and the fraternity, and I hope, trust and firmly believe they will be the means of placing before many good men the objects and aims of the Canadian Order of Foresters.

Yours respectfully,
R. Q. DENCH,
Court Lakefield, No. 43.
Lakefield, 28th March, 1892.

The Milk Turned Sour.

I will not tell you her name, but one of the neighbors says that during her brief visit the milk turned sour. Her countenance looks a yard long. She *sighs* perpetually. The cloud on her brow is deep. If beaten out thin I believe it would cover the sky. Her voice is doleful, and her eyes show no radiance. Her wrinkles are numberless. She is a sorry picture, and all because she is the victim of one of those complaints peculiar to women. Her system is deranged. She needs a course of self-treatment with Dr. Pierce's Favorite Prescription. This will eradicate thoroughly those excruciating periodical pains and functional weaknesses peculiar to her sex, and at the same time build up and invigorate her whole system by its health imparting influence. A trial bottle will convince. b

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

Is sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take. dw

Our Condition Demands Attention.

What We Should Do.

At this season we daily hear our friends complaining about their health; they talk of having the blues; they feel inactive; some are weak, weary, and look worn out. Many are greviously afflicted with nervousness, headaches, dyspepsia, nausea and billousness. All are anxiously concerned about their condition, and are sighing and wishing for better days. Let us remind these individuals that the great life stream—the blood—which is the source of life, is now sluggish and very impure. It requires cleansing—filtering—to enable it to course freely, so that it may supply every tissue with power and life.

All drugs and impurities must be removed at once, if perfect health and strength is desired. The great nervous organism must be reinforced and strengthened, flesh must be built, and the whole system fortified for the great change of weather.

"How am I to do this?" "What agent is necessary to give me the health that I so eagerly look for?"

To the man or woman who asks these questions, we would simply say, you require an agent that has been well tested—one that our best doctors can recommend. The great remedy for your case is certainly Paine's Celery Compound, as it results in past Spring seasons have amply proved.

No other remedy dare honestly approach our people with such assurance of good results. Our best people have given it a place in their homes, and have taken the trouble of publicly testifying in its favour. The proprietors of other medicines often publish worthy letters of testimony, but these letters have no genuine authors—most of them are false and misleading.

Paine's Celery Compound is founded on the rock of truth and honesty. It has no object to gain by making false representations and publishing spurious letters.

If you are not in a healthy condition, reader at this season, we strongly advise you to test a bottle, and see for yourself what virtues there are in the great preparation—Paine's Celery Compound. We think when physicians prescribe it, you cannot err much in using it. It cures every time.

The Presbytery of Peterborough.

Official Report of the Late Session.

The Presbytery of Peterborough met at Port Hope, on the 22nd March. There were present thirteen ministers and five elders.

The Rev. Wm. MacWilliams, Ld.B., was appointed moderator for the next six months.

The principle of a summer session was affirmed to be held at Winnipeg for not less than three years. It was recommended that said session shall embrace all the subjects of the theological curriculum, that students of two years' standing may be licensed or ordained, but not eligible for calls, until the course is completed, and that the increased expense in giving effect effect to the scheme be a charge on the Home Mission Fund.

The next meeting of the Presbytery was was appointed to be held in St. Andrew's Church, Peterborough, on the 5th of July, at 2 o. m.

The committee on the supply of the Millbrook and Garden Hill pulpits, was authorized, if necessary, to appoint a minister to supply the pulpits for six months consecutively.

The reports of the delegates to the Augmented Congregations were duly considered, and, as based upon these, a report to the Home Mission Committee in Toronto prepared and forwarded.

Mr. Cleland tendered the resignation of his position as convener of the Presbytery's Home Mission Committee, and the Rev. E. F. Torrance was appointed to his stead.

The Rev. John Hay, of Cobourg, was recommended as the representative of the Presbytery on the Assembly's Home Mission Committee.

The following were elected as delegates to the General Assembly to meet in Montreal in June next, viz.: Messrs. Carmichael, Thompson Hay, M. Ewen, McLeod, Hyde, and MacWilliam, Ministers, all by rotation and Messrs. Wm. Archer, Millbrook, Israel Payne, Springville; G. Paton, St. Andrews, Peterborough, Wm. Matthieson, Havelock; David Tully, Bethesda; George Rutherford, Castleton; and Jas. McNeill, Keene, elders. The clerk, as usual, was authorized to correspond with the delegates elect and to fill up vacancies in the case of any who may decline their appointments.

Reports were submitted on the subjects of Sabbath schools, state of religion, temperance and statistics. These reports were all successively adopted with their recommendations,

THESE RECOMMENDATIONS ARE THE FOLLOWING.

I. State of Religion—It was recommended:

First,—The setting apart of a particular time in each week, say at family worship, the previous, for the baptism of the Holy Spirit on our congregations and on every branch of the church's work.

Second,—The faithful and prayerful expedition of God's word at all our diets of public worship.

Third,—The seeking out and the training of suitable persons to be teachers in our Sabbath schools, and that Sabbath schools be under the control of sessions.

Fourth,—The use of the liberty given to ministers to hold meetings for instruction in our public schools.

Fifth,—The explanation of the ten commandments say once a quarter at the public service on the Lord's day and at Sabbath schools.

Sixth,—That a sermon be preached once a year on the necessity of family worship and the instruction of the young in Biblical truth.

II. Temperance. First,—That, since Christ alone can uplift and bless the race, purify and save society and make us a temperance and peaceable people, that He be continually held up in our pulpits, schools and families as the only Saviour from sin and the only guide to true character.

Second,—That the Bible be used as

THE GREAT TEXT BOOK

for instilling temperance principles and that care be taken in our homes and Sabbath schools for the memorizing of passages of scripture pointing out the dangers of intemperance.

Third,—That advantage be taken, as far as possible, of the provision for public school instruction on Scientific Temperance.

Fourth,—That parents be exhorted to prevent, as far as possible, their children from gathering on the streets at night, and especially boys from loitering in the vicinity of hotels, and further that parents make home life attractive for their children so as to remove temptations to form associations that are beyond parental control.

Fifth,—That earnest effort be put forth by personal interest in young men to lessen and remove their exposure to temptation.

Sixth,—That every effort be made by legal restraint, moral suasion, and Christian love, to rescue and save the intemperate.

Seventh,—That we rejoice in the decrease of intemperance and that we urge upon our people to use all scriptural, constitutional, and righteous means, to work for the entire abolition of the evil.

The Rev. R. P. McKay was nominated as the secretary of the Foreign Mission Committee.

WM BENNETT,
Presbytery-Clerk.

After the grip, Hood's Sarsaparilla will restore your strength and health, and expel every trace of poison from the blood.

The Safest

AND most powerful alterative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wigga, Arkansas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

Last Tuesday the attendance at the Bible class was the largest we have ever had—and this in spite of the wet weather. Still we would gladly welcome more next Tuesday evening at 8 o'clock, taking the "The Woman of Samaria," as our subject. Rooms open every night. A cordial invitation extended to all young women.

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

Last Sad Rites.

The funeral of the late John Macdonald Esq. of Bobcaygeon, took place from the residence of his brother-in-law, John E. Belcher, at 269 Edinburgh street at three o'clock this afternoon. The funeral ceremonies were conducted by the Rev. J. C. Davidson, rector of St. John's. The concourse of people present testified to the high esteem in which the deceased was held. The pallbearers were Messrs. T. P. Astrill, R. Strickland, Alfred Belcher, J. E. Belcher, E B. Edwards, R. B Rogers, Langton and Heathcott. The remains were brought from Bobcaygeon this morning.

The following gentlemen from Toronto arrived in town to day to attend the funeral, Rev. H. Symonds, W. H. Dunsford, Gardener Boyd, H. G. Wickham, W. A. Langton.

George Street Epworth League.

A very full attendance of the members of the Epworth League of George street Methodist church, was held last evening, it being the semi annual meeting. The Secretary's report showed the League to be in a prosperous condition. There are now sixty-nine active members and sixty-six associate. When the League was formed two years ago there were but fifty-one members. The funds of the Society are also in a very satisfactory condition. Last evening the executive committee voted $30 to the trustees of the church. The following officers were then elected for the ensuing six months:

PRESIDENT—Miss M. E. Frise (re-elected)
VICE-PRESIDENTS — H. E Armstrong, Maud Mason and A. Sanderson.
SECRETARY—Ralph Sloan.
TREASURER.—T. Rutherford.

Miss K. E. Somers, of the Toronto Millinery House, No. 172 Hunter Street, Peterborough, respectfully announces to the ladies that her Millinery Show Rooms will be opened on Thursday, Friday and Saturday, March 31st, and April 1st and 2nd. Miss Somers has just returned from the cities with a complete selection o beautiful Pattern Hats and Bonnets, the latest Paris, London and New York designs. Her display of Flowers, Feathers, Jet Trimmings, Laces and other popular novelties is unusually attractive, and well worth careful inspection. A choice stock of Fancy Silks, Gloves and Handkerchiefs will also be shown. Mourning goods a specialty. Stamping done to order. Remember March 31st and April 1st and 2nd.

MISS K. E. SOMERS,
Opposite the Oriental Hotel.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection of this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. R. STRATTON.

News Nuggets.

—A local character slept over night in the cells.

—There was a blank in police circles again this morning.

—The Mechanics' Institute at Trenton has been allowed to close.

—The Belleville street railway was yesterday transferred to R. H. Potter.

—The practice of the Philharmonic Society will be held on Thursday instead of to-night.

—There will be a meeting of the Supervision Committee of the Board of Trade this evening.

—The Peterborough Curling Club are talking about having their first annual dinner to wind up the proceedings of the year.

—An alarm of fire sounded from No. 4 Ward at the corner of George and Aaurim streets at 8 o'clock last night, called out the brigade. The alarm was a false one.

—Dont forget the baseball meeting to-night in the Olympic Club Rooms at 7 30 o'clock. The P. A. A. A. will meet in the same rooms at 8 o'clock.

—Races will be held on the Deseronto driving park on May 24th. There will be a colt race for $100; a 2,38 trot for $150 and a free for all trot for $200. Picton will hold races on the same date.

—Two rinks one from the Ontario bank the other from the bank of Montreal went down to the rink yesterday afternoon to have a scratch match at curling. The boys returned thinking that they enjoy a canoe race better.

As I am going extensively into liquors, I find it necessay to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. MORROW, 340 George street.

"The Hercules Duster,"

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in all colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

The Boom is Growing Fast and Furious.

Orders are pouring in from all parts of the town and province for our "G. C." brand of hams, bacon and spiced meats, bologna sausage and lard. Take good care to get our make, and you will have no other.—GEORGE CARTON, eod

An Excellent Church Choir,

In modern worship the service of song occupies a prominent place, and the effectiveness of this service is largely dependant upon that of the choir. In this respect the congregation of the Charlotte street church is to be congratulated upon having an excellent choir, which was especially demonstrated by their singing on Sunday. At the morning service the *Te Deum* was rendered in a very praiseworthy manner. In the evening the quartette sung by Mrs. Clyde Green, Miss Fawcett and Messrs. Davis and Steers, was beautifully done. The leader of the choir, Mr. A. L. Davis, the choir and the congregation are to be congratulated upon the proficiency displayed Sunday after Sunday.

Edison Amateur Athletic Club.

A grand entertainment will be held on Friday evening, April 1st, in Opera House Music Hall. A programme consisting of selections by the Amateur Orchestra, songs, clog dancing, fencing and boxing contests. There will also be a grand minstrel sketch. The feature of the evening will be tugs of war on cleats between four teams chosen from departments of the Edison Works, the champions of which shall receive challenge from any shop or athletic team in town. Watch DAILY EXAMINER for full programme This will be the entertainment of the season. Don't miss it or you will make the mistake of your life. 4d

The Skating Rink Closed.

The Charlotte street skating rink was closed for the season yesterday so that no lovers of curling or hockey need look for any more sport in their respective lines this year. Skip J. D. Flavelle will not be afforded an opportunity to come down this week and play the Peterborough curlers, to retrieve his departed glory as he fully intended to do had the ice remained. The telephone, electric lights and other apparatus were removed from the building yesterday. A director stated to a reporter to-day that the company never came out so far behind in the matter of finances during the eight years that the rink has been built as they have this year. This was doubtless due to the change being made from skating to hockey. The large number who used to lend their patronage to the rink refused to come this year on account of their not being allowed to skate any evening after nine o'clock. The hockey season did not prove as great a boom and and success as was anticipated, when the directors, thinking the public were tired of skating, handed the use of the ice over to the Peterborough and Edison hockey clubs. They will allow longer hours for skating in the evening next year and the capacities of the rink will not be monopolized altogether by the hockeyists.

Positively Identified.

The Body of the Man Found Floating in Little Lake that of Richard Wigmore of Norwood, Beyond Peradventure.

The remains of the supposed Richard Wigmore, which were found floating in Little Lake yesterday morning, were positively identified by the relatives of the deceased last evening. His father, Richard Wigmore, sr., accompanied by the deceased's brother, and Messrs. Jas. McNicholl and Thos. Rorke, Norwood, arrived in town at five o'clock yesterday evening. They had been communicated with during the day, and had come as soon as possible. They identified the deceased as the missing Richard Wigmore, jr., who lived three miles east of Norwood with his parents, by several marks on his clothing. On the socks of the drowned man was the letter "R," worked in blue yarn. All his socks were marked that way. His braces, besides other parts of his clothing, tallied exactly with what the deceased had on when he last left home. He also had some chaff in his pockets, which had got there by threshing. The father supposed that the son had gone to the woods and was working in the shanties, when after diligent enquiry he could not be found. It is said deceased left home with that intention, and had made application to Mr. Hastitt for engagement, but the wages offered him and his team he did not consider were enough. The father thinks that his son had a couple of hundred dollars in his possession at the time he left home but he does not know for a certainty. The last seen of the deceased was on Thursday night, Dec. 31st. Wigmore had been threshing when he left home. The remains although terribly disfigured and unrecognizable, are assuredly those of Richard Wigmore, of Dummer, but how he came to his death, whether by foul play, suicide or accident will ever remain a mystery. The deceased's body was removed to Norwood on the 12.17 train last night. The relatives accompanied it. He will be interred in the Norwood cemetery this afternoon.

Sewerage.

To the Editor of the Examiner:

SIR:—It is pleasing to see the capable men in the town like Mr. J. W. Fitzgerald, C. E, taking a hand in the discussion of this question. I want to call the attention of the public to one absurd argument against having sewerage, used by its opponents who are running the council now. The connections with the sewers from houses are no more expensive, taken as an annual charge, than the scavenging process is at present.

In Toronto such an objection is thought to be extremely unbusinesslike. Apart from health, decency and comfort what objection is there to ALLOWING EACH STREET OR BLOCK TO PAY FOR ITS OWN SEWERAGE IF IT WANTS TO HAVE IT? That is the whole question.

The council seems to think it is a matter of some great policy. It is not. It is a matter which should be submitted to the people, who should be informed by their agents—the councillors—how they stand financially. It is a great pity that even this little part is barred. The barkers are bulldozing some of the councillors, and leading the rest by the nose.

Yours, etc.,
STINKS.

Y. M. C. A. Notes.

The Bible study and consecration service Sabbath morning was a time of refreshing to all present. Mr. Herbert Fife conducted the service with profit to all.

The personal purity service Sunday afternoon was addressed by Mr. Frank Brisco, in the absence through illness of Mr. M. Cumming. Mr. Brisco gave an earnest talk which was greatly enjoyed by all present. The Y.M.C.A. band led the lively singing with spirit and helpfulness.

Last evening at the Gospel and song service, which was crowded to the doors, Mr. Frank Brisco, one of our active workers in the church and Association, gave a very impressive farewell address, he having been called to be Assistant Secretary in the Y.M.C.A., London, and leaves this week for his new field of labour. His earnestness, coupled with his intense faith in God, made a marked impression on all. We are believing for many young men who will come and take the place of our brother in this work.

Bible class for young men Thursday evening from 8 to 9. A hearty invitation to all young men to attend.

The Reception Committee will meet Wednesday at 9 p.m.; Devotional Committee Thursday at 9 p.m., and Invitation Committee Saturday at 7 p.m.

LADIES

We give you a very hearty invitation to call during our Millinery Opening on Tuesday and Wednesday. The bulk of our goods we imported direct, and we are convinced that no city house can give you more stylish goods. It would be a pleasure to us to have you call and inspect our stock.

H. S. GRIFFIN & CO.

Three Days of Brightness, Beauty and Bargains.

These three days will be Wednesday, Thursday and Friday, March 30th, 31st, and April 1st, being the days fixed for the grand opening of Miss Delaney's millinery and mantle show rooms, for the spring of 1892. Miss Delaney has determined to make these three dates brilliant opening days, the best she has ever attempted. In her beautiful show rooms ladies will find displayed millinery from the world's fashion centres, the work of the nimble fingers of French artistes, backed by the choicest that the best trimmers in Canada can supply. Paris, English and New York pattern bonnets and hats, flowers, ribbons, veilings, etc., in lovely variety, and unusually attractive. Mantles, wraps, jackets, tweed and plain melton cloakings with venetian finish, jet trimmings, etc., and other novelties in profusion at very special quotations. Miss Delaney has spared neither time nor expense to make this season's display attractive to a degree. She has personally visited the large millinery openings in New York and other cities of fashion in the United States, as well as in Montreal and Toronto, the latter city three times this season, and is therefore thoroughly conversant with all the latest leading fashions of the day, and confidently invites the inspection of ladies on the above dates. 5d74-1w13

MISS DELANEY.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Record of the Roarin' Game.

Interesting Summary of the Season's Operations.

Mr. R. B. Edwards, an enthusiastic curler has compiled for the benefit of the devotees of the game the subjoined summary and analysis of individual scores in five games with foreign clubs. While the record is by no means official such as one prepared by an umpire would be, still it will give you a general idea of the individual playing done by each curler and will prove of much interest. It is a record similar in character as the record of individual players in baseball or cricket would be prepared:—

The following is the analysis of the individual scores in five matches played with foreign clubs. The first game was played in January at Lindsay with Lindsay; the second at Peterborough in March with Lindsay; the third at Peterborough on March 24th with Lindsay; the fourth on March 14th at Peterborough with the Toronto Granites; the fifth at Peterborough on March 16th with the Torontos. The following gives the ends played, the individual and total scores, with percentages:

PETERBOROUGH.

STONES.

Ends	1st	2nd	3rd	4th	Total.	Per cent.	Score.
22	64	72	55	65	256	72½	21
18	55	50	51	47	203	70¼	13
22	60	67	66	66	259	73 4-5	20
23	68	73	69	70	271	77	15
20	58	53	43	54	208	65	23
104	314	315	277	292	1198	73	109

FOREIGN CLUBS.

STONES.

Ends	1st	2nd	3rd	4th	Total.	Per Cent.	Score.
22	65	51	60	60	236	64 1-5	13
18	58	38	42	38	176	61 1-10	18
22	60	53	64	61	245	69 2-5	15
22	65	62	57	68	248	70	21
20	52	68	42	44	206	64 1-3	11
104	309	272	250	261	1101	68	78

PETERBOROUGH'S MAJORITY.

5 43 18 31 77 6 22

In these games the leading stones were pretty evenly balanced, the difference being only 5 points in favor of Peterborough. In the second players there was the greatest difference, 43. The skips came next with 31 and the vice-skips 18, the total being 97 points or 6 per cent, in favor of Peterborough. The scores for the five games stood 22 in favor of Peterborough. The best percentage was made by Peterborough in the Granite match, averaging 77 per cent. for the rink. The next best being the Peterborough score against Flavelle's Winnipeg rink, 73 4-5 per cent. The best individual score was that of Peterborough No. two player in the game against the Granites, 73 out of a possible 88, or nearly 83 per cent. This score was made by J. Connal who won a broom presented for the best score in that match. Singularly enough in this game the rink that made the highest percentage of individual points is the only one of the Peterborough rinks that came out behind in the game score, there having been a few flukes in the game.

PETERBOROUGH VS. THE CHAMPIONS.

The following is an analysis of the recent game here between a local rink and Flavelle's champion Winnipeg rink:—

WHOLE GAME.

Peterborough.	Points	*Lindsay.*	Points
R S Davidson	69	W H Simpson	69

Miss Etta Hilbert
of Lawrence, Mass.

Her Parents were in Despair

But She Was Brought Into Healthy Girlhood by

HOOD'S
Sarsaparilla

Mr. Edward Hilbert, of 183 Broadway, Lawrence, Mass., sends us the following:

"Ten years ago our child was born. Having lost six children we were naturally anxious as to the health of this one. What was our dismay and sorrow to find that she was apparently doomed to the same fate as the others. She had little strength as a baby, and did not improve as she grew older. When about 2 1-2 years old she began to have

Fainting Spells,

dropping wherever she happened to be. At these times she would turn black and appeared at the point of death. Doctors told us she was in a very bad way from

Heart Trouble

Nothing that we gave her did any good until, in utter desperation, we began giving her Hood's Sarsaparilla. She gradually began to improve, the fainting fits became less and less frequent and finally ceased entirely. Her general health improved until at the end of a year, having taken seven bottles, we stopped giving it to her. At this time she was 4 years old, and, although anxious lest the troubles might return, we ceased to worry, she seemed so well. She is now 10 years old and is as

Healthy and Rugged

a child as you will find anywhere and has never shown any indication of a return of the heart difficulty. During the past 6 years perhaps she has taken 3 bottles in all, we only giving it to her irregularly at times when she has complained of feeling tired in the spring and early summer. We feel that we owe a great deal to

Hood's Sarsaparilla

and cannot say too much in favor of it." EDWARD HILBERT, Lawrence, Mass.

THE TOWN COUNCIL.

A Special Session of Our Civic Trustees.

The Sewerage Plans and the Provincial Board of Health—The Ackerman Exemption—The Tax on Dogs—The Street Railway Franchise Agreement.

A special meeting of the Town Council was held in the council chamber last evening. There were present Mayor Kendry and Councillors Cahill, Best, Winch, Kelly, Young, Bradburn, Ferguson, Dawson, Medrum, Mollwain, Dennistoun and Mulhern. The minutes of the previous meeting were read and adopted.

The following

COMMUNICATIONS

were read:

From Michael Gorman asking that his taxes be remitted on the ground that he was poor, old and feeble.—Court of Revision.

From R. Hall making an application for a crossing in front of his premises on Water street and for forty feet of sidewalk in front of his shop.—Street and Bridge Committee.

From the C. P. R. in reference to by-law No. 641 conferring certain lands upon that company.—Finance Committe.

THE SEWERAGE SCHEME.

From Dr. P. H. Bryce, secretary of the Provincial Board of Health:—

To the Mayor and Town Council of Peterborough.

GENTLEMEN,—Acting under certain instructions of the committee I forwarded copies of the plans of the proposed sewerage scheme for your town to the neighboring townships interested. I have this date received a protest from the local board of Monaghan township against the scheme. I shall await answers from South Monaghan and Otonabee. I think it will be desirable to have various interests meet at any early date so that the scheme may not be delayed. If a meeting were arranged by your body in Peterborough about the middle of April the Board's Committee would be pleased be so present and hear the matter fully discussed.—Referred to Sewerage Committee.

From the Brooks Manufacturing Company stating that in the recent fire they had lost a large amount of valuable machinery, which stood in the name of the town as part security for the carrying out of the agreement between the company and the town. They requested that the council recommend that the insurance cheques which would be presented should be endorsed in order that they might purchase new machinery.

In connection with this communication, Mr. Dennistoun moved, seconded by Mr. Mulhern, that whereas the insurance policies on the building of the Brooks Manufacturing Company recently destroyed by fire, are held by the town as security under the terms of agreement with the company, the Finance Committee be authorized to assign and pay the policies of the Brooks Company in exchange for other securities to be approved of by the committee.—Carried.

The following

ACCOUNTS

were presented and read:

Stapleton & Kloambe	$ 23 00
Protestant Home	10 00
Dr. Cardwell, attending Walter Kerr	7 00
E A Peck	2 00
T E Boddy	2 45
R Gibbs	2 55
Fred W Bates	60
Rathbun Company	2 75
G T R	1 95
John Doherty	9 50
Stapleton & Kloambe	23 00
Mr. Martin	14 00
Archie Moore	1 00
R M Roy	5 00
Allan MacDougall	410 00

From H. C. Winch, member of the charity committee, instructing the town clerk to pay to Miss Roger, treasurer of the Protestant Home for Graham children $10.

PAYING FOR THE PLANS.

It was moved by Mr. Cahill, seconded by Mr. Winch, that the clerk be instructed to issue his check for the sum of $410 to Mr. MacDougall for preparing estimates of sewerage plans, etc., and to Mr. Doherty for the sum of $9.50 for wood burned in heating the market building.—Carried.

The other accounts were referred to the Finance Committee.

THE ASSUMPTION OF NEW STREETS.

It was moved by Mr. Cahill, seconded by Mr. Winch, that bylaw No. —, a bylaw to authorize the laying out and assumption of Hart Avenue, Jackson Avenue, Lafayette Avenue, John street, Thomas street, William streets, as streets in the town of Peterborough be read a first time—Carried.

Moved by Mr. Dennistoun, seconded by Mr. Mulhern, that the report of bylaw be referred to Street and Bridge Committee—Carried.

THE EXEMPTION BY-LAW PASSED.

Mr. Bradburn moved, seconded by Mr. Young, that the bylaw to exempt from taxation for the period of ten years, B. F. Ackermon, be read a third time.—*Carried.*

The clerk read an agreement signed by B. F. Ackermon and witnessed by T. E. Bradburn, to the effect that he nor his heirs would embark in the retail trade for a period of ten years. The agreement had been drawn up by the town solicitor and had passed the committee all right.

DOGS AND DOG TAXES.

Mr. Mulhern introduced a bylaw amending the bylaw relating to the taxing of dogs. The amended bylaw required that the clerk in this regard should perform the duties of the license inspector, and that he shall keep a register of the issue of tags, the names of owners, and that all fees shall be payable to him.

On the second reading coming up,

Mr. YOUNG said the dog nuisance was one of the worst things in Peterborough. He had had it suggested to him by a friend that if Peterborough ever made application to Parliament for incorporation as a city, that the name of the place should be changed to Dogville with the event. He counted no less than twenty-five dogs on the post office corner the other day. It was not the thoroughbred dogs which created the nuisance, but these mongrel cure who roamed the street at large, barking at young horses and causing runaways, tearing ladies' dresses and garments. A thoroughbred dog he had no objection to. He liked a good dog as well as any person, but the proper place for a canine should be at his master's heels. He would move that a tax of $2 be placed upon every dog in the town of Peterborough. He thought they should be taxed and the revenue of the town increased.

Mr. MULHERN stated that he knew of a man who had three dogs, yet when the assessor came around he registered no dogs. Nobody had a dog when the assessor was on the warpath. He ventured to say that one dog out of every seven in the town of Peterborough was not recorded.

Mr. WINCH—*I think* when one has three or four good dogs like myself, that he should receive some rebate on the dog tax. (Laughter.)

Mr. DENNISTOUN said that any dog found on the streets without a tag after a certain date, should be impounded by the police until bailed out. If not bailed out within a certain time, it should be shot. It was not the good dog which people kept and paid for, but it was the mongrel cur with apparently no owner, which was causing the dog nuisance.

MAYOR KENDRY humorously suggested that the council buy the police a net for catching these dogs as they do in some cities.

Mr DAWSON thought dogs should be shot after certain time if found without a tag. The bylaw received its second and third reading and was duly passed.

Moved by Mr. Dennistoun, seconded by Mr. Mulhern, that the clerk be instructed to post a printed notice to the effect and giving fair warning to the public that the terms of bylaw No. 511 as amended by law No. 657, should be strictly enforced.—Carried. The bylaw requires all owners of dogs to pay a tax of $1 on each dog on or about July 1st of each year. The matter was left to the license committee to instruct the clerk to purchase the number of tags required by the bylaw.

THE STREET RAILWAY QUESTION.

Mr. Dennistoun asked if the contract for the proposed electric railway had been signed yet, if not it was time. If the Edison Company were *not going to build the road*, they should know in time and get some one else to build it. The Edison General Electric Company had been considering a proposed amalgamation but they could not wait for ever for them to sign the contract of the road.

Moved by Mr. Dennistoun, seconded by Mr. Mulhern that the clerk be instructed to communicate with the Edison Street Railway syndicate to the effect that the delay in signing the contract for the building of the road is contrary to the terms of the resolution of Feb. 15th *last* and *unless* the contract is signed before the next regular meeting, the council will consider themselves at liberty to reconsider the whole question of the franchise.

MAYOR KENDRY stated that while in Toronto he had called on Mr. Barr, head of the syndicate. That gentleman could give him no definite answer as to when the contract would be signed.

Mr. MULHERN concurred in the motion of Mr. Dennistoun.

After considerable discussion the motion was carried.

The council adjourned at 9 45 o'clock to meet at the call from the mayor.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasant to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

Early Closing.

On and after March 28th, the butcher's shops of the town will close every week-day evening at 7 o'clock; Saturdays at 10 o'clock The public will please govern themselves accordingly. 4d

Is This Your Turn?

A gentleman visiting a patient in a hospital said to the attendant "That sick man's father is my mother's son." What relationship existed between the visitor and the patient?"

THE QUEEN will give an elegant Mason & Risch fine toned upright piano to the first person answering the above problem correctly; an elegant gold watch for the second correct answer; a china dinner set for the third correct answer, and elegant silk dress pattern for the fourth correct answer, and many other valuable prizes. An elegant special prize will be given for the FIRST CORRECT ANSWER FROM A READER OF THIS PAPER. Each person answering must enclose five three cent stamps for copy of THE QUEEN for April, containing full particulars, and a beautiful watercolour engraving "Easter Morning." This announcement appears simultaneously throughout Canada TO-DAY. Answer promptly, as postmarks count. Address THE CANADIAN QUEEN, "X" Toronto, Ont.

N.B.—THE QUEEN gives away one piano each month during 1892. The winner of the piano in the last (Moses) problem was Miss May Gormley, of Hamilton, Ont.

County Magistrates Court.

The Case of T. C. M. Humphries Against Andrew Cameron for Abusive Language Disposed of Yesterday—Other Cases Coming up.

County Magistrate's court was held yesterday afternoon at the court house before County Magistrate Geo. Edmison.

Thos. C. M. Humphries, 1st concession of Otonabee, charged Andrew Cameron, his neighbour, with using insulting language to him on the public highway of Otonabee, on the 19th March last. Mr. W. A. Stratton appeared for the complainant and Mr. R. M. Dennistoun for the defendant.

THOS HUMPHRIES sworn and said: I live in the first concession of Otonabee. I met Cameron on Saturday, March 19th, on the public high road of Otonabee. I had very little talk with him. He asked me where I was going with a load of straw which I was drawing. I answered I was going home. He said you had better take it (the straw) back you d——

Cross examined by Mr. Dennistoun witness said: "So far as I know we have always been good friends until that time. There was some trouble between us about a farm. I disconnected a water pipe containing water supplying defendant with water from my farm. I met him one evening and he said he would like to have the water. D. Cameron bought the farm at the auction sale some eight months ago. I bought the straw. I had asked leave to take away the straw from farm before going after it. The first word spoken was when we met on the road. Defendant said to me to take the straw back as I was trespassing. There was plenty of water for both of us. If he had called me a dog in the manger I should have felt insulted and felt justified in laying information against him.

SAMPSON CHUMAGO, an Indian, being sworn said: I was with complainant on March 19th when we met defendant. I heard him ask Humphries: Where are you going with that straw? He said, Don't you know. The defendant said, You had better take it back, and called complainant vile epithets. I understand the farm from which we took the straw was owned by Duncan Cameron. I have not talked with complainant before. I came here on a subpœna.

ANDREW CAMERON, sworn, said: I live on the east half of lot number 22 first concession of Otonabee. I took possession of adjoining lot last November, and put up notices that no trespassing would be allowed. I don't remember making use of such language as I am charged with, but will not swear on oath that I did not use it.

This concluded the evidence taken. The magistrate fined the defendant $1 and costs, ($5.25 in all.) He allowed Humphries no costs for witnesses.

County Magistrate Edmison heard the case of a complaint laid against Walter Guy by Mrs Elizabeth Vought this afternoon. Both parties reside in Ashburnham. The charge laid against Guy is that he was drunk and disorderly on Sunday night last. It appears he came to Mrs. Vought's house and wanted to scrape up a fight with her husband on the night in question. Mrs. Guy tried in vain to get her husband to go home, and when he wouldn't Mrs. Vought started out for constable Craig. Guy pursued her, and she had to run into Mrs. Swanson's house for safety. The case is going on this afternoon.

Testimony of the Second Coming.

Mr. H. Middleton Wood Addresses a Large Audience in the Opera House.

Last night before eight o'clock the Opera House was packed in every part by an expectant throng to listen to Mr. H. Middleton Wood deliver an address on the second coming. Promptly at 8 o'clock the speaker came upon the stage. He is a tall slender man, with brown hair and beard, dressed in black. He uses pince-nez eye glasses which were a perpetual source of trouble to him during the evening, divorcing themselves from the nose on the slightest provocation. These he used to read or rather refer to his lecture, closely written manuscript resting upon a nickel plated music rack. After a few preliminary words, Mr. Wood repeated the Lord's prayer and entered upon his address. He speaks with laboured effort and is greatly prone to leave one subject for another before reaching any conclusion, a circumstance which made it difficult to become perfectly certain of what he wished to convey. He began by saying that his mission was not like that of the ordinary evangelist—to save souls, but more particularly to Christians, for it was part of the fourfold ministry for the perfecting of the saints. The church of the present day was not in a healthy condition. The church of the pentecostal days had a constitution, but the constitution of the present church was "all broken up."—it had only one part of the double function, "making saints"—not "perfecting" them. The church of to-day was destitute of faith—faith in God's word, as every line and word being true. The speaker said he had found people in Peterborough who denied the truth of the story of Jonah and the fish. As to the Bible we must accept the whole or none. If we had a right to doubt one part we might doubt all. It was because the church had become so weak, faithless and corrupt that the words of Peter that "judgment should begin at the church of God" became applicable. The speaker went on to point out the signs of impending judgment. Mankind was forsaking God and He was forsaking them. The "form of godliness" mentioned by St. Paul was possessed by all sections of the church, "but where was the power?" The time for judgment was at hand. The speaker left it to be inferred that as Noah and John the Baptist had been sent to warn the world, so God had sent forth men ("like myself") to warn the church and those who listened to the call of the "Lord's restored Apostles" had been perfected by their ministry. God was sending at the end of the Christian dispensation (now) Apostles, like those sent in the beginning who had received the Holy Spirit by the laying on of hands, and possessed apostolic powers—"speaking with tongues, etc." And though he did not directly say so the speaker left it to be inferred that he was one one of these apostles, and he concluded by saying that whether his hearers believed him or not, every word he said was true. One conspicuous feature of modern worship was absent—the "taking of the collection." To-night will be devoted to the amplification of the subject.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

The Latest Yet

W. C. Kirk has bought a lot of mixed tea, a bankrupt stock, good sound tea, which he offers at 15c. per pound in twenty pound boxes. You surely cannot get better value than this; don't think because the price is so low that the tea can be no good; I guarantee it. W. C. Kirk, Ashburnham. Telephones, Ontario No. 6, Bell No. 312.

If You are Going To Buy a Piano or Organ

JACKSON & Co.'S

ESTABLISHED

PIANO AND ORGAN WORKS,

360 Aylmer St., Peterborough.

Being extensive dealers in only Reliable and Standard makes of

GRAND, SQUARE AND UPRIGHT

PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS,

AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that **we positively will not be undersold.**

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

All kinds of Instruments Tuned or Repaired on short notice.

FRANK WHEELER.

An Old-Time Montreal Athlete.

His Startling Statements—They are Worthy of Consideration—Interesting to Athletes and the Public Generally.

Mr. Frank Wheeler, of the Metropolitan Manufacturing Co., Notre Dame street, Montreal, recently made a few statements for the benefit of his brother athletes and the public, which are worthy of serious thought and consideration.

Mr. Wheeler is favorably known to thousands in Canada as an old-time athlete—a true Canadian—who has shed lustre on Canadian field sports which so much conduce to the physical welfare of our young men. Our country has reason to be proud of such noble specimens of physical culture; they have given a reputation to our loved country, and made her to be respected all the world over where athletic sports are encouraged.

Mr. Wheeler was a lover and admirer of all athletic sports, but was particularly noted on the snow-shoe field, where he carried off many honors. He was one of the prominent members of the Emerald Snow-Shoe Club—an organization which has done good work for the encouragement of winter sports.

Athletes, like ordinary mortals, require much care and attention as far as health is concerned. They are subject to the common ailments of life, unless watchfulness is exercised; and once out of condition, it requires careful treatment to bring them back to health and vigor.

Mr. Wheeler, who, for a time, had given up active participation in athletic sports, was still a vigorous and robust man. His sinews and muscles were still strong and wiry, and he seemed to be fitted for any amount of hardship. The evil day often comes when least expected, and like many another physically strong man, Mr. Wheeler overworked unconsciously. He rested too little, and probably became indifferent to essential rules governing digestion and exercise. He at last had to succumb to weakness, lassitude and general debility.

We think it advisable at this point to give to the readers of this paper, Mr. Wheeler's own words. His letter regarding his troubles and sufferings are interesting, and will repay a careful perusal. This letter not only shows Mr. Wheeler's wisdom at a time when he was physically low, but also points out clearly the course that all sufferers should adopt when weak, broken down, nervous, sleepless and dyspeptic.

"Permit me to write a few words in regard to Paine's Celery Compound. My many friends will remember my haggard appearance about three years ago, when a young house surgeon of one of our leading hospitals pronounced my lungs weak and the tops slightly affected. At about the same time I was taken with Canadian cholera, lasting seventeen days, which naturally brought me still lower in health, and (helped by the terrors of decline) a shadow of my once robust constitution.

"As a test I tried to join an insurance company (knowing full well the physician always gives the benefit of the doubt to the company) and I am sorry to say I was put back for six or eight months by one of our leading physicians.

"It was at this time that I was recommended Paine's Celery Compound; and to please my wife I took two bottles, and seemed to regain my appetite, and felt some inclination to brace up, but, unfortunately, I did not continue with the good work, and when after a very favourable verdict from a careful examination by the late celebrated Dr. Howard, who pronounced my lungs perfectly free from disease, but that my constitution was totally run down, and I had strained two sinews over my left lung, causing the pain which had raised my fear of decline, I stopped all medicine until last June, when a terribly busy season with one of the largest furniture houses here once more ran me to the ground. My duties demanded my going from top to bottom of the house twenty or thirty times a day, up four flights of stairs, numbering ninety eight steps. My limbs fairly bent under me, and I had many times to go up stairs and lie on one of the lounges perfectly exhausted, and asking no greater boon than to lie there and quietly rest. My appetite was gone, and my wife discouraged (trying to make me some tempting dish,) and all the symptoms of two years ago had come back; and I dropped from 148 pounds to 132 pounds. A lady friend was the first one to again bring your Celery Compound to my notice, through the good it had done her and her nephew. I took two bottles and again improved; and after four bottles I have regained fifteen pounds in weight, and my appetite is splendid; and now I will say, in justice to you, that I never felt better in all my life, although it is two months since I left off taking your valuable discovery. My many athletic friends will recognize in my signature and old-time Emeral snowshoer and athlete; and to them particularly do I recommend this great boon. No tonic can equal it to bring to the athletic form a firm limb, a strong chest, and a pleasant thought of having a strong arm and health to wield the same. It is truly with gratitude that I sign myself—yours respectfully,

"FRANK WHEELER."

Fully restored and strengthened! A new life, increased by vigor, joy and happiness! All these blessings are given to users of this wonderful remedy. All obtain vastly more than they ever expected. Is it not wonderful, marvellous and inspiring? In the face of such evidence, how can people go on wasting time, and increasing suffering, by using common and untried remedies? Common sense, solid proof, and honest testimony plainly give the words of command, "Use Paine's Celery Compound." Surely our Canadian people have light strong enough to guide and direct them to choose between life and death.

Pleasant as Syrup

Mr. Douglas Ford, Toronto, states that Milburn's Cod Liver Oil Emulsion with Wild Cherry Bark is free from objectionable taste, being almost as pleasant as syrup, while for coughs and colds it gives complete satisfaction, acting promptly even in obstinate cases. dw

Would Not be Without it.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it; druggists keep it. W. A. DYER & Co., Montreal. 6d74

As a pick-me-up after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

Contractors and Wages.

OTTAWA, March 28.—A deputation consisting of Urbain Lafontaine, president, Montreal; G. W. Davies, secretary; Charles March and S. W. Wright, Toronto; Lin Routhier, Quebec, and S. L. Levigne, Ottawa, representing the Trades and Labor Council, waited upon Hon. J. A. Ouimet Saturday in support of the Labor Union petition that a contractor under the Department of Public Works should be obliged to sign a clause under which he be bound to pay throughout the duration of any contract the rate of wages in force on the signing of the contract.

They also waited on Senator Gordon and conferred with him on the subject of his bill to restrict Chinese immigration.

They likewise were received by Premier Abbott and Hons. Sir. A. P. Caron, Sir John Thompson, J. Carling, Frank Smith and J. A. Ouimet on Mr. George Taylor's alien labor law. They supported the passage of the Act, not as an act of retaliation against the United States, but as an Act to give the labor unions protection in case of strikes.

They also addressed the Ministers on Senator Gordon's Act to control Chinese immigration, supporting the measure in that it increased tonnage limit from one Chinaman for every 50 tons burden to one for every 100 tons. They contended that Chinamen should not be allowed to work in coal mines or in fact be allowed to enter Canada for labor at all.

Murder Trials Postponed.

BELLEVILLE, March 28.—The case at the Assizes of James McGinnes for murder of Mortimer Ford at Lonsdale on Thanksgiving Day has been traversed to next Assizes. McGinnes is supposed to be in the States and efforts are being made to discover him.

The case of David Montany for the murder of Thomas Courtney has also been postponed on account of the absence of material witnesses.

No medicine has had greater success in checking consumption, in its early stages, than Ayer's Cherry pectoral. It stops coughing, soothes the throat and lungs, and induces much needed repose. Hundreds have testified to the remarkable virtues of this preparation.

Some symptoms of worms are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

News About Town

It is the current report about town that Kemp's Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles cost 50c and $1. dw

An inactive or torpid liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

THE BEST FAMILY PILL IN USE

FOR SALE BY ALL DEALERS

Keep the Works in good order.

NORMAN, Ont., January 15, '89.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

The Travellers' Safe-Guard.

AMAGAUDUS POND, N.S., Jan. 27, '90.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—For many years, I have been a firm believer in your "Dr. Morse's Indian Root Pills." Not with a blind faith, but a confidence wrought by an actual personal experience of their value and merit. My business is such that I spend much of my time away from home, and I would not consider my travelling outfit complete without a box of Morse's Pills. Yours, &c.,
M. R. MCLENNIS.

"August Flower"

How does he feel?—He feels cranky, and is constantly experimenting, dieting himself, adopting strange notions, and changing the cooking, the dishes, the hours, and manner of his eating--**August Flower the Remedy.**

How does he feel?—He feels at times a gnawing, voracious, insatiable appetite, wholly unaccountable, unnatural and unhealthy.—**August Flower the Remedy.**

How does he feel?—He feels no desire to go to the table and a grumbling, fault-finding, over-nicety about what is set before him when he is there—**August Flower the Remedy.**

How does he feel?—He feels after a spell of this abnormal appetite an utter abhorrence, loathing, and detestation of food; as if a mouthful would k'll him—**August Flower the Remedy.**

How does he feel?—He has irregular bowels and peculiar stools—**August Flower the Remedy.**

BBB

THE GUIDING STAR TO HEALTH.

BURDOCK BLOOD BITTERS

Regulates the stomach, liver and bowels, unlocking the clogged secretions and carrying off all foul humors and impurities from the system, thus curing dyspepsia, biliousness, constipation, headache, scrofula, salt rheum, sour stomach, dizziness, heartburn, rheumatism, and all diseases of the stomach, liver, bowels and blood. It antagonizes all blood poison, removing all impurities from a common pimple to the most scrofulous sore.

ITS EFFECTS IN HEADACHE are truly surprising, having made complete cures in obstinate cases of more than 20 years' standing, which had resisted all other treatment. As a

SPRING BLOOD PURIFIER

it has long held first place, and continues to be esteemed by press and people, the best and purest remedy ever devised to remove tired feeling, restore elasticity and buoyancy to the constitution, and tone up the entire system to bounding health and strength.

Price $1 per bottle, 6 for $5, or less than 1c. a dose.

Burdock Blood Bitters

Sold by all Druggists.

Cook's Cotton Root

COMPOUND.

A recent discovery by an old physician, *Successfully used monthly by thousands of* LADIES. Is the only perfectly safe and reliable medicine discovered. Beware of unprincipled druggists who offer inferior medicine in place of this. Ask for COOK'S COTTON ROOT COMPOUND, take no substitute; or inclose $1 and 4 three-cent Canada postage stamps in letter, and we will send, sealed, by return mail. Full sealed particulars in plain envelope, to ladies only. 2 stamps. Address Pearl Lily Company, No 3 Fisher Block, 131 Woodward ave., Detroit, Mich.

Sold Peterborough by all responsable druggists, and by all druggists everywhere.

SCIENCE AND PROGRESS.

INTERESTING PARAGRAPHS CULLED FROM VARIOUS FIELDS.

The Influence of Tobacco—The Prophylactic Advantages of the Use of the Weed by a High Authority—Progress of the Age in all Directions.

Dr. V. Tassinari, of the Institute of Experimental Hygiene attached to the University of Rome, has been attempting to demonstrate the prophylactic advantages of tobacco smoking. He recalls that in the eighteenth century, and even in the seventeenth, a certain number of medical men—Willis, Dimerbrock and others—advised their friends to smoke in times of epidemic. At Strassburg in 1842 Ruef called attention to the fact that the workers at the tobacco manufactory were exempt from almost all the prevailing epidemics. Pecholier, in the Revue d'Hygiene (1883, p. 523), proclaimed the same opinion, and Dr. Walter Cock, of Texas, was rash enough to recommend in 1889 the use of tobacco as a preservative against phthisis. An American dentist—Dr. Miller, of New York—made experiments in 1884 with the smoke of tobacco on the microgerms of dental caries, and declared that the results were satisfactory and conclusive. Dr. Vassili, of Naples, employed in 1888 a small balloon, while he lined internally with a layer of gelatine containing cholera bacilli. He found that by drawing through this balloon the smoke of *from one to four cigars*—the number of cigars required depending on their strength in nicotine—the gelatine was completely sterilized. Dr. V. Tassinari has now repeated these various experiments, and maintains that the smoke of tobacco either entirely destroys or in any case retards the development of the bacills of cholera, of anthrax, and of pneumonia. Dr. Tassinari published 25 charts indicating the action of tobacco on various known microbes, according to the nature of the tobacco and the amount consumed. The latter varied from one to six grammes, smoked in from 10 to 30 minutes. The bacilli of Asiatic cholera and that of Friedlander (pneumonia) were always completely destroyed, no matter what sort of tobacco was used. The bacillus of anthrax resisted better, and that of typhoid was hardly affected by the smoke. As a practical result of these experiments Dr. Tassinari insists on the utility of smoking as a means of preventing the decay of teeth. He seems to imagine that women suffer more from dental caries than men, and attributes this difference to the fact that but few women smoke. It must be confessed that these experiments are not conclusive. There is a great difference between the sterilizing of microbes in nutritive gelatine and in the human being. No one doubts the antiseptic qualities of nicotine. Sulphurous acid is also an antiseptic, but it still remains to be proved that London fogs and London smoke save the metropolis from zymotic disease.—London Lancet.

Curious Commercial Enterprise.

One of the most curious development of commercial enterprise and industrial ingenuity recently exhibited is the importation into this country of a peculiar vegetable material from Oran, an Algerian seaport on the Mediterranean Sea. The fibre of this substance possesses the quality of being so elastic that it can be used as a substitute for springs and the like, in the manufacture of furniture backs and seats; *it is so expensive*, indeed, and so easily affected by higher temperatures in its dry state that, when packed, *the bales have to be held in place by means* of heavy steel bands. The peculiarity of this grass is that it thrives only around the volcanic slopes of Oran, and flourishes up to within a short distance of the craters themselves—the latter being always in a semi-active state, and the earth around so warm that not a plant of any kind can thrive or is ever seen to grow except this steel-like product, and the practical value of which is likely to be fully utilized in future.

Mr. C. Harper, Ottawa, Ont., writes: "I have pleasure in stating that your Pink Pills are a wonderful tonic and reconstructor of the system. Since beginning their use I have gained on an average a pound of flesh a week. I have recommended them to a number of my friends, who declare that they are the only medicine that they have ever used that do all that is claimed for it. Sold by all dealers. dw

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flushes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

Ladies appreciate Anti-Dandruff from the fact that it not only thoroughly removes dandruff with three applications, but stops falling of the hair, restores faded hair to its original color, and makes it soft and pliable without leaving any indications of a dressing being used—clear as crystal, clean to use, it is a valuable toilet preparation. dw

THERE is no one article in the line of medicines that gives so large a return for the money as a good porous strengthening plaster, such as Carter's Smart Weed and Belladonna Backache Plasters. dw

ADAM HALL,

407 George Street.

A Solid Foundation.

A young woman who had been brought up in luxury and complete freedom from care married a gentleman somewhat older than herself, and went to live with him in a distant city.

He was the owner of a daily newspaper, which through his indefatigable energy and constant attention to details had become both influental and financially successful.

The young wife in her school days had been much praised by her teachers for her graceful essays, and her husband, discovering this, urged her to contribute to his columns. Her poems, book-reviews, and sketches of travel were talked about at home and copied in the papers of other cities.

One day a tornado swept over the place, and the husband was crushed under a falling building.

The question of livelihood, which comes to so many women, now came to her. Should she continue the business, or sell it and abandon herself to grief? She decided on the former course, and, bravely struggling with her sorrow, continued to write her poems and graceful articles.

But soon a change was evident in the paper. The news was less full and accurate, the editorials were weak and commonplace, errors of type were frequent, the sheets were poorly printed. Moreover, difficulties arose among the workmen, and the foreman gave notice of his intention to leave.

"Madam," said the lawyer to whom the lady went for advice, "your business is like a church steeple overturned and set up on its vertex. The steeple may be very beautiful and much admired, but it does not make a good foundation. If you wish to be successful in your work you must begin at the bottom. Come out of your bedroom, and stop writing poetry. Go to the office, learn to set type, see the forms made up, read proofs, pay the men with your own hands, learn to distinguish important from unimportant news, and assure yourself of the worth and interest of every paragraph in your paper."

The lady acted on his advice, and is today a reasonably successful editor.

A young Swedish singer, whose triumphs in her own country were unparalleled, became aware that her method of singing was incorrect. She knew of only one teacher in the world who could help her, and he lived in far-off Paris. Nevertheless, she quietly relinquished her glory, took the long, solitary journey, dwelt among strangers speaking a foreign language, consented to ignore all her past training, and to learn step by step, like an unknown beginner, the scientific method of singing.

Had she continued in her old way her voice would have been ruined; but upon the true foundation, Jenny Lind built up a vocal reputation which has never been surpassed.

These examples show the importance of beginnings. Years of simple, wholesome living are required for a fine complexion; finger exercises and scales must precede good piano-playing; by careful study alone can the mind become well trained; habits of frugality, industry and perseverance are essential for success in business; and when these conditions have been ignored in youth the only salvation lies in cutting off embellishments, and devoting all one's energies to repairing foundation principles.

Filled With Hardware.

ST. LOUIS, March 28.—Jown W. Gorman, known in Museums as James Kennedy, died in the City Hospital to-night. He was admitted to the hospital last Monday, suffering from mechanical gastritis.

Post-mortem examination showed that the walls and lining of the stomach were entirely normal but literally filled with the nails, screws, tacks and broken glass which the man had swallowed. None of them were encysted, and there was not one instance of perforation of any part of the stomach or throat by the sharp points or edges of these substances, but beginning at the base of the tongue and going back to the œsophagus, and from there entirely down into the stomach, the nails, tacks, glass, etc., were found.

In the stomach itself there was found almost a handful of these nails, tacks, screws and pieces of glass, over an ounce weight of them being removed. Continuous ulceration marked their presence, extending from the œsophagus into the stomach.

The total quantity taken from the body would fill a pint measure. Gorman's father is in the show business in New York.

It has been suggested that the secret of antediluvian longevity was some method of keeping the blood pure, warm and vigorous. Moderns accomplish the same purpose by using Ayer's Sarsaparilla—the best blood medicine ever brought to light.

For Nettle rash, summer heat and general toilet purposes, use Low's Sulphur Soap. w d

PAIN from indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this. dw

It Leads the Leaders.

The foremost medicine of the day, Burdock Blood Bitters, is a purely vegetable compound possessing perfect regulating powers over all the organs of the system and controlling their secretions. It so purifies the blood that it cures all blood humors and diseases from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, render it unequalled as a cure for all diseases of the skin. From one to two bottles will cure boils, pimples, blotches, nettles, rash, scurf, tetter, and all simple forms of skin disease. From two to four bottle will cure salt rheum or eczema, shingles, erysipelas, ulcers, abscesses, running sores, and all skin eruptions. It is noticeable that sufferers from skin diseases are nearly always aggravated by intolerable itching, but this quickly subsides on the removal of the disease by B. B. B. Passing on to graver yet prevalent diseases such as scrofulous swellings, humors and scrofula, we have undoubted proof that from three to six bottles used internally and by outward application (diluted if the skin is broken) to the affected parts, will effect a cure. The great mission of B. B. B. is to regulate the liver, kidneys, bowels and blood, to correct acidity and wrong action of the stomach and to open the sideways of the system to carry off all clogged and impure secretions, allowing nature thus to all recovery and remove without fail bad blood, liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disorder of the liver, kidneys, bowels, stomach and blood.

We guarantee every bottle of B. B. B. Should any one be dissatisfied after using the first bottle we will refund the money on application. Send by letter will... testim... information... B. B. the... Toronto, Ont.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

BUTCHERED AND BURNED

SERIES OF BLOODY ENGAGEMENT WITH CHINESE REBELS.

Over Eight Thousand Put To Death—Hundreds of Rebels Cut Down Like Weeds and Hundreds Burned Alive—A Glimpse At Celestial War.

SAN FRANCISCO, Cal., March 29.—According to advices just received from Shanghai, the bloody engagements recently between Imperial troops and rebels in Northern China resulted in the slaughter of several thousand rebels. The Imperial army lost only 5 killed and 45 wounded. Over 8000 rebels were put to death with the sword. A number of engagements are reported. A body of insurgents, numbering 300, was overtaken by the Imperialists at a place 60 miles from Kulun and over 100 of them were killed and three leaders made prisoners. In a second engagement over 50 of the enemy were put to the sword and the remainder were obliged to retire to a pawnshop, the strong walls of which made it an formidable place to defend. The Imperialists closely invested the building and killed over 150 of the inmates. Intelligence later reached the Imperialists camp that a force of the enemy, comprising 600 cavalry and 900 infantry, had arrived with the object of coming to the rescue of their confederates. They were attacked in the front and the rear by the Imperial forces and lost 400 men during the battle. Those who escaped encountered another party of Imperialists, who shot 50 of them and made a score prisoners.

Another detachment of rebels was posted at Meiyaokoutze, to which place the Imperialists continued their march. The rebel detachment numbered about 100, of which 60 were killed and 20 made prisoners, among the latter being the so-called leader of the Vanguard Li Hung Tsa, who was instantly decapitated. A still larger force of the enemy was posted in the Chien Chang District, where they had an encampment, with guns fitted up in the loopholes of the walls surrounding the villages. Churches of the new creed served as outposts of the rebel army. An onslaught was made upon their position, and after an engagement, lasting two hours, 800 out of a total of 1300 were put to the sword. About 500 of the rest were burned alive, and, including stragglers, it is estimated that not less than 1400 of the enemy were killed on this occasion. A great number of the adherents of the new creed were captured, including three leaders, who were instantly beheaded.

LOCK-OUT OF PRINTERS.

The Ottawa Citizen Will in Future Be a Non-Union Office.

OTTAWA, March 29.—Ever since the change of proprietorship in The Citizen last month it has been whispered about that the new proprietor and the new business manager were both opposed to the employment of union labor and that a great change would be made in the mechanical staff of the office. This change was made to-day, and The Citizen is now a non-union office.

Monday afternoon the business manager went up into the composing room and told the men, who were distributing their type, that their services were no longer needed. They were then paid their week's wages and discharged. Their places have been filled by importations from Detroit and The Montreal Herald, while some half-dozen non-union printers from The Journal office are also at work.

No reason has been assigned for the change, but it is claimed that the union lately fixed the scale of wages for the three typographs recently purchased by The Citizen, which really made them more expensive than hand setting.

The lockout throws 15 men out of employment, including Boudreault, the night editor and foreman, who entered the establishment 19 years ago as printer's devil.

Imperial Parliament.

LONDON, March 29.—In the House of Commons yesterday Baron Henry DeWorms, Parliamentary Secretary of the Colonial Office, announced that the treaty between the United States and the West Indies would not necessitate higher duties on all articles exported from Great Britain to her colonies in the West Indies.

Lord George Hamilton, First Lord of the Admiralty, admitted that a stoker at the Seaman's Hospital at Devonport had been sentenced to 10 days' imprisonment for refusing to take out of his cap, when ordered to do so, a shamrock he wore on St. Patrick's Day. Lord Hamilton declared that the rule in relation to wearing Irish emblems applied with equal force to emblems of other nationalities. The offence was the refusal to obey orders.

Mr. Balfour stated that it depended upon the progress of the small holdings bill whether the Irish local Government bill would be moved for its second reading before Easter.

Another "Ripper's" Double Crime.

BERLIN, March 29.—Great excitement has been caused in the village of Sinsleben, near Aschersleben, by the discovery of the bodies of a carpenter named Zaenken and his 16-year-old daughter, who had been murdered by an unknown assassin. The bodies had been mutilated in the most sickening manner.

Cavelice's Assassin Caught.

MADRID, Spain, March 29.—Abril, the assassin of Marquis Cavelice, was captured in Granada yesterday, after a desporate chase in the streets. He was driven to bay, and, with pistol in hand, faced the troops, undaunted by their threat to fire. A guard was obliged to fell him. He confessed his guilt. His motive was extortion. Since the crime he had hidden in the alleys of the town and had been without food.

NOT THE RIPPER.

Deeming's Marvelous Criminal Career—A Most Accomplished Scoundrel.

LONDON, March 29.—Linking the various disclosures in the career of Deeming the police reports disclose the most marvelous criminal career ever known.

Since starting on a systematic course of crime at Sydney, N.S.W., the man has operated successfully at Bathurst, N S W; Brisbane, Queensland; Adelaide, Victoria; Christchurch, New Zealand, where it has been discovered that he married under the name of Delmart, and robbed and deserted his wife; Wellington, N.S.W., where he married and robbed a girl and absconded; Sydney, to which city he then returned; Cape Town, Cape Colony; Durban, Natal and Johannesburg, where he perpetrated successive swindles.

He cleared Durban with £4500 for Mozambique, and thence transhipped for British India, and thence came by boat via the Red Sea to England, and operated in London, Hull and Liverpool. From England he fled to Montevideo, Uruguay.

Everywhere his road has been marked by crime. His escapes have been due to the wonderful rapidity of his movements, his dash of execution and his perpetual aliases and disguises.

The Scotland Yard authorities declare that from further study of documents and facts in their possession they are able to state positively that Deeming could not have been implicated in any of the Whitechapel murders.

SHE LOAFED A BAKER

And He Kneaded Her, But Her Cakeds Now Dough.

LONDON, March 29.—In the Queen's Bench, before Mr. Justice Matthew and a common jury, the case of Cullington v. Onyett was heard. This was an action for breach of promise of marriage, brought by Kate Cullington, formerly lady's maid in the house of a clergyman, against Frederick Onyett, baker in a small way at Warmoys, Hunts. The plaintiff alleges that the defendant seduced her under a promise to marry her, which the defendant denied. The parties became acquainted in April, 1890, and the plaintiff's case was that the defendant promised to marry her some time in 1891, but, after seducing her, had broken off the engagement and refused to carry out the contract. As lady's maid she had been earning wages to the amount of £35 a year. She was now endeavoring to maintain herself by dressmaking.

The plaintiff, in giving her evidence, said the defendant asked her in June if she would keep company with him. She consented, and they used to go out for walks together. He afterwards introduced her to his mother and sister as his young woman. He always spoke of making her his wife, and she said she was willing. He said they were to be married some time in 1891. He said he was in very good business, and could marry when he liked. He said he had some cottages of his own. When he seduced her, he said he would marry her faithfully. He did not deny the paternity of the child. Some love letters passed between them. To her last letter she received no reply.

The jury gave the plaintiff a verdict for £75, for which Mr. Justice Matthew gave judgment.

Funeral of the Late H. E. Clarke, M.P.P.

TORONTO, March 29.—The services yesterday in connection with the funeral of the late H. E. Clarke, M.P.P., who dropped dead in the Legislative Assembly Friday, were of the most imposing description.

In the Ontario Legislature Hon. Oliver Mowat, in moving the adjournment of the House as a mark of respect to deceased, paid a glowing tribute to his work, Mr. Meredith's voiceless tribute to his late colleague conveyed more than words could the grief his removal had occasioned. In seconding the motion to adjourn, he attempted to make some mention of the virtues of his late colleague. But his attempt to control his emotions and to find words to express the respect he felt for his old friend were unavailing and he sat down at the end of half-a-dozen disconnected sentences.

The scene at the house of mourning was unexpressibly sad. Hundreds of citizens surrounded the house. The floral tributes, which were unusually numerous, included a pillow from his colleagues of the Opposition in the Legislature. The religious services were conducted by Revs. J. V. Smith, Dr. Potts, Dr. Briggs, Dr. Sutherland and Dr. Young.

An immense concourse followed the remains to Mount Pleasant Cemetery.

Canadian Cricket Association.

TORONTO, March 29.—The Canadian Cricket Association is not yet organized. But it is fairly well under way.

In response to secretary pro tem, John E. Hall's circular there was a big attendance of Canadian cricketers at the Walker House last night, and there was much enthusiasm.

Three provincial associations were represented, viz., Ontario, Quebec and Manitoba. How the Manitoba and Quebec delegates did talk! But their efforts were in the right direction. Mr. Bell of Ottawa was expected to act as an obstructionist, but on the other hand he assisted materially and presented many sound arguments. Mr. Wilson of Winnipeg also frequently used the floor and his remarks were generally to the point.

President John Wright of the Ontario Association was voted to the chair, and Secretary Hall kept the minutes. The complete list of delegates follows:

Ottawa, B. T. A. Bell; Aurora, Dr. W. J. Stevenson; Chatham, J. Pegley; New Fort, J. H. Laurie; Parkdale, S. W. Black; London, H. C. Pope; Hamilton, A. Gillespie, K. Martin; Toronto, A. H. Collins, A. Winslow, A. G. Foy, D. W. Saunders, W. Freelman and six others; Toronto Colts, P. Manning; Rosedale, J. H. Forrester, J. Bowbanks, T. Clement, H. F. Petman, R. A. Montgomery, J. Hewlett; East Toronto, J. Chandler; Riverdale, S. D. Smith; Whitby, Judge Dartnell; Trinity University, A. F. R. Martin, M. S. McCarthy; Manitoba Association, W. Rose Wilson.

Secretary Hall presented a drafted constitution and the delegates began voraciously to dissect it. Amendments by Messrs. Wilson, Martin and Bell were read and rejected. Finally W. Freelman came to the rescue and his motion to elect a temporary committee, judiciously selected from the different provinces, was adopted unanimously and this provisional list was named:

Hon. President—The Governor-General of Canada.
President—John Wright.
Vice-Presidents—Capt. C. C. Newton, Eastern Association; Judge Dartnell, Ontario Association; C. P. Wilson, Manitoba Association.
Secretary-Treasurer—J. E. Hall, Toronto.
Assistant Secretary-Treasurer—H. F. Petman.
Committee—A. H. Collins, Toronto; Dr. Beemer, London, Ontario; B. T. A. Bell, T. Ramsay, Quebec Association; Mr. Ballantyne and the President of the Winnipeg Club, Manitoba Association.

This committee were empowered to draft a constitution and bylaws and report to a general meeting of cricketers at the Walker House on Tuesday, April 19.

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave., New York City, Sept. 19, 1888.
I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D

CONSUMPTION

Brooklyn N.Y., Feb. 14th, 1888.
I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.
I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.
I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

127 West 34th St., New York, Aug. 6, 1888.
I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

GRAND OPPORTUNITY FOR BARGAINS

AT

CHINA HALL.

From now until Saturday, 23rd April, we will hold a

GRAND AND GENUINE CLEARING SALE

to reduce and straighten up our Stock before Stock-taking.

Heretofore we have sold our damaged Tea, Dinner and Chamber Sets by auction, in a separate store, but this year owing to our increased room, we will try a new plan and sell them by private sale from our Showrooms. To make the Sale doubly attractive, we will place our whole immense Stock at your disposal at COST PRICE and in the case of Damaged or slightly Mis-matched Sets at Much Less than Cost.

OUR LARGE STOCK OF

HANGING AND OTHER LAMPS

will be sold AT COST and under, so as not to keep them over. All Goods will be ticketed, showing former and reduced price, and we invite you to take advantage of the above offer, and inspect the Goods at once, as the best bargains go first.

TERMS STRICTLY CASH.

GOLDEN LION!

YESTERDAY and TO-DAY

OUR elegant and commodious Millinery and Mantle Show Rooms were formally thrown open to the public. The attendance of ladies has been exceedingly gratifying, for which we tender our sincere thanks. Crowds of admiring visitors have thronged our spacious parlours all day long—and still they come!

Our elaborate display has evoked continual expressions of admiration, and our magnificent stock of Spring Novelties was highly complimented and admired.

Orders will now receive the most exacting attention. Already we have taken a larger number of orders than at any previous anniversary opening, which is one of the best proofs of the superiority and attractiveness of our stock.

The Dress and Mantle Making Department is already in full operation, and we can confidently guarantee the best possible satisfaction to all our customers.

DOMINION PARLIAMENT.

IS MR. GERMAN STILL MEMBER FOR WELLAND.

An Interesting Discussion in the House of Commons Yesterday—The Debate On the Budget Resumed—Meeting of the Railway Committee.

OTTAWA, March 30.—There was considerable interest excited in the House over the appearance of Mr. German, of Welland, in his place in the House to state his position in respect to the motion for a writ to issue for the county of Welland.

After Mr. German had made his statement he left the chamber.

The question was debated at some length by Mr. Masson, Sir John Thompson, Hon. Mr. Laurier, Hon. David Mills and Mr. D'Alton McCarthy, and the matter was finally referred to the Committee on Privileges and Elections.

Sir John Thompson laid it down that the decision of the Election Court vacated the seat, that the House could not take action until it was formally aware of the fact that such decision had been given, and that there was no doubt that a writ should issue. He made two distinct cases, the one of bribery by agents, and the other of personal bribery, and said that an appeal against the decision on the last case could not affect the decision in the first case which was not appealed against. At the suggestion of Mr. Laurier, however, he allowed the matter to be referred to the Committee on Privileges and Elections, where no doubt the legal points will be threshed out.

The Budget Debate.

The debate on the budget was resumed this afternoon by Hon. Mr. Mills, who spoke for an hour up to recess and for an hour after.

The most important statement made by him was his explanation of the reason for the charge made by Mr. Blaine of bad faith on the part of the Canadian Government in making public prior to and during the last election the fact that Canada had received an intimation from Mr. Blaine that he would be happy to negotiate with a view to enlarged trade relations. Sir John said that the Canadian Government had no intimation whatever that Mr. Blaine desired that these negotiations should be kept private and in the event of their failure nothing should be said about them. Owing to some unfortunate error, which was only discovered last September, the following words were omitted in the telegram which the Canadian Government received from the Imperial Government transmitting Mr. Blaine's offer:

If no agreement were found possible the attempt is not to be mentioned officially, and all public reference to the subject is to be avoided in view of the fact that President Harrison strongly objected on the ground of the agitation that would be created throughout the States and he declined to run so great a risk.

Mr. Davin made a short speech on the budget and was followed by Mr. Watson, after which the House went into supply, and at 1 o'clock passed an item for Kingston penitentiary and adjourned.

RESCUED BY HER MOTHER.

A Daughter Who Was Kidnapped in 1889 Recovered From a Convent.

LONDON, Ont., March 30.—Mrs. S. Hopkins and C. C. Woodruff of Chicago arrived in the city last evening. The lady is the mother of Isabel Hopkins, a 15-year-old girl, who was kidnapped from her home in 1889 by a woman, who is now under arrest there. The authorities secured information which led them to believe the missing girl was in the Sacred Heart Convent here, hence the visit of Mrs. Hopkins here. They were admitted to the convent yesterday afternoon and found the girl.

Celebrating the Victory.

MONTREAL, March 30.—The victory of the DeBoucherville Government was celebrated here to-night by a banquet. Mr. F. Benoit presided, and amongst those present were Hon. L. O. Taillon, Sir D. A. Smith, Sir Adolphe Caron, Hon. Messrs. Beaubien, Ouimet, Nantel, Pelletier, Costigan, Casgrain, Patterson, McIntosh, Senator Tasse and many members of the Dominion and Provincial Houses.

There were 600 guests present and the banquet was considered a marked success. When the toast to the Lieutenant-Governor was proposed the applause was unbounded. A letter from Hon. C. B. DeBoucherville was read regretting his inability to be present.

Owner of the Cronin White Horse Dead.

CHICAGO, March 29.—Pat Divan, owner of the white horse which hauled the ill-fated Dr. Cronin to the Carlson cottage and his death, died to-day.

When the murder of Dr. Cronin was laid at the door of Dan Coughlin and the other men who are in prison with him, the white horse played a strong part in the chains of evidence which convicted them.

A Female Evangelist Dead.

WINNIPEG, March 30.—Miss Nettie Judd, who has been doing work as an evangelist throughout southern Manitoba for nearly two years, passed away last night at the residence of her brother-in-law, Rev. E. E. C. Buchanan, Crystal City.

A Protest in East Hastings.

BELLEVILLE, March 30.—A petition has been entered against the return of Mr. W. B. Northrup as M.P. for East Hastings.

A St. Thomas Elopement.

ST. THOMAS, March 30.—William Cole, who conducted a blacksmith shop in Railway-street, deserted his wife recently. Yesterday he was arrested in Ypsilanti, Mich., on which city he had eloped with the wife of Louis E. Henroa of Mt. Clemens.

Diseases of the Chest and Lungs.

These diseases are too well known to require any description. How many thousands are carried every year to the silent grave by that dreadful scourge, consumption, which always commences with a slight cough. Keep the blood pure and healthy by taking a few doses of Dr. Morse's Indian Root Pills each week, and disease of any kind is impossible. All medicine dealers sell Dr Morse's Indian Root Pills. dw

ACROSS THE ATLANTIC.

FORTY ASSASSINATIONS CHARGED TO THE BROTHERS.

Seeking a Jewish Quarter—The Anarchist Bomb Fiends — Turcomans Being Armed By Russia With a View to An Uprising in Afghanistan.

WARSAW, March 30.—Police inquiries into the case of two brothers named Koulikvosky, imprisoned here on the charge of murdering and robbing a peasant near Bielostock, have shown the wholesale murder of emigrants on the frontier.

Already the naked bodies of five victims have been discovered in the snow in the woods adjacent to the house occupied by the Koulikvosky's. There have been many disappearances of late in that neighborhood and the police estimate that the two brothers have murdered at least 40 persons.

The victims would be taken in charge by the younger brother, and singly they would be conducted along a narrow path through a dense forest. The elder brother would hurry by a short route to a spot agreed upon, and then when the victim approached he would be attacked by his guide and the man in ambush. The unfortunate would be strangled, brained and robbed.

The wife of the elder brother would indulge in flirtations with strangers who came to Monki, and would make engagements for them to visit her at her home. She is a comely, buxom woman, and admirers would hasten at night to her house, only to meet death at the hands of the husband and his brother, who waited their coming.

A peasant who had sought shelter in their hut fell asleep and the brothers attempted to strangle him. He awoke and struggled for his life, as his body showed. While he was held boiling water was poured over his head and the murderers then strangled him. The body was hidden under straw in a stable, where it was found before the brothers had had time to carry it away. The finding of this body led to the discovery of the others.

The woman was taken into custody with the men. All have been subjected to a prolonged examination, but they refuse to confess.

FIRE AT CREWE.

The Largest Railway Works in the World Badly Damaged

LONDON, March 30.—Last night a fire broke out in the greatest railway works in the world at Crewe, and many buildings, with the machinery they contained, were consumed. The damage is estimated at £50,000.

The New Route to the East.

LONDON, March 30.—The Admiralty has notified the Canadian Pacific Railway of an intention to send 203 men in charge of three officers from Halifax to Vancouver about the middle of May. H.M.S. Daphne and Nymph and the flagship Warspite bear commissions at Esquimalt, B.C.

Heretofore all cruisers and sloops in that part of the Pacific have been transferred to the China station at Hong Kong to re-commission, and this present action of the Admiralty indicates that a great deal of the work will in future be done over the Canadian Pacific.

Defeat For the Prussian Government.

BERLIN, March 30.—The Prussian Government sustained a defeat in the Lower House of the Diet which has caused a sensation. The Government submitted a proposition to reinsert in the estimates which were under discussion the vote for a new cruiser. This proposal was made some time ago and rejected. To-day it was made again and was again rejected. The defeat of the Government was effected by the coalition of Centrists, Radicals and Socialists against the Conservatives and National Liberals.

Salted an Evangelist.

LONDON, March 30.—At the Staffordshire Assizes John Goodall, aged 35 years, an evangelist of Great Gate, near Alton Towers, was found guilty of assaulting Mrs. Mary A. Siddalls in a compartment of a car on a Midland train near Tamworth, on the night of Jan. 11 last, and was sentenced to two years' imprisonment at hard labor.

At the time of the assault Mrs. Siddalls jumped out of the coach while the train was going at full speed and was dangerously injured.

The Modern Squeers Found Guilty.

BELFAST, March 30.—After a sensational trial, Rev. Samuel J. Caton, rector of Curough, was yesterday found guilty of manslaughter of a boy named Brown, and of other charges of cruelty in connection with his management of an orphanage in the county of Kildare. Sentence has not yet been pronounced.

Pearls of Great Price.

LONDON, March 30.—The diamond earrings and pearl pendants, which were stolen by Mrs. Florence Ethel Osborne from her friend and relative, Mrs. Hargreave, were sold by auction. The earrings brought £665 and the pendants £416.

Canada and Spain.

LONDON, March 30.—Sir Charles Tupper will leave shortly for Madrid. He hopes with the aid of the British Minister there to induce Spain to continue the present favored treatment of Canadian products in the Spanish West Indies.

No Franchise for India.

LONDON, March 30.—In the House of Commons yesterday Mr. Curzon, Parliamentary Secretary for the India Office, stated that an elective system to represent the peoples of India was absolutely impossible.

A Torontonian Killed.

PORT HURON, March 30.—Frederick Pierson, who was formerly employed at Block I shops, accepted a position as switchman at the tunnel yards this morning. He had not worked two hours before he was killed instantly by a moving train striking him and cutting him in two. He was a graduate of the Toronto School of Infantry.

Mr. Choquette Unseated.

QUEBEC, March 30.—Judges Routhier and Larue rendered judgment in the contestation of the Montmagny Federal election, annulling the election of P. A. Choquette (Liberal). Mr. Choquette will appeal to the Supreme Court.

Secured a Verdict for $500.

GUELPH, March 30.—At the assizes today James Bruce recovered $500 damages against David Chapman for the seduction of his daughter while she was employed as a domestic in defendant's house.

HIS HOUSE WAS A HAREM.

Shocking Disclosures in Connection with Prince Michael.

DETROIT, March 30.—Chief Starkweather and Assistant Prosecuting Attorney Springer have examined a number of the long-haired women brought down from the Prince Michael colony yesterday and now detained as witnesses against Prince Michael (M. K. Miller) and Eliza Courts.

The revelations astound the officers and showed both the prisoners to be veritable devils.

Bernice Bickle, a pretty girl of 15 years; May Webster, 20 years old; Alice Court, a handsome young girl, a sister of New Jerusalem and Carrie Pedry, unblushingly spoke of their criminal relations with the Prince and did not seem to consider it wrong at all.

It transpired that [illegible] the aid of the

Courts woman little Bernice had been deliberately debauched by the "Prince."

Besides the four "angels" who were taken into custody as witnesses yesterday Emma Butler, another "angel," was brought down to police headquarters. She gave the same testimony as the other ladies of the harem.

This morning a warrant was issued charging Mills with the seduction of Bernice Bickle, aged 15, the penalty for which is five years in State prison.

When charged with his crimes Mills coolly quoted that "false witnesses would appear against him" and the like.

Mrs. Mills, Michael's lawful wife, accompanied by her attorney, last evening proceeded to her husband's house and took possession of it.

A despatch was sent last night to Mrs. Mills' brother, Thomas Leitch, mathematical master of the St. Thomas Collegiate Institute. He will probably arrive in Detroit shortly.

POLITICAL UNION.

The Meeting at Woodstock Sings the National Anthem.

WOODSTOCK, March 30.—The political union meeting held yesterday attracted one of largest audiences the Town Hall has seen for a long time. Sol White, M.L.A., Dr. O'Brien, ex-M.P., and E. A. Macdonald of Toronto were the speakers announced, but at the last moment Mr. Macdonald was the only one to put in an appearance. He did not receive a very attentive hearing from the audience and the meeting closed with cheers for the Queen. No vote was taken.

Died on His Wedding Trip

TORONTO, March 30.—The Union Station last evening was the scene of a large gathering of Foresters under most distressing circumstances. Mr. John Rantan, Court Lord Dufferin No. 6304, New Westminster, B.C., was married Feb. 17, and was in this city on his wedding tour, when he died suddenly on Saturday last. The bereaved bride-widow took the remains back to New Westminster last evening at 11.15 by the C.P.R.

INTERESTING ITEMS BY WIRE.

Emin Pasha is making progress. Some of the officers in his party rebelled. He pursued, captured and shot them.

The British Parliament has rejected a resolution enabling tenants to compel landlords to sell holdings.

During a storm in Dumfries, Scotland, yesterday, Sarah Hamilton, her son and daughter perished from exposure.

A Canadian who passed under the name of "Baron" St. Ange died at the Hotel Gaultier, New York, yesterday.

A mail train running between Warsaw and Kowai, Poland, was robbed yesterday of remittances amounting to 150,000 roubles.

Another scare is reported from the Afghanistan border, and it is intimated that the Turcomans intend to revolt against the Ameer.

Owing to the Anarchist scare visitors are leaving Paris, and the residences of all magistrates and public prosecutors are guarded day and night.

In Konigsberg, East Prussia, a man named Puschko recently crucified himself under the impression that he ought to die in the same manner as the Saviour.

A clever swindler, who has passed as an Austrian nobleman, has been swindling the people of Montreal and Quebec out of board bills, etc.

The Hamilton street railway will be operated by the Westinghouse electric system. A deal was completed yesterday by which the Westinghouse Company enters into a contract to supply motors for 30 cars and three dynamos.

The Jewish quarter of Prague was raided yesterday, and the rioters were only disbanded when mounted policemen rode down the crowd. Many rioters were struck down by the iron-shod hoofs of the horses or received severe sword thrusts.

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, partial deafness, loss of smell, foul breath, hawking, and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of Nasal Balm. So warned in time, neglected cold in head results in Catarrh, followed by consumption and death. Nasal Balm is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., Brockville, Ont.

NEVER FAILS CURES COLD IN HEAD AND CATARRH

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

WEDNESDAY, MARCH 30, 1892.

International Trade Relations.

To the Editor of the Examiner:

DEAR SIR,—The Hastings *Star*, whose melancholy duty it is to uphold a regime of legalized extortion, says: "Now, in the name of common sense, what is it that Canadians raise that is required by the States?"

In 1887 the United States received from foreign countries $61,711,024 worth of products, every one of which could have been produced in the Dominion of Canada. On these products the United States' custom houses collected $19,318,181. These articles were as follows: Animals, barley, bituminous coal, copper ore, fish, hemp, furs, hay, hops, iron ore, pig iron, lead, leather, spirits, cheese, salt, potatoes, lumber, wool, eggs, wheat, oats, peas, hides and skins, apples, etc.; all of these articles are producable by the people of Canada, and all of them were purchased by the United States in 1887 to the extent of over sixty millions dollars in spite of the tariff. The *Star* says, "If the high tariff

HAS LOWERED THE PRICE OF BARLEY

in Canada what in thunder are the maltsters in the United States now agitating for a reduction of the import duties." Any obstruction to the free exchange of this or any other product is an injury alike to buyer and seller. The injury is undoubtedly greater in this instance to the seller, that is to the Canadian farmer, than to the American maltster, but both are hurt. Now let us see how the high tariff has affected our exports and our income. The McKinley Bill increased the duty on barley from 10 cents a bushel to 30 cents. And the export of barley fell off from 9 975,000 bushels in 1890 to 4,892 000 in 1891, and in value from $4,600,000 in 1890 to $2 929,000 in 1891. The duty on oat meal was doubled and our export to the United States fell from 13,000 to 500 barrels. Although the McKinley Bill was only in operation nine months of the fiscal year, our egg trade with the United States fell from 12,825 000 dozen in 1890 to 7,354,000 dozen in 1891. The export to Great Britain amounted to 649 000 dozen. A pretty fair proof as to the location of Canada's natural market for eggs.

FARMER.

(*From Our Own Correspondent.*)

Miss Agnes sides daughter of Mr. Andrew Shearer, was united in marriage to John McIntyre, son of the late Peter McIntyre on Wednesday, the 23rd inst. The ceremony was performed by Rev. Mr. Andrews before a large assemblage of guests. We tender the young couple the usual congratulations.

Mr. William Clary was also married to Miss Maggie, daughter of Mr. Richard Hope on the same date. We join in tendering our best wishes to Mr. and Mrs. Clary.

We are to be favoured with several weddings in this neighborhood during this week, but we will omit the names of the happy parties until the nuptial knot is tied.

It is with feelings of regret that we this morning learn of the death of Mrs. Robt. Wood. The deceased was in failing health for the past year, but no serious doubts were entertained of her recovery until about three weeks ago, when she suddenly grew worse and never rallied from the effects of the attack. The deceased was a daughter of Mr. William Comrie of this place. She was a devoted wife and loving mother and leaves a family of two small children and a sorrowing husband to mourn over their great loss. We sympathize with the afflicted in their bereavement.

Living Questions

are most esteemed by every intelligent man and woman. Derangements of the liver, stomach and bowels speedily present to the living questions of obtaining relief. It is at once found in Dr. Pierce's Pleasant Pellets, which cure sick headache, bilious headache, constipation, indigestion, bilious attacks, etc. Purely vegetable and perfectly harmless, they are unequalled as a specific for the complaints named. One tiny, sugar-coated pellet a dose. In vials 125. Carry them in your vest pocket. o

A GOLD WATCH FREE

And Other Elegant Articles to Those Who Can Read This Rebus.

The above is honest advice which we are interested in prescribing to every home. To secure a trial for **FORD'S PRIZE PILLS**, we intend to spend a certain amount in this manner of advertising and attracting attention to the merits of this medicine.

To the *first* person sending the correct answer to the above rebus we will give an elegant **Gold Watch**, fine workmanship and first-class timekeeper; to the *second* we will give a **Genuine Diamond Ring**; to the *third* a handsome **Silk Dress Pattern**, 16 yards in any color; to the *fourth* a **Coin Silver Watch**, and many other prizes in order of merit. To the person sending the *last* correct answer we will give an elegant **Gold Watch**, fine workmanship and first-class timekeeper; to the *next to the last* we will give a **Genuine Diamond Ring**; to the *third* to the last we will give a handsome **Silk Dress Pattern**, 16 yards in any color; to the *fourth* to the last we will give a **Coin Silver Watch**, and many other valuable articles in order of merit, counting from the last. **WE SHALL GIVE AWAY 100 VALUABLE PREMIUMS** (should there be so many sending in correct answers). No charge is made for boxing and packing of premiums. All answers must be sent in by mail **before April 10th, 1892.** Ten 3 cent stamps must be enclosed with answer for one box of *FORD'S PRIZE PILLS*. The names of the leading prize winners will be published in connection with our advertisement in leading newspapers next month. Extra premiums will be given to those who are willing to assist in introducing our medicine. Nothing is charged for the premiums in any way, they are absolutely given away to introduce and advertise Ford's Prize Pills, which are purely vegetable and act gently yet promptly on the Liver, Kidneys and Bowels, dispelling Headache, Fevers and Colds, cleansing the system thoroughly and cure habitual constipation. They are **sugar coated, do not gripe**, very small, easy to take, one pill a dose, and are purely vegetable. Perfect digestion follows their use. As to the reliability of our company, we refer you to any leading wholesale druggist or business house in Toronto. All premiums will be awarded strictly in order of merit and with perfect satisfaction to the public. Pills are sent by mail post paid. When you answer this rebus, kindly mention which newspaper you saw it in. Address **THE FORD PILL CO.**, Wellington St. West, Toronto, Can.

Taxation.

To the Editor of the Examiner:

DEAR SIR,—Having noticed in the *Review* of the 18th inst. an article on taxation by Mr. J. H. Burnham, I beg leave to offer in all modesty and humility, a few remarks bearing on the subject as discussed by him.

Fortunately it was a very happy thought, or, rather, lack of thought, which led the writer to use such obscure and ambiguous expressions to present such an unsound theory to the public. Though not bearing directly on the subject of taxation, a few remarks concerning some of the expressions used by Mr. Burnham may not be out of place, as others may be shown the folly of trying to convey to the public any idea without making use of that indispensible vehicle, clear expression. He writes "Mr. Henry George has set forth a substitute, which, however, has alleged against it an apparent element of confiscation." And with a logic that causes most people to entertain very grave doubts concerning the soundness of his mind, he proceeds to inform us that, if this element of confiscation could be avoided, the objection would certainly be satisfactorily met. He also writes that, in dealing with taxation, use should be made of the distinction between

LOCAL AND GENERAL IMPROVEMENTS

upon land; but in the article mentioned, the use of such a distinction is completely ignored. But it would be gross injustice to censure Mr. Burnham for not making use of such a distinction; on the contrary I heartily concur with Mr. Burnham for omitting the use of the distinction in the article mentioned, as I believe it shows his good judgment. It was only in articles on taxation (not in the article he wrote) that he tells us such a distinction should be used. Further on he writes: "Formerly when a man built a house worth $500 upon land worth $500, and there was a piece of vacant land adjoining, worth $500, the taxes were levied in proportion of one-third to each. Under the new plan the house owner would have his one-third divided in two and one-third put upon each piece of land." Whether he means to say that one-third additional taxes is to be levied on each piece of land, or only one-third of the former taxes is to be put upon each piece of land, or the one-third is to be divided into two-thirds and one of these thirds added to the rate of taxation of each piece, we acknowledge as quite beyond our comprehension.

Having pointed out to the reader a few of the elements of Mr. Burnham's style, I shall proceed to examine the truth of some of his statements. The gist of Mr. Burnham's article is that

ONLY LAND, AND NOT IMPROVEMENTS

upon it should be taxed; that to such a system there is an apparent drawback, namely, the owners of vacant lots bought them at a time when the improvements upon other lots were taxed, and if the improvements upon other lots should cease to be taxed, the owners of vacant lots would have to make up the deficit in the tax receipts—hence there would be an element of confiscation; but that might be avoided as shown in the following example:—"Let A be the owner of a lot worth $500, also a house upon it worth $500. Let B be the owner of a vacant lot worth $500. Suppose that A pays $5 taxes on his lot and $5 on his house, and B pays $5 on his lot. Let money be worth 5%. Then, when the new scheme of taxation would come into force, A would mortgage his house for $50 and give the sum to B, who puts it on interest at 5% and realizes the amount of his additional taxes. That is the plan Mr. Burnham suggests. But let us follow the illustration a little further. Suppose that, after the new system has been adopted, B. builds a house worth $500. Then he will not have to pay any extra $50 as A. had to do, and his house will be just as free from taxation. But A's five hundred dollar house has really cost $550. Competition will compel A. to rent his house at as low a figure as B. rents his at, therefore A's house is worth only $500 while the law has compelled him to pay $550 for it. If that would not be confiscation, then the word has lost its meaning.

Having taken this little preamble over some of Mr. Burnham's unsound logic, I shall undertake to show that the theory, which forms the basis of his suggestions, is unsound. Speculation in land is profitable only when the price of land fluctuates, and the profit is in direct proportion to the degree in which fluctuation takes place.

WHEN GREATER TAXES ARE IMPOSED

The price of land is lessened only somewhat; as this apparent fall in price is equalled by the additional taxes paid; or in other words part of the price is paid in taxes. Hence we see that the taxes do not regulate the real value of land.

To show a little more clearly that the single tax system does not discourage any more than the present system does, the holding of vacant land, let the following serve as an illustration:—Suppose money is at 5%. Under the present system, let the nominal price of a lot be $500, and the taxes upon it $10. Suppose the single tax system is adopted, and the taxes raised to $12. Now the $2 of increase in the interest on $40 therefore the nominal selling price of the lot would decrease $40. Under the present system the speculator would pay $500 and $10 taxes. Under the new system he would pay $460 and $12 taxes. The advocates of single tax maintain that since the speculator would have, under such a system, to pay $2 more taxes, that he loses more by holding the land under the new system than under the present one. But that is not the case, since under the present system the speculator would have to invest $40 more, and the interest on it amounting to $2 is equal to exactly the $2 extra tax mentioned. Hence we see that the single tax system would fail to improve upon the present one in blocking up the way of the land speculator.

CAIUS.

Peterborough, March 25th, 1892.

Nearly every one needs a good spring medicine, and Hood's Sarsaparilla is undoubtedly the best, Try it this season.

Hygienic Water.

A new domestic beverage which is becoming daily more and more popular—Water as often met with is very unhealthy. But even when good, too much should not be taken, as there is danger of colic, which makes one regret not having been abstemious. However it is necessary to drink at times, and when the weather is very warm, the more one drinks the more one wants to drink, without being able to quench thirst. We give here a beverage easily made, and which costs next to nothing, one which quenches the thirst without producing any unpleasant results; on the contrary it makes a very healthy drink, and one which will save you much in the way of doctor's bills.

To every 3 or 4 pints of cold water, steep for a short while before drinking, a teaspoonful of the Indigenous Bitters. These Bitters (if the Genuine, and not an imitation) contain roots of a warming nature, which render the water harmless.

A 25 cts. paket of the Indigenous Bitters will thus give you several hundred drinks, agreeable to the taste, and much more healthful than pure water as instead of injuring, they stimulate the appetite, regulate the bowels and strengthen the stomach, especially when used regularly.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

Some symptoms of worms are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

An inactive or torpid liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

The Safest

AND most powerful alterative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wigga, Arkansas.

Clearing Sale of Groceries.

As I am going extensively into liquors, I find it necessay to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. MORROW, 340 George street.

"The Hercules Duster,"

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in all colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

Merchants, Take Notice.

In view of the fact that many of the merchants of the town are in the habit of burning the incandescent lights in their premises all night, it may be pointed out on the authority of an official of the Light and Power company that they are wasting the carbon filament, the essential part of the lamp and thus decreasing its durability. The merchants evidently forget that the system now runs all night and is not turned off at the old time, twelve o'clock.

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

School of Instruction.

The school of instruction in connection with the I.O.G.T. order of the county will begin Thursday morning at ten o'clock. A large number of delegates are expected to be present from all parts of the county. By the programme the session of the school will doubtless prove of an interesting and instructive character. The object is to work up more interest in the temperance cause among the members of the order throughout the county. Instructive papers and addresses will be given and the discussion on these cannot fail to be of very great advantage and benefit. In the evening the Juvenile Templars in connection with Carswell Lodge will be organized by Sister Mrs. W. L. Scott, G.S.J.T., Toronto. All children should be on hand at 6.45 o'clock sharp.

Miss K. E. Somers, of the Toronto Millinery House, No. 172 Hunter Street, Peterborough, respectfully announces to the ladies that her Millinery Show Rooms will be opened on Thursday, Friday and Saturday, March 31st, and April 1st and 2nd. Miss Somers has just returned from the cities with a complete selection of beautiful Pattern Hats and Bonnets, the latest Paris, London and New York designs. Her display of Flowers, Feathers, Jet Trimmings, Laces and other popular novelties is unusually attractive, and well worth careful inspection. A choice stock of Fancy Silks, Gloves and Handkerchiefs will also be shown. Mourning goods a specialty. Stamping done to order. Remember March 31st and April 1st and 2nd.

MISS K. E. SOMERS,
Opposite the Oriental Hotel.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection of this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. R. STRATTON.

The Foresters' Sermon.

The EXAMINER has been requested to print a fuller summary of Rev. Mr. McWilliams' excellent sermon to the Foresters, which lack of space did not permit on Monday. It will appear in Saturday's issue.

Prof. Kemp, who has been before the American and Canadian public for a number of years, as a practical phrenologest, is at present at the Cardwell Hotel. Prof. Kemp guarantees to give you better satisfaction, and can prove by the sworn statements of many people that he understands his profession and can give a more practical and perfect delineation of character than any phrenologest that ever travelled through Canada, with the exception of Prof Fowler. 6176

A Delivery Rig Damaged.

To-day at noon as Mr. John C. Turnbull's delivery rig was proceeding east on Hunter street, the driver met two other rigs in front of Mr. A. V. R. Young's residence. A loaded waggon was coming down the steep hill on the corner of Sheridan and Hunter streets, and the horse being unable to hold back the heavy load, and the driver of Mr. Turnbull's conveyance being unable to turn out of the way on account of meeting two other rigs, the result was that a collision could not be averted. One of the wheels of the delivery wagon was smashed, and the axle badly twisted.

Edison Amateur Athletic Club.

A grand entertainment will be held on Friday evening, April 1st, in Opera House Music Hall. A programme consisting of selections by the Amateur Orchestra, songs, clog dancing, fencing and boxing contests. There will also be a grand minstrel sketch. The feature of the evening will be tugs of war on cleats between four teams chosen from departments of the Edison Works, the champions of which shall receive challenge from any shop or athletic team in town. Watch DAILY EXAMINER for full programme This will be the entertainment of the season. Don't miss it or you will make the mistake of your life. 4d

A Brilliant Private Enterprise.

Mr. Alex. Elliott, proprietor of the Palace Grocery, has shown many evidences of his enterprise and energy, but his latest departure in this direction takes a decidedly brilliant form. He has lighted his establishment with electric light, developing his own electricity. The Edison General Electric Company has placed in his show window a dynamo, which will be run by the water motor used during the day for running the coffee grinding machine. This will supply an electric current for fifteen 16-candle power electric lights which will be placed in the shop where required. The dynamo is expected to be in operation this evening and supplying light. Its operation in the window, in full view of the public will be a sight worth seeing to the thousands who have never seen the electric genie dynamo at work.

A Splendid Entertainment.

Last evening the members of the Peterborough Council, R. T. of T., No. 97, gave an entertainment in their hall on Hunter street. There was a very large attendance of members and their friends. Dr. P. D. Goldsmith presided in an able manner and kept the audience in good humor all the evening by his witty remarks. The programme opened with "God Save the Queen," after which Major Rundle's class gave a clever exhibition of club swinging. They were re-called during the evening so well pleased were those present. Master Roy Stephenson, a bright little fellow of six summers then recited the 13th Psalm. He was loudly applauded. The Y.M.C.A. quartette, composed of Mrs. R. Grey, C. Payne, R. Shelton and W. E. Wesley to the effective accompaniment of Miss Edna Jewett then sang a glee entitled "Speed Away. During the evening they again rendered another pleasant selection, "The Spanish Ballad." Miss May Goldsmith followed reciting "The Clown's Baby" in fine style. Mrs. David Kerneghan sang a solo in excellent voice. She appeared again during the evening singing "Always Look on the Sunny Side," and responded to an encore. Mr. A. Clegg gave a couple of fine readings in his usual fine style. Master Roy Stephenson, who furnished a good share of the entertainment then gave an exhibition of clever club swinging. He also gave a recitation which was well received. Mr. Stewart rendered two songs with banjo accompaniment. This brought to a close a programme well rendered and of unusual interest. Afterwards enticing refreshments were served and partaken of by those present.

$5.00 Per Month—Medicine Free,

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5.00 per month*, and furnish medicines free of cost. A more liberal *offer it would be* difficult to make. No extra charge for anything: *$5.00 per month and medicines free.*

These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by mail, but at least one personal interview is preferable.

All correspondence should be addressed to Mr. John Murry, Manager, 271 Jarvis street, Toronto

The P. A. A. A. Meeting.

Good Prospects for a Successful Summer's Sport—Clubs Organized this Week—Prospective Matches—Large Attendance.

There was a large attendance of those interested in sports of all kinds at the annual meeting of the Peterborough Amateur Athletic Association held in the Olympic Club rooms last evening. Over a hundred enthusiasts in all lines of sport were there to show their interest in baseball, football, cricket, lacrosse, tennis, snow shoeing and bicycling. At half past seven a baseball meeting was held with an attendance of about sixty. The members of the Peterborough baseball club and the Collegiate Institute club turning out in large numbers. The following officers were elected for the Peterborough Baseball club for the coming year:—

HONORARY PRESIDENT—Wm. Salisbury.
PRESIDENT—W. J. Green
FIRST VICE-PRESIDENT—Sam Ray.
SECOND VICE-PRESIDENT—W. F. Johnson.
CAPTAIN AND MANAGER—Dr. Brennan.
SECRETARY—F. D. McKay.
EXECUTIVE COMMITTEE—Messrs. R. Hay, W. Evans and W. Sharp.

The Collegiate Institute club organized on Monday afternoon with the following efficient officers. Their meeting was largely attended and very enthusiastic. The representatives from the Collegiate Institute at the meeting last night show the interest the boys are going to take in baseball this year. Following are the officers elected:—

HONORARY PRESIDENT—J. H. Burnham, M.A.
PRESIDENT—Cortez Fessenden, B.A.
VICE-PRESIDENT—Thomas Dodds.
CAPTAIN—Fred Heap, M.A.
SECRETARY—W. J. Ritchie.
TREASURER—H. Burnham.

A joint committee was appointed last evening between the two clubs, three representatives from each and an "outsider" to act as arbitrator in cases of dispute. The committee elect is for advancing the interests of baseball in general and to have a proper understanding between the two organizations.

Following are the members of the committee—Messrs. F. Goldsmith, G Chowse, W J. Drope, (Collegiate Institute). F. McKay, R. Hay, Dr. Brennan, G. A. Schofield, (Peterborough).

After the baseball meeting a football meeting was held. Although it is not probable that the "absorbing game" will be played much this spring, giving way to the "scientific game" in the early part of the season, still the boys believe in being organized and ready for the fray.

Following are the officers:
HON. PRESIDENT—Dr. G. Burnham.
PRESIDENT—R. B. Rogers.
VICE-PRESIDENT—W. J. Drope.
SECRETARY—F. D. McKay.

The preliminaries done with the annual meeting of the Peterborough Amateur Athletic Association was held. Mr. R. B. Rogers occupied the chair. The following were the directors elected from each of the clubs of the association:

BASEBALL—Fred Heap and Dr. Brennan.
FOOTBALL.—G. A. Schofield.
LACROSSE.—W. A. Sanderson and W. E. Lech.
TENNIS—W. D. Parker.
SNOW SHOE.—W. J. Drope.

Owing to the bicyclists not holding a meeting yet this year, no directors have as yet been elected. The meeting was an informal one, but a great deal of discussion was indulged in. The report of the treasurer Mr. G. A. Schofield, showed that all accounts and claims had been paid and that a balance of some $8 remained in the treasury. This was raised principally from the concert and games given on the 24 h of May last. The main point of the discussion was how members could be made to pay their dues regularly and promptly. This done the Association would prosper beyond measure. The election of officers was postponed until the next meeting of the association to be held on Tuesday, April 5th. It was moved last night by R. B. Rogers, seconded by W. J. Drope, that Dr. Halliday be elected Honorary President, and by R. B Rogers and Wm. Salisbury that Messrs. W. D. Parker and F. D. McKay be appointed auditors. This was carried. Judging from the interest, attendance and enthusiasm manifested, the prospects for the association are brighter than any year in its history.

In all likelihood the Peterborough Baseball club will play the Edisons on Good Friday.

The directors will elect the officers on Tuesday night next. The only officers that the Association elect are the honorary president and the auditors.

The matter of holding sports on the 24th of May was much discussed last evening, but nothing definite decided upon.

St. John's Lenten Lecture.

This evening at St. Johns, at the close of the service, Rev. A. Lloyd, of Trinity College School, Port Hope, will give an address upon the subject "Rooted in the Past."

Emigrants En Route.

Five carloads of emigrants numbering 235 in all passed through Peterborough at 12.30 to-day on the C.P.R. Eight of them got off here for the Barnardo Home. Sixty were left in Montreal. The remainder go on to the Toronto home. All of these youths are spoken for by farmers and there are 500 applications for boys yet to be filled.

Another Sad Accident.

A sad accident happened Willie, the six-year-old son of Mr. Wm. Lee, George street, yesterday afternoon. Young Lee was out attending a cow in the barn when by some means the animal shifting to one side crowded the boy's arm against the side of the barn. The result was that the right arm was broken just back of the hand at the wrist. The hand was left hanging by the skin only. Dr. Boucher reduced the fracture and attended to the wants of the injured member.

A Pleasant Drive.

A load of representatives of the various Y. P.S.C.E, from the various churches of Peterborough, drove to Keene yesterday afternoon. Those who represented the different societies were: Baptist church, R. J. Colville, Miss Mann, Lewis Crowley; George street church, E. A. Manuel; St. Paul's, A. J. Johnston, Miss N. Wrighton, Miss Quinn, W Nelson; St Andrew's A. J. Hamilton, R. M. Russell, Miss Carruthers; Charlotte street, Percy Hamilton, Mr. Nelson; Mark street, Herbert Fife; Cold Springs, Otonabee, Harry Kennedy. The party reached Keene at seven o'clock. They had tea at the Methodist church, Rev. Mr. Curts pastor. After tea a model Y.P.S.C.E. meeting was held; Mr. R. J. Colville presided. The topic of the evening, "Preparing the way of the Lord", was led by Messrs. Manuel and Crowley. Afterwards a model business meeting was held when reports of committees were given by Messrs. Johnston, Hamilton, Russell, Nelson, and Misses Wrighton and Quinn. Afterwards a conversation meeting was held and a social hour spent at the Methodist parsonage with Rev. Mr. Curts, pastor of the Methodist church, and Mrs. (Rev.) Curts, president of the Union Society.

Personal.

Mr. Geo. McWilliams left yesterday for the Northwest Territory.

Mr. Wm. Cummings, wife and family, Ashburnham, left yesterday for Calgary, N.W.T.

Mr. H. A. Ward, ex-M.P. for East Durham, was in town to-day on his way to Ottawa.

Dr. Davies, wife and family, of Peterborough, are staying at the Queen's.—Belleville *Ontario.*

The condition of Mr. Wm. Clarton is a good deal better. He is able to sit up a few hours daily.

Mr. Wm. Johnson, who has for the past two years been a resident of Peterborough, has removed to his farm at Menvers.

Messrs. Allan Jones, post office inspector, and W. L. Hamilton, inspector of Inland Revenue, Kingston, are in town to-day.

Mr. Frank Bridco left this morning to accept the situation of assistant secretary in the London Young Men's Christian Association.

Mr. J. D. Collins, who returned from the old country on the 15th inst, has been indisposed since he arrived home. He was able to be out yesterday.

Mr. J. M. Hodson, M. A., severs his connection with the Bridge street Methodist church, Belleville, in June, having finished his term of three years. Mr. and Mrs. Hodson will spend a year travelling in England and the continent. He has refused a flattering offer from a church near Boston.

News Nuggets.

—No arrests were made last night.

—The Supervision Committee of the Board of Trade met last evening.

—The mayor's office will be painted and papered along with the town clerk's.

—Mr. C. B. Rentley has purchased the fancy goods stock of Mrs. E. E. Ross.

—The election of W. B. Northrup, M.P., for East Hastings was protested yesterday.

—Ashburnham Lodge, No. 358, I.O.G.T., will hold an "At Home" next Tuesday evening.

—The roads in the country are very bad and muddy. It will take them some time to dry up.

—The market this morning was very small. A large number of loads of hay were offered for sale.

—The local corps of the Salvation Army will give a reception to Staff-Capt. Cox of Toronto, Saturday, on her arrival on the 11.50 train, C.P.R.

—There is a family in the northern part of the town who are the objects of the charity of the benevolently disposed. Their address can be learned at this office.

—Belleville is to have a big day on July 1st. It will be a Foresters celebration, and at least a thousand of the crafts are expected to take part in the grand event.

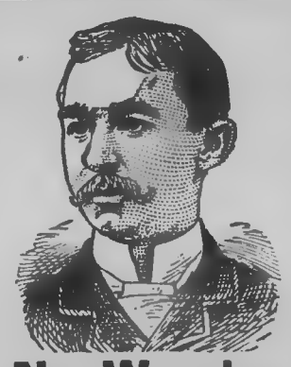
—The School of Instruction for members of County lodges in connection with Carswell Lodge, No. 512, I.O.G.T. will begin on Thursday morning at ten o'clock.

—The information laid by Mrs. Elizabeth Vought against Walter Guy, Ashburnham, for being drunk and disorderly, came up before County Magistrate Edmison yesterday afternoon but was enlarged until to-day.

—Mrs. Wm. Northcott, near Enterprise, who recently lost her arm from the scratch of a cat, was presented a few evenings ago with the which to purchase an artifical arm, by her numerous friends and sympathisers.

BIRTH.

ROGERS—On Wednesday, March 30th, 1892, the wife of Richard B. Rogers, C.E., of a daughter.



No Wonder

That People Speak Well of

HOOD'S

Sarsaparilla

Mr. R. J. Brundage of Norwalk, Ct., of the firm of Burton & Brundage, expressmen, 159 Main Street, writes his experience below:

"For a long time I have been troubled with a weak stomach, followed by

Indigestion and Dyspepsia

A short time ago I began taking Hood's Sarsaparilla and took three or four bottles. Result, I have not felt so well all over for years. My food seldom troubles me now. My sister, who was troubled about the same way as myself, took Hood's Sarsaparilla with very pleasing results. I do not wonder that patrons all along the line speak so well of Hood's Sarsaparilla. Don't see how they can help it." R. J. BRUNDAGE, Norwalk, Ct.

Mr. B. H. Rose

Is well known in Rochester, N. Y., as head of the firm of Rose & Eddy, wholesale and retail dealers in general hardware and house furnishing goods, at 137 East Main Street. The statement of so prominent a man must

Command Attention

"I send this unsolicited as I feel to congratulate myself that I used Hood's Sarsaparilla. Six months ago my digestion was very bad, and I had almost a case of

Chronic Dyspepsia

I was also broken down by over-work, so that I could not sleep nights. My stomach is now perfect, my nerves in excellent shape, and I have gained 10 pounds in 6 months. For all this benefit my gratitude is due Hood's Sarsaparilla. Accept my best wishes for

Hood's Sarsaparilla

the best medicine in the land." B. H. ROSE, of Rose & Eddy, Rochester, N. Y.

HOOD'S PILLS act easily, yet promptly and efficiently on the liver and bowels, cure headache.

We are getting New Novels in every day just now; also Lots of Magazines.

SAILSBURY BROS.,

George Street.

The great Chronometer and Regulator in chief, to the whole world, is the earth itself. Turning upon its axis once in what we call one day of twenty-four hours, the sun appears to cross the meridian once in that interval and is the only perfect time known. But the great objection to the sun as a family timepiece is, we can't always hustle around looking for him to judge the time by, and it is too big to carry around with us, so we have to call in the watchmaker's aid to find the correct time. Who is your watchmaker? Try R. W. MUNCASTER.

ELECTRIC POWER!

We are prepared to furnish electric current for running motors from our arc circuit at the following prices:—

¼ h.p. Gas Motor, $15.00 for the season June 1-Oct. 1.
¼ h.p. Motor, $18 per annum.
½ " " $30 " "
1 " " $60 " "
2, 4 or 6 h.p. Motor, $50 per h.p. per annum.
8, 10 or 15 h.p. Motor, $40 per h.p. per annum.

The current for these motors will be furnished from 7 a.m. till 6 p.m. Motors can be purchased through this company.

LeBrun's Old Stand, George St.

Young's Point Railway Extension.

To the Editor of the Examiner:

SIR,—Will you kindly give space in your valuable paper for a reply to a letter in the Lakefield *Chronicle*, dated March 25th, headed, "Railway Extension," and signed "*Tourist.*" Now if he had signed "Greenhorn," it would be more in accordance with his remarks as to the subject in question. He starts out with the words, "No axe to grind" and "railway extension to Young's Point from a business standpoint," and "resulting in a failure." Well, judging from his remarks it might be a failure, according to his opinion on the subject.

He goes on to speak of the G.T.R. accommodation to Lakefield being first class, "substantial wharfs, etc." Admiring all that; he goes on to say that the river between Lakefield and Young's Point is the most pleasant portion of the trip to Stony Lake. Well, I will leave that for the public to decide. From the time you leave Lakefield until you reach near Young's Point there is nothing but a continuation of marsh, logs and weeds, which I am sure must be, and are anything but agreeable to the tourist, not taking into consideration the *bumping of steamers against rocks* and frequently breaking wheels, causing great annoyance to the travelling public. Now Mr. Editor it has been stated by Americans and other tourists, who have visited our inland water—that Stony Lake is the most beautiful sheet of water on the continent and most appropriate for those seeking outdoor recreation during the summer season. If the railway facilities were what extension would make them, the traffic would be double what it now is.

Mr. "Tourist," as he calls himself, must never have seen the Stony Lake waters or he would not form such a high opinion of the Katchewanooka River. He must not be aware that we have in the first place, both granite and limestone quarries of the finest quality, the latter within a rifle shot of where the railway terminus would be. If it were extended to Young's Point these quarries would be operated the whole year round. Besides the unlimited quantity of hardwood in the vicinity of the Point, would be shipped out in large quantities during the winter season.

Mr. "Tourist" must not be aware that there is a dam at Young's Point—one of the best water powers on the Otonabee River, where there would be built large roller mills and besides the present mills would double their capacity. And again we have unlimited quantities of pulp timber close at hand, and we would have in a short time a mill of that in operation; but owing to the lack of shipping facilities, these operations cannot be gone on with.

Now, Mr. Editor, I am of the opinion that Mr. "Tourist" has an axe to grind at Lakefield, and and a broadaxe at that, or he would not come out with such blind remarks.

Thanking you, Mr. Editor, for your valuable space, I am,

Yours etc.,
FARMER

Young's Point, March 28th, 1892.

Three Days of Brightness, Beauty and Bargains.

These three days will be Wednesday, Thursday and Friday, March 30th, 31st, and April 1st, being the days fixed for the grand opening of Miss Delaney's millinery and mantle show rooms, for the spring of 1892. Miss Delaney has determined to make these three dates brilliant opening days, the best she has ever attempted. In her beautiful show rooms ladies will find displayed millinery from the world's fashion centres, the work of the nimble fingers of French artistes, backed by the choicest that the best trimmers in Canada can supply. Paris, English and New York pattern bonnets and hats, flowers, ribbons, veilings, etc., in lovely variety, and unusually attractive. Mantles, wraps, jackets, tweed and plain melton cloakings with venetian finish, jet trimmings, etc., and other novelties in profusion at very special quotations. Miss Delaney has spared neither time nor expense to make the season's display attractive to a degree. She has personally visited the large millinery openings in New York and other cities of fashion in the United States, as well as in Montreal and Toronto, the latter city three times this season, and is therefore thoroughly conversant with all the latest leading fashions of the day, and confidently invites the inspection of ladies on the above dates.
5d74-1e13 MISS DELANEY.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Gough Bros. Have Their Boots On.

Their Big Spring Boom Now in Full Bloom Ready to "Walk Into" all opposition in the Boot and Shoe Trade.

Their elegant new premises are so far advanced that the stock of boots and shoes that have been temporarily kept in other premises have been removed to the renewed store in the old stand. This stock has been completely supplemented by an immense new stock, and now Gough Bros. supply of boots and shoes is large enough to supply an army, and of sufficient strong quality to stand a march round the world. Besides, a splendid stock of boots and shoes for ladies, misses and children. The highest quality—the lowest prices. Gough Bros. are wise builders. they begin at the bottom, on a good foundation—a sound understanding, and go upwards. They have a *big* boom for the boys, a gigantic purchase of 1700 boys suits all sizes, bought of the great clothing house of Lailey, Watson & Co., Toronto, at 60 cents on the dollar for spot cash; beautiful good, the latest styles, the best material, cheap as charity and good as gold. "The father's pride and the mother's joy" need not look a nobby suit when so small a price will buy it at Gough Bros. Dont let "the dear boys" go shabby when they can be clothed from top to toe at Gough Bros. for about half the cost, which dealing with any other establishment would entail. Men's spring suits in stocks, the latest cut and material, and at the lowest prices on the continent Gough Bros. the *benefactors of the Midland District*, are everybody's friends, and enemies only to high prices. The biggest stocks of the best boots and shoes, gentlemen's furnishings, and boys, youths and men's ready made clothing on the province and at the lowest prices, are now waiting to welcome the public at Gough Bros., 375 and 377 George street.

Police Court.

WEDNESDAY, March 30th.

There was only a small crowd and a small docket at the police court this morning. Patrick Maguirk who slept over night in the cells on Monday, applied to the court to be sent up on the bill for two weeks. He has a sore foot and wanted to be sent up in order that he might have free medical treatment and rest. The magistrate complied with his request.

Three small boys were charged with breaking glass in a woman's residence in the eastern part of the town. One of them acknowledged the crime and the glass will be replaced. His Worship gave the other two juveniles a severe reprimand for throwing stones. The Magistrate intends making an example of those youth who throw stones.

Lakefield.

(From Our Own Correspondent.)

No items this week, the village being very quiet.

Clementi Lodge, No. 313, A. F. and A.M. meet next Tuesday evening,

A large flock of robins arrived last Friday, and can now be seen and heard all over the village.

Constable Cochrane was in the village Tuesday, a sure sign some poor mortal is in trouble.

We regret to announce the death of Isabella, wife of Mr. Wm. Adams, Smith, near the village. She has been ill for a couple of years and the end has long been expected.

The first maple syrup has been offered for sale in the village; the frosty nights and bright warm days are causing a good flow of sap.

Parties who have been up the back lakes inform us that the water is very low at present, in Stony Lake; it is fully three feet lower than when the ice took last fall, and it was then below its average level. Unless we have a heavy fall of rain we will have a low spring flood, and low water during the summer.

A report was received on Monday that the body of Pete McGee who was drowned last fall near Young's Point, had been found near Peterborough, but later advices show it was not his body.

Our village clerk is at present in correspondence with parties thinking of starting a woolen factory in the new building owned by the Lakefield Lumber Co. Should they decide to come it will be so much gained for the prosperity of the place and more will follow.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

The Latest Yet

W. C. Kirk has bought a lot of mixed tea, a bankrupt stock, good sound tea, which he offers at 15c. per pound in twenty pound boxes. You surely cannot get better value than that; don't think because the price is so low that the tea can be no good; I guarantee it. W. C. Kirk, Ashburnham. Telephones, Ontario No. 6, Bell No. 312.

Is This Your Turn?

A gentleman visiting a patient in a hospital said to the attendant "That sick man's father is my mother's son." What relationship existed between the visitor and the patient?'

THE QUEEN will give an elegant Mason & Risch fine toned upright piano to the first person answering the above problem correctly; an elegant gold watch for the second correct answer; a china dinner set for the third correct answer, and elegant silk dress pattern for the fourth correct answer, and many other valuable prizes. An elegant special prize will be given for the FIRST CORRECT ANSWER FROM A READER OF THIS PAPER. Each person answering must enclose five three cent stamps for copy of THE QUEEN for April, containing full particulars, and a beautiful watercolour engraving "Easter Morning." This announcement appears simultaneously throughout Canada TO-DAY. Answer promptly, as postmarks count. Address THE CANADIAN QUEEN, "X" Toronto, Ont.

N.B.—THE QUEEN gives away one piano each month during 1892. The winner of the piano in the last (Moses) problem was Miss May Germley, of Hamilton, Ont.

There Are Others,

But the barber shop you, reader, want to go to is BILLY MORGAN'S, the high-class barber, at 436 George street.

Bensfort.

BURNED:—The Bensfort cheese factory with house attached was burned on Friday last. Cause unknown.

Mr. John McKee's family, of the 4th line of Cavan, are very sick with diphtheria. Their youngest child, aged two years and two months, died with it on Sunday last.

South Monaghan.

(From Our Own Correspondent.)

SHOCKING ACCIDENT.—A shocking accident happened to one of Mr. Robert Wood's sons on Monday, March 28th, which resulted fatally. The deceased, M. John Wood, and two younger brothers were chopping in the woods. The tree he happened to be felling had a bend about half way up. In falling the bend or belly of the tree struck the ground first which caused the butt to swing round striking Mr. Wood on the side of the head, and to all appearance, killing him instantly. He lived five hours but never regained consciousness He was 33 years of age and very highly esteemed. The parents and relatives have the deep sympathy of the entire neighborhood in their sad bereavement.

The "Second Coming" Address.

The opera house was again filled with a large audience last night, to hear Mr. H. Middleton Wood continue his address on the subject with which he dealt the previous evening. He was given a respectful hearing. Mr. Wood stated that he would meet any who desired further information, in the room adjoining the opera house hall on Thursday evening.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the

JACKSON & Co.'S

ESTABLISHED

PIANO AND ORGAN WORKS,

360 Aylmer St., Peterborough.

Being extensive dealers in only Reliable and Standard makes of

GRAND, SQUARE AND UPRIGHT

PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS, AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that **we positively will not be undersold.**

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

All kinds of Instruments Tuned or Repaired on short notice.

THE KINGDOM OF WOMEN.

THINGS INTERESTING TO THE FAIR SEX AT HOME AND ABROAD.

Hints for Homes—An Excellent Batch of Things Worth Knowing—Neapolitan Women—Rosa Bonheur's Latest—Busy Grande Dames—The Re-Potting of Plants

Now is a good time to re-pot many varieties from which flowers are expected through the spring season. Wait until you notice a tendency to make new growth. Then shift. If old plants they may not require larger pots—simply fresh soil, or a top-dressing of fresh earth. If you do not care to re-pot wholly, dig out as much of the old soil as you can conveniently without disturbing the roots, and put rich compost in its place. This is easier than to wholly re-pot the plant, and generally answers as well, if care is taken to have the soil rich. Do not disturb a plant while it is dormant. If the plants are young, or comparatively so, and a larger development of top is desired, it is well to give a size or two larger pot.

THINGS WORTH KNOWING.

A GOOD WASHING FLUID.

Dissolve one pound of sal-soda and half a pound of lime in five quarts of water, and boil for a few minutes, stirring occasionally. Remove from the fire, and allow it to settle; pour off the clear liquid into a stone jar, and cork for use. Half a teacupful of this fluid added to half a boiler of boiling water on wash days will save a great deal of labor.

HOW TO PACK SILVER.

When putting away silver that is not to be used for a considerable time, place it in an air-tight case, with a good-sized piece of camphor.

TAKING DOWN THE STOVE.

In taking down the stove, if any soot should fall upon the carpet or rug, cover quickly with dry salt before sweeping, and not a mark will be left.

HOW TO RELIEVE NIGHT-SWEATS.

Night-sweats may be arrested by sponging the body at night with very hot water. It is a great help also toward toning up the skin to rub the body briskly in the morning with a bathing towel wrung out of salt water; the salt enters the pores and stimulates the skin to healthy action.

TO MAKE A MUSTARD PLASTER.

For young children: Mix one teaspoonful of mustard and three of wheat flour with water to the consistency of a stiff batter, and apply between soft muslin cloths. For adults: One part of mustard and two of flour.

TO TIGHTEN CANE-SEAT CHAIRS.

Turn up the chair-bottom and wash the cane-work thoroughly with soapy water and a soft cloth. Let it dry in the air, and it will be firm as when new, provided the cane has not been broken.

Neapolitan Women.

The Neapolitan woman of the upper class is not interested in the higher education or industrial progress of her sex, according to a woman traveller's description. She can smile sweetly, dance lightly, coquette gracefully and dress daintly, but to blister her soft palm with an oar, prick her taper fingers with a needle, broaden her slender foot by walking or wrinkle her smooth brow with study are to her undreamed of absurdities. The little brothers and sisters in a Neapolitan household are rigorously separated. They work and play at different hours, and are brought up according to an entirely different code. The daughters are educated in Rome or Paris at the Sacre Cœur, and if there are several girls in one family one is dedicated to the church.

Rosa Bonheur's Latest.

Rosa Bonheur has just completed a painting for which she has refused $60,000. The Empress Eugenie was one of the first to recognize the merits of the talented woman painter, and it was by the Empress' wish that she received the decoration she prizes so highly. When the story of the ill-fated Eugenie's extravagance and frivolity is told, of her wardrobe that represented in value $1,000,000, and her allowance of $10,000 a day for household expenses, some chivalrous defender of the sex ought to tell this story of her appreciation of a woman's talent.

Busy Grande Dames.

The Grand Duchess of Baden, daughter and sister of the Emperors, is at the head of a hospital, a cooking school, a training school for servants, a school of art for women, and a mending school. The Queen of Italy is at the head of an industrial college for women founded by herself. The royal ladies of Sweden support an industrial school. And the Empress of China is having a large cloth and silk factory built in the palace grounds, as the law forbids her going outside them, where she will give many of the unemployed women and girls of her empire congenial work.

A Prize Puzzle.

If a frog is at the bottom of a well, ten feet deep, how many days will it take him to get to the top if he climbs up one foot each day, and slides back six inches each night.

One Hundred Dollars in cash will be paid to the person who sends the first correct answer to the above prize puzzle, an elegant pair of diamond earrings in solid gold set ings given to the one sending second correct answer. A complete education at business college given for fourth correct answer. An imported Music Box (playing six pieces) given for fifth correct answer. A silk dress pattern for each of the next five correct answers. A handsome parlor lamp to each of the next ten. AND A SOLID GOLD WATCH FOR THE FIRST CORRECT ANSWER FROM EACH PROVINCE. Every person answering must enclose four three cent stamps for two sample copies of the finest illustrated publication on this continent. We give these prizes simply to introduce it. Address, LADIES' PICTORIAL WEEKLY (22), Toronto, Can.

Pleasant as Syrup

Mr. Douglas Ford, Toronto, states that Milburn's Cod Liver Oil Emulsion with Wild Cherry Bark is free from objectionable taste, being almost as pleasant as syrup, while for coughs and colds it gives complete satisfaction, acting promptly even in obstinate cases. dw

As a pick-me-up after excessive exertion or exposure, Milburn's Beef, Iron and Wine is beneficial and comforting. dw

My Wife.

Not as all other women are
Is she that to my soul is dear,
I love her with a love as still
As a broad river's peaceful might,
Which by high tower and lowly mill,
Goes wandering at its own wild will,
And yet doth ever flow aright,
And, on its full, deep breast serene,
Like quiet isles, my duties lie;
It flows around them and between,
And makes them fresh and fair and green—
Sweet homes wherein to live and die.
—James Russell Lowell.

Intended to be Well Spoken Of.

He stopped the politician who had been accused of everything from bigamy to horse-stealing and asked him seriously:

"Did a newspaper ever say a good word for you?"

"Never, sir; never."

"Never saw a virtue in you?"

"Not one."

"Funny, isn't it?"

"Funny!" exclaimed the politician. "It's an outrage, sir, and simply shows the venality of the press. But I'll fix 'em; I'll force 'em to acknowledge my worth."

"Force 'em to?"

"Yes, sir; force 'em to. I'll make every paper that ever said a scandalous thing about me talk about my services to the country and my record as a statesman."

"When?"

"Well, not this year, I hope, but some time, sir, some time."

"How in the world will you do it?"

"I'll get my name into a new department of the paper—one in which there is nothing but praise."

"The obituary column?"

The politician nodded.

"It's my only hope," he said, "but it can't fail."

No medicine has had greater success in checking consumption, in its early stages, than Ayer's Cherry pectoral. It stops coughing, soothes the throat and lungs, and induces much needed repose. Hundreds have testified to the remarkable virtues of this preparation.

THE BEST FAMILY PILL IN USE

FOR SALE BY ALL DEALERS

Keep the Works in good order.

NORMAN, Ont., January 15, 1892.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care is thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

The Travellers' Safe-Guard.

AMAGAUDUS POND, N.S., Jan. 27, '90.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—For many years, I have been a firm believer in your "Dr. Morse's Indian Root Pills." Not with a blind faith, but a confidence wrought by an actual personal experience of their value and merit. My business is such that I spend much of my time away from home, and I would not consider my travelling outfit complete without a box of Morse's Pills. Yours, &c.,
M. R. MCINNIS.

A valuable Article sells well.

Executors' Notice to Creditors

In the Matter of the Estate of AGNES SCOTT, Late of the Town of Peterborough, in the County of Peterborough, Widow, Deceased.

NOTICE IS HEREBY GIVEN, pursuant to the provisions of the R.S.O., 1887, Chapter 110, that all creditors and others having claims against the estate of AGNES SCOTT, late of the Town of Peterborough, in the County of Peterborough, widow, who died on or about the twenty-first day of January, 1892, at the said Town of Peterborough, are on or before the Twelfth day of April 1892, to deliver or send by post prepaid to Stratton & Hall, Hunter Street, Peterborough, solicitors for Robert Innes and Peter Csmal, the executors of the estate of the said deceased, a full statement of their christian and surnames, addresses and description and the full particulars of their claims, a statement of their accounts and the nature of the securities (if any) held by them. And further take notice that after the said last mentioned date, the said executors will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which notice shall have been given as above required, and the said executors will not be liable for the said assets or any part thereof to any person or persons of whose claim or claims notice shall not have been received by them or their solicitors at the time aforesaid.

"German Syrup"

J. C. Davis, Rector of St. James Episcopal Church, Eufaula, Ala.: "My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of Boschee's German Syrup. I can recommend it without hesitation." Chronic severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-standing cases that Boschee's German Syrup is made a specialty. Many others afflicted as this lad was, will do well to make a note of this.

An Episcopal Rector.

J. F. Arnold, Montevideo, Minn., writes: I always use German Syrup for a Cold on the Lungs. I have never found an equal to it—far less a superior.

G. G. GREEN, Sole Man'fr, Woodbury, N.J.

BBB

THE GUIDING STAR TO HEALTH.

BURDOCK BLOOD BITTERS

Regulates the stomach, liver and bowels, unlocking the clogged secretions and carrying off all foul humors and impurities from the system, thus curing dyspepsia, biliousness, constipation, headache, scrofula, salt rheum, sour stomach, dizziness, heartburn, rheumatism, and all diseases of the stomach, liver, bowels and blood. It antagonizes all blood poison, removing all impurities from a common pimple to the most scrofulous sore.

ITS EFFECTS IN HEADACHE are truly surprising, having made complete cures in obstinate cases of more than 20 years' standing, which had resisted all other treatment. As a

SPRING BLOOD PURIFIER

it has long held first place, and continues to be esteemed by press and people, the best and purest remedy ever devised to remove tired feeling, restore elasticity and buoyancy to the constitution, and tone up the entire system to bounding health and strength.

Price $1 per bottle, 6 for $5, or less than 1c. a dose.

Burdock BLOOD BITTERS

Sold by all Druggists.

Cook's Cotton Root COMPOUND.

A recent discovery by an old physician, *Successfully used monthly by thousands of Ladies.* Is the only perfectly safe and reliable medicine discovered. Beware of unprincipled druggists who offer inferior medicines in place of this. Ask for COOK'S COTTON ROOT COMPOUND, take no substitute; or inclose $1 and 4 three cent Canada postage stamps in letter, and we will send, sealed, by return mail. Full sealed particulars in plain envelope, to ladies only, 2 stamps. Address Fond Lily Company, No 3 Fisher Block, 121 Woodward ave., Detroit, Mich.

Sold Peterborough by all responsible druggists, and by all druggists everywhere. lyd28

Coating Sheet Iron With Lead.

Workers and artisans in metallurgy will be interested in the formula, lately published, of Morgan's process for coating sheet iron with lead, by means of which such admirable results are obtained. In accomplishing this result, the metal is first made free of scale by means of hot, dilute sulphuric acid, then washed with water, and afterward transferred to a vat containing a solution of lime or other alkaline compound, which serves to prevent oxidation and acts as a flux. The sheet iron is now plazed in a dilute solution of zinc chloride containing on the average twenty pounds of oxalic acid and ten pounds of sodium sulphite per ton of iron treated, these quantities depending upon the quality of the metal. After this immersion the sheets are passed through melted lead and allowed to drain.

Progress of the Age.

On a recent date there were in New York harbor 532 ocean-going vessels of all kinds, of which 116 were steamers, 37 ships, 101 barks, 23 brigs and 255 schooners.

The average supply of water per person in London last year was about thirty and a half gallons, an amount considerably less than the consumption per individual in the larger cities in this country.

Owing to the alternate shrinking and swelling of the wooden flumes employed throughout the West for mining and irrigating purposes it is proposed to use galvanized iron flumes, with the upper edges stiffened.

The telephone line reaching to the summit of Pike's Peak, an elevation of 14,216 feet is eclipsed for altitude by a line that crosses the Andes on the Trans-Andean Railroad, at an elevation of about 16,500 feet above sea level.

The Keynote of an Auditorium.

In rooms of poor hearing qualities Dr. Ephraim Cutter says: Every hall or church has its keynote, and the audience will hear better if the speaker's voice is pitched and held to the keynote of the room. To find the keynote sing the natural scale slowly, evenly and smoothly, or play this scale on piano or organ. The note which is most prominent is the keynote.

The Zest of Hunting.

You can never know the zest of hunting or fishing until your dinner depends on your success; you have never attained the sublime in cookery until you have spitted your fish or meat on a freshly peeled stick, rubbed the salt in with your fingers, and boiled it over a woodland fire, you watching it jealously lest it get ablaze, and all the time that meat is browning you grew hungrier and hungrier; and every time it sputters in the glow you catch wafts of fragrance, until you feel that you have the capacity of a dozen starving men, and wonder whether a single haunch of venison can supply your wants.—St. Nicholas.

St. Thomas' New Collector.

ST. THOMAS, March 29.—It is understood that Mayor McCully is to be appointed collector of customs rendered vacant by the death of Collector Dunham.

The Ocean Cattle Rate.

MONTREAL, March 29.—The cattle rate out of Montreal for the opening of navigation has been made by one of the steamship companies, which has made contracts for space at 60 shillings.

Space on some seven boats of one line has been taken at this figure for May and June. The exporters look upon this figure as reasonable. The three big lines, however, have not yet made a rate, and will probably not do so until the opening of navigation.

Judge Young Dead.

CHARLOTTETOWN, P.E.I., March 29.—Hon. Charles Young, judge probate, died Saturday after two weeks' illness from grip.

Crushed to Death in the Ruins.

ST. PETERSBURG, March 21.—A three-story house in course of erection here collapsed to-day. Thirteen workmen were killed.

Mr. C. Harper, Ottawa, Ont., writes: "I have pleasure in stating that your Pink Pills are a wonderful tonic and reconstructor of the system. Since beginning their use I have gained on an average a pound of flesh a week. I have recommended them to a number of my friends, who declare that they are the only medicine that they have ever used that do all that is claimed for it. Sold by all dealers. dw

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flushes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

Ladies appreciate Anti-Dandruff from the fact that it not only thoroughly removes dandruff with three applications, but stops falling of the hair, restores faded hair to its original color, and makes it soft and pliable without leaving any indication of a dressing being used—clear as crystal, clean to use, it is a valuable toilet preparation. dw

THERE is no one article in the line of medicine that gives so large a return for the money as a good porous strengthening plaster, such as Carter's Smart Weed and Belladonna Backache Plaster. dw

EXCELLENCE.

RHEUMATISM.—MR. WM. HOWES, 62 Red Lion St., High Holborn, W. C., London, Eng., states he had rheumatism 20 years; suffered intensely from swelling of hands, feet and joints. He used St. Jacobs Oil with marvelous results. Before the second bottle was exhausted the pain left him. He is cured.

NEURALGIA.—MRS. JOHN MCLEAN, Barrie Island, Ont., March 4, 1889, says: "I suffered severely with neuralgia for nine years and have been greatly benefited by the use of St. Jacobs Oil."

SCIATICA.—Grenada, Kans., U. S. A., Aug. 8, 1888. "I suffered eight years with sciatica; used five bottles of St. Jacobs Oil and was permanently cured." JACOB L. SMITH.

STRAIN.—MR. M. PRICE, 14 Tabernacle Square, E. C., London, Eng., says: "I strained my wrist and the severe pain yielded like magic to St. Jacobs Oil."

LAMEBACK.—MRS. J. RINGLAND, Kincaid St., Brockville, Ont., writes: "I was confined to bed by severe lumbago. A part of a bottle of St. Jacobs Oil enabled me to go about in a day."

His Heart's Work.

There was an artist once, and he painted a picture. Other artists had colors richer and rarer, and painted more notable pictures. He painted his with one color, there was a wonderful red glow on it, and the people went up and down, saying, "We like the picture, we like the glow."

The other artists came and said, "Where does he get his color from?" They asked him, and he smiled and said, "I cannot tell you"; and he worked on with his head bent low.

And one went to the far East and bought costly pigments, and made a rare color and painted, but after a time the picture faded. Another read in the old books, and made a color rich and rare, and when he had put it on the picture it was dead.

But the artist painted on. Always the work got redder and redder, and the artist grew whiter and whiter. At last one day they found him dead before his picture, and they took him up to bury him. The other men looked about in all the pots and crucibles, but they found nothing they had not.

And when they undressed him to put his grave-clothes on him, they found above his left breast the mark of a wound—it was an old, old wound, that must have been there all *his* life, for the edges were old and hardened; but Death, who seals all things, had drawn the edges together, and closed it up.

And they buried him. And still the people went about, saying, "Where did he get his color from?"

And it came to pass that after awhile the artist was forgotten—but the work lived.—Olive Schreiner.

Humorous Paragraphs.

The Turn of the Tide.—"The Dunhams haven't been able to go to a summer resort for two years, and the girls haven't had a decent gown to their backs lately, but I guess they'll begin to put on style now." "How's that?" "Old Dunham has just failed."—New York Press.

Wise in His Generation.—"Papa," she whispered softly, "why don't you give Henry some encouragement?" "Because, my dear," answered the old man, "I don't want to interfere. Your mother is Chief Discourager of Hesitancy in this ranch."—New York Herald.

"Those Higginses are very hospitable people," said one department clerk to another. "Yes," was the reply. "I suppose they tried to make you feel like one of the family while you were there." "They did their best. Miss Higgins said she would be a sister to me."—Washington Star.

A Thing of Beauty Not a Joy Forever.

She will give up candy and matinees
And sew in real earnest for forty days.
For the poor? you ask. Ah, no, not that,
She will work on her new Easter hat.

The Old World's Wonders.

Among the seven wonders of the ancient world were the Pyramids of Egypt, the Hanging Gardens of Babylon and the Colossus to Rhodes, which was a bronze statue of Apollo, 105 feet high, that stood at the mouth of the harbor. It took twelve years to put the statue up, but that was in the days when people did not grow tired of things before they were even half begun.

Another Donation to McGill.

MONTREAL, March 29.—W. C. McDonald has given another donation to McGill of $85,000. This, the latest of many large benefactions, is to be applied as an endowment for the maintenance of the two buildings which he erected—the experimental physics and the engineering buildings.

Thrown From His Rig and Killed.

BOWMANSVILLE, March 29.—John McMillan, a farmer residing two miles west of the town, while going down a hill turned out to let a neighbor pass. The tongue of the wagon became disconnected from the neckyoke, and catching in the ground the front of the wagon was thrown up. The unfortunate man fell out and was run over by the front wheels and instantly killed.

Incendiary Fire at Vienna.

VIENNA, Ont., March 29.— Yesterday moring at 4 Vienna was the scene of another terrible incendiary fire. It originated in the Rossin Hotel stables, they being totally destroyed, together with their contents, consisting of two horses, a carriage, robes and harness. Loss about $600; insurance $100. The wagon shop of J. H. Matthews and John Atkinson's blacksmith and carriage shop were also burned.

It has been suggested that the secret of antediluvian longevity was some method of keeping the blood pure, warm and vigorous. Moderns accomplish the same purpose by using Ayer's Sarsaparilla—the best blood medicine ever brought to light.

For Nettle rash, summer heat and general toilet purposes, use Low's Sulphur Soap. w d

PAIN from indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this. dw

It Leads the Leaders.

The foremost medicine of the day, Burdock Blood Bitters, is a purely vegetable compound possessing perfect regulating powers over all the organs of the system and controlling their secretions. It so purifies the blood that it cures all blood humors and diseases from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, render it unequalled as a cure for all diseases of the skin. From one to two bottles will cure boils, pimples, blotches, nettles, rash, scurf, tetter, and all simple forms of skin disease. From two to four bottle will cure salt rheum or eczema, shingles, erysipelas, ulcers, abscesses, running sores, and all skin eruptions. It is noticeable that sufferers from skin diseases are nearly always aggravated by intolerable itching, but this quickly subsides on the removal of the disease by B. B. B. Passing on to graver yet prevalent diseases such as scrofulous swellings, humors and scrofula, we have undoubted proof that from three to six bottles used internally and by outward application (diluted if the skin is broken) to the affected parts, will effect a cure. The great mission of B. B. B. is to regulate the liver, kidneys, bowels and blood, to correct acidity and wrong action of the stomach and to open the sluiceways of the system to carry off all clogged and impure secretions, allowing nature thus to aid recovery and remove without fail bad blood, liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disorder of the liver, kidneys, bowels, stomach and blood.

We guarantee every bottle of B. B. B. Should any person be dissatisfied after using the first bottle we will refund the money on application, personally or by letter. We will also be glad to send testimonials and information proving the effects of B. B. B. in the above-named diseases on application to T. MILBURN & Co., Toronto, Ont. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

ONTARIO LEGISLATURE.

A GREAT DEAL OF WORK GOT THROUGH WITH.

The Assessment Act Amendments—Crown Lands and Lumber Limits — Expenditure At the Central Prison A Bounty On Wolves — General Notes.

TORONTO, March 30.—At the Legislature yesterday afternoon the bill to consolidate the debt of the town of Owen Sound, the bill to consolidate the debt of the town of Chatham, the bill to enable the corporation of the village of Renfrew to issue debentures, the bill respecting the Dundas and Waterloo macadamized road and the bill to consolidate the floating debt of the town of Brockville received their third readings and thus became laws.

Mr. Hardy gave notice that on Thursday the House would resolve itself into committee of the whole to consider the resolution that the amount of bounty to be paid for the destruction of wolves shall be $10 per head instead of $6 as heretofore.

The Death Duties.

The House went into committee of the whole to consider the bill of Mr. Harcourt to provide for the payment of succession duties. Mr. Harcourt changed the clauses of the bill which made the duties chargeable against all bequeathed estates above $5000 and now the act only applies to property valued at more than $10,000. The bill was also made to apply to the bequeathed property of parties residing abroad when it had been accumulated in the province. The bill was allowed to stand for concurrence later on.

To Protect Our Fish.

Mr. Hardy then moved the second reading of his bill to protect the fish of the inland waters of the province. He explained that the bill dealt with the fish to be caught with the rod. The summer tourists had made such an onslaught on the fish of Muskoka that the lakes would very soon become depleted.

Mr. Meredith was in sympathy with the object the bill had in view, but to him it appeared that the jurisdiction of the province was very questionable. To prove his contention he quoted the British North America Act. The bill carried at the second reading.

The Assessment Act.

During the second reading of the bill by Mr. Hardy to amend the Assessment Act, Mr. Meredith said he was sorry that the Government were not able to make a radical change in the assessment law. The law as it stood was admitted on all hands to be doing a good deal of injustice.

The bill was carried and referred to the Municipal Committee.

Mr. Hardy's bill to amend the act respecting the taxation of patented lands in Algoma and Thunder Bay and also his bill to amend the Drainage Act of '91 passed their second reading.

Evening Session.

When a motion was made to go into Committee of Supply, Mr. Meredith said he desired to call the attention of the House to the lax mode of auditing the receipts of the Crown Lands Department. The amounts due on timber limits were so far in arrears as to show great negligence on the part of the Government.

Mr. Harcourt said there was as careful an audit of the expenditure of the province as could possibly be made. The work of the auditor is well and thoroughly done and his long experience had enabled him year by year to suggest important improvements. The leader of the Opposition had made only general remarks. He expected the Commissioner of Crown Lands would give a full explanation. That gentleman had spent a good deal of time on the very point that mention had been made. It was clear that if there were less arrears the settler would of necessity have to be harder pressed.

Mr. Meredith explained that he would not press the settler, but he thought the timber men ought not to be allowed to get into debt to the Government.

Crown Lands and Timber Limits.

Mr. Wood (Hastings) said he did not see why the amount paid for crown lands and timber limits could not go direct to the Treasury Department.

Mr. Hardy said that this proposition was a hobby of his own when he entered the department, but he found it would not well work. Many payments came by registered letter to the Crown Lands Department, and of course they could not be transferred to the Treasury Department without entries being made.

Mr. Marter said too many timber limits were offered for sale. The friends of the Government were in the habit of attending the sales of timber limits and were not required to take out a license for years. Consequently they did not do so till they had a chance to make a good profit.

Mr. Hardy replied that this charge was totally unfounded. The facts of the case were that the timber men bought the limits when offered for sale, and after paying a small part or perhaps the whole of it down, they did not get out a license till they were ready to go on with the lumbering operations.

Expenditure at Mimico.

When the House went into Committee of Supply Mr. Meredith objected to the $7000 asked for sewage disposal works, grading, etc., for the Mimico cottages. He had examined the contract and found that it required but $3500.

Mr. Gibson said that the extra amount was for small details, etc., needed, but not mentioned.

Also at Brockville.

Mr. Meredith also objected to the proposal to erect an asylum on the cottage system at Brockville at a cost of $250,000, $70,000 to be spent this year. He thought a more economical method to provide the necessary accommodation would be to enlarge the central asylums already established.

Mr. Gibson said that this had not been considered the best means for the reason that the best authorities say it is not expedient to put more than 600 patients under the supervision of one manager.

And at the Central Prison.

The Opposition attacked the Provincial Secretary for his action in ordering an expenditure of $15,500 to erect a new building for an extension of industries at the Central Prison.

Mr. Meredith called the attention of the House to a clause in the statute which provided for the expenditure of money in case of urgent need without the permission of the House. But this clause had been utterly disregarded by the Government.

Hon. J. M. Gibson explained in answer to this that no money had been expended only as obligations had been incurred, and this had been done to keep the convicts at the Central Prison employed. Mr. Meredith declared that he did not wish the committee to proceed till it was decided whether the House would support the action of the Provincial Secretary. He moved that the committee rise, but this was defeated on a vote by 35 to 21, amidst cheers from the Government benches.

Protest Against Gratuities.

Mr. Gibson of Huron strongly objected to the items asking for two gratuities of $3000, one of $2500 and one of $680 to old servants of the Government or their widows. Mr Gibson is evidently a retired farmer and has asked with appropriate emphasis, "Who pays the farmer any gratuity?"

Mr. Wood of Hastings and Mr. Meredith were disposed to second this action of the Government and held that a judicious granting of gratuities was but just and right.

Mr. Gibson stated that when employes of the Government left without an excuse of old age or ill-health no gratuity was given them.

The committee rose and reported progress.

A Horse Register Wanted.

Messrs. J. J. Stalker, J. C. Rogers, J. G. Nunn, A. N. C. Black, James Poole and J. Hollingshead, introduced by Mr. McColl, M.L.A., were the members of a deputation from the Horse Breeders' Association of Ekin county, which waited on the Minister of Agriculture and the Provincial Secretary. Their request was that the Government would establish a register of horses for sale in the province under the supervision of the Government. This registry system they asked to have connected with local registers in each municipality. They also ask the Government to publish periodical catalogs of the horses for sale in Canada, to be distributed throughout Europe and the States. The Ministers seemed to have grave doubts of the feasibility of the proposition and asked the deputation to present their request in writing to the Government at a later stage.

Provincial Doctors' Grievances.

At 7 o'clock a deputation of doctors representing the medical men of the province interviewed Hon. G. W. Ross asking that the annual fees of the council be abolished; that the annual issue of diplomas be discontinued; that the number of members of the council be increased from 12 to 21, and that the nine delegates from the medical colleges to the council be dispensed with. The members of the deputation were Drs. Armour, Jessop and Leitch of St. Catharines, McLaughlin, Hillier and Lammarmie of Bowmanville; Gillespie of Cannington, Kirkland of Creemore, Tucker of Orono, Sylvester and Vardon of Galt and Smith of Seaforth. They were introduced by Dr. Meacham, M.L.A.

The Railway Committee.

OTTAWA, March 29.—Mr. Wood, Brockville, presided over the first meeting of the Railway Committee yesterday morning. The first bill introduced was by Col. Tisdale, an Act respecting the Grand Trunk Railway of Canada. The Act provides for the consolidation of the Northern Pacific Railway with the Grand Trunk. The bill was adopted.

Mr. Corby presented an Act to extend the time of the Belleville and Nipissing Railway Company, which was approved and reported.

Mr. Cratsworth presented an Act to enable the Nipissing and James Bay Railway Company to change their terminus to North Bay instead of a point at or near the Northern and Pacific Junction and Canadian Pacific railways, to sell a portion now under construction if necessary and to extend the time for construction. The bill was reported.

Mr. Ingram presented an Act to extend the time for the construction of the Erie and Niagara section of the Canada Southern Railway. The bill was allowed to stand, the time asked, five years, being considered too long.

Ottawa Newspaper Talk.

OTTAWA, March 30.—There is no change in the position of the lock-out in The Citizen office. The paper was issued yesterday but showed plainly the effects of the change. Later in the morning the printers got out a little extra, giving a very fair and temperate account of the difficulty, by which it appears that the men received no notice whatever, but were simply "fired" without warning. So far the imported men have remained steady at their work, but efforts are being made to induce them to join the Union.

There is a rumor afloat that an amalgamation of The Citizen and Journal is on the tapis, and still another rumor that a new Conservative morning paper with an evening edition will shortly make its appearance.

Death Roll of a Day.

Isaac C. Huyck, treasurer of Hungerford township, aged 70 years.

Prince de Chimay, Belgian Minister of Foreign Affairs, at Brussels. He was the father-in-law of Princess Joseph Chimay, nee Miss Clara Ward, formerly of Toronto, and daughter of Mrs. Alexander Cameron of Carlton-street. Prince Joseph will succeed to the chieftainship of the house of Chimay and to many of his father's honors.

Not so Green as His Name Indicated.

BUFFALO, March 30.—George Green and Morris Kennedy from Woodstock, Ont., came to Buffalo on Friday last to seek employment. Green deserted his friend, taking $25 and an overcoat. Green was arrested in Cleveland and brought here this morning. He is said to be a slick crook, having done time for burglary and larceny in Canada.

Dying of Hydrophobia.

BELLEVILLE, March 30.—Two young girls, daughters of Charles B. Hawley of Chandos Township, Peterboro County, who were bitten last fall by a dog, are likely to die of hydrophobia.

Went Through the Ice.

OTTAWA, March 30.—Henry Wooding undertook to drive across the ice near Benson's Ferry, near Plantagenet, and sleigh, horses and driver went through. Wooding was drowned.

A Bull-Fighter Gored to Death.

CITY OF MEXICO, March 30.—A bull-fighter was killed at a fight at Tula, near this city, yesterday. He was gored and ripped by the infuriated animal in the most terrible fashion.

Finally the bull caught him on its horns and tore round the ring with him several times. It was finally lassoed.

Six Boys at a Birth.

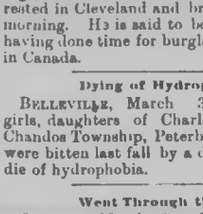
HOLLY SPRINGS, Miss., March 30.—Mrs. C. K. Smith, wife of a white laborer, living on a farm near this city, has given birth to six babies.

They are all boys, well developed, and weigh in the aggregate 45 pounds. Mother and babies are doing well.

BABY'S FACE WAS RAW

Distressing Itching Skin Disease Cured in One Month by the Cuticura Remedies.

When our boy was six weeks old he had a rash on his cheek. It spread on both cheeks and chin. His face was raw. I doctored with various remedies, but it got no better. My mother advised me to try the CUTICURA REMEDIES. I used them faithfully, and in one week the boy looked better. In one month he was cured, and now he is three years old and no signs of it returning. The child was so bad I had to tie him in a pillow-case, and pin his hands down so that he could not scratch his face. I cannot speak too highly of the CUTICURA REMEDIES. I recommend CUTICURA whenever I can. I would be pleased to see any one and talk to them of the good it has done my boy.



MRS. CYRUS PROSCH,
Coytesville, Fort Lee P. O., N. J.

N.B. My husband is president of the Prosch Manufacturing Company, proprietors of the "Duplex" and "Triplex" Photographic Shutters, 389 Broome Street, New York City. He dislikes undesirable notoriety, but is willing to make sacrifices to benefit others, and assents to this testimonial to encourage the use of CUTICURA, and thus bring relief to others.

GOLDEN LION!

YESTERDAY and TO-DAY

OUR elegant and commodious Millinery and Mantle Show Rooms were formally thrown open to the public. The attendance of ladies has been exceedingly gratifying, for which we tender our sincere thanks. Crowds of admiring visitors have thronged our spacious parlours all day long—and still they come!

Our elaborate display has evoked continual expressions of admiration, and our magnificent stock of Spring Novelties was highly complimented and admired.

Orders will now receive the most exacting attention. Already we have taken a larger number of orders than at any previous anniversary opening, which is one of the best proofs of the superiority and attractiveness of our stock.

The Dress and Mantle Making Department is already in full operation, and we can confidently guarantee the best possible satisfaction to all our customers.

INTO A DITCH TO DEATH.

THE C.P.R. SOO TRAIN WRECKED AT HULL.

The Fireman Killed and the Engineer Frightfully Scalded — Miraculous Escape of a Carload of Emigrants—A Number of Ministers and Members of Parliament On Board the Train.

OTTAWA, March 31.—The Soo train on the C. P. R. going west was ditched at Hull station yesterday owing to an open switch.

The train due in Ottawa at 2.40 left Montreal on time, consisting of an engine, baggage car, second class emigrant car, Southeastern Railway car, colonist sleeper, St. Cloud, dining-car and Mississippi, private car.

The private car contained, amongst others, Hon. J. A. Ouimet, M.P.; Sir A. P. Caron, M.P.; Dr. Montague, M.P.; M. Tetreau, M.L.A., and several others who had been guests of the Montreal Conservatives at last night's banquet to the De Boucherville Government.

All went well until the train reached Hull, where it does not stop, running straight through to Ottawa. About 100 yards from the end of the platform of Hull station is a switch, beyond which comes a sharp curve on an embankment of boulders and earth, crossing a swamp girt with scrub cedars.

Shocking to relate, on reaching this switch the whole train left the rails, and running for about 150 yards the engine turned over into the ditch, taking all the train with it except the cars St. Cloud and Mississippi.

Fireman Killed.

The engineer, M. O'Connell, jumped, but not in time. The engine fell nearly on him, and his head, back and stomach were deluged with the scalding water from the boiler, but he may recover.

The fireman, Thomas Golden, stuck to the engine and was found holding the rail of the cab, his neck broken and a deep bruise on the left temple.

In the first emigrant car were 75 Norwegian immigrants—men, women and children. This car was wrenched from its wheels and the body lies some 40 feet from the track. Though its inmates were all badly shaken and had to be taken out through the windows none of them sustained any fractured limbs and no fatality occurred.

The second-class car was lying wheelless by the immigrant, whilst the Southeastern car was lying on its side on the embankment. The front wheels of the St. Cloud were wrenched off, but fortunately that car kept the rails.

Switchman Pierre Miller states that the switch was last used at 1.40 and was then all right. He expresses the opinion that some person tampered with it.

Fireman Golden's body was removed to the Ottawa morgue, where an inquest will be held.

WILL NEWFOUNDLAND COME IN?

Important Announcement in the Senate By Premier Abbott — A Settlement of the Dispute Expected Shortly.

OTTAWA, March 31.—Hon. Mr. Tupper laid on the table of the House yesterday afternoon the return asked for some days ago of the correspondence, etc., with Newfoundland.

It is very bulky, containing some 600 pages, but contains nothing which has not already been made public.

In the Senate this afternoon Senator Boulton moved for papers relating to Newfoundland, and in doing so made an attack on the Government and said that Newfoundland was quite justified in acting in the way she had done.

Mr. Abbott in reply traced the transactions with Newfoundland step by step from the passage of the first bait act in 1866, and showed that throughout the Canadian Government had acted with the utmost forbearance. In conclusion he said that quite recently the Government had received a quasi-confidential communication from London suggesting a conference, which had been acted upon, but unfortunately Mr. Harvey of the Newfoundland Government had left for home before anything could be done. Since then the Ottawa Government had expressed its willingness to appoint a representative to the conference, and said if Newfoundland agreed to discuss the matter all orders-in-council discriminating against Newfoundland fish products will be revoked. He had reason to believe the Newfoundland Government, through the medium of Lord Knutsford, had communicated this intelligence to the proper authorities. For his part he hoped a full and free discussion would result in a satisfactory solution of the whole question. He earnestly wished that all causes of friction would be removed and hoped that the day was not far distant when Newfoundland might express a desire to join her fortunes with ours, thus rounding off and completing the Dominion.

Whisky In the Butter.

BUFFALO, March 31.—The latest and most novel way to smuggle in the best brands of Canadian rye whisky without fear of duty has just been discovered presumably after it had been successfully managed for months past. Collector Dustin tells how the trick was discovered. A Canadian farmer apparently attempted to smuggle in several large crocks or tubs of butter one day at Rouse's Point, but the collector surprised him, seized the load and had it put up at auction.

The farmer followed his butter pretty closely and bid it in at a comparatively low figure. He bundled it into his wagon and drove over to Plattsburg, N.Y. The officers thought it was quite out of the ordinary and followed the old man. They discovered that he turned it over to parties, and further investigations and a little delicate work revealed that in the bottom of those tubs were a dozen bottles of whisky with the butter packed securely about them.

The whisky was confiscated. The duty on whisky is $2.20 per gallon.

Upper Canada Furniture Factory Burned.

BOWMANVILLE, March 31.—About 8.30 last evening fire was discovered in the top flat of the Upper Canada Furniture Factory. Before the fire engine could get there the whole upper flat was ablaze. Nothing could save it. The old office, dry kiln and George Moses' frame building across the road were also burned. The loss to the furniture company will be between $25,000 and $30,000, partly covered by insurance, most of which was held by the Hamilton Provident and Loan Company. The fire was the work of an incendiary.

ONTARIO LEGISLATURE.

The First Division of the Session.

TORONTO, March 31.—At the House yesterday afternoon the Attorney-General introduced a bill respecting the sittings of the High Court in certain cases, and also a bill relating to the duty of sheriffs on arresting persons under civil process.

Mr. E. F. Clarke's bill to incorporate the Hospital for Sick Children was considered a committee of the whole, when some minor amendments were introduced, and it was left over for its third reading.

The House then resumed the adjourned debate on the motion by Mr. McLenaghan re better education of farmers' sons. During the discussion Mr. Hudson charged Mr. Awrey, the president of the Central Farmers' Institute, with having made a political address at the Institute's annual meeting. The institute had been established and aided by the Government to educate the farmers as to the best modes of agricultures and not for the discussion of political questions.

Mr. McKechnie upheld the establishing of the Farmers' Institutes. He was a merchant and manufacturer, and had attended many of the local meetings of the institute, and was sure that they were very successful and showed that the hopes of the founders had been realized. The farmers' sons of the province were leaving the farm not because they felt that there was a lack of educational privileges, but because they wished to reach the highest positions they were capable of. He reminded the House that more than one of the honorable Ministers were educated on the farm.

Mr. Magwood said that there was a feeling in rural municipalities that they were not receiving the educational advantages that they justly deserved. He was not desirous of opposing the Agricultural College but he had to say that it was not as efficient as it ought to be. The Central Farmers' Institute was of no use to the agricultural interests of the province. The local institutes had been successful, but the Government had no right to take to itself all the glory. The municipalities had to contribute half the expenses incurred.

Mr. Sprague said the Government was certainly moving in the direction the resolution takes. The farmers had the same privileges as any other trade or calling in the province and they asked or coveted no more.

The Discussion Waxed Warm.

On the debate on Mr. McLenaghan's motion, re better education for farmers' sons being resumed after supper, Mr. Miscampbell rose and quoted from the report of a committee of the Central Farmers' Institute to show that farmers were calling for technical education for their sons. He also quoted from the words of the Minister of Agriculture used before the Central Farmers' Institute to show that he had expressed himself in favor of the principle of the bill. He showed that children should not be required at the age of 12 or 14 to leave the influences of home and parents to go to a strange town for education that could better be given them at home. There should be a "model" farm which would demonstrate the manner in which a farm could be managed so as to avoid the deficit of $18,000 now standing against the Agricultural College.

Mr. Meredith said the Opposition were not hostile to the college, but they were displeased with its management. For instance one-sixth of the students attending last year were from foreign countries and other provinces than Ontario. There was one from India, one from Poland and one from Spain. Surely the farmers of this province did not wish the money of the state to be used to educate the young men of foreign countries. Surely something was wrong in the management of this institution, for the attendance of the college was not as great as it had been years ago.

Mr. Awrey on His Mettle.

This storm which the Opposition raised about the head of the member for South Wentworth—Mr. Awrey—at length brought him to his feet. He went into a lengthy and detailed explanation of his address before the Central Farmers' Institute. Party politics, he said, were never thought of in the institute. The vice-president, the secretary and four of the seven members of the executive were strong and staunch Conservatives. The farmers were deriving more benefit from the high schools and collegiates than all the other callings in the province. Last year 691 students left the high schools, and 314 the collegiates to return to the farm to use their broadened minds in the calling which their fathers had followed. If foreigners came to our college it was a tribute paid to its efficiency. There were farmers' boys who held professorships from the college; Prof. Deane was a Welland boy and a farmer's son. One farmer's son had gone from that college to teach them in Scotland the principles of dairying. Throughout the States there were many of the farmers' sons of this province who held the position of manager of experimental farms.

Dr. Willoughby, in reply, said that only 1 in 20 of the children of farmers went back from the high school to the farm, and he was sorry that no similar record had been kept for the college, for, in his belief, it would show that not 1 in 25 went back to the farm.

In Mr. Awrey's speech to defend his position as president of the Central Farmers' Institute, he made the assertion that Mr. Sol White, one of the members of the Opposition, who had attacked him, was allowed to retain his seat in the House by the Government simply as a mark of courtesy. In view of the position taken by the honorable member regarding annexation with the States, the Government had the power, which they might use at will, to expel the disloyal member from his House.

Mr. Sol White made a lengthy defence of his position. He had entertained or expressed no views disloyal to the Government or to the House. He had, he held, a right to have an opinion as to what the final destiny of the country was.

Mr. Rayside said the Opposition had spoken for four days, but they had suggested nothing to carry out their sole contention that the farmers were ignorant and ought to be educated. The Farmers' Institutes had done all that was necessary for the farmers.

The Division.

When the motion was put the first division of the House occurred, resulting in favor of the Government by a majority of 47 to 30. The vote stood as follows:

For the Government:

Allan.	Awrey.	Balfour.
Bishop.	Bigelow.	Barr (Renfrew).
Caldwell.	Carpenter.	Charlton.
Chisholm.	Coomes.	Dack.
Davis.	Dowling.	Dryden.
Ferguson.	Field.	Garrow.
Gibson (Hamilton).	Gibson (Huron).	Gilmour.
Guthrie.	Harcourt.	Hardy.
Harty.	Kirkwood.	Lawrence.
McKay (Oxford).	McKay (Victoria).	McMahon.
Mack.	Moore.	Mowat.
O'Connor.	Paten.	Rykert.
Rayside.	Ross.	Sharpe.
Smith (York).	Snider.	Stephenson.
Stratton.	Tait.	Waters.
Wood (Brant).		

For the Opposition:

Barr (Dufferin).	Bosh.	Campbell (Alexandria).
Campbell (Russell).	Clancy.	Clarke.
Fell.	Grandmaison.	Gosselin.
Hammell.	Hipsett.	Hudson.
Kems.	McColl.	McLaughlan.
Magwood.	Marter.	Meacham.
Meredith.	Miscampbell.	Monk.
Preston.	Reid.	Rykert (Lincoln).
Tooley.	White.	Whitney.
Willoughby.	Wood (Hastings).	Wylie.

Mr. Brouson was paired with Mr. Cleary and Mr. Cleland with Mr. Rorke.

The Liberals absent were C. Mackenzie, Evanturel, H. McKenzie, Fraser (paired with Clarke), Loughrin, Biggar and Porter.

A number of bills were advanced a stage.

Important Meeting of Canadian Millers.

A special meeting of the Dominion Millers' Association was held in the Board of Trade Building yesterday. Members from all over the country were present, including representatives from all the large mills. The president, Mr. Edward Peplow, presided, and the meeting lasted during the afternoon and throughout the evening until a late hour.

This association wants incorporation, and it was chiefly to discuss this and a set of bylaws that have been framed that the meeting was called. The bylaws, after a whole day's discussion, were at length satisfactorily arranged.

Farmers in Canada for some time past have in many cases been "bayforked" into buying poor kinds of seed wheat, which are sold under assumed names. One and the same variety often has half-a-dozen different names. To prevent this state of affairs in the future, a motion was passed asking the Legislature to make it compulsory that the various varieties of seed wheat to be examined and tested by a board appointed for that purpose. This board to determine the names of the different varieties and to describe each as fully as possible. The board to consist of one or more professors of agriculture appointed by the Government and two or more men chosen by the association.

Another motion that was unanimously passed advised farmers not to buy or plant a variety known as "Colorado spring wheat." It was said to be no use for milling purposes and a very poor flour-yielder.

ANARCHISTS IN THE DOCK.

Opening of the Trial of the Conspirateratc Staffordshire Assizes—Great Interest in the Case.

LONDON, March 31.—The trial began yesterday at the Staffordshire Assizes of Frederick Charles, 27 years old, a clerk; Victor Calles, 33 years old, an engine driver; John Westley, 33 years, a brushmaker; William Ditchfield, 43 years old, a filer; Joseph Thomas Deakin, 33 years, a clerk; and John Battola, alias Deognaviety, alias Deoganoff, 30 years old, a shoemaker—the men who are charged with being the leaders of the Walsall Anarchist conspiracy.

Owing to the news that has reached England of the outrages perpetrated by Anarchists on the Continent, particularly in Paris, great interest was taken in the case, and the court room was crowded with eager listeners.

Sir Richard E. Webster, Attorney-General, appeared to prosecute the prisoners. He recited the history of the case and referred to the connection of the prisoners with other European Anarchists, declaring that it was impossible to exaggerate the wickedness of their designs.

Among the papers found in the prisoners' possession was one in which directions were clearly given as to the means to be employed in blowing up theatres and other buildings. This paper was headed:

"An Anarchists' Feast at the Opera."

Sir Richard declared that all his statements would be borne out by the evidence the Government would present, and indisputable testimony would be furnished showing that the prisoners, at and before the time of their arrest, were engaged in the manufacture of bombs.

Upon the conclusion of Sir Richard's address the court adjourned.

LOOKING FOR MORE SCANDALS.

OTTAWA, March 31.—The proceedings at the first meeting of the Public Accounts Committee since its organization this session would go to show that the Liberals are after more scandals. Mr Somerville, one of those who was most active in bringing out the disclosures of last session, moved that all witnesses summoned before the committee be examined on oath. The motion was passed.

The vouchers, accounts and correspondence asked for at the meeting were larger than ever has been the case at any one meeting in the past. Messrs. Davies, Mulock, McMullen, Somerville, Dr. Macdonald (Huron) and Sir Richard Cartwright were the principal members of the Opposition who were after information.

Mr. Somerville moved for particulars of $5000 advanced to The Gazette, Montreal, on account of printing the geological report, and also for the amount of $62,212 and $215,824 for advertising and printing done by other than the Government Printing Bureau.

Mr. McMullen moved for monthly copies of the Intercolonial Railway pay lists for the 12 months ending June last, as well as for legal expenses and advertising in connection with the road.

Sir Richard Cartwright questioned the propriety of the Government granting loans to Messrs. Davis & Son, contractors, Ottawa, and O'Neil & Campbell, even if security was granted for the same. He moved for the papers in connection with the payment of $62,000 to the persons named.

Mr. Bowell explained that such a policy was pursued in this case had been followed in the past.

Mr. Somerville moved for the accounts and correspondence connected with the payment of $3045 to Sir Charles Tupper on account of the Washington negotiations.

Mr. Davies moved that Mr. Schreiber be present at the next meeting of the committee, so as to be examined on matters appertaining to the Intercolonial Railway.

All these resolutions were carried. A number of other motions, including one for papers respecting the payment of $22,000 for litigation expenses connected with the Interior Department, were passed, after which the committee adjourned.

At a meeting of the Banking and Commerce Committee to-day bills to incorporate the W. C. Edwards Company for lumbering and other purposes and the McKay Milling Company of Ottawa were passed. Mr. Wood (Westmoreland) was chairman of the committee.

Prince Michael Remanded.

DETROIT, March 31.—Prince Michael and Lena Loomis, supposed wife, were taken to the Police Court yesterday for examination. Instead of pleading guilty or not guilty, Mills said: "Honored brother, I will bow my head low and bear all blame. I now leave him in the hands of my Father, who will defend me against all false witnesses. I deny the charges." The judge listened a while and then remanded Mills until Monday.

Diseases of the Chest and Lungs.

These diseases are well known to rob the grave. How many thousands are carried every year to the silent grave by that dreadful scourge, consumption, which always commences with a slight cough. Keep the blood pure and healthy by taking a few doses of Dr. Morse's Indian Root Pills each week, and disease of any kind is impossible. All druggists dealers sell Dr. Morse's Indian Root Pills.

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. NASAL BALM is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., Brockville, Ont.

NEVER FAILS CURES COLD IN HEAD AND CATARRH

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

THURSDAY, MARCH 31, 1892.

Springville.

From Our Own Correspondent.

The Royal Templars of Temperance gave a tea and concert on the evening of March 21st, in Mr. Goodfellow's hall. Tea was served from six to eight. Mr. J. B. Fowler the select counsellor of Springville Court took the chair. The programme was bright and brilliant. The chairman's speech was full of deep sense and to the point, also the address by Rev. Mr. Cook of Cavanville, who gave the young men some sound advice on temperance principles and threw out a few good pointers to bashful young men, advising them to follow the example of himself and others in taking unto themselves a partner for better or worse, and by doing so they would be rewarded. The singing of Miss Dolly Fowler was excellent for a child, showing remarkable talent. The reading of Miss Lottie Laing, entitled "The Cards of Life," was listened to with rapt attention by the audience. Music was furnished by the High Park Brass Band, under the able leadership of Mr. H. Williamson, which added much to the success of the entertainment. About half-past eleven the programme was brought to a close by the singing of God Save the Queen, assisted by the band. This is the

GOD SAVE THE QUEEN.

Centerville.

(From Our Own Correspondent).

OBITUARY—It is with feelings of profound sorrow we record the death of Jane Hutching of Fraserville, who died at the family residence on Friday evening, March 25th, after suffering some time with that terrible destroyer, consumption. The deceased was a young lady very highly esteemed and much loved by all who knew her. She was also a very ardent worker in the Methodist church, Fraserville, of which she was a member. The funeral took place on Sunday at 2 o'clock, p.m., when a large number of friends gathered to pay the last token of regard to one whom they loved. The remains were laid in the Fraserville burying ground. The friends and relatives will have the deep sympathy of the entire neighborhood in their sad bereavement.

"So gentle and loved—it was hard to bear;
And sad in that quiet home
Is the mother's sigh and the brother's tear,
And the sister's grieving tone.
But heavenly hopes, like star beams shine
From out death's dreary night.
And the Christian's faith so pure and divine,
They ever keep in sight.

No Other Sarsaparilla has the merit by which Hood's Sarsaparilla has won such a firm hold upon the confidence of the people.

No Other combines the economy and strength which make "100 Doses One Dollar" true only of Hood's Sarsaparilla.

No Other Possesses the Combination, Proportion, and Process which make Hood's Sarsaparilla peculiar to itself.

Hood's Pills cure Sick Headache.

An inactive or torpid liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of a flesh and blood maker, and has been used with marked success by the physicians in the insane asylum, penitentiary and Hotel Dieu, and general hospital, Kingston. In big bottles at 50c. and $1.00, at Peterborough drug stores. dw

Bobcaygeon.

(From a Correspondent.)

One of the most brilliant and successful musical and literary entertainments that has been held in our town for a considerable time, was given in the town hall on Tuesday evening last, under the auspices of the Good Templars Association of this town. The spacious hall was literally packed with a select audience. The programme was all that could be desired; every piece rendered was well received. The children who took part in the Kindergarten, sang and performed their parts admirably, and reflect much credit to the popular teacher Miss Campbell. The playing of Mr. H. Harris on the banjo and mouth organ was away above the average of such and won much applause. Also the singing of Miss Wright and Miss May Campbell. The latter's rendition of the "Lost Child" brought forth repeated applause. The programme throughout was excellent in the extreme. About eleven o'clock the singing of the closing ode brought one of the most successful entertainments to a close, every person being delighted with the evening's fun. The following is the programme:—

FIRST PART.

Programme of open temple:—
Opening Ode.....by the Templars
Kindergarten Song.....by the children
Recitation, "Letter to Papa,"..Miss Mo[Dermot
Quartette.....Lisoria
Recitation, "Over the Hills to the Poor House,".....Mr. A. Kennedy
Instrumental banjo and mouth organ solo..[Mr. H. Harris
Reading.....Miss Mozier
Duet, "The Little Bow of Blue".....Misses[Wright and Sheridan
Recitation.....Miss Herchmer

SECOND PART.

Kindergarten.....by the children
Speech.....Mr. Mitchell
Song.....Miss Sarah Wright
Recitation, "Farther Boy,"....Mr. A. Ken[nedy.
Solo, "The Lost Child,".....May Campbell
Dialogue, "Wine as a Medicine,".....
Drinking Song, "Here's to the friends that we love.
Dialogue, "Married in Haste,".....
Closing Ode, "Heavenly Father, etc."

Better and Better.

"Better than grandeur, better than gold,
Better than rank a thousand fold,
Is a healthy body, a mind at ease,
And simple pleasures that always please."

To get and keep a healthy body, use Dr. Pierce's Golden Medical Discovery, a remedy designed to not only cure all diseases of the throat, lungs and chest, but keep the body in a thoroughly healthy state. It eradicates all impurities from the blood, and overcomes dyspepsia and indigestion. Blotches, pimples and eruptions disappear under its use, and your mind can be at ease as to your health.

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

The Pollard Medicine Co's Company Concert —A Grand Success in Every Way.

The concert given by the Pollard Medicine Company in here on the 25th inst. was a very interesting and enjoyable affair. Long before the hour for commencing the hall was literally packed to the doors—a fact not to be wondered at when taken into consideration that the concert was entirely free. The programme was lengthy, it being almost 12 o'clock before it was finished. On opening, the manager, Mr. W. R. Pollard stepped on the platform and announced that it would be necessary to make a few changes in the programme as some of the performers were not on hand, although he had reason to hope that they might appear later on. However he would proceed with the programme by calling on the orchestra, which responded with an overture in their usual style. Next followed solos, duettes and choruses until the arrival of Mr. Jas. H Wilson and wife were announced who were greeted with a perfect roar of applause, and deservedly so, for Mr. Wilson is one of the best amateur comedians that is to be found in Ontario. In the latter part of the programme he appeared several times in his character songs and fairly paralyzed the audience with laughter. Special mention might be made of the singing of Mr. Thompson. He possesses a rich bass voice. Miss Minnie Pollard's sweet contralto was much appreciated; although suffering from a severe cold she did remarkably well. The singing of Masters Willie and Fred Staples was excellent considering they are very small boys, while the sword exercise by Messrs. J. H. Staples and H. E. Armstrong who were trained by Major Rundle of Peterborough, would wake up the military ardour of many an "old timer." In fact all did well and Manager Pollard has reason to feel elated over the success of the enterprise.

During the intermission Mr. Pollard introduced his burlesque, stating he was agent for the Sun Life Assurance Company, and would be happy to be remembered by any one wishing to insure. He is also dealing largely in rubber stamps, which are very convenient articles for anybody, no matter what their business, if only to mark their linen. He is also handling a line of patent medicines, Indian Ahwago, Tomahawk Oil, Liver Tonic, and Bilious Pills. All of these are the very choicest articles. Last, but not least, he is agent for the Life and Complete Works of the late Rev. C. H. Spurgeon, a book that cannot be too highly spoken of, and should find its way into every home.

Bethany, March 29th, 1892. 1d

Address and Presentation.

Mr. John Ward Admirably Remembered by His School Chums and Neighbours.

On Friday evening last a large number of the friends and neighbours invaded his residence on the sixth concession of Cavan, the ladies bearing baskets. About ten o'clock while all were engaged in social conversation Mr. Edward Might and Mr. Wilbert Wood wended their way into the already well filled room, the former bearing a beautiful coon-skin coat, while the latter was armed with an address. Mr. Ward was asked to come forward when Mr. Wood read the address and Mr. Might made the presentation.

To Mr. John Ward:

DEAR SIR.—We could not allow you to take your departure from amongst us without tendering some expression of the feeling we have always entertained for you, and we exceedingly regret that circumstances have arisen which have induced you to move to another country.

We cannot allow you to depart from amongst us without expressing our best wishes for your future welfare. We present you with this fur coat as a slight token of our best wishes. We again wish you every success in the country to which you are going to. We remain yours,

On behalf of committee,

ED. MIGHT, WILBERT WOOD,
D. ARMSTRONG, JOS. RODDY.

Mr. Ward was completely taken by surprise and replied briefly and feelingly and returned his warmest thanks for the beautiful present. He regretted that circumstances caused him to sever the ties of almost welded friendship with so many of his friends and neighbours. He again thanked them for the beautiful and useful coat, and he would assure them while wearing it in the North-west, it would always be a reminder of the many and happy days spent amongst his associates in Cavan.

Then followed an elegant supper prepared by the ladies of the company, and social enjoyment kept the friends to a late hour. Mr. Ward is quite a young man of sterling good qualities and will no doubt be a good addition to the many enterprising young men who are seeking their fortunes in western Canada.

The Poet Shelley Says:

"It is our will
That enchains us to permitted ill.
We might be otherwise: we might be all
We dream of, happy, high, majestical.
Where is the beauty, love, and truth we seek
But in our minds? and if we were not weak,
Should we be less in deed than in desire?"

The permitted ills of modern life are multitudinous and alarming. Men and women, the old and young, of every grade and class, permit themselves to be enchained by ills which make life a drag and a burden.

The most common of these ills are sleeplessness, nervousness, headaches, dyspepsia, indigestion and rheumatism. These ills in thousands of cases have become chronic and baffle the doctors and all the ordinary remedies of our day.

There is, however, a joyous hope for all sufferers; and as the poet has said "people can be all they dream of, happy, contented, and free from pain."

To secure these blessings of a true and happy life, sufferers must look to the great agency of the day—the wonderful health restorer—Paine's Celery Compound. Its work and results are felt in all parts of our Dominion; hope and faith have taken the place of despair and unbelief; and new life, joy and gladness lead men and women to publicly testify in favor of the grandest and noblest medicine ever given to the world.

Weak, nervous and diseased men are made strong and given a new lease of life. Pale, sallow, nervous and overworked women are restored to health and strength, and their cheeks made to bloom as the rose.

Physicians know its value and power and do not hesitate to recommend it as a builder for the great nervous system.

In every town, village and hamlet of this Canada of ours, the following words should be placed at the most advantageous points:—

"PAINE'S CELERY COMPOUND CURES."

Remember.

"The Persian Lotion" is the best preparation known for removing pimples and other eruptions of the skin. It is the true skin specific, this Persian Lotion. The enormous consumption of it is enough to prove its efficacy. 1d

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take. d w

Honor Rolls.

Deure School Record.

The honor roll for S. S. No. 8, of which Miss M. O'Leary is teacher is as follows:—Sr. Fourth—1 Laura Maher, 2 Edward Tobin, 3 Albert Maher. Jr. Fourth—1 Cecilia Camden, 2 Ellie Tighe, 3 Francis Nolan. Sr. Third—1 Rose Nolan, 2 John Crowley, 3 Vincent Maher. Jr. Third—1 John Towns, 2 Gertie Leahy, 3 John McGarity. Second—1 Martha Leahy, 2 Mabel Tighe. Pt. II.—1 George Whibbs, 2 Nellie McGiggott, 3 George Moloney. Pt. I.—1 Stasie Maher, 2 Michael Leahy, 3 Charles Fitzpatrick.

Blood poisoned by diphtheria, the Grip, typhoid fever, scarlet fever, etc., is made pure and healthy by Hood's Sarsaparilla.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

"The Hercules Duster,"

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in all colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

St. Luke's Lenten Service.

Owing to the absence of the Rev. W. E. Cooper, of Campbellford, who unfortunately missed the train, the Wednesday evening service was conducted last evening in St. Luke's church, by the rector, Rev. J. W. McCleary, who gave an earnest address on "The Wages of Sin is Death."

A Good Joke.

Yesterday afternoon a bran fiding new register was placed on the business office counter of the Oriental at four o'clock. The old one has been superannuated. The first man to step up and register his pedigree was the genial Wm. Salisbury. Here it is:—"Lodging Room No. 512, Sample Room 15—W. Salisbury, town.

Boom in Peterborough.

The large furniture manufactory of the Upper Canada Furniture Company, Bowmanville, was burned to the ground Wednesday evening between 8 and 9 o'clock. The loss was about $25 000 The factory was a large three story brick building, and made a great blaze while being consumed. The glare was seen in Peterborough and Ashburnham by several residents.

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

The North American Life Assurance Company.

Dr. H. L. Cook, of Toronto, inspector of the North American Life Assurance Company, was in town to day completing arrangements for installing Mr. S. G. Faulkner, the successor of Mr. T. Wills Gibbs, into the office of general agent of the company for Peterborough and district. Mr. Faulkner possesses special qualifications for serving the interests of the company in the most satisfactory and efficient manner. For the past few years he has been in the banking business in Tweed, but finding the field there rather limited, he accepted the Peterborough position, as giving wider range for his business activity. Mr. Faulkner comes to town with a good record as a business man, and we welcome him as a valuable addition to the citizenship of the best town in the Dominion, and a representative who will add to the popularity of the popular plans which are a specialty of the North American Life Assurance Company.

The Feats of the Clothing Trade.

Gough Bros. Chime in With the Sweet Symphony of Spring.

Tennyson tells us in his meddlesome metre:—

"In the spring a brighter iris
Feathers on the burnished dove;
In the spring a young man's fancy
Lightly turns to thoughts of love."

And Gough Bros. tell us in their mercantile metre:—

In the spring the great Gough Brothers
Fill their shelves with vernal stock.
Fresh and tasty, new and nobby—
Direct on the bottom rock.

And our poetry machine tells us in its mechanical metre:—

In their windows gaily garnished,
Are the most superb displays
Of gents' furnishings that ever
Caught the charm'd pedestrian's gaze.

And Mr. W. S. Merrill tells in his artistic metre:—

If I please you with my dressing,
That to me is praise enough,
I could simply just not help it,
For Gough Brothers have the stuff.

And Mr. Jas. A. Tully tells us in his habilimentary metre:—

Gathered in the middle window,
Which my dressing skill employs,
Scores of suits of children's clothing,
Worthy of a prince's boys.

And putting our poetry machine into gear again:—

Those bright windows holding nearly
What a common store contains,
Are a thousandth fraction only
Of what on the shelves remains.

But poetry is too weak for so practical a subject—here goes for a dash into hard-headed prose. Gough Bros. have simply the most stupendously superb stock of spring clothing, gentlemen's furnishings, including hats and caps and boots and shoes, ever gathered under one roof in this district. Splendid good, fresh, new, stylish and nobby, bought in stocks for spot cash at the very lowest of figures, and now offered at prices that make the coins in the poor man's pocket dance coppery hornpipes, for joy. Goughs have in their spring preparation got together the best stock of every kind of ready-made clothing ever shown in this town. Gough's is the shop for your money, full value, square dealing; there you can get a new outfit from to toe tile. Put this down in your memmorandum book or chalk it on the woodshed door—anyway, remember it that Gough Bros' is the great clothing store of the continent where you get the best value for least money.

News Nuggets.

—To morrow is April fool day.

Belleville is to have an electric street railway.

—There was a blank in police court circles again this morning.

—Mr. Giles was seen to bring in a load of young rhubarb yesterday.

—Seeding has already begun in Manitoba. When will it start here?

—Campbellford's new paper, the *Canadian Press*, has begun publication.

—A young knight of the road hailing from Toronto slept over night in the cooler.

—Crossley and Hunter are to commence evangelistic services in Brandon on April 3rd.

—A new dry goods firm from Dundas will occupy one of the vacant stores on George street at an early date.

—The water in the small creek running through Ashburnham continues to rise. It has overflowed its banks.

—The annual meeting of the Peterborough Cricket club will be held to-morrow night in the Olympic club room. There should be a large attendance of those interested in the the great English game.

—The Peterborough Curling club will hold its annual dinner at the Snowden House one day next week. The day is not definitely settled upon yet. Curlers are requested to call at Mr. Sam Ray's shop for their tickets.

—Complaints are made that carters and contractors who live at the north end of George street leave their wagons out along the street over night when they should be taken in the yard. The practice is a dangerous one.

—Walter Guy, Ashburnham, charged with being drunk and disorderly on March 27th, was brought up before County Magistrate Kimison yesterday afternoon and fined $2 and costs ($7.45 in all), or in default ten days in gaol. A large number of Ashburnhamites witnessed the trial yesterday afternoon.

Look Up Your

Prof. Kemp, who has been before the American and Canadian public for a number of years, as a practical phrenologest, is at present at the Cardwell Hotel. Prof. Kemp guarantees to give you better satisfaction, and can prove by the sworn statements of many people that he understands his profession and can give a more practical and perfect delineation of character than any phrenologest that ever travelled through Canada, with the exception of Prof Fowler. 6176

That Dangerous Corporation Ditch.

That dangerous ditch on the north side of McDonnel street between Aylmer and Bethune streets, is keeping up its record. At the last session but one, of the town council, the matter of the claim of Mrs. Roberts in connection with death of her child, drowned a year ago in this same ditch, was disposed of, and now we have another accident in the same place. Last night some of children of the neighbours were wheeling the little daughter of Mr. Wm. Adamson, aged two years and two months, in her baby carriage on the walk alongside of the ditch, running full of spring water. By some accident the carriage was upset and the straps breaking, the child was thrown into the water. The mother who lives near was instantly called and by jumping directly into the water she was able to save her child, just as it was being swept out of sight under the planking that covers part of the ditch. If the child had passed under the bridge and met with some obstacle—ice or snow—to prevent it passing out into the open ditch beyond, it might have been drowned before the planks could have been raised. As it was the child, which was in the water about two minutes, was so thoroughly chilled that it required two hours' work before it was restored to its natural warmth. Mr. Adamson and the residents of the neighborhood, are justly indignant with the town council for their gross neglect of duty in allowing this portion of the street to remain in so dangerous a condition. It should be either completely covered with planking or left open—the latter would be less dangerous than the present state, with man—or, rather, children—traps scattered along it. The citizens naturally look to the council for protection, but what with level and unprotected railway crossings, and open ditches admirably adapted to drowning children, there seems to be a great deal of apathy, to speak most mildly.

A DESTRUCTIVE BLAZE!

Mann's Woolen Mills Burned to the Ground.

A Fierce Morning Blaze—The Mills in Flames When Discovered—A Total Loss of $18,000—Partially Insured—List of the Companies Interested.

Another big conflagration occurred at an early hour this morning, and at about the same hour and under similar unaccountable circumstances as the fire of two weeks since, when the moulding shop of the Brooks Manufacturing company's works was destroyed. The fire which provoked the alarm was the large woollen mills buildings occupied by the Mann Bros. at the foot of Hunter street near the Hunter street bridge and on the banks of the river. The fire was noticed at five minutes to four o'clock this morning by Policeman Adams and Nightwatchman Gordon. Officer Adams who was on his beat a few minutes before he saw the fire looked eastward and he remarked to Mr. Gordon, "How dark it looks off there." No sign of fire was noted however and after a few minutes spent in trying the doors in rear of shops on George street on the lane opening next Mitchell & Son's grocery, they returned to the point occupied a few minutes before and they then noticed that the woollen mills were in flames. Officer Adams then gave the alarm. The firemen were quickly on hand, and soon had two streams playing on the fire. The hose was attached to the hydrant at the corner of Queen and Hunter streets. The firemen continued to

PLAY UPON THE BURNING BUILDING

until seven o'clock. The structure was wholly enveloped in flames before the alarm was given. The building was a fine stone structure, three stories high, sheeted with galvanized iron. The wool, yarn, flannels and tweeds composing the large stock that was in the building, served to feed the flames. The town for a great distance around was brilliantly lighted up for nearly an hour. Flying embers carried by the slight easterly wind flew thick and fast, and it required the utmost exertion on the part of the firemen to save the neighboring buildings. The roof of the Temperance House, owned by Mr. P. Heenan, caught fire on two different occasions, and the neighboring blacksmith shop of Mr. Robt. Main, also took fire from the great number of flying embers. The firemen turned the hose upon these buildings, and after saturating the roofs with water, all further apprehension on the score of these buildings was dismissed. A limb of a large oak tree near by caught fire and burned for some time. This morning the scene of the fire was visited by hundreds of people. They could hardly realize the great change that had taken place within such a short time. The walls of the picker house, dimensions 30x20, two stories high are still standing. The picker house stands at the southwest corner of the burnt building. The woollen mill is quite swept out of existence, nothing being left except the foundation and the roof, shafting and machinery. The mill was a

LARGE THREE STORY STRUCTURE.

It was sixty feet long and forty-five feet wide. The first floor was used as a furnishing and wool drying department; on the second floors were the weaving and twisting, as well as the custom carding and dressing departments. The office was also situated on this floor to the left of the main entrance. On the third floor were the carding and spinning departments. The picker house at the back of the mill were built of brick. The boilers for drying the manufactured goods were situated here, and on the second floor was the wool picking department. Three tons of coal had just been placed in the boiler room yesterday and this helped to increase the heat. Mr. Mann manufactured such goods as staple tweeds and custom yarn. Mr. Mann had a large amount of stock in the building. None of the firm's books were destroyed as they were taken home every night. Some twenty hands consisting of men, boys and girls were employed by Mr. Mann. The mill was a two set woollen mill and although the second set has been in position it has never been run. It was the intention of the proprietor to start the second set in a very few days. The cause of the fire is unknown. No one was in the building at the time. No fires were burning or anything of the nature when the building was closed up at six o'clock last night. Mr. Mann

ESTIMATES HIS LOSS

at $12,000 on the stock on hand, the machinery and the orders which he will be unable to fill. The loss is only partially covered by the insurance, amounting to $8 000. There is $5,000 in the Mercantile and London, W. H. Hill, agent; $2,000 in the Watertown and Mutual, Chas. Cameron, agent; and $1,500 in the Norwich Union, W. H. Clauston, agent. The building and shafting were owned by the Dickson Company. They estimate their loss at $4,500, fully covered by insurance in the Western, Royal, North British and Mercantile, Lancashire, Citizens' Fire Insurance Association, Mercantile and Phœnix. The insurance is divided as follows: $2,500 on the building, $1,000 on the shafting and $1,000 on the picker house. The present site of the fire seems to be an ill-fated one. Two woollen mills have been situated on the present foundations during the past nine years. The first one was owned and run by Mr. E. Wilson for several years. It was burned to the ground six years ago next May. The present mill was run by the Lasier Company until six months ago when Mr. Robert Mann and his brother David leased it for a term of ten years. The blow is a sad one to the Mann brothers and is all the more so because the second set in the mill was about to be started and they had some $10,000 worth of wholesale orders from Toronto to be filled. They did both a wholesale and retail business. Many of the old residents of Peterborough will remember the site of this morning's fire as the place where Mr. Benj. Reynolds conducted an old rough cast tavern for several years, which was burned about nine years ago.

Several of the girls employed

CAME TO WORK THIS MORNING

bringing their dinners along as usual. The total damage to the building, shafting, machinery and stock totals about $17000 all told. Mr. Mann, whose residence is next door to the mill, was unable to get out to the fire, he having been confined to his bed through illness. On the present site there used to be an old rag factory which was burned down some eleven years ago. This makes the third fire that has occurred on this spot.

Ladies.

Happy

Mr. and Mrs. Frederick Rejoice Because

Hood's Sarsaparilla Rescued Their Child from Scrofula.

For Scrofula, Salt Rheum, and all other foul humors in the blood of children or adults, Hood's Sarsaparilla is an unequalled remedy. Read this:

"We are so thankful to Hood's Sarsaparilla for what it did for our little girl that we make this statement for the benefit of other anxious parents and

Suffering Children

Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old a rash broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We consulted one of the best physicians in Brooklyn, but nothing did her any good. The doctors said it was caused by a scrofula humor in the blood. Her head became

One Complete Sore

offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or energy. The sores caused great itching and burning, so that at times we had to restrain her hands to prevent scratching. For 3 years

She Suffered Fearfully

with this terrible humor. Being urged to try Hood's Sarsaparilla we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to appear. The itching and burning ceased, and in a few months her head became entirely free of the sores. She is now perfectly well, no evidence of the humor, and her skin is clear and healthy. She seems like an entirely different child, in health and general appearance, from what she was before taking

Hood's Sarsaparilla

A. W. FREDERICK, 311 Glenmore Ave., East New York, Brooklyn, N. Y.

This Testimonial

is a fair sample of what Hood's Sarsaparilla is doing for the sick and suffering every day, from Maine to California. In the light of facts who can say that the work of an absolute concern like ours is not beneficent?

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

THE

Ontario Telephone

COMPANY, (Limited).

WHAT PAPER DO YOU LIKE?

ENGLISH VELLUM?

We have two kinds at 25c. for a Five Quire Package. Or you can have ruled paper, small or large, for the same. It is in pound packages—Five Quires for a Quarter.

We are getting New Novels in every day just now; also Lots of Magazines.

SAILSBURY BROS.,

George Street.

The great Chronometer and Regulator in chief, to the whole world, is the earth itself. Turning upon its axis once in what we call one day of twenty-four hours, the sun appears to cross the meridian once in that interval and is the only perfect time known. But the great objection to the sun as a family timepiece is, we can't always hustle around looking for him to judge the time by, and it is too big to carry around with us, so we have to call in the watchmaker's aid to find the correct time. Who is your watchmaker? Try R. W. MUNCASTER.

ELECTRIC POWER!

We are prepared to furnish electric current for running motors from our arc circuit at the following prices:—

¼ h.p. Gas Motor, $15.00 for the season June 1 Oct. 1.

¼ h.p. Motor, $18 per annum.

½ " " $30 " "

1 " " $60 " "

2, 4 or 6 h.p. Motor, $50 per h.p. per annum.

8, 10 or 15 h.p. Motor, $40 per h.p. per annum.

The current for these motors will be furnished from 7 a.m. till 6 p.m. Motors can be purchased through this company.

School of Instruction.

Opened this Morning in Connection With the I.O.G.T. of the County—Interesting Proceedings—A Large Attendance of Delegates.

The school of instruction in connection with the Good Templars of the county of Peterborough, opened this morning at eleven o'clock in the Carswell Lodge hall on Hunter street. There was a large attendance of delegates from nearly all the sister lodges of the county. Bro. Thomas Lawless, G.S., of Toronto, presided.

The following are the delegates in attendance and the lodges they represent:—

KEENE—Bros. A. D Anderson, Kerr, Eason, and Sisters Kerr, Campbell and Eason.

WESTWOOD—Bros. Geo. Humphries, Jas. McCole and Robt. Thompson.

WARSAW—Sister Payne.

CARSWELL LODGE—Bros. G. J. Early, H P. Lindsay, and R S. Munro.

SELWYN LODGE—Bro. S. A. McKee.

UNION—Bro Bell.

ASHBURNHAM—Bro. J. W. S Munro and Sister M. Hamilton.

Verbal reports of the state of work and the standing of the various lodges in the county were given. The reports showed the order to be in a highly progressive state. The lodge then adjourned until 1.30 o'clock. Sister Mrs. W. L. Scott, G.S.J.T., of Toronto will be in attendance at the session this afternoon. To night at 6.45 o'clock a Juvenile Temple will be organized by Sister Scott.

The following were appointed a committee to report on the state of the work and the needs of the lodges throughout the country, Bros. H. P. Lindsay, Kerr and Sister Payne. The said committee will report this afternoon. Several papers were read and discussed this afternoon.

Presentation.

The Peterborough Local Union of Christian Endeavor Forward an Address to Mr. A. E. Scott, Winnipeg.

The following address was received to-day by Mr. R. J. Colville from Toronto. It was intended to present it to Mr. A. E. Scott before he left for Winnipeg, but the engrossing and illuminating, which was done by a master artist in the Queen City, was not finished in time to permit of this and it only arrived to day, The address which speaks for itself was forwarded to Mr. Scott this afternoon. It is presented to Mr. Scott by the Peterborough Local Union of Christian Endeavor, of which, Mr. Scott was the able and efficient president:—

PETERBOROUGH LOCAL UNION OF CHRISTIAN ENDEAVOR.

To Mr. A. E. SCOTT,

DEAR FRIEND AND BROTHER,—It is with feelings of sincere regret we have heard of your contemplated departure from our town, and we can assure you that it is only the thought that it is ordered by God that reconciles us in parting with one who has shown such fidelity in the service of the Lord Jesus and as a Christian Endeavourer. Both in your own church and society, and as president of the local union, you have brought consecrated common sense and indefatigable zeal to bear upon the arduous duties of the office. Especially was this manifested in planning and carrying through to a successful issue the Provincial Convention of Y.P.S.C.E, of Ontario, which has given Peterborough such a warm place in the hearts and minds of our fellow Endeavourers. We bid you a heart-felt farewell, wishing you the choicest blessings our Heavenly Father can bestow, and we do pray God to be with you till we meet again. We trust you may long be spared to further the work for young people, for Christ and the church.

The Lord bless thee and keep thee. The Lord make his face to shine upon thee, and be gracious unto thee. The Lord lift up the light of his countenance upon thee and give thee peace.

Signed on behalf of the local Union,

D. W. SCOTT, M.D.,
Honorary President.
NELLIE L. WRIGHTON and ELLA STRATTON,
Secretaries.
THOS. BARRIE,
Treasurer.

Peterborough, March 14th, 1892.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

Rooted in the Past.

Able Address Given in St. John's Church Last Night by the Rev. A. Lloyd, M. A., of Port Hope.

There was a large attendance at the regular Wednesday evening service, held during the Lenten season in St. John's church. At the close of the service Rev. A. Lloyd, M A., the headmaster of the Trinity College School, Port Hope, gave an address upon "Rooted in the Past." The speaker said that we were all rooted in the past, physically, by the bodies which we inherit from our ancestors. We are rooted in the past socially, all our habits, customs and kindred ties. We are rooted there politically, for certain liberties and privileges which we enjoy to day. We are proud of our British inheritance, of our allegiance and nationality, because we as citizens of this great land feel we are rooted in the past. We are rooted there religiously; those words which have been handed down to us through centuries, and those words which we offer up in prayer to-day, were offered up years ago. The very Church tells us of the glorious inheritance that is ours to-day. Our belief is rooted in the past. Those who have been brought up in different times and circumstances know that if it were not for our faith which is firmly rooted in the past, and which has been handed down to us, we as a Church would never be where we are to-day. So many things for which we are indebted to-day are rooted in the past, it was difficult to tell along what lines he should speak. He would treat the address to-night under the nature of an advanced Bible class. He would study the book of

REVELATION OF ST. JOHN, THE DIVINE.

It was a peculiar book. There was as much difference between the other books of the Bible and the book of Revelations as there was between our Lord when He died and when He arose in a glorified body. When Christ arose He put off the frailty of manhood. We find the book of Revelation is not human. It cannot be explained by the ordinary means of interpretation as the other books can. Everything pertains to the risen Jesus, and there was nothing human about it except the language. The book divides itself into different parts. There was where the visions appeared to St. John on the Isle of Patmos, and where St. John was shown the door leading to heaven It was a magnificent vision. He sees Christ standing on the Church not yet perfect in its unity.

The speaker then dealt at length upon what was to be commended in the ministers of the seven churches, Ephesus, Smyrna, Pergamos, Thyatria, Sardis, Philadelphia and Laodicea, and what was commended or found wanting in each of them. If we believed in God our Father it was during the Pergamos period, It was owing to that period of war, strife and controversy that they owed their faith. We see Christ standing out just like a mighty warrior. We might praise the church of Rome as a church, and her services in helping to spread the good news of the gospel all over Europe. We might praise her patience and faith, but suppose we blamed her, could we do so more than Christ did the church of Thyatria. In that dire period, the period when she reigned supreme, Christ had given us, the Anglo-Saxon race, the commission to hold to hold fast to that which we have. We believe that the faith given us to day is the faith given us by Christ himself. Sardis of all the seven churches was the only one for which Christ had praise. The Church of England, her ministers and the services, although language had changed, had ever remained the same. Christ spoke of the Church of Philadelphia as holy. The position of his church was strong to-day. Christ had set an open door before them to-day. The Church of England had ever held fast to that which was good. It had held the faith of its fathers. We are rooted firmly in the past and our souls go deep down in gratitude to God for this. We are rooted in Christ Jesus and shall bring forth fruit.

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasant to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

The Latest Yet

W. C. Kirk has bought a lot of mixed tea, a bankrupt stock, good sound tea, which he offers at 15c. per pound in twenty pound boxes. You surely cannot get better value than that; don't think because the price is so low that the tea can be no good; I guarantee it. W. C. Kirk, Ashburnham. Telephones, Ontario No. 6, Bell No. 312.

Three Days of Brightness, Beauty and Bargains.

These three days will be Wednesday, Thursday and Friday, March 30th, 31st, and April 1st, being the days fixed for the grand opening of Miss Delaney's millinery and mantle show rooms, for the spring of 1892. Miss Delaney has determined to make these three dates brilliant opening days, the best she has ever attempted. In her beautiful show rooms ladies will find displayed millinery from the world's fashion centres, the work of the nimble fingers of French artistes, backed by the choicest that the best trimmers in Canada can supply. Paris, English and New York pattern bonnets and hats, flowers, ribbons, veilings, etc., in lovely variety, and unusually attractive. Mantles, wraps, jackets, tweed and plain melton cloakings with venetian finish, jet trimmings, etc., and other novelties in profusion at very special quotations. Miss Delaney has spared neither time nor expense to make this season's display attractive to a degree. She has personally visited the large millinery openings in New York and other cities of fashion in the United States, as well as in Montreal and Toronto, the latter city three times this season, and is therefore thoroughly conversant with all the latest leading fashions of the day, and confidently invites the inspection of ladies on the above dates. 5474-1w13 MISS DELANEY.

There Are Others,

But the barber shop you, reader, want to go to is BILLY MORGAN'S, the high-class barber, at 426 George street.

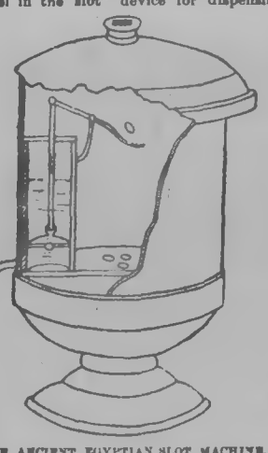
SCIENCE & PROGRESS

In Thomas Ewbank's work on "Hydraulics and Mechanics," Prof. Edwin J. Houston has come upon a curious find in the form of a cut and description of a "drop a nickel in the slot" device for dispensing



THE ANCIENT EGYPTIAN SLOT MACHINE.

holy water to worshippers at the entrance of an ancient temple.

According to his account in the Electrical World of to-day Ewbank himself found a description of it in the "Spiritalia," published by Heron in the 16th century and containing an exposure of the deceits of the Egyptian hierarchy. The apparatus has all the elements of our coin-operated perfume machines, there being a slot at the top for receiving the coin, a pivoted lever on which the coin fell and a valve which was operated to let a little water escape every time the lever was depressed by the weight of the coin.

Thus it appears probable that the "nickel in the slot" devices, which have recently come into wide use were originated more than two millenniums ago, and that we have only recently rediscovered a lost art.

"The devices by means of which our recent inventors provide against cheating the machines are no less anticipated in the early apparatus, for Heron states that the valves would not move until a coin of five drachmæ had been cast into the vase."

The number five is, perhaps, prophetic, but the sum of five drachmæ, or about 75 cents, speaks for the business superiority of the original inventors.—N. Y. Sun.

NOVEL FRICTION GEARING.

A Device of Use in Varying the Relative Motion of Two Shafts.

This recently patented device is deserving of attention, and superior to most methods now in use for varying the relative motion of two shafts when the small amount of power is to be transmitted.

On the ends of two shafts, A and B, are fixed two conical wheels, C and C. Between these is an intermediate wheel bearing on both of the cones. This wheel of disk D is mounted on a swiveling plate, E, so as to be set at various angles to the axis of the shafts A and B, bearing at its periphery on the cones and at corresponding distances from the center, and varying their relative motion accordingly.

The peculiarity of the gearing, aside from its extreme simplicity, is that the surfaces move together uniformly, and there is not that twisting and grinding action common to other forms of friction gearing when employed for a similar purpose. This method is one especially applicable to the feed motion of machine tools, but would require different proportions from those shown in the diagram. The main disk C should be larger in diameter and with less range of variation.—Industry, San Francisco.

The Moisture in the Atmosphere.

In a recent article on meteorological phenomena, in their relation to certain questions now much discussed, a California writer argues that the amount of moisture in the atmosphere is much greater than is generally supposed, its capacity for sustaining moisture depending mainly upon its temperature; thus, the atmosphere at 100° Fahrenheit at the earth's surface is capable of sustaining, in an invisible form, moisture to one-fifteenth of its weight, or an equivalent of one pound of water to every inch of area—it being thus readily seen what an immense volume of water may possibly be discharged over any given area when the atmosphere and electric conditions are favorable for its sudden condensation, as in the case of what are called cloud bursts. Of the latter, this writer remarks, in explanation, that warm currents of air, highly charged with moisture, are frequently wafted by winds over mountains, where they meet with a cold atmosphere or a cold current, which suddenly forms dense black clouds, that sometimes drop their moisture in prodigious cataracts of rain—"cloud bursts," as they are usually termed.

A Great Driving Belt.

The largest driving belt in the world has just been manufactured in Paris. It is 120 feet long, seven feet wide, and nearly an inch thick, the weight being a ton and a half; and it is to run over a fly wheel 22½ feet in diameter, and a pulley over 8 feet in diameter. Its speed under ordinary conditions will be 67 feet per second, and it will transmit 1,000 horse-power.

Mr. O. Harper, Ottawa, Ont., writes: "I have pleasure in stating that your Pink Pills are a wonderful tonic and reconstructor of the system. Since beginning their use I have gained on an average a pound of flesh a week. I have recommended them to a number of my friends, who declare that they are the only medicine that they have ever used that do all that is claimed for it. Sold by all dealers. dw

For Nettle rash, summer heat and general debility cure, use Low's Sulphur Soap. w

BANKERS MISSING.

Brussels Has a Sensation—Many Depositors Mourn Their Cash.

BRUSSELS, Ont., March 30.—Yesterday the people of Brussels and vicinity were startled by the announcement that McIntosh & McTaggart, private bankers, had suspended, and that the manager and senior partner had gone to parts unknown.

The firm have been carrying on business at Brussels for about 15 years, and enjoyed the confidence of the entire community, and in consequence there are many depositors. The partners were believed to have had many years of prosperity and to be comparatively wealthy, and it was only on the opening of a branch of the Standard Bank last April that their business showed signs of decay.

Much sympathy is felt for Mr. McIntosh, who is regarded by all as a strictly straightforward man, and the consensus of opinion is that trouble arose from weak judgments rather than dishonesty.

SUED FOR MALPRACTICE.

Important Case Being Heard at the Elgin Assizes.

ST. THOMAS, March 30.—The Assize Court was occupied with the case of Munro v. Fulton, an action brought by the widow of George Munro for alleged malpractice. Chloroform was administered to Munro by a student named Richard Lipsey under Dr. Fulton's directions for the purpose of an operation, and before the operation was concluded the patient died from the effects of the chloroform. Munro, who was 29 years of age, had been married but three weeks

Many medical men will give evidence, the dispute being whether death was caused by heart failure or asphyxia.

Amongst the physicians are Dr. McLean, Detroit; Linn, Rochester; Cameron and Bessey, Toronto; McCollom, London, and others.

George T. Blackstock and N. McDonald for plaintiff and B. B. Osler, Q.C., and T. Crothers for defendant.

Pleasant as Syrup

Mr. Douglas Ford, Toronto, states that Milburn's Cod Liver Oil Emulsion with Wild Cherry Bark is free from objectionable taste, being almost as pleasant as syrup, while for coughs and colds it gives complete satisfaction, acting promptly even in obstinate cases. dw

Canada's Wonder.

The more it is known and the further it is carried to distant shores the greater grows the wonder. All nations and tongues declar St. Leon perfection to assist digestion, purification of the blood, the assimilation of the food, circulation and promote healthy vigor life-long. St. Leon Water has no compeer. For sale all over. dw

Some symptoms of worms are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

FOR

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave., New York City, Sept. 19, 1889.
I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D

CONSUMPTION

Brooklyn, N. Y., Feb. 14th, 1889.
I have used your Emulsion in a case of Phth (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.
I can strongly recommend Flax Seed Emulsion a helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.
I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsion so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

127 West 34th St., New York, Aug. 6, 1888.
I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

THE BEST FAMILY PILL IN USE
FOR SALE BY ALL DEALERS

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.
Yours faithfully,
H. F. ATWELL.

The Travellers' Safe-Guard.

AMHERST POINT, N.S., Jan. 27, '90.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR,—For many years, I have been a firm believer in your "Dr. Morse's Indian Root Pills." Not with a blind faith, but a confidence wrought by an actual personal experience of their value and merit. My business is such that I spend much of my time away from home, and I would not consider my travelling outfit complete without a box of Morse's Pills. Yours, &c.,
M. R. MCINNIS.

A valuable Article sells well.

BORACHOIS HARBOR, N.S., Jan. 13, '90.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR,—This is to certify that I deal in Patent Medicines, including various kinds of Pills. I sell more of the Dr. Morse's Indian Root Pills than of all the others combined. Their sales I find are still increasing. Yours, &c.,
N. L. NICHOLSON.

BBB

THE GUIDING STAR TO HEALTH.

BURDOCK BLOOD BITTERS

Regulates the stomach, liver and bowels, unlocking the clogged secretions and carrying off all foul humors and impurities from the system, thus curing dyspepsia, biliousness, constipation, headache, scrofula, salt rheum, sour stomach, dizziness, heartburn, rheumatism, and all diseases of the stomach, liver, bowels and blood. It antagonizes all blood poison, removing all impurities from a common pimple to the most scrofulous sore.

ITS EFFECTS IN HEADACHE are truly surprising, having made complete cures in obstinate cases of more than 20 years' standing, which had resisted all other treatment. As a

SPRING BLOOD PURIFIER

it has long held first place, and continues to be esteemed by press and people, the best and purest remedy ever devised to remove tired feeling, restore elasticity and buoyancy to the constitution, and tone up the entire system to bounding health and strength.

Price $1 per bottle, 6 for $5, or less than 1c. a dose.

Burdock BLOOD BITTERS

Ratified by the Senate.

WASHINGTON, March 30.—The Cabinet agreed to accept Lord Salisbury's proposition for a renewal of last year's modus vivendi with certain limitations as to the character of damages to be left to the determination of the arbitrators.

The Senate has by unanimous vote ratified the Behring Sea treaty without any restrictive conditions.

The only amendment to the treaty—and it has been agreed to by Lord Salisbury—is that the arguments and proceedings before the arbitrators shall be in the English language.

A Woodstock Fire.

WOODSTOCK, Ont., March 30. — Fire broke out here shortly before midnight last night in D. W. Karn's & Co.'s piano factory. The factory was completely gutted. Cause of fire unknown, but supposed to be spontaneous combustion. Loss $35,000, insurance $21,000.

The contents generally were destroyed, including about 30 pianos ready for shipment. A number of organs were also on the ground floor and these were dumped pell-mell into the street, with the result that they were virtually ruined.

Mr. Karn will rebuild at once and promises to have the factory in full running order by May 1. This is the third time he has been visited by fire in Woodstock.

An Owen Sound Blaze.

OWEN SOUND, Ont., March 30.—Yesterday an incendiary fire destroyed Stoddard's livery stable in Poulette-street. The rigs, harness and robes were consumed.

A Story of Sarah Bernhardt.

M. Got, of the Comedie Francais, has been telling tales about the divine Sarah. He says that when she came to him she could not even walk, that she was awkward, tall, gaunt and self-conscious. She could not stand still, and she was sullen. But he realized the intensity of her nature and that great ambition she cherished, and so they worked together, he and she, very patiently.

Sometimes Sarah became discouraged, and raved with a splendid impetuosity which delighted the teacher, because it showed him that the genius was there.

The "Bell's" Rival.

The bell-shaped skirt has a rival. This is styled the "umbrella" skirt, and is becoming quite popular. The skirt has no foundation. It is made of ribbed cloth, and has a band of velvet ranging from two to three inches around the bottom, which is finished with a narrow row of bead trimming. The skirt is always to be worn over a silk underskirt.

The Woman's Way.

Friend Do you permit your wife to have her own way?

Husband (positively)—No, sir. She has it without my permission.

A New Stair Thread.

A new English pattern of stair thread is made of alternate strips of lead and steel, lead furnishing foothold and the steel preventing wear. The lead is cast in grooves in a plate of steel, and it is asserted that this form of step has unusual durability, not wearing smooth even under heavy travel.

Redbank Stock for Sale.

MONTREAL, March 26.—All the stock of Mr. T. H. Love's Redbank stables will be sold at auction here on April 12 next. The horses include many good trotters and runners.

Burglary by a Blind Man.

MITCHELL, Ind., March 26.—Bass Brothers' saloon was broken into here last night and a quantity of cigars and whisky stolen. Frank Tow, a blind man, told a friend last night in the presence of a boy that he had stolen some cigars and he has been arrested.

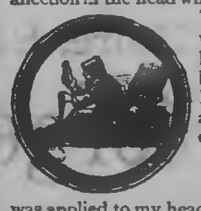
The Head Surgeon

Of the Lisbon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to men. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LISBON, 24 Macdonell ave., Toronto, Canada.

Ladies appreciate Anti-Dandruff from the fact that it not only thoroughly removes dandruff with three applications, but stops falling of the hair, restores faded hair to its original color, and makes it soft and pliable without leaving any indication of a dress ag being used—clear as crystal, clean to use, it is a valuable toilet preparation. dw

Taking in my one article in the line of medicine that gives so large a return for the money as it gives persons struggling with Blotches, such as Carter's Smart Weed and Hellebore Sarsaparilla Plasters. dw

INTENSE SUFFERING!



Mr. William Buchanan, 24 years engineer in the Cunard Steamship Company's service, 8 St. John's Road, Kirkdale, Liverpool, Eng., writes: "I suffered two years of agony from an affection in the head which six physicians pronounced incurable. They were divided in opinion as to whether it was acute neuralgia of the head or rheumatic affection of the brain, but all agreed that I could never recover. In my paroxysms of pain it needed two and sometimes three men to hold me down in bed. When at death's door,

ST. JACOBS OIL

was applied to my head. It acted like magic. It saved my life. I am well and hearty, and have had no return of the trouble."

"ALL RIGHT! ST. JACOBS OIL DID IT."

Jocular Notes.

Jagson says that women who have attained a majority always seem to be in the minority.

There are hired men so lazy that they will ask a companion to watch the clock for them.

A loss of temper is like any other kind of one. The worst thing about it is the recovery.

The genius of the Thespian is more apt to "come into play" than that of any other genius.

When the old gentleman of ninety proposes to the old lady of eighty-five it is the "court" of final resort.

The only way to win in an argument with a woman is to walk off when you have stated your side of it.

Mrs. Gadd—Mrs. Blabb tells me her daughter is going to marry a man of note. Mrs. Gabb—That's queer. I heard she was engaged to a trombonist.

Why She Was Unhappy.

"You don't look happy," said one woman meeting another recently. "I'm not. Life is a burden," was the prompt reply. "I'm taking cod liver oil three times a day. Its vile taste is never absent from me, the horrors of the dose past are not forgotten before the dread of the dose future is upon me."

The unhappy condition thus lugubriously recited might have been much mitigated by taking the objectionable medicine in tomato catsup or by eating a bit of fresh orange peel before and after the dose.

A Serious Interruption.

Tom—When I saw you at Minnie's wedding I thought that you should have been the groom yourself, old man.

Jack—I did come very near marrying that girl once. I was calling there and about half-past 12 I braced up and commenced a proposal; and just then her father came into the parlor.

Tom—That was awkward.

Jack—I should say so; he put me completely out!"

The Mark of Cane.

"Ethel," he exclaimed in tragic tones as he rushed into her presence, "I cannot marry you. I have the mark of Cane upon me."

"Oh, Mortimer," she groaned, "have you killed papa?"

"No, Ethel, no; it came very near being the other way," and he dashed out of one door as the old man came in the other, with a splintered walking stick in his gory grasp.

Peculiarities of Our Language.

They stopped to look in the store windows, and she remarked that she must soon have a new dress.

"And I must have a new suit," said her husband; "the one I have on is worn out."

"How can that be?" asked his wife, "it looks as good as new."

"But I have worn it out all the same," he said, and she tumbled to the situation.

Faster and Faster.

Father—A rolling stone gathers no moss, my boy.

Son (who is that kind)—But, pop, it gathers momentum.

Father (sadly)—Yes, my boy, I have observed that it gets faster as it nears the bottom of the hill.

A Complication.

"What's the matter, Parker? You look blue."

"I am. I asked Miss Morrison to be my wife."

"Ah! Rejected?"

"No. Referred me to her mother, and—well, her mother rejected me herself last September at Narragansett."—Harper's Bazar.

A Funny Story.

Not long ago a foreigner at Niagara Falls was talking about the wonders of the old world to a Canadian and of Vesuvius. "You haven't got any volcanoes over here like that," added the visitor. "No," remarked the Canadian, pointing to the falls, but we have got something there that will put out your old volcano every time she breaks forth."

PAIN from indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this. dw

News About Town

It is the current report about town that Kemp's Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles cost 50c and $1. dw

It Leads the Leaders.

The foremost medicine of the day, Burdock Blood Bitters, is a purely vegetable compound possessing perfect regulating powers over all the organs of the system and controlling their secretions. It so purifies the blood that it cures all blood humors and diseases from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, render it unequalled as a cure for all diseases of the skin. From one to two bottles will cure boils, pimples, blotches, nettles, rash, scurf, tetter, and all simple forms of skin disease. From two to four bottle will cure salt rheum or eczema, shingles, erysipelas, ulcers, abscesses, running sores, and all skin eruptions. It is noticeable that sufferers from skin diseases are nearly always aggravated by intolerable itching, but this quickly subsides on the removal of the disease by B. B. B. Passing on to graver yet prevalent diseases such as scrofulous swellings, humors and scrofula, we have undoubted proof that from three to six bottles used internally and by outward application (diluted if the skin is broken) to the affected parts, will effect a cure. The great mission of B. B. B. is to regulate the liver, kidneys, bowels and blood, to correct acidity and wrong action of the stomach and to open the sluiceways of the system to carry off all clogged and impure secretions, allowing nature then to aid recovery and remove without fail bad blood, liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disorder of the liver, kidneys, bowels, stomach and blood.

We guarantee every bottle of B. B. B. Should any person be dissatisfied after using the first bottle we will refund the money on application, personally or by letter. We will also be glad to send testimonials and information proving the effects of B. B. B. in the above-named diseases on application to T. MILBURN & Co., Toronto, Ont. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills makes a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents, five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

DOMINION PARLIAMENT.

THE FIRST SIGN OF PROROGATION MANIFESTS ITSELF.

The Impeachment of Judge Elliot—Improving the Canadian Militia—Canal Tolls—The Resignation of Hugh John Macdonald—Deputations.

OTTAWA, March 31.—Judge Elliot occupied the attention of the House about 10 minutes yesterday without any action being taken. It will be remembered that on Monday Mr. Lister presented a petition from a number of ratepayers of London asking for Judge Elliot's impeachment. When the petition came to be examined it was found that it did not conform to the rules of the House, which require that at least three signatures should appear on the page containing the prayer of the petition. Mr. Lister, therefore, had another petition prepared and presented it to-day, and when the time came for reading and receiving petitions he moved that this petition be read. This, of course, can only be done with the consent of the House, and objection being raised the petition was not read.

Mr. Lister next moved that the petition be printed and a copy sent to Judge Elliot. Sir John Thompson pointed out that the petition had not been received by the House and it may prove on examination to be irregular, as its predecessor had been. The matter was not of such urgency that it should be taken out of its regular course.

The petition was therefore treated in the usual manner and the matter will probably come up in its usual order on Friday.

Before the orders of the day were called this afternoon Mr. Gibson asked whether the Government had decided as to the reduction of Canal tolls and was informed by Hon. Mr. Bowell that no order in council had been passed.

At 3 minutes past 4 o'clock yesterday Mr. Hughes moved for a return showing the strength, etc., of the militia. He expressed considerable dissatisfaction with the present condition of the force and pitched into the military schools in great shape. He objected to the grading of officers and non-commissioned officers in the schools and the wearing of different uniforms and advocated a return to the old system where the same kind of certificates were issued to all graduates. He was very emphatic about the necessity for annual drills and thought that the force ought to be kept in such a state of efficiency that it could be put in the field in the 24 hours.

Col. Amyot had a shot at the Kingston Military College, which he thought was only a training school for emigrants.

Minister of Militia Bowell admitted that there might be something in the remarks he had heard, and expressed a desire to do all in his power to increase the efficiency of the Militia. If the Minister of Finance would only give him a couple of hundred thousand dollars in addition to the $275,000 now voted for drilling he would be happy to have the whole force drilled every year.

Prorogation in Sight.

The first "low wash" of the wave of coming prorogation was heard yesterday when Sir John Thompson gave notice that he would move to-day that in future Government business take precedence on Thursday.

The "short session" fiend at once proclaimed that prorogation would take place by May 15 but he is most likely too previous.

Mr. Laurier wanted to know yesterday when the Redistribution Bill would be brought down and informed by Mr. Thompson that he did not know but it would be as soon as possible.

Many Deputations.

A deputation consisting of Mr. George Musson, Toronto, and Messrs. Cockburn, Coatsworth, McKay, McLeod, Skinner and Stairs waited upon the Minister of Finance yesterday and urged placing higher rate of duty upon a low grade of molasses treated chemically and imported into this country. The Minister promised to consider the matter.

Mr. Corby, M.P., introduced a deputation composed of Mr William Black and Mr. A. A. Benap to the Minister of Marine and fisheries yesterday. They asked that the close season for bullheads and whitefish in the Bay of Quinte be extended. Hon. Mr. Tupper said the whole question of the close season upon the inland waters of Canada as well as the subject of seine fishing would be enquired into by a commission next summer.

In connection with the deputation to the Hon. John Carling from the Ontario Horse Breeders Association, a conference was held in the tower room of the House of Commons last evening to consider the formation of a Dominion Association. The Minister of Agriculture was present in addition to Messrs. Nunn, Rogers and Stalke, and also the following members: Lieu. Col. Tyrwhitt (chairman), Senator Perley, Messrs. Ingram, Fairbairn, Roome, Cargill, Hodgins, Carpenter, Henderson, Sproule, Hughes, Cochrane, Miller, Baker and Clarke Wallace. Resolutions were passed agreeing to form a Horse Breeders' Association, to hold a series of fairs for the sale of horses and asking the Government to contribute towards the expenses. It was decided that the deputation should wait upon the Government in the morning to ask that a duty of $30 a head be placed on animals worth up to $100 each, and that on horses worth over that sum the duty be 30 per cent. ad valorum.

WHY SIR JOHN'S SON RESIGNED.

He Has No Ambition and No Tastes for Political Life.

OTTAWA, March 31.—Asked about the correctness of the rumor that he intended resigning his seat in Parliament, Hugh John Macdonald, the member for Winnipeg, stated yesterday that the only thing wrong about such a report was that it was somewhat premature. "I have asked my leader, Mr. Abbott, to be allowed to resign," he went on, "and so far have not yet got a decided answer from him."

"Your reasons are—"

"I merely don't like the work. I have no ambition for political life. My tastes don't lie in that direction; besides, I have a legal business requiring my attention. As you are aware, I only accepted the nomination on the distinct understanding that I should be allowed to resign as soon as it was convenient for the party to permit me to do so. Sir Donald Smith refused the nomination at the last moment and I was asked to run so as to prevent Mr. Isaac Campbell getting elected by acclamation. The majority of the party was too small last session to permit me to resign, but now there is no such excuse." Mr. Macdonald is, without doubt, one of the most popular members in the House.

Mr. Macdowall, who represents the Saskatchewan district, also desires to resign his seat at the close of the session. He will be guided largely by what his friends say, but a large and growing business almost daily wants his personal superintendence.

NOW IT IS CANADIAN SEAMEN.

A Decision Which is Bound to Cause Considerable Commotion.

CHICAGO, March 31.—United States Immigration Agent Stitch served notice yesterday that the Treasury Department has decided that Canadian seamen can no longer be employed on lake vessels flying the American flag but must make way for American seamen.

The decision results from the arrest of Capt. Rabshaw here last summer for violation of the contract labor law.

Little short of a revolution will be caused in the carrying trade of the lakes, as many hundreds of Canadians have been employed every year on American vessels.

The Seamen's Union and emigration agent will co-operate in a thorough enforcement of the decision.

Only when an American vessel while in a Canadian port is deprived of its crew by desertion or otherwise can aliens be employed, and then only temporarily.

Local Option Defeated in Burford.

BRANTFORD, March 31. The Township of Burford yesterday defeated the local option bylaw by 38 votes.

One More to Deeming's Record.

MELBOURNE, March 31.—The police believe they have discovered proofs that Deeming, in addition to his many other crimes, murdered a man named Keays, with whom he went to Cape of Good Hope from Australia in 1888.

Deeming is guarded night and day aboard the Ballarat by seven watchers. It has been discovered that he has plucked the hairs of his mustach out by the roots in order to baffle identification.

MELBOURNE, March 31.—Counsel for Deeming says that the defence will produce evidence at the trial to prove that the prisoner is insane.

Among the witnesses who will testify will be a Mrs. Taft, with whom Deeming lodged in Sydney, and who ejected him from her house because he was always complaining that the place was haunted with ghosts that annoyed him.

Proulx Re-Elected in Prescott.

OTTAWA, March 31.—Proulx (Liberal), the unseated member for the Commons, was re-elected in Prescott yesterday by 235 majority.

A despatch from Rome says that the trial of the anarchists arrested for taking part in a riot in this city last May Day was concluded to-day. Cipriani and Palla were sentenced to imprisonment for two years and eight months each and to pay a fine of 1500 lire. Korner, a German student, was sentenced to imprisonment for one year and to pay 500 lire. Forty-nine others were sentenced to terms ranging from two years to 25 days' police supervision and to pay minor fines.

Not Favorably Impressed.

"What do you think of your little sister, Osgoodson?" inquired his father.

"She may improve upon a more extended acquaintance," replied the little Boston boy, regarding the new infant critically, "but at present she seems absurdly crude and immature."

City Clothing Store, Sign of the Golden Horse-Shoe,

No. 381 George St., Peterborough

SPRING has come again, and in presenting our Annual Spring Announcement for the Nineteenth time, we have much pleasure in calling attention to the fact that, in consequence of our ever fast-increasing business, we begin this season's trade in new and commodious premises, with nearly **double the selling space** and **double the stock,** thus giving us, under one roof, what we believe to be the **Largest, Best Lighted and Best Arranged Retail Clothing and Tailoring Establishment in the Dominion.**

Every Department in the House has been re-organized and largely increased and each put under the management of experienced hands.

OUR VAST STOCK OF

Imported and Canadian Cloths

Ready-made Clothing, and Gents' Furnishings

has been the result of personal selection and careful buying in the Best Markets, for Close Cash Prices, so that we are prepared to offer **Unprecedented Values** all over our immense establishment. All that ample capital and an experience of over nineteen years' closest application to the trade can give us, has been made use of to the very best advantage.

CUSTOM or ORDERED CLOTHING

Our Tailoring Department is for all comers. Here we are prepared to fill orders for all the Leading Styles of Garments now worn, and can offer

Perfect Fit, Perfect Style, Excellent Quality and Low Prices

as inducements. If you want a durable, well-trimmed and well-made Spring **Suit or Overcoat,** leave your measure at the City Clothing Store. We are anxious to **have** fine dressers and all who are **particular** as to fit, style and material, to come **and** examine our immense variety of **Scotch, English, Irish and Canadian Tweeds, French Worsteds, Spring Overcoatings in all fashionable shades. This** department is under the superintendence of Mr. Miles Froats, and a large staff of first-class workmen.

READY-MADE CLOTHING.

Ready-made Clothing is now one of the principal Departments of our Establishment.

This year we have exercised greater care than ever in buying from the very best and most reliable wholesale houses in Montreal, Toronto, Hamilton and London. We call attention, particularly, to the completeness and wide range of styles shown, to fit all sizes of Men, Young Men, Youths & Children, from three years of age upwards. The stock is twice as large as usual, and guaranteed goods that can be depended upon. The prices are Lower ever, having been bought for closest cash figures. Our stock meets the wants of rich and poor, and for each we have something honest for honest money.

GENTS' FURNISHINGS.

Our Stock of Gents' Furnishings is more extensive, more varied and more fashionable than ever before.

Dress Shirts, Collars and Cuffs, Men's and Boys' Neckwear Ties and Bows, Underwear and Hosiery of the Best English, French, Canadian and German makes.

☞Come and see us Early.

GOLDEN LION!

YESTERDAY and TO-DAY

OUR elegant and commodious Millinery and Mantle Show Rooms were formally thrown open to the public. The attendance of ladies has been exceedingly gratifying, for which we tender our sincere thanks. Crowds of admiring visitors have thronged our spacious parlours all day long—and still they come!

Our elaborate display has evoked continual expressions of admiration, and our magnificent stock of Spring Novelties was highly complimented and admired.

Orders will now receive the most exacting attention. Already we have taken a larger number of orders than at any previous anniversary opening, which is one of the best proofs of the superiority and attractiveness of our stock.

The Dress and Mantle Making Department is already in full operation, and we can confidently guarantee the best possible satisfaction to all our customers.

LITTLE BUSINESS TRANSACTED IN THE COMMONS.

The Supplementary Estimates for the Fiscal Year Laid on the Table—A Deputation Interviews the Government on Trent Valley Matters.

OTTAWA, April 1. — Supplementary estimates for the current fiscal year brought down last evening amount to $897,813.74, of which $69,558 is chargeable to capital account, $532,045.83 to consolidated fund.

Under civil government appears the sum of $2486.68 to pay Burgess' salary as chief clerk from first November last to 30th June next and to pay Henry Pereira and Turner of the Department of the Interior salaries for the time they were suspended.

There is an amount of $1200 to pay high commissioners' rates and taxes. Under the head of legislation appears $8809 for Senate, $58,170 for Commons, $14,498.50 for Sergeant-at-Arms' Department, $775 for library contingencies, $35,000 for printing paper, etc., $1950 for 325 copies Bourinot's Parliamentary Practice and $60,000 for further expenditure in connection with Franchise Act, printing voters' lists, etc., making altogether $179,193.50.

Amongst other votes are: To complete census $95,000, World's Columbia Exposition $500, to make good damage by fire at Ottawa postoffice $6000, Owen Sound Harbor balance to contractors $2200, Civil Service Commission $2000, grant to International Educational Association $2000.

Trent Valley Canal.

A numerous deputation waited upon Hon. John Haggart and Hon. Mackenzie Bowell yesterday and urged that the Government assume control of the waters tributary to the Trent Valley Canal, that an immediate re-commencement of the canal be made, and that the proposed bridge at Fenelon Falls be built as soon as possible. Those present were: Messrs. Stevenson, Burnham, Lieut.-Col. Tyrwhitt, W. H. Bennett, D'Alton McCarthy, Frank Madill, William Smith, Hughes, C. Fairbairn, G. Guillet, E. Cochrane, Corby and Carnegie. The questions were very fully discussed and it was shown from the report of the engineers, who were at first unfavorable to the scheme, that it would be quite feasible to construct the canal, which would be of great benefit to the people along the route as well as to the shippers of the Northwest. The estimated cost, it was pointed out, would be from six to seven millions of dollars.

In reply the members of the Government gave reason to hope that the construction of the bridge at Fenelon Falls would be speedily proceeded with.

The deputation did not name any particular part of the route of the canal which should first be commenced, but it was thought the construction of that portion between Peterboro and Lakefield might be first undertaken. As to the assumption by the Federal authorities of the waters of the Trent Valley, that matter would be very thoroughly enquired into.

Mr. Ives' Bill.

In the House yesterday Mr. Ives introduced a bill respecting transfer shares of corporations. He said that the act at present protected corporations and creditors of corporations, and he wished to protect the interests of shareholders who desired to make transfers.

His amendment applies only to paid-up stock and provides that a transfer in writing made by the owner of the stock or by power of attorney exercised by the owner of the stock shall bind all parties except the corporation—shall, in fact, make the title perfect in the transference subject to the right of the corporation afterwards to disallow the transfer if it shall have any just cause for so doing.

This bill becoming law will enable business men residing at a distance from the point where the headquarters of the company are to make transfers for the purpose of loans, temporary or otherwise, or to sell at short notice and receive their pay without the delay of waiting for three or four days, or perhaps a week, for the transfer to be entered up in the books of the company and a new certificate issued and returned.

There was a good joke in the House yesterday on Mr. Choquette, who solemnly asked if an enquiry had been held into the loss of the Government steamer Alert and was informed by Hon. Mr. Tupper with great gravity that no inquiry had been or would be held, because the Alert had not been lost, but was quite safe at her dock in Quebec.

The New Deputy-Sergeant-at-Arms.

W. H. Bowie, secretary to the Speaker, has been appointed Deputy-Sergeant-at-Arms. This settles the deadlock between the Sergeant-at-Arms, who wanted Mr. Walter Todd, Clerk of the Private Bills Committee appointed, and the Speaker, who desired to appoint Mr. Douglas Cameron.

Immediately after midnight an April fool joke was played on all the members who had sneaked off to bed leaving the House in supply. The alarm was sent out to all the hotels that a division was called, and for the next half hour members came tumbling up to the House in a more or less undressed condition, only to be greeted with shouts of laughter and informed that there was "a man downstairs who would interview them at the bar." There were a good many interviews.

MR. GERMAN'S SEAT.

The Discussion in the Committee to be in Secret.

OTTAWA, April 1.—The Committee on Privileges and Elections sat yesterday for consideration of Colonel Tisdale's motion to declare the seat for Welland vacant, and to order the issue of a writ for a new election. Mr. Girouard presided and among those present were: Sir John Thompson, Sir Adolphe Caron, Sir Hector Langevin and Messrs. Tupper, Costigan, Mills, Edgar, Davies, McCarthy and Langelier.

The question of procedure arose immediately, and in accordance with the usage of the committee the correspondents were excluded.

The committee decided to serve Mr. German with a notice of the motion and to request his attendance at the committee at its next meeting on Tuesday next.

Director Sold for $75,000.

PHILADELPHIA, April 1.—A. H. Moore, proprietor of the Cloverdale Stock Farm, has purchased from Monroe Salisbury of Pleasanton, California, the stallion Director, with a record of 2.17, for $75,000.

Director is the sire of Direct, with a record of 2.06.

MILLS, THE SANCTIFIED.

What Did the Prince Do with the Funds He Had?

DETROIT, April 1.—The tribe of Israelites having become somewhat scattered, there was a gathering of the clans at G. W. Bell's house Tuesday morning, and at the meeting which followed it was decided that they would remain in Hamlin-avenue through weal or woe.

Much speculation has been indulged in as to the disposition of the money which Prince Michael was supposed to possess. The wary prince anticipated the trouble in which he now finds himself and intrusted his wealth to one of the satellites, in all probability G. W. Bell. This money, which amounts to about $3000, it is said by young Rodebaugh, was at this meeting divided between Bell, Richardson and Hamilton. The last-named disciple is an importation from Toronto, and when he came here he invested $6000 in the Israelitish bank, Prince Michael, it is alleged.

Michael spends his time in jail reading "The Flying Roll. He says it will be impossible for him to procure bail.

The property, real and personal, of Michael is valued at $10,000. An injunction has been issued restraining Mills from interfering with his legal wife in disposing of it.

How Prince Michael Was "Purified."

Eliza Courts seems to think that everything she and Mills have done was for the glory of God and by His commands, at least if she really means what she says. Last evening she was telling Roundsman Shoemaker a long story of the terrible sufferings of the "Prince" while the devil was being driven out of him.

"You do not know what the poor man suffered," she said. "It was some time before he went to England that one day he told me that God had spoken to him and that He would drive out the evil spirits. God told him to eat nothing and drink water for a week. Oh, how he suffered! When the week was up he asked me to kiss him. I did so and that was the first time I kissed him. The moment it was done he began to howl and shout: 'Oh, Jesus! Oh, Jesus!' Then he began to rub his hands and he howled still louder. Oh, how he suffered! Then he cried, 'It's coming!' He threw himself down, pulling his beard, and I saw in what terrible agony he was. He kept on crying 'It's coming' and——"

"What was coming?" interrupted Shoemaker.

"Why, the spirit of God was entering him and he was cleansed. His body is purified and no matter what he did it would be no sin."

THE C.P.R. ACCIDENT.

Death of Engineer O'Connell—Examination Into the Cause.

OTTAWA, April 1.—Michael O'Connell, engineer of the train wrecked Wednesday, died of his injuries yesterday. He leaves a wife and large family.

The inquest on the body of Golden was opened to-day.

Switchman Meilleur testified that he closed and locked the switch when the Aylmer train passed at 1.05 p.m. After the Soo train left the track he found the switch was open and unlocked. He had reason to believe there were switch keys in possession of several persons; some time ago he found one with little boys. He believed someone opened the switch after he left it.

After some further evidence a verdict was returned

That this jury are of the opinion from the evidence that the agent and switchman neglected their duty in not seeing that the target and switch were properly set before pulling down the semaphore to allow the train to pass, and we also severely censure the C.P.R. Company for having, in our opinion, inadequate help at Hull station for the safety of the public.

THE PRINCE OF WALES IN IT.

Oil Pipe Line to the Seaboard—Mr. Wilson of Tranby Croft Also In It.

PITTSBURGH, Pa., April 1.—Another pipe line from the Western Pennsylvania oil fields to the seaboard is contemplated. The new line is to be built with English capital. It is said that English royalty will own a big block of stock. The member of the royal family of England who will figure in the common place business of piping oil is the Prince of Wales. Closely associated with the Prince will be Mr. Wilson of Tranby Croft, who will also invest extensively in the line. Besides these, English capitalists are interested in the venture and will back it with English gold. The capital stock is to be £2,000,000. A charter has already been taken out in the State of New Jersey by Mr. Wilson and the line is to be called the English Pipe Line Company.

Murdered His Father-in-Law.

HILLSBORO, Tex., April 1. — M. L. Fisher, one of the best known citizens of Hill county, was shot and killed by T. W. Mash, his son-in-law. Immediately after the shooting Mash left his wife with the dead body of her father, came to town informed the authorities of what he had done and went to jail. An air of mystery surrounds the affair. Mash is already indicted in the District Court for assault and attempting to murder a Mexican about two months ago.

A Boy's Surprise Party.

HOUSTON, Tex., April 1.—During the war a large amount of bombs and other ammunition were thrown into Buffalo bayou to prevent capture. Yesterday a boy named Charlie Harris got one of the bombs out of the bayou, took it home and proceeded to open it with an ax. He succeeded. One foot was blown off; he has a slug in his groin and another in his head. A stable, where he experimented, was blown to atoms.

Shot a Pullman Car Conductor.

CHICAGO, April 1.—J. C. Frost, a Pullman car conductor, was probably fatally shot by Michael Hogarty, a bookmaker, in a quarrel over Rose Nelson, to whom Hogarty was to have been married. The shooting took place at a social gathering and Hogarty had to aim over the shoulder of one of the girls of his affianced.

Nova Scotia Boodle Charges.

HALIFAX, N.S., April 1.—Investigation into the charge against the supporters of the Government of Nova Scotia of fraud in connection with the expenditure of road money was begun here last night. So far there has been nothing to substantiate this charge.

A Nebraska Cyclone.

NELSON, Neb., April 1.—A cyclone struck this town at 6.15 p.m. yesterday. It came from the southwest. Damage to the amount of $100,000 was occasioned and many buildings unroofed. Only one person was seriously injured.

MANDALAY IS IN ASHES.

NEARLY TWO HUNDRED LIVES LOST IN THE FIRE.

The Capital of Burmah Almost Wholly Destroyed by a Fire Which is Still Burning—The Important Capture Made by the Paris Police.

MANDALAY, Burmah, April 1.—The fire which raged here all last night destroyed three-quarters of the city, including the whole business portion, the old palace and two convents.

The residence of Sir Alex. Mackenzie, chief commissioner, was also burned.

Physicians and assistance of all kinds have been forwarded from Rangoon.

There was no provision against fire in the city and the people did not wait to fight it, but fled panic-stricken before it.

There were two fresh outbreaks during the day. By the first the law courts and a number of large and valuable pagodas were destroyed.

The fire raged for 14 hours. The whole city was destroyed from China-street to Obo 2½ miles.

The Central Telegraph Station, built at a cost of 29,000 rupees, was destroyed. The other Government buildings, bazaars and warehouses escaped.

The Anarchist Ravachol.

PARIS, April 1.—The Government looks upon the arrest of Ravachol as of the greatest importance. It is believed his capture will put an end to the dynamite outrages in Paris.

The proprietor of the wine shop in whose place Ravachol was captured has received a reward of 1000 francs. The police commissioner who made the arrest will be decorated with the ribbon of the Legion of Honor, and the six gendarmes who arrested him will receive medals and be promoted for the share they took in effecting the capture of the notorious Anarchist.

The recent raids made upon the lodgings of Anarchists and the arrest of so many members of that party have had the effect of frightening them.

The police yesterday arrested an Anarchist named Delaunah on the charge of stealing dynamite. His description tallies with that of the man who was seen in the vicinity of No. 39 Rue Clichy Sunday morning after the explosion.

The Anarchist prisoners who were concerned in the explosions in the Boulevard St. Germain and at the Leban Barracks have made a confession. They say that Ravachol was concerned in a murder and robbery at Mont Brison by which he realized 30,000 francs. He gave the most of the money to associates in St. Etienne, drawing sums when required for dynamiting purposes.

Ravachal assisted in stealing and burying the dynamite taken from the factory at Soisy:

Chaumartin asks to be sentenced to imprisonment as he fears assassination if released.

The Senate has approved the bill imposing the penalty of death upon persons convicted of using dynamite for blowing up buildings and other unlawful purposes.

The Walsall Anarchists.

LONDON, April 1.—At the trial of the six Walsall Anarchists yesterday, the confession of Deaken, one of the prisoners, was read.

He implicated his companions in the conspiracy and declared the bombs they manufactured were intended for use in Russia.

Ulster Up in Arms.

LONDON, April 1.—A conference between the Unionist members of the House of Commons, representing various constituencies in the Province of Ulster and delegates of the Ulster Electoral Association, was held yesterday, at which was approved a protest against any legislation interfering with their inheritance in the Imperial Legislature. The protest declares that the people of Ulster have unchangeable distrust of and hostility to an Irish legislative assembly and expresses their determination to take no part in its proceedings, to offer resistance to its laws and to appeal to the English and Scotch electors not to commit the two Irelands to a struggle that will be disastrous to both.

The Durham Miners Cry Peccavi.

LONDON, April 1. — The Federation board of the Durham miners has suddenly decided to ask the Coal Owners Association to withdraw its notices and allow the men to resume work. The request was presented to the Coal Owners' Association, which informed the Federation that the resumption of work by the men must be accompanied by a settlement of the wage question either by agreement or arbitration.

Shakespeare's Birthplace.

LONDON, April 1. —A despatch from Stratford-on-Avon states that the Shakespeare birthplace trustees have agreed to purchase Anne Hathaway's cottage for £3000. This action of the trustees is taken to forestall the Americans who want to transport the cottage.

Miscellaneous Foreign Notes.

The continued unprecedented fall in exchange is causing universal consternation in Calcutta and threatens to paralyze all branches of trade. It is generally hoped that the Government will greatly reduce the sales of India Council bills and raise a gold loan of seven or eight million pounds.

At Freiburg-Baden, Germany, a quantity of petroleum in a house became ignited in some unknown manner, and before the occupants were aware of their danger all hope of escape was cut off. After the fire had burned itself out the bodies of eight persons were found in the ruins.

Harrison Succeeds Ryan.

FREDERICTON, N.B., April 1.—Mr. Harrison was yesterday elected president of the Legislative Council, in place of Mr. Ryan, deceased.

Hon. Mr. Ryan, President of the Legislative Council, died at the Waverly Hotel yesterday. Mr. Ryan was the son of a British soldier who fought at Waterloo and lived until his 100th year. Mr. Ryan was born in King's County in 1821 and has been in public life a great many years.

Diseases of the Chest and Lungs.

These diseases are too well known to require any description. How many thousands are carried every year to the silent grave by that dreadful scourge, consumption, which always commences with a slight cough. Keep the blood pure and healthy by taking a few doses of Dr. Morse's Indian Root Pills each week, and disease of any kind is impossible. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as head, ache, partial deafness, loss of smell, foul breath, hawking and spitting, hoarseness, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, your have Catarrh, and should lose no time in procuring a bottle of NASAL BALM. Neglected cold in head results in Catarrh, followed by consumption and death. NASAL BALM is sold by all druggists or will be sent, post paid, on receipt of price (50 cents and $1.00) by address

FULFORD & CO., Brockville, Ont.

NEVER FAILS CURES COLD IN HEAD AND CATARRH

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

FRIDAY, APRIL 1, 1892.

Taxation.

To the Editor of the Examiner:

In your issue of Wednesday, a writer by the name of "Caius" does me the honour of criticising a letter of mine on "Re-adjustment of taxation." This letter had appeared in the *Globe*, in the *Empire* and in the Peterborough *Review*.

Before venturing to put before the public a plan of my own devising, by which the single tax might be made use of without its element of confiscation, I sought the opinion of Mr. Henry George, and of Prof. Ashley, of the University of Toronto, two famous economists. My object was to have a test of the soundness or unsoundness, scientifically speaking, of my proposed plan. Prof. Ashley advised me to have it published and Mr. George has thought the humble effort worthy of several letters to the writer. This is the excuse for appealing to you for space to reply.

It is, usually, not a satisfactory thing to battle with an anonymous writer but in this case, it is evident that "Caius" has thought over the subject and therefore it is a pleasure to discuss it with him.

The George theory holds that it is morally right to make the "unearned increment" or the increased value given to land by

THE SIMPLE GROWTH OF POPULATION,

the single or sole subject of taxation. (1) It is manifestly necessary in order to completely justify this position, to show that the guarantee given by the State to the land-purchaser, that his land should be subject only to the system of taxation existing at the time of his purchase, may be rightfully set aside. To set aside this guarantee of present property is confiscation, whether it take the form of single tax, succession tax or exemptions. And here it may be noticed that I am taking a stand upon the very principle of the thing, and not upon the simple rise or fall of land-taxes. The opponents of the single tax, as a rule, do not go so far as this, because strange as it may seem, they appear to be fully satisfied if all are made to pay taxes, the working-man and the land speculator alike.

Again, I take it for granted that the single tax *minus* confiscation is desirable. If it be desirable, and if it can be brought in without injuring

HONESTLY ACQUIRED VESTED INTERESTS,

that is, without molesting the guarantee above mentioned, it follows that it is our duty to make an effort to that end; (2) when the past or present purchasers of land bought, the understanding was that the personal property and the real property, then subsisting, should bear their proportions of taxes. There was no understanding whatever that houses built in the future should not be exempted if the popular vote thought fit to say so. It is well to remember and to clearly define this implied condition of purchase. The relations of each kind of property existing at the time of the supposed purchase to every other kind, shall not be changed so as to injure any one kind. But nothing requires us to say at the time of the supposed purchase that the relations of *future* acquired property of one kind to another kind shall not be changed.

If the people should say by their vote in January 1893, that all improvements made after that date should be exempt, the present law and principle of taxation would be in no way violated.

Then, having determined that in the future all

HOUSES OR IMPROVEMENT SHALL BE EXEMPT,

it is necessary that some plan be adopted so that taxes may be levied in a business-like way. As the single tax means a tax on land-values alone, obviously we should serve the tax papers upon the land-owners and have them pay all taxes. To prevent the confiscation we have been talking of we must give the land-owners money to pay all taxes put upon them except their own private ones. When this is done the single tax is in full play with respect to all future acquired property.

A few words more in reply to the criticism of "Caius." When I said that a distinction must be made between general improvements and those not general, I meant it once for all. The letter proceeds on this basis. In the phrase "one-third divided in two and *one-third* put upon each piece of land," the second "one-third" should, of course, be one-sixth. The *Globe* had it this way, but the *Empire* made the typographical error.

With reference to the statement of Caius that A, the owner of the old house, paid $150 for it, and that B, the owner of the new house will only pay $500, it is quite plain that the point involved is not the relative cost of the houses; it is whether A. got his money's worth as he understood it when he bought. That B. should have his new house free of taxes is beyond the contemplation of A. at the time A. bought.

"Caius" says that taxes do not regulate the real value of land. Suppose that they do not. That is not the question. The question is: Can *all* the taxes be put on land and yet leave the land only partially taxed as at present? But, lest he might think I am shirking a direct reply, I will say that everyone knows that when taxes rise the price of land decreases, and if the whole value of the land were eaten up in taxes, where would the speculator come in?

One more and I finish. In answer to his remark: "Under the present system the speculator would pay (for land) $500 and $10 taxes. Under the new system he would pay $460 and $12 taxes." Let us

CARRY THIS TO A CONCLUSION.

The speculator chains his capital ($40) up at 5 per cent. to pay his taxes. This is to him a great drawback. It is not speculation. The more capital he ties up for the benefit of the state, the better, at this moderate rate.

Not only is this an obstacle to the pure speculator, but the increased uncertainty of taxation also causes him to think that the holding of land unless he wish to use it, is poor business.

"Caius" has been betrayed into believing that the single tax would mean simply a lower grade of price for land. We do not care what it is if the people get their just dues out of it, and that is nothing less than the value they give it. A lower grade of price for land for manufacturing purposes is, I think, what we want, to emancipate labour and to take the very foundation of industry out of the hands of the mere land-grabber.

Your etc.,
J. HAMPDEN BURNHAM.
Peterborough, March 31st, 1892.

Satisfaction

Is guaranteed to every one who takes Hood's Sarsaparilla fairly and according to directions. This is the only preparation of which "100 Doses One Dollar" can truly be said.

PEDDLERS' HEADQUARTERS.

Scrap Iron and Junk.

Sermon to Foresters.

Full Summary of the Sermon Preached in St. Andrew's on Sunday, March 27th.

Rev. A. McWilliams, pastor of St. Andrew's writes as follows:—

DEAR EDITOR,—There being much that was special in a number of the churches last Sabbath, it was quite impossible that much space could be devoted to any one report. However, as some of these condensed reports convey wrong impressions, in fairness to myself, the society represented and the readers of your valuable paper, I yield to request and ask you to print a very condensed yet connected report of what was a somewhat lengthy sermon.

The text was Matthew, 23,8. "But be not ye called Rabbi, for one is your master, even Christ, and all ye are brethren."

As my remarks were to be chiefly on the last clause, I announced my topic as "The Brotherhood of man." I s tated by way of introduction that Christ in this 23rd chapter revealed to us the true character of the Scribes and Pharisees; they sat in Moses' seat—made broad their phylacteries, enlarged the border of their garments—loved to be called Rabbi. etc.; that he denounced against them an eight-fold woe, twice calling them fools and blind five times and branded them as serpents and vipers. Addressing the multitude he said in the words of my text, "Be not ye called Rabbi, &c." I stated that the text contained a prohibition urged by a two-fold reason. The prohibition, "Be not ye called Rabbi,"—the reasons "one is your master, even Christ," and "all ye are brethren." I dwelt for a few minutes first on the prohibition, stating that "Rabbi" corresponded very closely to the present "Doctor of Divinity." Did this then constitute a prohibition against this title at present day. It seemed to me not ,although such men as Albert Barnes thought that it did. It was quite evident that these Scribes and Pharisees in coveting and seeking these titles were arrogating to themselves the authority and honor due Christ alone and that by so doing they were also unduly humbling their brethren. Herein lay their sin. I showed that the Word of God did not prohibit such titles nor a certain honor being given these who faithfully discharged their duties, etc. Therefore while not prohibiting these titles literally, it did strike a mortal blow at that vanity and covetousness that would seek these titles, being unworthy of them, and therefore was a prohibition of all these spurious Ph D's, and even some D.D.'s, purchased for a few dollars from some American institution, which trafficked in the like. It also prohibited subordinates claiming the authority and honour that were due their superiors, and also forbade the humiliation of the brethren. It became every one then

TO EXAMINE HIS HEART

to see if there was any such pride or covetousness lurking as a viper in our bosoms, and if so to give all diligence to cast it out, lest it hurl us to hell, as it cast Satan and the fallen angels from Paradise to the lake that burneth with fire and brimstone. Then, in the second place, I noticed the reasons for this prohibition. First, "One is your Master, even Christ." I showed that scribes and Pharisees were robbing Christ of the authority and honour due him alone; then showed that it was vain and empty to claim such titles, seeing that at best they were mere school children in the A, B, C, when compared with the great Head Master, the Lord Jesus Christ. He alone was the only true Master. This title applied to Christ implied supreme knowledge and power to instruct; supreme authority and power to discipline, and the right to unqualified honour, etc. I stated that it would be instructive and interesting to consider at length the God-man Master as to-day He is exalted upon His throne, His unqualified knowledge, inherent in His very being, not obtained from any source; His perfect knowledge of all sciences, secular and religious, etc.; His right, power and manner of discipline, etc.; the moral hindrances to progress and the honour that is His due. But time would not permit us to dwell here, the plot was too wide, the mine too rich, from which to extract all the gold nuggets in one sermon, therefore, we would pass to the second reason, inasmuch as it had more direct reference to the circumstances under which we were assembled to-night. "All ye are brethren." I stated that this was the age of brotherhoods—some of divine, some of human origin—that there could be no limit to human brotherhoods, as all that was necessary to establish a brotherhood was to lay down a few principles and have a number combine together to propagate these principles, etc. Then we mentioned some of the brotherhoods of divine origin, first, the family, established by God the Father in the days of man's innocency in the garden of Eden, when he took His daughter Eva and gave her away to His son Adam, etc. The chief bonds binding the family together to-day was the marriage vow, the peculiar affection that exists between husband and wife, children and parent, and the bond of kinship, etc. The affection may be severed and the individuals scattered to the four winds of heaven, yet the bond of kinship remains to link them together as a family brotherhood. The second mentioned was the Church. The bonds uniting together are a common head, God the Father, Son and Holy Spirit, one God; the same constitution, the Holy Bible, the same common enemy, etc. Distinction was then made between the church visible and the church invisible, the church visible consisting all professing Christians, both the wise and foolish virgins, while the church invisible consisted only of those who were born again, only the wise virgins, etc. In the invisible church every member was united to the great head by the bond of the Holy Spirit, and subsequently to each other. This was an assimilating bond which

TRANSFORMED THEM INTO THE IMAGE

of the Great head, and consequently moulded their characters like unto each other, etc. The third mentioned was the kingdom or nation, the bonds being chiefly a common head—king, congress, etc., common constitution, etc., common purposes and interests. The fourth and last divine brotherhood mentioned was the "brotherhood of man" bound together by a common humanity. This was the brotherhood referred to in my text. "All ye are brethren." Now besides these brotherhoods of divine origin, I showed that many were of human devising and that some of these claimed to be founded on and agreeable to God's word, while others made no such pretences; of the latter I would have nothing to say, as not being in harmony with God's word were a curse to any nation in which they existed. But we find, I stated that many great and good men were opposed even to those that claimed to be agreeable to the word of God, etc. I said I could not answer their objections from personal knowledge of these societies, belonging to none, but I can lay down certain great principles which will guide us in our relation to such brotherhoods. First. Do they in any respect militate against the brotherhoods of divine origin—the family, church, nation or brotherhood of man? Second. Are they contrary to the spirit of God's word? If they do and are, then they deserve the execration both of God and men, as these are the touchstones by which all must be tried. The chief objections are threefold, they are secret societies, they militate against the church, depleting its treasury, injuring the attendance, etc., and again that they discriminate against their fellow man, refusing to admit those of delicate constitution, a medical examination being demanded, etc., thus defeating the very object of the society, namely charity, etc. Now, if true, these are serious charges, etc. Let us look at them.

First, they are secret societies. This objection is founded upon the general proposition "that all secrets are morally wrong." These societies possess secrets, therefore they are morally wrong, etc. I showed that the general proposition was not true, that all secrets were not morally wrong, that God both in the material and spiritual world conducted Himself on the principle of secrets, that between the father and the Incarnate Son there were secrets, that the Father hid things from his human Son, also from the angels, (Mark xiii, 32.) Christ also commanded secrecy and acted upon this principle. Matt. vi, 3, John xiii, 7, Acts i, 7, etc. See also Christ's conduct when on trial. I showed that secrets were essential under certain circumstances, etc. Therefore the general proposition upon which the objection is based is not sound. It is the nature or moral quality of the secret that makes it wrong, not the fact that it is a secret. Some have the idea that these societies possess secrets, secrets that are pledges to defend a brother under all circumstances, etc., defeating justice and doing others, outside of the Brotherhood, a moral injury. Are there any such societies? If so let them not request me to preach for them expecting commendation, etc., I would be a traitor to the cause of Christ. However, I am informed that there are in these societies no such secrets, they are merely distinguishing signs and therefore without any moral quality, etc. The second objection that they militate against the church, etc. There is probably some foundation for this charge. No doubt some have foolishly refused both to

PAY INTO THE LORD'S TREASURY

and to attend the meetings of the sanctuary, giving as the reason, the demands of these societies upon them—their gold and their time. The treasury of the Lord has the first claim, both upon our purse and ourselves, etc. There is no reason why we might not attend to both. There are those in this congregation who do so, who are liberal towards the treasury of the Lord, regular in attendance at all services and yet belong to some brotherhood. I see no reason why all might not do so. The objection is not inherent in the very nature of the society, but is an abuse, an abuse which you have in your own power to remedy, etc. The third objection noticed, was that they discriminated against their fellowman contrary to God's word, the universal law of love, the golden rule, the universal brotherhood of man, etc, and by rejecting the weak, defeated the very object for which they exist—charity, etc. Some of these societies are assurance companies, etc., others for a certain fee., promise to pay doctor's bill, to give certain allowance if sick and disabled, etc. That they may be able to do so notice must be taken of the physical condition else they would soon become bankrupt, etc. Does this compact, or the constitution of these societies prohibit or debar the members assisting each other, from also assisting all who are not members of the brotherhood? The objection implies this and is no objection without this implication. If there were any such prohibition the objection would be fatal, as it would be contrary both to the word of God and to the great divine brotherhood of man. But there is no such prohibition and therefore the objection fails. The probabilities are, however, that the imprudent conduct of some members in refusing charity to those outside of the brotherhood has given rise to this serious accusation. I added that time would fail to say more. That there have been abuses associated with some of these brotherhoods is more than probable from the nature of the charges and the sources from which they emanate. But we believe them to be abuses and not necessarily associated therewith. Must we then condemn because by some abused? Apply this test to the brotherhoods organized even by God Himself and which will stand? For are there not serious abuses associated with the family, the church, the state and the great brotherhood of man? Nay! for this reason we may not condemn unless the general tendency is to evil which may sometimes be true even when the principles upon which founded are righteous in themselves. Then if such be true, we must oppose. But we do not for one moment believe that the general tendency of the Canadian Order of Foresters is to evil, therefore we

HEARTILY WELCOME YOU AS A BROTHERHOOD

to St. Andrew's to-night; and I beseech you by the nature of your secrets, by your conduct in relation to the church of God and the word of His grace and by your charity, benevolence and sympathy to universal man, that you effectually silence every accuser and demonstrate once for all that you are not the enemy of the church, but that you are what you claim so be, her handmaid, assisting her to care for the poor, the widows and orphans, to nurse the sick and bury the dead. Again I appeal to you, that being members of the Canadian Order of Foresters, that you fail not to become true members of the Great Divine Brotherhood—the Church of the Living God. Her duty also it is to care for sick and needy, but preeminently to care for the immortal soul, to see that it is redeemed by the Precious Blood of Christ, washed, sanctified, transformed into the image of God, prepared to meet Him and to enjoy the celestial joys in all their plenitude in the golden city. "What shall it profit a man if he gain the whole world and lose his own soul?" Ah! how sad to find at last that while we have been members of Brotherhoods, the blessings of which pertain chiefly to time, that we have neglected to unite ourselves with the Divine Brotherhood—the Church of God, the blessings of which pertain chiefly to eternity; having ministered to others, ourselves a castaway, the Master's voice saying: Depart! depart! depart! Make then, O make your calling and election sure. Finally, go forward in the discharge of your sacred duties in harmony with the Church of the Living God and the word of His grace. Limit not your charity and benevolence to any human brotherhood, but while assisting each other, let your help extend as wide as the brotherhood of man. "All ye are brethren." If you do, God's benediction shall rest upon your society, widows and orphans shall rise up and call you "blessed," and by and by, when your work of mercy is o'er, the last want supplied, the last aching head pillowed, the last dead entombed, and you are called from these scenes of want, misery, sorrow and death, to the celestial city with streets all golden, illumined by Divine light, for the Lamb is the light thereof, the Master will meet you at the pearly gate, His commendation will be, well done! well done! good and faithful servant, inasmuch as ye have done it unto one of the least of these my brethren ye have done it unto me; enter ye into the joy of your Lord.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take. dw

If You are Going To Buy a Piano or Organ

don't fail to pay a visit to

JACKSON & Co.'s

ESTABLISHED

PIANO AND ORGAN WORKS,

360 Aylmer St., Peterborough.

Being extensive dealers in only Reliable and Standard makes of

GRAND, SQUARE AND UPRIGHT

PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant tonch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS,

AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that **we positively will not be undersold.**

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

All kinds of Instruments Tuned or Repaired on short notice.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—168 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not clean this Belt with the humbug combinations of leather and moth with which the country is being flooded. If you wish to experiment with cheap articles, pay THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. ed w

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

An Easy Day for the Reporters.

To-day being All Fool's day, everyone laboured under the impression of the many advantages and privileges which he or she enjoyed thereby, strove to use them to the best possible advantage on others. The reporters reaped a harvest. It was a gala day for news and items of all nature and kinds. Strange, entrancing, thrilling, wonderful, sensational and blood-curdling events and episodes were numerous. They happened thick and fast, coming from every side and at all hands. Many were the accidents, runaways, burglaries and elopement that occurred to-day, and marvellous to relate everyone knew all before the guileless knights of the fourth estate heard anything of them at all. In very truth, it was a great time for the news-gatherers, and many a day will doubtless elapse before the knights of the pencil will have the opportunity of relishing such a feast as they did to-day.

A New Departure.

THE FATHER MATHEW REMEDY.

Is a certain and speedy cure for intemperance, and destroys all appetite for alcoholic liquors.

It is at the same time a febrifuge, a tonic, and an alterative. As a febrifuge, it drives away the internal fever which consumes the intemperate and gives him a craving for liquor; as a tonic, it restores to a healthy condition his stomach and his liver, which are almost always out of order, and builds up his nervous system; as and alterative, it makes a new man of him. 1d

Look Up Your

Spring overcoats or suits, and have them cleaned, or dyed and repaired at PARKER'S Dye Works.

All shades of silks at Armstrong's for 25c. per yard—396 George street. 4178

Digit Missing.

Another slight accident happened yesterday in the Peterborough Lock Works. Mr. W. Brenton, an employee, had the misfortune to lose part of the index finger of the right hand. He was working a trip hammer when the belt broke, letting it down on the digit.

A Lakefield Millinery Opening.

The Misses Hoolihan & Sullivan, of Lakefield desire to announce that they are holding their millinery opening, and are showing a splendid stock of fashionable millinery and choice fancy goods. The display richly merits inspection. Call and see it. 3176

Prof. Kemp, who has been before the American and Canadian public for a number of years, as a practical phrenologest, is at present at the Cardwell Hotel. Prof. Kemp guarantees to give you better satisfaction, and can prove by the sworn statements of many people that he understands his profession and can give a more practical and perfect delineation of character than any phrenologest that ever travelled through Canada, with the exception of Prof Fowler. 6176

A Slight Blaze.

At a quarter to ten o'clock last evening an alarm of fire was sounded from the central office. The fire brigade quickly responded to the call of duty. The scene of the fire proved to be in the Otonabee Roller Mills, H. A. Mulhern, proprietor. Something got into one of the rollers of the mill on the first floor and started an incipient blaze. The fire which did not burst out from the roller was quickly extinguished by a pail of water, thrown on it by Mr. Frank Armstrong, night miller.

Progressive Belleville.

Belleville is making a move which, if carried out, will place them one lap ahead of Peterborough. The council has decided to purchase a street cleaning machine at a cost of about $450, whose cost it is estimated will be saved in the lessened expense of street cleaning, in two seasons. Belleville however, is very far behind Peterborough in one matter. The council has just taken up the subject of putting up placards bearing the name of streets, and numbering the shops and houses.

Another Accident This Morning.

Mr. John Masters engineer in Mr. D. Bellegham's cabinet factory met with a painful accident this morning. He was starting a pump of the engine, when the large driving belt slipped and struck him on the head, knocking him violently against the wall. Mr. Masters received a severe cut on his forehead. It was three or four inches long and quite deep. The injured man's wounds was dressed by Dr. Clarke who put several stitches in the ugly gash. Mr. Masters will be incapacitated from work for some time.

The Market Changes Hands To-Day.

Mr. R. H. Green, the new market lessee, paid over his first quarter's fees to the town yesterday. He assumed control of the market to-day. The veteran, John Doherty, relinquished possession yesterday afternoon after having charge for over thirteen years. It is to be hoped that the same courtesy and attention will be extended to the new clerk by both buyers and sellers alike as was given the retiring lessee. Mr. Green has many friends who will wish him all success and prosperity in his new venture.

Card of Thanks.

In retiring to-day from the position of Market Clerk of the Town of Peterborough, which I have held for the past thirteen years I desire to return my very sincere thanks to the farmers and farmers wives of the counties of Peterborough, Victoria, Northumberland and Durham who have frequented the market during that time, for the kindness and courtesy which they have always extended to me.

It affords me great pleasure to be in a position to state that during that long period I never had occasion to bring a single case before the police court.

Hoping to meet many of my old friends again.

I remain, yours faithfully,
JOHN DOHERTY,
Peterborough, March 31, 1892. 1d1w

A Large Plate Glass Broken.

This morning a few minutes after eight o'clock as two young boys named Gordon and Desautel were on their way to the Murray street Separate school, they stopped in front of Mr. A. Clegg's furniture shop to spin a large wooden top. Young Desautel was spinning the top on the sidewalk when Gordon kicked it off the walk. This made Desautel angry and he clinched Gordon, and giving him a shove sent him reeling backward through one of the large plate glass windows in front of Mr. Clegg's shop. The lower portion of the plate glass which will have to be replaced, was smashed into a thousand pieces. The young lad was not cut. The plate glass, which is valued at $80, is fully insured in the Hand and Hand Company, W. H. Hill, agent. Mr. T. Bradburn owns the building.

Three Days of Brightness, Beauty and Bargains.

These three days will be Wednesday, Thursday and Friday, March 30th, 31st, and April 1st, being the days fixed for the grand opening of Miss Delaney's millinery and mantle show rooms, for the spring of 1892. Miss Delaney has determined to make these three dates brilliant opening days, the best she has ever attempted. In her beautiful show rooms ladies will find displayed millinery from the world's fashion centres, the work of the nimble fingers of French artistes, backed by the choicest that the best trimmers in Canada can supply. Paris, English and New York pattern bonnets and hats, flowers, ribbons, veilings, etc., in lovely variety, and unusually attractive. Mantles, wraps, jackets, tweed and plain melton cloakings with venetian finish, jet trimmings, etc., and other novelties in profusion at very special quotations. Miss Delaney has spared neither time nor expense to make this season's display attractive to a degree. She has personally visited the large millinery openings in New York and other cities of fashion in the United States, as well as in Montreal and Toronto, the latter city three times this season, and is therefore thoroughly conversant with all the latest leading fashions of the day, and confidently invites the inspection of ladies on the above dates. 5374-1w13 MISS DELANEY.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Another County Case.

An Attempt at Highway Robbery in Ashburnham—The Case Comes Up.

Another case from Ashburnham is in process this afternoon at the court house before County Magistrate Ermison. On Wednesday evening as Mr. Jas. Cumming was proceeding on his way home about ten o'clock in the evening, he stopped in the hall of the Morgan House to pay a gentleman a couple of dollars which he owed him. Mr. Cumming had $170 in his possession, mostly in ten dollar bills. He took the cash out of his pocket to find a small bill with which to pay his debtor. Mr. Cumming could only find a one dollar bill. He gave the man this and said to him, "I will give you the other dollar to-morrow." Mr. Cumming then proceeded on his way home when he was met near the corner of Elizabeth and Lake streets in Ashburnham by James Finie, who rather excitedly asked him for a match. Cumming complied with the request, Finie took the match, turned quickly around, and started to walk away. Before Cumming had time to start off he was struck violently in the chest with a large stone by Finie, who sent the missle like a flash. Cumming was knocked back a few feet, but while heavily struck, he did not fall to the ground. He then made a dash at his assailant to catch him by the coat collar to administer a sound thrashing, when Finie broke away and decamped. Cummings gave chase but the pursued fled into a yard near by and could not be located. Cumming's secured a lantern and with the help of Fred Cameron and young Tivey they discovered the missing one in a hay loft. Constable Craig was sent for and Finie was lodged in the lockup after considerable exertion on the part of the constable. Yesterday morning he was brought up before John Wood, J. P., who fined him $2 for being drunk, but on the charge of assault he received no punishment for some reason or other. Yesterday afternoon Cumming swore out a warrant before County Magistrate Edmison for Finie's arrest. He was brought up and remanded to gaol until this afternoon. The case is in progress this afternoon. When searched by Constable Craig after being arrested, prisoner had three large stones in his pocket. The complainant thinks prisoner saw him take out the money in the Morgan House and went out before him and meeting him as if by chance in Ashburnham intended to stun him by the stones in order to relieve him of his cash. Mr. Cummings thinks that Finie intended to strike him in the temple with the rock but missed his aim.

Go to Jos. Armstrong's for kid gloves—396 George street. 4178

Ladies.

A pin in your brooch costing only 5 cents, at WYATT'S. If broken within three months will be replaced free of charge.

License Commissioners.

The License Commissioners met this morning and organized. They elected Mr. Robt. Walton, chairman. The board adjourned to consider applications for licenses until April 19th.

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

The Latest Yet.

W. C. Kirk has bought a lot of mixed tea, a bankrupt stock, good sound tea, which he offers at 15c. per pound in twenty pound boxes. You surely cannot get better value than that; don't think because the price is so low that the tea can be no good; I guarantee it. W. C. Kirk, Ashburnham. Telephones, Ontario No. 6, Bell No. 312.

Salvation Army Events.

Staff-Captain Cox will arrive in Peterborough to-morrow from Toronto by the C. P. R. A reception will be rendered her on her arrival in town at 11.45 o'clock by the local corps. There will be a grand procession of the principal streets of the town in honor of her arrival. Dedication services will be held at the barracks, Simcoe street on Saturday night. It will be the seventh anniversary of the Salvation army in Peterborough. On Sunday afternoon there will be an enrollment of recruits, those members of the army who have lately joined the ranks. On Monday evening Staff Capt. Cox will give an interesting lecture on "Special leaves from a note book." Miss Cox will be in town three days. Her coming is looked forward to with interest and rejoicing.

The Monaghan School Dispute Settled.

The residents of North Monaghan have for a long time past been in dispute about the school section No. 2, North Monaghan. The school, is situated near the old toll gate about a mile from the town, and it was claimed that it was not in the centre of the section, that a site farther down should be selected and a new school house erected. A school meeting was held on Tuesday to settle the long continued dispute. Mr. W. Collins occupied the chair, and Mr. W. Eastland was chosen secretary. The strife continued, and a poll was demanded by the residents of North Monaghan and an open vote taken in reference to the matter. The southerners carried the day by 51 to 35, and with it the new site for the school. A site near Mr. May's has been selected, and it is expected that the new school will be erected at once by the trustees.

The "Rudge" Endorsed and Recommended.

The following testimonials give evidence of the leading position held by the "Rudge" bicyles, of which Mr. A. H. Stratton, Peterborough Bookstore, is the agent for this district:—

PETERBOROUGH, Nov. 24th, 1892.

Messrs. H. P. Davies, Toronto:

DEAR SIRS.—The "Rudge" Machine, which I purchased from your agent here, has given me entire satisfaction. Have ridden nearly all makes of wheels, and am satisfied the "Ridge" takes the lead.

Yours truly,
ALEX GIBSON,
Ex-Capt. Peterborough Bicycle Club.

GENTLEMAN:—The "Rudge" Machine which I purchased last season from your Agent here, has proved satisfactory in every way, and I consider it the best wheel on the market to suit Canadian roads.

Yours respectfully,
J. E. DOLAN,
Secretary Peterborough Bicycle Club.

Place your orders early. Terms easy. Monthly payments accepted.

A. H. STRATTON, Agent.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection of this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. R. STRATTON.

News Nuggets.

—Did you get fooled to-day?

—A mendicant slept in the cells last night.

—There was a blank on the Chief's slate again this morning.

—To-day was pay day in the Street and Bridge department.

—A meeting of the Board of Trade will be held next Thursday night.

—The Supervision Committee of the Board of Trade held a meeting last night.

—A west-end resident reports seeing a butterfly flitting about this morning.

—From present indications Peterborough will have plenty of sports this summer.

—The defective planks in several of the sidewalks are being replaced by new ones.

—A great number of canoeists are beginning to get ready their crafts for the summer.

—The Rifle Association will elect officers for the coming season at the drill shed on April 4th.

—A tramp was sent up for three months in Belleville yesterday, by Magistrate Flint, for begging.

—A Hebrew, hailing from Toronto, will open up a ready made clothing store on George street about the 20th prox.

—The directorate of the P.A.A.A meet at the Olympic club rooms on Tuesday night for the election of officers for the coming season.

—Four candidates received the third degrees at Peterborough Lodge, No. 111, I.O.O.F. last night. There was a large attendance of members.

—A great many sea gulls and wild ducks are seen hovering around Little Lake during the present weather. Sportsmen are trying to get a crack at the gulls.

—The firemen continued to play a stream all day yesterday on the smouldering ruins of Mann's Woollen Mills. This was done in order that the sidewalk, canal or crib work might not catch fire.

—The Wm. English Canoe Co. shipped two cases of basswood canoes to Reading, England, on Wednesday. There were ten canoes in all. They were forwarded to some old country gentlemen.

Sewerage.

To the Editor of the Examiner:

SIR,—I was glad to see the letter of "Stinks" in your paper. He is more than right. I know a man and his wife who have been prostrated with malaria all winter. He complains savagely of the stupidity of our citizens. For the sake of health let us begin at least.

Yours, etc.,
DESPAIR.

Mr. and Mrs. Frederick Rejoice Because

Hood's Sarsaparilla Rescued Their Child from Scrofula.

For Scrofula, Salt Rheum, and all other foul humors in the blood of children or adults, Hood's Sarsaparilla is an unequalled remedy. Read this:

"We are so thankful to Hood's Sarsaparilla for what it did for our little girl that we make this statement for the benefit of other anxious parents and

Suffering Children

Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We consulted one of the best physicians in Brooklyn, but nothing did her any good. The doctors said it was caused by a scrofula humor in the blood. Her head became

One Complete Sore

offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or energy. The sores caused great itching and burning, so that at times we had to restrain her hands to prevent scratching. For 3 years

She Suffered Fearfully

with this terrible humor. Being urged to try Hood's Sarsaparilla we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to subside, the itching and burning ceased, and in a few months her head became entirely clear of the sore. She is now perfectly well, has no evidence of the humor, and her skin is clear and healthy. She seems like an entirely different child, in health and general appearance, from what she was before taking

Hood's Sarsaparilla

E. W. FARNHAM, 311 Clenmore Ave., East New York, Brooklyn, N. Y.

This Testimonial

is an illustration of what Hood's Sarsaparilla is doing for the sick and suffering every day, from Maine to California. In the light of these facts who can say that the work of an enterprise concern like ours is not beneficent?

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

The Great English Game.

The Annual Meeting of the Peterborough Cricket Club Held Last Night—Officers Elected for the Ensuing Year—Great Enthusiasm Manifested—A Rattling Season in Prospect.

The annual meeting of the Peterborough Cricket Club was held last evening in the Olympic Club Rooms. The following gentlemen, well known cricketers and interested in the success of the club for the coming season, were present: Dr. Burnham, Messrs Sam Ray, T. H. Dumble, Fred Hasp, W. J. Drope, R. Bradburn, W. D. Parker, W. J. Montgomery, R. B. Boucher, A. Crofton, Walter Stocker, Dr. Brennan, H. Bell, B. R. B. Rogers, Beers, and others.

Dr. George Burnham, president of the club, occupied the chair. Mr. R. B. Rogers was elected secretary *pro tem.*

The chairman in opening the meeting said that he hoped the cricket season in Peterborough this year would be highly successful. There was no reason why the sport should decline after a successful period of seven or eight years, as it did last year. He hoped the practice matches, which are held twice a week, would be attended by full teams this year, and not by six or seven players as formerly. The town had good material, many of the young men were taking interest in the game, and there was no reason why the club and the game should not prosper as in days of yore. One of their number, Mr. Boucher, had won the prize for the best average bowling during the season at Trinity College School last year. The members would elect their officers and the advisability of engaging the services of a professional coach for the season would be considered and discussed. The election of officers was then proceeded with and resulted as follows:

HONORARY PRESIDENT—Mr. A. C. Dunlop.
PRESIDENT.—Dr. Geo. Burnham.
FIRST VICE-PRESIDENT.—Rev. V. Clementi.
SECOND VICE-PRESIDENT.—J Hampden Burnham.
SECRETARY.—W. J. Montgomery.
CAPTAIN.—Sam Ray.
COMMITTEE.—Messrs. Sam Ray, W. D. Parker, W. A. Stratton, T. H. Dumble and R. B. Boucher.

The matter of engaging a professional coach was then considered and discussed at length. Several of the members thought that the club could prosper as well as when Jas. Norley, Henry Day and Chas. Attewell were the professional coaches. These coaches were all good cricketers and were first class bowlers and ground men.

Moved by W. D. Parker, seconded by Sam Ray that the services of a professional coach be secured if funds can be raised or guaranteed—Carried.

The following were appointed a committee to raise a guarantee fund for such a purpose: Messrs. T. H. Dumble, R. B. Boucher, P. Goldsmith, W. Stocker, W. J. Drope and W. J. Montgomery. The meeting then adjourned.

NOTES.

The cricket grounds will be put in first class shape at once and practice began as soon as the weather permits.

In all likelihood the services of some good coach in Canada will be secured for four months. The secretary has the names of several who are highly recommended.

The attendance at the meeting last night was the largest known for a cricket meeting in years.

$5.00 Per Month—Medicine Free.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5 00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5.00 per month and medicines free.*

These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by mail but at least one personal interview is preferable.

All correspondence should be addressed to Mr. John Murry, Manager, 271 Jarvis street, Toronto]

Charity Concert

Held in Ashburnham Town Hall last Evening was a Great Success—A Large Attendance and a Fine Programme.

The Charity Concert held in the Town Hall, Ashburnham, last evening was a flattering success. The audience was the largest which that building has seen in some time. No less than 400 persons could have patronized the event of last night. The chair was taken at eight o'clock by Mr. Harry Strickland. In opening the evening proceedings, in a neat speech he thanked those present for their kindness in patronizing an event of the character, and expressed the hope that all present would enjoy themselves.

The first number on the programme was an instrumental solo, executed in fine style by Mrs. E. A. Peck. A song entitled "Ivory Gates and Golden" by by Mrs. H. Stapleton, merited the plaudits received. Mr. C. N. Brown then gave a fine Irish reading in the rich emerald brogue, entitled "Dolly Valaghy's School." Miss Eva Tivey sang "Katie's Letter" with splendid effect. Mrs. Stapleton again favored with a solo, well received. Then came the laughable farce of the "Irish Broom-maker." This is the second time that the play has been presented to an Ashburnham audience, and yet judging by the way in which the four act comedy was received last night, they are not tired of it. Following are the cast of characters and the players:—

Sir Ralph.....A. Gaskins
Walter Loveless.....J. J. Turner, jr
Dr. Frantic.....R Wilson
Dennis Murphy, the Irish Broom-maker..F. [Packenham
Squire Roberts.....A. Gaskins
Dick, the servant.....Thos. Bush
Laura, Sir Ralph's daughter..Miss Minnie [Armstrong
Peggy, her maid,.....Miss B. Armstrong
Bridget, wife of Dennis....Miss Lizzie Long

After the presentation of "The Irish Broom-maker," Mr. Roland Tivey gave a recitation and a vocal duet by Miss Lizzie Long and Mr. J. J. Turner, jr., was the closing event on the programme which throughout its rendition evoked prolonged applause from the delighted audience. At the close votes of thanks were tendered those who in any way helped to make the charity concert such a grand success, either by lending it their patronage or contributing to the programme. The committee who carried the venture to a successful issue and to whom in a large measure the credit of the success of last evening's entertainment is due was composed of Mr. Frank Packenham, Misses Eva Tivey and Maggie Calcutt.

Personal

The numerous friends of Mr. A. P. Pousette are glad to see him out again after his recent severe illness.

Rev. Wm. Edwards of Omemee was in town yesterday. He called on the Rev. J. C. Davidson, rector of St. John's.

Mr. R. M. Rey, town, gives an illustrated lime light exhibition "From London to Rome" in Port Hope next week.

Miss Sophie Cameron, Peterborough, took part in a grand concert given in the Presbyterian Hall, Port Hope, on Wednesday evening.

Troopers Ronald, Cockburn and Heyward, left yesterday morning for Quebec city where they will each take a three months course in the Dominion Cavalry School.

Mr. H. M. Wood, the second coming apostle left for Port Perry this morning, where he will deliver an address to-night. From Port Perry he will go to Kingston.

Mr. Vernon Halliday, son of Dr. Halliday, and Mr. H. C. Wason, brother of Mrs. W. A. Sanderson, passed their final examinations in medicine at McGill College at the recent examinations.

Mr. Robert Pierce of Brantford, who has been the efficient team instructor of the Peterborough and Otonabee Lodges, I O O F. for the past seven months, leaves for his home in Brantford to-morrow.

At the meeting of the Presbyterian Home Mission in Toronto yesterday, Messrs. A. J. Mann, Albert Mahaffy and J. L. Hargrave were appointed probationers for mission work in Peterborough county.

There Are Others,

But the barber shop you, reader, want to go to is BILLY MORGAN'S, the high-class barber, at 436 George street.

The Boom is Growing Fast and Furious.

Orders are pouring in from all parts of the town and province for our "G. C." brand of hams, bacon and spiced meats, bologna sausage and lard. Take good care to get our make, and you will have no other.—GEORGE CARTON, and

The Ladies Delighted.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasant to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver and bowels.

The Second Coming of Christ.

Mr. H. Myddleton Wood, of the Catholic Apostolic Church, Toronto, addressed a rather small meeting in the hall in the opera house block last night, as he gave notice of on Tuesday night last. Mr. J. G. Brisley, Ashburnham, a member of Mr. Wood's creed, occupied a seat on the platform. Mr. Wood opened the meeting with prayer. He said that judging by the attendance it looked as if he had spoken the truth on the two nights previous. The truth was hard and searching, many could not bear it. It had driven large numbers away. Tonight he would speak the truth to the few that were present, and try to drive them away, for it was only those who feel in their spirit that they hear the truth, that will stay to hear more about it. He said many might ask him his views on this work but he had no views. He was only speaking the truth which had been taught him by the Lord's Restored Apostles. When the Lord began to say hard truths to the multitudes who followed him they forsook Him. He was not an apostle but was simply serving under the restored church of Christ's Apostles. He had a message to deliver which he had to do whether many or few listened to him. Christ had sent him to do this and he had to do it.

During the evening a number of questions were asked Mr. Wood which he answered from his standpoint and view of the several questions which were propounded.

Gone Back to Their Old Love.

Gough Brothers Goods Re-occupy the New-Old Shelves.

Gough Bros. are always on the move—and every move is ahead. At least this has been their record in the past, as the champion clothiers of the county. But they have gone back on their record, but only in the sense of moving their stock back to the premises proper, from the temporary quarters they have occupied while the improvements to their shops have been going on. These premises though not yet brought to the full degree of splendour they are to receive, are ready for their stock, which has been moved back and is now ready for the public. And what a stock it is—in its profuse excellence and marvellous obesqueer, it is leagues ahead of anything ever before attempted or accomplished in the clothing line in the Midland District. Their double store is worthy of a visit. On one side a magnificent stock of every kind of boots and shoes required by women, men, misses and children. On the other the grandest collection of clothing ever brought together in the public interest. The only way to appreciate it is to see it. You might read about it till your eyes grew dim with age, and you could form no idea of it compared to what actual inspection would give. Everything in the clothing line that mankind requires. Go and see.

Clearing Sale of Groceries.

As I am going extensively into liquors, I find it necessary to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. MORROW, 340 George street.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore d

DIED.

REGAN.—On Tuesday morning, March 25th, 1892, at 14 Clinton street, Toronto, Jeremiah Regan, fourth son of Richard Regan, formerly of Chandos.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the

ACROSS THE ATLANTIC.

ELECTIONS IN ENGLAND ANNOUNCED FOR JUNE.

Further Concerning the Murderer Deeming—Has Germany Solved the Problem of Aerial Navigation—Collided Off the Isle of Wight.

ST. PETERSBURG, March 30.—The presence of balloons over the forts and encampments in Poland is becoming more frequent than ever, and is causing much indignation among army officers, who are helpless to prevent military secrets from becoming known to the German officers, who are known to be taking observations from a height that places them beyond the reach of any bullets aimed at them.

One of these balloons from the German frontier recently appeared at Kovno. It hovered above the fortress there until the officer in command became so exasperated that he ordered some of the soldiers to fire at the balloon and if possible to bring it to the ground, but the range was too great.

The Germans continued their observations and when they had concluded they returned whence they came.

It is believed that the Germans have at last solved the problem of aerial navigation.

These balloons that have appeared over various places in Poland are under perfect control. They move in any desired direction, and the wind currents have no perceptible effect upon them.

In the Evening By the Bright Light.

A few nights ago inhabitants of Warsaw were startled by an intensely bright light that fell from the sky upon the city. Nothing could be seen save a path of light that ended in a small focus.

Suddenly the ray of light swept in another direction, and when their eyes became accustomed to the darkness that followed they could see far up in the sky a balloon.

Then it was seen that it was an electric search-light that had caused the brilliant illumination and that the Germans were continuing their observations of Russian defences with its aid.

The light was extinguished and the balloon, heading westward toward the frontier of Prussia, disappeared.

Later another balloon was seen over the Proushkorf Railway Station. It remained stationary for a time and then started in the direction of the fort works near Kelets, where it hovered a while, when it returned across the frontier.

The Frontier Dotted With Them.

Reports of similar occurrences have been received from Sosnovitsy and other places along the frontier.

Russian officials say that with with manageable balloons the whole system of warfare will be changed. It is self-evident that none of the present fortifications would be able to withstand an attack from above them. Shells could be dropped with almost unerring certainty and no city could defend itself from an enemy far up in the air beyond the reach of any missile. Even modern cannon with their great range could not at present be used against balloons, for the reason that gun carriages have not been made that will allow of a perpendicular elevation and the falling shot might prove disastrous.

In Time of Peace, Etc.

BERLIN, March 31.—The Reichstag today passed the bill allowing the Government to declare a state of siege in Alsace-Lorraine in the event of war. The House also passed a credit for the construction of a complete system of strategic railways.

Collided Off the Isle of Wight.

LONDON, March 31.—A collision, resulting in the loss of 14 lives, occurred yesterday off the Isle of Wight.

The British bark Falls of Garry, from San Francisco for Havre via Queenstown, came into collision with the British steamer Thetis. The Falls of Garry was cut nearly in two and sank almost immediately. Fourteen were drowned. The Thetis was considerably damaged.

LONDON, March 31.—It is stated semi-officially that the general elections for members of the House of Commons will be held in June or July.

Great Fire In India.

RANGOON, March 31.—A great fire is raging in Mandalay.

Three-quarters of the town is already destroyed, including the new telegraph office and the old palace.

Great loss of life is reported.

Missionaries are Now Safe.

LONDON, March 31.—The Chinese Government has garrisoned all the mission districts in China and has promised to severely punish the perpetrators of ony futnre outrages.

A Dacoit Victory.

RANGOON, March 31.—A small British force operating on the Kankkive River had an engagement with the natives and were defeated. One soldier was killed and six were wounded.

Manners of the Olden Days.

Some of the ancient table directions are very quaint. You are told, for instance, not to eat much cheese, not to leave your spoon in your platter, not to play with your knife or roll your napkin into a cord or tie it into knots; only to take two or three nuts when nuts are on the table, and not to get intoxicated during dinner time. The "Boke of Curtasye" also warns people not to play with the cats and dogs while at table.

The hour for dinner underwent several changes. About 1400 it was 10 a.m. Henry VIII. dined at this time and supped at 4. In the sixteenth century dinner was at 11, breakfast at 7 and supper at 5 or 6. In the following century meals were an hour later.

Disraeli tells us that in the reign of Francis I. of France folks rose at 5, dined at 9, supped at 5 and went to bed at 9, which, according to a popular saying, made them live to the age of ninety-nine. Louis XII., it is said, hastened his death by altering his hours to please his young wife; instead of dining at 8 a.m. and going to bed at 6 p.m., he took to dining at noon and often sat up till midnight.

Mr. C. Harper, Ottawa, Ont., writes: "I have pleasure in stating that your Pink Pills are a wonderful tonic and reconstructor of the system. Since beginning their use I have gained on an average a pound of flesh a week. I have recommended them to a number of my friends, who declare that they are the only medicine that they have ever used that do all that is claimed for it. Sold by all dealers. dw

Canada's Wonder.

The more it is known and the further it is carried to distant shores the greater grows the wonder. All nations and tongues declare St. Leon perfection to assist digestion, purification of the blood, the assimilation of the food, circulation and promote healthy vigor of life-long. St. Leon Water has no compeer. For sale all over. dw

One Woman's Small Worry.

"One of the small things that vex me," said a woman the other day, "is the persistent 'lady'-ing I get at the hands of the tradesmen. My butcher and grocer and fishman are so hopelessly committed to this form of address I expect no relief in their cases, but why the clerks in the dry-goods shops are not taught better I cannot see. It is so much more pleasing to be called 'Madam'; the continued interpolating of 'lady' as I am making a purchase irritates me to the verge of exasperation, and has on a few occasions driven me from a counter without waiting to select the goods I wanted."

Notes for Women.

Two thousand women became artists in the year 1891.

Two hundred women are practicing law in the United States.

Florence Nightingale finds the grippe making it hard for her, at the age of seventy-two.

A correspondent of the Critic reports that Mrs. Ward, author of "Robert Elsmere," is firmly opposed to Woman's Rights.

A woman, Miss Eleanor Ormerod, leads the entomologists of England. Her first studies were inspired by the exposure of her father's grain.

Christine Nilsson's return to her native country of Sweden as wife of the Spanish Ambassador, the Count de la Casa Miranda, rounds out well her romance of real life She was a farmer's child on the hills when her gift of song was discovered, and after a most fortunate life as queen of song on two continents she returns as a member of the Swedish court.

It is not theory but fact—that Hood's Sarsaparilla makes the weak strong. A fair trial will convince you of its merit.

News About Town

It is the current report about town that Kemp's Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles cost 50c and $1. dw

Pleasant as Syrup

Mr. Douglas Ford, Toronto, states that Milburn's Cod Liver Oil Emulsion with Wild Cherry Bark is free from objectionable taste, being almost as pleasant as syrup, while for coughs and colds it gives complete satisfaction, acting promptly even in obstinate cases. dw

Some symptoms of worms are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

THE BEST FAMILY PILL IN USE

FOR SALE BY ALL DEALERS

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

The Travellers' Safe-Guard.

AMAGADDUS POND, N.S., Jan. 27, '90.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—For many years, I have been a firm believer in your "Dr. Morse's Indian Root Pills." Not with a blind faith, but a confidence wrought by an actual personal experience of their value and merit. My business is such that I spend much of my time away from home, and I would not consider my travelling outfit complete without a box of Morse's Pills. Yours, &c.,
M. S. MCINNIS.

"German Syrup"

Croup. We have selected two or three lines from letters freshly received from parents who have given German Syrup to their children in the emergencies of Croup. You will credit these, because they come from good, substantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their most critical hours, safe and sure that it will carry them through.

ED. L. WILLITS, of Alma, Neb, I give it to my children when troubled with Croup and never saw any preparation act like it. It is simply miraculous.

MRS. JAS. W. KIRK, Daughters' College, Harrodsburg, Ky. I have depended upon it in attacks of Croup with my little daughter, and find it an invaluable remedy.

Fully one-half of our customers are mothers who use Boschee's German Syrup among their children. A medicine to be successful with the little folks must be a treatment for the sudden and terrible foes of childhood, whooping cough, croup, diphtheria and the dangerous inflammations of delicate throats and lungs. ●

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cumines, Esq., a leading druggist of Welland, Ont., speaks for itself:
MESSRS. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMINES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

Political Proverbs.

A politishun haint mutch use fer wings.

The devil is lookin fer preachers in politicks.

You can't allus tell a pattriot by his clean shurt.

Our best wimmen let ther husbands run the country.

Good clos don't make a statesman, moren bad ones does.

A new M. P. gits the sam knocked outen him purty quick in Ottawa.

Thare pattriots that'll bear watchin when the stabel door ain't locked.

A Commoner that kin talk and will talk ought to be made to shut up.

When a man thinks he aint abel to hold a offis he's heddin tords a lunatic asilum, shore.

Postponing Beatitude.

Tommy had been unusually naughty that day, and his mother had reproved him a dozen times, including once or twice with a slipper, but he was bad again and she took him in hand once more.

"Oh, Tommy, Tommy," she pleaded, with tears in her eyes, "don't you want to be a good little boy and go to heaven when you die?"

"Yes, mamma," he replied, stubbornly, "but not this afternoon."

Rough on Mrs. B——.

Mrs. B——(who has youthful pretensions in spite of the almanac)—"Oh, I do like this hat so much; it is awfully becoming. I think it makes me ten years younger. Don't you think so, my dear?"

Mrs. A——(who is a mean young thing)—"Yes, indeed, my dear; with that hat on you don't look over 45."—New York Herald.

Too Close.

Mr. Lotos—"Have you any idea what are the relations between that young Rivers Ide and our Eena?"

Mrs. Lotos—"I don't know; the young people seem to be very close-mouthed."

Mr. Lotos—"H'm; so I thought when I discovered them on the parlor sofa this evening."—Puck.

Economy.

Mrs. Trotter—"I hear that all three of Mrs. Barlow's children have the measles."

Mrs. Faster—"Yes; so I understand. They're so poor that they have to economize on the doctor by all getting sick at once."—Judge.

Unheard-of Threat.

Fweddy—He awsked me if I had a chaperon! Baw Jove, I'm going to give him a piece of my mind.

Cholly—Do it! It will paralyze him, ole chappie—it will paralyze him!—Chicago Tribune.

Corroborative Evidence.

"I consider the pen mightier than the sword," said McFeeder, as he transferred the last two pieces of pie to his plate.

"I don't doubt it," said his meek little wife. "Your habits at the table make it seem very probable."

The Biggest Ones.

Mr. Collarbutton (reading from an engineering journal)—"Some of the biggest dams in the world are in California."

Mrs. C. (meekly)—"I've heard some very large ones around here, Hiram."

He Ought to Be.

Merchant (to applicant for position of bookkeeper)—Are you good at figures?

Applicant—Well, I ought to be; I kept books in a dressmaking establishment for five years.

His Reason.

Mrs. Cobwigger—Why are you so particular about having a folding bed for your new house?

Mrs. Malaprop—To match the folding doors.

Easy of Comprehension.

Berinice—Didn't you find it hard to believe that Violet married for money?

Beatrice—No, my dear. It wasn't as if I'd been told she married for love.

Would Not be Without it.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it; druggists keep it. W. A. DYER & Co., Montreal. 6d74

The Head Surgeon

Of the Lahen Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, aimiations, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUSON, 24 Macdonell ave., Toronto, Canada.

Ladies appreciate Anti-Dandruff from the fact that it not only thoroughly removes dandruff with three applications, but stops falling of the hair, restores faded hair to its original color, and makes it soft and pliable without leaving any indication of a dressing being used—clear as crystal, clean to use, it is a valuable toilet preparation. dw

THERE is no one article in the line of medicine that gives so large a return for the money as a good porous strengthening plaster, such as Carter's Smart Weed and Belladonna Backache Plasters. dw

VERY MANY SUCH.

RHEUMATISM.—Col. DAVID WYLIE, Brockville, Ont., says: "I suffered intensely with rheumatism in my ankles. Could not stand; rubbed them with St. Jacobs Oil. In the morning I walked without pain."

NEURALGIA.—Mr. JAMES BONNER, 156 Yonge St., Toronto, Ont., writes: "St. Jacobs Oil is the only remedy that relieved me of neuralgia, and it effectually cured me."

BACKACHE.—"I can highly recommend St. Jacobs Oil as being the best medicine in existence; it promptly cured me of severe lumbago." G. N. BOYER, Carillon, Quebec.

SPRAINS.—"My mother received a very severe sprain and bruise by falling down stairs. St. Jacobs Oil cured her in a couple of days." E. BURNAND, 124 Tecumseth St., Toronto, Ont.

BRUISES.—Mr. AITCHISON, Hamilton, Ont., Fire Department, says he met with a serious accident and his back and shoulders were terribly bruised, but by the use of St. Jacobs Oil he was completely restored.

IT IS THE BEST.

THE WORLD OF WOMEN.

VARIOUS MANIFESTATIONS IN THE WORLD OF GOOD DRESSING.

The Latest Fashions Brought Down to Date—Beautiful Queen Darinka

There is a dainty new underwaist called the "Boelero." It is tight-fitting in the back, but in front the two ends lie loosely. There are no front seams at all. It comes in all the delicate shades of India silk, trimmed with fine thread lace.

Stripes everywhere, and such very pretty stripes. They are broad and some of them exquisitely shaded, beginning with the lighter tints and shading into the deeper tones. Other stripes contrast with the groundwork of the material. Every woman will have a striped gown, but if you are tall and thin do make the matter a subject of prayer before you purchase.

At a recent banquet at the Elysee Mme. Carnot appeared in one of these dinner robes which boasted a train three yards long. The gown was made of black velvet, the train being lined with white satin. There was a front panel of white Geneva velvet, outlined with silver. Mme. la Presidente wore diamonds in her hair and the costume was altogether wonderfully becoming to her.

The perfectly plain princess robe is coming back again. It clothes the figure very closely, spreading out in fulness a few inches below the waist at the back. It is lined with silk and has a silk balayeuse of contrasting color. A very pretty white satin, veiled with black lace and trimmed with black velvet and jet, has a lining and balayeuse of pale pink, with a touch of the same pink on the bodice and in the hair.

As usual with the beginning of a season, any number of fancy and bizarre tints in gloves are displayed in the shops, but good taste limits the choice of colors to few shades, and tan still holds its own with wonderful pertinacity. Several pretty shades of yellow tan, tea rose colors, neutral tints in grays shading to beige, fawn, sand color, and a pretty new color called mules, or field mouse, will be worn for dressy occasions with light gowns, and will be made striking with black stitching and seams sewed with black thread.

Curiosity fills one's very soul when looking in the shop windows. Such things as woven gilt wire in the shape of pancakes, large, brilliantly jewelled beetles, butterflies with gauzy lace wings, and apparently plain mats in fine woven straw are subjects of curious conjecture, until the shopkeeper blandly explains that these are the spring novelties in hat crowns. They really make the daintiest hats imaginable in combination with a bit of lace or chiffon and a bunch of spring blossoms.

There is a certain charm in a French tea gown which no other tea gown need ever hope to possess. An exquisite creation just ordered by a well-known Parisian is of pale crushed strawberry silk en train. Over the front of the garment falls a loose drapery of white point de Paris lace, the pattern being outlined with a fine pale blue silk thread. At the neck of the dress is a bow of pale blue ribbon, and the lace drapery is caught in two places by bows of blue ribbon. The under part of the sleeve is crushed strawberry silk with a cap of pale blue silk edged with flounces of the lace.—New York World.

"Beautiful Queen Darinka."

"Beautiful Queen Darinka" leaves a void in the hearts of the Montenegrins which will not soon be filled. Beautiful she would always be to them, although she had just died at fifty-four, thirty-three years after the death of the husband she loved so much. Apropos of this there is told a queer story. Shortly after the marriage of Darinka and Prince Danilo, when the Montenegrins were fighting against the Turks, the women of the Black Mountain caused a magnificent flag to be embroidered for the warriors. The face of "beautiful Darinka" was reproduced on the flag and the wild Montenegrin warriors fell down before it and called out, "Be thou our patron saint in the holy war." During the battle of Grahover three bullets tore the flag; one went through the forehead, one through the heart, and one through the finger on which the figure of the princess wore her wedding-ring. The priests and the old women of Montenegro whispered, "It is an evil omen, and signifies that the Veliki Knyas, the great prince, will die young." A few years later the prophecy was fulfilled.

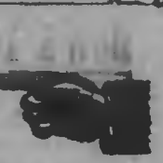
PAIN from indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this. dw

It Leads the Leaders.

The foremost medicine of the day, Burdock Blood Bitters, is a purely vegetable compound possessing perfect regulating powers over all the organs of the system and controlling their secretions. It so purifies the blood that it cures all blood humors and diseases from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, render it unequalled as a cure for all diseases of the skin. From one to two bottles will cure boils, pimples, blotches, nettles, rash, scurf, tetter, and all simple forms of skin disease. From two to four bottle will cure salt rheum or eczema, shingles, erysipelas, ulcers, abscesses, running sores, and all skin eruptions. It is noticeable that sufferers from skin diseases are nearly always aggravated by intolerable itching, but this quickly subsides on the removal of the disease by B. B. B. Passing on to graver yet prevalent diseases such as scrofulous swellings, humors and scrofula, we have undoubted proof that from three to six bottles used internally and by outward application (diluted if the skin is broken) to the affected parts, will effect a cure. The great mission of B. B. B. is to regulate the liver, kidneys, bowels and blood, to correct acidity and wrong action of the stomach and to open the sluiceways of the system to carry off all clogged and impure secretions, allowing nature then to aid recovery and remove without fail bad blood, liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disorder of the liver, kidneys, bowels, stomach and blood.

We guarantee every bottle of B. B. B. Should any person be dissatisfied after using the first bottle we will refund the money on application, personally or by letter. We will also be glad to send testimonials and information proving the effects of B. B. B. in the above-named diseases on application to T. MILBURN & Co., Toronto, Ont. dw

CARTER'S LITTLE LIVER PILLS.



CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

dizziness, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

"Wear it a week or two or three, till you make up your mind about it, and then go back to the store where you bought it and get your money back.

"Wear it a year; and, if a bone is broken or kinked or slipped or shifted, go back to the store where you bought it and get your money back."

What do you think of the B. & C. corset when it is sold with such guarantees as those two?

There's a primer on Corsets for you at the store.

ONTARIO LEGISLATURE.

THE BILL FOR THE PROTECTION OF GAME.

A Breezy Discussion on the Act Respecting the Income and Property of the Upper Canada College—Another Division in the House on the Motion.

TORONTO, April 1.—The Attorney-General's bill to amend the law relating to mortmain and charitable uses was the first to be considered by the Legislature yesterday.

Mr. Mowat's bill to further amend the law respecting mortgages and sales of personal property was opposed by Mr. Meredith and Mr. Sol. White. Mr. Meredith thought that ordinary creditors ought to be put upon exactly the same footing as creditors having judgments. Mr. White said that the bill did not follow the established precedents and would upset the present arrangements between debtor and creditors. This bill was not proceeded with, but was referred back.

The House went back into committee to consider Mr. Harcourt's bill: To provide for the payment of succession duties in certain cases. A few amendments were made at the mover's own suggestion and the bill passed.

Mr. Hardy's motion regarding the increase in the amount paid as bounty for the destruction of wolves passed the committee of the whole without discussion. That gentleman's bill to amend the Act respecting the taxation of patent lands in Algoma and Thunder Bay also passed.

The Protection of Game.

When the bill of Mr. Gibson (Hamilton), to amend the Act for the protection of game and fur-bearing animals, was read the second time the mover said that he felt that the law ought to be more stringent for the protection of deer. The open season had been changed from Oct. 15 to Nov. 20 to from Oct. 15 to Nov. 15, thus shortening it by five days. He also thought that no dogs should be allowed to run at large before Nov. 1 each year. Regarding birds he said it was clear that the close season ought to be the same for every species.

Dr. Willoughby suggested that the open season for deer should be from Nov. 15 to Dec. 15. He also suggested that the railways be prevented from carrying deer after the season closed.

A Word for the Dogs

Mr. Tait objected to the clause allowing all dogs running deer during the close season to be shot by anyone at pleasure.

Owing to the various opinions expressed by members from different parts of the province, Mr. Gibson, the mover of the bill, suggested that it be referred to a general committee of the whole House. Mr. Meredith wanted it referred to a special committee to give sportsmen and others interested another chance to express their views.

The bill passed its second reading and was referred to a committee of the whole House.

Upper Canada College.

After recess Mr. Hardy's bill to amend the Municipal Act passed its second reading.

On motion to go into supply concerning Mr. Ross' bill to amend the act respecting the income and property of the University of Toronto, University College and Upper Canada College, Mr. Meredith rose and said the money expended on Upper Canada College had been funds of the province held in trust by the management. In 1879 Parliament took into its own hands the right to use all money on capital account. The act provided that $100,000 was to be set aside as an endowment fund. The House had granted $30,000 for the purchase of a site for the new college, but the Minister of Education had spent $35,000 for that purpose without the permission of the House. He also spent over $17,000 more than the $12,000 granted for the erection of the main building, and, though the House was sitting at the time, he had not taken the trouble to get its consent.

Mr. Mowat said that the statements of Mr. Meredith, while partly correct, were so put as to misrepresent the facts. The money had been used for the purpose sanctioned by the House; no extravagance had been alleged by the Opposition; it was not even suggested that any of the money had been used for illegal purposes; the money used was not from the provincial Treasury. At most the whole question was about one between Upper Canada College and the University of Toronto. He did not say that the action of the Minister was altogether regular, but it was certainly done in good faith.

The Amendment.

Mr. Meredith therefore moved that all the words in the motion after the word "that" be struck out and the following substituted: "It appears by the returns brought down to this House that there has been spent in connection with the Upper Canada College buildings and site, including $14,649 for furniture, the sum of $319,451; that the said sum is in excess by $150,000 and upwards of the amount authorized by the Legislature to be applied for this purpose, and that such additional expenditure, besides being unauthorized and illegal, is in violation of the terms of the agreement under which the college was continued, and on the faith of which this House assented to the erection of the new college buildings."

The Minister of Education Explains.

Mr. Ross, in reply, said that Mr. Meredith's charges ought to have been followed by something more specific than he had given. There were in 1887 two funds for Upper Canada College, land and money—the land to go to erect a new building, the money to go to the University. The action criticized was but the action of a Government taken in time of an emergency. But they had corrected the action at the earliest possible moment. The assent of the House was not necessary, for the money spent was not from the permanent fund but from the surplus income. So far as the law was concerned they had not exceeded their powers. As to the site the management was unlimited; as to the building they were limited and had held within the limit to a dollar; and as to the equipment they were unlimited. The management expected this year to make the natural income of the institution pay all expenses. If this occurred, Upper Canada College would be the only one in the country which was self-supporting. Upper Canada College gave up a site worth half a million and got a site worth $50,000. Therefore it should be dealt with liberally. It should not be impoverished for the sake of the University.

The Division.

Mr. Meredith's amendment was lost on the following division:

ALAS! THE TRAINMAN.

Another Canadian Killed in the St. Clair Tunnel Yards.

PORT HURON, April 1.—T. R. Mitchell of Blyth, Ont., was accompanying a carload of stock to Saginaw, when the car was switched upon a side track at the tunnel yards, Port Huron, on account of a disabled truck, and while walking to the repair shops Mitchell was struck by an emigrant special and instantly killed. This makes the third man who has been killed at the tunnel yards in a week.

DEFENDING CANADA.

Sir Charles Tupper on Preferential Trade Throughout the Empire.

LONDON, April 1.—Sir Charles Tupper replies in The Nineteenth Century to criticism of the Imperial Federation scheme. He reaffirms the necessity of the colonial agents here having the freest contact with members of the Imperial Cabinet and warmly defends Canada from aspersions cast upon her by those who declare she is not now taking a fair share of the burdens of the empire.

Sir Charles elaborates a plan of preferential trade throughout the empire. He denies that the United States can further retaliate to the lasting injury of Canada and says the republic already does its worst commercially against Canada and England. He believes the whole question has forced itself upon public attention here.

Mr. Chapleau's Illness Serious.

MONTREAL, April 1. — Your correspondent made careful enquiries yesterday touching the health of the Hon. Mr. Chapleau. His medical adviser, Dr. Brodeur, told me that it would be two weeks at the least before the Minister of Customs could be expected to return to Ottawa, and even then only on condition that he take the greatest care of his health. The impression is gaining ground among Mr. Chapleau's friends, and even Dr. Brodeur scarcely conceals it, that his chances for resuming parliamentary work at all in the future are very remote. Mr. Chapleau is a sick man and his condition is dangerous.

Killed the Informant.

PITTSBURG, April 1.—Jonathan Hochstetter, the Government agent who testified against the Somerset County moonshiners in the Scranton, U.S., court two weeks ago, was murdered last evening on Laurel Hill, famous for the Nicely-Umberger murder.

A Canadian Missionary's Death In China.

STRATFORD, April 1. — Miss Annie Smith of New Hamburg, who was given an affectionate farewell in Stratford Baptist Church in January last on the eve of her departure to China to labor in Rev. J. Hudson Taylor's China Inland Mission, died at Shanghai a few days ago of typhoid fever.

Robbed a Mail Train.

BIRMINGHAM, Ala., April 1.—A mail train on the Georgia Pacific road was robbed near this city last night. The robbers got 65 packages of registered mail and threw away one package, which had no money in it.

Armed men have started in pursuit of the robbers.

The Milk Turned Sour.

I will not tell you her name, but one of the neighbors says that during her brief visit the milk turned sour. Her countenance looks a yard long. She sighs perpetually. The cloud on her brow is deep. If beaten out thin I believe it would cover the sky. Her voice is doleful, and her eyes show no radiance. Her wrinkles are numberless. She is a sorry picture, and all because she is the victim of one of those complaints peculiar to women. Her system is deranged. She needs a course of self-treatment with Dr Pierce's Favorite Prescription. This will eradicate thoroughly those excruciating periodical pains and functional weaknesses peculiar to her sex, and at the same time build up and invigorate her whole system by its health imparting influence. A trial bottle will convince. b

No Lady's Toilet is Complete

Without a tube of Dyer's Jelly of Cucumber and Roses for making the skin smooth and soft. Try it; druggists keep it. W. A. DYER & Co., Montreal. 6d74

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of a flesh and blood maker, and has been used with marked success by the physicians in the insane asylum, penitentiary and Hotel Dieu, and general hospital, Kingston. In big bottles at 50c. and $1 00, at Peterborough drug stores. dw

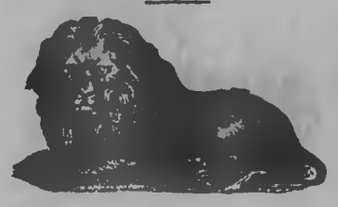
GOLDEN LION!



Delighted!

TO THE LADIES we have been indebted, in a large measure, for our business success, and we are delighted to be able to make this candid acknowledgment.

At no time has this been more evident than during the recent most successful opening of our Millinery and Mantle Show Rooms for the Spring and Summer Season of 1892.

Never has it been our privilege to wait upon so large a number of delighted visitors, and never have we been favored with so many valuable orders as at this opening.

Hundreds of discriminating lady buyers have daily inspected our selections, and promptly placed their orders upon learning our reasonable prices.

During the whole of next week, we will continue to put on exhibition later arrivals of imported Pattern Bonnets and Hats, choice collections of Fine French Flowers, and an endless variety of Millinery Novelties. Also, a magnificent stock of Imported Pattern Mantles, Jackets and Wraps.

The Values, in many cases, are such as could only be offered by making large import orders, and by the very closest figuring.

Respectfully,

ROBERT FAIR,

Sign of the Golden Lion,

383 George Street, Peterborough

ACROSS THE ATLANTIC.

MILLIONS OF SPINDLES IDLE IN LANCASHIRE.

Widespread Disasters Must Result—Strong Man Sampson's Bigamous Wife Attempts Suicide—Mrs. Osborne Will Not Be Released.

LONDON, April 2.—Owing to depression in the cotton trade and demands of operatives the master spinners have declared a lockout in all the mills except those of Egyptian cotton spinners.

The decision includes Oldham, Rochdale, Ashton, Bury, Stalybridge, Stockport and other centres.

Altogether 17,500,000 spindles will cease, representing wages of $259,000.

The lockout will cause widespread distress.

REQUIRED A STOMACH PUMP.

Strong Man Sampson's Bigamous Wife Wants to Die.

LONDON, April 2.—Mrs. Edith Sampson, the bigamous wife of Strong Man Sampson, attempted to commit suicide in a house of ill-fame in Leicester-square by taking poison. She did not succeed in her purpose and was arrested by the police, and was arraigned on the charge of attempting suicide. The magistrate remanded her for further examination, as she was very weak owing to the use of a stomach pump in saving her life.

Another Osborne Case.

LONDON, April 2.—Society in London has hardly recovered from the excitement of the Mrs. Osborne affair, when it has another scandal to gasp about.

A well-known society lady, the wife of an officer in the army, some time ago missed a very valuable brooch. Later she visited a jewelry store and was surprised to see displayed for sale her brooch. She asked the jewelers where they had got it, and they told her it had been sold to them by a certain lady, mentioning the name of her bosom friend.

Then the officer's wife recalled that this friend had helped her at the time she was doing her packing, and she was left no other option than to believe her friend had stolen the brooch.

The officer's wife was naturally indignant that her friend should have treated her in such a manner, and upon returning home wrote her telling of her discovery and charging her with the thieft.

The result was that the bosom friend communicated with her solicitors, laid the letter before them and instructed them to immediately begin action for libel against her accuser.

The outcome of the case is eagerly looked forward to.

The Anarchist Ravachol.

PARIS, April 2.—It is reported that Gustav Mathieu, Ravachol's most dangerous accomplice, has been arrested. The police have learned from informers that Ravachol planned the Soissy robbery. Ravachol carried the bomb used in the Boulevard St. Germain explosion and placed it in position, leaving the house only a few seconds before the explosion occurred.

Ravachol's accomplices, no longer fearing revenge, readily consent to reveal what they know about Ravachol. They say he glorified in the murder of two women who kept a wine shop near St. Etienne, and boasted of having supped in a room where their corpses lay, cutting his food with the bloody knife with which he had murdered them.

Ravachol was confronted to-day with his accomplices, Chaumarten and Boalat. He persisted in his denial of having had anything to do with the recent explosions.

An Anarchist was arrested at Raubax to-night. It is expected that a nest of Anarchists will be arrested at Lyons immediately.

Hungary Preparing.

BUDA PESTH, April 2.—There was a significant scene in the Lower House of the Hungarian Reichstag. Dr. A. Workerle, Minister of Finance, said that owing to the present state of European affairs a reduction in expenditure for the army was impossible. The country was prepared for additional, though gradually increase in the army expenditures in view of the growing armaments of foreign powers. The Republicans applauded loudly and passed the budget as recommended.

No Ground to Discharge Mrs. Osborne.

LONDON, April 2.—The Home Secretary announced in the House of Commons yesterday that he was aware of the condition of Mrs. Florence Ethel Osborne, now serving a nine months' sentence. There were no special medical reasons, however, to warrant her discharge from prison.

Foreign Notes.

More French Anarchists have been expelled from Sarnia.

Duke Louis of Bavaria will marry the popular actress Clara Heese.

In a desperate battle between British soldiers and a native tribe at Shurkwa, Upper Burmah, 40 natives were killed.

The unemployed workingmen of London held a meeting at Tower Hall yesterday with a black banner bearing the words, "We demand the right to work."

The Unionists intend to contest every seat in Ireland at the next general election.

Deeming, the wife murderer, arrived at Melbourne by the steamship Ballarat yesterday and was taken to the prison, the route to which was strongly guarded. The accused was hooted en route by the immense crowd which had collected.

Death Followed Discovery.

WINNIPEG, April 2.—The skeleton of H. Watson of Duluth was found in an abandoned lumber camp near Rat Portage yesterday. Watson was an explorer prospecting for Minneapolis parties. Some rich specimens of gold and iron were found in his knapsack.

Wm. Norton Falls From a Scaffold and is Killed.

TORONTO, April 2.—Wm. Norton, a married man living at 142 Nassau-street and employed as a painter for F. E. Phillips, met with an accident yesterday which resulted in his death. He was at work on a scaffold on Jardine's building, 31 Front-street east, and was standing on a swinging scaffold. While raising himself a little higher to get at his work, the rope slipped and he was precipitated to the pavement, a distance of 31 feet below. He was immediately taken to the hospital in the ambulance, where it was found that his forearm was fractured and that he was very seriously injured internally. Everything possible was done to relieve him, but he never regained consciousness and an hour afterwards was dead.

CLOUD BURSTS, TORNADO

FEARFUL WORK IN CHICAGO AND THE WEST..

A Kansas Town Completely Wiped Out of Existence and the Victims of the Tornado Strewn Along the Streets—A Chicago Tragedy.

CHICAGO, April 2.—A cloudburst last evening demolished a seven-story brick building in Pierce-street, which crashed upon the homes of a number of laborers, instantly killing three children and fatally injuring a number of others. Four others are in the ruins.

In the house of Thomas Hullet 13 persons were seated at table. A 6-months old baby was crushed into a shapeless mass. The others were buried under the falling debris but were rescued.

Thomas Hulett lived in the rear of the seven-story brick building which was wrecked. He and his family together with two guests were at supper when the immense mass of brick, iron, wood and plaster composing the larger building fell. Its force seemed to be directed to the rear upon Hulett residence. A passer-by as soon as accident occurred turned in fire alarm and a police and ambulance call. Citizens who heard crash and cries and moans of injured also rushed to the scene and work of rescue was at once begun and the dead and injured at once removed to residences nearby. Hulett family occupied only one side of the building, and on this the ruined building fell crushing it like a house of cards. A six months' old baby, David Hulett, was instantly crushed into a shapeless mass. Of 13 people seated at a table, the infant was the only one instantly killed. Others who were pinned under broken timbers were soon released by hundreds of firemen and others who rushed to the rescue. A number of physicians were soon at the scene of the disaster to care for the wounded as fast as they were removed.

In the two-story adjoining wrecked building lived families of Horace Wigant, James Mett and James McGowan. All were in the building except 8-year old Lizzie Mott and none escaped serious injury. James McGowan his invalid wife and Mary Walsh, Mrs. McGowan's nurse is believed to buried in the ruins. Up to 11 o'clock p.m. no trace of them had been discovered by diligent searchers and is feared all are dead. An unknown man employed as watchman in ruined building is missing and is supposed to be buried in the ruins.

The ruined building was a new one and the mortar was scarcely dry when the wind struck it. Loss on building is about $35,000. During the storm a two-story frame building in Perry-avenue, just completed and unoccupied, was entirely demolished. The signal service office reports that during the storm the wind attained a velocity of 56 miles per hour.

At Des Moines the velocity was 60 and at Sioux City 64 miles per hour.

KANSAS CITY, April 1.—A tornado swept over Kansas last night. The town of Towanda was entirely destroyed. The town was asleep when the storm swept over it, and it razed everything in its path. Four bodies have been recovered and 19 persons were fatally hurt. At Augusta three men were instantly killed and many injured.

Towand, a village of 1300 inhabitants west of Eldorado, was razed to the earth and not a single house left standing. Of 80 families comprising the population not one to-night that is not either mourning for a dead or dying member or sorrowing with the suffering. Four persons were killed outright and several were so badly injured they cannot live.

Fatally wounded are: Little girl blown from second story of hotel and badly crushed, Mrs. G. A. Robbins, skull fractured by flying timbers; Elmer Haine, internally injured; Mrs. W. Mooney, head crushed Alice Thornton, George Cornelius and wife badly crushed. About 25 others were more or less seriously injured.

AND THE DOG HOWLED.

An Uncanny Story From the Wilds of Muskoka.

BRACEBRIDGE, Ont., April 1.—Mr. William Gohm, clerk of the township of Macaulay, a reliable and truthful man, relates this story, which can be substantiated by several of his neighbors, viz., the Zimmermens, Longfords and Phillips.

On the corner of the Longford farm and north of Mr. Gohm's there is a small graveyard. About two months ago an unknown collie dog was seen in the daytime and heard howling and crying at night in and around the graveyard.

About three weeks thereafter it was ascertained that the dog belonged to Robert Cooper. On this day Robert was passing the graveyard when the dog saw him and ran to him and followed him home. Robert had been unwell for some time, but got much worse the next day and died in about a week.

His remains were interred in this graveyard and the dog has been there nearly all the time since and makes the nights hideous by its mournful howling. It has been taken home and tied, but returns to the grave as soon as let loose.

The people around there are not given to superstition, being level-headed kind of Methodists, but they are puzzled to know why the dog visited the graveyard and remained there howling before his master died.

Fined for Killing a Moose.

BRACEBRIDGE, Ont., April 2.—W. Gendron was yesterday fined $47.50 for killing a moose. E. Whitmore, charged with aiding in killing the animal, was fined $17.95. G. C. Butcher, charged with having some of the meat in his possession, was fined $14.60. David Jones was charged with having the hide on his premises, but it was not shown that it was there with his permission or consent. The charge against him was therefore dismissed.

The New G. N. W. Manager.

TORONTO, April 2.—The quarterly meeting of the shareholders of the Great Northwestern Company was held in Toronto, not in New York, as the paragraph in yesterday's papers would indicate.

The Lacrosse Situation.

OTTAWA, April 2.—The resignation of the Ottawas from the four-club senior Lacrosse League will likely kill the Capitals. They cannot make a three-club league with the Shamrocks and Cornwall. It is the opinion here that Toronto, Montreal and Ottawa will form a three-club league.

Dr. Quinn, Brampton; Billetto, by Billet, owned by Dr. Campbell, Toronto; Wyndham, by Warrick, owned by Mr. J. McAdams, New York.

DOMINION PARLIAMENT.

LITTLE BUSINESS IN THE HOUSE.

An Enquiry Respecting the Proposed Government to Sir John Macdonald—The Supervision in the Department of the Interior Deputation of Lumbermen.

OTTAWA, April 2.—The feature of yesterday's session has been the fact that a number of Conservatives, such as Messrs. McCarthy, Spreule, McDonald of Victoria, Dickey of Cumberland, have distinctly gone back on the Government on the question of the treatment of Mr. Burgess and the clerks in the Department of the Interior, who were shown before the Public Accounts Committee last year to have been guilty of irregularities. The threshing over again of last year's talk about Messrs. Burgess, Pereira, et al., occupied all the afternoon and the greater part of the night session. But the item for Mr. Burgess and Mr. Henry finally passed. Pereira's case was then taken up and discussed at great length.

Sir John's Monument.

Mr. Taylor has put on the order paper for Monday an enquiry of the Ministry, which will call out a great shout of "Yes" from the mass of the people at large, although it is probable that the reply of Sir John Thompson will be the usual cautious remark that the hon. gentleman will get his answer when the supplementary estimates for 1892-93 are brought down. The question is "Whether it is the intention of the Government to erect a suitable monument to the memory of the late Premier on the ground near the House of Commons; if so, when?"

Ontario Lumbermen Oppose An Export Duty on Logs.

OTTAWA, April 2.—Messrs. J. R. Booth, Hiram Robinson, H. K. Egan, James Gillies, M.L.A., F. W. Howell, David McLaren, A. H. Edwards, Peter White, M.P., and W. C. Edwards, representing the lumber trade in the Ottawa valley, and Messrs. A. H. Campbell, James Scott, Burton, D. L. White and Strathe, along with Dalton McCarthy, M.P., and Lieut.-Col. O'Brien, M.P., representing the Georgian Bay district, being in all between 50 and 60 delegates waited on the Government in regard to the proposition made by paper manufacturers to place duty on a certain kind of logs.

Mr. McCarthy introduced the delegation to Premier Abbott, there being also present Mr. Bowell and Mr. Foster.

Mr. O'Brien spoke chiefly with reference to pulp wood, which was now bringing a large quantity of money into the country in exchange for an article hitherto of no value and which could be reproduced at a very short period.

Mr. Booth pointed out that there was no danger of the supply of pulp-wood getting exhausted in this country, as there was in the Province of Quebec immense quantities, far beyond the requirements of the country for many years to come. He also argued that the Americans were in no sense dependent upon Canada for its supply, because in the State of Maine and Vermont and parts of New York there were millions and millions of cords of wood quite sufficient for their supply, but having erected their mills near the border and can get Canadian wood, they would continue to use it as long as they could obtain it free, as at present. If an export duty was put on they would move their mills to where they could get the American timber. The imposition of a duty on saw-logs would endanger the whole lumber trade.

Mr. Scott of Georgian Bay Lumber Company said that even if the saw logs were taken across to the other side it was better that this should be done than to remain subject to the risks of fire, which destroyed more timber than the quantity consumed in the trade. He spoke of the great danger to which the trade would be subjected by legislation of this kind.

Messrs. Brownlee (Renfrew) and Shatlee (Barrie) also spoke.

The Premier replied that the Government would carefully consider the matter.

Mr. Campbell, president of the Lumbermen's Association, spoke at length, pointing out the disadvantages that would follow through the American Government increasing the import duty on lumber from $1 to $2 if this export duty was imposed. It would also prevent the export of some of the coarser kinds of lumber which now reached the American market under the present duty. If the duty was reimposed it would close half the mills in the country, and as only the better class of lumber would be exported all the inferior kinds of lumber would be left to rot in the woods. Besides this it would entirely disarrange the trade.

Mr. White spoke principally in respect to the poplar wood, of which large quantities were now exported and the cutting of which was valuable assistance to the lumbermen, as spruce and pulp wood were hitherto of no value.

Spring Trade Prospects Fair.

NEW YORK, April 2.—Special telegrams to Bradstreet's again make clear the fact that the period of practical stagnation in the industrial and commercial circles is being indefinitely prolonged, evidently far beyond what had been anticipated. With this go the long-prevalent features, declining prices for leading staples, due to excessive output as well as low rates for money on best security. There appears to be a growing impression that the first half of 1892 is not to meet early expectations.

In the Province of Quebec general trade is dull and disappointing.

Although prospects for spring trade are said to be fair in Ontario, the movement of staples is only moderate, but collections in some instances are improving.

Bank clearings at four Canadian cities equal $16,580,000 this week, a decrease of 1-5 per cent. for the week.

Died From Lockjaw.

BOWMANVILLE, Ont., April 2.—Thomas Cowling, aged 22, of Hampton, a short time ago had his finger cut off by a circular saw. The wound was dressed and it was thought to be doing well. However, he continued to grow worse, lockjaw resulting, and death ended his sufferings.

Diseases of the Chest and Lungs.

These diseases are too well known to require any description. How many thousands are carried every year to the silent grave by that dreadful scourge, consumption, which always commences with a slight cough. Keep the blood pure and healthy by taking a few doses of Dr. Morse's Indian Root Pills each week, and disease of any kind is impossible. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, partial deafness, loss of sense of smell, foul breath, hawking and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of NASAL BALM. Neglected in time, neglected cold in head results in Catarrh, followed by consumption and death. NASAL BALM is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., Brockville, Ont.

NEVER FAILS. CURES COLD IN HEAD AND CATARRH

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

SATURDAY, APRIL 2, 1892.

Trent Valley Canal Construction.

To the Editor of the Examiner:

SIR,—Your remarks in a recent issue of the EXAMINER, regarding the duty of the Dominion Government in connection with the project of building the Trent Valley Canal, must meet with the approval of your readers.

The present session should indeed be a favorable time for our members to show the Government that there can be no excuse for putting off any longer a project that has received their unqualified approval, and that nothing will satisfy their constituents but an immediate commencement of the works necessary for an early completion of the canal.

To insure this a large grant must be placed in the supplementary estimates.

Anything short of this will create a very strong feeling (adverse to the present administration) through the whole of the Midland District, where the Government have recently obtained the approval of the electorate, and the representatives of these constituencies will be placed in a very unenviable position.

Trusting that our representatives in Parliament will leave no stone unturned to accomplish the wishes of their constituents, and thereby insure a lasting benefit to the whole Dominion,

Yours, etc.,
T. V. C.

Lakefield, March 31st, 1892.

Important Events.

Often Recorded by the Press—Records not Easily Forgotten.

Certain wonderful events that occur from week to week are recorded by the daily papers of Canada, and often create much comment and surprise amongst all classes of our population. Many of these recorded events are soon forgotten—they pass away like a flitting cloud, and are remembered no more.

Some events, especially those that are of importance to our national well being, are treasured in the minds of the thoughtful and intelligent of our people. When noble works and grand deeds are thus borne in mind, our people know how to judge and act when certain emergencies arise.

Our people are quick to discern grand and worthy deeds and actions which show good results in the community. They feel that in some degree men and women are made better; and that notwithstanding the fact that the world is evil, there is still something worth living and working for.

The press of Canada has given to the public without stint some interesting events that have taken place in various sections. To one class in particular, these recorded events have proved a blessing, and brought comfort and cheer to many despondent hearts.

The newspapers have informed us of great and mighty cures wrought through the agency of that wonderful remedy, Paine's Celery Compound. Week after week we have had proof of men and women, old and young, who were saved from the dark tomb through the power of that remedy which seems to be the popular medicine of the day with all classes.

It seems to be able to take hold of the worst cases—those for whom physicians held out no hope—who were pronounced beyond all earthly help. The weak, nervous, sleepless, despondent, morose, dyspeptic and rheumatic are given new life, and anxious parents and relatives are filled with joy. All these things have been accomplished by Paine's Celery Compound. Truly, these are events which must sink deep into every reader's heart, and cause serious thought and reflection. Such grand and noble works benefit us as a nation and future generations will bless the name of the great discoverer of the grandest remedy ever given to suffering humanity.

Rev. Wm. Hollinshed,

Pastor of the Presbyterian church of Sparta, N.J., voluntarily writes strongly in favor of Hood's Sarsaparilla. He says: Nothing I know of will cleanse the blood, stimulate the liver or clean the stomach like this remedy. I know of scores and scores who have been helped or cured by it.

The highest praise has been won by Hood's Pills for their easy, yet efficient, action.

No Lady's Toilet is Complete

Without a tube of Dyer's Jelly of Cucumber and Roses for making the skin smooth and soft. Try it; druggists keep it. W. A. DYER & Co., Montreal. 6474

FOOT UP IN THIS LIST OF BARGAINS

We have moved our Stock of BOOTS and SHOES to the Store,

Knowles' Old Stand, George Street, next door to Dickson's Dry Goods Store.

Our moving has been done to make room while the alterations to our premises are in progress.

We have picked out 1100 pairs of Boots and Shoes that ordinarily sold at prices up to $2.75 per pair. Here is your chance. You can have your choice of any for **$1.25**, while they last.

OUR CLOTHING STOCK

is in the flat over our own Stores, where buyers will have every attention, as usual.

BARGAINS here too, BIG BARGAINS. ☞You know the pressure we are under, with our alterations going on, to reduce stock and save handling, and you should take advantage of our offers.

GOUGH BROS.,

THE WONDERFUL CHEAP MEN, PETERBOROUGH.

Not a Sou for the T. V. C.

At Ottawa on Thursday the supplementary estimates for the year ending 30th June next were brought down, amounting to $900,000 in round figures, but not a sou for the Trent Valley Canal did they contain. Those of Interior Departmental clerks suspended during the inquiry last session are given their salary lost durig such suspension. Twelve hundred dollars are provided for rates, taxes, ground rent and so forth of Sir Charles Tupper's official residence in London. The long session last year calls for $30,000 additional, and the revision of the voters' list $60,000 additional. For the Chicago World's Fair expenditure to June next is set down at $5,000.

Haliburton Cheese Husbandry.

A meeting of the patrons of the Haliburton cheese factory was held on Saturday afternoon. Mr. T. Moon was elected president, Mr. Walling, vice-president, Mr. Elston and Mr. Gould, directors, and Mr. Brown, auditors. The prospects are good for the coming season, and the number of cows will probably largely increase. While on this subject I may note that a strong desire exists to locate a cheese factory at the narrows entering into Cannons Lake. This factory, if established, would take in a portion of the district now served by the Haliburton factory. It would take twenty or thirty cows from us—not more—and the factory would serve a very large territory.

The Price of Sugar.

Mr. Foster took credit to the Government for reducing the duty on sugar. The Government did not interfere with the refiners' enormous profits. The lowest price at which a barrel of granulated sugar can be bought in Canada is 4¼ cents a pound, or 22¼ pounds for a dollar. The ordinary retail price of sugar is twenty pounds for one dollar. In Detroit granulated sugar is advertised at 24 pounds for one dollar.

Living Questions

are most esteemed by every intelligent man and woman. Derangements of the liver, stomach and bowels speedily present to the living questions of obtaining relief. It is at once found in Dr. Pierce's Pleasant Pellets, which cure sick headache, bilious headache, constipation, indigestion, bilious attacks, etc. Purely vegetable and perfectly harmless, they are unequalled as a specific for the complaints named. One tiny, sugar-coated pellet a dose. In vials 25c. Carry them in your vest pocket.

An inactive or torpid liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water on it, the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

MRS. POYNTRY PERRIN.

THE AGE OF REASON.

Woman's Potent Influence, Whether as Daughter, Wife or Mother—This Influence is Inseparable from her Sex—It is a Power.

In former times both ancient and modern, women in general occupied a secluded state; and it was only in the extreme privacy of the home circle that she exerted a potent influence, as daughter wife or mother. Thanks to the efforts of educators, scientific educationists, physicians, and others interested in higher female education, the position of woman, especially in Canada, is all that can be desired in many respects.

The women of Canada, well educated and refined, are noted for their common sense views on all matters pertaining to health; and are now in a position to think and act for themselves. In this respect, Mrs. Poyntry Perrin, of 135 Bleeker street, Toronto, is a notable example. She was for two years a terrible sufferer from nervous prostration; her limbs became useless and cold, and she feared that she would lose the power of walking.

Mrs. Perrin, knowing what Paine's Celery Compound had done for others of her sex, and finding other treatment useless commenced to use the great remedy, and was perfectly restored to health. She tells us she has a new lease of life. Ability to discern truth from error, a woman's keen perception and liberal education, enabled Mrs. Perrin to break away from old established rules and formulæ that had no value. This estimable lady knew that Paine's Celery Compound was a renewer, a recuperator and a builder; and with faith in its powers she used it. A well-known Toronto gentleman, H. M. Pellatt, of 40 King street, vouches for Mrs. Perrin's statements. In her letter of testimony, Mrs. Perrin says:—

"I feel it both a privilege and a duty to acknowledge the merits of Paine's Celery Compound. For about two years I was laid up with nervous prostration so badly that I feared I would never walk again. From my knees down, my legs were perfectly useless and cold. In despair I got a bottle of Paine's Celery Compound; and after taking about six bottles I am in perfect health; my friends say I have taken a new lease of life; in fact I am a walking advertisement for your Compound."

Reader, let us call your attention to the fact, that this grand and glorious agency is able to do the same work for you, if you suffer in any way. This wondrous preparation is not an untried article. It has done its work to the satisfaction of every suffering man and woman in Canada and cannot fail in your case, no matter how desperate your condition. Be assured of the fact that it is your only true medium of escape from suffering woes and pains.

School of Instruction.

The Session of the I.O.G.T. Institute Continued Yesterday Afternoon—A Juvenile Templars Lodge Organized Last Night With a Large Membership.

The afternoon session of the school of Instruction in connection with the I.O.G.T. order throughout the country, opened with a larger attendance of delegates than in the morning. The first was a drill in the initiation and other ceremonial work conducted Bro. Thos. Lawless, G.S., of Toronto.

The next was a paper by Bro. J. L. Robertson, G.C.T., Toronto, on "Our Missionary Work." It was read by Bro. Lawless. A lively discussion followed, several members taking part.

A motion was carried at the end memorializing the Grand Lodge to have copies of the temperance laws for sale throughout the province.

A paper on "Aggressive Teetotalism," was read by Bro. Frank Mason. He dealt chiefly with total prohibition, and thought that this could only be attained by the franchise of the women. The paper was discussed by Bros. Sergeant, Mason, Best, Young, Lindsay, J. W. S. Munro and Lawless.

A paper read by Sister W L. Scott, G.S.J.T., Toronto, on "Juvenile Temple Work," set forth the aims and objects of the order in an able manner. It was discussed by Bros. Mason, Best, Sergeant and Sister Scott.

Another paper, prepared by Hon. S. B. Chase, P.R.W.G.T., Chancellor, on "Good Templars' Course of Study," was read by Bro. Lawless, and discussed by Bros. Mason, Lawless and J. W. S. Munro.

Another paper was read by Bro. Lawless on "Good Templar Life Insurance," prepared by Bro. J. E. Wilson, P.G.C.T., Galt.

The committee appointed in the morning to report what would further the best interests of the order throughout the county reported as follows:

"Your committee recommend the District Temple be organized at once. Also that lodges be requested to visit one another as often as possible. That an annual meeting be held in some central place. That each lodge be requested to have a temperance sermon preached once a year. Signed,

H. P. LINDSAY,
PRISCILLA PAYNE,
W. D. KERR.

Arrangements were made to organize a Good Templars lodge at Bridgenorth on April 15th.

A regular session of the Caswell Lodge was held last night. A juvenile temple was organized by Sister Scott, and the following officers elected:—

CASWELL JUVENILE TEMPLE.

Bro.	Melville Green	C T
"	Percy McIsaac	P O T
Sis.	Annie Bellegham	V T
Bro.	F. Larmour	Chap.
Sis.	Edith McClelland	R S
"	Clara Bellegham	A R S
"	Willemene Carnegie	F S
Bro.	Walter McClelland	T
"	Fred Cardwell	Marshal
Sis.	Belford Martin	D M
"	Mabie Isaac	Guard
Bro.	Hugh Lyon	Sentinel.

Twenty six children were present, and were addressed by Bro. Lawless and Sister Scott. Refreshments were served at the close of the evening's session.

The prostration after the Grip is entirely overcome by Hood's Sarsaparilla. It really does make the weak strong.

If You are Going To Buy a Piano or Organ

don't fail to pay a visit to

JACKSON & Co.'S

ESTABLISHED

PIANO AND ORGAN WORKS,

360 Aylmer St., Peterborough.

Being extensive dealers in only Reliable and Standard makes of

GRAND, SQUARE AND UPRIGHT

PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN

AND

EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS,

AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that **we positively will not be undersold.**

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

All kinds of Instruments Tuned or Repaired on short notice.

Jackson & Co.

360 Aylmer St., Peterborough.

GRAND OPPORTUNITY FOR BARGAINS

—AT—

CHINA HALL.

From now until Saturday, 23rd April, we will hold a

GRAND AND GENUINE CLEARING SALE

to reduce and straighten up our Stock before Stock-taking.

Heretofore we have sold our damaged Tea, Dinner and Chamber Sets by auction, in a separate store, but this year owing to our increased room, we will try a new plan and sell them by private sale from our Showrooms. To make the Sale doubly attractive, we will place our whole immense Stock at your disposal at COST PRICE and in the case of Damaged or slightly Mis-matched Sets at Much Less than Cost.

OUR LARGE STOCK OF

HANGING AND OTHER LAMPS

will be sold AT COST and under, so as not to keep them over. All Goods will be ticketed, showing former and reduced price, and we invite you to take advantage of the above offer, and inspect the Goods at once, as the best bargains go first.

TERMS STRICTLY CASH.

Belleville Electric Street Railway.

R. H. Potter, has taken over the Belleville street railway and will put in an electric system. Mr. Potter leaves in a few days for New York on business in connection with the road. Operations will be commenced on the road on Monday next and will be pushed through rapidly.

Ancient Principles

Punctually applied in the Peterborough Market Drug Store:

Pure Drugs,
Patent Medicines,
School Books,
Stationery,
Seeds,
Spectacles,
Etc., etc., etc., on hand.

H. SPEARS.

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

The Bicycle Nuisance.

The yearly nuisance caused by the running of bicycles upon the sidewalk is going to be checked this year. The Chief of Police has already this spring received numerous complaints from ladies and others relative to bicycles riding on the walks. The police are determined to stop the habit at once and a warning thrown out in time to the cyclists of the town may serve in good stead and prevent further trouble. The road is the proper place for bicycle riding and the place where it must be done.

A Temperance Mass Meeting:

An important movement is now on foot for the advancement of the temperance cause, which will require the assistance of all temperance workers. This is a grand opportunity for men and women who are interested in temperance work. A public meeting will be held in the Royal Templars' Hall on Hunter street over Nugent's Drug store, on Monday evening, April 4th, at 8 o'clock. All temperance people are earnestly requested to attend. The meeting will be addressed by prominent men, and discussion of the subject is invited.

Visiting the Fatherland.

This morning Mr. Wm. Loch, head of the firm of Loch & Sons, farriers, left by the 7.10 C.P.R. train for New York where he will embark on the North German Lloyd steamer, Havvel, for Germany. Mr. Loch is on his annual trip to Germany for the purchase of fars, for the purposes of his local trade. He is accompanied by Miss Loch who takes the tour for the benefit of her health and for the pleasure of viewing the scenes, cities and thousands of objects of interest in the Fatherland. A voyage down the historic Rhine, castle crowned and overflowing with romantic associations, is included in the programme of travel as well as the Rylan district, the native home of Mr. Loch. Mr. and Miss Loch expect to return to Peterborough about the middle of June. The EXAMINER joins with their numerous friends in wishing them a delightful journey and safe return to their home.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

A Lakefield Millinery Opening.

The Misses Heslihan & Sullivan, of Lakefield desire to announce that they are holding their millinery opening, and are showing a splendid stock of fashionable millinery and choice fancy goods. The display richly merits inspection. Call and see it. 3d78

"The Hercules Duster."

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in all colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

Selling out Stock and Business.

By advertisement in another column it will be seen that Mr. L. Potvin, grocer and provision dealer of George street north, offers for sale the stock and fixtures in his upper store He has to give entire attention to down town business. The chance to a pushing man to secure a good stand and business already established, is a good one.

Prof. Kemp, who has been before the American and Canadian public for a number of years, as a practical phrenologest, is at present at the Cardwell Hotel. Prof. Kemp guarantees to give you better satisfaction, and can prove by the sworn statements of many people that he understands his profession and can give a more practical and perfect delineation of character than any phrenologest that ever travelled through Canada, with the exception of Prof Fowler. 6176

Peterborough Gun Club.

The first practice of the season of the Peterborough Gun Club was held in the Riverside Park, Ashburnham, yesterday afternoon. The contestants used shot guns. Clay pigeons were the objects aimed at, and considering that a strong western wind was blowing, the scores made out of a possible twelve points were very good indeed. Following are the marksmen and the respective scores:

R. Tivey	9 Points
Harry Neil	9 "
H. C. Strickland	8 "
A. Terrill	6 "
Mr. Trickey	6 "

The "Myrtle Navy" plug correctly represents the whole plan upon which its manufacture is conducted. There is not a fractional part of a cent expended upon it for mere appearance. It is neither wrapped in tin foil nor worked into fancy shapes, nor put in fancy cases, nor subject to any kind of expense merely to please the eye or captivate the fancy. The manufacturers rightly believed that tobacco was not purchased for ornament, but for smoking, and therefore all extraneous expense was avoided and added to the quality of the tobacco. The public have testified in its case that they prefer paying their money for a high quality of article than for ornament out of place.

A New Fancy Goods Business.

Miss Nettie Melville, will next week occupy the premises, 424 George street, lately used by Mrs. E. E. Ross, who has disposed of her stock and retires from business. Miss Melleville will open her doors with an entirely new and complete stock of fancy goods. She has had several years of experience, with Mrs. Ross, and this, conjoined with excellent business habits, and excellent qualities of character and deportment, will doubtless secure her a liberal share of public patronage. Next week the public who visit her establishment will find a beautiful stock of seasonable and well selected goods, awaiting their inspection and purchase.

St. Andrew's Prosperity.

Last evening preparatory services were held in St. Andrew's Presbyterian church. Before the meeting the session met in the lecture room and was duly constituted, when twenty-six new members were received into the church, a very large number, seeing that at the last communion forty-four were admitted. The Rev. Mr. Torrance then conducted the preparatory services, preaching a very able and appropriate sermon from 2nd Corinthians viii, 9, dealing with the riches, the poverty, and the object of the poverty, of Christ. After the close of these services a meeting was held to consider the necessity of enlarging the Sabbath school room to meet the increased demands of the large number of children, the necessities being freely discussed and clearly understood. Different plans with approximate costs, were presented, and it was unanimously decided to proceed at once with the erection of a suitable building.

Market Items.

The market this morning was rather small. There was maple syrup in abundance, selling from $1.00 to $1.30 a gallon. The amount of butter and eggs inside the market building was enormous. Butter was selling at 23c and 24c per lb. in rolls and 23c by the basket; eggs brought 11 and 12c. A few pairs of chickens were offered at 65c and 70c per pair. One turkey, the only one offered sold for $1.50. Potatoes were plentiful, selling at 45c to 50c per bag. A few bags of apples were offered at 90c. Very little pork and beef were offered, the former brought 7 and 8c by the quarter and $6.30 per cwt, the latter could hardly be disposed of at 5 and 6c.; cabbage brought 5 and 8c per head; beets, 20c per peck; carrots, 20c per peck; summer celery, 5c per bunch. Three or four loads of hay brought $10 to $12 per ton. No grain or wood was on this morning.

Very Important.

"Indigenous Bitters" really contain nothing dangerous or hurtful, no metallic salt or mineral medicine, in fact nothing which could injure the constitution, by a too long use or excessive dose. It is a purely vegetable preparation, so that too strong a dose though it may act more powerfully than that given in the direction, yet no matter how large the quantity which may be taken no dangerous results will follow. 1d

Fatal Case of Furious Driving.

A Young Man Secures a Livery Rig From Mr. Geo. Lipsett, Ashburnham—The Horse Found Dead This Morning Alongside the River Road Near Mr. John Carnegie's Residence — The Buggy Found Also.

Last evening about eight o'clock, Mr. Thos. Tully applied to Mr. Geo. Lipsett's livery, Ashburnham, for a horse and buggy to drive to his grandmother's residence on Smithtown hill. He said he would be back in less than an hour. After some hesitation, the horse having been driven that day, Mr. Lipsett gave him a top buggy and a fine brown mare eight years old. The conveyance did not return to the stables during the night although Arthur Lipsett waited all night long for the horse to return. Mr. Lipsett stated to a reporter this morning that Tully came to him this morning and appeared to have been much the worse of liquor during the night. He said he went to his grandmother's, but did not get his clothes, which he said he was going for. He took Hector Baker with him and they went for a short drive. While proceeding along the River road at an ordinary pace, Tully says, the horse took a fit near the steep embankment alongside of the road near Mr. John Carnegie's, and that it fell over in the ditch dead. The buggy was returned to Mr. Lipsett this morning. Although clean when it went out of the stable it was covered and spattered with mud all over, the dash board was beat and the vehicle bore all signs of furious driving. The harness was cut and torn in many places. Mr. Lipsett thinks that the mare was driven to Lakefield at a furious rate, and that they were on their way home when the horse died from furious driving. The animal was a splendid traveller, and was only too willing to go if allowed the lines. He has no doubt that the horse was driven so fast and so furious that it dropped dead. The body of the animal was buried this morning.

News Nuggets.

—Good Friday is two weeks from yesterday.

—The curlers' banquet has been settled for Thursday night next.

—A meeting of the School Board will take place Tuesday, at 7:45 o'clock p. m.

—The curlers' banquet will take place at the Snowden House on Thursday night.

—The Peterborough Bicycle Club will hold a meeting very soon to organize for the season.

—The number of pupils enrolled in the public schools of Prince Edwards for 1891 is 751 less than the number in 1881, and 1506 less than in 1871.

—The closing assembly which was to have been given by Prof. A. Roy McDonald's dancing classes on Friday April 8th has been cancelled for the present.

—The Maple Leaf Base Ball Club, Belleville have already arranged matches with good teams outside of Toronto, and with two first-class amateur teams in Toronto.

—The police are determined to stop the riding of bicycles on the sidewalks. Many complaints have been made. The road is the place for cycling according to law.

—Mr. T. B. McGrath has completed some very fine painting done under his supervision in Messrs. McKee & Davidson's hardware store. It now presents a very bright and inviting appearance.

—An "At Home" in aid of the parsonage fund of the Mark street Methodist church, Ashburnham, will be held at the residence of Mr. W. Wand, Lake street, on Thursday April 7th. Admission 25 cents.

—James Finie, of Ashburnham, who was brought up before County Magistrate Edmison yesterday afternoon, charged with assaulting James Camming, was fined $2 and costs ($8 60 in all.) Mr. E. B. Edwards appeared on behalf of the prisoner. The evidence went to show that the defendant was so under the influence of liquor at the time that he did not know what he was doing.

Personal.

Mr. Wm. Bradburn, reeve of Omemee, is in town to-day.

Mr. M. J. Gage, of Montreal, dancing master, is in town for a few days.

Mr. R. Taylor, of Reid, Taylor and Bain, the noted milliners of Toronto, is in town to-day.

Mr. D. W. Anderson, traveller, Hastings, and Mrs. Anderson, intend removing to Peterborough.

Prof. W. T. Harrington, and Miss Nellie Harrington, of Boston, are registered at the Grand Central Hotel.

Messrs. A. Paterson and John Ferguson, connected with the Public Works Department, Ottawa, are in town to-day.

Mr. S. Henderson, wife, mother, and child, Port Hope, left yesterday to visit friends in Peterborough and Lakefield.

Miss Ballantine, Peterborough, who has been the guest of Mrs. C. A. Smith, Walton street, for two or three weeks past, left yesterday for home.—Port Hope *Guide*.

The West Superior (Wisconsin) *Daily Call*, has the following, respecting a former resident of Peterborough and late of the G. T. R. offices, Belleville:—"Mr. John Crowe, who has been for some time past stenographer with the Eastern Minnesota railway, has accepted a more lucrative position in the same capacity with Mr. R. J. Wemyss, vice-president of the Land & River Improvement company."

Go to Jos. Armstrong's for kid gloves—396 George street. 4d78

Ladies.

A pin in your brooch costing only 5 cents, at WYATT'S. If broken within three months will be replaced free of charge.

Clearing Sale of Groceries.

As I am going extensively into liquors, I find it necessary to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. MORROW, 340 George street.

The Latest Hat.

W. C. Kirk has bought a lot of mixed tea, a bankrupt stock, good sound tea, which he offers at 15c. per pound in twenty pound boxes. You surely cannot get better value than that; don't think because the price is so low that the tea can be no good; I guarantee it. W. C. Kirk, Ashburnham. Telephones, Ontario No. 6, Bell No. 312.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection of this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. R. STRATTON.

Y.M.C.A. Notes.

Young men's rally to-night from 8 to 9, Topic—"Final Re-coming," led by Mr. R. M. Russell. Bright service for young men, who will receive a warm welcome. Lively singing led by orchestra.

Bible study and consecration service on Sabbath morning, led by Mr. Thomas Dodds. Topic—S. S. lesson, "The way of the Righteous," Ps. i, 1-6

Personal purity meeting Sabbath afternoon at 4.15. Straight talk to men only by Mr. M. Camming. Hearty singing led by Y. M. C. A. band.

Gospel and song service Sabbath evening at 8.30. Missionary night, address by Sheriff *Hall*, and a letter will be read from Mr. F. G. Saunders, China. Public are invited.

Monthly meeting of board of directors Tuesday evening at 8.

Gymnasium classes Monday and Thursday evenings, Sergt. Major Rundle instructor.

Bible study for young men Thursday evening from 8 to 9

We thank Mrs. M. Kibbin for scrap book for Junior Department.

The monthly meeting of the Ladies' Auxiliary of the Y.M.C.A., will be held on Tuesday afternoon at 4 in the Association rooms. All who had tickets for the late entertainment are requested to make returns. Ladies interested in work for young men will be cordially welcomed.

A special effort is being made to bring the celebrated Frederick Boscovitz Hungarian solo, pianist and composer, to give a lecture recital under the auspices of the Y. M. C. A. the later end of April.

Subscription lists are being circulated and it is hoped the musical public will give the effort their hearty encouragement so that our citizens may enjoy this treat.

Syrup of Figs,

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

A Farewell Supper,

Last evening about ten o'clock some thirty members of the Otonabee Lodge, No. 13, and Peterborough Lodge, No. 111, I.O.O.F. assembled at Mr. T. Dunn's Palace Restaurant, to bid good bye to their efficient team instructor, Bro. Robt. Pierce of Brantford. Mr. Pierce during his seven months residence in Peterborough has made many friends in and outside of the craft. Last evening he was tendered an oyster supper, prior to his departure for home this morning. Bro. John Nugent, D.D.G.M. ably filled the position of President. A social time was spent, the usual toasts were proposed and duly honored and several lively songs were sung, which helped to fill in the time pleasantly until after twelve o'clock, when the happy assembly dispersed, sorry to part but hoping to meet again.

Mr. Warren D. Wentz
of Geneva, N. Y.,

Tells of His Fearful Sufferings After Gastric Fever and His Cure by

Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says:

"I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to

Die of Starvation

I took pepsin compounds, bismuth, charcoal, cod liver oil and malt until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like pouring melted lead into my stomach. I happened to think I had part of a bottle of Hood's Sarsaparilla that had been in the house for two or three years, that I found had benefited me previously for dyspepsia. I began taking it and soon began to feel better. I have now taken a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to

Pie and Cheese

which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla."
W. D. WENTZ, 18½ Castle St., Geneva, N. Y.

A Good Voucher

"I have known Mr. Warren D. Wentz for many years and can vouch for him as a man of veracity and one well known about here. I have sold him several bottles of

Hood's Sarsaparilla

during the past few months." M. H. PARSHIDOE, Druggist, Geneva, N. Y.

Hood's Pills Cure **Liver Ills**

LeBrun's Old Stand, George St.

A Fine Entertainment,

Was that Given Last Night by the Edison Amateur Athletic Club in the Opera House Music Hall—A Large Audience—A Varied Programme—An Enjoyable Time.

The entertainment given in the Opera House Music Hall last evening under the auspices of the Edison Amateur Athletic Club was a "howling" success. The hall was packed to the doors, until every available seat and accessible place was taken up. Scores were turned away, unable to gain admission.

The first number on the evening's programme was an overture rendered by the Peterborough Amateur Orchestra, under the leadership of Mr. J. Butcher. Then came a song by Mr. W. F. Harris. He was dressed in a grotesque costume and sang "Is It Likely?" In response to a merited encore he sang, "McCarthy" in fine style. Messrs. F. White and J. Black gave an exhibition of boxing, sparring lasting two minutes each round, in a three round match. Both contestants got in some good blows and the struggle ended with honours about evenly divided. The next event was a quintette by Messrs. W. F. Harris, Wm. Levis, Geo. Sweetlove, W. Whelton and H. Holt, singing "When Jamie comes over the sea." Each one with blackened face in quaint costume had to obey the recall which was given. Mr. C.W. Payne followed in a sentimental song, "Do they ever think of me at Home?" He sang in fine voice and with good effect. The clog dancing of Messrs. R. J. Kearney and Wm. Levis was one of the best events on the programme, and so takingly did they appeal to those present, that they were rapturously encored. Another "star" of the evening was Mr. P. McArthur. He sang very pathetically and in clear musical voice, "When the sun goes down to-night, I'm going to say good bye." In answer to the spontaneous plaudits accorded him he proved his ability to handle the "rattle bones" in no mean manner. Messrs. F. J. Daly and Jas. Mongrath who have often appeared before Peterborough audiences, delighted them again last night. They were compelled to appear and as with delicate yet clever touch they picked the musical strings, there was a tramping of feet all over the hall. A stump speech by Mr. J. Sawyer, the negro philosopher, in which he gave a brief and pointed dissertation on the mayor, woman and the elephant, closed Part I.

After a few minutes intermission the orchestra favoured with another selection. Mr. W. F. Harris who contributed very materially towards the success of last evening's entertainment sang a solo and was recalled. Mr. H. J. Kearney gave a comic song and dance, and on his second appearance sang "Good Old Michael Joe." Mr. Sawyer then gave another stump speech on a variety of subjects. Messrs. Daly and Mongrath rendered another banjo selection, and Messrs. Lewis and Kearney again appeared in a clog dance. They also gave a genuine Irish jig to effective banjo accompaniment. The quartette, composed of Messrs. Harris, Lewis, Sweetlove, Whelton and Kearney, sang "That Moss-Covered Bucket which Hangs in the Well." Mr. Harris in each instance taking the solo part. Encored, they sang, "Don't you Hear Dem Bells a Ringin'?" The programme closed with a grand minstrel sketch, in which plantation scenes and songs were introduced with good effect, and in which two baseballists, Messrs. S. T. Arthur and E Goode, settled their superiority by a game of fisticuffs. "God Save the Queen" brought a creditable evening's entertainment to a close at 10.20 o'clock.

NOTES.

The fencing contest between Messrs. Taylor and Harris could not be given, as the foils and masks which had been ordered in Toronto, did not arrive to permit of this.

Mr. R. E. Layfield, secretary of the Edison Club, was the efficient stage manager of the evening.

The tugs of war on cleats between four teams chosen from four departments of the Edison Works could not be given as the stage was not large or roomy enough for this. Hence the contest had to be dispensed with.

On either side of the draw curtain hung the national banners of England and the United States, while across the top was strung a large red banner with the word "Edison" in applied white letters.

The object of last night's entertainment was to raise funds in order, if possible, to keep open the Edison club rooms all summer and defray the expenses thereof.

The club will give a grand "At Home" in the opera house during the latter part of April. An enjoyable time is anticipated.

All the characters last night were first class "darkies." The blacking of the faces and the quaint costumes, together with their actions were natural and life like.

The tugs of war on cleats which were to have come off at the concert last night will take place at the Edison Club rooms on Monday evening. All who desire may see it. The winning team will receive challenges from any shop or athletic team in town.

Mr W. F. Harris was the man who pulled in the black and tan dog last night in the minstrel show. It took some 35 feet of inch and a half rope and the assistance of the whole company in order to successfully accomplish the end. The dog weighs about a pound and a half.

Church Chimes.

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral, Roman Catholic, there will be two masses celebrated, the first at 8 a.m., the second at 10:30 a.m. Vespers at 7 p.m.

Foresters Forget Not Favours

Thanks for Sermon and Service of Song at St. Andrew's.

The following letter of acknowledgement and thanks requires no explanation:—

PETERBOROUGH, March 28 h, 1892.

To the Managers, Choir and Pastor, St. Andrew's Church:

By resolution of the united Courts Langton, Little John and Peterborough, Canadian Order of Foresters, the undersigned are authorised to convey to the Managers, their warmest thanks for the use of the magnificent and commodious church on the occasion of holding our anniversary services, March 27th inst; to the choir who so ably assisted in the musical portion of said service, and to Rev. Mr. McWilliams for the excellent discourse delivered. The masterly manner in which the text was explained, its originality and forcible teaching, must have impressed all with the necessity of serving more faithfully the Lord and Master, who is over and above all our philanthropic work.

(Signed)

A. MCNEIL, for Court Peterborough.
A. H. STRATTON, for Court Langton,
F. H. DOBBIN, for Court Little John.

A Prize Puzzle.

If a frog is at the bottom of a well, ten feet deep, how many days will it take him to get to the top if he climbs up one foot each day, and slides back six inches each night.

One Hundred Dollars in cash will be paid to the person who sends the first correct answer to the above prize puzzle, an elegant pair of diamond earrings in solid gold settings given to the one sending second correct answer. A complete education at business college given for fourth correct answer. An imported Music Box (playing six pieces) given for fifth correct answer. A silk dress pattern for each of the next five correct answers. A handsome parlor lamp to each of the next ten. AND A SOLID GOLD WATCH FOR THE FIRST CORRECT ANSWER FROM EACH PROVINCE. Every person answering must enclose four three cent stamps for two sample copies of the finest illustrated publication on this continent. We give these prizes simply to introduce it. Address, LADIES' PICTORIAL WEEKLY, (22), Toronto, Can.

There Are Others.

But the barber shop you, reader, want to go to is BILLY MORGAN'S, the high-class barber, at 426 George street.

Police Court.

SATURDAY, April 2nd, 1892.

There was a large attendance at the police court this morning. A young man was arrested on George street last evening about eleven o'clock by Officer Stewart in a beastly state of intoxication. He resisted arrest all the way to the cells. This morning he pleaded guilty to the charge and was fined $2 and costs, ($5 20) in all.

Thirteen young boys were summoned before the magistrate this morning on a complaint laid by Mr. Daniel Cushing. He stated that on the night of March 31st, these boys were assembled on the corner of Sherbrooke and Park street in front of his residence. They were playing "hunt hole," creating a general racket and seriously disturbing his peace. He stated that they were in the habit of congregating around the corner, swearing and throwing stones, breaking the glass in the adjoining buildings and doing other damage.

The magistrate gave them a wise sound advice, and said that if they ever appeared before him again on a similar charge he would give them the full benefit of the law. He was determined to preserve order in the town.

MORTGAGE SALE

—OF—

Freehold Property

—IN THE—

Township of Anstruther

UNDER and by virtue of the power of Sale contained in a certain mortgage, which will be produced at the time of Sale, there will be offered for sale at Public Auction by John Haggart, Auctioneer, at MORGAN'S HOTEL, Hunter Street, Peterborough, on

Saturday, the 23rd day of April, 1892

at the hour of Two o'clock P. M., the following freehold property, viz:

Those parcels or tracts of land situated in the Township of Anstruther in the County of Peterborough, and being composed of Lots 38 and 39, in the 13th Concession of said Township, containing 80 acres more or less, 40 acres are said to be cleared and fenced, the balance is bush.

There is said to be a hewn log house on the premises.

The property will be sold subject to a reserve bid.

TERMS.—20 % of the purchase money to be paid to the Vendors' Solicitors at time of sale, and the balance within one month thereafter.

For further particulars apply to

BULL & WERRETT,
Vendors' Solicitors,
d 57 Adelaide Street, East, Toronto.

Plow-Handle Pleddings.

A fool is like a sheep; his fleece is worth more than his carcass.

Keeping cows to make axle-grease butter is living next door to the poorhouse.

The cars don't kill as many men as die of being too smart in money matters.

Using one's vote to pay a spite is like burning out a bumblebees' nest with greenbacks.

Mud roads, as a luxury, are not to be compared with mushrooms on toast for expensiveness.

Next to a bunkoed farmer, the biggest fool is the fly that tickles you and waits to be slapped.

The farmer who raises army peas where he ought to raise amber wheat, outs down his own wages.

A rascal is like a locomotive; always trying to run away from his own smoke, but always making more of it.

A loose mule among the horses at a political meeting is as strong an argument while it lasts, as the other side wants.

A yellow-jacket's nest in the meeting-house yard can break up worship just as speedily as though the devil attended to it in person.

A Brine Test.

When making a brine in which to immerse meat, a good test is for the brine to float an egg. There is no liability in using too much salt.

How Sheep Enrich Land.

Sheep enrich land at a small cost. They distribute the manure over the surface and tread it into the soil with their feet.

Killed By a Street Car.

HAMILTON, April 1. — Joseph Collins, a glassblower employed in the Hamilton Glass Works, was run over by a street car in James-street north yesterday afternoon. One wheel went over his body before the driver could do anything, and inflicted injuries which proved fatal, Collins dying about 7 o'clock in the evening.

Nova Scotia Member Dead.

HALIFAX, N. S., April 1.—The death occurred here, after five days' illness, of H. H. Chute, Liberal M. L. A. for Annapolis. He leaves a wife and daughter. His age was 69.

Newmarket's Oldest Resident Dead.

NEWMARKET, April 1. — George H. Bache, Newmarket's oldest resident, died yesterday. He was Division Court bailiff and market clerk for many years. Deceased was born in Staffordshire, England, in 1813 and came here in 1837.

Hundreds Burned Out.

NORTON, Kan., April 1.—A destructive prairie fire swept over Noble and Highland townships, Norton county, yesterday, destroying an immense amount of property. Hundreds of families lost their all.

The Warsaw Official Journal says: Another balloon manipulated by Germans has been seen crossing over the frontier. The Government will take steps against this infraction of the conventions as a breach of military laws. The Czar intends to inspect the troops in Poland in April.

This is the Time.

The hotbed and cold frame should be made objects of special attention at this season. The plants require warmth, and air must also be permitted. Giving them fresh air at the proper time, and without injury, is something that requires good judgment and close attention. To raise the sash too early in the morning, or close it too late in the afternoon, may check the plants. The outside temperature, the temperature of the hotbed itself when closed, and the degree of growth of the plants, are all to be considered.

Value of Good Feeding.

Prof. Robertson made a statement at the New York dairy convention, as an illustration of the value of good feeding, that he knew of a man in the Province of Quebec who had four cows. In 1888 they gave 78 pounds of butter each. He commenced feeding a little corn and bran, and in 1889 they gave 131 pounds of butter each. He kept increasing the ration and good care and in 1890 it was 204½ and this year it will be 250 pounds. This shows what men can do with the common cow.

Mr. C. Harper, Ottawa, Ont., writes: "I have pleasure in stating that your Pink Pills are a wonderful tonic and reconstructor of the system. Since beginning their use I have gained on an average a pound of flesh a week. I have recommended them to a number of my friends, who declare that they are the only medicine that they have ever used that do all that is claimed for it. Sold by all dealers. dw

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

PAIN from indigestion, dyspepsia and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this. dw

As a pick-me-up after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

Would Not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it; druggists keep it. W. A. DYER & Co., Montreal. 6d74

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of a flesh and blood maker, and has been used with marked success by the physicians in the insane asylum, penitentiary and Hotel Dieu, and general hospital, Kingston. In big bottles at 50c. and $1 00, at Peterborough drug stores. dw

Is sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take. dw

Canada's Wonder.

The more it is known and the further it is carried to distant shores the greater grows the wonder. All nations and tongues declare Leo perfection to assist digestion, purification of the blood, the assimilation of the food, to strengthen and promote healthy vigor throughout. Leon Water has no compeer. For sale all over. dw

Sow Oats Early.

Oats are not half appreciated by the majority of people. But nothing will give strength to mature animals like oats or growth to young stock. Arrangements ought to be in progress now for seed of extra quality for the spring sowing. No section appears to be too cold for the crop, which actually does best in a cold, wet season. Oat hay is a superior feed and oat straw and chaff are worth but little less than fair common hay in the nutriments they contain. Fed with a little wheat bran they winter stock equally well. Horses given oat straw cut and wet with 3 pts. of oil meal or cotton meal will be fat and strong in spring. To harden them up for work, a gradually increased ration of oats and corn should be added a month before plowing begins.

One Hen's Production.

"How many eggs is a hen wound up to lay during her natural laying life, do you suppose?" said a man who makes a business of poultry raising and eggs. "You've no idea, eh? Well, sir, a good healthy hen—I'm not speaking of Wyandottes or Leghorns, Plymouth Rocks, or any particular breed, but just a hen—a good, healthy hen doesn't fulfil her destiny until she has turned out 600 eggs—fifty dozen eggs. That is what nature fitted up the hen to do in the way of eggs, and gives her eight years to do it in. The first year of her egg-producing life the hen lays only 20 eggs, but in the three succeeding years she rolls up a score of 370. That leaving her only 230 to get rid of in the four remaining years."

What Good Farming Does.

A man to successfully run a farm should have some sort of qualification for the business, as well as in the case of any other business. A man with a love for fine animals has one qualification for successful farming, and a man who loves rural life better than town life has another. The art of creating a fine landscape is greater than the art of painting one. Good farming creates good landscapes.

News About Town

It is the current report about town that Kemp's Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles cost 50c and $1. dw

For Nettle rash, summer heat and general toilet purposes, use Low's Sulphur Soap. w d

Some symptoms of worms are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

THE BEST FAMILY PILL IN USE

FOR SALE BY ALL DEALERS

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

The Travellers' Safe-Guard.

AMAGAUDUS POND, N.S., Jan. 27, '90.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—For many years, I have been a firm believer in your "Dr. Morse's Indian Root Pills." Not with a blind faith, but a confidence wrought by an actual personal experience of their value and merit. My business is such that I spend much of my time away from home, and I would not consider my travelling outfit complete without a box of Morse's Pills. Yours, &c.,
M. R. MCINNIS.

PASSENGERS FROM ANY ABOVE OF THE COMPANY

"August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations with beneficial results, I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDERICK, Saugerties, New York.

A worn-out Stomach.

W. B. Utsey, St. George's, S. C., writes: I have used your August Flower for Dyspepsia and find it an excellent remedy.

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cummines, Esq., a leading druggist of Welland, Ont., speaks for itself:
MESSRS. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMMINES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

SOCIETY IN GEORGIA.

Sweet Life Viewed by a Frolicsome Southern Editor.

We passed the hat in church yesterday for the benefit of the heathen and got $6 and sixty vest buttons. We sent the heathen the buttons.

During the sermon, while we were snoring, some one relieved us of one of our boots. It'll make tough missionary stew—but let her rip!

There is considerable war talk in Billville. Five hundred colonels are calmly awaiting orders to march and our one live private wants to get out of the dime museum and join the racket; but we're holding him down.

It is almost as good to be born lucky as rich. In our capacity of justice of the peace we divorced another couple yesterday, and, finding that the woman had $20 in her own right, we imposed a fine of $10 and got our brother-in-law to marry her on the spot in order to keep the other $10 in the family.

No lynching this week. Rope cut.—Billville Banner.

Humorous Paragraphs.

Half a loaf is better than working all the time, anyhow.—Chicago Times.

"How do I stand with your father?" he asked. "I don't think, George," she answered, after some thought, "that you had better stand at all when you are with father. You had better run."—Washington Post.

Toffer—Have a cigar, old boy. I'm afraid, though, these are not very good. In fact, they may be worse than those I gave you last." Friend (in a burst of politeness)—Impossible, my dear boy, impossible—New York Weekly.

"You know," said the young man who wanted to elope, "that 'love laughs at locksmiths.'" "Yes," she answered, "but it doesn't go this time. All my jewelry is in the safety deposit vault, and papa has the key."—Washington Star.

Papa—Johnnie, I heard that you were a bad boy at school to-day. Did you break some rule and the teacher had to whip you Johnnie—No, papa; I didn't break any rule, but the teacher she hit me so hard that she broke her'n.—Harvard Lampoon.

Wandering Tramps Applied the Torch

PORT HOPE, April 1.—The stable and sheds of James Malone and an empty house adjoining, near the G. T. R. station, were destroyed by fire yesterday morning, involving a loss of $700. It is supposed wandering tramps ignited the blaze.

Seventy Men Lose Their Effects.

PARRY SOUND, April 1.—Mr. James Ellis' lumber camp near Seguin Falls was burned to the ground. The men were all at work and only the cooks were near the place. All the clothes belonging to 70 men were burned, together with their money and other valuables.

Pleasure Steamer Burned.

LONDON, Ont., April 1.—The steamer City of London, owned by Capt. Foster, was totally destroyed by fire last night at Wonderland, a pleasure resort a couple of miles down the river. Loss between $8000 and $10,000, partly insured.

FOR THE NORTHWEST.

Davitt's Proposal to Send Select Colonists to Canada.

LONDON, April 1. — Michael Davitt's article warmly praising the Canadian Northwest is attracting considerable attention in all circles, especially in view of his former hostility to emigration. Mr. Davitt urges a proposition that the Imperial Government should loan £10,000,000 sterling at a low rate of interest to the Dominion and Provincial Governments, to be used for the settlement in Canada of 100,000 select colonists who are now being driven to British cities from the rural districts.

Dairymen for Canada.

WINNIPEG, April 1. — The Dominion Immigration Agent of this city has received word from John Dyke, Canadian Government agent in Liverpool, England, to the effect that among the immigrants now departing from Great Britain for Manitoba are a number of experienced dairymen both British and foreign who will reach Winnipeg during the next few weeks. They are men of considerable capital.

Pleasant as Syrup!

Mr. Douglas Ford, Toronto, states that Milburn's Cod Liver Oil Emulsion with Wild Cherry Bark is free from objectionable taste, being almost as pleasant as syrup, while for coughs and colds it gives complete satisfaction, acting promptly even in obstinate cases. dw

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flushes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

Ladies appreciate Ant-Dandruff from the fact that it not only thoroughly removes dandruff with three applications, but stops falling of the hair, restores faded hair to its original color, and makes it soft and pliable without leaving any injurious effects of a dreaming being used—clear as crystal, clean to use, it is a valuable toilet preparation. dw

TALKS FOR THE FARMER.

PERMANENT PASTURES NOT SUITABLE FOR CANADA.

Prof. Shaw, of the Ontario Agricultural College, Gives His Reasons for This General Truth, but Shows How They Can Yet be Worked Here.

Prof. Thomas Shaw, writing to the Goderich Signal on permanent pastures, says: I desire to say at the outset that permanent pastures are not likely to occupy so prominent a place in our agriculture relatively as they do in that of Great Britain. In the first place, our seasons are too dry. In the months of July and August, and sometimes in September, the weather is oftentimes so dry that lucerene even grows but shyly. In Great Britain, during the same months, they too often have a superabundance of moisture. In the second place, our winters are too cold. Because of the intensity of the frost, many grasses of much value in Great Britain cannot withstand the cold of our winters, and consequently they perish. And, in the third place, we happily do not require them so much as the people of Great Britain, as we have a silage and fodder crop in Indian corn of much more value than anything which they can grow for these purposes.

Yet it would not be prudent to say that we have no place for permanent pastures laid down upon the European plan. Many farmers may find it to their advantage to keep a certain field in pasture for a term of years in succession. In these instances, mixed grasses if properly selected will give more pasture than can be obtained where not more than two or three varieties are grown.

The value of permanent pastures in this country will depend almost entirely on the nature of the soil, and the selection of the grasses to be sown. The soil should be a loam, rich in humus, and well drained naturally or otherwise; that is to say, it should be soil which is naturally well adapted to the growth of grasses. On dry, gravelly soils, very stiff clays, or on light sands, it would be a great mistake to try to grow mixed grasses in the permanent form. The returns would certainly be disappointing, as such lands are not well adapted naturally to the growth of grasses. On the stiff clays the results would be more satisfactory than on the light lands, after the seeds had got a start.

The following is the list of grasses and clovers that I would recommend in laying down a permanent pasture in Canada, and also the respective amounts of the seed of each to use:

Timothy	2 lbs.
Orchard grass	3 "
Meadow foxtail	2 "
Meadow fescue	3 "
Tall oat grass	3 "
Lucrene	4 "
Alsike clover	2 "
White or Dutch clover	1 lb.
Yellow clover or trefoil	1 lb.
Total	21 lbs.

These varieties are all hardy, and will still stand well the rigors of our cold winters. Some of them, as timothy and Alsike clover will last only for a limited term of years. Orchard grass is bunching in its habits of growth when sown thinly; hence it is so far objectionable, but it furnishes a large amount of food both early and late in the season. Tall oat grass is a vigorous grower, of proved hardiness, and, like orchard grass, furnishes a good bite in spring and also in autumn. Meadow fescue is a midsummer grass, a persistent grower, and has much power to withstand well the influences of frost and drought. Lucerne is a most persistent grower, but it should not be sown where the subsoil is not deep and porous, and where the water table is not below the line of the growth of the deepest roots. Kentucky blue grass is not mentioned in the list for the reason that it is indigenous to our soils, and in one form or another will soon make its way into the pasture.

I would also have it distinctly understood in the first place that the quantities of the different varieties to be sown may vary from those given in the above list. The capabilities of the soil may call for this, and also the wants of the particular kinds of stock to be grazed upon these pastures. And in the second place, that there may be other grasses and clovers which could with advantage be added to the list as soon as we have proved their capabilities; therefore, a list of these grasses given some years hence may differ considerably from that given in this paper. The value of these grasses has been proved at this station and to some extent at other places; hence they are mentioned as varieties which if sown will not prove a delusive hope.

It Leads the Leaders.

The foremost medicine of the day, Burdock Blood Bitters, is a purely vegetable compound possessing perfect regulating powers over all the organs of the system and controlling their secretions. It so purifies the blood that it cures all blood humors and diseases from a common pimple to the worst scrofulous sore, and this combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin, render it unequalled as a cure for all diseases of the skin. From one to two bottles will cure boils, pimples, blotches, nettles, rash scurf, tetter and all simple forms of skin disease. From two to four bottle will cure salt rheum or eczema, shingles, erysipelas, ulcers, abscesses, running sores, and all skin eruptions. It is noticeable that sufferers from skin diseases are nearly always aggravated by intolerable itching, but this quickly subsides on the removal of the disease by B. B. B. Passing on to graver and more prevalent diseases such as scrofulous swellings, humors and scrofula, we have undoubted proof that from three to six bottles most invariably and by outward application (if the skin is broken) to the affected parts will effect a cure. The great mission of B. B. B. is to regulate the liver kidneys, bowels and blood, to correct acidity and wrong action of the stomach and to open the waterways of the system to carry off all clogged and impure secretions, allowing nature thus to aid recovery and remove without the bad blood, liver complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism and every species of disease arising from derangement of the liver, kidneys, bowels, stomach or blood. We [illegible] every bottle of B. B. B. Should any one [illegible] using the first bottle we will refund the money on application [illegible] We will also [illegible] send testimonials and information showing the effects of B. B. B. in the above cases on application to T. MILBURN & Co., Toronto, Ont. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

Some women imagine that nothing will stand the peculiar breaking strain of their forms on corset "bones."

They don't know Kabo, which neither breaks or kinks.

If B. & C. corset boned with Kabo breaks or kinks in a year, go back to the store at which you bought your corset and get your money again, every cent of it.

If the corset doesn't suit you, after wearing a week or two or three, go back for your money.

There's a primer on Corsets for you at the store.

ASK YOUR DRY GOODS DEALER FOR THESE CORSETS. dw

I AM A MAN

"I have been treated by doctors, who had long lists of so-called cured patients, but they could not reach my case, and hope had been murdered in me by fair promises, but on first application of your magical appliance, hope and confidence came flocking in stronger than the combined powers of the four winds. I knew then that you would cure me, and now that I am a man and well again I cannot thank you sufficiently for the cure. So again I say, use my name as reference whenever you wish. You see any one else cannot use words too strong to express my sentiments in favor of so wonderful a treatment as that given by you."

ONTARIO LEGISLATURE.

A Variety of Matters Discussed in the House Yesterday.

TORONTO, April 2.—The House went into committee to consider Mr. Smith's bill to further amend the law respecting assignments and preferences by insolvent persons. This bill provides that the word creditor be interpreted to include surety and endorser in certain cases.

Mr. McCleary's bill to amend the Anatomy Act so as to prevent the body of any person dying in houses of industry being delivered to any medical faculty for the purposes of teaching anatomy was brought forward for its second reading amid decided signs of disapproval and cries of "withdraw."

Mr. McCleary made a vigorous defence of the bill and championed so well the cause of "poor people" that it seemed for a time that the bill would pass.

Mr. Meacham also upheld the bill. He thought that the bodies of criminals ought to be sent to the dissecting room, while those of the honest poor should be given a decent burial.

Implacable Science.

Mr. Mowat said that the House should consider the living rather than the dead. The original act was not for the benefit of the medical profession any more than the interests of the public generally. The country needed skilled surgeons. If bodies could not be obtained by students lawfully, they would be sure to attempt by other means to get possession of the bodies they required.

Mr. Meredith said that the poorer classes who were affected by this act were the ones who were most superstitious on this point.

Mr. O'Connor said that the reason this class of people was selected was because they left no friends behind whose feelings might be hurt. It surely could not be much of a consolation to an inmate in a poorhouse to know that the chairman of the board had to give his consent before his body could be handed over to the students.

Mr. Mowat, Mr. Ross and Dr. Willoughby opposed the bill and the House rose for recess before a vote was taken.

Mr. Loughrin's bill to incorporate the town of Sudbury was passed by the committee without discussion.

The committee passed without amendment Mr. Sol. White's bill to provide for the division of the Towship of Sandwich East; the bill to incorporate the City of Windsor, and also Mr. Ross' bill to amend the act to incorporate the Western University of London.

Mr. Meacham's bill to amend the Ontario Medical Act, so as to appoint 21 regular physicians to the council instead of 12 as heretofore; to divide the province into 21 electoral divisions in such a way that each of these divisions may have an equal number of registered physicians, and to strike out the clause allowing the registrar to remove the names of physicians who failed to pay their dues, led to a good deal of discussion by the medical men of the House.

The Provincial Secretary moved that a committee, the members of which he named, be appointed to consider this bill, a similar one by Mr. Magwood and the bill by Mr. McCleary on the Anatomy Act.

This proposition was carried. Mr. Waters' bill was withdrawn, as its provisions were covered by Mr. Meacham's bill.

Mr. Balfour's bill to provide for the admission of women to the study of practice of the law and Mr. Waters' bill to enable married women to vote for municial officers were not allowed to go on, as there was not a good attendance of the members.

The Committee Against Him.

TORONTO, April 2.—The Railway Committee of the Local Legislature yesterday morning took up the bill to incorporate the Toronto Railway Company.

Mr. Wood (Hastings) said when the amendments were inserted in the bill a few days ago it was undoubtedly the intention of the committee to make the bill so hard and fast that there would not be the slightest chance of cars running on the Lord's Day. He had since learned from Mr. Blake and others that the manner in which the bill had been amended would make it possible for the company to run Sunday cars.

Continuing he said he "was not going to argue the general question of running the cars," but wished to have the words inserted that no car shall be run on the Lord's Day. He moved a resolution to that effect, which was voted down by 28 to 21.

Mr. Clarke said the amendments had been made by Mr. Blake without authority, and it was against the wishes of the majority of the council.

Mr. Meredith: Mr. Howland has misrepresented the decision of the courts. It was not fair of Mr. Howland to try and persuade the committee in a certain direction by misleading them as to facts.

Mr. Meredith added that as far as he was concerned he could not see where the great evil would accrue from running cars on Sunday. In all cities of any size on the continent cars were run and he had failed to see any demoralising effects from it. "It was slander on the people of this country to say that the running of cars on the Sunday would cause immorality." He wished to put himself on record as being opposed to this style of legislation.

Mr. Tait had voted against Sunday cars, but he did not think the committee should

Mr. Biggar appeared before the committee to tell them that the council had at a meeting last night rescinded the motion giving the city's solicitors power to ask for amendments in the bill. That was about as far as he got, as the committee adjourned without paying any further attention to the matter.

The Toronto Vacancy.

The Toronto vacancy in the Legislature is the great topic of conversation among the local politicians, as well as the members of the House.

The Conservative camp is deeply agitated over the selection of a champion. George Tait Blackstock seems to have the first call. He is at present out of town attending a meeting of Court of Assize, but it is understood that he would accept the nomination if it were tendered him. It is claimed that he would be most acceptable to Mr. Meredith. Among the Young Conservatives mentioned as candidates are Mr. J. Castell Hopkins, the president of the association, and Mr. J. O. Holmes, the stalwart young barrister.

A New Dodge.

This is the latest and it has been practiced on Mrs. G. McKay, 508 Queen-street west. A pleasant-looking young lady steps into the store in the evening and asks leave to wait inside for a lady friend whom she had promised to meet at that point. She spends half an hour in waiting, frequently going to the door to see if the friend was in sight. The saleslady takes a customer to the far end of the store for a few minutes and shortly after the waiter also comes back, states that she will not wait any longer, thanks them for their hospitality and departs. Shortly thereafter it is discovered that a handsome said article went along with her. She carried one of these capacious bags that the ladies affect just now. They are getting much in disfavor among shopkeepers. "I call them the thief's poke," said one.

FAILURES IN CANADA.

Decreases Noticeable in Ontario and Quebec—Other Provinces Less Favorable.

NEW YORK, April 2.—In the Dominion (Newfoundland included) there has been a net decrease of only seven failures as contrasted with the first quarter of 1891, but the total liabilities have fallen away fully 4.7 per cent. Decreases are noticeable in Quebec and Ontario, but in New Brunswick and Nova Scotia (with higher averages of indebtedness) the failures nearly doubled, while the liabilities nearly trebled in the former and quadrupled in the latter. In Manitoba also, although the failures did not increase, the liabilities gained 165 per cent. British Columbia had 18 failures, against only four in three months of 1891, and the total liabilities jumped from $7050 to $105,000 in the past three months.

	No. Failures.		*Liabilities.*	
	1892.	1891.	1892.	1891.
Ontario	224	260	$1,411,609	$1,788,343
Quebec	195	200	2,287,365	2,814,818

In New Brunswick, Too.

FREDERICTON, N.B., April 2.—The Opposition in the Legislature has submitted a memorial to the Governor asking him to appoint a royal commission for the purpose of investigating a number of charges made against members of the Government and others as to receiving moneys and misappropriating the same.

HALIFAX, April 2.—The boodle investigation yesterday revealed the startling fact that $6000 of the road money apportioned the County of Cape Breton and supposed to be paid out only by the inspectors on the sworn pay sheet of the foreman had been taken by McDonald and McPherson, the members for the county and used by them and the official paymaster could not swear that the foremen had been paid by the members. In the case of $1000 it was shown that McDonald had used it to pay notes due at the bank, and that for three months after the money was drawn from the treasury the workmen were unpaid.

In other instances they paid men with goods out of their stores, in direct violation of law.

The Bayfield Investigation.

OWEN SOUND, April 2.—It will be remembered that when in the course of his campaign, Dr. Spohn, the Liberal candidate in East Simcoe, made certain charges of boodling in connection with the purchase of supplies for H.M.S. Bayfield, the Government at once issued a commission to Judge Kingsmill of Walkerton to investigate the matter. The following merchants from whom supplies were purchased here, were examined here yesterday: Messrs. James McLauchlan, George C. Brignell, George Brignell and David M. Butchart. Mr. James Howe, steward of the Bayfield, was also examined.

The investigation was then adjourned and the commissioner will probably proceed to Ottawa to take the evidence of departmental officials there.

It is expected the judge will make his report in the course of 10 days or so.

BABY'S FACE WAS RAW

Distressing Itching Skin Disease Cured in One Month by the Cuticura Remedies.

When our boy was six weeks old he had a rash on his cheek. It spread on both cheeks and chin. His face was raw. I doctored with various remedies, but it got no better. My mother advised me to try the CUTICURA REMEDIES. I used them faithfully, and in one week the boy looked better. In one month he was cured, and now he is three years old and no signs of it returning. The child was so bad I had to tie him in a pillow-case, and pin his hands down so that he could not scratch his face. I cannot speak too highly of the CUTICURA REMEDIES. I recommend CUTICURA whenever I can. I would be pleased to see any one and talk to them of the good it has done my boy.

MRS. CYRUS PROSCH,
Coytesville, Fort Lee P. O., N. J.

City Clothing Store, Sign of the Golden Horse-Shoe,

No. 381 George St., Peterborough

SPRING has come again, and in presenting our Annual Spring Announcement for the Nineteenth time, we have much pleasure in calling attention to the fact that, in consequence of our ever fast-increasing business, we begin this season's trade in new and commodious premises, with nearly **double the selling space** and **double the stock,** thus giving us, under one roof, what we believe to be the **Largest, Best Lighted and Best Arranged Retail Clothing and Tailoring Establishment in the Dominion.**

Every Department in the House has been re-organized and largely increased and each put under the management of experienced hands.

OUR VAST STOCK OF

Imported and Canadian Cloths

Ready-made Clothing, and Gents' Furnishings

has been the result of personal selection and careful buying in the Best Markets, for Close Cash Prices, so that we are prepared to offer **Unprecedented Values** all over our immense establishment. All that ample capital and an experience of over nineteen years' closest application to the trade can give us, has been made use of to the very best advantage.

CUSTOM or ORDERED CLOTHING

Our Tailoring Department is for all comers. Here we are prepared to fill orders for all the Leading Styles of Garments now worn, and can offer

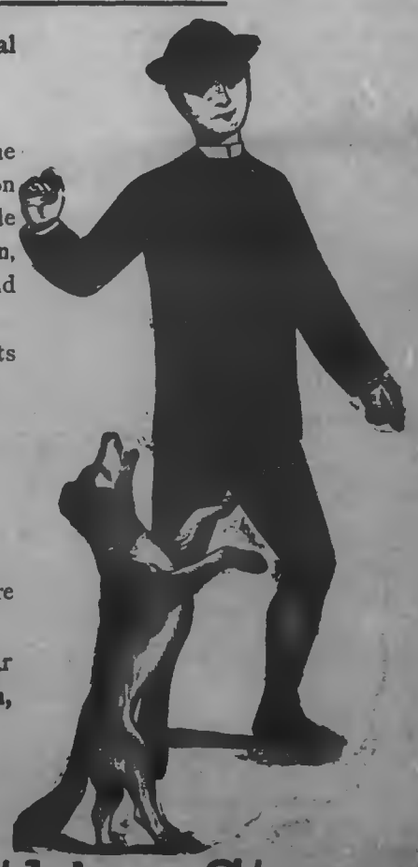
Perfect Fit, Perfect Style, Excellent Quality and Low Prices

as inducements. If you want a durable, well-trimmed and well-made Spring **Suit or Overcoat,** leave your measure at the City Clothing Store. We are anxious to **have fine** dressers and all who are **particular** as to fit, style and material, to come and examine our immense variety of **Scotch, English, Irish and Canadian Tweeds, French Worsteds, Spring Overcoatings in all fashionable shades.** This department is under the superintendence of Mr. Miles Froats, and a large staff of first-class workmen.

READY-MADE CLOTHING.

Ready-made Clothing is now one of the principal Departments of our Establishment.

This year we have exercised greater care than ever in buying from the very best and most reliable wholesale houses in Montreal, Toronto, Hamilton and London. We call attention, particularly, to the completeness and wide range of styles shown, to fit all sizes of Men, Young Men, Youths & Children, from three years of age upwards. The stock is twice as large as usual, and guaranteed goods that can be depended upon. The prices are Lower ever, having been bought for closest cash figures. Our stock meets the wants of rich and poor, and for each we have something honest for honest money.



GENTS' FURNISHINGS.

Our Stock of Gents' Furnishings is more extensive, more varied and more fashionable than ever before.

Dress Shirts, Collars and Cuffs, Men's and Boys' Neckwear Ties and Bows, Underwear and Hosiery of the Best English, French, Canadian and German makes.

☞Come and see us Early.

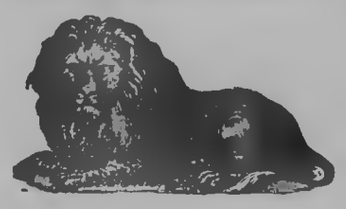
GOLDEN LION!



Delighted!

TO THE LADIES we have been indebted, in a large measure, for our business success, and we are delighted to be able to make this candid acknowledgment.

At no time has this been more evident than during the recent most successful opening of our Millinery and Mantle Show Rooms for the Spring and Summer Season of 1892.

Never has it been our privilege to wait upon so large a number of delighted visitors, and never have we been favored with so many valuable orders as at this opening.

Hundreds of discriminating lady buyers have daily inspected our selections, and promptly placed their orders upon learning our reasonable prices.

During the whole of next week, we will continue to put on exhibition later arrivals of imported Pattern Bonnets and Hats, choice collections of Fine French Flowers, and an endless variety of Millinery Novelties. Also, a magnificent stock of Imported Pattern Mantles, Jackets and Wraps.

The Values, in many cases, are such as could only be offered by making large import orders, and by the very closest figuring.

Respectfully,

ROBERT FAIR,
Sign of the Golden Lion,
383 George Street, Peterborough

MILLINERY OPENING
—AT—
TURNBULL'S
—ON—
TUESDAY AND WEDNESDAY,
April 5th and 6th.

Our commodious Millinery Show Rooms will be formally opened to display all the Novelties, in Millinery, of the season on April 5th and 6th. We could have opened a week earlier, but thought that the weather might be unseasonable and it also gives us a longer time to make preparations for a more elaborate display. We have taken every advantage to procure New and Cheap Goods in order to make our Millinery Rooms unusually attractive.

SPRING MANTLES AND WRAPS.

There will also be on display a magnificent stock of Imported Spring Wraps and Jackets.

WHITE UNDERWEAR.

Ladies when in the show room will do well to examine our large stock of White Underwear.

JUSTICE AFTER 30 YEARS

CALLED UPON TO PAY DEARLY FOR HIS YOUTHFUL FOLLY.

The Illegitimate Son Demands Recompensation for His Foster Parents—A Pinkerton Detective Has the Case in Hand—A Dresden Case Which is Exciting Great Interest.

DRESDEN, April 4.—Unknown to the many citizens of Dresden, there was in our midst recently a private detective from the celebrated Pinkerton force of the United States. Some 30 years ago there removed from the east a young man and wife and settled upon a farm in close proximity to Dresden. In the course of time he engaged the services of a young girl to assist his wife in the household work and other multitudinous duties appertaining thereto. He seemed to prosper and every neighbor looked upon him as a happy, contented man, but in a moment of weakness his affections for his loving, trusting wife became alienated and were transferred to his servant girl. The outcome of the undue intimacy was the birth of a fair boy child. In order to cover up his illicit actions he prevailed upon a certain couple who were childless and who reside near Chatham to take the child and keep it as their own. This accomplished he felt for some time relieved. He finally removed to the States, where to-day he resides surrounded with wealth and luxury, and a grown up family, and singular to relate, within 20 miles of his illegitimate son. The latter, a young man now of 30 summers, has also grown wealthy, and is carrying on a prosperous business. Murder will out, and the cause of this revelation, was the relating of the young man's true parentage by his foster parents. Actuated by a desire to recompense the old couple for their care and labor the young man engaged the services of the Pinkerton Detective Bureau to trace up the case and have the facts verified and for this purpose the United States detective was in Dresden. As soon as the chain of evidence is complete the son will confront the father and demand a sufficient sum to pay his foster parents for his keeping, education, etc.

MILLIONS IN SMOKE.

Hamburg's Monster Warehouse Destroyed By Fire—Loss of Life.

HAMBURG, April 4.—A large warehouse at the head of the Kaiser Quay was burned yesterday. The loss amounts to several million marks.

The heat from the conflagration was intense and the efforts of the firemen were chiefly directed to preventing the fire from communicating to adjacent buildings.

Herr Tegge, chief of the fire brigade, is missing and it is thought he perished in the fire. Several firemen received dangerous injuries by being struck by falling debris.

Large quantities of cotton and coffee were stored on the upper floors of the building, while the cellars were filled with casks and barrels of oil and spirits which made such an intensely hot fire that for a time it was impossible for anyone to get within fighting distance of the buildings.

Several vessels loading and discharging were lying alongside the quay. To prevent them from catching fire their lines were hastily cast off and they were towed to a safe distance from the burning building. Next to the burning building was another warehouse also filled with valuable merchandise. This building caught fire several times in different places, but before the flames gained headway the firemen extinguished them.

Damages for Burning in Effigy.

MONTREAL, April 4.—An interesting and unique case came up before Judge Tait in the Superior Court Saturday. A French-Canadian named Lortie of Cote des Neiges brought a $4000 action against four villagers for burning him in effigy at the time of the Cote des Neiges elections. Lortie had made himself unpopular and was burned in effigy before the entire village. Judgment was rendered against three defendants for $125 and costs. Another action was immediately taken out by the daughter of Lortie for burning her in effigy, and a similar judgment to that in the case of her father was rendered in her suit.

There Was No Scarcity of Whisky in This Boarding House.

OWEN SOUND, April 4.—W. J. Graham, collector of inland revenue, this afternoon seized two illicit stills in James Bryan's boarding house, better known as the Clifton House, in Bay-street. There was a considerable quantity of spirits and plant on the premises at the time of the seizure.

The Prince of Dynamiters.

PARIS, April 4.—Ravachol, the Anarchist, says that in the case of the explosion in the Boulevard St. Germain he deposited the infernal machine on the staircase of the house Mathieu watched in the street. Beala was stationed in a wine shop opposite and Chaumartin and the woman Jaubert brought the dynamite in a saucepan.

The Lobau barracks explosion was effected with dynamite packed in a metal mould used for baking cakes.

Ravachol said to the magistrate: "I am proud of what I have done. You will not get a single word of repentance out of me. If I had not been arrested I would have continued my explosions, sparing nobody connected with the condemnation of Anarchists. I would like to have blown up the Chamber of Deputies for imposing upon dynamiters the penalty of death. Let nothing stand in the way of Anarchist propaganda. I murdered the two sisters Marcou and others simply to procure money to assist the cause. I could never stoop to begging."

French Victory in Tonquin.

PARIS, April .—French troops have captured the rebel forts at Yentes in Tonquin after hard fighting, during which three officers and 17 privates were killed.

Killed Because of His Color.

CINCINNATI, Ohio, April 4.—A special from Millersburg, Holmes County, says a mob yesterday lynched an unknown negro, hanging him to a tree. He had been about the town a couple of weeks and had been ordered to leave. He had lingered about people's doorsteps and annoyed them in various ways. There are supposed to be no negroes in Holmes County. He was the only negro in the county.

The Mandalay Fire.

RANGOON, India, April 4.—The damage caused by the three fires that have occurred at Mandalay during the past few days amounts to $1,000,000.

Another fire broke out between the Zagyen bazaar in that city and the river bank and is still burning.

100 INFERNAL MACHINES

DISCOVERED BY THE PARIS POLICE IN A SINGLE DAY.

Together with a Large Quantity of Dynamite—The Anarchists Evidently Scared Out of Their Wits by the Determined Attempt to Exterminate Them Root and Branch.

PARIS, April 4.—The finding of one 100 infernal machines and several dynamite cartridges in various points of Paris Saturday, evidently having been hastily thrown away, shows that the Anarchists are greatly alarmed at the rigorous domiciliary inspections which are being made by the police and have taken this means of putting out of their possession any articles which would incriminate them. The police are prosecuting their search in the strictest manner and are ransacking every hole and corner for explosives.

Ravachac, who is the compounder of explosives, invented a kind of pancastic, having twice the power of ordinary pancastic and five times the strength of dynamite. It is composed of one part of nitro glycerine and two parts of fuming nitric acid.

OWED $93,000

Further Details of the Sensation at Brussels.

BRUSSELS, Ont., April 4.—Assistant Manager Jarvis of the Merchants' Bank is here enquiring into the facts in regard to the suspension of McIntosh & McTaggart's private bank.

The assets are placed at about $95,000, while the liabilities are only about $73,000. There was $50,000 in deposits, $12,000 of this being very lately withdrawn owing to a report that difficulty was expected. Dr. McTaggart, the senior partner, who is now engaged in lumbering in Alabama, has been communicated with and is expected here to-morrow.

In the meantime C. B. Armstrong of London is acting as receiver for the Merchants' Bank.

The difficulty has arisen from advances to local firms, among whom are grain men and who deserve very little sympathy.

McIntosh has been a resident of Brussels for about 15 years and enjoyed the highest regard of the people, and as a mark of the esteem in which he was held in Brussels was elected reeve last January, by acclamation, after a three years' experience as councillor at the board.

McIntosh wrote back from Windsor that he had plenty of surplus to square off all accounts, claiming to have a margin of over $20,000, but saying he had not nerve enough to face his troubles.

CAUGHT AT THEIR WORK.

Two Burglars Captured by the Police in a London Store.

LONDON, April 4.—At 1 o'clock Saturday morning Police Constables Ralph and Campbell while on duty noticed that something was evidently wrong in the store of Mr. E. Yealland, merchant tailor, 247 Dundas-street, and on going to the rear of the building found a window broken. The officers quickly secured entrance, and with the aid of their dark lanterns discovered two men crouching behind a counter. Ralph and Campbell drew their revolvers and covered their game, who at first appeared disposed to resist arrest. They were finally overpowered, however, and conveyed to the station. One of the men had on a new suit of clothes, and his old ones were lying on the floor. The fellow had decked himself out in a new pair of trousers. They gave their names as James Clark and John Dwyer and said they belonged to the States. This is the second time the same place has been entered within three weeks.

Examining Board at Ottawa.

MONTREAL, April 4.—At the annual convocation of McGill University for the conferring of degrees in medicine on Saturday, the gold medalist, Dr. Jemison, in his valedictory attacked a secret society which exists in the University. He said that one professor and several instructors were members of it, and this fact alone caused a spirit of disunion and distrust among the students. He added that the class of '92 was divided over it, and unless it was stamped out the usefulness of McGill would be greatly impaired.

The allusion was cheered to the echo by the great majority of the students present.

Your correspondent interviewed several of the students on the subject and one and all were a unit in backing up Dr. Jemison's remarks.

In view of the spirit displayed by the students it is belived that the faculty will take immediate steps to suppress the society.

Dr. Roddick, in addressing the "92" class, advocated the formation of an examining board in Ottawa, which any medical man passing would be entitled to practice in any part of the British Dominions.

The Dead Number Seven.

CHICAGO, April 4.—The people reported Saturday as being dangerously injured in the terrible disaster at Halstead and Pearce-streets, caused by the collapse of a new building in a giant whirlwind, appear to have a fair chance of recovery. Seven is the total number dead.

Socialists' Congress.

BERLIN, April 4.—It has been decided that the annual International Socialists' Congress shall be held in London on June 7.

The Congress will discuss the question of an international strike for the purpose of securing a working day of eight hours.

A Suicide.

REGINA, April 4.—George Brooks, a young man living with his parents a short distance south of town, died yesterday from having taken a dose of "rough on rats."

The Spanish Anarchists.

ROME, April 4.—A large amount of dynamite has been stolen from one of the Government depots.

Armed on Shipboard.

QUEENSTOWN, April 4.—Thomas Skelton, a passenger on the steamer Etrunia which arrived from New York yesterday was arrested upon landing on the charge of having a concealed revolver in his possession.

Death Roll of a Day.

Alexander Allan, head of the firm of Allan Bros. & Co., proprietors of the Allan steamship line.

J. M. Fraser, customs appraiser at Windsor.

Robert Johnston, railway mail clerk at Hamilton.

J. W. Bartlett, formerly of The Farmers' Advocate of London, Ont., suddenly at Winnipeg.

Rev. Dr. Lane of Morden, who had the reputation of being the most eloquent preacher in Manitoba. Deceased was a Canadian by birth, being born near the town of Prescott, Ont.

FIRES IN MANY LANDS.

$4,000,000 WORTH OF COTTON BALES BURNED.

The Loss by the Mandalay Conflagration Exceeds $3,000,000—Warehouses go up in Smoke in Hamburg Involving Loss of Over $1,000,000—Many Fires in Canadian Towns.

BERLIN, April 4.—The great chemical works at Hochspeyer in Rhenish Bavaria have been burning since last night, and it is feared that the extensive buildings and all their valuable contents will be a total loss.

EDINBURGH, April 3.—A large paper mill at Dunbar, 30 miles northeast of this city, was burned Saturday. The loss on buildings, stock and machinery amounts to £100,000.

HAMBURG, April 3.—A large warehouse at the head of the Kaiser Quay was destroyed Saturday, involving a loss of several million marks. The chief of the fire brigade perished in the flames.

RANGOON, India, April 3.—The damage caused by the fires in Mandalay amounts to $5,000,000.

NEW ORLEANS, April 3.—One of the most destructive cotton fires on record broke out this morning among some cotton on the sidewalk in front of the fireproof press in North Front-street. The flames communicated to the press itself and thence to five others, all of which were destroyed, together with 80,000 bales of cotton. The loss is estimated at $4,000,000.

BERLIN, April 4.—A dwelling house in Posen caught fire during the night and before all the occupants could get out the staircase was burned away.

On the fourth story of the burning house were a woman and five children.

The only way for them to escape the awful death that threatened them was to jump from the windows.

The crowd on the street procured a blanket which was spread open and held in position by a number of men.

The woman and children were then told to jump. They did so.

The woman jumped first. She struck the blanket with such force that it was torn from the grasp of the men and she was dashed to the stone pavement. She was instantly killed.

One of the children jumped and met the same fate, it seeming to be impossible for the men to hold the blanket firmly enough to break the fall.

The other children also jumped, but each of them received injuries that will prove fatal.

NEW YORK, April 4.—There was an attempt made shortly after midnight to burn a tenement house at 560 West 54th-street, in which there were sleeping 50 men, women and children.

Four separate fires were discovered in the hallway on the ground floor. Cotton waste saturated with kerosene oil was spread over the floor and ignited.

The police have no clue to the firebugs.

Two attempts were made early this morning to burn the tenement house 173 East 99th-street, which is occupied by colored people.

At 4 o'clock this morning a fire occurred on the ground floor of the four-story tenement at 217 Fourth-avenue. The damage was small.

A fire in the basement of the stone church at First-avenue and 55th-streets at 4 o'clock this morning caused $500 damage.

At 9.15 o'clock this morning fire broke out in the basement of the Masonic Temple, 23rd-street and Sixth-avenue. It was put out before serious damage was done.

A Millbrook Blaze.

MILLBROOK, Ont., April 4.—Saturday evening fire broke out in the machine shop of J. E. Needham, King and Union-streets. The building, which was frame, was completely destroyed. The fire spread to the photograph gallery of J. M. Welsh and thence to the barber shop of G. O. Duncan. The photograph gallery and barber shop were badly damaged. Loss about $2000, partially covered by insurance.

Sarnia's Firebug Still Active.

SARNIA, Ont., April 4.—Fire yesterday destroyed the frame buildings on Front-street, owned by Charles A. Hand, and occupied by J. McGrath as a billiard room, cigar store and barber shop, and Mrs. H. Lacroix as a restaurant. The loss is covered by insurance. The adjoining building, the Rossin House, occupied by Dr. Collins as a hotel, was also slightly damaged. Cause of fire, incendiarism.

Prince Michael May be Released.

DETROIT, April 4.—Prince Michael's lawyer Saturday moved the court to dissolve the injunction which tied up Prince Michael's property in his wife's suit for legal separation. There was a large attendance of curious spectators. Judge Gartner so modified the injunction restraining the Prince from disposing of his property that he can give security to any person who may be induced to go on his bonds for $1700.

Prince Michael's successor as leader of the Israelites is Joseph Daly, who is recognized by the "faithful." Daly, however, does not call himself "Prince," nor does he publicly announce himself as the head of the sect in the absence of Michael.

The following is taken from a letter which Detective Crandall received from H. Colb of East Toronto, who rescued his son Charles some time ago from the colony of long-haired fanatics in this city:

"I am pleased to see by our papers that Prince Michael and a goodly company of his gang are in your safe keeping. This proves that the millennium has commenced when the devil and his angels are in bondage. May they be kept there until I bail them out. If the whole lot could have their heads and faces shaved and get a dressing of tar and feathers, they might fly away and be at rest and give us a rest."

Both Arms Cut Off.

WIARTON, April 4.—John Linton of the firm of Linton Bros. was clearing the sawdust away from the saw with a stick, in the firm's mill near here, when the carriage returned, shoving him against it. One arm was cut off at the wrist and the other near the elbow. He is also badly cut on the breast. There is very little hope of his recovery.

Diseases of the Chest and Lungs.

These diseases are too well known to require any description. How many thousands are carried every year to the silent grave by that dreadful scourge, consumption, which always commences with a slight cough. Keep the blood pure and healthy by taking a few doses of Dr. Morse's Indian Root Pills each week, and disease of any kind is impossible. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal diseases, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 5 for $2.50.

THE DR. WILLIAMS MED. CO.,

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

MONDAY, APRIL 4, 1892.

Myrrh and Frankincense.

"One frequently hears of Frankincense and Myrrh," said a botanist to a newspaper reporter, "but few people know what they are. Both of them are gum resins obtained from trees that grow in Arabia and South-Western Asia. Frankincense in China has always been considered a remedy for leprosy, and myrrh taken medicinally is believed to act upon the appetite and digestion."

The majority of people have little to do with either myrrh or frankincense in the ordinary walks of life. They may possess medicinal qualities of value in disease, but up to the present time very little is heard of them. Our people, however, have a knowledge of one of the important agents of modern times—Harvard Bronchial Syrup—a remedy more precious to sufferers from colds, coughs, croup, irritation and inflammation of the throat, than are caravans of frankincense and myrrh.

The ordinary every-day cold and sore throat requires a prompt remedy, in action safe and reliable. This is found only in that wonderful mixture that our people call "Harvard Bronchial Syrup." It cures every time—no complaints are ever made of failures when it is used. Physicians, clergymen, lawyers and business men strongly recommend it

We say with confidence to all, provide a bottle for this treacherous and changeful weather. Use it at once if affected in the slightest degree with cough and sore throat, and you will escape serious consequences.

Peterborough-Victoria Boundary Bridges.

Mr. Stratton's Amendment to the Legislation Sought by Victoria.

Mr. Stratton has given notice that when the bill "to ammend the act respecting the Township of Harvey" involving the question of the responsibility for the maintenance of boundary bridges, comes before the Committee of the whole house, he will move to amend the bill. His amendment will provide, in effect, that the county of Peterborough shall be responsible for one quarter of the cost of maintenance of the "Big Bob," or "North Bridge," the "Forest House Bridge," and the "Little Bob Bridge," leaving Victoria to provide the remaining three quarters; the cost of the maintenance of the Pigeon Creek Bridge to be divided equally between Peterborough and Victoria. The bill itself provides for the proportion of the cost to be borne by the respective counties, being decided by arbitration. The bill will probably come before the Committee of the Whole on Wednesday.

As a spring blood remedy there is nothing equals Dr. Williams' Pink Pills. They supply in a condensed form the elements necessary to enrich the blood, stimulate the nerves and build anew the system enervated by being "housed up" during the winter months. Sold by all dealers or sent on receipt of price—50 cents a box or six boxes for $2.50—by addressing the Dr. Williams Med. Co., Brockville, Ont., or Morristown, N. Y. dw

Cold Weather Trials.

DEAR SIRS.—This fall and winter I suffered from neuralgia in my face and had the best medical advice without avail. I at last thought of trying B B B, and after using one bottle have not felt any symptoms of neuralgia since. I regard it as a fine family medicine.

dw J. T. DROER, Healip, Man.

Cure for Constipation and Headache.

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package. dw

FOOT UP IN THIS LIST OF BARGAINS

We have moved our Stock of BOOTS and SHOES to the Store,

Knowles' Old Stand, George Street, next door to Dickson's Dry Goods Store.

Our moving has been done to make room while the alterations to our premises are in progress.

We have picked out 1100 pairs of Boots and Shoes that ordinarily sold at prices up to $2.75 per pair. Here is your chance. You can have your choice of any for **$1.25**, while they last.

OUR CLOTHING STOCK

is in the flat over our own Stores, where buyers will have every attention, as usual.

BARGAINS here too, BIG BARGAINS. ☞*You know the pressure we are under, with our alterations going on, to reduce stock and save handling, and you should take advantage of our offers.*

Colorado Spring Wheat Condemned.

The Millers Rank It With "Geese" Wheat.

At the meeting of the Dominion Millers' Association held in Toronto on Wednesday last, the committee appointed to take the spring wheat question into consideration reported the following resolution:—

"Whereas the variety of bearded spring wheat largely grown in the eastern, northern and midland districts of Ontario during the past two years, known as Colorado spring wheat, has been thoroughly tested as a milling wheat and found very deficient in all the properties that go to make up a good milling wheat, being deficient in strength and very yellow in color and a poor flour yielder; and whereas its value as a milling wheat is not of greater value than the price of goose wheat, it equal thereto; therefore, this association would strongly recommend the farmers to discard this variety of spring wheat, and cultivate some one of the other varieties that are known as good milling wheat."

The Veterans' Petition.

Mr. George Merril, Belleville, the veteran friend of the veterans of 1837, writes as follows to the Belleville survivors of the trouble of '37-'38:

SIR—Just received notice from the government at Ottawa, send in the petition as soon as possible, re the veterans of the rebellion of 1837-8-9, as the Hon. Geo. A. Kirpatrick, M.P., will move a motion in the House soon to pay off the few surviving veterans and the widows of vets of that unfortunate Mackenzie Rebellion.

The petition is open at the Anglo-American hotel for signatures of old vets and their sympathizers in Belleville, Hastings county, Picton and Prince Edward.

GEO. MERRIL.

Now is the time to take a good tonic medicine. Hood's Sarsaparilla possesses the greatest merit, and is a popular favorite.

At Home and Abroad.

Physicians, travellers, pioneers, settlers, invalids and all classes of people of every degree, testify to the medicinal and tonic virtues of Burdock Blood Bitters, the most popular and effective medicine extant. It cures all diseases of the stomach, liver bowels and blood. dw

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

IMPERIAL Cream Tartar BAKING POWDER

PUREST, STRONGEST, BEST.

Contains no Alum, Ammonia, Lime, Phosphates, or any Injurious.

dw DAVID ROSE.

A WOMAN ARCHITECT.

Miss Sofia Hayden, Who Designed the Woman's Building of the World's Fair.

It has been generally supposed that Miss Hayden, architect of the woman's building of the Columbian Exposition, is an American. This is erroneous. Sofia Gregoria Hayden is a Chilian. She is a native of the city of Santiago. Her mother was Elecena Davala, a Peruvian of Spanish ancestry. Miss Hayden looks like a South American. Her large, imaginative eyes, deep in their grave and sensitive light; her low, broad bows, full of meditativeness, her oval face and olive complexion; her low, soft, full voice, and her characteristic lips are altogether suggestive of the Latin tpye. It is manifest that, physically, she follows her mother's model, while it is no less certain that in nature and traits of mind she is also Latin.—Chicago Herald.

Lenten Dinners.

Lenten dinners are varied by the introduction of the Parisian custom of dividing the party into little groups of guests at separate tables, which has a tendency to relieve this somewhat solemn and heavy function. The formation of these groups demands a certain amount of tact upon the part of the hostess to insure success, but it gives the entertainment the charm of variety. The custom has the highest sanction of good taste, as it has been in vogue at Sandringham, the Prince of Wales's country seat, for some time. The progressive dinner is also an enjoyable affair, especially to ladies, for at a given signal from the hostess each man takes his wine glass and serviette, and moves up or down one seat during the changing of the plates. This equalizes the general pleasure of the occasion, for as every hostess has some undesirable dinner guests, men more interested in the wines than in the ladies, and women not adept in the fine art of small talk, every one has an equal chance at the popular parti, and the burden of entertaining the stupid falls, like the rain, alike upon the just and the unjust.

A Progressive Empress.

The character and independence shown by the Empress Dowager of China is surprising and slightly paining her countrymen. They are not used to it and don't like it. "Very clear, very quick eye, see everything all same foreign man," they say sadly. And now they are off in corners talking it over and hinting very broadly that her serene and gracious majesty for whom the moon rises and the sun shines, is not a Chinese woman at all. Their explanation is that she was merely adopted when very young by a Manchu family in Canton, and this suggestion is somewhat strengthened by the foreign appearance of the august lady.

A Female Daniel.

Mrs. Lynn Linton, whose article on divorce aroused so much comment, has again taken up arms. This time she writes about "The Decay of Modesty in Women," and writes with a frankness and freedom which will get her into trouble. Here is a sample of it: "It needs a tough kind of moral digestion to be able to assimilate all that one sees in London drawing-rooms. Skirts so tight as to be little more than an opaque film moulded to the figure; bodices with only a shoulder strap for a sleeve, and so low as to leave no impression of a bodice at all."

Spring Headgear.

The spring hat shown here is of fine brown straw, the brim edged with tiny bows of baby ribbon, in pink, brown and green, making a charming and distinctive trimming. The large bow is of wide ribbon of the three colors. Two ornamental pins are thrust in the crown.

It is the middle-aged woman who is rocking her soul about bonnets. She will not wear a poke, and she cannot wear a hat. The small bonnet reveals too much of her back hair, and leaves her face unprotected. There should be a compromise for these, which would have utility and beauty combined. You cannot trust the milliner on such occasions. Her lovely bonnet is lovely to her on any head, and it is her business to sell it. You have an individual taste; therefore try many bonnets before you select one, for it is the frame that will make or mar your picture.

Women and Music.

"It is a puzzle to me," writes Rubenstein in his recently published reminiscences, "that music, of all the creations of the mind of man the noblest, most beautiful, most refined, and spiritual, is so unattainable by woman, who is a compound of all these qualities." And when you reflect you will remember that we haven't any feminine Beethoven, Mozart, Mendelssohn, or Verdi. Few women have attained any distinction as composers, and yet in music halls or at the opera the women exceed the men in numbers and apparent appreciation of the music.

"Gentle Spring", loses many of its terrors when the system is fortified by the use of Ayer's Sarsaparilla. With multitudes, this wonderful tonic-alterative has long superseded all other spring medicines, being everywhere recommended by physicians.

It is a Very Sad Thing

To see young and beautiful people die when they might just as well live and enjoy health and strength. Many who suffer with coughs, colds and lung troubles, leading to consumption, imagine there is no hope for them, when in reality there is every hope if Miller's Emulsion of Cod Liver Oil is taken regularly. Spread the news everywhere that this great emulsion will make flesh and blood, cure coughs, colds, bronchitis, sore throats and lung troubles tending to consumption. In big bottles, 50c. and $1, at Peterborough Drug Store. dw

To Thanks to J. E. Adams.

As through him I have been freed from chills, biliousness, liver troubles, etc., etc. St. Leon Water did it; is the best medicine I ever found; is so good I tell all my acquaintances to go to your store in Brantford and get a supply. Truly, St. Leon is marvelous. A trial brings conviction. dw

For the Layers.

A cheap, cosy nesting place for layers. The illustration shows a simple one at a glance. Corners may be utilized with the aid of a few boards and nails, as a quiet dark nest place in which the hen delights to seek when wanting to lay. Waste places may become profitable and useful by this rude and simple plan.

Only Half Appreciated.

The parship is a vegetable not more than half appreciated. How seldom do we find a farmer who has raised a proper supply. It flavors soups deliciously, and boiled and fried in butter or served with a sauce of milk and butter thickened with flour, it is a dish fit for a king. Many consider salsify or vegetable oyster a great luxury, but parsnips are much better. Do not fail to sow enough for your own use and some to sell. Sow on good land and keep the weeds down.

That Tired Feeling.

Is often the forerunner of serious illness, which may be broken up if a good tonic like Hood's Sarsaparilla is taken in season. This medicine invigorates the kidneys and liver to remove the waste from the system, purifies the blood and builds up the strength.

Constipation is caused by loss of the peristaltic action of the bowels. Hood's Pills restore the action and invigorate the liver.

Cure For Dyspepsia.

As is well known, this troublesome complaint arises from over-eating, the use of too much rich food, neglected constipation, lack of exercise, bad air, etc. The food should be thoroughly chewed and never bolted or swallowed in haste, stimulants must be avoided and exercise taken if possible. A remedy which has rarely failed to give prompt relief and effect permanent cures, even in the most obstinate cases, is Burdock Blood Bitters. It acts by regulating and toning the digestive organs, removing costiveness and increasing the appetite and restoring health and vigor to the system. As a case in point we quote from a letter written by Miss L. A. Kuhn, of Hamilton, Ont.:—"Two years ago life seemed a burden. I could not eat the simplest food without being in dreadful misery in my stomach, under my shoulders and across the back of my neck. Medical advice failed to procure relief and seeing B.B.B. advertised, I took two bottles of it, and have been entirely free from any symptoms of my complaint since." This gives very conclusive proof of the efficiency of this wonderful remedy. dw

H. SPEARS.

Bradburn's Opera House.

"The Bottom of the Sea" is said to be the best spectacle on the road this season. The company is a competent one, if all reports are true, and the stage mechanisms are a novelty to the theatrical world. The fight between a diver and a devil fish is very realistic, as are the assassination in the water and the laying of the cable. It comes to the Bradburn Opera House Saturday, April 9th. The success in arranging the production of this play has been remarkable. dtf

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

A Serious Runaway.

On Saturday afternoon as Mr. D'Arcy Dunlap, of Monaghan township, was proceeding up George street with a team of horses attached to a democrat waggon, the king bolt that held the whiffletrees to the pole of the waggon dropped out in front of R. Fair's dry goods store. The horses became frightened at thus being loosened from the waggon and made a furious plunge. Mr. Dunlap who was hanging pretty lightly onto the reins was jerked from the seat and fell head foremost over the dash board into the street. He was dragged a short distance in the mud before he got clear of the reins. Mr. Dunlap in the fall sustained a rather serious cut on the head but besides receiving a severe shaking up he was not seriously injured. The team taking the neckyoke and whiffletrees along with them came to a standstill opposite the EXAMINER office by running up against the delivery waggon of Mr. M. T. Ostrom, which was standing in front of his fruit store. The animals were captured before any further damage was done.

A Slight Blaze.

Another alarm of fire was rung again on Sunday afternoon at one o'clock. The scene of the would be disaster was on George street. Smoke was seen issuing from the cellar way of Mr. McCallum's restaurant in the new market building, by Mr. Geo. Pope, street inspector. He immediately ran to the police station and sounded the fire alarm while Officer McGinty rang up the public alarm. The brigade's services although called out were not required. Some straw and debris were under under the grating of the cellar window in front of Mr. McCallum's establishment and had evidently become ignited by the stub of a cigar falling through the grating. A pail of water extinguished the blaze. Many in the next block did not hear the public alarm when it rang, so faint in the sound getting to be.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. d v

News Nuggets.

—The Council will meet in Committee of the Whole on Friday night.

—No arrests have been made since Friday night. No tramps have struck the town either.

—The curlers' dinner, which was to have been held on Thursday evening, has been declared off.

—A new oil cloth is being placed in the town clerk's office. The improvements are nearly completed.

—The directors of the P.A.A.A. will meet in the Olympic club rooms to-morrow night for the election of officers.

—The Peterborough Bicycle Club will hold a meeting to-morrow night in the Olympic Club Rooms at 8 o'clock.

—Adjutant Donnistoun will inspect the non-commissioned officers in the 57th Battalion to-morrow night in the school room.

—A man while handling a dynamite cartridge on Saturday night at Ballisboro had the misfortune to have it explode in his right hand. He lost three fingers.

—Don't forget the temperance meeting to be held in the R. T. of T. hall on Hunter street this evening. All are invited to attend as a matter of importance will come up for consideration. Local speakers will address the meeting.

—Another important meeting of the Peterborough Cheese Makers' Association will be held in the council chamber on Tuesday afternoon at 2 o'clock. Prof. H. H. Dean, of the Ontario Agricultural College, Guelph, will deliver an address.

Personal.

Mr. Wm. Scott, of Napanee, connected with the Bell Telephone Co. is in town for a few weeks.

Miss Grundy left for New York on Saturday morning for a visit. She went in company with Mr. and Miss Loch as far as that city.

Mr. J. M. Turnbull, of Milton, who has been a student in Dr. Ross's dentist office for the past five months leaves for Montreal to-morrow.

Mr. W. Wilby, advance agent for the Bottom of the Sea company, was in town on Saturday night. The company will play in the opera house on Saturday night.

Mr. G. G. Gladman, of Parry Sound, who was a member of the deputation to Ottawa from that town to present to the Government the claims of the Parry Sound Colinization Railway, stopped off at Peterborough on Saturday evening, and will leave town to-morrow morning.

Police Court.

MONDAY, APRIL 4TH.

At the police court this morning Richard Lund charged Charles Pogue with assault committed on Friday night last. The plaintiff withdrew the case and the charge was dismissed.

G. A. Mitchell charged George Stevens with injury to property in February last. It appears during the latter part of December Mr. Stevens rented a house on Smith street from Mr. Mitchell, and that when he left it on Feb. 1st the plaintiff alleges several boards were removed from the drive house and left alongside the road, and a large sign with "Singer Sewing Machine Company" on it, which he left upstairs in the building, was cut up by the defendant and converted into a waggon box. The plaintiff's charge was not proven, and the magistrate acquitted the defendant of any malicious damage done to the property in question.

Read T. Harley & Sons "ad." Changed every other day.

Look Up Your

Spring overcoats or suits, and have them cleaned, or dyed and repaired at PARKER'S Dye Works.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

Easter Cards.

The Boom is Growing Fast and Furious.

Orders are pouring in from all parts of the town and Province for our "G. C." brand of hams, bacon and splendid meats, bologna sausage and lard. Take good care to get our make and you will have no other. To be had at George Carten's, pork packer and grocer.

Clearing Sale of Groceries.

As I am going extensively into liquors, I find it necessary to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. MORROW, 340 George street.

A Lakefield Millinery Opening.

The Misses Hoolihan & Sullivan, of Lakefield desire to announce that they are holding their millinery opening, and are showing a splendid stock of fashionable millinery and choice fancy goods. The display richly merits inspection. Call and see it. 3d78

Y. W. C. A.

All young women are cordially and affectionately invited to attend our Bible class Tuesday evening at 8 o'clock. Subject for this week "The King's Daughter." We hope that many of the members and many new comers will be present. All will be welcome.

Peterborough Rifle Association.

The annual meeting of the Peterborough Rifle Association will be held in the orderly room of the drill shed to-night at 8 o'clock. The officers for the ensuing year will be elected. Practice will begin now very soon, and a better time for those who intend joining the Association cannot be found than to night. There should be a large attendance of those interested.

Liquor License Act Violated.

This morning at ten o'clock County Magistrate Edmison heard the complaint laid by Mr. Finch Miller against Louis Dion, hotelkeeper, of Lakefield, that on the 19th day of March he sold liquor to his son, a minor, under eighteen years of age, contrary to the Liquor License Act. Mr. Dion acknowledged the offence and was fined $10 and costs ($19.20 in all.)

Prof. Kemp, who has been before the American and Canadian public for a number of years, as a practical phrenologist, is at present at the Cardwell Hotel. Prof. Kemp guarantees to give you better satisfaction, and can prove by the sworn statements of many people that he understands his profession and can give a more practical and perfect delineation of character than any phrenologist that ever travelled through Canada, with the exception of Prof Fowler. 6d76

A Kind-hearted Remembrance.

Mr. and Mrs. Daniel Mahony, Aylmer Street, quietly remembered on Saturday Evening—A Happy Time and a Joyous Occasion:

Mr. Daniel Mahony, 170 Aylmer street, has been the efficient roadmaster of the C. P. R. division between Havelock and Toronto Junction, including the Don branch for a number of years past. He has recently, been transferred, three sections being taken from his division. On Saturday evening the nineteen section foremen of his division under him seized the opportunity and remembered Mr. Mahony and Mrs. Mahony in a way which they will not soon forget. They arrived in town at 8 15 o'clock and at 9 30 o'clock all the arrangements were completed and an invasion successfully made upon Mr. Mahony's hospitable home on Aylmer street. Mr. D. Wilkinson, section foreman of the North Toronto Junction, read the address on behalf of the foremen assembled, and Mr. P. Campbell, section foreman of the Toronto division, made the presentations. The address expressed the pleasant relations which had always existed between Mr. Mahoney and those under him, and on the occasion of his transfer they took the opportunity to give him a token of their appreciation and esteem towards him. Mr. Mahony received a beautiful silver set consisting some eleven pieces. On the tray was engraved the following expressive words: "Presented to D. Mahony by the section foreman of the O. Q. Division, C.P.R., on April 2nd, 1892." Mrs. Mahony received a presentation of a handsome china set of dishes. Mr. Mahony in a few words made a feeling reply, after which those present enjoyed a supper when songs were sung and speeches made until a late hour. A most enjoyable time was spent.

Church Chimes.

Rev. John Gibson, of Norwood, will deliver the special Wednesday evening addresses in St. Luke's church.

Rev. Principal Dewill, of the Oshawa Ladies' College, spoke a few minutes on behalf of the Protestant Girls' School of Toronto, and its work, at the close of the morning service in St. Paul's Presbyterian church yesterday.

The sacrament was administered at the close of the morning service in St. Andrew's church yesterday by the Rev. A. McWilliams. He preached an eloquent sermon from Exodus 12th chapter 13th verse. At the close twenty-five communicants were received into the membership of the church. In the evening the pastor preached from the text found in Acts xxiv, 25th verse. The sermon dealt with the subject of Paul accused, Paul's defence and Paul's preaching upon the three fold topic of "righteousness, temperance and judgment to come," and the sermon which grew out of the consideration of the text was preached with all the accustomed vigour and completeness that distinguish Rev. Mr. McWilliams' discourse.

At St. John's on Sunday morning there was a very large congregation. The rector preached the sermon, a continuation of his special subject, "The Life of Faith." In the evening there was again a large congregation. The sermon was preached by Rev. C. B. Kenrick, who dealt with another aspect of his subject, "The Way of Life." At the conclusion of the evening service, a devotional service, to which a considerable number of the congregation remained, was conducted by the rector. After the service next Wednesday evening Rev. Canon Dumoulin, the eloquent rector of St. James' Cathedral, of Toronto, will deliver his address entitled, "The Great Hymns of the Church."

Questionable Proceedings.

To the Editor of the Examiner:

DEAR SIR.—Yesterday a Principal of a Female School in Toronto used the pulpits of two churches, preaching in one of them a which was made the occasion of a furious onslaught on another religion as a means of advertising the superior facilities presented by his educational establishment for teaching the true religion on very moderate terms. There is no question of the gentleman's individual right to promote his propaganda, by legitimate means; but it is extremely questionable whether a pulpit devoted to the preaching of the gospel of peace should be permitted to be used for sowing the elements of discord and the stirring up of strife under circumstances strongly suggestive of mercenary motives, and be prostituted to the base uses of advertising a financial speculation and promoting the personal profit of the preacher. Besides the circulation of an advertising sheet in the interests of the school in question at the close of the service, is not far removed from hiring a bill poster to distribute a merchant's dodgers at the church doors on a Sunday evening. The propriety of employing money to advance the interests of religion has the divine sanction; the impropriety, on the other hand, of using religion to promote worldly gain is illustrated by the great Master, using a whip of cords to lash irreverent hucksters from the precincts of the house of God.

Yours very truly,
HONESTY.

Constipation claims many victims. Ward off this dread disease by the use of Small Sugar-Coated Burdock Pills when needed.

Another Runaway.

On Saturday morning the horse and delivery cart of Mr. J. McGarrity, was left standing in front of his butcher shop on George street. The horse took fright at some passing cattle and started off at a fast pace. The wagon collided with a telegraph pole on the corner of George and Brock streets. The seat was broken and other damage done to the vehicle. The horse was recaptured at the corner of Aylber and Brock streets before further damage was done. The runaway started a carter's horse, but the animal only ran a few steps.

M. LACHANCE.—Sir it is with pleasure that I certify that Dr. Sey's Remedy which you sold me, has cured me of chronic constipation which had caused me much suffering. In addition, I have for some time suffered from heaviness of the head &c., due to my age; these symptoms have disappeared after a few doses of the remedy. For ladies at the turn of life, there certainly is not a better medicine.

Mr. Warren D. Wentz
of Geneva, N. Y.,

Tells of His Fearful Sufferings After Gastric Fever and His Cure by

Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says:

"I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to

Die of Starvation

I took pepsin compounds, bismuth, charcoal, cod liver oil and malt until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like pouring melted lead into my stomach. I happened to think I had part of a bottle of Hood's Sarsaparilla that had been in the house for two or three years, that I found had benefited me previously for dyspepsia. I began taking it and soon began to feel better. I have now taken a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to

Pie and Cheese

which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla." W. D. WENTZ, 18½ Castle St., Geneva, N. Y.

A Good Voucher

"I have known Mr. Warren D. Wentz for many years and can vouch for him as a man of veracity and one well known about here. I have sold him several bottles of

Hood's Sarsaparilla

during the past few months." M. H. FARTRIDGE, Druggist, Geneva, N. Y.

A Red Letter Day.

In the History of the Salvation Army in Peterborough was Yesterday and Saturday—Second Visit of Staff Capt. Cox—The Services Largely Attended—Many Seekers After the Truth—To-night's Banquet and Address.

Saturday and Sunday were red-letter days in the history of the Salvation Army in Peterborough and the time will be long remembered by the local corps as an occasion of thanksgiving and great rejoicing. The second visit of Staff Captain Cox, of London, England, to Peterborough was looked forward to with interest and rejoicing on the part of the members of the local branch. Miss Cox who intends remaining in Canada for two years are returning to London, Eng., has paid official visits to many towns and cities throughout Ontario and elsewhere, but she has never revisited but very few of the places where she has once been and Peterborough is among that number that has been honored with a second visit from the distinguished and talented lady. She was accorded a hearty reception on her arrival in town on Saturday noon. In the evening there was a great parade, the turnout being large and the music excellent. At the Simcoe street barracks a large congregation, numbering about five hundred, had assembled to witness

THE DEDICATION CEREMONY CONDUCTED

by the Staff-Capt. and the beginning of the seventh anniversary services of the army's establishment in Peterborough. After a short season of spiritual singing and prayer, a few moments were devoted to a fellowship meeting in which many testified to the change which the power of God had wrought in them and urged all to accept salvation and repent of their sins.

Staff Capt. Cox said she had an interesting ceremony to perform. Like every other denomination, the army had ceremonies, but they did not believe that ceremony alone would save people. It was the power and grace of an omnipresent and all loving Jesus which alone could do that. It was her special privilege to dedicate two infant children to the service of Christ. The service required of parents to give their children up to the service and glory of God. The captain advised parents not to bring up their children as idols but to train them for the glorification of God and his cause. She then read the dedication service of the army and invoked divine blessing and guidance on the ceremony which she was about to perform. The captain then duly performed the dedication service upon Joseph Geffrey, infant son of Mr. and Mrs. Geo. Spenceley, and upon Bessie, infant daughter of Mr. and Mrs. Henry Chatten. In connection with the ceremony she addressed a few words from St. Mark, 10th chapter, 13th, 14th and 15th verse. The speaker said the reason why a great many were not saved was because they would not humble themselves and receive the religion of the Lord Jesus Christ with the faith and simplicity of a little child. A great many were kept back through lack of faith. They could not understand all the Scripture taught, the Bible was full of mysteries and they could not conceive of the idea of an eternity and a future punishment. She advised all to accept Christ in faith pure and simple, and not to seek more light than they were prepared to follow. At the close Staff-Capt. Southall, of Kingston, Brigade Divisional Officer, spoke a few earnest words, urging all to come to Christ and settle the great problem of devoting their lives and all for the Master. A short prayer meeting was then held in which two seekers kneeled at the penitent form.

SUNDAY'S SERVICES.

At seven o'clock Sunday morning a knee drill was held, led by Staff-Capt. Cox and Southall. Nearly a hundred were present, and the drill service was one of much blessing and profit.

At eleven o'clock a street parade was held. Fifty-two soldiers were in the procession. The music of the band was greatly enhanced by the addition of the Green family, of Stirling, well known musicians. The family, consisting of Mr. and Mrs. Henry Green, and their three children, May, aged 17, Mendel, aged 15 and Carlos, aged 12 years, have good musical ability, and play on various reed and stringed instruments. The family removed to Peterborough last week and are residing on Simcoe street. They have joined the local corps here, and their valuable services in the band here will be no doubt much appreciated by the army, while their music will be listened to with a great deal of delight and pleasure. On the return to the barracks a holiness meeting was led by the visiting officers. About two hundred were present. There were eleven seekers after holiness. In response to an urgent and pleading invitation two persons came forward and were converted.

The afternoon parade was attended by sixty-three soldiers. The service was for the enrollment of recruits. The barracks was packed to the door, standing room alone being available. Fully 1000 people were present at the service which was one long to be remembered as a time of hallelujah and thanksgiving to God for his wonderful blessings to the army, its interests and its work. Fifteen recruits who have been on probation a month were enrolled as members of the army. The happy service and ceremony was performed by staff-Capt Cox, assisted by Staff-Capt. Southall and Ensign Steele.

In the evening sixty turned out for parade. At seven o'clock a special hallelujah meeting was held. A thousand people crowded the barracks to the doors again. Staff-Capt. Cox chose as the Scripture lesson, the xlii chapter of Isaiah. Her address was an earnest pleading, one full of hope and faith, and urging one and all to accept so great a salvation. Staff Capt Southall also spoke a few words. In the evangelical meeting there were four seekers at the penitent form, making ten converts in all as a result of Saturday's and Sunday's services.

This afternoon a holiness meeting will be held at 3 30 o'clock. At half past five this evening there will be a grand anniversary banquet. Tables will be set and a cordial invitation is extended to all to be present and take part in the auspicious occasion, the celebration of the army's seventh anniversary in Peterborough. A great many visiting and district officers are expected to be present. At 7.30 o'clock this evening there will be a march, and at 8 o'clock Staff-Capt. Cox will deliver her famous lecture on "Special leaves from a note book, or a little talk about many things." She will speak on the shelter work done in darkest England and about the missionary work being carried on in India, China and other lands. Miss Cox is a fluent and powerful speaker has a wide knowledge of things and in fact, is a talented and refined lady and should receive a large hearing. Her address will doubtless be interesting, instructive and helpful.

Staff Captain Cox in an interview with the EXAMINER yesterday afternoon said: "I like Peterborough very well. It is one of the prettiest and nicest towns that I have ever visited and I have visited a great many. The people are all so free and sociable that I feel right at home. They appear very different from the class of people that I have come in contact with in many other places. This is my second visit here. Since my return from India I have been in Canada a little over a year. I have another years work yet before me here. I have visited a great many of the cities and towns of Ontario, but Peterborough is about the only place where I have paid a second visit. It is just eight weeks ago since I was here before. I have had a very pleasant and profitable time, the meetings have been largely attended and were very spirited and helpful. I shall carry away with me many pleasant recollections of my visits to, and of the work being carried on in, Peterborough.

A Midnight Robbery.

Burglars Enter the Bank of Ontario on Saturday Night but do not Touch the Till—They Carry off a Few Trifling Articles.

Wild rumours and exaggerated reports were floating around the town yesterday that the Bank of Ontario, corner of Simcoe and Water streets, had been entered at an early hour on Sunday morning by professional cracksmen, that the safe had been blown open, and a large sum of money, varying in amount from $2,000 to $12,000, had been abstracted.

The circumstances of the case are these:—Between two and three o'clock on Sunday morning some one, or probably more than one, burst open the little door on Water street leading into the yard of Hall, Innes & Co. The marauders then took a half inch bit and bored several small holes in a circle in the panel door leading into the back of the bank. The circle had been bored near the knob of the door, and had been nearly completed when the piece was broken off. A hand was then reached through the opening, the key turned and the door yielded to a push. The robbers could not have remained in the bank long, for it was only a short time after, while making his round to examine the back doors of the buildings that Nightwatchman Gordon found the door aforementioned opened. He notified Police Constable Stewart and together they wended their way into the bank. The outside of the place was surrounded in order to cut off the escape of the amateur cracksmen. After a thorough search of the bank the officers could find nothing disturbed or touched. A revolver which Teller H. J. Grassett had beneath his desk is missing, and a tin box which he has for keeping his lunch in was taken, but when the thieves found that it was empty they dropped it near the back door. Some lunch which had been left by one of the clerks and the revolver are the only things missing about the premises. Mr. Nelson, W. F. who sleeps in apartments above the bank, heard no sounds of any kind during the evening. No clue has been yet obtained as to who the perpetrators of Sunday morning's deed are. Be it one or more, they are no doubt youthful scamps who are anxious to gain notoriety, but who sooner or later will end their nefarious transactions behind the bars. It is certainly the work of amateurs, as the bungling which characterized the work all the way through, only betokens that. The safe had not been tampered with in any way.

The reason such an easy entrance was secured into the bank through the rear door was because the heavy outside iron door had not been closed and barred as was the usual custom. Manager McGill thinks that the attempted robbery was evidently the work of some youthful burglar who thought that he might find and secure some change laying on the counters. The stamp box under the teller's desk was not even touched.

But the barber shop you, reader, want to go to is BILLY MORGAN'S, the high-class barber, at 436 George street.

All shades of silks at Armstrong's for 25c. per yard—396 George street. 4478

The Latest Kirk

W. C. Kirk has bought a lot of mixed tea, a bankrupt stock, good sound tea, which he offers at 15c. per pound in twenty pound boxes. You surely cannot get better value than that; don't think because the price is so low that the tea can be no good; I guarantee it. W. C. Kirk, Ashburnham. Telephones, Ontario No. 6, Bell No. 312.

MARRIED.

RUTH—MAHOOD—At the residence of the bride's father, Mr. Edward Mahood, of the second concession of Smith, on Wednesday, March 23rd, 1892, by the Rev. John Ewing, Mount Pleasant, George Ruth, of Emily township to Mary Mahood, eldest daughter of Mr. Edward Mahood.

DIED.

PAYNE—In Peterborough, on Sunday, April 3rd, 1892, Clara, only daughter of the late Uriah Payne, in her 21st year.

DUNLOP—In Cavan, on Saturday, April 2nd, 1892, Mary Hermison, eldest daughter of Mr. D'Arcy Dunlop, aged 19 years.

STEWART.—On Sunday April 3rd, 1892, at Trenton, N. J., Mrs. Frank Stewart, formerly of Peterborough. The funeral will leave the residence of Mr. A. C. Dunlop, Water street, at 2.30 p.m. on Wednesday, 6th inst., and proceed to Little Lake Cemetery

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the

TALKS FOR THE FARMER.

SEASONABLE HINTS FOR CANADIAN AGRICULTURISTS.

Helping Worn-Out Fields to Fresh Fertility—Effects of Fallowing—A Hen's Production—Sow Oats Early—The Hot-bed and Cold Frame—Good Feeding.

It is best to attempt the restoration of worn-out soil by the use of fertilizers, but the use of fertilizers and manure, but where the object is to concentrate the manure over a small space, or where manure or fertilizers are beyond the reach of the farmer, he will have to use nature's method, but, of course, with the application of considerable labor. The farmers of former generations resorted to the following system. They know that when a plot of land was not cultivated and was allowed to "rest," it recuperated and became capable of yielding more than before, but from whence the increased fertility was derived or by what process the land partially recovered was not perfectly understood, but that it was a fact had often been demonstrated.

EFFECTS OF FALLOWING.

When the land was abandoned, and permitted to "lie under the fallow," as it was termed, the weeds and plants indigenous to that particular field asserted their right of occupancy, and with the aid of the nitrogen gained from the atmosphere and the disintegration of the soil by chemical action, which assisted to supply a proportion of plant-food, the natural weeds would, in the course of time, cover the ground. As they fulfilled their mission and were returned to the soil to give place to a newer growth of plants, the elements of their composition were added to the soil to serve as plant-food for the succeeding growth, which would be heavier, and in this manner the land gained fertility, especialy in nitrogen, while the shading of the soil also served to assist in converting the insoluable mineral matter of the soil itself into plant-food, as well as aided in the conversion of the substances brought down by the rains into plant-food by chemical action.

A QUICKER PROCESS.

But fallowing is too slow a process for the present generation. To gain time the farmer plows the land early, applies ten or twenty bushels of lime per acre, and seeds down to oats and peas for the earliest crop. This crop must not bear seed, for that would cause a drain on the soil, but the crop is turned under with a plow and chain just before the peas begin to bloom, and as soon as this is done the land is sown thickly with millet seed, when of sufficient height, the crop being also turned under in the green condition, to be followed by rye, which remains on the ground during the winter, to be plowed under in the spring. If five or ten bushels of lime be applied per acre, after each plowing, it will be of advantage. By this process the farmer keeps the ground shaded a great portion of the time, causes a greater number of plants to grow, seek nitrogen from the atmosphere and exposes a larger extent of surface of the soil to chemical action, the lime serving as a re-agent for quickly reducing the green crops to plant food.

Dwight Succeeds Wiman.

NEW YORK, March 31.—At the regular quarterly meeting of the Great Northwestern Telegraph Company yesterday Mr. H. P. Dwight was appointed president in room of Mr. Erastus Wiman, resigned.

Killed by a Plum Stone.

PAISLEY, Ont., April 1.—A post-mortem examination of the body of James Mason, who died a few days ago, showed that death resulted from a plum stone, which had lodged in the bowels and must have been there for a long time, as it was in a partly decomposed state.

Death Caused by Two Grape Seeds.

TOMS RIVER, N.Y., April 1.—George S. Bonnell, who died at Toms River on Saturday, had been suffering for many months by what the doctors diagnosed as a stomach trouble. The postmortem showed that two grape seeds had become lodged in the intestine. They had become covered by a gristly growth, which finally grew so large that it completely cut off the passage of the food in the alimentary canal.

$5.00 Per Month—Medicine Free.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 211 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5.00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5.00 per month and medicines free.*

These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by mail but at least one personal interview is preferable.

All correspondence should be addressed to Mr. John Murry, Manager, 211 Jarvis street, Toronto.

If you once try Carter's Little Liver Pills for sick headache, biliousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this. dw

Soft White Hands.

Those desirable adjuncts to the beauty of the ladies can be obtained by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 4280

Dr. Low's Worm Syrup has removed tapeworms from 15 to 30 feet long. It also destroys all other kinds of worms. dw

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic [illegible]. dw

Wood Mosaic.

The wood mosaic industry is carried to great perfection in France. The scale of colors is extremely rich, as no less than 12,600 different shades can be used, so that all descriptions of paintings can be faithfully reproduced in this way. The great advantage of this mosaic is that in case the colors should fade they can be restored to their original freshness by planing, because the fibres of the wood are entirely permeated with the paint.

A Tenacious Alloy of Copper.

A French engineer has invented a new method of alloying pure copper with magnesium, the addition of the magnesium imparting to the copper considerable tenacity and hardness without altering its other properties. The new alloy is found to be specially suited for telegraph or telephone wires, conductors of magnesium-copper being of great mechanical resistance and offering the minimum of electrical resistance.

Hardwood Floors.

Hardwood floors have become almost indispensable in modern house-building, and the advantages of healthfulness, cleanliness and comfort gained by their use can scarcely be over-estimated. Formerly a hardwood floor was an expensive luxury, obtainable only by the rich, but since the introduction of wood carpeting and thin parquetry, such a floor may be had at an expense of little more than an ordinary carpet.

Waterproofing Leather.

An Austro-Hungarian chemist has, it is said, solved the problem of securing a practicable method of waterproofing leather and raw hides. The idea is to impregnate the leather with a gelatine solution combined with a mineral salt to coagulate the gelatine in the pores. The mixture to produce this result is as follows: Water, 1,200 parts; gelatine, 15 parts; potassium bichromate, five parts.

Carloads of Cartridges.

The Bulgarian Government ordered some time ago 30,000,000 rifle cartridges from the Vienna Cartridge Manufactory, and the last 6,000,000 of the order were recently shipped to Sofia in two special trains of forty-three cars. The contract price of the entire lot was about $600,000.

The Family Medicine.

Trout Lake, Ont., Jan. 2, 1890

W. H. COMSTOCK, Brockville.

DEAR SIR:—For a number of years I have used and sold your "Dr Morse's Indian Root Pills." I consider them the very best for "Family Use," and all my customers speak highly of them.

Yours truly,
dw R. LAWSON.

Peterborough Light & Power COMPANY L'T'D,

A. STEVENSON, Secretary.

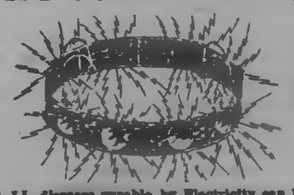
Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASES, HEARTY DISEASES, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCY, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not allow these fakirs with the hard-rope substitutes of leather and meta with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM. But if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. sdd w

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees. The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expells them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well. ●

A Germ Disease.

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cumines, Esq., a leading druggist of Welland, Ont., speaks for itself:
Messrs. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMINES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

SCIENCE AND PROGRESS.

INTERESTING PARAGRAPHS CULLED FROM VARIOUS FIELDS.

Sir William Thomson's Calculation of the Quantity of Fuel the Sun Requires—Green Rests the Eye—The Modern Bookcase—Wood Mosaic—Science Scraps.

Sir William Thomson has calculated that the quantity of fuel required for each square yard of the solar surface would be no less than 13,500 pounds of coal per hour!—equivalent to the work of a steam engine of 63,300 horse power! This enormous expenditure of fuel would be sufficient to melt a thickness of about 40 feet of ice per minute at the sun's surface. Sir John Herschel says: "Supposing a cylinder of ice 45 miles in diameter to be continually darted into the sun with the velocity of light, and that the water produced by its fusion were continually carried off, the heat now given off constantly by radiation would then be wholly expended by its liquefaction, on the one hand, so as to leave no radiant surplus; while, on the other, the actual temperature at its surface would undergo no diminution." He also says that the ordinary expenditure of heat by the sun per minute would suffice to melt a cylinder of ice 184 feet in diameter, and in length extending from that luminary to a Centauri!

As to the actual temperature at the sun's surface, very various estimates have been made by different computers. Secchi supposed it to be about 10,000,000° of the Centigrade thermometer and Sporor 37,000° of the same scale, while M. Pouillet thinks that it lies between 1,461° and 1,561° C. M. Becquerel, Prof. Langley and Sir William Thomson consider that the temperature of the solar photosphere cannot exceed 3,000° C. According to M. Saint-Claire Deville, the temperature is somewhere about 2,600° to 2,800°, and this agrees with subsequent experiments by Bunsen and Derbray. Sir Robert Ball says that "we shall probably be well within the truth if we state the effective temperature of the sun to be about 18,000° F." ("The Story of the Heavens," page 495) Secchi's estimate is probably very excessive, and the smaller determination nearer the truth.

The actual heat of the sun must, however, be very great. Prof. Young says:—"When heat is concentrated by a burning glass, the temperature at the focus cannot rise above that of the source of heat, the effect of the lens being simply to move the object at the focus virtually toward the sun; so that, if we neglect the loss of heat by transmissions through the glass, the temperature at the focus should be the same as that of a point placed at such a distance from the sun that the solar disk would seem just as large as the lens itself, viewed from its own focus."—The Gentleman's Magazine.

Green Rests the Eye.

Green rests the eye, and resting the eye often means to rest the nerves, and the refreshment of the eye is as necessary to comfortable life as the renewal of the other bodily forces by food. There never was a time before in this country when so much attention was paid to the esthetic part of the dinner table. A decoration of living plants is more beautiful than a strip of satin plush, or other expensive material in the center of the dinner table. An addition to the table cannot be beautiful if it is unsuitable.

The Modern Bookcase.

The tall, heavy, substantial bookcase of a generation ago is seen no more. It has given place, says the Art Interchange, to the modern bookcase, a cabinet-like structure of panels and mirrors, open work in metal over plate glass, and much beauty of finish, in polished woods. Some of the handsomest of these bookcases are of antique oak, with carvings and mountings of wrought-iron or bronze and with plate glass doors, covered by a grill of gilded wire or delicate open work in bronze.

If your cough keeps you awake and restless at night, take Ayer's Cherry Pectoral and obtain immediate relief. This remedy allays inflammation, heals the pulmonary organs, induces sleep, and restores health. The sooner you begin the better.

For several years I was persistently annoyed with an excessive accumulation of Dandruff and although using various preparations recommended and shampooing regularly once a week, no material relief was realized until my attention was called to Acti-Dandruff, which has produced unlooked-for results in my case, four applications removing every particle of Dandruff, and as a specific for this trouble it certainly has no equal.

Yours truly, W. T. RODINSON,
Can. Pac. Rys. Telegraph Co., Montreal, P. Q. dw

Unsightly pimples, blotches, tan, and all itching humors of the skin are removed by using Dr. Low's Sulpher Soap. dw

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to men. Books sent free sealed. Heart disease the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

"PROMPT AND PERMANENT."

RHEUMATISM.—Jan. 17, 1883, GEO. C. OSGOOD & CO., Druggists, Lowell, Mass., U. S. A., wrote: "MR. LEWIS DENNIS, 136 Moody St, desires to say: "ORRIN ROBINSON, a boy of Graniteville, Mass., came to my house in 1881, walking on crutches; his leg was bent at the knee for two months. I gave him

ST. JACOBS OIL

to rub it. In six days he had no use for his crutches and went home cured without them."

Lowell, Mass., U. S. A., July 9, '87: "The crippled boy ORRIN ROBINSON, cured by St. Jacobs Oil in 1881, has remained cured. The young man has been and is now at work every day at manual labor." GEORGE C. OSGOOD, M. D.

COX & DAVIS, Agents, Peterborough. | dw **W. TATLEY,** Chief Agent.

Ottawa Morning Times.

OTTAWA, April 2.—It was stated last night that the outcome of The Citizen's lockout of its compositors will be the starting of a new Conservative morning paper to be called The Times, which will make its appearance Monday or Tuesday. The paper will be issued from J. D. Taylor's job printing office, and several leading Conservatives are mentioned in connection with the ownership. It is said the printers will if necessary make it a co-operative office.

After Sandy McDuff.

BARRIE, April 2.—Government Detectives Joseph Rogers and William Greer are still after Sandy McDuff, who is wanted for the murder of an old man named Holten at Tilbury Centre about two years ago, and for which McMahon was sentenced to be hanged and afterwards to imprisonment for life.

Residents of Oro have at times seen a man whom they supposed to be McDuff prowling about the township, so Rogers and Greer determined to take a trip in search of him. They returned after having secured evidence that the man said to be Sandy was not him or did he resemble him in the least.

Rev. Dr. Cook Dead.

QUEBEC, April 2.—Rev. Dr. Cook, for many years of St. Andrew's Church, this city, died yesterday.

Left 12 Little Toddlers.

ALMONTE, Ont., April 2.—At Martintown, Glengarry county, a Scotchman, owning a French wife and eight children, skedaddled with a Frenchman's Scotch wife, the latter leaving four young children—altogether leaving 12 almost orphans to grapple their way through the world as best they may.

Fell Dead In His Cart.

WINNIPEG, April 2.—Reuben Fox, one of the city scavengers, fell dead in his cart yesterday. He is said to come from Montreal, originally.

Drowned in a Mill Pond.

THORNBURY, Ont., April 2.—Walter Lyle, aged 16, an employe of Andrews' Woolen Mills, stepped on a block of ice in the mill pond to-day, when the ice turned over and he was precipitated into the water and carried under the ice. The body was not recovered.

An Alleged Bigamist.

EXETER, Ont., April 2.—Richard Waistell of Clandeboye has been remanded until April 5 upon the charge of having two wives.

Wife No. 1, who was Susan Cook before her marriage to Waistell, which she says took place in Toronto, 1849, lays the information and is prosecuting.

Wife No. 2, who was Mrs. Cobleigh before her marriage to Waistell, which, it is alleged, took place in Exeter in 1883, lives with defendant at Clandeboye.

Mercier Opens a Law Office.

MONTREAL, April 2.—Ex-Premier Mercier opened a law office in Montreal and will hereafter devote himself to the practice his profession.

QUEBEC, April 2.—A meeting of the provincial Cabinet was held yesterday. Jean Chrysostome Langelier, provincial registrar, was summarily dismissed. An order-in-council dismissing Mr. Bourbonnais, who contested Soulanges county while still a civil service employe, was passed. All the mining inspectors, eight or nine in number, were dismissed and their work will be done by two competent men. A large number of other men who held places were also dismissed and will not be replaced.

To Meet April 26.

QUEBEC, April 2.—The Quebec Legislature has been called for the despatch of business for Tuesday, April 26.

MONTREAL, April 2.—P.E. Leblanc of Montreal and member for Laval in the Quebec Legislature has been selected by the Government party as Speaker of the new Quebec Legislature.

WELL DONE, LEWIS.

The Hunter Had Only One Arm, But He Killed Four Bears.

SALISBURY, N.B., April 2.—Stockford Lewis, a young man with only one arm, residing a few miles out of this village, started alone on a hunting expedition out near Canaan River armed with a repeating rifle. Arriving on the hunting grounds he soon ran across a bear's den. He routed out the inmates, which consisted of the old she bear and her family of three, supposed to be yearlings. The old bear promptly advanced on Lewis and was in the act of knocking the rifle out of his hand when he fired on her, killing her almost instantly. He then shot the three young ones.

Indians as Wheat Growers.

REGINA, April 2.—Major McGibbon has two samples of wheat which took the first and second prizes respectively at the Battle River Agricultural Society's show at Battleford. They were grown on Moosomin's reserve in the Battleford Indian Agency, and when shown to President Steen of the Winnipeg Board of Trade he pronounced the first prize sample to be the best he had ever seen.

Too Late.

Perhaps Tennyson has written nothing which appeals to the hearts of all who read his poems more than the lyric of "Too Late." The burden of the sad refrain comes home with telling force to the hearts of those who have lost friends by that dread disease—consumption. They realize, "too late," the result of neglect. They feel that the dear one might have been saved if they had heeded the warning of the hacking cough, the pallid cheek, and weakening system. They feel this all the more keenly because they see others being rescued from the grasp of the destroyer, and they think what is saving others might have saved their loved one. When the first signal of danger is seen, take steps to avert the catastrophe. Be wise in time. Dr. Pierce's Golden Medical Discovery will drive away consumption. Do not wait until too late before putting its wonderful efficacy to the test. It succeeds where other remedies fail. a

If you are tired taking the large old-fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them. dw

DEEMING'S DENIAL.

The Bluebeard Declares That He Never Made Any Confessions.

MELBOURNE, April 4.—Deeming had an interview with his solicitor Saturday. He absolutely denied the various crimes credited to him. He said he had never made

DEEMING, THE WIFE MURDERER.

any confessions and had made no admissions to anybody. He could prove an alibi in the case of the murder of three men in Jeahannesburg, South Africa.

The doctors who have examined Deeming declare that he is in good health.

When in the court-room Deeming refused to answer even the most formal questions. On being removed to the prison he gave way utterly to a fit of the most violent rage. The police are guarding Deeming very strictly. They have even taken from him his eye-glasses, fearing that he would attempt suicide by cutting an artery with a sharp-edged fragment of glass.

A despatch from Johannesburg, South Africa, says that the police there have failed to associate Deeming with the murders committed there in 1888, and that it has been proved that Keay, who was supposed to have been murdered, died of fever in 1889.

In contrast to his behavior on first being lodged in prison here, Deeming now assumes a bold front. He has said to his solicitor: "Wait till I get out and I will make the newspapers sit up. I will sue every one of them for libel. The idea that I had anything to do with the Ripper's work is absurd.

LONDON'S UNEMPLOYED.

Deputations Wait Upon the Lord Mayor and Dean Gregory.

LONDON, April 4.—A deputation of unemployed workingmen waited upon Lord Mayor Evans Saturday. The leader asked that the halls of the city companies be turned into labor bureaus. He wanted land to be purchased by the Government on which the unemployed could be set at work, and he wanted relief works to be started.

The Lord Mayor replied that he would require time to consider the novel proposals laid before him by the deputation. He assured them that he sympathised with them and said he was sorry to learn of the widespread distress among the workingmen.

A meeting of the unemployed was subsequently held at Tower Hill. It was presided over by the negro Wade. He referred to the deputation appointed yesterday to wait upon the Very Rev. Rovert Gregory, dean of St. Paul's Cathedral, and said that the deputation found the dean at luncheon. He received them and said he would preach a sermon in the Cathedral on Sunday in behalf of the unemployed, and though he must have known that some of the members of the deputation were hungry he did not ask them to have even a cup of tea.

A TRUE BILL.

The Change of Venue in Mrs. Montagu's Case of no Avail.

DUBLIN, April 4.—The grand jury of this county, to which the venue of the case of Mrs. Annie Margaret Montagu was changed from Coleraine, Londonderry county, returned a true bill of manslaughter against the accused for killing her 3 year-old daughter Helen. It also returned a true bill charging her with willfully ill-treating Austin, Walter and Gilbert, her three sons, all of whom are under the age of 14 years. Mrs. Montagu is the wife of R. A. C. Montagu, a justice of the peace at Londonderry, and daughter-in-law of Lord Montagu.

THE LIST OF THE DEAD.

Scores of Kansas People Killed and Injured in the Storm.

KANSAS CITY, MO., April 4.—Fifty killed. These two words, when the story of the recent Kansas storm is told, will represent the loss of human life The following is the estimate placed on the dead and wounded as near as it can be ascertained at this time: South Havan, 8 dead and 32 wounded; Wellington, 4 dead and 23 injured; on farms between these two towns, 5 dead and 9 injured; Towanda, 17 dead and 45 wounded; Augusta, 7 dead and 19 injured; Homestead, 5 dead and 7 injured; Strong City, 2 dead and 8 wounded; Salina, 45 injured, three fatally.

Sentenced to The Lash.

STRATFORD, April 4.—A young lad named Samuel Gilpy, aged 17 years, a farmhand was tried yesterday afternoon by Police Magistrate O'Loane on the charge of having committed an indecent assault upon the daughter of his employer, a respectable Moruington farmer. The young man was tried summarily and found guilty. The police magistrate sentenced him to two months in the county jail and ten lashes, five to be inflicted within ten days of the date of sentence and five between the 5th and 10th of May.

Blown From the Track.

BURLINGTON, Ia., April 4.—Officers of the Burlington and Northwestern narrow guage railway received the information last night that their passenger train due at 9 p.m. had been blown from the track 40 miles north. The baggage man, mail clerk and two passengers were seriously injured and a dozen others badly shaken up.

A. E. HAS AN ORGAN.

La Patrie Declares in Favor of Annexation.

MONTREAL, April 4.—Mr. Macdonald's candidature in Toronto as a straight annexationist has awakened considerable interest in political circles here, and the French-Canadian press especially is devoting a good deal of attention to it. La Patrie, the leading French Liberal organ, which is owned by ex-Mayor Beaugrand, in tonight's issue publishes the full text of Mr. Macdonald's manifesto, and in a leading article endorses his candidature and comes out flat-footed in favor of the annexation of Canada to the United States. La Patrie says: "We believe that if this question was frankly submitted to the electorate the popular vote would show a very unexpected result. Should the false pretension that our religion, our language and our nationality would incur more risk in the United States than in the Canadian Confederation be laid aside? Should the electors, who for the most part know the United States from having lived in it, or from having relations in it, be asked whether they would prefer Imperial federation, to which we are being drawn despite ourselves, or political union with the States, to which we are naturally gravitating? Should we say to them, 'Will you be English or American? You have no other alternative,' the majority of the citizens, who do not profit from our too numerous governments, would respond from their hearts that they were Americans, and that they cared nothing for the title of Canadian or for the Old Country. Such is our opinion as regards the Province of Quebec, and Mr. Macdonald, who should know, says that in thousands of cases the people of Ontario declare that the only way to put an end to our chronic trouble is to have annexation to the United States."

A BREWER AS A POET.

Not Much Metre, but Plenty of Froth to the Lines.

NEW YORK, April 4.—Miss Caroline Pluge, who is suing Joseph Probst, the Brooklyn Brewer, for $20,000 damages for blighted affections, disclosed to the court yesterday the romantic way in which Probst, as she declares, proposed to her. She had gone to his house for some vermouth after a concert, and whether because of love or vermouth, Probst burst into effusive poetry. Said he:

Oh, I am so happy now.
Why do you want to go?
You're My Carrie.
I'm your Josey.

Of course, Caroline could not resist that. She had her baby boy in court this noon. Since the quarrel with her Probst has married.

FELL FIFTY-FIVE FEET.

Lineman Lachapelle Drops from a Telephone Pole.

REGINA, April 4.—A frightful accident occurred in Rideau-street near the Protestant Hospital about 8 o'clock, as a result of which Benjamin Lachapelle, a lineman in the employ of the Bell Telephone Compay, may yet lose his life. The unfortunate man was climbing one of the new 55 feet poles. When about 50ft. he caught hold of the iron spikes by his right hand. It unexpectedly snapped off and he fell with a crash to the ground.

Lachapelle struck on his left side and was so terribly injured that he will die.

Two Bullets For His Bullet.

BERLIN, April 4.—At midnight a man who was passing the barracks of the third regiment of the guards in this city stopped as he arrived opposite a sentinel doing duty in front of the building and made derisive remarks to the soldier.

The latter ordered the man to go about his business.

This order infuriated the man and he made a most desperate assault upon the sentinel, drawing a knife and threatening to stab him.

The soldier attempted to arrest his assailant, but the man fled. He had run but a short distance when the soldier raised his rifle to his shoulder, took deliberate aim and fired.

The fleeing man threw up his hands, staggered a few feet and fell upon his face, mortally wounded.

The bullet was one of the small calibre balls used in the rifles of the German army.

It went completely through the body of the man it was aimed at and inflicted a severe wound upon another man who was walking ahead of him.

GRAND OPPORTUNITY FOR BARGAINS
AT
CHINA HALL.

From now until Saturday, 23rd April, we will hold a

GRAND AND GENUINE CLEARING SALE

to reduce and straighten up our Stock before Stock-taking.

Heretofore we have sold our damaged Tea, Dinner and Chamber Sets by auction, in a separate store, but this year owing to our increased room, we will try a new plan and sell them by private sale from our Showrooms. To make the Sale doubly attractive, we will place our whole immense Stock at your disposal at COST PRICE and in the case of Damaged or slightly Mis-matched Sets at Much Less than Cost.

OUR LARGE STOCK OF
HANGING AND OTHER LAMPS

will be sold AT COST and under, so as not to keep them over. All Goods will be ticketed, showing former and reduced price, and we invite you to take advantage of the above offer, and inspect the Goods at once, as the best bargains go first.

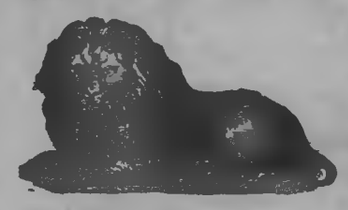
GOLDEN LION!



Delighted!

TO THE LADIES we have been indebted, in a large measure, for our business success, and we are delighted to be able to make this candid acknowledgment.

At no time has this been more evident than during the recent most successful opening of our Millinery and Mantle Show Rooms for the Spring and Summer Season of 1892.

Never has it been our privilege to wait upon so large a number of delighted visitors, and never have we been favored with so many valuable orders as at this opening.

Hundreds of discriminating lady buyers have daily inspected our selections, and promptly placed their orders upon learning our reasonable prices.

During the whole of next week, we will continue to put on exhibition later arrivals of imported Pattern Bonnets and Hats, choice collections of Fine French Flowers, and an endless variety of Millinery Novelties. Also, a magnificent stock of Imported Pattern Mantles, Jackets and Wraps.

The Values, in many cases, are such as could only be offered by making large import orders, and by the very closest figuring.

Respectfully,

ROBERT FAIR,

Sign of the Golden Lion,

383 George Street, Peterborough

MILLINERY OPENING

—AT—

TURNBULL'S

—ON—

TUESDAY AND WEDNESDAY,

April 5th and 6th.

Our commodious Millinery Show Rooms will be formally opened to display all the Novelties, in Millinery, of the season on April 5th and 6th. We could have opened a week earlier, but thought that the weather might be unseasonable and it also gives us a longer time to make preparations for a more elaborate display. We have taken every advantage to procure New and Cheap Goods in order to make our Millinery Rooms unusually attractive.

SPRING MANTLES AND WRAPS.

There will also be on display a magnificent stock of Imported Spring Wraps and Jackets.

WHITE UNDERWEAR.

Ladies when in the show room will do well to examine our large stock of White Underwear.

DOMINION PARLIAMENT.

IMPORTANT ANNOUNCEMENTS IN THE HOUSE.

The Statue to Sir John Macdonald Will Be Located on Parliament Hill—The Interest on Postoffice Savings' Bank Deposits Not To Be Increased.

OTTAWA, April 5.—Mr. J. D. Edgar gave notice last night that he will charge in his place in the House on Wednesday that Sir Adolphe Caron, while a Minister of the Crown, conspired with one H. J. Beemer and others by means of a construction company to build the Lake St. John Railway Company, which received upwards of $1,000,000 in subsidies from the Dominion Government, and also build the Temiscouata Railway, which received over $600,000.

It is charged that Sir Adolphe corruptly received large sums from these railways, and also received large sums for election purposes, especially in 1887, when it is stated he received $100,000, and it is asked that the matter may be investigated before the Committee on Privileges and Elections.

OTTAWA, April 4.—In replies to questions in the House yesterday some important announcements were made. In the first place, Sir Adolphe Caron stated that it was not the present intention of the Government to increase to 4 per cent. the rate of interest paid on deposits in postoffice savings banks, but he did it in such a way as to create the impression that the Government was open to conviction on the subject and that it might not be unlikely that the old rate may be restored.

Last, but not least, Sir John Thompson caused general satisfaction by saying, in reply to Mr. Taylor's question, that it was the intention of the Government to erect a statue of Sir John Macdonald on Parliament-square as soon as the money for doing so is voted, which no doubt means that a sum will be placed in the supplementary estimates.

An extra of The Canada Gazette to-night contains an order in council relating to rebate on canal tolls on wheat, Indian corn, peas, barley, rye, oats, feed, flour, seed and buckwheat, which have passed through Welland and St. Lawrence Canals for export from Montreal or ports east of Montreal. The rebate in all cases to be such as to reduce toll to two cents per ton. The right to rebate not to be lost by reason of intermediate transhipment, provided that the place of such transhipment is one within the Dominion of Canada.

IMPALED ON A FORK.

A Jealous Stableman Runs His Rival Through With a Stable Tool.

PARIS, April 5.—Constant Poucet, a cab driver, jealous of the attentions of Jean Millot, a groom, to Marie Bechot, the first named's sweetheart, stabbed his rival to death with a pitchfork, running the tines through and through the body of the unfortunate Millot. He then bound the body with straw so as to make it resemble an ordinary package, started with it on his back through the streets, intending to go to the Seine, some 600 yards away.

He had not gone far when he met Marie, who had been to a ball, and set down his ghastly bundle, entering into lively conversation with the young girl, who, all unconscious, stood leaning against her defunct admirer. Marie finally asked where Millot was, a query to which Poucet made an evasive reply.

After getting rid of his inquisitive companion, Poucet again taking up his burden staggered on to the railway bridge, and taking off the straw and weighting the body, threw it overboard

Poucet was arrested when Millot failed to turn up and confessed.

WHILE TAKING A DRINK.

Sudden Death of a Customs Officer at Clinton.

CLINTON, April 5.—John Irwin, Customs House officer of this place, died very suddenly yesterday at the Grand Union Hotel, where he boarded. The deceased and a companion were having a drink together, when he suddenly became unconscious and died in that state. An inquest will be held.

Murray, the Publisher, Dead.

NEW YORK, April 5.—John Murray, the well-known London publisher, died Monday Early in life he was the business associate of his father, who was the publisher of some of Washington Irving's works. He compiled the first of those "Continental handbooks" which are almost invariably seen with British travelers. He was known as the third John Murray.

Shot Off His Hand.

TILBURY CENTRE, Ont., April 5.—A boy named Charles Palmer, aged about 13, residing in Tilbury West, was shooting at sparrows yesterday when the gun exploded, taking off his left hand close to the wrist.

No Mining School For Port Arthur.

PORT ARTHUR, April 5.—The voting on the bylaw to establish and bonus a mining school resulted in the defeat of both bylaws, through a failure of sufficient votes being polled, although only 9 opposition votes were cast.

A Commission Refused.

FREDERICTON, N.B., April 5.—Yesterday in the House of Assembly a message was received from Lieut.-Governor Sir Leonard Tilley, in which the Government refuses to appoint a royal commission to investigate alleged boodle charges, pointing out that such steps under all circumstances would be without a precedent and advising the Opposition to make their charges in the usual way and ask for a special committee of enquiry.

A Ten-Year-Old Drunk.

BRANTFORD, April 5.—An exceedingly pitiful case came up at the Police Court yesterday. Willie Cheevers, a 10-year-old lad, stole a bottle of liquor out of a farmer's wagon, drank the most of the liquor, and was found lying insensible in Pearl-street. He was brought to the Police Station and a doctor worked with him two hours. This morning the father undertook to keep the boy right in the future.

Broke His Neck.

TRENTON, Ont., April 5.—James Miller of East Trenton climbed upon the top of a box car while some shunting was being done in the Grand Trunk yards this morning. A car struck the one on which he was standing and he lost his balance. In falling it is supposed he struck his chin on the edge of a car, breaking his neck and killing him instantly.

ACROSS THE ATLANTIC.

CONVICTION AND SENTENCE OF WALSALL ANARCHISTS.

Mrs. Montagu Receives a Light Sentence—Deeming Had Prepared for the Murder of the Woman He Intended to Make His Third Wife.

LONDON, April 5.—The trial of the Walsall Anarchists closed Monday with the conviction of Frederick Charles, Victor Cailes, John Thomas Deakin and John Battolla, alias Deoganaveiof.

The other prisoners, John Westley and William Ditchfield, were acquitted.

The jury united in recommending Deakin to mercy. Deakin is a native of Birmingham. His confession to the police after his arrest enabled them to trace the plot, which he said was aimed chiefly at Russia.

Cailes is a Frenchman, and a clerk by occupation, and Charles was a carter.

Battolla is considered the most dangerous of the party, and is said to be wanted in various European cities for crimes against order.

The charge against the accused was "unlawfully and knowingly having in their possession or under their control certain explosive substances under such circumstances as to give rise to the reasonable suspicion that they did not have them in their possession or under their control for any lawful purpose."

Battolla, Charles and Cailes were each sentenced to 10 years and Deakin to 5 years' imprisonment.

A MURDERER'S MAUSOLEUMS.

Deeming Had Prepared a Grave For His Proposed Third Wife.

MELBOURNE, Australia, April 5.—When Williams was arrested at the Southern Cross gold fields, in Western Australia, he was making final arrangements for his marriage with Miss Rounsevell, who was on her way from Bathurst, New South Wales, to join him. He had already secured a house, and his first act after taking possession was to purchase a barrel of cement, with which he had the floor of the main room cemented.

The circumstances of his arrest were of a dramatic character. He was in the act of reading a newspaper containing a brief account of the discovery of Miss Mather's body at Windsor, when a constable suddenly entered and, without the least warning, arrested him on the charge of murder.

For the moment Williams was dumfounded, but he quickly recovered his self-possession and, pointing to the paragraph, asked the constable if that was the crime of which he was accused, adding, "I think I know the party who was murdered. She was a good little thing and I cannot believe that anyone would hurt her."

The policeman himself was totally ignorant of the details of the crime, having merely been instructed in a general way to arrest Williams on the charge of murder. The latter, however, in the course of conversation after the arrest, acquainted him with many particulars of the crime, with which, it was apparent, he was fully conversant.

It has transpired that during the fortnight that "Swanston" acted as engineer at Fraser's Gold Mine the returns of the workings of the mine showed a large decrease, and that since he ceased to act in that capacity the returns have gone back to their normal average.

Marshall Dyle, the solicitor for the defence, had another long interview with the prisoner yesterday, and took his instructions at a table placed in the prison yard, while a band of armed wardens were posted at regular intervals, each one keeping the prisoner covered with his rifle.

Deeming had a fondness for wild pets, and had in his possession some of an extraordinary character. One of these got him in trouble at Birkenhead while he lived there, consequent upon a child being attacked and worried by a lion's cub. This cub belonged to Deeming and was brought home by him when he returned with his wife and family from Africa. It was kept chained up in his garden.

Mrs. Montagu's Sentence.

DUBLIN, April 5.—Mrs. Montagu was convicted of manslaughter and sentenced to imprisonment for one year at hard labor.

Much delay was met with in securing a jury. Mrs. Montagu's counsel challenged every Protestant among those proposed, and the crown objected to a number of Catholics. Finally 12 men were secured.

Another Ghastly Find.

DUBLIN, April 5.—The body of a girl has been discovered underneath the floor of a cottage near Bandon, 20 miles from Cork. The body had been buried and covered with cement in a manner identical with that followed by the murderer Deeming in the case of his wife and four children, whose bodies were found under the floor of Dinham Villa, Rainhill, near Liverpool.

Countess Russell On the Stage.

LONDON, April 5.—The Countess Russell, who is illogically living apart from her husband because he unkindly called her "a barren brute," will take the chief parts in "a pantomime rehearsal" and Gilbert's "Sweethearts" at the Royalty Theatre on the 11th and 12th instant.

Accident at the Giant's Causeway.

LONDON, April 5.—At Londonderry Assizes a jury awarded to Mrs. Hall, wife of an English tourist from Halifax, £375 damages against the Giant's Causeway Electric Tramway Company for serious injuries sustained by jumping from a car when a collision was imminent.

Firebugs at Teeswater.

TEESWATER, April 5.—Incendiaries fired the store of Carmichael & McTaggart, in Fowler's block, last evening, and the family of James Wheeler, who resided above the store, were almost suffocated in their beds. When the flames had been extinguished two piles of packing boxes and barrels completely saturated with coal oil, which were discovered, showed that the attempt of the firebugs had been a most determined one.

It Didn't Even Wake Him.

PORT ARTHUR, Ont., April 5.—An Ontario farmer going to Manitoba with his family of nine children missed his 9-year-old son when the train was between Chapleau and White River. It was in the night time and the father immediately entered on a search for him, which revealed the fact that the boy was not on the train. A hand car was sent back to bring in the mangled remains. The men had to go back five miles before coming on any traces of the boy, and when the latter was discovered he was not awake. He had stepped from the train when in full motion and had not even fallen!

TO BLOW UP THE CORTES

IMPORTANT ARREST OF ANARCHISTS IN MADRID.

They Carried Bombs With Which They Intended To Destroy the Spanish Chamber of Deputies—The French Dynamiter's Extraordinary Confession.

MADRID, April 5.—Great excitement was caused here yesterday by the discovery of an Anarchist plot to blow up the Chamber of Deputies.

The leaders of the conspirators arrived here within the past month. The Civil Governor had received information that two foreign Anarchists were conspiring with a number of Spanish Anarchists to blow up the public buildings, and the suspects were accordingly watched.

The project against the Chamber of Deputies was arranged to come off on Saturday a Frenchman named Deval and a Portuguese named Feirriera intending to conceal a couple of bombs under the seats in the Public Gallery and then to leave before the bombs exploded.

Feirriera, however, was taken ill and the attempt was postponed until to-day.

At 4 p.m. both conspirators left their house, each carrying under their arm a small parcel of the shape of a bottle wrapped in a newspaper.

Caught in The Act.

The police shadowed them and kept them in sight until they reached the Cortes building, where both men were seen to place themselves before the door leading to the Chamber of Deputies by which the President of the Chamber and Premier Canovas Del Castillo usually enter.

The police then decided that it was time to act and they at once proceeded to arrest the plotters.

The Frenchman, a man of herculean strength, fought hard but was finally knocked down and overpowered.

When searched they were found to have in their possession conical bombs, enclosed in castiron cases eight inches long by three broad. A yellow fuse, similar to that used by smokers, was attached to the bombs, which were bound and lightly compressed by steel wire for the purpose of increasing the force of the explosion. The bombs weighed each eight pounds.

The fuse was so adjusted as to burn three minutes before exploding the charge.

The bombs have not been carefully examined as yet, but they appear to be loaded with enough dynamite to blow up the whole Cortes.

The dynamiters intended to destroy the palace, Chamber of Deputies, law courts and other public buildings. They are a branch of the Paris anarchists.

THE PRINCE OF DYNAMITERS.

Confirmatory Evidence of the Truth of Ravachol's Confession.

PARIS, April 5.—Ravachol's confession fully confirms the previous statements made to the public by Chaumartin, who first put the police on the track of Ravachol. Chaumartin has avowed that the cartridges used at the explosions in the Boulevard Saint Germain and at the Lobau barracks were made by him. He is a mechanical engineer and has inventive talent.

Among the murders confessed by Ravachol, the most noted is that of the aged enthusiast named Brunell, who was nearly 100 years of age and lived the life of a hermit, subsisting on the charity of passers by, in a little sylvan retreat at Notre Dame de Grace in the Loire. Brunell was found murdered last summer, all his hoard having disappeared. Ravachol was suspected of the crime, was arrested, but while being conveyed to the prison between two gendarmes, with his hands chained behind him, he managed to escape, and after an exciting chase, during which he was thrice seized and each time succeeded in getting away, he disappeared in the hills near Clermont-Ferrand.

The murder at Varizelle was that of an old man nicknamed the "Petit Bon Dieu" and was very cruel in its character.

How Prince Michael Induced Bernice Bickle to Join Him.

DETROIT, April 5.—Prince Michael and his spiritual affinity, Eliza Courts, were yesterday morning remanded until April 11.

Bernice E. Bickle, his 15-year-old victim, related how she made the Prince's acquaintance at the house of her uncle in Sarnia and accompanied him to Toronto. Michael left for Detroit and Bernice shortly afterwards received a letter from the Prince ordering her to join him, as she was called by God to take the tenth place in the Godhead representing obedience. She came, Michael saw, and conquered.

An attempt by Michael's counsel to induce the court to order the newspapers not to publish so many details collapsed, and Mills' bail was raised to $2200.

Blackstock Is Their Choice.

TORONTO, April 5.—The Young Liberal Conservative Association held a meeting in their room, Shaftesbury Hall, last evening to select a candidate to be brought before the general convention for approval as a proper person to vill the vacancy in the Local Legislature, vacant by the death of Mr. H. E. Clarke. Mr. G. T. Blackstock was unanimously nominated.

Another Election Voided.

OTTAWA, April 5.—The Supreme Court Monday considered the North Perth election case, Campbell v. Grieve. The chief justice held that there had been corrupt practices at the election, and it was therefore void.

Chief Justice Ritchie and Justices Gwynne, Taschereau and Patterson all held that the payment of $2 to Gowan constituted a bribe.

Entombed in a Drain.

MONTREAL, April 5.—While Edwin Smith was excavating a drain at the Montreal rolling mills at St. Cunegonde Monday the earth caved in. Smith was dead when dug out.

Lost a Leg.

MITCHELL, April 5.—While making a coupling at the G.T.R. station Brakeman H. Ingram, formerly of Toronto, slipped and his left foot was cut off by the wheels.

The Latest Yet

W. C. Kirk has bought a lot of mixed tea, a bankrupt stock, good sound tea, which he offers at 15c. per pound in twenty pound boxes. You surely cannot get better value than that; don't think because the price is so low that the tea can be no good; I guarantee it. W. C. Kirk, Ashburnham. Telephones, Ontario No. 6, Bell No. 212.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal diseases, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

THE TRENT VALLEY CANAL.

The attitude of the Dominion Government towards this vitally important undertaking is utterly incomprehensible, especially to the people of this district. The Dominion estimates were brought down, and they contained only a paltry sum for repairs, but not a cent for constructive work. The first instalment of the supplementary estimates did not contain a farthing for the prosecution of the work of an additional section, and there are no indications that the future of the session will remedy this astonishing neglect. Astonishing, in view of several facts. The Government is committed to the scheme. Sir Charles Tupper, ten years ago, pledged the faith of the Government to the construction of the canal, and by direct and indirect expression and action, the Government has repeatedly furnished evidence that it had adopted the scheme as a part of its public policy. At the last Dominion election a telegram was received here from Sir John Macdonald, containing the most positive assurance that a substantial sum should be placed in the estimates for canal construction, and at the same time the report of the Commissioners was paraded as favourable to the building of the canal, a report which left the Government not a leg to stand on in an attitude of opposition, or even indifference, to the work in question. Now, why was all this done, if not to show the electors of this county that the Government was friendly to the canal—meant to build it, and would build it and that, therefore, they were entitled to the support of the electors, which, as a matter of fact, they did receive. The assurance from, both members of the Government and candidates, that the Government would really and earnestly enter upon the work of canal construction at an early date, was one of the strongest influences, in deciding the last election contests in East and West Peterborough, and also in a dozen other ridings in the district directly interested in the building of the Trent Valley Canal. The candidates believed this, and one had such unshaken confidence in the good faith of the Government that he declared he would resign his seat unless the Government fulfilled its promise of pushing on work on the canal Is his confidence unshaken still? If it is, it is made of more sterling stuff than the confidence of the electors. The latter see that the Government are playing fast and loose with their solemn pledges in respect of this matter. And it will take only a little further experience in the same direction to make the people see that the members, representing ridings along the route of the canal, are, by their passivity, condoning and abetting the insulting indifference the Government shows towards the people of this district and their rights in the matter of the Trent Valley Canal. Things have now arrived at such a pass that, on the action of the supporters of the Government in this district, depends the future of the Canal. They have the weapons in their hands and they must strike—and let the Government know that the Trent Valley Canal, as a political plaything, is "played out." If they don't do something soon, and something strong, too, they will be classed as pals of the Government in humbugging the people and robbing them of their rights.

A letter to an evening contemporary last night, from the Secretary of the Board of Trade states that the matter of the canal will be brought up at the meeting on Thursday night. This is proper enough, but if, as the letter states, "the members of Parliament along the route have now more than ever thrown their energies and determination into the successful carrying out of this cherished project," with them the real work rests; they have the canal in their hands, theirs will be the blame if further delay ensues, theirs the credit of the Government is brought to the digging Point. It is patriotic and dutiful and all that for the Board of Trade to strengthen the hands of the members, but if the Board could devise some means to strengthen the backbone of our representatives, that would be more to the point.

Legislative Assembly Notes.

The *Empire* says:—The only business transacted by the Legislature on Saturday was performed by the municipal committee. A number of bills amending the Assessment Act and dealing with legislation in regard to the Municipal Act were considered and passed, and among others being the following:

ASSESSMENT AMENDMENTS.

The first matter discussed was the bill of Mr. Stratton's to amend the Assessment Act. As reported it provides that islands of less than 10 acres in extent, used exclusively as summer resorts, shall be exempt from taxes consequent upon statute labor.

PEDDLERS OF JEWELLERY.

Mr. Stratton also presented a bill to amend the Municipal Act. It requires that peddlers of jewellery and plated ware shall be possessed of a license. Mr. Waters recited his experience with a member of this class, which displayed his credulity in a rather uncomplimentary manner. He strongly urged the acceptance of the measure. It was adopted.

The Wonderful Success

Of Hood's Sarsaparilla as a blood purifier entitles it to your confidence. No other preparation has such a record of cures of Scrofula, Salt Rheum, Blood Poisoning, or other blood diseases. To try it is to know its merit. Be sure to get Hood's Sarsaparilla.

For a general family cathartic we confidently recommend Hood's Pills. They should be in every home medicine chest.

If you once try Carter's Little Liver Pills for sick headache, billiousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this. dw

If you are tired taking the large old-fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them. dw

At Home and Abroad.

Physicians, travellers, pioneers, settlers, invalids and all classes of people of every degree, testify to the medicinal and tonic virtues of Burdock Blood Bitters, the most popular and effective medicine extant. It cures all diseases of the stomach, liver, bowels and blood. dw

Give our 35c. tea a trial and you will be more than pleased with it.

Five Pounds for One Dollar and a Half

STROUD BROS.

370 George St., Peterborough.

GRAND RE-OPENING

of Gough Bros. Mammoth Clothing, Hat and Boot Stores.

During the past month these stores have been undergoing extensive alterations, and now, with pardonable pride, we have much pleasure in announcing that these stores are the finest of the kind in Canada. Their aim has been to clothe a man or boy from head to foot. They have added department after department, until now they have reached the goal of their ambition. Each department is replete with all the latest novelties. We will not enlarge on the prices the goods will be sold at, suffice to say they will simply astonish our patrons.

A WORD ABOUT OUR CLOTHING DEPARTMENT!

NEVER in the history of the trade has such an array of fine clothing been placed before a buying public. Our stock this Spring embraces all the latest designs and patterns, and they were made under our own special supervision, the workmanship is of a superior quality. Notwithstanding all this our prices will be found lower than ever. When we came to you as the revolutionizers of the clothing trade, we promised you then that we would benefit the public, and now, after a long trial, have we kept our word? If so, let that be our best guarantee to the public that we will deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please everyone, still to those whom we did not please, as well as to those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes, and our judgment, like any human being's, may err. Still, we try to avoid errors as much as possible, and therefore it is our proud boast when any one had a grievance we never refused to make it right when brought to our notice. This spring we are going to redouble our exertions, and by keeping Good Goods, Nice Goods, square dealing and extremely low prices, we hope to merit a continuance of your generous patronage.

GOUGH BROTHERS,

The Wonderful Cheap Men, 377 and 379 George Street, Peterborough.

DAVID ROSS.

The Sewerage Question.

To the Editor of the Examiner

DEAR SIR:—Will you allow me the space in your valuable paper to show what need we have in Peterborough for the proper system of drainage; the greatest reason, though not the only one, is that of health. Nothing is more common than for every case of sickness to be ascribed to the working of an inscrutable Providence. By far the greater proportion of the affliction to which mankind is subject, comes, not by the act of God, but by the act of man himself. The range of what is called preventable diseases is now known to be very wide and all such diseases it should be the first duty of man to prevent. That to which I would more especially refer is typhoid. This is not only a preventable disease, but one called into existence by the act or neglect of man. From a thorough investigation made by sanitary authorities, they tell us that there has never been a case of typhoid fever that was not almost caused by the ignorance or by the criminal neglect of some person whose duty it should have been to prevent it. We are told that typhoid fever has many names, "drain fever," "sewer fever," "cesspool fever," "night soil fever," all of which are suggestive of their origin. When any one is afflicted with this disease we have to leave the patient to the care and control of the physician in charge, but let us never forget that we are responsible for the origin of every first case. Let those who have families see to it that they poison not their children's blood or their own by the foul emanations of our house drains for want of proper sewerage. In these days when so much is being published concerning the origin of disease, however free we may be of criminal intent, the serious charge of criminal neglect must lie at our door. In country houses this is more readily prevented, but in towns every one is more or less affected by the circumstances attending his neighbour's mode of life. There are but few I believe, but will readily admit the need of sewerage drains. The worthy chairman of the sewerage committee must wake up to his position. Whatever his private opinion may be on the subject, he cannot be neutral in his official capacity. In the addresses of our council they referred to the very great importance of sewerage that would come before them and they must remember that they were not sent to pose as ornamental figureheads, but to stand at the helm, or they may not be sent again. I know that we have yet to learn the best system of sewerage, but let us have the best we can. By all means let us not overload the drain and so break its back; this is done very often. Their is as much need of a scavenger to clean and carry away the garbage and kitchen waste with the contents of the closet, every week at least. Householders have now to pay from one to three and four dollars a year to have this done and then only done in part; the increase in their tax for sewerage would not be as much as they now pay. In Manchester, England, they have what is called the tub system. There were over sixty thousand of these in use a while since and the system gives great satisfaction. In the thirty years I have been in Peterborough I have never had the vault made to the privy, but have constructed it on the dry earth system, but there are so many of these vaults through the town that we could not find out where the danger lies. We have been spending a large sum annually on the Court House Park. I do not object to this, but after all, it is but like "whited sepulchres, which indeed appear beautiful outward," while within our town we are full of disease and "all uncleanesses."

If the people want it, if the statute says we must have it, then for what reason shall we not have it? If by the observance of these sanitary rules one may save those he loves from much of the illness and suffering, and, may be, premature death, this ought to be a sufficient appeal to any conscientious, civilized man. We may not know ourselves how we have escaped the dangers we have been in. We may have been sufficiently robust and vigorous, or unsusceptible to infection, to have avoided a serious or fatal illness, but in every instance the danger has been incurred, and when incurred the risk must be the same as in taking any other form of slow poison.

Thanking you for this space, and hoping your columns may be used for the advocacy of the health of the town, I remain,

Yours, ever,

J. BABB.

April 4th, 1892.

A Smith Success.

An Enjoyable Concert in Union Hall.

Mr. J. H. Ketchan closed his classes in singing, consisting of 55 voices, by a grand and successful concert in Union Hall, Smith, Friday night, April 1st. There was a crowded house, and the fine rendering of the choruses gave evidence of the careful tuition of Mr. Ketcham. The chorus was ably assisted by several soloists principally from town, and by a quartette from St. Andrew's, consisting of Misses May Heubeck and Lizzie Ketcham, and Messrs. Gray and Ketcham. Mrs. Green sang "Three Leaves of Shamrock," Miss Fawcett, "The Willow Copse," and Mr. Gray, "The Rolling Wave." These three are vocal pupils of Mrs. Ketcham, and by the fine quality of their work did credit to the efficiency of her teaching. Miss Minnie Garbutt, of Smith, sang "Marguerite" and Mr. Ketcham did ample justic to "The Old Turnkey." The quartette sang in fine style the comic selection "The O.P.R.A.;" "The Auctioneer" and "The Wolf is on the Hill." The programme was an enjoyable one throughout and scores another success for Mr. Ketcham. Miss Mann, and Mr. George Schneider, town, furnished effective accompaniments.

$5.00 Per Month—Medicine Free.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5.00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5.00 per month and medicines free.*

These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by mail but at least one personal interview is preferable.

All correspondence should be addressed to Mr. John Murry, Manager, 271 Jarvis street, Toronto

From Far Away Florida.

That State as a Health Resort—Its Advantages and Disadvantages.

Mr. L. Seward, writing from Ocala, Florida, under date of March 30th, to a friend in town, has the following relating to that much-lauded country:

The climate here is very pleasant in the winter—clear and bright. The rains come on in July, August and September, very seldom raining in the night. The roads in the rainy season are excellent, as the rain packs the sand—no mud nor snow—but owing to the saline atmosphere a cool wind prevails from the north, causing much discomfort. People are not prepared for cold, so they suffer somewhat. There are no pretty lawns here, grass plots being so much trouble to keep in order. Only the few make the attempt, and it is generally a dismal failure. Flowers there are in abundance, and beautiful foliage of all kinds. But you can never get off the sand—it meets you everywhere. It spoils a great deal of the pleasure given by walking and driving in the dry season, as the wheels drag through the deep sand, and one quickly tires of walking in the loose, hot, shifting sand. The summer is long and tedious, relieved, however, in the middle of the summer by the trade winds. Cool nights prevail the year around. Catarrh also prevails in a mild way. People very easily catch cold here, and many come here with well developed consumption and die of it. Then again, persons with weak lungs come here and rapidly improve, especially asthmatic patients who find great relief here. People from the north, settled here, prefer this climate, dreading the cold winters of the north. They get used to the insect pests that abound in the summer—red ants, jiggers, fleas, gnats, mesquitoes—and resign themselves to the conditions that surround them.

At the end of the summer season it is a difficult matter to get a variety of food. Everything is scarce and dear. Milk, for instance 10 cts. a quart; good meat 20 cts. and 25 cts. per lb; small chickens, 30 cts. and 40 cts. per chicken; eggs 30 cts. a dozen. Everyone endeavors to get their produce in the markets of the east early in the season; and in the middle of summer the markets here are bare. Fish is reasonable in price. The frost is the enemy most feared. In one night thousands of dollars worth of damage is done. The growing orange groves are sometimes utterly destroyed, causing great financial loss.

Nothing can be raised here without expensive manures. On a half acre of strawberries they will place a ton of fertilizer costing $30.00 per ton, and so on. An orange grove is a very expensive thing to run, and a bad orange season or a glut in the market, causes great financial loss. Little manure—little crops; plenty of manure—large crops, which all is of no use if too heavy frosts set in, or a glut in the market ensues. The fools are not all dead yet. They come out here in shoals from the States, invest their money and lose it, and gain wisdom by experience.

But this one thing must be said in favour of Florida—that thousands of delicate men and women regain there health here. This is a fact. As a climate it stands unrivalled on this continent, not excepting California.

Too Late.

Perhaps Tennyson has written nothing which appeals to the hearts of all who read his poems more than the lyric of "Too Late." The burden of the sad refrain comes home with telling force to the hearts of those who have lost friends by that dread disease—consumption. They realize, "too late," the result of neglect. They feel that the dear one might have been saved if they had heeded the warning of the hacking cough, the pallid cheek, and wasting system. They feel this all the more keenly because they see others being rescued from the grasp of the destroyer, and they think what is saving others might have saved their loved one. When the first signal of danger is seen, take steps to avert the catastrophe. Be wise in time. Dr. Pierce's Golden Medical Discovery will drive away consumption. Do not wait until too late before putting its wonderful efficacy to the test. It succeeds where other remedies fail.

Worth of Notice.

If you wish to restore to your cheeks that charming rose tint which they have lost add every morning to the water used for washing, a teaspoonful of Persian Lotion. The effect is marvellous. 1d

Cold Weather Trials.

DEAR SIRS.—This fall and winter I suffered from neuralgia in my face and had the best medical advice without avail. I at last thought of trying B.B.B., and after using one bottle have not felt any symptoms of neuralgia since. I regard it as a fine family medicine.

New Fruit and Fish Store.

Messrs. C. B. Lowe & Co., recently from Toronto, who have been residents of the town some time, will open a new fruit and fish store on Charlotte street, in the shop formerly occupied by "Smith's Market," Harper's Block. They will open out with a large and fresh stock of goods in their line, which will amply justify their claims to a liberal share of public patronage.

Ancient Principles

Punctually applied in the Peterborough Market Drug Store:

Pure Drugs,
Patent Medicines,
School Books,
Stationery,
Seeds,
Spectacles,
Etc., etc., etc., on hand.

H. SPEARS.

Ontario Foundry.

Messrs. J. White & Co., of Peterborough, have decided to again open their foundry here and keep constantly on hand a full assortment of all kinds of agricultural implements and machinery. Mr. J. G. Mathieson, their agent, will give all information required to those who may favor them with their patronage. Another key added to the wheel of Campbellford's industries.—*Campbellford Press.*

Bradburn's Opera House.

"The Bottom of the Sea" is said to be the best spectacle on the road this season. The company is a competent one, if all reports are true, and the stage mechanisms are a novelty to the theatrical world. The fight between a diver and a devil fish is very realistic, as are the assassination in the water and the laying of the cable. It comes to the Bradburn Opera House Saturday, April 9th. The success in arranging the production of this play has been remarkable. dtf

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

The Machinists Successful.

A tug of war took place at the Edison Club rooms last night. There was a large number present to witness the sport. The contests between four departments of the Edison works which were to have come off on Friday night at the entertainment given by the Edison Amateur Athletic Club but had to be postponed on account of the smallness of the stage, will come off at the Edison Club rooms during the present week. Last night the first contest was held between teams selected from the Erecting Department and a rough and tumble team. The machinists won two heats out of three and with that victory. Mr. W. F. Harris was referee and Mr. R E Layfield time-keeper. A minute was allowed for each. Following are the names of the men who pulled against one another:

ERECTING DEPARTMENT.——————,
Robt. Hunter, Robt. Nesbitt, E. Gere.

ROUGH AND TUMBLE.—Fred White, P. B. Canoe, Frank Derrich, Wm. Anderson.

A pull of four feet and a minute were allowed to each heat. Both teams were on cleats. The Rough and Tumble won the first heat by six feet at the end of a minute. The machinists won the remaining two heats by 1½ and 7 inches respectively. The struggles between the other departments will be held this week.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Personal.

Mr. J. Z. Rogers, Ashburnham, is seriously ill.

Dr. Tilley inspector of Public Schools, is in town, and will spend the remainder of the week in the discharge of his official duties.

Mr. Fred Elliott, foreman of the Millbrook *Reporter*, died on Friday last. His brother, Mr. J. G. Elliott, managing editor of the Kingston *Whig*, and Mr. Geo. M. Elliott, of Her Majesty's Customs, Napanee, attended the funeral.

Mr. Chris. B. Robinson, son of Mr. C. Blackett Robinson, the well-known publisher of the *Canada Presbyterian*, *The Week* and *Dominion Oddfellow*, Toronto, is in town on business in connection with these publications, *The Week*, the only high-class, Independent literary publication in Canada, is now in its ninth year and is deserving of the support of all Canadians. The *Canada Presbyterian* is in its twenty-first year and well established as organ of the Presbyterian Church in Canada. Mr. Robinson has an enterprise of his own on foot being one of the publishers of *Cycling*, a semi-monthly journal devoted to bicycling. Mr. Robinson will likely be present at the meeting of the bicyclers to-night in the Olympic Club rooms. He will be in town a few days in the interest of his publications.

Read T. Hurley & Sons "ad." Changed every other day.

Go to Jos. Armstrong's for kid gloves—396 George street. 4178

Ladies.

A pin in your brooch costing only 5 cents, at WYATT'S. If broken within three months will be replaced free of charge.

Constipation claims many victims. Ward off this dread disease by the use of Small Sugar-Coated Burdock Pills when needed.

Look Up Your

Spring overcoats or suits, and have them cleaned, or dyed and repaired at PARKER'S Dye Works.

"The Great Hymns of the Church."

This is the subject of the address of Rev. Canon Dumoulin, in St. John's on next Wednesday evening, at the close of the service.

Philharmonic Society.

We are requested to remind the members of the Peterborough Philharmonic Society that a full attendance is urgently desired at the rehearsal this evening.

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

R. E. A.

Every Emerald is requested to attend a special meeting on Thursday evening next, at 8 o'clock sharp. Important questions concerning the future of the association at large will be discussed. G. H. GIROUX, President. 3181

"The Hercules Duster."

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in all colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

Telephonic Talk.

Mr. W. C. Scott, inspector of the Bell Telephone Company, is in town to look after the interests of the local exchange during the temporary absence of Mr. G. L. Schaefer, the manager. The company is constructing some lines in Western Ontario of a new kind, and Mr. Schaefer being the best lineman in the province, the company demands his services in this capacity for a couple of months.

A Proposed Temperance House.

A meeting was held in the R.T. of T. Hall last evening. There was a fair attendance, and several local speakers addressed the meeting. The matter under consideration was the proposed establishment of a leading temperance house in the town, and the moral influence it would have upon the community. No definite action was taken or proposed plans submitted. Opinions and discussion in reference to the matter is invited.

Prof. Kemp, who has been before the American and Canadian public for a number of years, as a practical phrenologist, is at present at the Cardwell Hotel. Prof. Kemp guarantees to give you better satisfaction, and can prove by the sworn statements of many people that he understands his profession and can give a more practical and perfect delineation of character than any phrenologist that ever travelled through Canada, with the exception of Prof Fowler. 6176

A Damper on the School Children.

Some time during the night the ¾ inch water pipe under the floor of Miss Hall's room in the Central school building burst. The upward force of the water dampened the floor of this room in one corner and the rooms below Miss Cameron's and Miss Jenkins' were flooded, some of the books being well soaked. The break was discovered by janitor Tighe and the water turned off. These three rooms being unfit for occupation the classes were dismissed for the day.

The Largest Edison Building.

A Keene correspondent writes:

Please give in the WEEKLY EXAMINER the size of the largest Edison building; also, how many people could stand on ground floor, with stated space for each.

The size of the largest building is 272 feet in length by 110 in width, two galleries of the same length, each 25 feet in width. Allowing 18 inches square as the space occupied by each of a number of men standing in a certain space, 13 297 7-9 men could stand at one time on the ground floor of the largest Edison building. Add to this the floor space of the galleries, which, allowing the same space per man, would hold 6,044 4 9 men, we have a total on the total floor space of 19,342 2 9—or 19,342 men and two tailors.

Street Cleaning.

The Street Inspector had a battalion of nearly fifty men and two teams employed this morning in cleaning the streets—removing the mud that was placed on them last spring and fall. Would not a well-bedded road of granite macadam on our principal streets be, more lasting, more cleanly, less expensive in the long run, and in every way more satisfactory than the side-line, statute-labour style of dumping in a few cabs of gravel at odd seasons? Our city fathers should realize as a body that ours is a large and progressive town, and that our civic policy in relation to public improvements should keep pace with the thrift and progressive spirit of the citizens.

Peterborough Rifle Association

The Annual Meeting Held Last Night in the Drill Shed—Election of Officers, Etc.

The annual meeting of the Peterborough Rifle Association was held in the orderly room of the 57th Battalion on Monday evening. In the absence of the President, Col. H. C. Rogers, on motion Mr. D. Bellegham occupied the chair.

Mr. G. A. Schofield was elected secretary *pro tem.* The minutes of last year were read by the secretary, Mr. R. M. Deanistoun, and on motion confirmed.

The financial report was read and adopted.

A letter was read from the President, Col. H. C. Rogers, expressing regret at not being able to be present, and positively declining, on account of ill health, to again accept the office.

Moved by Mr. G. A. Schofield, seconded by D. Cameron, that in accepting the resignation of Lt.-Col. Rogers from the office of President, which he has so acceptably filled for a number of years, the Association desires to place on record their appreciation of his services, and to convey their best thanks to the retiring President.—Carried.

The election of officers was then proceeded with, and with the following results:

PRESIDENT—R. W. Bell, M. D.
1st VICE PRESIDENT—Rev. V. Clementi.
2nd VICE PRESIDENT—R. A. Morrow.
SECRETARY-TREASURER—G. A. Schofield.
COUNCIL — Messrs. J. B. Pentland, C. Curtis, R. M. Deanistoun.

Moved by W. H. Hill, seconded by G. Fitzgerald, that the regular fee for old shots be $2 per year, and for new members $1 per year.—Carried.

Moved by W. H. Hill, seconded by J. Pentland, that we affiliate with the D.R.A. and if a team signify their intention of attending the O.R.A. meet, we affiliate with the O.R.A. also.—Carried.

Moved by R. M. Deanistoun, seconded by W. H. Hill, that the regular practice day be Thursday if the secretary can make arrangements to shoot the league matches on that day.—Carried.

Moved by D. Cameron, seconded by W. H. Hill, that there be five monthly matches held during the season.

That they be held on the first shooting day of each month.

That the best three scores count.

That the medals be awarded to the first and second highest scores.

That one sighting shot be allowed at each range.

That the ranges be 200, 400, 500 and 600 yards.

Moved by R. M. Deanistoun, seconded by G. Fitzgerald, that no man be allowed to fire more than seven shots at one range unless with the consent of those present.—Carried.

The meeting then adjourned.

The prospects for the season were never better. A large number have signified their intention of joining already, and a better time cannot be found than the present. The first practice match will be held on Good Friday. The Association has a good season before it.

News Nuggets.

—Pike spearing is now in order.

—The swallows are here in large numbers

—Wild geese are arriving in considerable numbers.

—A number of cheese factories commenced operations to-day.

—The Board of Education will hold a regular meeting to-night.

—The Separate School Board will hold a regular meeting to-morrow night.

—The Board of Trade will meet on Thursday night in the council chamber.

—No. 2 Company, 57th Battalion, meets to night in the drill shed for organization.

—A house on Stewart street was placarded this morning with a red card marked diphtheria.

—A meeting of the town council will likely be held on Tuesday evening of next week.

—M. Moon has been awarded a $1,000 contract for painting in the Hastings county jail.

—The first spring plowing began this morning, in a field south of Mr. Geo. McWilliams residence, Ashburnham.

—The annual meeting of the Ontario Telephone Co., which was to have taken place to-day, has been postponed until April the 19th.

—The directors of the P.A.A.A. will meet to-morrow afternoon at 4:30 in the Olympic Club rooms for the election of officers for the ensuing year.

—A rough and tumble fight occurred in one of the leading hotels at an early hour last night. The attack was renewed after a few minutes rest.

—Thos. Moloney, of Douro, had a robe stolen from his vehicle which was left in a hotel yard yesterday afternoon. He valued the missing article at $13.

—Captain and Adjutant Deanistoun, who was to have examined the non-commissioned officers of the 57th Battalion to-night in the school, room will not do so until a week from to-night.

—About half of our village correspondents are ladies. You can pick out their effusions by the reference to "weddings in the near future," young men's flying visits, etc.—*Kingston Whig.*

—Company drill will begin in the drill shed next week. There should be a large turnout of the men. The companies will likely drill sometime before there will be a battalion parade and drill.

—A meeting of the Peterborough Bicycle club will be held to-night at the Olympic club rooms for the election of officers for the ensuing year, and the transaction of general business. There should be a very large attendance.

—About ten o'clock yesterday morning a young man named Frank Miller, who was riding on the top of a freight train on the Central Ontario Railway in Trenton yard, accidentally fell from the top and was killed. His home is in Sidney township.

—A large consignment of note paper and envelopes were received to day by the officers of the Peterborough Rangers. It bears the new crest which the battalion ordered last fall. The engraving was done by the celebrated engravers Rolph Smith & Co., of Toronto. On the battalions vignette are the words Peterborough Rangers, LVII, *Quis Seperabit.*

Police Court.

TUESDAY, APRIL 5TH.

Three characters faced the magistrate at the police court this morning. Their names were John Cochrane, Wm. Macauley and Thos. Saunders. They were brought up on the charge of being without home, food or money, and having no visible means of support. The spokesman of the trio, John Cochrane, in answer to the question whether they were guilty or not, said that he was out of work at present because of disappointment in several jobs. The magistrate gave them a warning and said they could either take their choice of getting out of the town within fifteen minutes or take six months in the Central. They gladly jumped at the former. They are now wending their way to Toronto.

Officer A. H. Braley
of the Fall River Police

Is highly gratified with Hood's Sarsaparilla. He was badly run down, had no appetite, what he did eat caused distress and he felt **tired all the time.** A few bottles of Hood's Sarsaparilla effected a marvellous change. The distress in the stomach is entirely gone, he feels like a new man, and can eat anything with old-time relish. For all of which he thanks and cordially recommends Hood's Sarsaparilla. It is very important that during the months of **March April May** the blood should be thoroughly purified and the system be given strength to withstand the debilitating effect of the changing season. For this purpose Hood's Sarsaparilla possesses peculiar merit and it is the **Best Spring Medicine.**

March **April** **May**

The following, just received, demonstrates its wonderful blood-purifying powers:

"C. I. Hood & Co., Lowell, Mass.:

"Gentlemen: I have had **salt rheum** for a number of years, and for the past year one of my legs, from the knee down, has been **broken out very badly.** I took blood medicine for a long time with no good results, and was at one time obliged to **walk with crutches.** I finally concluded to try Hood's Sarsaparilla, and before I had taken one bottle the improvement was so marked that I continued until I had taken three bottles, and am now better than I have been in years. **The Inflammation** has all left my leg and it is entirely healed. I have had such benefit from

Hood's Sarsaparilla

that I concluded to write this voluntary statement." F. J. TEMPLE, Ridgeway, Mich.

HOOD'S PILLS act easily, promptly and efficiently on the liver and bowels. Best dinner pill.

Oh! ye Sports, go to Headquarters.

For Lacrosse, Base Ball, Cricket, and Lawn Tennis Goods, go to **SAILSBURY'S.** Cheapest and Best in Town.

DR. WISHART,
47 Grosvenor Street, Toronto.

MAY be consulted at the ORIENTAL HOTEL, Peterborough, from noon to 5.30 p.m. on **Wednesday, April 13th,** and on the second Wednesday of each month. Diseases of the Eye, Ear, Nose and Throat. d127 7t

The great Chronometer and Regulator in chief, to the whole world, is the earth itself. Turning upon its axis once in what we call one day of twenty-four hours, the sun appears to cross the meridian once in that interval and is the only perfect time known. But the great objection to the sun as a family timepiece is, we can't always hustle around looking for him to judge the time by, and it is too big to carry around with us, so we have to call in the watchmaker's aid to find the correct time. Who is your watchmaker? Try R. W. MUNCASTER.

DIVORCED

BUT still selling and renting property. I have a delay of a farm now of 150 acres, 3 miles from town. Stone house 30x36, frame kitchen 18x18, 1½ story; woodshed 20x30; two barns, each 12x51, stone foundations with cow and horse stables beneath. 2 acres orchard, 10 fall wheat, meadow, 50 fall ploughed. Cheese factory and school within 10 minutes walk. The above to rent or sell, but would rather sell, as the proprietor can not work it on account of ill health. Very easy terms and possession at once.

DRESS GOODS!

A WORD TO SPRING BUYERS

Newness is a factor in the make up of a handsome Spring Costume.

We make the point that our lines of Dress Goods are new, wholly new; new in design, new in colors and shades, and new in prices.

The new things the trade affords and what we haven't got, you need not look elsewhere for.

Jos. Armstrong & Co.

LeBrun's Old Stand, George St.

Peterborough's Increasing Trade.

As Shown by the Customs Returns and Returns of Exports.

Through the courtesy of Mr. C. H. Clementi, Collector of Customs, the EXAMINER is able to present customs returns showing substantial increase in the trade of the town, both by the amount of duties collected on imported goods, and increased exports. The duties collected for the month of March is $6,044 63, and the total exports for the same month are of the value of $49,249. The following comparative tables will be of interest as showing the marked extent of the increases spoken of:

DUTIES COLLECTED

for the quarter ending March 31st:

1891.		1892.
Jan.	$3,039 51	$4,051 88
Feb.	4 045 03	5 156 30
March	6,044 63	9,359 75
	$13,129 17	$18 567 93

EXPORTS.

For the quarter ending March, 31st:

1891	1892
Jan.	$29,486	$47 868
Feb.	16 919	50 854
Mar.	29,185	49 249
	$75,590	$147,971

It will be noticed that the imports as shown by the duties collected for the first quarter of this year were largely in excess of the corresponding quarter of the previous year a notable increase being in this March over last. The increase in the exports are even more marked, The total for the present year is nearly double that of the first quarter of last year. A feature of the local exports was that there was considerable grain and flour sent to the West India Islands.

The Man Milliner in Peterborough.

The Evergreen Gough Bros. Make a new Departure.

There seems to be no limit to the mercantile versatility of the Gough Bros. It is not surprising though, it is remarkable, that they should have introduced a stock of hats that will charm the ladies. But one of Gough Bros'. new and nobby spring hats worn by a young man dressed in one of Gough Bros. perfect fitting suits will charm the eye of every sensible young lady. In this sense the Gough's keep hats that please the ladies. This is the sober truth. That crown of a well dressed man a well made nobby stylish hat, is to be found in everlasting variety at Gough Bros. Hats of every description, caps of every style, to fit every head, from the head of the corporation to the head of the humblest householder, from the head of the tottering grand-sire to that of a prattling child. Marvellous quality, marvellous variety and marvellously low prices are the distinctive features of Gough Bros'. monumental stock of hats and caps. Reader, this applies to you, the cap fits; put it on.

Y.M.C.A. Notes.

Mr. R. M. Russell spoke on the topic "The Final Reckoning" at the young men's rally on Saturday evening with profit and blessing. The song services was led efficently by the orchestra. A helpful after meeting was held.

Mr. Thomas Dodds conducted the Bible Study and Consecration Service Sabbath morning, those present were much blessed.

At the Personal Purity Meeting yesterday afternoon the general secretary gave a short talk to men only which with God's blessing will do good. The Y.M.C.A. band led the singing which helped the service greatly.

Sheriff Hall gave a practical and thoughtful address at the Gospel and Song Service last evening which was listened to with much profit by the large audience which crowded the hall. A letter was read from Mr. F. G. Saunders, China, which was full of hope and encouragement for his future in that dark land, and asking others to come over and help him. The results of this meeting will be felt in eternity.

Ladies' Auxiliary will meet Tuesday afternoon at 4 p.m. Board of Directors monthly meeting Tuesday evening at 8 p.m. Bible study Thursday evening at 8 p.m.

Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

Grand Anniversary Banquet

Held in the Salvation Army Barracks Yesterday Afternoon and Evening—A Lecture by Staff-Captain Cox—Large Attendance.

The special anniversary services in connection with the seventh anniversary of the establishment of the army in Peterborough, were continued at the Simcoe street barracks yesterday afternoon and evening. At half-past three a holiness meeting was held and fairly well attended. It was led by Staff-Captain Cox, assisted by Staff-Captain Southall. Afterwards the anniversary banquet was held in the basement of the building. Here four large tables were set, and upon them were piled load upon loads of delicate viands and enticing refreshments. The edibles which were provided by the outside friends of the army shows that it holds a warm place in the heart and mind of many of the citizens of Peterborough. From 5 30 o'clock until 7 45 the stream of people continued, and some three hundred within that time must have partaken of the tempting and appetizing eatables, for many times were the tables filled and refilled.

The appetites of all gratified, a return was made to the barracks, where a great many had already assembled. About 700 people were present to hear Staff-Captain Cox deliver her famous lecture on "Special Leaves from my Note Book," or "A Little Talk about Many Things." After a short devotional service, Ensign Steele in a neat little speech introduced the Staff-Captain. He congratulated all present upon the success of the banquet, and that although an officer for ten years he never had the privilege of attending a better or more successful banquet than the present one. He did not expect that he would be with them in Peterborough to attend another banquet, unless one was specially prepared for him. During his nine months station here, the speaker stated he had attended three banquets, but he would not have the pleasure of attending another, as in May next he would be transferred. This was the first banquet Staff-Capt. Cox had attended in Canada. He was thankful to the people of Peterborough for their generosity. Whenever the Army made a reasonable demand, it was always met and with plenty to spare.

Staff-Capt. Cox in arising was warmly welcomed. She stated that she had learned to reckon whatever country she was in as her country. She wanted all to be the better of the evening's meeting and lecture. The subject of her lecture implied that she was only to say a few words. In a former visit she had described the shelter work being done in the old country for those who are poor and homeless. There are some 80,000 to 100 000 in London to-day who were wandering about the streets helpless and in despair, without funds, money or hope. They slept in back lanes, narrow recesses unfrequented alleys, the archways of the bridges or any place where they could lay their heads or crawl into. General Booth has opened up a number of shelters, places where the poor could go and secure a night's lodging. The women were given a large basin of soap and bread for supper, a bed for the evening and breakfast the next morning for 6 cents. Men were charged 8 cents for the same. The rate was marvellously low. These shelters are allowed to take only so many inmates and when that number is completed no one can gain admission for the night. The health inspectors wont allow it, there must be so many square feet of breathing room for each occupant. A service room is in these shelters and meetings held every evening after tea, conducted not by soldiers but by drunkards, paupers and others who have been reformed and converted through the mighty agency of Christ. No one is allowed to hang around these places and do nothing. The inmates are let out every morning to go to their daily work and return every evening for shelter. If the shelters have no work, they are given employment by the army and can make a good honest living. Miss Cox then told three interesting and thrilling narratives of remarkable conversions, two in England and one in India, and of the struggles, difficulties and perplexities they had to undergo and endure in order to lead a Christian life. These she said were only examples of the good work which was being done by the Salvation Army through the help of God. Miss Cox closed an hour and a half's interesting address by urging all to repent of their sins, come to Christ and accept Him as their Saviour.

NOTES

There will be no meeting to-night, Ensign Steele says the soldiers need a rest after three hard days' fighting.

There will be a soldier's meeting on Wednesday and a public meeting on Wednesday night.

On Good Friday there will be a band festival, and on East Sunday special services.

Capt. Colter, of Omemee was present at the banquet last night.

Staff Capt. Cox returned this morning. While in town she was the guest of Mrs. (Dr.) Fife, George street.

Staff Capt. Southall, D.O., who so ably assisted in all the anniversary proceedings returned to Kingston this morning. He was the guest of Mr. G. J. Eady, George street.

A Peterboroughnian in Oregon

Mr. Nicholas Steele, formerly of Lakefield thus Writes:—

To the Editor of the Examiner:

DEAR SIR.—We are having beautiful growing weather. This has been the mildest winter I ever saw. On Christmas day it snowed about two hours, and that is all the winter we have had. I commenced ploughing on the 17th of January and have been ploughing ever since. I sowed oats and barley in February, and both are up, green and look well. Flowers have been in bloom in the open yard all winter. Ice formed twice in the open air. Early gardens have been planted three weeks. Garden peas are three inches high, radishes, onions, etc, are all well over ground. Tame strawberries are in bloom and some berries formed, peach trees, apricots, nectarines, gooseberry etc, in full bloom. Cherry trees are just coming in bloom, so are pears. Every year we reap a good crop. Crops are sure. People are coming from the east and settling here by the score. Land is rising in value very fast. Land that I could have bought when I came here for twenty-five dollars per acre, is now selling at fifty. Our nearest town, Independence, is growing very rapidly. Farms lying near the town are worth from one hundred to one hundred and twenty five dollars per acre. The same could have been bought five years ago for forty dollars per acre. My sheep are mutton, they had lambs in January, and never lost one from cold. I have not fed my sheep or hogs a handful, they have wintered on the fall wheat. I bought another farm last winter of 300 acres for $10,000. I will have 270 acres of grain besides 75 acres of summer-fallow. My son George runs the largest steam thresher on the coast. The separator has a forty inch cylinder with a sixty inch rear. Last season he threshed in 32 days 76,000 bushels of grain, two-thirds of this was wheat. He boards and pays all his hands and threshes oats for 5 cents per bushel, and wheat 7 cents per bushel. The cook wagon travels from one field to another with the thresher. He employs 35 men and 14 teams of horses. This next summer he will add to his outfit a swinging stacker; this stacks the straw itself building a stack in a half moon shape and deposits the chaff in the centre of the stack. I remain

Truly yours,
NICHOLAS STEELE.

Suver, Oregon, March 14th, 1892.

Will It Be Life or Death?

Lives in the Balance.

At this very moment there are thousands of men and women whose lives are in the balance. They have come with their weight and burdens of disease, suffering and anguish, to a season of the year that must decide their chances for life or death. They have suffered all winter in badly ventilated houses, and have taken in poisons from the sick room which have fed the flames of disease; and now they hover between life and death.

Physicians have done their best to wrest these sufferers from the bonds of suffering; and, no doubt, thousands have consumed a very great variety of the common advertised remedies in order to change their condition. All efforts have proved vain and futile—and disease still holds the helpless ones firmly in its grasp.

Is there a hope for such as these? Is there a remedy that can successfully battle with the mighty hand of that great foe that has resisted all attempts to dislodge him?

There is indeed such an agent; it is in our very midst ready to assist and lead on to victory the weakest and most wretched of those who suffer, but it must be placed at once in the hands of the sufferers. Once this power is grasped and used, virtues flow from it that revive the broken down life and weary, wasted frame.

It is Paine's Celery Compound that gives this new life and strength—that wrests from the enemy the power he now exercises over you. Its use means health, new strength, and long life with all the pleasures that offer in your particular social position.

It is now for sufferers to decide. Decision must be prompt, as death's work is swift and sure. Sufferer, your life is in the balance; your portion is uncertain as long as you defer using that remedy which has given such proof of its great powers and virtues. One trial will suffice to fill your heart with hope and cheer.

Smith.

Nuptials of Mr. George Ruth and Miss Mary Mahood.

On Wednesday, March 23rd, 1892, the residence of Mr. Edward Mahood of the second concession of Smith, was the scene of an interesting social event. It was the marriage of his eldest daughter Mary, to Mr. George Ruth, of Cavan. The ceremony was performed in the presence of about forty-five guests, by Rev. John Ewing, of Mount Pleasant. At the conclusion of the ceremony the party partook of an elaborate wedding supper, after which the numerous and elegant wedding presents which the popularity of the fair bride had evoked, were admired, and the delights of social amusements, music, etc., were highly enjoyed till an early hour. The following morning the happy couple went to their future home, the farm purchased by Mr. Ruth from Mr. Alex. Donnelly, in the 6th concession, followed by the warmest good wishes of a wide circle of friends.

Did it ever occur to you to take Hood's Sarsaparilla, the best spring medicine? Try a bottle this season. It will do you good.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. Cure for All Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package. dw

Unsightly pimples, blotches, tan, and all itching humors of the skin are removed by using Dr. Low's Sulphur Soap. dw

A Sensible Man

Will use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Itch, Mange, and Scratches of every kind, in human or animals, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by H. S. M. Donald.

"August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear matter. Sometimes a deathly Sickness at the Stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. McHenry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. Signed, JOHN D. COX. ●

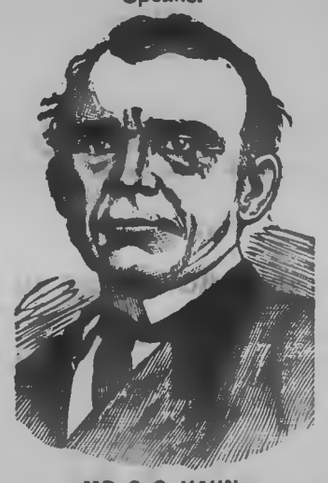
WONDER IN WELLAND!

A Representative Farmer Speaks.



MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cummes, Esq., a leading druggist of Welland, Ont., speaks for itself:
Messrs. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMMES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

THE WORLD OF WOMEN.

VARIOUS MANIFESTATIONS IN THE WORLD OF GOOD DRESSING.

The Latest Fashions Brought Down to Date—Beautiful Queen Dorinka—One Woman's Small Worry—Sundry Notes For and About Women.

There is a dainty new underwaist called the "Boslero." It is tight-fitting in the back, but in front the two ends lie loosely. There are no front seams at all. It comes in all the delicate shades of India silk, trimmed with fine thread lace.

Stripes everywhere, and such very pretty stripes. They are broad and some of them exquisitely shaded, beginning with the lighter tints and shading into the deeper tones. Other stripes contrast with the groundwork of the material. Every woman will have a striped gown, but if you are tall and thin do make the matter a subject of prayer before you purchase.

At a recent banquet at the Elysee Mme. Carnot appeared in one of these dinner robes which boasted a train three yards long. The gown was made of black velvet, the train being lined with white satin. There was a front panel of white Geneva velvet, outlined with silver. Mme. la Presidente wore diamonds in her hair and the costume was altogether wonderfully becoming to her.

The perfectly plain princess robe is coming back again. It clothes the figure very closely, spreading out in fulness a few inches below the waist at the back. It is lined with silk and has a silk balayeuse of contrasting color. A very pretty white satin, veiled with black lace and trimmed with black velvet and jet, has a lining and balayeuse of pale pink, with a touch of the same pink on the bodice and in the hair.

As usual with the beginning of a season, any number of fancy and bizarre tints in gloves are displayed in the shops, but good taste limits the choice of colors to few shades, and tan still holds its own with wonderful pertinacity. Several pretty shades of yellow tan, tea rose colors, neutral tints in grays shading to beige, fawn, sand color, and a pretty new color called mules, or field mouse, will be worn for dressy occasions with light gowns, and will be made striking with black stitching and seams sewed with black thread.

Curiosity fills one's very soul when looking in the shop windows. Such things as woven gilt wire in the shape of pancakes, large, brilliantly jewelled beetles, butterflies with gauzy lace wings, and apparently plain mats in fine woven straw are subjects of curious conjecture, until the shopkeeper blandly explains that these are the spring novelties in hat crowns. They really make the daintiest hats imaginable in combination with a bit of lace or chiffon and a bunch of spring blossoms.

There is a certain charm in a French tea gown which no other tea gown need ever hope to possess. An exquisite creation just ordered by a well-known Parisian is of pale crushed strawberry silk en train. Over the front of the garment falls a loose drapery of white point de Paris lace, the pattern being outlined with a fine pale blue silk thread. At the neck of the dress is a bow of pale blue ribbon, and the lace drapery is caught in two places by bows of blue ribbon. The under part of the sleeve is crushed strawberry silk with a cap of pale blue silk edged with flounces of the lace.—New York World.

As a spring blood remedy there is nothing equals Dr. Williams' Pink Pills. They supply in a condensed form the elements necessary to enrich the blood, stimulate the nerves and build anew the system enervated by being "housed up" during the winter months. Sold by all dealers or sent on receipt of price—50 cents a box or six boxes for $2.50—by addressing the Dr. Williams Med. Co., Brockville, Ont., or Morristown, N. Y. dw

For several years I was persistently annoyed with an excessive accumulation of Dandruff and although using various preparations recommended and shampooing regularly once a week, no material relief was realized until my attention was called to Anti-Dandruff, which has produced unlooked-for results in my case, four applications removing every particle of Dandruff, and is a specific for this trouble it certainly has no equal.

Yours truly, W. T. RODINSON,
Can. Pac. Rys. Telegraph Co., Montreal, P. Q. dw

It is a Very Sad Think

To see young and beautiful people die when they might just as well live and enjoy health and strength. Many who suffer with coughs, colds and lung troubles, leading to consumption, imagine there is no hope for them, when in reality there is every hope if Miller's Emulsion of Cod Liver Oil is taken regularly. Spread the news everywhere that this great emulsion will make flesh and blood, cure coughs, colds, bronchitis, sore throats and lung troubles tending to consumption. In big bottles, 50c. and 1, at Peterborough Drug Store. dw

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

"PROMPT AND PERMANENT."

RHEUMATISM.—Jan. 17, 1883, GEO. C. OSGOOD & CO., Druggists, Lowell, Mass., U. S. A., wrote: "Mr. LEWIS DENNIS, 136 Moody St, desires to say: "ORRIN ROBINSON, a boy of Graniteville, Mass., came to my house in 1881, walking on crutches; his leg was bent at the knee for two months. I gave him

ST. JACOBS OIL

to rub it. In six days he had no use for his crutches and went home cured without them."

Lowell, Mass., U. S. A., July 9, '87: "The crippled boy ORRIN ROBINSON, cured by St. Jacobs Oil in 1881, has remained cured. The young man has been and is now at work every day at manual labor." GEORGE C. OSGOOD, M. D.

The British War Office is greatly agitated by the revelations in the case of Edward Holden, formerly of the Royal Engineers, arrested while endeavoring to ascertain facts relative to the defences of Gibraltar. He is said to have been a paid spy of the French War Office.

A schoolboy named Thorand played [illegible] with his youngest brother at Vienna [illegible]. While trying to imitate the execution of the murderer, he let the rope get caught and his brother was suspended two feet from the floor. Before the elder boy could summon aid his brother was dead.

A Convict's Curse.

LONDON, April 4.—A young man named Daniel Hanley was at Wicklow Assizes on Saturday found guilty and sentenced to be hanged on April 19 for the murder of an old woman named Mary A. Lyons, at Berndarrig, county Wicklow, December 14, 1890. The prisoner was tried at the Wicklow Assizes last summer, but the jury disagreed, and again at Carlow a special jury disagreed. However, a Wicklow special jury now tried the case. The murdered woman kept a huckster's shop, and was reported to have saved money. The prisoner and his brother, aged 16 years, were arrested and charged with the crime. When sentenced the convict, speaking to Mr. Justice Holmes, said: "I hope this will be your doom. May the curse of God light upon you."

Canadian Live Stock at Chicago.

OTTAWA, April 3.—Henry Wade, secretary of the Ontario Arts Association; Richard Gibson, Delaware, president of the Short Horn Breeders' Association; Nicholas Awrey, M.L.A., president of the Ontario Arts Association, and M'D. Allan, president of the Ontario Fruit Growers' Association, waited on Hon. John Carling in regard to making arrangements for live stock at the World's Exposition, Chicago. They asked that the Government defray the cost of transportation of live stock, the insurance and cost of all while there, as well as when the cattle were in quarantine on their return. They also wanted the privilege of selling while there.

Mr. Carling said that he would unite with all the Provincial Governments and do all he could to make the Canadian exhibit a success.

Held Up.

KANSAS CITY, Mo., April 4.—Late last night a highwayman held up and robbed a conductor of the Tenth-street cable car line. Just as he was securing the money Gripman Phillips entered the shanty in which the conductor had been registering, when confronted by the robber. The thief fired at Phillips, killing him, and then escaped.

ALEXANDER ALLAN DEAD.

The Senior Partner of the Well-Known Ship Owners Passes Away.

LONDON, April 4.—Alexander Allan, senior member of the steamship firm of Allan Bros & Co., whose vessels ply between England and various American and Canadian ports, died in England Saturday.

Mother and Child are Doing Well.

Mrs. Brown was sick. Her friends said she would never get well. "What's the trouble?" "O, some kind of female weakness. The doctors have given up her case as hopeless. 'She may live for some time,' they say, 'but as for a cure, that is quite out of the question.'"

"I don't believe it," said a woman, who heard the sad news. "I dont believe she's any worse off than I was, five years ago, from the same trouble, and I don't look very much like a dead woman, do I?" She certainly did not, with her red, plump cheeks, bright eyes, and 150 pounds of good healthy bone, blood and flesh. "I'm going to see her and tell her how she can get well." She did so. She advised Mrs. Brown to take Dr. Pierce's Favorite Prescription. Mrs. Brown took the advice, also the medicine which cures all kinds of delicate diseases so common among women, and—got well. That was two years ago. Last month she presented Mr. Brown with a ten-pound son, and "mother and child are doing well." b

Testimonials to J. M. Adams.

As through him I have been freed from chills, biliousness, liver troubles, etc., etc. St. Leon Water did it; is the best medicine I ever found; is so good I tell all my acquaintances to go to your store in Brantford and get a supply. Truly, St. Leon is marvelous. A trial brings conviction. dw

A Great Surprise

374 GEORGE STREET.

ONTARIO LEGISLATURE.

Interesting Debate Arising Out of the Rebellion of 1837.

TORONTO, April 5.—At the Legislature yesterday afternoon Mr. Clarke's bill to incorporate the Hospital for Sick Children passed its third reading.

The Boys of the Old Brigade.

Since Feb. 26 there has been on the order papers of the House from day to day the following notice of motion by Dr. Willoughby: That in the opinion of this House it is expedient that the Government should make some suitable recognition to the volunteers of 1837-8 for the valuable services they rendered in defence of their country at that time. Yesterday afternoon he rose to make the motion.

In reply Mr. Gibson (Hamilton) said he still held the same ideas regarding this motion as he had expressed on former occasions. He believed that the motion had been introduced at too late a period of the session to enable the House to consider it properly and to take action in case it were passed. The motion had been introduced only to open old sores that had long ago ceased to cause irritation and strife.

When Is Rebellion Justifiable?

Mr. Gibson was not there to define at just what point in the stage of government oppression rebellion was justifiable, but there could certainly be times and circumstances which might make rebellion justifiable. He set forth at length the position of affairs prior to 1837, and asserted that the Liberals of that time were not composed of rebellious discontents, but were most patient. They had sent petition after petition to England, but no redress could be obtained. The Family Compact held power with an iron hand and refused to meet the oppressed half way or to make any conciliation whatever. The Rebellion Losses Bill had indemnified both the insurgents and those who had supported the "Compact."

The speaker stated that his own father had taken an active part in the troubles of those troublesome times. He was "a rebel, if you please," and it therefore could hardly be expected that he would support a motion which in the remotest degree might cast a reflection on the actions of his ancestors. He himself had worn Her Majesty's uniform from his student days. He held that the proper House before which this motion ought to be laid was the Dominion Parliament. It lay with that body to control the militia of the country. That House had dealt with the recognition of the services of the volunteers of 1812, and therefore it had authority to deal with the motion now before the House.

The Duty of the Dominion Government.

Mr. Gibson then moved as amendment that it was the duty of the Dominion Government to manage the affairs of the militia, this House had nothing to do with the question.

Mr. Rayside moved in amendment to the amendment that as the House of Commons had already recognized the services of the volunteers of 1812 no action at present should be taken.

Mr. Mowat said he sympathized with the volunteers of 1837. He maintained that the restitution should come from Ottawa and not from Ontario. He could not shut his eyes to the fact that an immense amount of good arose out of that rebellion. Many believed, and he concurred with them, that more peaceful means would have brought about the relief in time. When these troubles had been removed the insurgents became just as loyal to the Government and to the old land as any other citizens of Canada. He named many of the "rebels" who had afterwards occupied positions in Her Majesty's service. Some of these had never admitted that the opinions they held were wrong. He held that if the services of one class of the loyalists were to be recognized those of the other ought to be recognized as well.

Mr. Clancy said it was not a question as to whether the volunteers were right or wrong, but as to whether they should be rewarded for having stood up for constitutional authority. He would ask the honorable gentleman opposite if at the present time the same difficulties arose he, as a wearer of the Queen's uniform, would not feel himself bound to answer the call to defend the Government.

Mr. Whitney spoke vigorously in support of the motion. He asked if the Attorney-General was wrong when, on a former occasion, he made a motion acknowledging the services of these men. And he would like to know if Mr. Mowat was wrong in 1837 when he joined the ranks of the volunteers.

Mr. Balfour pointed out that in his constituency there were 89 old Liberals and only 10 old Conservatives who had turned out to protect the country against the rabble which came over from Detroit in '37.

Mr. Meredith said that had the insurgents gained the day at that time there could be little doubt that Mr. Gibson would not have been able to wear Her Majesty's uniform for 80 years.

The Evening Session.

After recess the debate was resumed. Mr. O'Connor said that in 1885 his sympathies were entirely with the insurgents whose action had brought the present good. But since that time his feelings had undergone a change. He now felt that the volunteers ought to be rewarded just as much as the insurgents.

Mr. Biggar said that the veterans had not petitioned this House for a grant. There were petitions before the Governor-General asking for a recognition by the Dominion Parliament. It would, in his opinion, prejudice the Dominion House against the petitions of the veterans. Ex-Speaker Kirkpatrick had made himself the champion of their cause and was now urging the Dominion House to answer their prayer.

Dr. Willoughby said that he was surprised to learn that Mr. Mowat had changed his mind on this point. In 1885 he had declared them worthy and now he stated that the insurgents and volunteers were on the same footing. It would be very comforting to young volunteers to know that in case a rebellion broke out the rebels would be rewarded equally with themselves.

Mr. Awrey said it was the duty of the Dominion House to reward the volunteers of 1837 as well as those of 1812. The volunteers did not come to the defence of constitutional government at all. They were supporting an unconstitutional tyranny. Many of the men who claimed to be volunteers were men who never had shouldered a musket, but who had made themselves sleuthhounds and hunted loyal men from their homes because they happened to be of the same political stripe as the leader of the insurgents. He gave a ludicrous description of the manner in which the Tories had treated Lord Elgin, the Queen's representative, and asked if the Liberal party ought to be branded with the name of "rebel." He finished with a gilt-edged tribute to the men who had given up "home and friends and native land," and in some cases name and life for the public liberties which we now enjoy.

The Division.

The vote was taken and stood as follows:

YEAS—48.

Killed in a Church.

QUEBEC, April 5.—A woman named Rouville was killed in St. Roch's Church. She was walking along the aisle when she fell to the floor, knocking her head violently. She died shortly after.

Thrown from a Vehicle and Killed.

ST. CATHARINES, April 5.—Mr. George Todd, aged 65, of this city was thrown from his wagon to the pavement Saturday, receiving internal injuries which resulted in his death Sunday. Mr. Todd conducted a pop manufacturing business here for years.

The Arrests Will Come.

QUEBEC, April 5.—L'Evenement (Con.) said editorially last night that Hon. T. C. Casgrain would be but doing his duty in having certain members of the old administration arrested. The matter will likely be placed before the jurors at the coming criminal term.

Swallowed a Whistle.

ST. JOHN, N.B., April 5.—A little baby, son of Mr. Thomas Lynch of Exmouth-street, swallowed a small toy whistle. The whistle was about the size of a one-cent piece. Dr. Emery was called in, but found it impossible to get at the article.

Windsor Has the Craze.

WINDSOR, April 5.—A bi-chloride of gold hospital, for the cure of habitual drunkards, will soon be established in Windsor.

Railway Bylaw Carried.

WHEATLEY, Ont., April 5.—The railroad bylaw was carried in the township of Romney yesterday by a vote of 164 for and 49 against; majority for bylaw, 115.

Bonus to a Glass Works.

PORT COLBORNE, April 5.—The bylaw for a bonus of $4500 to the Dominion Glass Works was carried in this village by a vote of 167 for to 5 against.

The Babe Died on a Train.

WOODSTOCK, April 5.—The 14-months-old son of a German emigrant and his wife died last night on a Grand Trunk train shortly after leaving Woodstock. On arriving at London the corpse was handed to a local undertaker for burial, and the bereaved pair proceeded on their journey to the west, the mother shedding a flood of tears as she parted with the remains of her loved little one.

Will the Government Pay the Piper?

BRANTFORD, April 5.—A petition has been sent to Hon. Mr. Mowat by Lawyer Heyd of Brantford asking that the witnesses for the defence in the Heslop trial be paid by the Government. It is said that Judge Rose will endorse the application.

Sympathy for a Broken Baronet.

LONDON, April 5.—A good deal of sympathy is being expressed for Sir Robert Denny, baronet, descendant of the famous Sir Anthony Denny, to whom King Henry VIII. on his deathbed gave a pair of gloves worked in pearls for having the courage to tell His Majesty that he was dying. Sir Robert's affairs are at present subject to investigation in the Bankrupt Court, although he says he would be solvent if he could realize on his property, which it of an estimated value of £195,000.

Sir Arthur Sullivan's Health.

MONTE CARLO, April 5.—Sir Arthur Sullivan was confined to bed on Saturday and was not so well yesterday. Physicians consider that there is considerable local irritation and that absolute rest will be necessary for some days.

NEW

Harness Shop.

HARRY DUNDAS

HAS opened out in No. 159 Simcoe Street, Burnham's Block, a few doors east of Phelan's Hotel, and next to T. Kelly's dry goods store, where he will be pleased to meet with all his old friends and as many new ones as may favor him with their patronage.

ORDERED WORK, especially in Light Harness will receive careful attention. Feeling confident, that with an experience of 23 years he can make all kinds suitable for town or country. In style durability and finish I will not be surpassed.

HORSEMEN and others requiring anything in the Harness line will find it to their advantage to call and examine his work at No. 159 Simcoe Street Peterborough.

GRAND OPPORTUNITY FOR BARGAINS
AT
CHINA HALL.

From now until Saturday, 23rd April, we will hold a

GRAND AND GENUINE CLEARING SALE

to reduce and straighten up our Stock before Stock-taking.

Heretofore we have sold our damaged Tea, Dinner and Chamber Sets by auction, in a separate store, but this year owing to our increased room, we will try a new plan and sell them by private sale from our Showrooms. To make the Sale doubly attractive, we will place our whole immense Stock at your disposal at COST PRICE and in the case of Damaged or slightly Mis-matched Sets at Much Less than Cost.

OUR LARGE STOCK OF

HANGING AND OTHER LAMPS

will be sold AT COST and under, so as not to keep them over. All Goods will be ticketed, showing former and reduced price, and we invite you to take advantage of the above offer, and inspect the Goods at once, as the best bargains go first.

TERMS STRICTLY CASH.

MACFARLANE WILSON,
CHINA HALL AND SILVER BAZAAR.

Grocery, PROVISION, BAKERY, AND ... PROVISION Business FOR SALE.

I am open to sell out stock and good will of my Grocery and Provision Business, 559 George St. Must give entire attention to down town store. Good opportunity to pushing man to step into a trade already established. Stand one of the best in town. A well appointed bake shop on the premises.

I am selling off in meantime at ACTUAL COST PRICES. The stock of Groceries, etc., good, fresh and reliable. Every pound must be cleared out. You cannot do better than buy now.

L. POTVIN,
559 George Street.

IT IS A FACT

That thousands of people keep their bedrooms scantily furnished through fear of the necessary expense. It must be a fact that these people don't know us.

We sell BEDROOM SETS at such low prices for Cash or at the same cash price on easy terms of payment, that there can hardly be an excuse offered for the home that stands in need.

House Cleaning Time will suggest the need of some new pieces of Furniture, Mattresses, Pictures, Lamps, Mirrors, &c. Go straight to

GOLDEN LION!

Delighted!

TO THE LADIES we have been indebted, in a large measure, for our business success, and we are delighted to be able to make this candid acknowledgment.

At no time has this been more evident than during the recent most successful opening of our Millinery and Mantle Show Rooms for the Spring and Summer Season of 1892.

Never has it been our privilege to wait upon so large a number of delighted visitors, and never have we been favored with so many valuable orders as at this opening.

Hundreds of discriminating lady buyers have daily inspected our selections, and promptly placed their orders upon learning our reasonable prices.

During the whole of next week, we will continue to put on exhibition later arrivals of imported Pattern Bonnets and Hats, choice collections of Fine French Flowers, and an endless variety of Millinery Novelties. Also, a magnificent stock of Imported Pattern Mantles, Jackets and Wraps.

The Values, in many cases, are such as could only be offered by making large import orders, and by the very closest figuring.

Respectfully,

ROBERT FAIR,

Sign of the Golden Lion,

388 George Street, Peterborough

A TERRIBLE EXPLOSION.

IN THE ST. PETERSBURG SMOKELESS POWDER FACTORY.

Nine Men Blown to Pieces — Remains Remains Scattered in All Directions—The Irish Members Still Worrying the Members Over the Shamrock Incident.

ST. PETERSBURG, April 6.—This city was thrown into a state of intense excitement by a most terrific explosion. So much has been heard here lately of the fiendish work of Anarchists that for a time everyone believed they had attempted to destroy some of the public buildings. It was soon learned, however, that the explosion was due to an accident at the state factory for the manufacture of smokeless powder, where in some unknown manner five tons of gun cotton had exploded. The shock of the explosion was tremendous. The whole city was shaken and houses swayed on their foundations as they would from the effects of an earthquake. As soon as it was ascertained that the explosion had occurred at the powder factory a steady stream of people flowed in that direction to witness the effects of the accident. The building in which the gun cotton had been stored was nowhere to be seen. It had been blown into splinters. Nine workmen were in the building when the explosion took place and every one of them was blown to pieces. A search was made for the remnants of their bodies, and some of their limbs were found 250 yards away from the building. The gun cotton was stored in a separate building, and to this may be attributed the fact that the loss of life was not much greater. The adjoining factories were greatly damaged and five workmen in them were injured. Houses a mile and a quarter away from the scene were made to oscillate by the shock of the explosion.

SEVEN FEMALE BANDITS.

Mrs. Harvey and Her Six Daughters, in Male Attire, Held Up Stages.

SALMON CITY, Idaho, April 6.—A woman and six girls have been arrested here on the charge of stage robbery. There have been numerous hold-ups of the stage near Harvey's ranch lately.

The sheriff, with ten men, waited in hiding near where the robberies usually took place, and when the stage arrived there a short time afterwards six bandits stepped out in the road and stopped it, levelling their guns at the driver. The sheriff then came forward and took in the whole gang, which proved to be composed of Harvey's wife and six daughters in male attire.

DYNAMITE IN BELGIUM.

Theft of a Large Quantity of the Material and a Destructive Explosion.

BRUSSELS, April 6.—It was discovered yesterday that over night 200 cartridges of dynamite, weighing 50 pounds, was stolen from the Baneau Collieries in the Seraing district, together with 40 cartridges of compressed powder.

The authorities are convinced that the theft was committed by the Anarchists, the materials to be used on May 1 in revenge for the prohibition of the usual three nights' demonstration in that district.

This morning two cartridges were exploded on the doorstep of the house of Mr. Monges, manager of one of the Cockerill collieries at Seraing. The explosion caused great damage.

A great fire is reported at Chimay, where Prince Caraman Chimay was buried yesterday, and where a great fire destroyed the church and several houses three months ago.

Husband and Wife Reunited.

BUFFALO, N.Y., April 6.—Henry Bardsman married in England in 1885, but influenced by reports emanating from a disappointed rival, that his bride was unfaithful, he deserted her and came to America. He learned afterwards that the report was untrue, but in the meantime the wife had disappeared. She, too, came to America and traced her husband to Montreal, Toronto and Buffalo; then, hearing that he was in Port Alleghany, Pa., wrote to him. They were reunited here and will return to England.

Developed Into a Free Thinker.

ST. JOHN, N.B., April 6.—Dr. McDougall, who was formerly pastor of the Calvin Presbyterian Church here, delivered a lecture yesterday, in which he took the straight secularist platform. He passed through the intermediate stages as pastor of an independent Presbyterian church, to which he afterwards gave the name of the Church of the Messiah. He then joined the Unitarians and has now appeared in the role of a Free Thinker.

G.T.R. and Northern Pacific.

SAULT STE. MARIE, Ont., April 6.—The idea is gaining ground that the Grand Trunk will soon begin pushing their line in this direction. It is known that the Northern Pacific are quietly approaching the sea with their line, and the general impression is that a connection will be arranged between the two companies which will make the G.T.R. practically a Canadian link in a most important through line from the Pacific to the Atlantic.

The First of the Season.

LONDON, April 6.—Lightning last night struck the barn on W. J. Quinn's farm, Governor's-road, near Dreaney's Corners. The building was totally destroyed and 14 head of cattle and four lambs were burned to death.

A Farmer's Wife Suicides.

PORT ROWAN, Ont., April 6.—Mrs. Walter Biddle, a farmer's wife living near here, cut her throat with a razor. The wound will probably prove fatal.

Preferred School to Jail.

BRANTFORD, April 6.—Edith Brown, aged 14, charged at the Police Court with not attending school, said she had no shoes to go to school and that the other girls laughed at the shoes she wore. The magistrate told the girl she must go to school or jail and she chose the former.

Preferred Jail to School.

BRANTFORD, April 6.—Johnny Kiete's father told the Police Magistrate yesterday that his boy would not go to school. He had done all in his power to keep him off the street. The boy was sent to school but never went. Johnny was sentenced to six years in the Industrial School at Mimico.

DOES PREMIER ABBOTT INTEND TO RESIGN?

Expected to Be Asked to Be Relieved of the Leadership at a Conservative Caucus to Be Held To-morrow. A Dull Day in the House.

OTTAWA, April 5.—A call for the first caucus of the Conservative party has been issued for Thursday morning, when it will not be at all surprising if Mr. Abbott should announce to the caucus his desire to be relieved from the cares and responsibilities of leadership and request the party to decide on his successor, the actual change not to take place until after the session or later. It is well known that Mr. Abbott is not at all anxious to retain the premiership, but it is not so well known that when he rented a house last December he only took it for six months and not for a year, as was supposed at the time. The lease will be up on the first of June. Of course it may be renewed, but the fact of its being only made for six months looks as if Mr. Abbott had contemplated so long ago as last December retiring from the premiership at the close of the session. It will be a little surprising if something about this is not heard at Thursday's caucus.

Yesterday's session of the House was quiet and uneventful. Mr. McMullen while the item of $6370 for the Jamaica exhibition was under discussion, pointed out that the Government had paid duty on a lot of whisky which had been distributed free as an advertisement. Mr. Casey frankly confessed that no better method of attracting people to the Canadian exhibit could have been found than a free distribution of whisky.

On the vote of $3000 for the Chicago Exposition it was stated that about 100,000 square feet of space had been assigned to Canada, and Hon. Mr. Carling stated that it was not intended to erect a special building, but every effort would be made to have the Canadian exhibit as successful as it had been at the Centennial at Philadelphia. It was also stated that the question of feeding and insuring cattle while on exhibition was being considered and that the freight would be paid by the Government of cattle brought back to Canada. It was also intimated that a larger amount would be asked for in the supplementary estimates for 1892-3.

PROMISES TO KILL TEN MEN.

And the Tellico Mountain Desperado Has Made a Good Start.

MURPHY, N.C., April 6.—Bill Murphy, a Tellico Mountain desperado, has declared his intention to kill ten men, and he has already made a good start in that direction.

Recently his brother George married a daughter of an enemy of the family and during a quarrel over the matter Bill shot his brother dead.

Frank Medlin, brother of the dead man's wife, gave the body burial, and on Wednesday he was shot dead from ambush. A moment later Bill Murphy sprang out into the road and threatened death to any one that should touch the body. It was about to be mutilated by hogs and a Mr. Morse and wife approached to guard it, when Murphy fired, hitting Mrs. Morse, and she is supposed to be dying.

On Wednesday night Murphy went to the house of a man named Bailey and demanded lodging. Bailey hesitated, and Murphy shot him in the right shoulder.

Murphy heard that Ben Martin had been criticizing his conduct, and to-day, armed with his Winchester, he found Martin at work in his field and shot him dead.

Burglars in a Canadian Bank.

PETERBORO, April 6.—A burglar bored a circular hole in the rear door of the Ontario Bank, and, securing entrance, ransacked the teller's drawer, carrying away a revolver and a tin box containing the remnants of the teller's lunch, and which the visitor evidently thought was filled with cash. No attempt was made upon the vault.

A Judgeship For Angers.

MONTREAL, April 6.—Lieut.-Governor Angers will, it is stated, shortly replace Judge Fournier on the Supreme Court bench.

Patti Mourns for Her Hairless Dog.

NEW YORK, April 6.—Mme. Patti mourns for the death of a member of her household. Her pretty little Mexican dog, Ricci, is dead. Despite the tenderest care the renowned songstress could bestow upon the little fellow, he expired of heart failure and was yesterday buried in a neat little box.

Newspapers Run This Town.

ST. JOHN, N.B., April 6.—City elections came off yesterday resulting in the return of Richard O'Brien of The Globe, J. B. M. Baxter of The Sun staff and James Knox.

A CLEVER SWINDLER.

Reported to Have Dupes in Canada and the United States.

TORONTO, April 6.—Richard R. Dent, alias J. A. Deue, M.D., an alleged clever swindler, was arrested by the Toronto police last night on a charge of swindling Mathew Evans, saloon-keeper, of this city, out of $3000 in 1882 for the purpose of buying apples. He is also wanted at Auburn for swindling a hotel proprietor out of $400, and in Manchester, England, for a similar offence.

Dent went to Manchester in company with a man supposed to be his brother, A. L. Dent. The pair put up at 70 Oldham-road. Robert said that he was a son of Col. G. T. Denison of Toronto, and the other man was pleased to call himself W. F. Royd, saying that he was a son of ex-County Judge Boyd. There they met Mrs. W. F. Fisher, widow of H. A. Mercer, and who formerly lived on the corner of Queen and Claremont-streets in this city. They told her old familiar stories about Toronto, and she fully believed them to be the persons they represented themselves to be. She did not hesitate, when asked, to go to a bank and identify them. With this assistance they were enabled to procure £100. They left Manchester a short time afterwards.

Arrested in California.

OTTAWA, April 6.—Paguin, the deputy postmaster of Hull, Que., who recently jumped his bail while waiting his trial for opening registered letters, was arrested yesterday in San Francisco, Cal.

A Guilty Manitoba Coroner.

Coroner Applegath, Manager Carleton of the Manitoba Hotel, "released" for inquest on the guests, without [illegible] and a rich [illegible] from the heaviest [illegible]

MOWAT WILL NOT RESIGN

MR. HARDY PUBLICLY DENIES THE REPORT.

Some Important Bills Advanced a Stage in the Ontario Legislature Yesterday—The New Voters' Lists For the Unorganized Territories.

TORONTO, April 6.—The Attorney-General yesterday afternoon departed from the usual custom in the House and at the third reading of his bill to amend the law relating to mortmain and charitable uses rose and spoke at length to explain the changes which he thought were necessary, and for which his bill provided. The bill passed the House without discussion.

Mr. Mowat, whose bill respecting the use of tobacco by minors came up for third reading, explained that the bill was not to interfere with the sale of tobacco to minors for and with the written order of their parents. It also passed.

The bill respecting insurance companies by Mr. Gibson (Hamilton) gave rise to considerable discussion.

Mr. Meredith asked if the bill was intended to shut out foreign friendly societies doing business in the province.

Mr. Gibson said he had not thought himself bound to consider their interests. He believed they had no rights in this province, and that they had been doing business directly contrary to the Dominion statute.

It was left over for third reading to-day.

Mr. Gibson's bill to incorporate the Hamilton, Grimsby and Beamsville Electric Railway Company; also that gentleman's bill to amend the act respecting the taxation of patented lands in Algoma and Thunder Bay passed their third readings. To the latter bill Mr. Hardy added a clause which declared that when such lands were sold for taxes the deed given by the Provincial Treasurer did not also convey the ownership of the timber on it.

Mr. Loughrin's bill to incorporate the town of Mattawa, Mr. Sol. White's, to incorporate the city of Windsor, and Mr. Caldwell's to incorporate the Carp, Almonte and Lanark Railway Company passed their third readings.

After recess the House went into committee to consider various bills, several of which were advanced a stage. There was some discussion on a bill introduced by Mr. Ross, providing for two courts yearly in Algoma and Thunder Bay, and on the bill introduced by the same minister providing that the new voters' lists in the unorganized territories be prepared by the sheriffs and police magistrates, with appeals to the stipendiary magistrate. During the latter debate Mr. Hardy took occasion to deny the rumors that Mr. Mowat was about to retire from active service.

The estimates were passed in bulk.

A special committee re the bill preventing the sale of watered milk passed the bill without amendment. It provides that a cheese maker may inform a J.P. or magistrate, and that, in case of conviction, he gets half the fine.

PRODDED BY THE IRISH.

The Shamrock Incident Again in Parliament—Result of Coercion.

LONDON, April 6.—In the House of Commons Tuesday Mr. Patrick O'Brien revived the question of the wearing of the shamrock on St. Patrick's Day by Irish soldiers in the British army by asking whether Mr. Stanhope, Secretary of State for War, was aware of the fact that the Northumberland fusiliers, whether they were Irish, Scotch or Welsh, were obliged to wear roses on St. George's Day. Mr. O'Brien also asked whether the government would provide for the wearing of national party emblems or allow all nationalities to wear their respective favors on their national festivals.

Mr. Stanhope replied that the rose had been the badge of the Northumberland Fusiliers since 1675. The wearing of the emblem had no political significance, and he had no reason to interfere with the custom.

Mr. O'Brien was not satisfied with the reply of the War Secretary and he intended to continue his badgering upon the first occasion that offers.

The Coercion Act.

The Right Hon. Dodgson B. Madden (Conservative), member for Dublin University and Attorney-General for Ireland, said that there are now imprisoned in Ireland under the Coercion Act only five persons and they had been convicted of unlawful assembly. No cases of boycotting existed.

This statement was greeted with Conservative cheers.

Mr. Thomas Sexton asked, "Isn't that because the Coercion Act is a failure and has been adandoned?"

Mr. Madden replied, "Certainly not."

Mr. William O'Brien asked, "Is there any struggle that was proceeding prior to the passage of the Coercion Act that is not going on as before?" [Irish cheers.]

Mr. Madden responded, "I cannot answer that general question, but the figures I quoted show the usefulness of the Act." [Conservative cheers.]

Ulsterite Convention.

Fifteen thousand delegates are expected to attend the Ulsterite Convention in Belfast. At the largest hall in the city will be unable to hold all the delegates, four meetings will be held simultaneously in the leading Presbyterian churches.

Cut Down in Her Youth.

BRANTFORD, April 6.—Della Thompson, aged 18, a pupil in the Collegiate Institute studying for a teacher, died yesterday after 48 hours' illness.

Killed 40 Deer in Six Days.

DUCK LAKE, N.W.T., April 6.—Charles Gardipeny of this district reports killing 40 black-tail deer in six days recently.

Choked to Death by a Collar Button.

GRAND RAPIDS, Mich., April 6.—The 2-year-old daughter of William Cooper, while playing with a collar button, swallowed it and choked to death.

Shot His Brother for a Crow.

MADOC, Que., April 6.—While out shooting Horace Hase fired at a crow. The charge passed through his brother's heart, killing him instantly. Overcome with grief Horace tried to kill himself, but was disarmed.

A Verdict For $200.

PICTON, April 6.—At the assizes yesterday Mattie Jackson obtained a verdict and $200 damages against John Rankin for seduction.

Abolished the Bar.

QUEBEC, April 5.—No intoxicating liquors will be sold in future at the restaurant in the Legislative Assembly buildings.

Died From His Injuries.

WELLAND, Ont., April 5.—John Linton, who was so badly hurt in the mill on Friday last, died yesterday. His remains were taken to Mitchell this morning for burial.

DR WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal diseases, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

THE DR. WILLIAMS MED. CO.,
Brockville, Ont., or Morristown, N.Y.

SHILOH'S CONSUMPTION CURE.

If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

WEDNESDAY, APRIL 6, 1892.

Ashburnham Council.

A Regular Session of the Village Fathers.

The regular meeting of the Ashburnham Council was held Monday night, all the members present, the reeve in the chair.

COMMUNICATIONS

were received:

From Enoch Round, asking remission of dog tax.

From the Sisters of St Joseph, asking the council to purchase a ticket to Cobourg for J. Lilley.—Granted.

On motion of Mr. Adams, seconded by Mr. Craig, the following taxes were remitted:—T. and J. Beg'oy, dog tax, $1,00; David Beech, volunteer, $2.00; Con. Clancy, volunteer, $2 00; Bert Downer, poll tax, $2.00; Mr. Forster, $5 29; C. P. R., 30c.; J. Gilman, poll tax, $2.00; W. Hamilton, poll tax $2.00; Mrs. Mitchell, $7 55; Nevill Munro, erroneous assessment, $7.55; F. Packenham, volunteer, $2 00; Mrs. T. Tobin, $5 55; J. P. Whiteman, dog tax, $2 00; W. Wercott, $8 31; A. Rutherford, error in assessment, $4 53; W. Conroy, poll tax, $2.00.—Carried.

The Finance Committee reported recommending payment of the following accounts: James McCabe, snow plough, $7 00; W. Hamilton, snow plough, $1.50; P. L. & P. Co., gas, old building, 1st January, 1892, $3.20; P. L. & P. Co., gas, new town hall, 1st January 1892, $8 80.

The following accounts were received and referred to the Finance Committee:—

J. C. Sullivan, charity orders		$ 6 75
G. F. Warde,	" "	8 50
P. Hogan,	" "	75
F. Fitzgerald, wood	"	5 90
C. E. Moon, charity	"	6 50
G. T. R., ticket		1 20
W. Collins, charity orders		19 00
Jas. Cummings, refunded taxes		1 00
Paysheet No. 7		2 75
" " 8		8 50
" " 9		2 00

Moved by Mr. Craig, seconded by Mr. Wand, that the chairman of the street and bridge committee be instructed to order for Mr. Warde sufficient two inch plank and cedar scantling to floor his cellar as far as stairway, as requested by him.

Moved by Mr. Adams, seconded by Mr. Craig, that the rate to be paid for teams per day of nine hours, by the corporation, be $2.00.—Carried.

Moved by Mr. Craig, seconded by Mr. Adams, that the treasurer be instructed to accept rent to 1st April in full of Mr. McNulty's shop, provided he give up possession forthwith.—Carried.

After the Grip

And after typhoid fever, diptheria, pneumonia, or other prostrating diseases, Hood's Sarsaparilla is just what is needed to restore the strength and vigor so much desired, and to expel all poison from the blood. It has had wonderful success in many such cases.

Hood's Pills act especially upon the liver, rousing it from stupidity to its natural duties, cure constipation and assist digestion.

If you once try Carter's Little Liver Pills for sick headache, billiousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this. dw

At Home and Abroad.

Physicians, travellers, pioneers, settlers, invalids and all classes of people of every degree, testify to the medicinal and tonic virtues of Burdock Blood Bitters, the most popular and effective medicine extant. It cures all diseases of the stomach, liver, bowels and blood. dw

Cold Weather Trials.

DEAR SIRS.—This fall and winter I suffered from neuralgia in my face and had the best medical advice without avail. I at last thought of trying B.B.B., and after using one bottle have not felt any symptoms of neuralgia since. I regard it as a fine family medicine.

dw J. T. DROST, Hensig, Man.

Temperance and Ministers.

To the Editor of the Examiner:

DEAR SIR.—I see by your issue of March 30th, a report from the Peterborough Presbytery. In the second clause there are these words on Temperance:—"First, That since Christ alone can uplift and bless the race, purify and save society, and make us a temperance and peaceful people, that He be continually held up in our pulpits, schools and families as the only Saviour from sin and the only guide to true character." Might I just ask those ministers, in kindness, how many of them help the cause of temperance by the use of unfermented wine in their churches. I cannot believe our Saviour ever used in His Last Supper what would prove a temptation to fallen man, who is striving with His help to reach a higher life, and I cannot see how any intelligent minister can offer it, when he must know there are those in his care who dare not taste it without yielding to an appetite, the craving of which only a merciful Saviour can fathom; and will He hold that one guiltless who offered it in the name of the Lord? I fear not. When we pray, "Lead us not into temptation," let us see to it that we lead not others into it. I will not take more of your space, only I would like at least one of the many ministers to think it over. Thank you, Mr. Editor,

Yours very truly,
TEMPERANCE.

Keene.

(From Our Own Correspondent.)

The Band of Hope of this place are practising for a concert under the careful tuition of Mrs. Harrison. Their concerts in former years were always a decided success, and we trust that this one will be no exception to the rule.

Mr. Thomas Richardson and Miss Hattie Edwards were united in the bonds of matrimony on Wednesday last. The nuptual knot was tied by the Rev. Mr. Andrews. We tender our congratulations to the young couple, trusting that their married life will be a happy and prosperous one.

The Glee Club have decided to hold their concert on the 24th of May. We trust that it will be well patronized by lovers of choice music.

Dr. Harrison's greenhouse has a large stock of thrifty plants always kept on hand.

If you are tired taking the large old-fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them. dw

Constipation claims many victims. Ward off this dread disease by the use of Small Sugar-Coated Burdock Pills when needed.

SCOTT & BOWNE, Belleville.

GRAND RE-OPENING

of Gough Bros. Mammoth Clothing, Hat and Boot Stores.

During the past month these stores have been undergoing extensive alterations, and now, with pardonable pride, we have much pleasure in announcing that these stores are the finest of the kind in Canada. Their aim has been to clothe a man or boy from head to foot. They have added department after department, until now they have reached the goal of their ambition. Each department is replete with all the latest novelties. We will not enlarge on the prices the goods will be sold at, suffice to say they will simply astonish our patrons.

A WORD ABOUT OUR CLOTHING DEPARTMENT!

NEVER in the history of the trade has such an array of fine clothing been placed before a buying public. Our stock this Spring embraces all the latest designs and patterns, and they were made under our own special supervision, the workmanship is of a superior quality. Notwithstanding all this our prices will be found lower than ever. When we came to you as the revolutionizers of the clothing trade, we promised you then that we would benefit the public, and now, after a long trial, have we kept our word? If so, let that be our best guarantee to the public that we will deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please everyone, still to those whom we did not please, as well as to those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes, and our jn dgment, like any human being's, may err. Still, we try to avoid errors as much as possible, and therefore it is our proud boast when any one had a grievance we never refused to make it right when brought to our notice. This spring we are going to redouble our exertions, and by keeping Good Goods, Nice Goods, square dealing and extremely low prices, we hope to merit a continuance of your generous patronage.

GOUGH BROTHERS,

The Wonderful Cheap Men, 377 and 379 George Street, Peterborough.

dw DAVID ROSS.

Political Doings at the Capital.

The Game of Gerrymander—Rewarding Disgraced Civil Servants—The Judge Elliott Impeachment Matter not yet Dead.

OTTAWA, April 4th.

There was no parliamentary trick that the late Sir John Macdonald used to play more cleverly than that of keeping back vicious measures until very late in the session when the members were tired out and homesick enough to allow almost anything to pass. And somehow or other the Liberal Opposition, under whatever leader, never seemed to have the continued judgment and pugnacity to insist upon having these important measures brought down in time for fair discussion. Mr. Abbott seems to have taken this leaf very carefully out his predecessor's book, if we may judge by the delay in bringing down the proposed gerrymander bill. Parliament has been in session for almost six weeks, yet this, the most important of all the bills, is not yet before the House and the Government is not even prepared to make a promise as to the time when it will be ready. This is a case which justifies obstruction of the most determined kind. Under the British system of Government, the people are supposed to watch the doings of Parliament at all times and to make their wishes known, not only through the ballot, but through constant expression of opinion upon all measures of importance. There cannot possibly be a more important bill than one which is to affect, none can say how seriously,

THE REPRESENTATION OF THE PEOPLE.

It is not enough that Parliament should pronounce upon such a bill; it should be discussed as fully as possible by the people at large and it is an insult to the people to neglect or purposely delay the work of preparing it. As matters are going now, it will not be long before all other matters will be finished up, and thus the Redistribution Bill will be the only subject for discussion. Of course it will be pretended that this will make the discussion all the easier. This would be a true enough argument if the only question was one of having a certain amount of talk in the House of Commons. But, to allow time to talk while not giving opportunity to think, is as bad, or worse, than to gag Parliament by force. Even members of Parliament are all the better for a chance to think a thing over, and if they are made of the right stuff, they will gladly avail themselves of every chance to consult with their constituents, in order not to follow slavishly the views expressed, but to get the benefit of the opinions of men every whit as deeply interested and as able to form an opinion as themselves. The Liberals seem to understand this session better than ever before that this kind of thing is an invasion of their rights and an insult to themselves and the people they represent. They have asked several times when the Redistribution Bill is to be brought down and failing a reasonable answer, they seem to have decided that

THE OLD, OLD GAME

shall not be played upon them by the new Premier. While holding back this most important measure, the Government has been unusually active in pressing other business through. If they can get all the supplies voted and all the other business finished, they can afford to sit back, as they did in the great Franchise fight, and wait for the Liberals to tire themselves out. But if they have something to get from Parliament which the Liberals can prevent going through, terms can be made and the worst feature of the Gerrymander removed. In spite of all haste on the part of the Government there has been a decided check to the speed, and something very much like obstruction—just enought to let those in power know what the Opposition can do in that line if they make up their minds to it—has been developed. It is to be hoped that this plan of campaign will be continued. Conservatives will of course say that obstruction is rebellious and must be put down; but it is a perfectly legitimate use to make of the forms of Parliament in fighting against a manifest attempt to repeat the outrages of the Franchise Act. In the franchise session the Liberals made exactly the mistake which now they seem determined to avoid. A little show of resistance now may save the necessity for a desperate and almost hopeless fight for life later on, for the Government cannot hold its followers together for a six months' session if it was made plain from the first that the Liberals are ready for a siege. It must be plain to every man who will consider the case candidly for a moment that the force which has kept the Liberals in the minority has not been public opinion, but merely the fact that the law making power has been strained to give the Conservatives the advantage in every struggle. Even the late so-called

LANDSLIDE AGAINST THE LIBERALS

represented but a few hundred votes gained by the Conservatives mainly by dint of holding bye-elections one by one at the time that best suited the Government's convenience, and affected by promises of public works which represent hundreds or perhaps thousands of dollars for every vote changed. What has been done before can be done again. If the Conservatives are allowed to Gerrymander the country to suit themselves, the Liberal party is foredoomed to defeat no matter how able their leaders or how good their policy. Manifestly the winning or losing battle must be fought in Parliament. This is the point that Liberals have always failed to see. The present delegation seem to see it, however, and if they will act with determination, the next general election will be won this session.

REWARDING INCOMPETENCE.

Recent proposals of the Government have been such as to justify almost anything in the way of prolonged discussion. Among the items appearing in the supplementary estimates are votes for the salaries of the disgraced officials in the department of the interior, whose boodling under the guise of "extra work" disgraced and disgusted the whole country. Burgess, the late deputy minister, under whose authority this vicious system was inaugurated and who was chiefly responsible for the violation of the law, is to be reduced to the rank of first class clerk and his back salary was to be voted accordingly. The minor officials—some of them in receipt of pay that a county judge might envy—were to be left off with the fine of a month's salary. Mr. Dewdney, the minister of the Interior, had the nerve to tell Parliament that he intended to ask his colleagues to allow him to reinstate Burgess as Deputy Minister, but at a later stage Sir John Thompson was fain to declare that this could not and would not be done. The debate on this whole subject was a wearing one upon Sir John. There is a popular belief that he is a man of low nervous organization, a sort of Topper, thick hided. His physical appearance would suggest this—rather short, rather stout, rather dark and round face, having no predominant feature. To look at him one would say he would rarely laugh and never cry. His voice too is so low and pleasant, his style of speech

SO QUIET AND UNDEMONSTRATIVE

that it suggests perfect and permanent mental and physical balance. He holds his place during the longest and most wearing discussion with hardly a change of attitude and almost as rarely a change of expression. But one who studies the man for a few weeks learns that he lives, as it were, behind a mask. As a matter of fact, he is irascible to the last degree and has a demoniac temper. His self control is all the more marvellous for this reason. But to be obliged to stand quietly and be unmercifully scored over the shoulders of a blundering assembly like Dewdney made the crust over his temper very thin in spots and at times one could catch a glimpse of the commotion going on within. Dr. Landerkin made a characteristic speech in the course of the debate which must have "riled" the leader of the House almost beyond restraint. The doctor is a jovial man and he has the jovial man's contempt for trickery and double-dealing. He is likewise accustomed to associate with the clean, strong men who form the advance guard of the Liberal party, and he has a most justifiable contempt for the weaklings and healers who form a majority of the cabinet. He carried the Government so roughly that, while the Opposition members laughed with delight, Sir John Thompson had to set his lips tighter and shift about in his chair more often than usual to keep his temper in check.

THE IMPEACHMENT PROCEEDINGS AGAINST JUDGE ELLIOTT,

will bring again into prominence the member for West Lambton, Mr. James F. Lister. A fight of this kind could not be in better hands as all will believe who know the up and down campaign Mr. Lister carried on last session in pressing the boodle charges which resulted in the exposure of the rottenness in the Government Printing Bureau. Mr. Lister is one of the younger members of Parliament having first taken a seat on the retirement from Lambton of Hon. Alexander Mackenzie in 1882. He came equipped with a magnificent physique, (he is perhaps the finest looking man in the House) fine talents as a speaker and the mental training which every successful lawyer must have. For several years he watched and studied. There is probably no man in the House to-day, not excepting Hon. David Mills, who has a more complete practical knowledge of parliamentary procedure than Mr. Lister. Even from his first speech in the House he was sure of a hearing. He looks like a fighter and he is always tremendously in earnest. His quick vicious blows of oratory always cause an outcry among his opponents, the very best proof that he hits to hurt. Within the last two years he has taken his rightful place as one of the very foremost men of the party and it is with all the dignity of that position that he takes up the case of Judge Elliott. Mr. Lister is a native Canadian, born in Hastings County, about fifty years ago. He is a self-made man in the best sense of that much abused term and he has a prospect of political advancement not less brilliant than that of any other man in the House.

Cure For Dyspepsia.

As is well known, this troublesome complaint arises from over-eating, the use of too much rich food, neglected constipation, lack of exercise, bad air, etc. The food should be thoroughly chewed and never bolted or swallowed in haste, stimulants must be avoided and exercise taken if possible. A remedy which has rarely failed to give prompt relief and effect permanent cures, even in the most obstinate cases, is Burdock Blood Bitters. It acts by regulating and toning the digestive organs, removing costiveness and increasing the appetite and restoring health and vigor to the system. As a case in point we quote from a letter written by Miss L. A. Kuhn, of Hamilton, Ont.:—"Two years ago life seemed a burden. I could not eat the simplest food without being in dreadful misery in my stomach, under my shoulders and across the back of my neck. Medical advice failed to procure relief and seeing B.B.B. advertised, I took two bottles of it, and have been entirely free from any symptoms of my complaint since." This gives very conclusive proof of the efficiency of this wonderful remedy. dw

If You are Going To Buy a Piano or Organ

don't fail to pay a visit to

JACKSON & Co.'s

ESTABLISHED

PIANO AND ORGAN WORKS,

360 Aylmer St., Peterborough.

Being extensive dealers in only Reliable and Standard makes of

GRAND, SQUARE AND UPRIGHT

PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS,

AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that **we positively will not be undersold.**

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

All kinds of Instruments Tuned or Repaired on short notice.

Jackson & Co.

360 Aylmer St., Peterborough

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

Prof. Harrington in the Opera House.

The entertainment given in the Opera House last night by Prof. Harrington, of Boston, was largely attended. The house was packed to the doors with women and children. The professor gave an entertainment of a varied character. He performed tricks of magic, ventriloquism and mesmerism. At the close a number of valuable presents, consisting of lamps, dishes, glass ware, china ware, cups and saucers, goblets, plates, etc., were distributed. Miss Annie Green won the best prize of the evening, a fine set of China in forty-four pieces. Mrs. Aggie Dickson won a cash prize of several dollars.

Marriage Bells—Johnson—Laing.

A quiet wedding took place at the residence of Mr. Wm. Laing, Jr., Sherbrooke street, last evening. Mr. Geo. E. Johnson, of the 7th concession of Smith, son of Mr. Geo. Johnson, Lakefield, was united in the holy bands of wedlock to Miss Hannah E. daughter of Mr. Wm. Laing, of the 9th concession of Smith. The interesting ceremony was performed by the Rev. J. E Trotter, pastor of Murray street Baptist church, in the presence of a very few friends. The bride was assisted by Miss Eva Stevens, while Mr. W. R. Johnson, brother of the groom, ably filled the duties of best man. After the wedding a quiet supper was partaken of by those present and much enjoyed. The happy bride received a large number of costly and elegant presents. The employees of Mr. J. C. Turnbull's dry goods store, where Miss Laing was a faithful employee for a number of years, presented her with an elegant chenille table cover, a silver cake basket and butter dish on the occasion of her marriage. The groomsmen and bridesmaid paid their compliments by presenting her with a fine silver tea service. Mr. and Mrs. Johnson have many friends in Peterborough who will wish them unalloyed happiness and a long life of connubial bliss.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it? We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

News Nuggets.

—The Separate School Board meets to-night.

—There were no arrests last night. No police court this morning.

—The ice is now nearly all out of the Bay of Quinte and navigation will open by Saturday.

—The directorate of the P.A.A.A. met at the store of Wm. Lesh this afternoon and elected officers for the ensuing year.

—John Geerin appeared before Police Magistrate Dumble last night on a summons for being drunk and disorderly. He was fined $1 and costs.

—The Board of Trade will meet to-morrow night in the council chamber, when the Trent Valley canal will be discussed. All are invited to attend.

—Wm. Henry Hiney was arrested yesterday afternoon for wandering up and down the streets in a beastly state of intoxication. He was liberated this morning.

—Regular meetings of the Ashburnham Lodge and Peterborough Lodge, R. T. of T. were held last evening. In the latter lodge four initiations took place.

—A meeting will be held in the R. T. of T. hall next Monday evening, for the discussion and consideration of the erection of the proposed temperance hotel in the town. All interested in such a move are invited to attend.

—Mr. W. J. Montgomery, secretary of the Peterborough Cricket Club has received a challenge from the secretary of the Rosedale Club for a match on 23rd of May. The challenge will in all probability be accepted.

—The License Committee met last evening, and awarded the tender for dog tags to a Toronto gentleman. The tags, which will be made of aluminum, will be very light, in contradistinction to the heavy brass ones now in use:

—Mr R. Tivey, secretary of the Peterborough Gun Club has received a challenge from the secretary of the Port Hope Gun Club for a match on the 15th inst. The match will take place in Riverside Park, trap shooting, distance 20 yards with ten men each.

—At a meeting of the Catholic Order of Foresters held in their lodge rooms in the Murray street Separate school Monday night the nomination of officers for the ensuing year took place. The election will take place at the next regular meeting. Fifteen applications were received for membership.

—The men of No. 2 turned out last evening to the number of thirty. They were given their uniforms. The company will meet for drill next Tuesday night. Nos. 1 and 5 companies met last night in the drill shed for company drill. The companies are filling up fast and the men turning out well.

—A jolly party of six horse-back riders rode to Bridgenorth last evening, where they had tea. The return home was made at an early hour without any mishap. The party consisted of Messrs Percy Goldsmith, Fred Heap, A. W. Strickland, A. Crofton, G. M. Beers and C. H. Jellett.

—A meeting of the Peterborough Bicycle Club was called for last evening in the Olympic Club rooms. About thirty wheelmen put in an appearance, but owing to the absence of the secretary the meeting was postponed until next Tuesday night when officers for the ensuing year will be elected. The prospects are encouraging.

Look Up Your

Spring overcoats or suits, and have them cleaned, or dyed and repaired at PARKER'S Dye Works.

P.P.-E.E.

If you want a clean, careful and desirable job in Painting, Paper-Hanging and Kalsomining leave your order with TOM J. CLITHEROE, Mark street Ashburnham.

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

Afternoon Funerals.

The funeral of Mrs. Graham who died in the Nicholls hospital from consumption took place this afternoon to the Little Lake cemetery. She was in her forty second year and leaves a family of five.

The funeral of Mrs. Frank Stuart who died in Trenton, N.J., on Sunday, took place this afternoon from the residence of her brother-in-law Mr. A. C. Dunlop, Water street, to the Little Lake Cemetery.

Grand Sale of Horses

The annual spring sale of horses will take place at Dr. Stephenson's Repository, Chambers street, on Wednesday, April 13th, at 1 o'clock. For this sale Dr. Stephenson has received instructions from W. J. Cowan, of the Toronto Street Car Company, to have entered (for this sale if possible) 100 sound horses, from 5 to 9 years old and weighing from 1,000 to 1,200 lbs. Farmers or others having such horses to dispose of are urged to enter their horses with Dr. Stephenson before the 12 h inst.

St. John's Women's Auxiliary.

The annual meeting of the Women's Auxiliary in connection with St. John's church, was held in the St. John's school room on Monday, April 4th. The Secretary and Treasurer showed by their reports an increase in the membership and subscriptions during the past year. The following officers were elected for the year:—President, Mrs. G.A. Smith; first Vice-President, Mrs. Weller; second Vice-President, Mrs. Sailsbury; Treasurer, Miss Kirkpatrick; Parochial Treasurer, Miss Rabidge; Secretary, Miss Wallis; Parochialai Secretary, Mrs. White; Superintendent of Mission Band, Miss McCollum.

A Prize Puzzle.

If a frog is at the bottom of a well, ten feet deep, how many days will it take him to get to the top if he climbs up one foot each day, and slides back six inches each night.

One Hundred Dollars in cash will be paid to the person who sends the first correct answer to the above prize puzzle, an elegant pair of diamond earrings in solid gold settings given to the one sending second correct answer. A complete education at business college given for fourth correct answer. An imported Music Box (playing six pieces) given for fifth correct answer. A silk dress pattern for each of the next five correct answers. A handsome parlor lamp to each of the next ten. AND A SOLID GOLD WATCH FOR THE FIRST CORRECT ANSWER FROM EACH PROVINCE. Every person answering must enclose four three cent stamps for two sample copies of the finest Illustrated publication on this continent. We give these prizes simply to introduce it. Address, LADIES' PICTORIAL WEEKLY, (22), Toronto, Can.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection at this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. R. STRATTON.

Personal

Mr. A. H Blanchard, town, was in Belleville yesterday.

Mrs Cecil Wright, of Orillia, is visiting at Dr. Fitz's, George street.

Messrs. Wm. Irvin, A. V. R Young and R. A. Hamilton were in Toronto yesterday.

Mr. John Fanning, Peterborough, was in town yesterday calling on old friends.—Port Hope *Guide*.

Mr. and Mrs. A. Haskell, of Toronto, are the guests of the latter's parents, Mr. and Mrs. Wm. Cunningham, Stewart street.

Miss Mattie Stiles, Locust Grove, Emilymore, has been the guest for the past week of Miss Lottie McGarrity, 286 Edinborough street.

Mr. Redmond Henry, accompanied by Mr. John Cronin, left for Chicago on the 5.45 C.P.R. train last night. They have many friends who will wish them success in the West.

Rev. Father Dube, who for some time past has been officiating as French speaking priest at St. Peter's Cathedral has been removed to the diocese of Hamilton, and Rev. Father Desmaisiers, has been made one of the Cathedral clergy.

Mr. John Braden, who has been travelling representative of the Brooks Manufacturing Company, has severed his connection with the Company, and accepted the position of general agent of the Globe Savings and Loan Company, Toronto, for the Eastern Ontario district.

Mr. D. S. Harvie, employed by the William Hamilton Manufacturing Company, left by the 11.45 C.P.R. train to-day for Montreal where he will set up two band-saw mills manufactured by the company. Mr. Harvie goes on from Montreal to British Columbia in the interests of the company.

It is understood that the Rev. Jas. G. Lewis, B.D., now attached to St. James's Cathedral, Toronto, is an applicant for the position of pastor of St. Luke's, Ashburnham, the incumbent Rev. Mr. McCleary having tendered his resignation. A Toronto correspondent writes:—"As a personal friend, co-worker with, and admirer of Rev. Mr. Lewis, and one who has had great pleasure and profit under his ministrations, both at St. Alban's and St. James's Cathedrals, I can say that the congregation of St. Luke's will make an especially good choice. Like most workers in the vineyard, Mr. Lewis is, it is believed, desirous of having a parish entirely to himself, and it is in such position doubtless, that men like him succeed best; though it may be added Rev. Canon Dumoulin would not desire to lose his able young assistant, if called to Ashburnham."

After an absence of three weeks, Rev. J. W. McCleary, Rector of St. Luke's has returned to town, in somewhat improved health; but his many friends regret that his residence amongst us will probably be brief. As is generally known, Rev. Mr. Mr. McCleary will place his resignation of the incumbency before the Easter vestry, to take effect about the first of May, and in view of the Rector's state of health making him unequal to the laborious demands of the parish, and the connected mission work, the congregation will probably reluctantly consent to the acceptance of the resignation. Rev. Mr. McCleary will, it is likely return to the diocese of Michigan, where he has been offered a city church with rectory attached, where the work will not be so exacting. During his three years' incumbency of St. Luke's, he has worked faithfully for the promotion of the interests of the parish and won very many warm friends, not only in the congregation but in the community generally. There will be general regret that the state of his health make it impossible for him to continue his labours as Rector of St. Luke's.

Support Home Manufacture

Ask for Peterborough Ale and Porter—March Brewings. Best in Canada. 69 1m

There Are Others,

But the barber shop you, reader, want to go to is BILLY MORGAN'S, the high-class barber, at 436 George street.

Private examinations, with charts, and full written description of character, faults, how to convert them; the management of children; self improvement, etc., are given daily at our private rooms in the Cardwell House, or at your own home, by PROF. KEMP. d82tf

"The Hercules Duster,"

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in all colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

"Queen Esther" Visits Lindsay.

The Cantata "Queen Esther" will be produced in Lindsay to-night and to-morrow night under Mr. J. H. Ketchum's conducting. There is a treat in store for the Lindsay people, that is if the Lindsay vocalists respond as successfully to Mr. Ketchum's capable instructions, as the singers of this town did when the Cantata was so creditably presented here.

Bradburn's Opera House.

"The Bottom of the Sea" is said to be the best spectacle on the road this season. The company is a competent one, if all reports are true, and the stage mechanisms are a novelty to the theatrical world. The fight between a diver and a devil fish is very realistic, as are the examinations in the water and the laying of the cable. It comes to the Bradburn Opera House Saturday, April 9th. The success in arranging the production of this play has been remarkable. dtf

Market House.

The market this morning was an exceedingly small one. A dozen waggons dotted the square loaded with potatoes, apples and maple syrup. Two loads of hay were offered, selling at $14 per ton. A load of soft wood sold at $3. Potatoes and apples were in superabundance—enough on to supply the whole town for a month. Potatoes sold at 50c. a bag, while apples varied all the way from 75c. to $1 per bag. Maple syrup sold at 25c. to 30c. per quart, or $1 to $1.15 per gallon. A small supply of pork was offered, selling at 7c. a pound, front quarter, and 8c. for the hind quarter. An eighteen pound turkey, the only fowl on the market, sold for $1.30. The supply of butter and eggs was very limited, the former selling at 22c. per pound, and the latter from 10 to 12c. per dozen.

Mrs. M. E. Merrick,
Of Toronto, Ontario, Cured of

Catarrh and Neuralgia

Good authority has said that "neuralgia is the cry of the nerves for pure blood." The prompt action of Hood's Sarsaparilla on the blood, combined with its toning and strengthening effect upon the nerves, make this a grand medicine for neuralgia and also for catarrh, etc. We commend this letter to all having such troubles, and especially to

Suffering Women

"For a good many years I have been suffering from catarrh, neuralgia and

General Debility

I failed to obtain permanent relief from medical advice, and my friends feared I would never find anything to cure me. A short time ago I was induced to try Hood's Sarsaparilla. At that time I was unable to walk even a short distance without feeling a

Death-like Weakness

overtake me. And I had intense pains from neuralgia in my head, back and limbs, which were very exhausting. But I am glad to say that soon after I began taking Hood's Sarsaparilla I saw that it was doing me good. When I took 3 bottles I was entirely

Cured of Neuralgia

I gained in strength rapidly, and can take a two-mile walk without feeling tired. I do not suffer nearly so much from catarrh, and find that as my strength increases the catarrh decreases. I am indeed a changed woman, and am very grateful to

Hood's Sarsaparilla

for what it has done for me. It is my wish that this my testimonial shall be published in order that others suffering as I was may learn how to be benefited." MRS. M. E. MERRICK, 57 Elm Street, Toronto, Ont.

The great Chronometer and Regulator in chief, to the whole world, is the earth itself. Turning upon its axis once in what we call one day of twenty-four hours, the sun appears to cross the meridian once in that interval and is the only perfect time known. But the great objection to the sun as a family timepiece is, we can't always hustle around looking for him to judge the time by, and it is too big to carry around with us, so we have to call in the watchmaker's aid to find the correct time. Who is your watchmaker? Try R. W. MUNCASTER.

DIVORCED

BUT still selling and renting property. I have a dairy of a farm now of 150 acres, 3 miles from town. Stone house 30x36, frame kitchen 22, 1½ story; wood shed 20x20; two barns, each 1x51, stone foundations with cow and horse stables beneath. 2 acres orchard, 10 fall wheat, meadow, 60 fall ploughed. Cheese factory and school within 10 minutes walk. The above to rent or sell, but would rather sell, as the proprietor can not work it on account of ill health. Very easy terms and possession at once.

Board of Education.

Regular Meeting Held Last Night—The Appointment of a School Superintendent Left to a Committee—The Advisability of Retaining the Singing Master Discussed—Dr. Tilley Gives His Opinion of the Work Being Done in the Schools—Other Minor Business Before the Trustees.

A regular meeting of the Board of Education was held in the school board rooms last evening. There were present, Chairman Wrighton and Messrs Burnham, Hill, Ferguson, Dumble, McKee, Hartley, Corkery, Hamilton, Deane, McBain, Law and Boucher. The minutes of the previous meeting were adopted.

COMMUNICATIONS.

The following communications were read:

From Lacy Stevenson, asking that the fee of $2 00, which she had paid for the term ending March 31st be returned, as through illness she had only been able to attend one month.—Received.

From Lillie Pratt, applying for the position of teacher in the first vacancy that occurred, at a salary of two hundred and fifty dollars per year.—Received.

The following accounts were presented and read:

Review Printing Company	$16 75
W J Bain	34 15
J R Donnel	12 00
Metropolitan Grocery	60
J R Stratton	93 11
H S Macdonald	99 97

The fees received during the present month were:

Collegiate Institute	$114 50
Kindergarten	30 50
Public Schools	7 50

The attendance for the past month was:

	On roll.	Av.
Collegiate Institute	198	181
North War j School	163	134
West Ward School	335	301
South Ward School	353	301
Central School	601	505

REPORTS OF COMMITTEES.

To the chairman and members of the Board of Education:

GENTLEMEN,—Your Finance Committee beg leave to report and recommend payment of the following accounts:

T Williams	$ 6 00
Miss Wrighton	15 00
R J Hutchison	38 25
Geo H Locke	41 60
J Nebi	60 00
J Mont, omery	42 75
J R Stratton	213 84
Wm Donell	30 60
Fortye & Phelan	1 77
Wm Hamilton Co	29 49

All of which is respectfully submitted.
GEO. BURNHAM, Chairman.

To the chairman and members of the Board of Education.

GENTLEMEN:—Your committee on School Supervision beg leave to report that they have awarded the contract for chemicals to Mr. MacDonald his being the lowest tender. They have also instructed Mr. Tilly when in Toronto to order, according to sample sent, as many honour certificates as required.

All of which is respectfully submitted.
HENRY DENNE, Chairman.

To the chairman and members of the Board of Education.

GENTLEMEN:—Your committee on Appointments beg leave to report that in reference to J. C. Brown's application there is no vacancy in the office of inspector, and that the secretary be advised to notify Mr. Brown of the fact.

D. W. DUMBLE, Chairman.

Moved by Dr. Burnham, seconded by Mr. McKee, that the advisability of securing a local superintendent for the public schools, whose time shall be devoted exclusively to the schools of the town, be referred to the following special committee: Messrs. McKee, Hamilton, Hill, McBain and Burnham to consider and report on the matter. After some discussion the motion carried by seven yeas and five nays.

Moved by Mr. Hamilton seconded by Mr. McKee that the chairman of the Property Committee be instructed to sell all the old iron and all the other old material around the Central school building.—Carried.

Moved by Mr. Deane, seconded by Mr. Hartley that the services of the music master be dispensed with after the summer holidays.

Mr. DUMBLE stated he could not favor the motion as he thought it would be a step backwards. He was in the west end school the other day and was surprised at the splendid singing done by the children. They sang an entirely new piece very creditably under direction of the music master. Some people thought they could not afford this extra expense and that it was more ornament. The benefits of the teaching of music in the schools could not be over-estimated. It cultivated clear articulation, distinct pronunciation, a refined taste, a few minutes of pleasant leisure each day and the power to make home happy with the beauty of song. He knew nothing that the children could carry with them that would stick so well. He would not dispense with singing in the schools without a great deal of deliberation. He had grave doubts about the advisability of dispensing with the singing master and it would not do to act rashly in the matter. It was the poorer classes who were clamoring for the change, they who think it is an unnecessary burden, but it was the rich people who were paying the greater share of the expense. People of refined taste were in favor of the singing in the schools and if a vote were taken in the matter among the parents, he felt sure they would retain the services of the singing master.

Mr. DENNE said he did not object to the singing master but he did not think the master should come during school hours to teach the children while the teachers whom they paid big salaries, during the teaching of the singing, sat down and did nothing. He should come after school hours. The speaker stated he was willing to leave the matter in the hands of a special committee appointed to inquire into the desirability of retaining the services of the singing master. The matter was referred to the special committee, charged with reporting upon the question of a local inspectorship.

Moved by Mr. Dumble, seconded by Mr. Ferguson, that Mr. McCreary be appointed on the examining board to examine the papers of pupils applying for admission to the Collegiate Institute—Carried.

Mr. DUMBLE suggested that the inspector being present, he report the number of times he was in the habit of visiting the town schools and report on the work thereof.

Dr. TILLEY stated that as a rule he visited the schools frequently during the teaching year. He knew something of the state which the schools were in. The schools and teachers were doing good work. The teachers were equal to to the teachers in other towns and cities in their preparation, work and success. The standard of the profession was constantly becoming higher. He believed all the teachers were doing good, faithful work.

Mr. DUMBLE inquired if pupils in country schools, as some allege, got along faster and passed the entrance at earlier ages than those taught in town schools.

The INSPECTOR said he did not think it was true. Three or four pupils from each country school, seldom more in number, passed the entrance examination at early ages, but they as a rule were the cleverest out of a school of forty or fifty, and the only ones who went up for examination, whereas in a town school the teacher of the form prepared all for examination — weak and strong alike. They all go up for examination, whereas from the rural schools only two or three of the cleverest go up for examination. He thought that if a child reached the high school at fourteen years of age, it was plenty early enough. He thought that the average pupil from the town entering with the pupil of the country into the high school was fully equal to him in thoroughness and efficiency. In answer to a question as to what he thought of music being taught in the schools, the doctor said, without expressing an opinion in reference to the retaining of the singing master, that it was a good thing.

Mr. MCBAIN, chairman of the Property Committee, asked in reference to certain repairs to the Central school yard. The pump of the West Ward school needed repairing at once.

Principal FESSENDEN asked that shelves be put up in the school board room for the accommodation of the library. He was responsible for the care of the books.

Moved by Dr. Boucher, seconded by Mr. Ferguson, that the chairman of the Property Committee be instructed to put in the shelving asked for and have the bank in front of the Central school shovelled down.—Carried.

Mr. DUMBLE called attention to the fact that the teacher's rooms in the Collegiate Institute were yet unfinished.

Dr. BOUCHER called attention to the kindergarten school and its over crowded condition. There were sixty pupils in attendance now, and Miss Warren expected thirty five or forty more to enter after Easter. Something would have to be done to remedy the overcrowding of this popular school.

Dr. TILLEY requested that when shelving was being put in the Collegiate Institute that a small cupboard be placed in the rooms of the teachers for placing copy and drawing books away. It would be a great convenience.

The Board adjourned at 9.40 o'clock.

Y.W.C.A. Notes.

There was a large attendance at the Bible class last night, when Miss Code gave a very practical and interesting talk on "The King's Daughter."

There will be a meeting of the association Friday evening, at 8 o'clock. We hope all the members who can will be present.

Y.M.C.A. Notes.

The Board of Directors, of this association, met last evening. President Early presided. The attendance was good. Interesting reports were presented from the Devotional and Reception Committees also by the General Secretary which were encouraging. A special effort will be made to make our work tell among a certain class of young men, who, at present, are perfectly indifferent to the claims of the Lord Jesus; to this end much prayer will be made.

On Good Friday open house will be held for young men, and in the evening a helpful and interesting programme of instrumental and vocal music, readings, also physical drill by gymnasium class under Sergt-Major Randle, to which all young men will be welcome.

On Thursday evening in the Opera House the celebrated solo pianist and composer, Fredrick Boscovitz, will give a lecture recital on the piano. The association are fortunate in getting this artist, and our citizens will have a great musical treat. A subscription list is being circulated and subscribers will have first choice of seats.

Read T. Hartley & Sons "ad." Changed every other day.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

Clearing Sale of Groceries.

As I am going extensively into Mquors, I find it necessary to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. Monnow, 340 George street.

Lakefield.

From Our Own Correspondent.

The swallows arrived last Sunday for the season.

Village continues very quiet so that I have little or no news to give.

We have to thank the local member for West Peterborough for a full supply of parliamentary papers.

The village council meets next Monday evening in the town hall, and the school board on Tuesday evening.

The thanks of the island owners are due to Mr. Stratton, the member for West Peterborough, for his bill in the Local House throwing off the obnoxious statute labour tax.

Mr. Lipsett, of Ashburnham, was not far wrong in thinking that young Tully and his companion had driven to Lakefield last Friday night. They left here in the evening in a reckless condition and at a high rate of speed. Chief Hazel's hopes of amendment are not materializing.

A man called Kelly who hails from "Cat Hollow" near Brighton and who had resided here a short time tried to skip out last week, leaving a dead horse in his stable. The health inspector got wind of it just in time and compelled him to pay a man to burn it. As it was he left a number behind to mourn his departure.

A Damerconian who does not believe in schoolmasters was in the village last week offering maple syrup for sale at $1 40 per gallon or 20 cents by the quart. It is needless to say his sales were all by the quart.

Mr. Donald McLean takes his departure for his new home in Calgary next week, and at the same time another old resident, Mr. H. Wyane and family, remove to Michigan, where Mr. Wyane has secured a good position, as builder and repairer of bridges on one of the railroads in that State.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the

SCIENCE AND PROGRESS.

INTERESTING PARAGRAPHS CULLED FROM VARIOUS FIELDS.

Electric Lights in Railway Cars—Electricity from Wind—Home-Made Electricity—Hardening Plaster Casts — Moisture-Proof Walls—Notes of Progress.

After two years of extensive experimenting with the various methods of generating electricity for train lightning the Chicago, Milwaukee and St. Paul Railroad Company built two separate tenders with the necessary machinery for lighting and heating its vestibule trains. A recent issue of the Western Electrician illustrates one of the trains running from Chicago to Minneapolis, the tender connected with this train supplying about 154 lights. Each tender is thirty-four feet wide, and is divided into two compartments, in one of which is a tubular steel boiler for heating purposes, while the rear section contains the dynamo.

One of the most artistic portions of the equipment is that in the drawing-room. Over each chair in this car there is an incandescent lamp most conveniently hung, under a fringed red lamp shade of tasteful design. The effect of the light shed by these lamps from beneath the two rows of colored shades on the sides of the car is most pleasing to the passenger entering from the darkness without. The lamps in the sleepers are arranged in a manner that delights the weary traveler. The man whose eyes have suffered from attempts to read his evening paper by the far-off and dim oil lamps hung near the car ceiling finds a lamp not only at his elbow, but one that gives him the light from behind and over the shoulder. Each berth lamp is placed within a drum, having two rotating shutters, which can be raised or lowered when it is desired to use or shut out the light. As the shutters open on both sides one lamp does for two berths, the closing of the second shutter cutting off the current. Should occasion arise during the night to use the light, the simple opening of either shutter places the lamp in circuit.

Electricity From Wind.

Owing to the comparative scarcity of water power in many parts of England for the generation of power for electrical purposes, attention has been given to wind power, of which the country is well supplied. A small experimental plant has been in operation at a flour mill near London, the windmill supplying sufficient power to run a small dynamo. The current is used to charge a storage battery, from which a number of arc and incandescent lamps were lighted nightly. Although the current obtained was small the experiment was successful in demonstrating the value of this form of power for generating electricity.

The accumulators give out a steady current to the lamps, of course, independently of any conditions of wind and weather, and practically the obstacles which have hitherto stood in the way of running dynamos by wind-mills have been overcome. There is no reason why country houses standing on elevated ground should not be supplied with light from this source as well as with water. The cost of an installation should be in no way excessive, and that of operating trifling.

Home-Made Electricity.

A French chemist who has been giving considerable attention to the problem of heating and lighting from a single source has devised a novel stove, which in appearance resembles an ordinary heating stove. It is so arranged internally that the waste heat is utilized for the generation of electricity. This is secured by a number of rectangular boxes of sheet iron, containing the necessary metallic elements for furnishing the current. These elements are insulated by asbestos, and the cooling is effected partly by the shape in which the metallic alloys are cast and partly by a circulation of air.

The current obtained is not great in amount, but the results of this attempt seem to be favorable. Accumulators are used for storing up the electricity, and as the heating is required for a much longer period than for lighting, the electrical energy, which would be lost during the hours of daylight, is saved. A point of considerable moment is that the heat utilized in this way is waste heat, so that any portion that can be removed in the form of electricity is so much gain.

Hood's Sarsaparilla absolutely cures where other preparations fail. It possesses medicinal merit peculiar to itself.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents. dw

It is a Very Sad Thing

To see young and beautiful people die when they might just as well live and enjoy health and strength. Many who suffer with coughs, colds and lung troubles, leading to consumption, imagine there is no hope for them, when in reality there is every hope if Miller's Emulsion of Cod Liver Oil is taken regularly. Spread the news everywhere that this great emulsion will make flesh and blood, cure coughs, colds, bronchitis, sore throats and lung troubles tending to consumption. In big bottles, 50c. and $1, at Peterborough Drug Store. dw

Cure for A Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package. dw

Unsightly pimples, blotches, tan, and all itching humors of the skin are removed by using Dr. Low's Sulphur Soap. dw

Soft White Hands.

These desirable adjuncts to the beauty of the ladies can be attained by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6180

Itch, Mange, and Scratches of every kind, on human or animals, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by H. S. McDonald.

Hardening Plaster Casts.

A new method of hardening the various plaster ornaments so largely used in the arts has been suggested. The process consists in saturating the article to be hardened with a solution of silica, and following this by the application of a baryta solution. A better way to secure the same results consists in first placing in the mixture of plaster before the finished article is made the various metallic hydrates, such as those of alumnia and zinc, which are converted into silicates by subsequent treatment of the articles with a solution of silica. Some process of this character would seem to be useful for hardening decorative tiles, ornamental picture-frames, and for lithographic stones which require a hard and smooth surface.

Forcing Cucumbers.

For cucumber forcing the side shoots at the second joint must be stopped and the proper fertilization of the fruit blossoms must be looked after. Air must be given, but care must be taken that too much cold does not enter. From 65 to 70 degrees at night and from 70 to 80 degrees during the day, is the temperature required.

Vankleek Hill Burglars.

VANKLEEK HILL, Ont, April 4.—On Saturday night burglars effected an entrance into the stores of Messrs. McCuaig, Cheney & Co. and W. H. McKenzie and stole therefrom a number of gold and silver watches, watch chains and a quantity of men's clothing. An entrance was effected in both cases by prying open the front door with chisels.

The Family Medicine.

Trout Lake, Ont., Jan. 2, 1890.

W. H. COMSTOCK, Brockville.

DEAR SIR:—For a number of years I have used and sold your "Dr Morse's Indian Root Pills." I consider them the very best for "Family Use," and all my customers speak highly of them.

Yours truly,
dw R. LAWSON.

Epping, N H., 10th Jan, 1889.

MR. S. LACHANCE,

It is a great pleasure for me to certify that after taking two bottles of your Father Mathew Remedy, I do not feel like taking any more alcoholic liquors of which I used to drink to excess during nearly 20 years.

I will take every opportunity to recommend your valuable Father Mathew Remedy to all person, who like myself, would be in need of it.

Your obedient servant,
1d JOS BEAUDOIN.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave.,
New York City, Sept. 19, 1888.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D

CONSUMPTION

Brooklyn, N.Y., Feb. 14th, 1890.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

137 West 34th St.,
New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not be imposed upon with the humbug combinations of leather and metal with which the country is being flooded. If you want to experiment with cheap articles, pay FREE $10. If you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. dw

"German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it. ●

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cumines, Esq., a leading druggist of Welland, Ont., speaks for itself:

MESSRS. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMINES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

378 Water St.

The Early Vegetables.

Carrots, beets and parsnips should go in the ground early, but not when the soil is too cold, as such seeds are slow in germinating, and the young plants may be crowded out by the early weeds. Make the seed bed as fine as an ashheap, and sow radish seed in the rows with the root crops, as the radish seeds germinate quickly, come through and define the rows, thus permitting of the use of the hoe until the seeds of the root crops appear, when the young radishes may be removed.

Luxuries on the Farm.

The first duty of a farmer is to supply his home with all the various luxuries that can be grown on a farm. With the many varieties of fruits and vegetables that can be produced on a farm the farmer should be able to have nearly all his wants supplied, so far as his table is concerned. In estimating the receipts for the year the farmer should always include those articles supplied by him to his family.

The Cracks in Cow's Teats

Should be carefully penciled with a crayon of nitrate of silver sharpened to a fine point; care being taken that every part of the crack is touched by the silver. Apply the crayon night and morning of one day only and on the following day dress the cracks with the benzoated oxide of zinc ointment. The teats should be carefully dried after each milking.

A Skin Disease.

The crests that form in a line extending forward from just in front of the cow's udder are caused by a disease of the skin. Apply a little of the following ointment twice daily, having previously got rid of as much of the scalines as possible by soaking the crusts with olive oil: Sulphuret of potash one dram, lard one ounce, to be thoroughly mixed together.

Manure for Hotbeds.

When using manure for hotbeds discard all litter. Fresh horse manure is best and it should be well tramped down in the bed. To hasten the heat moisten the manure with lime water.

Buried Under a Locomotive.

WINNIPEG, April 5.—Fireman John Harris of this city was killed by the overturning of a locomotive near Boundary, on the Northern Pacific, yesterday.

Paris' New Postmaster.

PARIS, Ont., April 5.—P. H. Cox, ex-mayor and ex-candidate for the Commons, has been appointed postmaster of this town. The fight has been a keen one between Cox and A. H. Baird.

For Manufacturing Poteen.

OWEN SOUND, April 5.—At the Police Court this afternoon John Bryans pleaded guilty to running an illicit still. He was fined $100 and sentenced to one month's imprisonment.

The Chronicle says the Duchess of Edinburgh's daughter, Princess Marie, is betrothed to Prince Ferdinand, heir-presumptive to the Roumanian throne.

It is contemplated to extend the Brantford, Waterloo and Lake Erie Railway to Simcoe, a distance of eight miles. Brantford will be asked to contribute $40,000, the Dominion Government $60,000 and the Legislative Assembly $16,000.

Salmon River in Huntingdon county, Quebec, overflowed its banks near Dundee village, carrying away mill dams, iron bridges, boathouses, etc., and doing immense damage to the Grand Trunk Railway tracks.

The effects of the strike of the coal miners in Durham threaten to be more deplorable than was anticipated. The stocks of fuel in the large factories are almost gone and it is probable that in a few weeks a number of heavy failures will be announced. There has never been so grave a crisis in the history of trade and industry in the north of England.

As a spring blood remedy there is nothing equals Dr. Williams' Pink Pills. They supply in a condensed form the elements necessary to enrich the blood, stimulate the nerves and build anew the system enervated by being "housed up" during the winter months. Sold by all dealers or sent on receipt of price—50 cents a box or six boxes for $2.50—by addressing the Dr. Williams Med. Co., Brockville, Ont., or Morristown, N. Y. dw

For several years I was persistently annoyed with an excessive accumulation of Dandruff and although using various preparations recommended and shampooing regularly once a week, no material relief was realized until my attention was called to Ayer's Hair Dandruff, which has produced unlooked-for results in my case, four applications removing every particle of Dandruff, and as a specific for this trouble it certainly has no equal.

Yours truly, W. T. RODINSON,
Can. Pac. Rys. Telegraph Co., Montreal, P. Q. dw

Worth of Notice.

If you wish to restore to your cheeks that charming rose tint which they have lost add every morning to the water used for washing, a teaspoonful of Persian Lotion. The effect is marvellous. 1d

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

TALKS FOR THE FARMER.

STRAWSTACK STATESMANSHIP BY WITTY FARMER JOHN.

The Symptoms of Lump Jaw—Lice on Plants—The Early Vegetables—Luxuries on the Farm—The Cracks in Cow's Teats—A Skin Disease.

There's a patent on almost everything but hard work and politicians' promises.

About the hardest things a farmer can raise are a bound child and a mortgage.

A man has got to be a better farmer than his father was to keep from being a worse one.

A good way to tell a growler at hard times is by his chickens roosting in the trees.

One disadvantage the farmer has: he can't mark his goods to cover the loss of a dead horse.

One consolation Daniel had in the lions' den: the lightning-rod man wouldn't likely follow him there.

No political movement can bring prosperity to the owner of the slab stable who feeds nothing but cornstalks.

The liberty pole is raised about election time to signify that a citizen is free to vote any way his party caucus says.

As long as it is supposed anyone has brains enough to run a farm there'll always be some one with a little more brains to run that sort of farmers.

What time the devil isn't busy tending the fires he must be starting out agents with promissory notes as innocent looking as a recipe for corn-dodgers.

To be neighborly, you don't have to let blackberries grow in the place of blue-grass for fellers to pick that cuss you for a lazy hound every brier they run in their fingers.

The farmer may get to a picnic once a year, but the money lender has a picnic all the time.—Farmer John, in Farm and Home.

Symptoms of Lump Jaw.

Lump jaw or actinomykosis usually begins with a swelling somewhere about the face or the lower jaw. This swelling, which is hard, increases in size slowly and if not injured in any way or opened with the knife may continue growing for a long time as a hard, more-or-less painful swelling. As the growth increases it encroaches upon the sockets of the teeth (the teeth may fall out) and so interfere with mastication; this in turn affecting the animal's general health and condition. Sooner or later the matter (pus) that has been forming within the spongy tissue of the bone makes an opening for itself, either through the mouth or externally at some point on the jaws, and from this time on the case is one of a hard tumor of more or less irregular outline and discharging matter mixed with fragments of bone. The foregoing description applies to actinomykosis affecting the bones of the face and jaws; but the disease may attack any of the internal organs, or in fact almost any part of the body, the symptoms varying with the part attacked in a given case. The disease, when thoroughly established, is practically incurable; and inasmuch as it may be transmitted from one animal to another, and from animal to man, cases should be isolated and handled with caution.

Lice on Plants.

Lice cause more trouble to plants than any other one thing. The red spider and green louse are the most common. The quickest and surest way to get rid of them is to use the kerosene solution, recommended for spraying fruit, and this will not hurt the plants and is made as follows: Dissolve 2 oz of bar soap in 1 qt of hot water, and while still warm stir in 2 qts of kerosene oil, and churn violently with a force pump or syringe. When ready to spray dilute with nine parts of water. The fumes of sulphur are objectionable to the red spider. Tobacco will also kill most insects and is easily and cheaply applied. Put the plants under a barrel or box and place some tobacco stems on hot coals. Let them be smoked thoroughly for 15 minutes.

A Chance to Make $500—Or Better!

A slim chance, you fancy. Well, read and judge for yourself. You have Catarrh. $500 is offered for an incurable case of Catarrh in the head, by the proprietors of Dr. Sage's Catarrh Remedy.

SYMPTOMS OF CATARRH.—Headache, obstructions of the nose, discharges falling into the throat, sometimes profuse, watery acrid, at others, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in the ears, deafness; offensive breath; smell and taste impaired, and general debility. Only a few of these symptoms likely to be present at once. Dr Sage's Remedy cures the worst cases. Only 50 cents. Sold by druggists everywhere. $500 or a cure. Either would be acceptable. ●

Thanks to J. H. Adams.

As through him I have been freed from chills, biliousness, liver troubles, etc., etc. St. Leon Water did it; is the best medicine I ever found; is so good I tell all my acquaintances to go to your store in Brantford and get a supply. Truly, St. Leon is marvelous. A trial brings conviction. dw

A Great Surprise

is in store for all who use Kemp's Balsam for the throat and lungs, the great guaranteed remedy. Would you believe that it is sold on its merits and that any druggist is authorized by the proprietor of this wonderful remedy to give you a sample bottle free? It never fails to cure acute or chronic coughs. All druggists sell Kemp's Balsam. Large bottles 50 cents and $1. dw

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Dr. Low's Worm Syrup has removed tape worms from 15 to 30 feet long. It also destroys all other kinds of worms. dw

The most agreeable, restorative tonic and mild stimulant is Milburn's Beef, Iron and Wine. dw

Nothing More Pleasant

Than to feel a soft hand. Any lady using Dyer's Jelly of Cucumber and Roses will always have soft white hands. Try it. W. A. Dyer & Co., Montreal. 6d30

CARTER'S LITTLE LIVER PILLS.

CURE
Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK
Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD
Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE
is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

What would you like —in the way of a corset?

Something that's easy and comfortable, with "bones" that can't break, kink or roll up—something that fits like a glove and clasps the figure closely.

Then you want the B. & C. Corset.

If you find that you don't, after wearing for two or three weeks, you have only to return it and get your money back.

ASK YOUR DRY GOODS DEALER FOR THESE CORSETS. 4w

I HAVE GAINED STRENGTH!

"I could have reported a month or two sooner, but I wanted to see if the cure was permanent, and can safely say that I believe it is. I weigh fifteen pounds more than I did when I commenced. I have gained strength and that general enervation has disappeared. I will always remember you as my benefactor."

The original of above is on file in our office. It is No. 56 in a collection of over 2,000 similar letters from patients. We have a

MILLS BROS.,
374 GEORGE STREET.

FRENCH COLONISTS THREATENED.

Colonists in Dahomey, Madagascar and Tonquin Surrounded by Enemies Placed in Extreme Peril

PARIS, April 6.—French colonial affairs are not progressing favorably. In Dahomey King Behanzin has declared war against France in an insolent letter, and his troops are advancing from all sides upon the French possessions and wherever French soldiers are stationed.

The French Government does not intend to attempt to invade the territory of King Behanzin in the interior of Dahomey. It merely proposes to drive them back from the coast.

Troubles in Madagascar.

In Madagascar the situation is so grave that no one dares to talk about it. Indeed, it is evident that an expedition must be sent out, but, as such an expedition must be well manned and would cost a great deal of money, the Government hesitates to take the decisive step until the last moment.

Battles in Tonquin.

Affairs in Tonquin are going from bad to worse. The Minister for the Colonies explained the situation in the Chamber of Deputies. The latest despatch announces that several bloody battles have taken place in districts said to be tranquil.

Instinctive Insanity His Defence.

MELBOURNE, Australia, April 6.—Deeming's solicitor proposes as a defence for his client the plea of instinctive insanity, and has telegraphed to England for evidence of Deeming's madness when a boy.

Deeming recently wrote to Miss Rounsevell asking her to pledge a valuable ring he gave her, in order to assist him in establishing his innocence, but she declined, declaring that she believed him guilty.

Newfoundland Modus Vivendi.

LONDON, April 6.—The British and French Governments have agreed to prolong the modus vivendi in regard to the Newfoundland fisheries over the present season.

Five Cadets Shoot Themselves.

BUCHAREST, April 6.—Five cadets at the military school in Krajova shot themselves dead in their rooms last night. They were members of a suicide club of 19 cadets organized a few weeks ago. Each member then swore an oath to kill himself when his lot was drawn. The Government will make an enquiry.

A Little Learning is a Dangerous Thing.

OTTAWA, April 6.—The Local Government of British Columbia does not appear to be aware of its own powers. A few days ago the publishers of The British Columbian of Vancouver published some strictures on the Local House. A summons was issued for the appearance of Kennedy Brothers, the publishers, at the bar of the House, but they paid no attention to the summons, and the House appointed a committee to enquire into the matter.

On the receipt of the British Columbia papers containing an account of the proceedings Mr. Mara referred the matter to Dr. Bourinot, who replied: "The House should have at once ordered that Mr. Speaker do issue his warrant for the arrest of the person who had refused to obey its order to appear at the bar. Such matters are never referred to a committee. The House has power to punish for contempt. The House appears to be ignorant of its powers in such cases."

Dr. Bourinot added, in conversation, that in such cases a local House had just as much power as the Imperial Parliament.

INTERESTING ITEMS BY WIRE.

New York has several cases of smallpox in its hands.

A box of dynamite has been seized in Malaga, Spain.

J. B. Dayfoot, a former Hamilton merchant, died suddenly in Georgetown, Ont.

Wind demolished the Illinois State building at the World's Fair grounds, Chicago, yesterday.

A bomb exploded in a street in Valencia, Spain, yesterday. Nobody was hurt.

Fourteen French Anarchists have been arrested at Barcelona and will be expelled.

Dr. Froude succeeds the late Dr. Freeman as professor of history at Oxford University.

Unprecedented floods, in which several persons were drowned, are reported from New South Wales.

The customs officers at Tilsit, Germany, have seized a quantity of Nihilist and Anarchist papers.

Hill tribes raiding on the India frontier surprised a party of hands working for an English tea plantation and massacred 38 coolies.

Nine workmen were blown to pieces by an explosion of five tons of gun cotton at the State factory in St. Petersburg yesterday.

David Powell, deputy governor of the Bank of England, was yesterday elected governor in the place of Right Hon. William Lidderdale.

Mr. F. H. Lamay of the White Star Steamship Company has declined to stand as the Unionist candidate for the Exchange division of Liverpool.

Mr. Henry Irving yesterday testified before a committee of the House of Commons on the question of licensing theatres. He protested against legislation tending to lower dramatic art.

The Berlin sentinel who on Saturday last killed a man who had assaulted him in front of the barracks of the 3rd regiment of guards in that city has been promoted to be a corporal.

By a vote of 175 to 151 the British House of Commons rejected a motion in favor of the creation of popularly-elected parish councils to carry out the provisions of the Small Holdings Bill.

Locked-out operatives in the cotton mills at Staley Bridge made overtures to the masters yesterday and offered to resume work on the old terms, but their overtures were declined, and the mills will be run with non-union men.

The Anarchists arrested in Madrid have admitted their connection with the Anarchist body in Paris. A document was found on one of the prisoners containing a draft of the plan of action of the Cosmopolitan Society, according to which the conspirators were, first, to blow up the Chamber of Deputies; second, the Senate; third, the law courts; fourth, the Council of State; fifth, the Ministry of War; sixth, the Royal Palace Chapel, and seventh, the Bank of Spain. All this work was to be completed before May day.

At Haydock, a colliery village near St. Helen's, Lancashire, the vicar resigned and the patron of the living nominated as his successor Rev. Mr. Cater, an American. Archbishop McLagan of York refused to sanction the appointment. An indignation meeting was held, at which the curate, Rev. Mr. Reginald Bertram, said: "We must show the tyrannical wretch that we will not stand his tyranny," and advised the miners to duck the Archbishop. As a result Curate Bertram has been removed from his position.

Death Roll of a Day.

The Earl of Leitrim.

Forged a Clergyman's Name.

KINGSTON, April 6.—Clement Wilkins, who imposed on Rev. J. C. Roper of Toronto, came to Kingston and was befriended by Rev. Mr. Rayson. He rewarded the friendship by forging his name to a promissory note for $5.50 and collecting subscriptions ostensibly for the church fund, which he pocketed. To-day the police magistrate committed Wilkins for trial.

A $200,000 Wedding Gift.

SAN FRANCISCO, Cal., April 6.—It is said here that when Frank Carolan marries the youngest daughter of George M. Pullman, the millionaire car builder will present to the bride as a wedding gift the Colton mansion on Nob Hill. This is the handsomest house on this hill of railway and bonanza palaces. The house and grounds are valued at $200,000.

For Alienating a Wife's Affections.

BERLIN, Ont., April 6.—Waterloo assizes opened to-day before Chief Justice Armour. The principal case to be heard is the New Germany murder trial.

The court was occupied yesterday with trial of the action, Steinmets vs. Funk, for alienating a wife's affections, which was not concluded when the court rose.

A Crash in Lumber.

TORONTO, April 6.—The lumber trade will be surprised to learn this morning that Gill, Anderson & Co., the wholesale lumber dealers, assigned yesterday to E. R. C. Clarkson. The firm has done a large business for some years and were thought to be in an excellent financial condition. Their factory and yards are at 107 Niagara-street and 10 Tecumseth-street.

Porter, Robertson & Co., wholesale lumbermen, who have an office at 33 Adelaide-street east, have called a meeting of their creditors.

A Deaf Mute's Crime.

WATERLOO, Ont., April 6.—William Stenebaugh, a deaf mute, has been arrested charged with assaulting a young daughter of Absalom Merner of Waterloo. The offence took place the last week in February, but it was never ascertained until Saturday night who the alleged guilty party was.

Wants a Definite Reply.

TILSONBURG, Ont., April 6.—Mr. John Law left yesterday for Toronto. He expects to obtain from Mr. Mowat a definite reply to the mission of the deputation that waited on the Prime Minister some four weeks ago to revive a lapsed subsidy in favor of the extension of the Tilsonburg road to Port Burwell on Lake Erie.

Member of The Hansard Staff Dead.

MONTREAL, April 6.—G. R. Marceau, a popular French-Canadian lawyer and a member of The Hansard staff at Ottawa for the past ten years, has just died here at the early age of 34 years.

Oldest Drygoods Merchant in Canada.

MONTREAL, April 6.—Mr. Thomas Muesen, the oldest drygoods merchant in Canada, and 71 years in business, died at his residence, York Place, Sherbrooke-street. He was born in Yorkshire in 1804, came to Montreal when 18 years of age, and had been in business until his death without a failure.

SCRATCHED 28 YEARS

A Scaly, Itching, Skin Disease with Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly relieve and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

MILLINERY
OPENING
—AT—
TURNBULL'S
—ON—
TUESDAY AND WEDNESDAY,
April 5th and 6th.

Our commodious Millinery Show Rooms will be formally opened to display all the Novelties, in Millinery, of the season on April 5th and 6th. We could have opened a week earlier, but thought that the weather might be unseasonable and it also gives us a longer time to make preparations for a more elaborate display. We have taken every advantage to procure New and Cheap Goods in order to make our Millinery Rooms unusually attractive.

SPRING MANTLES AND WRAPS.

There will also be on display a magnificent stock of Imported Spring Wraps and Jackets.

WHITE UNDERWEAR.

Ladies when in the show room will do well to examine our large stock of White Underwear.

ACROSS THE ATLANTIC.

SHOCKING OUTRAGE ON A WELSH RAILWAY.

A Young Girl Brutally Assaulted in a Compartment by a Traveling Male Companion—Deeming on Trial at Melbourne—A Brutal Murder in Belfast.

LONDON, April 7.—Passengers in a compartment of a car attached to a train en route for Ruabon, a town of Denbighshire, Wales, were startled yesterday by hearing piercing shrieks coming from the rear of the car.

Upon looking out they saw a girl about 15 years old standing upon the foot-board clutching the handrail with all her strength.

The train was running at a good rate of speed and it appeared as though she would be thrown to the ground.

With great difficulty and at great risk she made her way along the footboard to the next compartment, where she was taken in. Her clothing was disarranged and she was in a terrible state of excitement.

She was quieted and then explained that she and an unknown man were the sole occupants of the compartment she had left. The man had engaged her in conversation and finally had made improper proposals to her. She rejected his advances, whereupon he had seized her and, despite her resistance and her cries for help, which were drowned by the rumbling of the train, had brutally assaulted her.

When she escaped from his grasp she jumped out on the footboard and shrieked for help. The man became alarmed, and fearing arrest he, too, got out on the footboard and, steadying himself for a moment, jumped off the train.

When the next station was reached police were notified of the occurrence and a seach was made for the girl's assailant. No trace of him was found.

The girl's name is Williams. She was journeying from Llangollen. She says when the man seized her she reached out and tried to pull the alarm cord, but found it was broken, thus leaving her at the mercy of her assailant, whose superior strength rendered her helpless in his hands.

The railway officials believe the man in pursuance of his plan to assault the girl had previously broken the alarm cord so she could not possibly attract the attention of the guards.

DYNAMITE EVERYWHERE.

Anarchy Has Succeeded Influenza as the Terror of Europe.

Ravachol, the Paris Anarchist, is now thought to be a paid spy.

Special judges will try the Spanish Anarchists.

Fourteen suspected French refugee Anarchists were arrested in Barcelona yesterday.

Anarchists in Vienna are applying the torch to buildings.

At Angers, France, a dynamite bomb was placed by the Anarchists upon a window sill of the police depot, the fuse lighted and the Anarchists withdrew. Every pane of glass in the windows of the police depot and adjoining houses was shattered and the depot itself was badly damaged. Every policeman in the building was injured.

The Paris police have been collecting evidence in regard to the alleged plan of certain Anarchists to poison the food of wealthy people. They have proof, it is said, that several of the Anarchists under arrest conspired to poison by wholesale the members of one of the principal Paris clubs.

In the Russo-German frontier towns continual search is being made for Nihilist documents and bombs.

The authorities at Palermo, Sicily, are investigating an attempt to cause a terrible explosion. A bomb of dynamite has been discovered by a patrol of soldiers close to the powder magazine of Monte Pellegrine. Had it exploded it would have occasioned immense damage.

Replying to a question in the British House of Commons, the Home Secretary said he was not aware that France had expelled the Anarchists. If it was probable that any of that class would attempt to come to England the Government would ask for the necessary powers to prevent them.

Terrible Crime in Hungary.

VIENNA, April 7.—A terrible crime is reported from Negyes, in the County Borsod, Hungary. The village postmaster there last year married a girl, pretty but decidedly poor, whom his family, especially his sister, cordially hated. The young wife, who recently became a mother, was constantly being insulted as a pauper not worthy to be one of them. Yesterday, during the postmaster's absence, the sister visited his wife, and, seizing an opportunity, stabbed her twice with a kitchen knife. Finding that life was not then extinct, she ran into the kitchen for another knife, with which she stabbed her victim in the neck and killed her. She then cut her own throat, but, remembering the baby, dragged herself to its cradle and murdered it also. The postmaster on coming home found three corpses in his house.

Montreal Flood Subsiding.

MONTREAL, April 7.—The water in the St. Lawrence opposite Montreal, which owing to the jam has been rising steadily since yesterday, commenced to subside this evening, and at time of writing is going down steadily. The Harbor Commissioner's office reports that there is no immediate danger and that unless an unexpected jam occurs owing to the coming down of the late ice there is no probability of a flood.

Manitoba Redistribution Act.

WINNIPEG, April 7.—The Redistribution Bill received its first reading in the Legislature yesterday. The representation will be increased from 38 to 40 members. The Dauphin District, which is fast filling up with settlers, is one of the new constituencies. Another new constituency will be in Souris District, the boundary line lying between Deloraine and Melita, both of which towns were formerly in one constituency. The three Winnipeg and three Brandon constituencies are unchanged.

Lost His Arm.

DUNNIRK, Ont., April 7.—James McDonald, employed at Prentice & Jordan's, was working near a shingle saw, and while his back was toward the saw proceeded to pull off the bark of a shingle block, when his left arm was thrown in contact with the saw and in an instant the elbow joint was severed, leaving the arm hanging by only a little of the flesh on the inner side. Doctors subsequently amputated it

DOMINION PARLIAMENT.

MR. EDGAR PREFERS HIS CHARGES AGAINST THE CROWN.

Sir John Thompson Announces that Government Does Not Propose to Refer the Motion to a Committee of the House—The Debate Adjourned.

OTTAWA, April 7.—The impeachment of Sir A. P. Caron was brought before the House yesterday afternoon by Mr. Edgar.

Then Mr. Speaker rose to read the motion and was met with prompt cries of "dispense," "dispense," but as Sir John Thompson looked straight before him Mr. Speaker read steadily on to the end, taking five minutes and a half to get through.

Then Assistant-Clerk Rongeau arose and in five minutes and a half spluttered and blurted out an alleged French translation of the motion.

Fifteen minutes being thus consumed, Sir Adolphe Caron, in a speech of one minute and a half, flatly, plainly and unqualifiedly denied the charges in toto. He then took his seat, and was just settling himself comfortably down when Sir John Thompson prodded him in the ribs, and nodded towards the door. Sir Adolphe took the hint and walked out of the House.

Sir John Thompson then arose and for half an hour criticised the motion. His objections to the charges were their vagueness, their not specifying any improper act on the part of the Postmaster-General as a member of the House, and the attempt that was made by the motion to substitute the Privileges and Elections Committee for the election courts.

He dispelled the idea that a member making charges of this nature did so with the penalty of expulsion hanging over him if he did not prove them. The fact that the charges were not proved would not affect the seat of the member making them. He reviewed the motion at length, paragraph by paragraph, pointing out that it did not disclose any misconduct on the part of Sir Adolphe in his capacity as a member of the House, and holding that the House had no right to enquire into the methods by which a member was elected, that having been relegated to the courts. The House should not take from the courts the right to try election cases and settle them itself.

Mr. Laurier made a short but brilliant speech, accusing the Minister of Justice of quibbling and pettifogging conduct, and holding that the House ought to deal with the case. He instanced the Pacific scandal and other cases, such as the expulsion of Mr. Decobain from the Imperial House, to show how similar charges had been dealt with. He charged the Minister of Justice with defending conduct every bit as bad as that of Pacaud and said that Pacaud had been punished by the people, and if the motion was rejected Canada would have to be saved by the people if she was to be saved at all.

Hon. Mr. Tupper said that the intemperate speech of the leader of the Opposition and the cheers with which his followers had greeted it was the best evidence that they were not in a fit condition to act as judges. He denied that the Decobain case was at all parallel, as he was a fugitive from justice before the House took any action in his case. With regard to Pacaud, he had been caught plundering the public treasury, and if it was intended to insinuate that the Postmaster-General had been guilty of any such conduct he challenged the Opposition to make specific charges and he promised that they should be fully and freely investigated.

Mr. Mills contended that charges of this nature should be investigated by the House alone, and not by the courts or by a commission. He reached back to the time of Edward III. and claimed that the Minister of Justice was trying to prevent constitutional usage. He contended that if it was right and proper for the Senate committee to enquire into what Mr. Pacaud did with the money he got from the railway companies it was much more right and proper that the House should inquire into what the Postmaster-General did with the money paid to him by railway companies. He thought that if the motion was voted down it would be an admission that there was something to conceal.

Mr. Ouimet apologized for not speaking English fluently, but thought it was only right that he should defend the honor of his colleague from the attacks made on him. The charges ought to be specific, and in their present form disclosed no offence whatever. Let specific charges be made and the Government would be ready to meet them. He referred to the Pacaud case and said that Mercier was not condemned because he spent money in election contests, but because it was shown that money had been taken out of the public treasury and divided up by Pacaud and his friends.

After a few remarks from Col. O'Brien, Sir John Thompson said that if there was no objection the discussion would be continued after 6 o'clock and a vote taken to-night.

Sir Richard objected and said the Opposition had a good deal to say yet and would not get through. He moved the adjournment of the debate, and the House rose at 6 o'clock.

This throws the debate over until Monday, or perhaps Wednesday, as other business may be gone on with Monday.

After recess the House went into concurrence on the supplementary estimates and adjourned at 11.15.

The tinkle of the division bell was heard in the House for the first time this year at a quarter past 10 o'clock to-night, and soon the corridors were full of bustle and messengers were running in all directions, hunting up members who were out of the House, for after the adjournment of the debate on Mr. Edgar's motion at 6 o'clock, when the House was full, it was not expected that a division would be taken to-night.

The vote occurred on the item to pay Pereira his salary, and during the time the members were trooping in Mr. Joncas sang a couple of verses of Brigadier. The vote was an exceedingly light one, the figures being 86 yeas, 61 nays, a majority of 25. But this is no indication of party strength, as fully 50 Conservatives were absent, while there are only about a dozen members of the Opposition who did not vote.

Messrs. Amyot, Savard and Simard voted with the Government.

Cut His Throat in Jail.

WOODSTOCK, April 6.—James McGregor, a vagrant from Ingersoll who is serving six months along with his wife, attempted to commit suicide at the jail yesterday afternoon. He obtained a table knife and cut an ugly gash in his throat. The man's advanced age and weakness will be against his recovery.

KILLED H S FAMILY.

Blood-Curdling Details of a Shocking Irish Crime.

BELFAST, April 7.—A horrible triple murder was discovered in this city yesterday. Allan Spiller became enraged at his wife, and grasping a hammer or some other blunt weapon he battered her head into a jelly. The unfortunate woman's brains, hair and pieces of her skull were scattered in every direction. Spiller then took a knife and cut her throat, almost severing what remained of the head from the body.

While Spiller was engaged in his horrible work his two children, frantic with fear, were in the room, escape from which had been cut off by the murderer.

After he had killed his wife he turned upon his children and struck them again and again with the hammer. Death soon ended their torture, whereupon the brute inflicted terrible gashes in their throats with the knife.

Spiller has been out of work for a long time and is suffering from depression and mania.

His Terrible Squint.

VIENNA, April 7.—The proposed meeting between Prince Ferdinand of Roumania and the Princess Marie of Edinburgh has, it is reported, been deferred for a short time to allow the Prince to be treated for a strabismal affection of the left eye.

The Prince was formerly engaged to Mlle. Vacaresco, lady in waiting to the Queen. The Czar is said to be opposed to the marriage, while the German Kaiser favors it.

Immigration to Canada.

LONDON, April 7.—Emigration continues good. The Allan steamers have already carried 3845 passengers to Canada this season, an increase of 823 over last year. The other lines have also increased their business.

The Allan liner Sardinian, the first steamer to Quebec, carries a fine lot, mostly for Winnipeg and the Northwest.

The emigration of Germans and other foreigners was never before so excellent.

Everyone connected with emigration here is gratified with the Canadian Premier's statement that a vigorous emigration policy is to follow the transfer of the emigration system to the Interior Department.

King Samory Whips the French.

PARIS, April 7.—News has been received that the West African King Samory, instead of being conquered by the French, has gained a signal success over them, and has massacred Captain Menard, together with hundreds of natives who were engaged in the French expedition. Samory, the potentate of most of the region of the Upper Niger, is a soldier of fortune, who has carved out an empire for himself.

Did Soldiers Murder Her?

LONDON, April 7.—It is believed that the English governess who was murdered at St. Petersburg and whose body was recently found in a cesspool near the barracks is an Accrington lady named Harper, who went out to St. Petersburg some years ago as a governess. Eight of the cavalry soldiers belonging to the barracks where the body was found were condemned to be shot in December for the murder of several citizens whose bodies were found concealed within the building.

Murder Trial At Berlin.

BERLIN, Ont., April 7.—The Reinhardt murder trial was opened yesterday. Mr. Colin Macdougall, Q.C., of St. Thomas, represents the Crown, while the prisoner is being defended by B. B. Osler, Q.C., of Toronto.

It is quite likely this case will occupy another day or even more. There are some 40 witnesses to be examined, and as they are chiefly Germans, unable to speak English, Mr. A. J. Peterson was sworn in as interpreter.

Canadian Apples Attacked.

LONDON, April 7.—The British medical and horticultural papers are renewing their attacks upon the American and Canadian apples because of the alleged use of arsenic in transatlantic orchards.

The Canadian Gazette suggests that Canada invite an eminent British expert to visit the Dominion and set the question at rest.

Groom 73; Bride 83.

LONDON, April 6.—Sir Edward Watkin and Mrs. Ingram, widow of the proprietor of The Illustrated London News, were married yesterday at St. George's Church, Hanover-square. The bride is 83 years old and the bridegroom 73.

Miscellaneous Foreign News.

A tribal war is imminent in Samoa.

The terms of the Sultan's firman to the Khedive are not acceptable to Britain and complications are possible.

Mrs. Montagu, the murderess of her child, is resigned to her sentence and adopted the dress and diet of a convict without a murmur.

Tripoli is greatly disturbed by tribal disputes. The roads are so unsafe that merchants will not venture to send the goods along them.

Timothy Harrington, speaking at a League meeting in Dublin, said that the evicted tenants had been hopelessly abandoned by the McCarthyites.

One of the managers of the White Star Line says his company propose to build soon two steamers which will surpass the new Cunarders.

Despite the millions spent to stamp out this pest the nun moth has reappeared in the forests of South Germany, threatening them with destruction.

The director of labor and chief warden of the State prison at Grenada are to be dismissed for inciting, by undue severity, a mutiny, in which three convicts were killed.

The surviving members of the Suicide Club in the military school at Bucharest are to be tried for murder.

Wall-street, New York, chronicles another story of defalcation and systematic robbery, in which three trusted employes of Dix & Phyfe, note brokers, got away with $70,000. They have fled.

English Domestics Agitate for Short Hours and a Holiday.

WEST HARTLEPOOL, April 6.—The town was the scene of a novel occurrence in the shape of a turnout and procession of hundreds of servant girls, who are demanding not only shorter hours of labor, but a weekly half-holiday in addition.

Attired in neat dresses and carrying emblems of their calling, such as flat-irons, coal scuttles, scrubbing brushes, clothes props and copper sticks (as pieces of wood about three feet long, used for stirring clothes when being boiled, are called), they marched through the streets and created no small degree of excitement and amusement.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal diseases, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

THE DR. WILLIAMS MED. CO.,
Brockville, Ont., or Morristown, N.Y.

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

THURSDAY, APRIL 7, 1892.

ABOUT EARLY SEEDING.

Importance of Getting the Seed Into Soil Under Favorable Conditions.

One of the principal advantages in getting the spring crops in early is that the plants, having a better opportunity to get well established, are in a much better condition to withstand the hot dry weather of summer. Plants that are stunted in the early stages of growth never fully recover, and seed sown under unfavorable conditions will nearly always send up a weak, unthrifty plant, whose defects after treatment will entirely overcome.

With nearly all spring crops, especially in the field, earliness is quite an item in securing the best growth and yield, yet it is rarely good economy to risk a slow, poor germination of the seed and an unthrifty start to grow in order to plant early. Allowing seed to remain in the ground or planting under unfavorable conditions, so that they germinate slowly, causes more or less loss of vitality that, when the best growth and yield are desired, it is best to avoid. Under present conditions if a fair profit is realized a good yield is necessary and in many cases a fair yield can be made to return a fair profit while a light yield will be made at a positive loss. Hence it is important to take every precaution to secure the best growth and yield in order to lessen the cost and increase the profits.

These things are important: Good seed carefully planted in thoroughly prepared soil so as to insure a quick, vigorous germination and growth and a good even stand. A failure in either of these respects will affect the yield. At the start it is best to take every precaution to plant under as favorable conditions as possible, and, with such crops as require it, give thorough cultivation.

In order to lessen the necessity for attempting to work the soil wet or to plant under unfavorable conditions the best plan is to make all of the preparations possible in advance. Get everything ready so that when the soil is in condition to work the seeding may be pushed along rapidly. It is only in exceptional cases that it will pay to attempt to work the soil wet. It will nearly always pay to delay the work a few days until the soil is sufficiently dry. With good drainage in the spring one or two days will make a very considerable difference. One working of the soil when wet will so injure it that a whole season's work afterwards will fail entirely to remove the effect; planting the seed with the soil not in good condition will seriously affect the growth and yield of the crop.

Sow or plant as early as possible, but have the soil in a good tilth, and get the seed into the soil under favorable conditions. This is the first step towards securing a good yield, and much depends upon the way it is done.—St. Louis Republic.

Those who are in the habit of taking an appetizer before meals could not do better, as well for the effect as for economy's sake, than make use of "Indigenous Bitters." As Indigenous Bitters are slightly laxative, those who suffer from habitual constipation, will derive great benefit, by regularly taking them, as they keep the bowels in good order and in that way aid digestion. 1d

---

Constipation claims many victims. Ward off this dread disease by the use of Small Sugar-Coated Burdock Pills when needed.

Cold Weather Trials.

"DEAR SIRS.—This fall and winter I suffered from neuralgia in my face and had the best medical advice without avail. I at last thought of trying B B B., and after using one bottle have not felt any symptoms of neuralgia since. I regard it as a fine family medicine.

J. T. DRUCE, Hamilton, Man.

GRAND RE-OPENING

of Gough Bros. Mammoth Clothing, Hat and Boot Stores.

During the past month these stores have been undergoing extensive alterations, and now, with pardonable pride, we have much pleasure in announcing that these stores are the finest of the kind in Canada. Their aim has been to clothe a man or boy from head to foot. They have added department after department, until now they have reached the goal of their ambition. Each department is replete with all the latest novelties. We will not enlarge on the prices the goods will be sold at, suffice to say they will simply astonish our patrons.

A WORD ABOUT OUR CLOTHING DEPARTMENT!

NEVER in the history of the trade has such an array of fine clothing been placed before a buying public. Our stock this Spring embraces all the latest designs and patterns, and they were made under our own special supervision, the workmanship is of a superior quality. Notwithstanding all this our prices will be found lower than ever. When we came to you as the revolutionizers of the clothing trade, we promised you then that we would benefit the public, and now, after a long trial, have we kept our word? If so, let that be our best guarantee to the public that we will deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please everyone, still to those whom we did not please, as well as to those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes, and our judgment, like any human being's, may err. Still, we try to avoid errors as much as possible, and therefore it is our proud boast when any one had a grievance we never refused to make it right when brought to our notice. This spring we are going to redouble our exertions, and by keeping Good Goods, Nice Goods, square dealing and extremely low prices, we hope to merit a continuance of your generous patronage.

GOUGH BROTHERS,

The Wonderful Cheap Men, 377 and 379 George Street, Peterborough.

DAVID DOBB.

Peterborough Cheesemakers' Association.

Able and Instructive Address Given Before the Association Tuesday Afternoon by Prof. H. H. Dean, of the Ontario Agricultural College—The Old Officers of the Association Re-elected.

The Peterborough Cheesemakers' Association met in the town council chamber Tuesday afternoon at two o'clock. There was a large attendance present. The President, Mr. J. W. Moore, occupied the chair, and in the absence of the Secretary, Mr. Stuart Payne, Warsaw, Mr. M. E. Sanderson was elected Secretary *pro tem.* The minutes of the previous meeting were read and adopted. A communication from Hon. Mr. Dryden, Minister of Agriculture, in reference to the appointment of a milk inspector by the Government was received.

Prof. H. H. Dean, of the Ontario Agricultural College, Guelph, was then introduced by the President to give an address before the Association on milk testing.

Prof. Dean explained his pleasure at being present to address for the first time a council of cheesemakers, many of whom he had met at the great convention held two years since. He said the county of Peterborough was noted for the cheese industry. According to the Bureau of Industries report for 1890, the county had twenty-two factories, 21,692,524 lbs of milk were delivered, making 2,032,000 lbs of cheese, representing a cash value of $185,869. The number of patrons was 1,062. Dairying was a science, it was the most scientific branch of agriculture. In Ontario there were 784 cheese factories representing 10,000,000 cheese. Men had devoted their lives to the dairying interest, Milk was a mysterious and complex compound. The history of milk is the history of mankind. Milk testing was therefore a valuable and scientific study. In 100 lbs of milk there were 87 lbs of water, 3¾ lbs of fat or butter, 3¾ lbs of casein or curd, 75 lbs of albumen, 3 lbs of ash or residuum, and 4 of sugar. No wonder then was it that men devoted so much time to milk testing. It was often found that fat or butter in milk varied from two to ten pounds. Not only does it vary in time of milking or of standing, but the difference is also caused in the quality of the milk. Tainted milk can be detected by its smell, taste and appearance. There was a great variety of tests for tainted milk. Most cheesemakers told by the smell of milk. An authority says milk will coagulate as soon as fermentation sets in. Some of the causes for tainted milk were poor fodder, poor, dirty water used for watering the cows, poor sheltering where cows are kept in, poorly ventilated stables. Another cause was cows breathing bad air, uncleanliness in milking and keeping milk in a dirty place. He advised them to cool milk down by aeration, but the aeration should always precede the cooling. Another cause of tainted milk was poor transportation, miserable dirty waggons. In Western Ontario the factories would not allow the whey to be returned in the cans. The milk of a sick cow mixed up with another cow was a frequent cause for taint in the milk. 1000 tests show that good milk should not coagulate within twelve hours in a normal state. It ought to keep the twelve hours in a temperature of sixty degrees. There were a great many tests for milk. A dairy school would be started in connection with the Agricultural College next fall, and any one might come and see the milk being tested there. The professor then described and illustrated a great many tests. He described Mann's acid test, the Cherry test churn, the oil test churn. One of the necessities of a test in the present day was that it should be simple, so that any person could use it, and it should be cheap. He then described and dwelt at length upon the advantages and benefits of the prescope, creamometer, deuteronometer, Prof. Fiser's lactoscope. He described minutely the Babcock test and compared it with the Bowling test. He strongly recommended the Babcock test as the best one. He described how often tests, in order to ascertain the amount of fat in milk should be made, and strongly recommended the Babcock tests as the simplest, best and cheapest. He recommended that factories pay their patrons by the amount of fat in their milk, so much a pound as ascertained by the Babcock tester and not so much per hundred pounds whether their milk is good, skimmed or water. If factories distributed the proceeds in the manner of a fat basis people might water their milk, skim it, or do anything else they liked, they would only secure pay accordingly.

At the close a vote of thanks was moved Prof. Dean for his able, interesting and profitable lecture by the Rev. Mr. Grant, Lakefield, seconded by Mr. M. E. Sanderson and tendered by President Moore.

The election of officers was then proceeded with and resulted in their re-electing President, J. W. Moore, Peterborough; secretary, Stuart Payne, Warsaw. The meeting adjourned at four o'clock.

Your Blood

Undoubtedly needs a thorough cleansing this season to expel impurities, keep up the health-tone and prevent disease. You should take Hood's Sarsaparilla, the best blood purifier and system tonic. It is unequalled in positive medicinal merit.

Hood's Pills are purely vegetable, perfectly harmless, effective, but do not cause pain or gripe. Be sure to get Hood's.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents. dw

Cure for A Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package. dw

Soft White Hands.

These desirable adjuncts to the beauty of the ladies can be attained by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6d80

At Home and Abroad.

Physicians, travellers, pioneers, settlers, invalids and all classes of people of every degree, testify to the medicinal and tonic virtues of Burdock Blood Bitters, the most popular and effective medicine extant. It cures all diseases of the stomach, liver, bowels and blood dw

If you once try Carter's Little Liver Pills for sick headache, billiousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this. dw

Nothing More Pleasant

Than to feel a soft hand. Any lady using Dyer's Jelly of Cucumber and Roses will always have soft white hands. Try it. W. A. Dyer & Co., Montreal. 6d80

Socrates Poisoned.

Socrates, the great Athenian philosopher, and the grandest of all the philosophers of antiquity, was condemned to die by drinking poison. He expired in the evening, after having conversed with his friends about immortality, and while contemplating the gorgeous magnificence of a Grecian sunset.

The great philosophers and scientists of our day are very differently situated, and can fearlessly give to the world their opinions and views, without fear of being called to account by the powers of the State.

The great Professor Phelps, of Dartmouth College, was a man of science, and gave to the world a discovery that will endear his name and memory in thousands of households. He provided for the weak, nervous, sleepless, broken-down, dyspeptic and rheumatic a remedy that restores them to the blessings of a perfect life. He has given to those who are cast off by physicians as incurable a medicine that builds up the wasted body.

Strong and convincing proofs of the efficacy of Professor Phelps' great remedy come in every day. Many of these proofs are wonderful, astonishing and grand. Men and women make declaration of having been cured after years of intense suffering and agony. Physicians are astonished at the results, and candidly acknowledge that Professor Phelps' remedy possesses powers of a remarkable character.

This remedy of nature, is what is known as Paine's Celery Compound, and has already attained a degree of confidence and popularity never accorded to any other medicine. It goes forth to conquer and cure, and it does this so effectually that it becomes the family remedy after one trial.

As a Spring Medicine it has no equal for purifying the blood; and it gives to the healthy circulation so much needed by all to battle successfully with the coming hot weather. At the present time Paine's Celery Compound stands high above all other preparations offered to the sick and suffering. It has had its testing time and has come off victorious in every case. Just now it is recommended to all as what they require to build up the broken-down body, and strengthen the great nerve system.

The Family Medicine.

Trent Lake, Ont., Jan. 2, 1890.

W. H. COMSTOCK, Brockville,

DEAR SIR:—For a number of years I have used and sold your "Dr. Morse's Indian Root Pills." I consider them the very best for "Family Use," and all my customers speak highly of them.

Yours truly,
R. LAWSON.

Parisian Bouquets.

All the bouquets which the French maidens are now carrying are formed in some peculiar shape. Violets will be arranged in a round ball and tied with wide violet satin ribbon with ends so long that they almost touch the ground. A cluster of lilies of the valley will assume the shape of a huge calla. As a one-night trimming for a gown rosettes are worn made of pink and white rosebuds. White flowers are very much in favor among Parisian debutantes. The blossoms are usually held together by a silver cord.

H. SPEARS.

Made the First Descent.

Some time ago the firemen who sleep in the third story at the fire station, made application for a rope to be used in case of emergency as a fire escape. The only means of descent is by the stairs, and should a fire occur near the stairway of the fire hall, all means of escape would be cut off. The Fire, Water and Light Committee yielded to the request of the fire laddies and an inch rope, seventy feet long, was duly procured. The first one to try his hand with the new "fire escape" was Mr. Geo. Kincaid, foreman in Jas. Donnal's planing mill. Last night when all was dark and still, George fastened the rope securely to the window sill, and hand over hand successfully accomplished the daring feat of gaining *terra firma*. "Forewarned is forearmed."

Hymeneal.

On Wednesday night the residence of Mr. James Sutherland, 88 Albert street, was the scene of a very pleasant social event, the marriage of his second daughter, "Annie," as she is familiarly known, to Mr. Daniel Ryan, foreman of one of the departments of the Edison General Electric Company. The ceremony was performed in the presence of a few invited guests—the wedding was a quiet one—by Rev. George Edwards, pastor of the Charlotte street Methodist church. The positions of bride's maids were filled by Miss Edith Huston of North Monaghan, and Miss Carrie Sutherland, sister of the bride, while Messrs. Robert Sutherland, brother of the bride, and Alex. Miller, performed the duties of "best men." The bride was richly dressed in claret-coloured satin, with the traditional veil and orange blossoms, and the bride's maids wore attire becoming the auspicious event. At the conclusion of the ceremony there were the usual congratulations followed by a sumptuous banquet. The popularity of the bride was shown by the large number of elegant presents of which she was the recipient, which included a fine silver cake basket, from old friends of the family, and a splendid pendant lamp, the gift of the fellow workmen of the bridegroom, whose geniality and good qualities of heart have given him a high place in the esteem of his fellow employes. A delightful evening was spent in social enjoyments and vocal and instrumental music. The newly-wed took no wedding tour but sensibly sought their new residence, ready for their reception, at 45 Albert street, followed by the hearty good wishes of a host of friends.

Oh, Want a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

News Nuggets.

—No police court again this morning.

—The Manufacturers' Committee will meet to-morrow evening.

—Two travelling gentry slept over night in the dark and dreary cells.

—Peterborough Lodge, No. 111, I.O.O.F., hold its regular initiation meeting to-night.

—Corinthian Lodge, A. F. and A. M. held a regular meeting in the lodge rooms last night.

—The dockets at the Spring Assizes, which open here on the 25th inst, promises to be a large one.

—The Belleville *Ontario* has been enlarged from a seven-column to an eight-column journal.

—The directors of the Campbellford Mechanic's Institute are issuing a printed catalogue of the books.

—A meeting of the Lacrosse club will be held in the Olympic club rooms to-morrow night. A large attendance is requested.

—A ferocious dog fight occurred this morning in front of Mr. R. Fair's store about ten o'clock. One of the canines was badly bitten.

—Among the latest acquisitions to the law library is a handsome picture of the Court of the Supreme Judges, Toronto. The group of notables is much admired.

—The house cleaning season has begun in earnest. Husbands and families will now live in mortal agony of the broomstick for the next three or four weeks.

—A meeting will be held soon when representatives of all the baseball clubs in town will be present. The plan of forming a league will be considered and discussed.

—A regular meeting of Carswell Lodge I. O. G. T. will be held to-night. The newly-formed juvenile temple will meet at 7 o'clock sharp in the R.T. of T. Hall, Hunter street.

—The Board of Trade will hold a meeting to-night in the council chamber. Important matters in connection with the prosperity and business of Peterborough will come up for discussion. There should e large attendance.

—The scraping of the streets is about finished. Good work has been done. The refuse is now being drawn away in wagons and dumped into Spalding's Bay. With fine bright weather like to-day, the roads will soon dry up.

—Several complaints are still heard from residents on the North end of George street of carters and teamsters leaving their waggons standing out over night along the side walk instead of taking them in the yards. The practice is a dangerous one and should be stopped. When the yards are large enough why not take them inside?

Timber Moving.

A large quantity of timber is now being shipped over the Grand Junction rail. It is the product of the forests of the Georgian Bay district, and is destined for the bay at Belleville, where it is boomed and rafted, and will afterwards be towed eastward. Three trains comprising forty-five carloads pass over the road daily.

Had his Arm Injured.

To-day noon as a G.T.R. freight train was standing in the yard on Aylmer street, between King and Charlotte streets, Doris Ball, a young lad 10 years of age, attempted to cross between two cars. While in the act the engine started. The result was that the bumpers closed and caught his right arm. The forearm was severely cut, and the elbow bone broken. Dr. King attended to the lad's injuries, which are both serious and painful.

Bradburn's Opera House.

"The Bottom of the Sea" is said to be the best spectacle on the road this season. The company is a competent one, if all reports are true, and the stage mechanisms are a novelty to the theatrical world. The fight between a diver and a devil fish is very realistic, as are the assassination in the water and the laying of the cable. It comes to the Bradburn Opera House Saturday, April 9th. The success in arranging the production of this play has been remarkable. dtf

Monthly Prizes for Boys and Girls.

The "Sunlight" Soap Co., Toronto, offers the following prizes every month till further notice, to boys and girls under 16, residing in the Province of Ontario, who send the greatest number of "Sunlight" wrappers:—1st, $10; 2nd, $6; 3rd, $3; 4th, $1; 5th to 14th, a Handsome Book; and a pretty picture to those who send not less than 12 wrappers. Send wrappers to "Sunlight" Soap Office, 43 Scott Street, Toronto, not later than 29th of each month, and marked "Competition"; also give full name, address, age and number of wrappers. Winner's names will be published in *The Toronto Mail* on first Saturday in each month.

Session of the County Court.

On Tuesday the regular quarterly sitting of the County Court without a jury was held before Judge Weller. Pat'k Crowley of Otonabee brought an action for alleged unlawful seizure of his goods under the distress clause of a mortgage held by the defendants, the Trust and Loan Company. The plaintiff claimed that the defendant's should have left the usual statutory exemptions when making the seizure. Evidence was taken and the argument adjourned until to-day. Mr. E. A. Peck was the plaintiff's solicitor and Mr. E. B. Edwards appeared for the defendant. This morning the case was further argued before His Honor Judge Weller. The judge said he would allow the plaintiff $100 and costs, but would reserve formal judgment until Saturday.

Into Comfortable Quarters.

The Improvements to Town Clerk Cobb's Office Completed—The Mayor's Sanctum is also Retouched with Paint and Paper.

The improvements which the Town Council, about a month ago ordered to be made in the Town Clerk's office, have been hardly going on for the past two weeks, and to-day what a change has been made. The visitor as he steps inside the office and sees the model of elegance, ease and convenience which now awaits the genial clerk on all sides and at every turn, can scarcely realize the complete transformation that has taken place, from the former dingy and confined apartments within so short a time. Heretofore where everything was dark, dingy and unwholesome; by the renovations and alterations recently completed, the office is now bright, cheery and inviting. As you enter the door, to the left is a large walnut counter and desk combined which will be Mr. Cobb's public office. A fine, light airy partition, finished in walnut and adorned with a neat moulding, separates the public from the private office of the clerk. Two glass doors allow egress an ingress into these apartments. A large floor oil cloth has been laid down in the private office, the desks have all been stained, the fire place in the Mayor's office and the large safe door in the clerk's japanned. Both the Mayor and the clerk's office have been artistically painted in yellow shade, while the walls and ceilings have been elegantly paper and trimmed with a rich deep border. Mr. H. Watson did the painting, papering, frosting and staining. The workmanship and finish reflect great credit upon him. Messrs. Hall, Innes & Co., furnished the large oil cloth which covers the floors, while Messrs Craig & Mooney did the upholstering work. The fittings throughout were furnished by Mr. E. Courtney. The paper and bordering were supplied by the Peterborough Bookstore. A large commodious table covered with oilcloth, and furnished by Mr Courtney, has been placed in the clerk's private office. It is for the use of the councillors in all their committee meetings. One great fault in the old office has been remedied, that of having to go behind the counter into the clerk's office before getting into the mayor's sanctum. This nuisance has been done away with by the much needed alterations. Mr. Cobb has now as neat, commodious and comfortable office as any town clerk in Canada. The council are to be congratulated upon their perspicacity and enterprise in the matter.

Discounting the Coming Wheat Crop.

Gough Bros. Special Crop Forecast.

Gough Bros.' special agent at the Weather Bureau has presented his special report, and he predicts a splendind wheat crop as well as a big crop of all kinds of grain, the coming season. And in fact the splendid condition in which the winter wheat has come through the winter justifies this prediction. And the wonderful cheap men have made special preparations for this event. Having received a hint from their weather prophet, they determined to lay in the largest stock of goods ever got together in Peterborough. To do this in their old premises was impossible, so their shops were enlarged and thoroughly refitted for their increased stock. And what a stock it is, immense, unparalleled, collossal and complete. Every department overflowing with splendid new goods. Hats and caps for men and boys in endless variety. Boots and shoes in boundless profusion. Stocks upon stocks of ready-made clothing for men, youths and boys. A peerless galaxy of gentlemen's furnishing to fit every taste and style, from the dandy to the honest man. And the prices they are right down to the ground—low enough to make a "sheeny" shiver. A "sheeny" may be a puzzle to the honest farmer, but if he will call at Gough Bros. he will get an explanation that will make his heart jump like a two-year-old colt turned out to grass for the first time after a hard winter.

Personal.

Messrs. Wm. Adams and Chas. Bennett left last evening via. C.P.R. for Winnipeg.

Mr. John McGee, of Parry Sound, is visiting with his aunt, Mrs. Alfred Darling, Water street.

Mr. Harry Stenson, son of Mr. James T. Stenson, has gone to Toronto to put in a course at the Horological Institute, devoted to the study of the art of recording time by mechanical means. His aim is to perfect himself in the watchmaking business. He has spent four years in town at the business with Mr. W. A. Sanderson, and is determined to make good use of the means, which the wider field and larger facilities a great city and a special institution afford.

Syrup of Figs.

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

Miss Mattie A. Cobb
of Providence, R. I.

Undoubtedly many diseases may be prevented if the blood is kept pure and the general health-tone sustained by the use of Hood's Sarsaparilla. When this is done, the germs of

La Grippe, Diphtheria

Pneumonia, Scarlet and Typhoid Fevers, Malaria, etc., cannot lodge in the system. After all such prostrating diseases Hood's Sarsaparilla has been found of inestimable value in restoring desired health and vigor, and purifying the tainted blood.

For example, read the following from Miss Mattie A. Cobb of Providence, R. I., and her mother. Miss Cobb is a young lady of 18, a

Picture of Health

and is in the front rank in her studies in the High School. Her father is a well-known police officer:

"Messrs. C. I. Hood & Co.:

"I write to tell how much good Hood's Sarsaparilla has done for me. Sometime ago I had diphtheria and was sick for a year afterward, being

Weak, Blind and Helpless

I used one bottle of Hood's Sarsaparilla and it made me real strong." MATTIE A. COBB, South Chester Avenue, Providence, R. I.

"As my daughter wanted to write how well she liked Hood's Sarsaparilla, I thought I would say a few words. I think it is the

Greatest Blood Purifier

ever brought before the people. Some of my friends say 'go away with your medicine.' I said the same once, but since my daughter has taken

Hood's Sarsaparilla

My opinion has changed considerably." MRS. GEO. N. COBB, Providence, R. I.

HOOD'S PILLS do not weaken the system like other cathartics, but actually tone up and give strength to the patient.

LeBrun's Old Stand, George St.

"The Great Hymns of the Church."

Rev. Canon Dumoulin Deals Eloquently With the Subject—Their Origin, History and Significance—Hymns Inspired and Uninspired—A Delightfully Instructive Address.

There was a large congregation at St. John's last night. The service was conducted by Rev. Mr. Davidson and Rev. Mr. Loucks. At the conclusion of the service Rev. Canon Dumoulin, rector of St. James' Cathedral, Toronto, gave his eloquent lecture on the subject of "The Great Hymns of the Church." After a brief reference to the hymns of the Jewish dispensation—the song of Moses, of Deborah and the Psalms, of David and other Psalms, the speaker pointed out that all the Psalms were not by David, but his personality was strongly stamped generally on the Jewish Psalter, which was so extensively used in the Church of the past and present days. Referring to metrical hymns the speaker said the Church had come into a grand inheritance in this regard—some

GRAND AND NOBLE HYMNS,

and some as poor as poor can be. The Church had made use of a few metrical hymns, and two had been incorporated into the Ordination Service, but metrical hymns had not been incorporated as an essential element into the Church service. "The Great Hymns of the Church," were of two kinds, inspired and uninspired. Of these the latter were dealt with first, "The Glory be to the Father, etc., had been sung in the Church from time immemorial, and at the time the Arian heresy was stamped out of the Church, was incorporated into the Church service in its present form. This was one of the oldest uninspired hymns of the Church and was rich in historic value and association.

The next oldest of the uninspired hymns was the hymn, *Benedicite, Omnia Opera Domini*—"O all ye works of the Lord bless ye the Lord. It came down to us from Old Testament times and was found in the Septuagint version of the Scriptures, where it is inserted in Greek between the 23rd and 24th verses of chap iii. of the prophet Daniel. It was the song of the three Hebrew children, and their names, in the Hebrew form, occurred in the last paragraph of the hymn instead of the Babylonish names that the captivity had placed upon them—Shadrach, Meshach and Abed-nego. The speaker drew a beautiful picture of the grandeur and beauty of this hymn as sung by the three Hebrew children in the midst of the burning fiery furnace — the triumphant burst of praise, founded on trust in God, for a mighty deliverance. It was used now in the Church service after the First Lesson in the service of Morning Prayer. The third great uninspired hymn of the Church was the *Te Deum*, perhaps the greatest of all. It had its origin in the year 387, when St. Augustine, who had been converted under the preaching of Ambrose, Bishop of Milan, came to the latter to be baptized—on Easter even. At the conclusion of the ceremony, St. Augustine, filled with joy and thankfulness, burst forth with the first sentence of the *Te Deum*—"We praise Thee, O God, we acknowledge Thee to be the Lord"; the bishop answered with the next, and so on, antiphonally, to the end. This grand and noble hymn was sung in England at the time of the destruction of the Spanish Armada, and was used on all occasions of great rejoicing.

The next uninspired hymn was the *Ter Sanctus*—"Therefore with angels, etc"—used in the communion service, the highest and holiest worship the church could engage in on earth.

The *Gloria in Excelsis Deo*, the speaker said, corresponded to the hymn used in the celebration of the Jewish passover, and was as old as the second century. Its prototype was sung at the last supper of our Lord—"And when they had sung an hymn"—this was the hymn sung. The speaker, after paying an eloquent tribute to the beauty and grandeur of the uninspired hymns, the grand lessons they taught and the sublime, historic and sacred associations that surrounded them, went on to deal with the inspired hymns—three in number. The "*Magnificat*," the hymn of the Virgin,

THE GREAT HYMN OF THE INCARNATION,

was the greatest of the inspired hymns, both in the grandeur of its words and the glorious depth of its meaning and significance. The *Benedictus*, the hymn of Zacharias, was especially interesting as it preserved the continuity of the Church, by forming the link between the Old and New Testaments—between the last prophecy of the Old and the first of the New Testament. The *Nunc Dimittis*, song of Simeon, sung at the close of his life, was appropriately used at the evening service of the Church. The speaker concluded an able and interesting address by pointing out that "The Great Hymns of the Church" had their distinct features. Every one had a personal history, and grew out of some event or events in the lives of persons who have lived. These great hymns were in the second place objective—referred to one great object—they celebrated the glorious perfection and attributes of God, which was the true ingredient of every

LASTING AND WORTHY SONG OF PRAISE,

and they were a rebuke to the unseemly and irreverent familiarity of many of the metrical hymns, which were almost purely subjective, dealing with "my" feelings, "my" emotions, "my" hopes, "my" failings, and "my" aspirations. These might be very appropriate for private devotion and meditation, but were generally unsuitable to public worship. The more "The Great Hymns of the Church," which had been dealt with, were studied, the more they would be seen to be model hymns, and could not be dispensed with; but if every metrical hymn in use were swept away at a stroke, the service of the Church would not be altered. The metrical hymns were useful if they were judiciously selected with reference to subserving the one grand object of worship and praise. The speaker concluded his interesting, instructive and eloquent address by praying that the congregation might acquire a true appreciation of "The Great Hymns of the Church," and thus be able to "sing with the Spirit and with the understanding also."

The next address, on Wednesday, April 13th, will be given by Rev. W. C. Allen, Millbrook, on "God's Gift to Man."

Efficient Officers.

The Directors of the P. A. A. A. Meet Last Night and Elect Officers for the Ensuing Year.

The directors of the Peterborough Amateur Athletic Association met yesterday afternoon at five o'clock in the store of Mr. Wm. Lech. Those present were Dr. Burnham, W. A. Sanderson, R. B. Rogers, Fred Heap, W. J. Drope, Wm. Lech and Dr. Brennan. The election of officers was at once proceeded with and the following is the result:—

HONORARY PRESIDENT—Dr. Halliday.
PRESIDENT—Dr. Geo. Burnham
FIRST VICE PRESIDENT—W. A Sanderson.
SECOND VICE PRESIDENT—Dr. Brennan.
SECRETARY—W. E. Lech.
TREASURER—G. A. Schofield.
COMMITTEE ON GROUNDS—Dr. Burnham, Fred Heap and Dr. Brennan.
COMMITTEE ON PRINTING.—W. E. Lech, W. J. Drope and W. A. Sanderson.
COMMITTEE ON SPORTS—Dr. Brennan, W. A. Sanderson and R. B. Rogers.
COMMITTEE ON ENTERTAINMENT—W. J. Drope, W. E. Lech and W. D. Parker.
COMMITTEE ON FINANCE—W. D. Parker, G. A. Schofield and Dr. Burnham.
COMMITTEE ON PROPERTY—G. A. Schofield, Fred Heap and R. B. Rogers.
PATRONS—Messrs. H. Le Brun, D. W. Dumble, Dr. Boucher, Chas. McGill and Cortlee Fessenden.
PATRONESSES—Mesdames (Dr.) Burnham, Jas. Dennistoun, H. C. Rogers, E. A. Peck and Jas. A. Hall.

The meeting then adjourned until Friday afternoon at 4.30 o'clock, when the executive and directorate will meet at Mr. Lech's store for considering and discussing the fees and finances of the association. With such an excellent staff of officers as those elected in at night there is no reason why sports and games of all kinds should not boom this summer.

Weatner Notes for March.

After a seven weeks absence I now beg to shortly give a few sketches of March which on the whole has been a fine month, nothing of any consequence to note, continuing mostly fine and clear, but cold at night and bright during the day, with none of the fierce gales, heavy snow storms and drifted roads peculiar to March. For, although snow fell on 7 days it only fell to the depth of 3 inches. Rain on 5 days to the depth of 83-100 of an inch.

Only twice during the last ten years had we less rain than the last March—that of 1885—when there was only 15-100 of an inch, and in 1889 no rain, but rain and snow combined. It is the lightest downfall during that time. The lowest thermometer readings were on the 3rd and 12th, and each only 2° below zero; the highest on the 23 d being 38° above, leaving the mean temperature of the month at sunrise at 23 13-31°. Auroral lights, 11 degrees, on two nights, solar halo once, lunar halo once. Some sharp white frost and fog on 2 mornings. The following are the different points from which the wind was blowing at sunrise during the month respectively, namely: North-west 14 days, north 2 days, south-west 2 days, south 3 days, east 2 days, south-east 3 days, north east 1 day, and west 4 days.

THOS TELFORD.

$5.00 Per Month—Medicine Free.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5 00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5 00 per month and medicines free.*

These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by mail but at least one personal interview is preferable.

All correspondence should be addressed to Mr. John Marry, Manager, 271 Jarvis street, Toronto

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

Sewerage, the Council and the Board of Trade.

To the Editor of the Examiner:

SIR,—The sewerage committee met on Tuesday evening, bless them! What they did was to discuss in their aldermanic and majestic manner, while the people hold their noses and bury their children. I believe if a deputation consisting of the worthy Mayor, Mr. Cahill and Mr. Bradburn went to Toronto they would be able to strengthen their minds on this vital question, and to help the council to make up their minds to submit the question to the people. What is the Board of Trade doing? Can't they do something? Some of the members are the best men in town.

Yours, etc.,
MALARIA.

The Sewerage Question.

To the Editor of the Examiner:

SIR,—The unfair communication in yesterday's *Review* over the fictitious name of "George Street," in reference to sewerage will, I trust, be a sufficient excuse for me for asking a small space in your columns.

I might say that from the beginning my desire, and the desire of the whole council, has been that the people should be in possession of all possible information on this important question in order that they may be in a position to decide intelligently on so far-reaching a subject.

The first step then was to engage a sanitary engineer, competent to advise as to the best means of attaining the end in view. Mr. MacDougall, of Toronto, who is well and favourably known in his profession, was the person selected by the council of last year, "which had brains." In due course he made his report, and in order that this should be in the hands of every citizen who desired to inform himself on the subject, 600 copies were printed for distribution. Then a public meeting was called for the purpose of eliciting public opinion, which meeting, it is to be regretted, was poorly attended. Mr. Hill and Mr. Dumble were the only speakers at the meeting—except Mr. Lech, who made a few remarks. Mr. J. W. Fitzgerald, in his letter to the EXAMINER, complained that he did not have an opportunity of addressing the meeting, which no doubt was owing to his well known modesty. Mr. Fitzgerald in the letter referred to, started by giving the council a black eye in the first round, and then retired to his corner where he remained "neutral." I believe there is something in the point raised by Mr. Fitzgerald, and I venture to think he is not doing his duty to the public in not following it up with further remarks and suggestions, information as he promised to. The next to appear was "Stinks" who shied his "stink" pot at the council, aiming the big end at my humble self. And now comes "George street" in the same strain. I fancy the most casual reader has come to the conclusion that "Stinks" and "George street" bear the same relation to each other as Dr. Jeckell and Mr. Hyde and by the way is it not surprising that such admittedly clever men as Mr. Fitzgerald and Mr. Stinks should not waste their time in abusing the council. There is nothing original in it. It is as old as the hills. Better gentlemen, give some practical suggestions as to how the sewers shall be paid for without overburdening the people with taxation. It appears to me, Mr. Editor, that many still imagine that the proposed system of sewerage provides for drainage also. this is not the case. The sewers are intended for sewerage only, drainage and garbage must be removed by other means.

I may add that the Committee on Sewerage has not been idle in this matter, as some may suppose. They have been endeavoring to secure the best possible information with the view of submitting a by-law to the ratepayers at an early date which they hope will meet the views of the majority. Undue haste now and the rejection of a by-law by the people, instead of forwarding the scheme, would kill it, perhaps for years, while if the plan is well considered and a fair basis of location arrived at, the chances would be in favor of the scheme. It would be very inadvisable—in fact foolish—to rush into an expenditure of some $167,000 without first considering the proposal from every possible point of view.

Yours truly,
THOS. CAHILL,

Peterborough, April 7th, 1892.

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flushes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

The great Chronometer and Regulator in chief, to the whole world, is the earth itself. Turning upon its axis once in what we call one day of twenty-four hours, the sun appears to cross the meridian once in that interval and is the only perfect time known. But the great objection to the sun as a family timepiece is, we can't always hustle around looking for him to judge the time by, and it is too big to carry around with us, so we have to call in the watchmaker's aid to find the correct time. Who is your watchmaker? Try R. W. MUNCASTER.

Hugh McIndoe,

REAL ESTATE AGENT.

328 Water Street, Opposite the Market.

Mr. J. Hoyes Panton, M.A., F.G.S., of the Ontario College, continues his elucidation of weeds in the current number of the Farmer's Advocate, as follows:

Capsella Bursa-pastoris (Shepherd's purse). Fig. 1.

This is one of the most common weeds we have, but it is never considered difficult to overcome. It grows on all soils and in all climes. It is ready to occupy any neglected spot, but as soon as cultivation begins this annual leaves the ground to plants of more economic value.

FIG. ONE.

Lepidium Virginicum (Pepperwort).

This annual is not quite so common as the preceding one. It is also an occupant of neglected spots. The plant is about a foot high, presenting a tree-like appearance, with its main stem about nine inches in length, branching much at the top. When mature it bears innumerable small, round pods, each with a slight notch at the top. These small pods, not larger than a shot, are on stalks about one-fifth of an inch in length, and arranged very thickly upon the branches. The tree-like form of the plant and its numerous pods serve to identify it without much difficulty.

Thlaspi arvense (Penny-cress), Fig. 2, is a more serious weed than those already referred to in the same order. It is very common about the Red River, Manitoba, where it is called French weed, and in some cases has quite overrun the fields. Plants of this species have been received at the college from several places in Ontario. It has likely reached our province in seed wheat from Manitoba. The following description will be of service in identifying it: Pods circular, flat with broad wings, and a deep notch at the top; leaves oblong, arrow-shaped at the base, toothed and smooth; flowers white and very small; plants about a foot high. It derives its name, penny-cress, from the size and shape of its seed vessels, which resemble to some extent the old silver penny. It is an annual, and, no doubt, can be overcome by thorough cultivation.

FIG. TWO.

Sinapis arvensis (Charlock or Mustard), Fig 3.

This is one of the worst weeds found on the farm, and is, therefore, entitled to considerable notice in this description. Unfortunately, many farmers do not consider this weed serious until it has got a good start in the fields. They imagine that the fanning mill can separate it from the grain, and, consequently it is not to be viewed with alarm. Such forget that the plant is robbing the other plants of their food, and also taking up room which should be occupied by a more profitable crop. By such indifference it will not be long before the field will produce more mustard than other plants. The plant is an annual and produces an enormous number of seeds, which can resist adverse conditions that would destroy the vitality of most seeds. They have been known to grow after being buried for a period of fifty years. Two things should be remembered in dealing with this pest:

FIG. THREE.

1. Allow no plants to mature and ripen seeds.

2. Cultivate so as to make what seeds are in the ground grow and destroy the young plants as soon as they appear, because at this stage they are very tender.

Remedies: 1. Immediately after the crop is taken off, harrow so as to encourage the growth of seeds near the surface. A week or two after harrow again; this will destroy many if not all the young plants. Next, use the cultivator; this will bring more seeds to the surface. These will germinate and a new crop of young plants appear. If the season will permit, gang plow to kill these, and bring new seeds up, and afterwards plow in the fall; if any young plants appear after this, the frost will kill them.

Harrow in the spring to start a new crop, if any of the seed near the surface failed to germinate in the late fall; follow with the cultivator in a few days and after a time use the gang plow. Suspend operations for a while, then cultivate and sow buckwheat to be plowed under when about to flower; harrow well and roll, cultivate after a time at intervals, until it is time to sow fall wheat. If this fails to get rid of all, pull the plants before seeding, and follow with a crop hoed thoroughly.

2. Some vary this by harvesting the buckwheat and harrowing, etc., much as described in the first part of the preceding method. The next season manure well and grow a green crop, which must be thoroughly hoed and followed by fall wheat.

3. Summerfallow for one season, and then grow a hoed crop.

4. Follow a system of rotation in which spring crops are not frequent, and keep weeding out the mustard as soon as its well-known yellow blossoms appear. In all cases sow clean seed. It is claimed that the seed of the wild mustard is injurious to cattle.

The success of Hood's Sarsaparilla is because it possesses true merit, and no claims are made for it which is not fully supported.

Unsightly pimples, blotches, tan, and all itching humors of the skin are removed by using D. Low's Sulphur Soap. dw

The Japanese Wrapper.

The silk Japanese wrapper is now at the head of the wrapper list. It is made of quilted India silk, with a thin layer of wadding between the wrapper and the lining. A silk cord is worn about the waist, and up and down the front the wrapper is embroidered. An exquisite Japanese wrapper is made of quilted pale green India silk, lined with violet silk. The layer of wadding is fragrant with the delicate perfume of violets. This wrapper is elaborately embroidered with dark purple violets, cuffs being formed of rows of embroidered violets. A violet silk cord, with long tassels, is worn about the waist.

A Calling Costume.

An artistic calling costume is fashioned of tan lady's cloth, the skirt being plain with a short train and finished with a band of dark green feather trimming.

Above the feather trimming is an elaborate design in irridescent passementerie in all shades of green. The sleeves are high upon the shoulder and almost a solid mass of passementerie, while at the wrist is a narrow band of feather trimming. The waist has a round yoke outlined by a narrow band of green feathers. Falling from the feather trimming is a deep bertha of ecru lace. A band of feather trimming is also worn about the neck.

IT RESTS THE BACK

Most women know all about the misery of washday. To many it means Backache, Sore Hands, Hard Rubbing over a steaming tub, and long hours. This falls to the lot of those who use poor, cheap, and injurious soaps.

HOW DIFFERENT IS THE RESULT WHEN **Sunlight SOAP** IS USED

This Soap does away with Hard Rubbing, Tired Backs, Hot Steam, and Sore Hands. It brings comfort to millions of homes, and will do so to yours if you will use it.

KEPT CONSTANTLY ON HAND

"August Flower"

Dyspepsia. There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we **Indigestion.** have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out **Constipation** of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am, I take one or two teaspoonfuls before eating, for a day or two, and all trouble is removed." ●

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cumines, Esq., a leading druggist of Welland, Ont., speaks for itself:

Messrs. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMINES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

THE KINGDOM OF WOMEN

POINTERS WHICH SHOW PROGRESS ALL THE WORLD OVER.

An Excellent Method of Making Soft Gingerbread—A New Parasol—A Woman's Ideal Lover—The Japanese Wrapper—Calling Costumes.

The women of Spain are taking a hand in public matters, for the report is that the continuance of the strike at Bilboa is chiefly due to women, inciting the strikers not to yield.

Jean Nelson won the first place in the oratorical contest at De Pauw University, which has 1,200 students. She is the only woman who has attained this distinction, and she is but 19 years old. Her subject was "Industrial Freedom."

Hulda Friedricks, a young German woman, has been engaged by the Pall Mall Gazette to make a tour of the United States for the purpose of writing up the social institutions of the country, especially their effect on woman's condition.

The fact that women in East India are making public speeches is a striking evidence of the rapid strides of progress. In the Indian National Congress the women are recognized, and the consensus of thought from the standpoint of both sexes is considered potent.

Soft Gingerbread.

For a very nice, melting gingerbread, made without eggs, butter or milk, use half a cupful of fat from the frying kettle, a large cupful of dark molasses, a teaspoonful of ginger, one of soda, half a cupful of hot water, and flour enough to make a stiff batter. The only difficulty is in getting the batter stiff enough, yet not to stiff, and in good baking. The oven must be hot, but not so furiously hot as to scorch. All cakes made without eggs require to be somewhat stiffer than when eggs are used. It is difficult to give exact quantity, as both molasses and flour vary somewhat in this respect. Good ginger cookies are made after the same recipe. Of course they must be made stiff enough to roll out without sticking. For drop cakes substitute cloves and cinnamon for the ginger and make soft enough to drop from the spoon and hold shape without running together in the pan. Bake in quick oven. Three or four raisins or currants stuck in the top of each will please the children, for whom these are all good, wholesome cakes.

New Parasol.

An exquisite parasol, of Parisian designs, of pearl gray chiffon, with a long handle of mother of pearl tied with a wide pink satin bow. Around the top of the parasol is a tiny ruffle of pink chiffon; below this is a deeper ruffle of pearl gray chiffon. The body of the cover is pointed with pink and white sweet peas. Two deep ruffles, one gray and one pink, complete the effect.

This parasol was carried with a gown of light gray cashmere trimmed with pink chiffon. Gray suede gloves were worn, stitched with pink silk, and the bonnet was made entirely of pink sweet peas and a few green leaves. At the back was a bow of broad pink velvet ribbon, the ends of which fell almost to the bottom of the skirt.

What a Woman Wants a Lover to Be.

She wants him to be tender, and loving, and good.

She wants him strong—that is where the athlete wins.

She wants him to be brave and daring, even with her.

She wants him to be generous, and sometimes he has to save his pennies to do it.

She wants him to be superior to her in will power and intellect; because she must admire him.

She wants him to think she is the sweetest, the prettiest, the best, the dearest girl in the world, and she wants him to tell her so every day in the year.—Music and Drama.

As a spring blood remedy there is nothing equals Dr. Williams' Pink Pills. They supply in a condensed form the elements necessary to enrich the blood, stimulate the nerves and build anew the system enervated by being "housed up" during the winter months. Sold by all dealers or sent on receipt of price—50 cents a box or six boxes for $2.50—by addressing the Dr. Williams Med. Co., Brockville, Ont., or Morristown, N. Y. dw

For several years I was persistently annoyed with an excessive accumulation of Dandruff and although using various preparations recommended and shampooing regularly once a week, no material relief was realized until my attention was called to Anti-Dandruff, which has produced unlooked-for results in my case, four applications removing every particle of Dandruff, and as a specific for this trouble it certainly has no equal.

Yours truly, W. T. RODINSON,
Can. Pac. Rys. Telegraph Co., Montreal, P. Q. dw

Cure For Dyspepsia.

As is well known, this troublesome complaint arises from over-eating, the use of too much rich food, neglected constipation, lack of exercise, bad air, etc. The food should be thoroughly chewed and never bolted or swallowed in haste, stimulants must be avoided and exercise taken if possible. A remedy which has rarely failed to give prompt relief and effect permanent cures, even in the most obstinate cases, is Burdock Blood Bitters. It acts by regulating and toning the digestive organs, vitalizing and restoring moss and increasing the system. As a case in point we quote from a letter written by Mrs. L. A. Kuhn, of Hamilton, Ont.: "Two years ago life seemed a burden. I could not eat the simplest food without being in dreadful misery in my stomach, under my shoulders and across the back of my neck. Medical advice failed to procure relief and seeing B.B.B. advertised, I took two bottles of it, and have been entirely free from any symptoms of my complaint since." This gives very conclusive proof of the efficiency of this wonderful remedy. dw

It is a Very Sad Thing

To see young and beautiful people die when they might just as well live and enjoy health and strength. Many who suffer with coughs, colds and lung troubles, leading to consumption, imagine there is no hope for them, when in reality there is every hope if Miller's Emulsion of Cod Liver Oil is taken regularly. Spread the news everywhere that this great emulsion will make flesh and blood, cure coughs, colds, bronchitis, sore throats and lung troubles tending to consumption. In big bottles, 50c. and $1, at Peterborough Drug Store. dw

ACCIDENTS

THE "SUN LIFE"
ASSURANCE CO. OF CANADA.

HEAD OFFICE, - - - - MONTREAL.

The year 1891 has been the Banner Year in the History of the Sun Life.

The Gross Applications for the year in the Life Department amounted to the enormous total of $5,901,000.00, an amount greatly exceeding that touched by the Company in any previous year, and it is believed no other Canadian Company has ever totaled alike amount in any one year.

THE SURPLUS PROFITS

have increased to even a greater extent than the new business, thus plainly indicating that the unbounded confidence placed in this great financial institution by the Canadian public, has not been misplaced.

FIRE COMPANIES REPRESENTED:

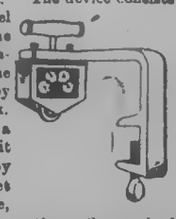
SCIENCE & PROGRESS

An ingenious piece of mechanism for measuring fabrics of all kinds is shown in the accompanying cut, from a recent issue of Textile Industries. The device consists of a measuring wheel which travels over the material to be measured and records the number of yards by means of clock work. It can be used as a hand measure, or it may be attached by means of a bracket and clamp to a table, as shown in the illustration. One end of the fabric is brought under the measuring wheel, and after being made to press lightly upon the fabric, the latter can be drawn forward over the table as rapidly as desired, the index dial indicating the exact measurement of the material so drawn forward under the wheel. The device is found to be of great service abroad for stock-taking purposes, saving much time and labor.



HOW USED.

A Burglar Preventative.

A recent ingenious invention is an express car designed by an Ohio man, the object being to guard the expressman in charge and to enable him to keep out intruders. The messenger with his safe is ensconced in a shot-proof compartment in the center of the car. By means of levers, the doors to this compartment, as well as those to the entrance of the car, are managed by the expressman, who has the sole control. In case a train-robber enters the car, the door behind him may be immediately closed and locked by a twist of the lever, while at the same time the door to the messenger's compartment is also closed. The robber is now trapped and is at the mercy of the messenger.

The levers and their connections are so housed in sections of pipe that it is said to be practically impossible for anyone outside to interfere with their action.

Heating by Electricity.

It is asserted that the electric heater is so nearly developed on a thoroughly practical basis that it can be available at a slight increase in cost over present methods, an increase which the electricians say should be more than made up for in the superiority in cleanliness and convenience.

In the broiling and wilting July days of the near future the housewife in her cool kitchen may press a button and have the strongest, hottest fire she needs at a moment's notice. The cooking done, a touch on another button will set the same power that has cooked the dinner to work on the electric fans. On cold winter mornings the fire may be started by a touch on a button beside the pillow and the domestic infelicities caused by discussions as to whose duty it is to get up and start the fire will be avoided.—Boston Journal.

Freezing Gas.

One of the standing trials of the gas companies is the formation of naphthaline or other gas tar products in the service pipes, thus causing stoppages or diminishing the flow. In Germany some experiments have been made with cooling the gas before it was allowed to pass into the mains, the material used being a freezing mixture. The result was a deposit of water, naphthaline and benzole, while it was noted that further stoppages were avoided. Contrary to expectations, there was only a slight diminution in the illuminating power of the gas, equivalent to about 1-50th of a candle power. This is, it is said, more than made up by the value of the bye-products thus recovered.

Too Late.

Perhaps Tennyson has written nothing which appeals to the hearts of all who read his poems more than the lyric of "Too Late." The burden of the sad refrain comes home with telling force to the hearts of those who have lost friends by that dread disease—consumption. They realize, "too late," the result of neglect. They feel that the dear one might have been saved if they had heeded the warning of the hacking cough, the pallid cheek, and weakening system. They feel this all the more keenly because they see others being rescued from the grasp of the destroyer, and they think what is saving steps to a have saved their loved one time. Dr. Pierce's of danger is soon, take covery will drive a Golden Me...wise in not wait until too late consumption. Do wonderful efficacy to the use putting its where other remedies fail. It succeeds

Thanks to J. H. Adams.

As through him I have been freed from chills, biliousness, liver troubles, etc., etc. St. Leon Water did it; is the best medicine I ever found; is so good I tell all my acquaintances to go to your store in Brantford and get a supply. Truly, St. Leon is marvelous. A trial brings conviction. dw

ONTARIO LEGISLATURE.

THE HOUSE VOTES IN FAVOR OF LADY LAWYERS,

But the Majority Was Only One - Liquor for Railway Travelers - Mr. Harcourt's Clause Withdrawn - Many Bills Become Law.

TORONTO, April 7.— The Ontario Legislature yesterday discussed in committee Mr. Harcourt's motion in connection with the bill for the incorporation of the Niagara Falls Park Railway Company:

That upon petition by a railway company the Lieutenant-Governor in Council may authorize the issue of a license to the company. Such license shall authorize the said company to sell in the dining or buffet cars of the company liquors in quantities prescribed for a tavern license under the Liquor License Act. All sales shall be confined to bona fide travelers in the train to which the said dining or buffet cars are attached. No sale shall be made when the train is at or within the limits of any station, nor shall any liquors at any time be sold to officers, employes or servants of the company, or to any one on their behalf. The fee or duty to be paid for such license shall be $30, the whole of which shall be payable to the Consolidated Revenue Fund of the province.

Messrs. Waters, Wood and Davis opposed the bill, which they held as a retrograde movement.

After several other members on both sides had denounced the motion, Mr. Harcourt asked permission to withdraw it. This was granted amid cheers.

The second part of the resolution was allowed to carry. It provides that the fee charged for every transfer or removal of a license in cities having a population of 100,000 and upwards should be $50, in other cities $25 and in other municipalities $10.

Mr. Preston asked the House to consider his bill to further amend the act incorporating the Brockville, Westport and Sault Ste. Marie Railway Co. It passed its third reading.

The House concurred in the amendments proposed by Mr. Gibson (Hamilton) in his bill respecting insurance corporations, and in the amendments proposed by Mr. Hardy for his bill to amend the act respecting the taxation of patented lands in Algoma and Thunder Bay.

When the House went into committee to consider Mr. Hardy's bill to amend the Drainage Trials Act, the section allowing an engineer or surveyor to make examinations and report upon the property in dispute for the information of the referee was struck out and the bill passed.

The House in committee adopted the Government resolutions re Toronto University debentures.

The Attorney-General's bill respecting the collection of taxes in the Districts of Muskoka and Parry Sound, and that respecting County Police Magistrates; Mr. Hardy's to amend the Registry Act, Mr. Ross' to amend and explain certain portions of the Public Schools Act, Mr. Mowat's respecting the duty of sheriffs on arresting persons under civil process and Mr. Ross' to empower the University of Toronto to deal with certain Upper Canada College lands, passed their second readings.

The House considered Mr. Harcourt's bill respecting succession duties and passed it.

Discussion was resumed on Mr. McCleary's bill to amend the Ontario Anatomy Act. This was carried on a division by 53 to 20 votes.

Mr. Smith's bill to further amend the law respecting assignments and preferences by insolvent persons; Mr. Biggar's to amend the act respecting wages; Mr. Guthrie's to amend the act respecting joint stock companies for supplying cities, towns and villages with gas and water; Mr. Tait's to amend the Free Libraries Act, were passed by the House in committee.

Bills respecting the town of Toronto Junction; to confer certain powers upon the Chatham Waterworks Company; to incorporate the Hamilton, Grimsby and Beamsville Electric Railway Company, were read the third time.

Evening Session.

After recess the House went into committee and passed Mr. Gilmour's bill respecting the Toronto and Mimico Electric Railway and Mr. Conmee's bill to incorporate the Town of Thessalon. Mr. Field's bill to consolidate the debt of the Town of Cobourg passed its third reading. Mr. Tait's bill to amend the Free Libraries Act was amended at Mr. Meredith's suggestion; the whole bill was made to apply to cities of 100,000 inhabitants only.

The following bills passed the committee without amendment: To amend the Division Courts Act, to amend the General Road Companies Act, to prevent the waste of natural gas and provide for the plugging of abandoned wells. At Mr. Mowat's suggestion all these except the bill to amend the General Road Companies Act were read the third time and passed.

Female Barristers.

Mr. Balfour's bill to provide for the admission of women to the study and practice of the law naturally enough gave rise to a good deal of discussion on its second [illegible].

Mr. Meredith said he thought the passing of this bill would be a mistake. There were lady doctors, but the position of an advocate in the courts was altogether different. The consultation with the opposing counsel would make a large addition to the bill of costs. He was sure there was not an hon. member who would like to see his sister arguing her case before a jury of the

Mr. Wood (Hastings) was against the bill.

Mr. Awrey was glad at the present day the bill. He thought that at the admiration of women, and the respect all came to pracall true men, but if the wish of these kind [illegible] law they would lose

Mr. Whitney spoke against the bill.

Mr. Ross looked on bill rather as a [illegible] to remove disabilities at present in [illegible] advancement. He [illegible] of women. He strongly favored the bill.

Mr. Hardy made a mild opposition to the bill. He thought it the machinery of the law ought not to [illegible] set in motion at the request of one young lady who wished to gratify her fancy. A woman might make a good attorney, but he would draw the line there. They should not be allowed to become barristers.

Majority of One

The bill carried on the following division:

YEAS—41.

Allin.	Balfour.	Barr (Dufferin).
Bowlby.	Blezard.	Caldwell.
Carpenter.	Charlton.	Cassels.
Cleland.	Conmee.	Dack.

Miscampbell	Monk.	Paton.
Preston	Reid.	Rorke.
Smith (Front.).	Tooley.	White.
Whitney.	Willoughby.	Wood (Brant).
Wylie.		

Mr. Meredith moved that the bill be left over for three months. This was lost on the same division, and the bill was referred to the Law Committee.

The following bills were passed by the committee of the whole: To amend the act providing against frauds in the supplying of milk to cheese or butter manufactories, and to amend the Ontario Joint Stock Companies Letters Patent Act.

The special committee to consider Mr. Meacham's bill re the Ontario Medical Council threw it out, but Mr. Meacham gave notice that he would again introduce it as a resolution.

NEWFOUNDLAND IS DEFIANT.

Proposal for Modus Vivendi With Canada Defeated.

ST. JOHN'S, N.B., April 7. There was a long debate yesterday in the Assembly on Mr. Morine's resolution for modus vivendi with Canada, which was defeated by a straight party vote. Mr. Bond said they would prohibit the sale of bait to Canadians till the Bond-Blaine convention was assented to. He also said the colony had been promised concessions by the United States not yet made public.

PRINCE MICHAEL RELEASED.

The Long-Haired Scalawag Succeeds in Securing Bail.

DETROIT, April 7.—Prince Michael and Eliza Courts, his spiritual wife, were released from jail yesterday, bondsmen for their appearance having been secured in Jacob M. Smit, pawnbroker, and James A. Kier. The total amount of the bonds amounted to $2,500.

They were met at the prison door by a large crowd of male and female Michaelites and escorted to the Hamlin-avenue residence.

White Salmon In the Fraser River.

VANCOUVER, B.C., April 7.—Fishermen coming in from the Fraser River report a large proportion of the salmon caught so far are of white variety. Though these are almost as good as the red salmon for the table, they will not bring so high a price in the eastern markets, and hence the frozen fish dealers are not so well satisfied. It is supposed that the large proportion of white salmon is due to the fact that the fry liberated some time ago by the hatchery is now returning up the river. For the first year of the hatchery white salmon was the variety chiefly raised, but of later years only red salmon have been bred.

Public Accounts Committee.

OTTAWA, April 7.—Collingwood Schreiber, Chief Engineer of the Intercolonial Railway, was examined yesterday before the Public Accounts Committee on matters affecting the road. Mr. Davis conducted the examination, being anxious to ascertain the existing arrangement between the Intercolonial and the Canadian Pacific for running trains over that part of the Intercolonial between Halifax and St. John.

Mr. Trudeau was called by Sir Richard Cartwright in regard to William Davis & Sons, contractors, of Ottawa, in regard to the Cornwall Canal.

MILLINERY
OPENING
—AT—
TURNBULL'S
—ON—
TUESDAY AND WEDNESDAY,
April 5th and 6th.

Our commodious Millinery Show Rooms will be formally opened to display all the Novelties, in Millinery, of the season on April 5th and 6th. We could have opened a week earlier, but thought that the weather might be unseasonable and it also gives us a longer time to make preparations for a more elaborate display. We have taken every advantage to procure New and Cheap Goods in order to make our Millinery Rooms unusually attractive.

SPRING MANTLES AND WRAPS.

There will also be on display a magnificent stock of Imported Spring Wraps and Jackets.

WHITE UNDERWEAR.

Ladies when in the show room will do well to examine our large stock of White Underwear.

J. C. TURNBULL
George and Simcoe Streets,
PETERBOROUGH.

DOMINION PARLIAMENT.

HUNDREDS OF PETITIONS FOR PROHIBITION.

Nearly a Quarter of a Million of People Ask the Government to Pass a Prohibitory Liquor Law—Mr. Mills Wants Canada to be Allowed to Make Her Own Treaties.

OTTAWA, April 8.—From a return brought down it appears that 2626 petitions, with 304,808 signatures, have been received in favor of a prohibitory liquor law, and also 11 petitions from societies. By provinces the return shows:

	Petitions.	*Signatures.*
Ontario	1576	191,737
Quebec	197	17,158
New Brunswick	262	25,559
Nova Scotia	336	43,738
P. E. Island	113	13,101
Manitoba	88	7,395
British Columbia	21	2,533
N. W. Territories	28	3,587

Some of the petitions contained over 3750 signatures and exceeded 75 feet in length.

The Easter Holidays.

Sir John Thompson gave notice yesterday afternoon with reference to the Easter holidays that when the House adjourns next Wednesday it will stand adjourned to the following Tuesday.

London Election Case.

Mr. Lister asked when the papers moved for on the 21st March might be expected.

Sir John Thompson said some of the papers had to be got from the returning officer and they would be brought down as soon as received.

Canada and Her Treaties.

On the motion to go into Committee of Supply, Mr. Mills moved an amendment to the effect that Canada should make her own treaties. He spoke up to 6 o'clock, and for an hour after recess.

Mr. Foster replied at some length, taking the ground that we were in a better and stronger position as we are than we would be if we tried to negotiate our own treaties.

At 11.15 the division bell rang, but it was a full half-hour before the whips came in, as there was an at home at Rideau Hall and a wait was made for the members who were there to get up. One by one the dress suits began to drop in, each being greeted with a round of applause. Mr. Curran sang "Old Folks at Home," and there was a great deal of fun. At last the division was taken. Mills' amendment was lost—61 for, 106 against.

No Deficit This Year.

The statement of revenue and expenditure for the nine months ended March 31 shows revenue $26,732,946, expenditure $23,383,469, a surplus of $3,349,477, which indicates that after the interest due on June 30 is paid there will not be a large surplus, but there will be no deficit.

Statement of debt on March 31 shows net debt $236,270,162, which is a reduction of $1,537,868 since June 30 last.

One of the most delightful entertainments of the session was a dinner given last evening in the Senate restaurant by Major R. R. McLennan, M.P., to a number of personal friends in Parliament. Among those present were Hon. Messrs. Tupper and Haggart, Baillie Stuart of Scotland, who for the past six months has been investigating the Crofter settlements in the Northwest, and Mr. Frederick Haultain, President of the Northwest Council. The decorations of the room and table were superb, the walls being hung with Union Jacks, between the folds of which were portraits of Lord Stanley, Sir John Macdonald, Hon. Mr. Abbott and Sir John Thompson. The speeches were of a high order and the reception of the host, who is extremely popular, was unusually enthusiastic.

New York's Latest Mystery.

NEW YORK, April 8.—The body of a young woman was found in the bay off Governor's Island yesterday afternoon. It appears to be that of a young woman of about 25, and was naked with the exception of the stockings and one shoe. The woman was 5 feet 2 inches high, rather pretty and well built. On the third finger of the right hand is a plain gold ring, and on the first finger of the left hand is a gold ring with three small stones. In her earsare diamond earrings. Nothing could be discovered that would lead to identification. She was undoubtedly murdered.

THE NEW GERMANY MURDER.

Reinhardt's Plea of Self-Defence Successful In Securing His Acquittal.

BERLIN, April 8.—At the Waterloo Assizes before Chief Justice Armour, Martin Reinhardt, charged with the murder of Michael Haus, on Dec. 19, at New Germany was acquitted, the jury returning a verdict of not guilty after an absence of over six hours. The judge thereupon discharged the accused with the remark that he trusted he would live the rest of his life a better man. Reinhardt is 63 years of age.

The facts of the case are familiar. During a quarrel in New Germany Reinhardt drove a knife into Haus' heart, killing him instantly. Several witnesses were called by the defence to prove that Haus was a quarrelsome man, that he had repeatedly threatened people and that he had assaulted the prisoner without provocation and that Reinhardt killed him in self-defence.

DR. WEBSTER'S DEATH.

The Wandering Minister Found Dead At Charleston, W. Va.

CHARLESTON, W. Va., April 8.—The Rev. Dr. J. J. G. Webster, the prominent Methodist minister who disappeared on Monday night, leaving his bride of two weeks at her mother's house, was found dead at Charleston yesterday morning. He arrived yesterday and was shown to a room. At 5.30 this morning he was found dead on the pavement, 35 feet below the window, from which he had evidently jumped.

In his room was found a scrap of paper, on which the following message was written:

Ruin and gone forever. Stay at home.
J. J. G. W.

Dr Webster was 49 years of age and one of the most gifted and popular clergymen of Baltimore.

CUT OFF THE EXTRA FINGERS.

The Father Cut Off Its Sixth Toes and Fingers.

WILKESBARRE, Pa., April 8.—John Zeleskeski, a superstitious German, cut off the sixth finger and sixth toe from each hand and foot of a baby to which his wife gave birth yesterday. He used a jackknife and scissors. The baby lost much blood but is still living.

ACROSS THE ATLANTIC.

SUMMONED BEFORE THE BAR OF THE COMMONS.

Railroad Directors Forced to Apologize for Attempting to Intimidate Employees From Giving Evidence Before the Royal Labor Commission.

LONDON, April 8.—Messrs. Buckley Hawkins, Conacher and MacLure, the last named being member of the House for the northeast division of Lancashire, all of whom are directors of the Cambrian Railway, appeared at the bar of the House yesterday to answer a summons charging them with censuring one of the railway employes who had testified before the Parliamentary Commission enquiry into the hours of labor imposed upon railway servants, in such a manner as tended to intimidate other railway employes from testifying freely and fully upon the matter the commission is enquiring into.

The commission received a special report of the facts in this case, and the four gentlemen above named were summoned by the House to appear before it and explain their action.

The public galleries were crammed, while in the peers' gallery were Lords Spencer, Limerick, Wharncliffe, Windsor, Thring and 30 others.

The Director's Apology.

Director MacLure, being a member of the House of Commons, made his apology from the floor of the House. The other directors stood outside the bar, which was placed across the gangway.

They all concurred in expressing regret for their language in censuring the employe referred to, and declared that their offence was unintentional.

The House was crowded, as were also the galleries, with persons who were attracted by the debate on this question. The rarity of privilege cases not of the importance of a question invested the proceedings with a special interest.

The debate assumed a partisan color when Sir George Trevelyan, Liberal, succeeding Mr. O'Connor, accused the railway directors of trying to suppress evidence in favor of the men.

Mr. Melvin (Conservative) denounced Sir George for trying to mislead the House.

Mr. Gettingham Hardy (Conservative) charged Sir George with trying to influence the report of the committee on the hours of the railway men.

Then a number of members simultaneously tried to catch the Speaker's eye and the House was becoming highly excited, when of a sudden it was stilled by the rising of Mr. Gladstone. He suggested that the House would go beyond its functions if it forced the railway directors to compensate man whom they had dismissed from the service, but it was the absolute duty of the House, he considered, to maintain the perfect freedom of witnesses appearing before committees. It had been the custom in cases of breach of privilege to act with mildness and yet with firmness—an apology having been made for a wrong done a public principle. The House had generally accepted the apology and had also admonished those who infringed a privilege.

The Case of O'Connell.

Mr. Gladstone recalled the reprimand administered to O'Connell, who had refused to make an apology. He did not think that the House could act more wisely than to adopt the recommendations of Sir Michael Hicks-Beach, who had moved that the directors be summoned to the bar of the House and to simply admonish the offenders, declaring that it was not a case in which punishment should be inflicted. Mr. Gladstone spoke for 15 minutes, and on every point was cheered by the Ministerialists.

Mr. Cremer (Radical) next suggested that the railway directors pay Hood £1000.

A stream of Radical speakers followed.

Mr. Fenwick proposed to adjourn the debate with the view of allowing the directors to compensate Hood.

Mr. Balfour, the Government leader, urged the members to take Mr. Gladstone's advice.

Mr. Howell declared, amid cheers and shouts of derison, that the directors ought to be sent to prison.

The proposal to adjourn was defeated by a vote of 221 to 136 and the debate proceeded.

The Cloture.

After a long discussion Mr. Balfour moved to apply the cloture rule and the motion was carried by 247 to 186 amid loud Radical protests.

Mr. Picton's amendment in favor of compensating Hood was rejected by 245 to 189.

Mr. Balfour then moved that Sir Michael Hicks-Beach's motion that the Speaker admonish the railway directors for their breach of privilege be put.

Mr. Balfour's motion was received with a loud shout of "ayes," which were responded to by a defiant Radical cry of "no."

Dr. Tanner exclaimed, "No humbug," and was rebuked by the Speaker.

The uproar subsiding, Sir Michael Hicks-Beach's motion was carried by a vote of 349 to 70.

The directors were then recalled to the bar of the House and the Speaker read the resolution, adding that the House had taken a lenient view of their conduct in accepting the apology they offered and that the privilege of the House was no unreal, shadowy or unsubstantial thing.

The speaker reminded the delinquents that they had been found guilty of a serious and grievous offence and he warned them that a repetition would be severely punished by the House.

The last case of the kind occurred in 1879, when Ward was sent to Newgate for 14 days and Gussell for 21 days for asserting that they could bribe a decision from a House Committee on a private bill.

Threw a Babe From a Train.

ST. LAMBERT, Que., April 8.—The body of a newly-born babe was found yesterday morning near St. Armand, a station on the Central Vermont Railway. The infant was rolled up in two sheets and had evidently been thrown from some passing train.

Caught In the Flue.

WINDSOR, April 8.—Jim Butler, the escaped convict from Michigan State Prison, who is held for extradition, yesterday attempted to make his escape from Sandwich jail by way of the chimney, but was caught in the act.

A Handle To Their Names.

MONTREAL, April 8.—The Presbyterian College of Montreal has conferred the degree of Doctor of Divinity on Rev. D. Paterson of St. Andrew's, Que., and Rev. A. D. MacDonald of Chatsworth, Ont.

DEEMING FOUND GUILTY.

Linking Together the Evidence of His Mysterious Life and Crimes.

MELBOURNE, April 8.—The Deeming inquest was concluded yesterday and a verdict of murder returned against the accused.

Kate Rounseville testified that she met Deeming on a steamer going from Melbourne to Sidney. He told her that he was Baron Swanston. He gave her a diamond ring, which she has since learned belonged to the murdered woman. She promised to join him in Western Australia, where it was arranged they should be married. She was almost upon the point of starting for Perth when she learned of Deeming's arrest on the charge of murder.

A letter written by Deeming to Miss Rounseville after his arrest thus concluded; "But I have always trusted in God, and He will not forsake me now. Remember me in your prayers."

The most important document was produced in an invitation to a banquet given by Deeming at the Commercial Hotel at Rainhill, near Liverpool, which was found in the kitchen fireplace at the Windsor house occupied by Deeming. It was this card that first suggested to the police here the hint that led to the Rainhill revelations.

The verdict does not seem to affect him in the least, and he is in turn jocular and insolent. The more the man is studied the deeper becomes the belief of many persons that he is utterly without conscience and utterly devoid of fear. Those who have studied him closely, however, think his conduct is mere bravado, and that when he finds the noose tightening about his neck he will become an abject coward.

Deeming will be tried April 22. The defence will be congenital insanity.

The prisoner maintained his composure in court, but broke down utterly when he reached his cell. He says he is a moral monstrosity.

KING BEHANZAN DEFIANT.

The Desperate Dahomeyans Making Much Trouble for France.

PARIS, April 8.—The Soleil yesterday says it has private advices from Porto Novo which show that the situation arising from the warlike attitude of King Behanzin of Dahomey is far more serious than the official despatches state. The Dahomeyans have always been noted for their man-hunting expeditions, and this is the season of the year in which these expeditions start from Abomey and other places in Dahomey. The object is to secure victims for the slaughters termed "customs" by the natives, at which hundreds of captives are sacrificed to propitiate the fetich gods and also to procure slaves, from the sale of which King Behanzin derives much of his revenue.

The Soleil to-day says that the object of the King in warring upon the French is to so weaken their influence at the coast towns that he will be able to open fresh slave routes. Whydah is defended against any attack the French may make upon it by 500 warriors, all of whom are armed with the Mauser rifle.

LIEGE, April 8.—The police arrested this afternoon a man who declares himself to be Mathieu, the anarchist, Ravachol's friend and accomplice. He was found in possession of 1300 cartridges. His self-accusations are disbelieved, but inquiry as to his identity is proceeding. So far it appears he is a Frenchman. He arrived here two days ago.

BEHIND JAIL BARS.

Sampson, the Strong Man, Sent to Prison for a Year.

LONDON, April 8.—In the case of Sampson, the American strong man, accused of stealing the jewelry of Mrs. Bernstein, the jury returned a verdict of guilty and the judge sentenced Sampson to one year's imprisonment at hard labor.

No Parnellites Wanted.

DUBLIN, April 8.—At a meeting of the National Federation yesterday Mr. Timothy Healy said that his voice and vote would be cast irrevocably against the proposal to reconcile his opponents by working together against the Unionists, still maintaining sectional positions. Mr. Daniel Sheehy declared that their motto continued to be: "No compromise."

A convention will be held at an early date to select candidates to oppose Parnellites.

Thinks He Is the Ripper, After All.

LONDON, April 8.—The Globe says a dressmaker living in the east end of London has recognized a portrait of Deeming as that of the man who courted her under the name of Lawson in the autumn of 1888. She states that they were walking together on the night of Sept. 29 and parted from each other at 11 o'clock. The following morning the shockingly mutilated bodies of the women Strider and Eddowes were found in the Whitechapel district.

Shocking Tragedy in England.

LONDON, April 8.—Richard Bromley, a quarryman living near Oswestry, became involved in a drunken quarrel with his wife to-day, and in order to revenge himself upon her cut the throats of their three children and afterwards his own.

Fought for His Wife's Dinners.

VIENNA, April 8.—A duel has just been fought between Count Poca, Governor of the Province of Buckovina, and the Baron Mustatyan, growing out of the latter having spoken slightingly of the state dinners given by the Countess. The matter was made an issue in the local Landtag and finally resulted in its dissolution by the Governor. In the duel two shots were exchanged, without effect, after which the Baron apologized.

Elopers Traced to Canada.

KINGSTON, Ont., April 8.—W. A. Boyd, a restaurateur of Rome, N.Y., deserted his wife and eloped about a month ago with Mrs. Addie Plant, an employe of a canning factory. The elopers have been traced to a small village near here, where Boyd purchased a hotel about 10 days ago.

Hanged Himself.

OTTAWA, April 8.—John Barton, a well-known retired farmer living on the Richmond road, was found hanging in his hayloft by a rope suspended from a beam near the peak of the roof. At his feet lay a short ladder which he had mounted to commit the act.

Will Visit Toronto.

NEW YORK, April 8.—A short, stocky Englishman arrived on the Teutonic yesterday. He was Harry Furniss, the famous caricaturist of Punch, who is over here for his health and a trip to Niagara, Toronto, Montreal and Washington, after which he will return to his newspaper work.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal diseases, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

THE DR. WILLIAMS MED. CO., Brockville, Ont., or Morristown, N.Y.

SHILOH'S CONSUMPTION CURE.

If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

TUESDAY, APRIL 8, 1892.

The Trent Valley Canal.

A correspondent writes the following letter to the *Mail*:

SIR,—The Conservative party have from time to time been accused of raising the question of building the Trent Valley Canal just before a general election, and if this is true it only shows that they considered it a scheme which, if undertaken by the Government, would meet the approval of the public. In bringing this subject up at the present time, there will be no danger of influencing votes. The bye-elections are over, and the Government pretty solidly fixed for some time, so much so that they are now in a position to carry out the promises so solemnly made by the late Sir John Macdonald and Sir Charles Tupper to the people of Central Ontario, that this canal was a work that the Government would build—a work they must build—and the Government to make sure that they were right in making this promise appointed a Royal Commission to report on the whole work, and their report sustained the position taken by the Government.

The present Government might say they are not committed to the building of this canal. In reply, I would say that the policy of Sir John Macdonald still lives, and it was his great foresight in such matters that kept him in power for a quarter of a century, and keeps the same party in power to-day. That party will make a great mistake when they disown anything he was in favour of.

In reply to the Trent Valley Canal deputation at Ottawa on April 21st, 1891, Sir John said that his Government was in favour of building this canal, and that it was a work of great importance to the country. He also alluded to a very strong undercurrent of opposition to this work. Some thought this opposition came from the railway companies; others from Toronto, Hamilton, and other large business centres not immediately on the line of the canal. Would it, Mr. Editor, hurt either of these interests when you consider that the building of this canal would open up and bring into life the most magnificent water power on the continent of America — water power sufficient to mill all the wheat grown in the North-West, and this on its shortest and cheapest route to the European markets. The result would be that towns and villages would spring into existence wherever a water power was being utilised. Would this result be detrimental to the interests of the railways or large business centres like Toronto and Hamilton? I think not. If, however, outside opposition to this work is preventing the present Government from fulfilling the pledge given by the preceding Government, we ought to know it, and will know it when the supplementary estimates are brought down. The representatives of some sixteen constituencies along the line of this canal should see that the Government place a large amount in those estimates for the purpose of carrying on this work. If a large grant is not made, we must conclude that the Government are going to let this great public work drop, and that they think Sir John Macdonald, Sir Charles Tupper, the people of this part of the Dominion, and the Royal Commission were mistaken in saying that in the interests of the country this canal should be built. I still hope it will not be necessary to come to come to this conclusion. I think that the present Government are willing and intend to carry out all the pledges made by the Government of Sir John Macdonald, and it only rests with the representatives of the different constituencies along the line of this canal to bring the subject forcibly before the Government to get them to take such action as is necessary to bring this work to a speedy completion. Let there be no misunderstanding; our representatives are called upon to insist that the pledges given in the past shall be carried out.

I trust that the representatives of Montreal, Quebec, Halifax, and St. John will assist in getting the Government to complete this great work, so as to divert the trade of the west to our own seaboard, instead of allowing it to go, as at present, to New York by way of the Erie canal. The Trent Valley Canal being nearly 500 miles shorter than any other route from Chicago to the seaboard, need fear no rival in the carrying trade from the west.

Yours, etc.,
CONSTITUENT.

Constituent takes the same position as the EXAMINER, and we think rightly, namely, that the matter has at last narrowed itself down to the representatives. The public, the press, boards of trade, corporations, unanimously from Georgian Bay to Trenton have done their full share in the way of moral support and argument. And the time or talk is past—"Call in the members"—the question is ready to be brought to vote. The members must move—they must make a "dead set" on the Government. They must sink party considerations in the Trent Valley Canal, take off their coats, and do something in the interests of their constituents. Let "now or never"—especially "now"—be their slogan. Let them resolve to bring the Government to their senses in this matter, or select for themselves a political burial place, along with the hopes of the people, in the undug depths of the Trent Valley Canal.

It is not What we Say

But what Hood's Sarsaparilla does, that makes it sell, and has given it such a firm and lasting hold upon the confidence of the people. The voluntary statements of thousands of people prove beyond question that this preparation possesses wonderful medical power.

Hood's Pills cure Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

Thanks to J. E. Adams.

As through him I have been freed from chills, billiousness, liver troubles, etc., etc. St. Leon Water did it; is the best medicine I ever found; is so good I tell all my acquaintances to go to your store in Brantford and get a supply. Truly, St. Leon is marvelous. A trial brings conviction. dw

A Great Surprise

is in store for all who use Kemp's Balsam for the throat and lungs, the great guaranteed remedy. Would you believe that it is sold on its merits and that any druggist is authorized by the proprietor of this wonderful remedy to give you a sample bottle free It never fails to cure acute or chronic coughs All druggists sell Kemp's Balsam. Large bottles 50 cents and $1. dw

If you are tired taking the large old-fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them. dw

GRAND RE-OPENING

of Gough Bros. Mammoth Clothing, Hat and Boot Stores.

During the past month these stores have been undergoing extensive alterations, and now, with pardonable pride, we have much pleasure in announcing that these stores are the finest of the kind in Canada. Their aim has been to clothe a man or boy from head to foot. They have added department after department, until now they have reached the goal of their ambition. Each department is replete with all the latest novelties. We will not enlarge on the prices the goods will be sold at, suffice to say they will simply astonish our patrons.

A WORD ABOUT OUR CLOTHING DEPARTMENT!

NEVER in the history of the trade has such an array of fine clothing been placed before a buying public. Our stock this Spring embraces all the latest designs and patterns, and they were made under our own special supervision, the workmanship is of a superior quality. Notwithstanding all this our prices will be found lower than ever. When we came to you as the revolutionizers of the clothing trade, we promised you then that we would benefit the public, and now, after a long trial, have we kept our word? If so, let that be our best guarantee to the public that we will deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please everyone, still to those whom we did not please, as well as to those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes, and our judgment, like any human being's, may err. Still, we try to avoid errors as much as possible, and therefore it is our proud boast when any one had a grievance we never refused to make it right when brought to our notice. This spring we are going to redouble our exertions, and by keeping Good Goods, Nice Goods, square dealing and extremely low prices, we hope to merit a continuance of your generous patronage.

GOUGH BROTHERS,

The Wonderful Cheap Men, 377 and 379 George Street, Peterborough.

ALSO TORONTO, BRANTFORD, ORILLIA AND BELLEVILLE.

N.B.—EVERY PURCHASER OF A BOYS' SUIT WILL RECEIVE A BALL AND BAT FREE.

Cook's Cotton Root COMPOUND.

A recent discovery by an old physician. *Successfully used monthly by thousands of* LADIES. Is the only perfectly safe and reliable medicine discovered. Beware of unprincipled druggists who offer inferior medicines in place of this. Ask for COOK'S COTTON ROOT COMPOUND, take no substitute; or inclose $1 and 4 three-cent Canada postage stamps in letter, and we will send, sealed, by return mail. Full sealed particulars in plain envelope, to ladies only, 2 stamps. Address Pearl Lily Company, No. 3 Fisher Block, 181 Woodward ave., Detroit, Mich.

Sold Peterborough by all responsable druggists, and by all druggists everywhere. 1y52

PEDDLARS' HEADQUARTERS.

Scrap Iron and Junk.

Lines.

On the death of little Mary Dunlop, who was called home to Heaven, April 2nd.

A little vacant chair we see,
But little Mary, where?
Gone forever! oh can it be,
That we this pain must bear?

The little eyes so bright and clear
Are closed in death for aye;
The one who cheered our hearts so near,
God called from earth away.

Her little arms shall never more
Entwine our necks in love;
Her little voice sings on that shore
In praise to God above.

No more her footsteps we shall hear,
Which were a welcome sound:
No more her gentle voice will cheer,
It's silent 'neath the ground.

No more on earth that face we'll see,
So loving, kind and sweet;
An aching void there'll ever be
Till we in heaven meet.

Little Mary bright and fair,
Is gone, forever gone!
Oh! it seems so hard this pain to bear,
Yet, Lord, Thy will be done.

But, parents, dry your weeping eyes,
For Mary's gone to rest;
Yes, in that home beyond the skies
She'll be forever blest.

Sister, brothers, weep no more,
For Mary's now in heaven;
She'll greet you all on that bright shore,
In the home that God has given.

—H. D. W.

Science & Progress

Chronophotography, or photography applied to moving objects, forms the basis of a very interesting article in the Revue Generale des Sciences, by Prof. Marey, who explains a new method for the analysis of the movements of various bodies that are under consideration, more especially in biological than in physical science. The method that he here adopts differs considerably from his first endeavor, and also from that employed by Muybridge and Stillman. Instead of using many cameras, and therefore, many plates, he works with one camera and one plate, and it is on this plate that he produces his series of photographs.

FIG. 1.—Man dressed in black, and consequently invisible when passing before a dark background. The white lines which are shown on his arms, legs, and on the sole of one foot are the only parts the successive phases of which can be recorded.

The objects that he wishes to study move in front of a dark background, which is situated directly opposite the camera. Fitted to the camera is a large disk with openings in it, which is capable of quick or slow rotation in a vertical plane. During the passage of one of these openings before the lens, the moving object has its image cast on the photographic plate, and is there recorded. As soon as the aperture has passed no light can fall on the plate until the next opening comes opposite. As soon as this arrives another picture is taken in the same way, but, during the interval that has just elapsed, the object, having changed its place, forms its image naturally on another part of the plate. By continuing this process one can easily see that, on the plate being developed, a series of successive images will be seen extending from one side to the other. By dressing the object in black, employing a dark background, and placing on the members, the movements of which he wished to investigate, white lines and spots, he was able to increase the number of exposures per second without introducing overlapping, and to record the successive positions.

In this illustration we have an interesting set of attitudes assumed by a running man dressed in this costume. The lines in the figure indicate the sequence of positions in which the above-mentioned distinguishing marks are found at each exposure; and the resulting diagram also shows that the number of images capable of being photographed in a given time is very largely increased, while the overlapping is only slightly apparent.

Another case is that shown in Fig. 3, which represents a man jumping. The several phases of movement are here also well discernable, and the images were recorded at the rate of twenty-five per second.

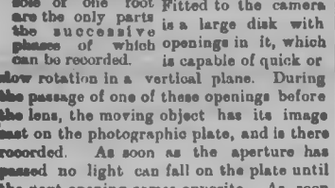

FIG. 2.—Images of a runner, showing the white marks which represent the attitudes of the principal members. Chronophotography on a fixed plate.

Although the method employed above suited admirably for such purposes as we have mentioned, yet Prof. Marey found that he could not use it without modification for all the cases to which he wished to apply it. The apparatus which he then constructed differs in many particulars from the former one, the chief characteristic about it being that films are employed which are capable of rapid lateral movement. By means of this moving film it is possible to obtain, in a very short space of time, a large number of separate pictures, for, during this exposure, a new part of the film is brought opposite the lens of the camera, held there, and then slipped along. The instrument has been employed in producing pictures representing acquatic locomotion, a Medusa swimming, and the phases of movement that a star-fish undergoes in order to turn itself over.

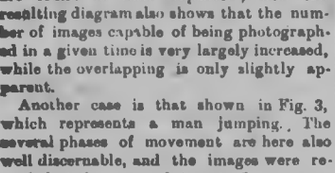

FIG. 3.—Analysis of the phases of a running jump. Taken on a fixed plate (25 images per second).

The movements of the eel have also been studied in this way, and the series of movements represented in the undulatory movement of the body, from the head to the tail.

But in the study of the movements of small objects, Prof. Marey does not here conclude his observations, but has constructed a special piece of apparatus for recording the movements of microscopical objects.

The extension of this branch of chronophotography, if taken up and developed, may be of great use to medical science, for many occurrences happen where such an apparatus as the above would be invaluable.

Although we have not quite touched on all the subjects referred to in the very interesting article by Prof. Marey, yet we trust we have given the reader an idea of what kind of work has been going on in this direction, and the methods that have been adopted to produce such good results. The branch that we look forward to being extended is that in which the microscope takes the prominent part.—From Nature.

Soft White Hands.

These desirable adjuncts to the beauty of the ladies can be attained by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6180

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flushes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

If You are Going To Buy a Piano or Organ

don't fail to pay a visit to

JACKSON & Co.'S

ESTABLISHED

PIANO AND ORGAN WORKS,

360 Aylmer St., Peterborough.

Being extensive dealers in only Reliable and Standard makes of

GRAND, SQUARE AND UPRIGHT

PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS,

AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that **we positively will not be undersold.**

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

All kinds of Instruments Tuned or Repaired on short notice.

Jackson & Co.

H. SPEARS.

The Great Sale at China Hall.

The stocktaking sale at China Hall has been a great success so far. It is a genuine clearing out sale and it will pay any one to take advantage of it. Every tea chamber or dinner sets the slightest bit damaged, is sold for half price, and to keep up the interest the whole stock is offered at cost. Such staple goods as chamber sets, hanging lamps, dinner sets, etc., at cost price, is an opportunity to embrace. See the show windows this week for index bargains and take a look through the store for other bargains. 2d

Acknowledgment.

The committee of management of the Peterbrough Protestant Home acknowledge with thanks the following donations for April:—Mrs. James Mann, dried apples; Mrs. W. Hamilton, clothing; Mrs. W. Davidson, oat meal; Mrs. Mulholland, warm jacket and overcoat; Mr. Macfarlane Wilson, dishes; Mr. Greenhow, clothing; Miss Beckett, "Gospel Light," for one year; Mr. Scott, clothing; Mr. Watt, basket of cakes; Mrs. McWilliams, suit of boy's clothing; Miss Roper, bedstead and mattress; Mrs. McGill, box of biscuits; a friend, preserves; Mr. A. W. Strickland, clothing; Mr. J. D. Flavelle, Lindsay Curling Club, 100 pounds flour.

Register Your Cur.

Notices have been issued and posted in public places throughout the town, that all owners of dogs must have them registered by the 1st of May with the town clerk, and the tag, which is provided gratis on the payment of $1 dog tax, will be duly attached to the collar of the dog. All dogs found on the streets after that date, not having tags on, will be shot at sight by the police. The License Committee, which met on Tuesday night, awarded the tender for supplying the tags to Mr. W. H. Bamfield, machinist and die-maker, Toronto. The tags, which are made of aluminum and look like tin, are very light, and are the same as are used by the authorities in Toronto. The committee preferred the aluminum tag to the brass tag, which comes one cent cheaper. On the tag will be stamped: "1892 P. D. T. No. . ." So register your cur. Those who pay their dog tax now will not have to pay the tax over again, although they may be assessed for it.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Look Up Your

Orders are pouring in from all parts of the town and Province for our "G. C." brand of hams, bacon and spiced meats, bologna sausage and lard. Take good care to get our make and you will have no other. To be had at George Carten's, pork packer and grocer.

A Sewerage Conference.

A joint conference of the sewerage committee of the town, the municipal authorities of the townships of Otonabee and North Monaghan, and Dr. Bryce, secretary of the Provincial Board of Health, and Mr. MacDougall, C.E., will be held on April 16th. The chief matters to be considered will be the outlet of the system into the river.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection of this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. R. STRATTON.

New Clothing Business.

Messrs. Grafton & Co., of Dundas, clothing manufacturers, have leased the shop formerly occupied by Knowles & Co. They are now receiving their stock, and expect to open out the first of the week. The business will be managed by Mr. J. H. Deeks, and the reputation of the firm as first-rate manufacturers of readymade clothing, will doubtless secure for them a liberal patronage.

A Grand Success.

The sacred cantata entitled "Esther, the Beautiful Queen," was given in the Lindsay opera house last evening under the directorship of Prof. J. H. Ketcham. The production was a grand success and the large crowd went wild with admiration and applause. A chorus of fifty voices took part in the cantata. The cantata will be produced again to-night. A large number from town attended the entertainment last night.

Parlour Social.

A parlour social was given at the residence of Mr. W. Wand, Lake street, Ashburnham, last night. It was under the auspices of the Mark street Methodist Church. Rev. J. Thom occupied the chair and made a short address. The following took part in the vocal and instrumental programme presented:—Misses Eva Tivey, Katie Wand, Smith, Hamilton, Messrs. B. Hill and W. Wand. Refreshments were served at the close to the large number present. The proceeds amounted to $30.

A Citizen's Generosity.

It was mentioned in the EXAMINER some time since that Mr. James Stevenson had given orders for several bust, portraits and statuettes of prominent Canadians, for the adornment of the Collegiate Institute. Busts of Hon. Edward Blake and Sir Daniel Wilson have for some time been placed in position, and now a bust of Sir John Macdonald and a statuette of Dr. Ryerson, have arrived and have been placed upon their pedestals. The portrait bust of Sir John Macdonald is a splendid piece of art, the likeness is perfect, while the artistic treatment is of the highest quality and highly creditable to the sculptor, Mr. Hamilton McCarthy, R.C.A.

Large Plate Glass Fronts.

Peterborough still keeps up her record of plate glass breaking by some means or another. Four plate glass windows have been smashed to smithereens on George street within the past few months. This morning two large plate glass, size 9 feet 10 inches by 5 feet 10 inches, arrived from the Toronto Plate Glass Company. One of the large glass was successfully placed in position in front of Mr. A. Clegg's furniture shop to replace the one broken last week. While workmen were engaged in placing the other glass in front of Mr. M. Jamieson's restaurant at noon to-day, the big pane was nearly in position when the strong wind blowing caught it and carried it back a few inches. About fourteen inches were broken off the bottom. The glass is very thin—less than half an inch in thickness. The glass was cut off and lowered. In consequence of the mishap a few light will have to be placed over the window.

Bradburn's Opera House.

The big production of the "Bottom of the Sea" will be put on for the first time in this town Saturday, April 9, and will remain one night only. Two-thirds of the earth's surface is covered with water, the far depths of which, miles and miles below the waves, have never been approached by the human explorer, with the probable exception of the West India vicinity, which is a notable exception to the Atlantic ocean. During the laying of the West India cable by the French government, it was a common occurrence for the submarine divers to descend to the bottom of the ocean to repair some break in the cable, and salving expeditions were also much practised. It occurred to Comtenbert, the great French dramatist, who will be remembered as being the author of "Le Fond de la Mer," to embody his story into theatrical form and it was presented at the Porte St. Martin some fifteen years ago with much success. Many attempts were made by managers and producers of plays in this country to reproduce this submarine spectacle, but the undertaking was of such a gigantic nature and of such expensive dimensions that the several undertakings fell through. However, it remained for the enterprise of Mr. Wm. A. Brady to bring the spectacle before the American public.

"The Hercules Duster,"

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

News Nuggets.

—A local character rested in the cells last night.

—The corporation must have begun work on the sidewalks.

—An Asphodel farmer has discovered grasshoppers on his farm.

—Several sportsmen went gull shooting on Little Lake this morning.

—The county deputation returned home from Toronto at noon to-day.

—The total number of liquor licenses applied for in East and West Peterborough is 55.

—Three candidates received initiation at the Peterborough Lodge No. 111 I. O. O. F. last night.

—The Norwood Oddfellows have passed a resolution of sympathy and condolence with the family of the late Mr. Vesburgh.

—George street merchants are anxious to know where the street watering carts are to-day. The dust is blowing in clouds.

—The large plate glass window of Jamieson's restaurant, George street, smashed by a run-away horse, is being replaced to-day.

—The Manufacturers' Committee meets to-night. It will be the first committee to use the new table in the Town Clerk's office.

—The Norwood High School Football Club has been re-organized, with Mr. W. E. Roxburgh, president, and D. M. Hunter, secretary.

—A new registered has been placed in the Grand Central hotel. Will W. Salisbury be the first man to register again and take a sample room?

—The axle of a democrat waggon which was loaded with lumber broke in two this morning, while coming out of the gate of Dickson Company's mill.

—The officers of the P. A. A. A. held a meeting this afternoon in the store of Mr. Wm. Loch. Matters in regard to finances and fees came up for discussion.

—A case will come up before the police magistrate to-morrow. It is alleged that some iron was stolen by boys from Mr. E. Bowie and sold to Mr. David Doig.

—Improvements are being made to the Peterborough Light and Power Co.'s house. A new water wheel is being placed in position, and other alterations being made.

—A team of horses attached to a lumber wagon ran up Water street this morning at furious pace. They were captured near the gully before any serious damage was done.

—Dont's forget the meeting of the Peterborough Lacrosse club in the Olympic Club rooms to-night. Important business will come up for consideration. Let all interested attend.

—A carload of fine horses purchased by Mr. Collins around Hastings and Campbellford, passed through on the Midland to-day for Toronto. They are for the Toronto street railway.

—The egg buyers of the town and Ashburnham are holding a meeting in the Snowden House this afternoon. Messrs. J. N. Dundas and W. M. Flavelle, Lindsay are in attendance.

—The Peterborough district Women's Foreign Missionary Society in connection with the Methodist church, will be in Millbrook on Tuesday, April 19th. Sessions at 10 a.m., 2.30 and 7.30 p.m.

—There are still four inches of ice on the hockey rink. The ice in the curling rinks is all gone and the ice on the hockey will be chopped up and thrown over into the curling rinks where it will not take long to melt.

—Inside a common bottle placed in the window of Mr. Sullivan's grocery corner of Edinburgh and George streets are a wooden axe, a cross and several other small wooden articles. They were made inside the bottle.

—The people of Norwood are discussing the question of the amalgamation of the Y. M. C. A. and the Mechanics Institute, which latter is at present in a dormant, if not defunct, condition. The matter is still under discussion.

—The musical part of the services of the Methodist church, Millbrook, were varied last Sunday by the addition of three brass instruments. The performers have joined the choir permanently, and will in future assist in the services.

—Mr. R. M. Roy gave a grand stereopticon entertainment in the Port Hope Methodist church on Wednesday night. He showed some fine local views, displaying the Port Hope post office, Col. Williams' statute and the Methodist church.

—Carswell Lodge, I.O.G.T., held a regular meeting in the R. T. of T. Hall, Hunter street, last night. There were six initiations in the Juvenile Temple. The matter of holding an excursion to Stony Lake on May 24th was discussed but no action taken.

—James Campbell, Francis Taggart and Jas. May, were brought up before County Magistrate Elmitson this morning, charged with receiving liquor after seven o'clock at Patrick Hogan's hotel, Ashburnham, on Saturday, April 2nd. They were each fined $2 and costs, ($5.45 in all).

—A young lad named Buller came near being run over yesterday afternoon at the G. T. R. station by the way freight. The young lad was dragging a heavy bag of iron across the track, and did not pay attention to the train which started. Had the driver not noticed him within a very few feet, the young lad would would have been instantly killed.

—Mr. W. A. Sanderson has a fine group portrait of the graduating class in medicine at McGill University. The class numbers nearly fifty. The photographs of Sir Wm. Dawson, Sir Donald Smith and the medical faculty are gracefully grouped around the boys. The portraits of Messrs. V. Halliday, A. R. Day, a relative of Messrs. R. A. and A. J. Gough, and H. J. Wasson, brother of Mrs. W. A. Sanderson are conspicuous among the group of "grads."

Ladies.

Clearing Sale of Groceries.

As I am going extensively into liquors, I find it necessary to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. Morrow, 340 George street.

Dr. Say's Remedy, (of Paris) is undoubtedly the best known remedy for the prevention of any derangements of the digestive organs and the curing of any affections to which they may be subject. It is a remedy composed of the purest aromatics which stimulate the digestive organs, and which, far from weakening like most medicines, impart tone to, and strengthen the system.

Further it contains a substance which acts directly on the bowel, so that in small doses, it prevents and cures constipation; and in larger doses it acts as one of the best purgatives.

It is important to note that Dr. Say's Remedy can be taken in any dose without disturbing the habits or regime of those who take it. 1d

Personal.

Mr. W. Overend, town, is in Belleville.

Mr. Wm. Snowden who has been on the sick list for the past few days is around again.

Mr. Geo. E. Mercer, Toronto, has accepted a position in Dr. Spear's drug store, Peterborough.

Miss Ida Francheitte, of Chicago, is visiting her cousin, Miss Kate Cavanagh, at the Balmoral Hotel.

The Millbrook *Reporter* says that Miss Mable Pritchard, of Peterborough spent last week in Millbrook.

Mr. H. D. Black, of the Edison Company, has just returned from a two weeks' visit to his home in Montreal.

Mr. J. M. Hutchison, Toronto, travelling and passenger agent of the Great Northern Railway, is in town to-day.

Mr. Geo. Edwards, town, will deliver an address at a Methodist maple sugar social in Millbrook next Monday evening.

Messrs. A. B. Spellman, proprietor of the Clarendon House, Hastings, and his brother S. T. Spellman, of Rochester, are in town to-day.

Dr. Greer of Cold Springs, has taken up his residence in town, and after spending some time in New York investigating the latest advances in surgery, will return to town and open an office for the practice of his profession.

Mr. James Stevenson, M.P., West Peterborough, presided at the caucus of government supporters at Ottawa yesterday morning. If the caucus took their cue from the chairman they must be in a bad hole if they can't get out of it.

BIRTH.

O'KEEFE—In Asphodel, on Thursday, March 31st, 1892, the wife of Mr. M. O'Keefe, of a son.

MARRIED.

SIMPSON—SOFA.—At the residence of the bride's father, on March 31st, 1892, by Rev. J. G. Lewis, B.A., Mr. Robert N. Simpson, of Necombe Mills, Miss Sarah J. Sofa, daughter of Stephen Sofa, of Methuen.

DIED.

POPE.—In Peterborough on the 7th April, 1892, Bridget, beloved wife of Mr. Wm. Pope, aged 43 years.

Funeral on Saturday, April 9th, from the family residence, 367 McDonald street.

EDGCUMBE—At Benton Harbour, Mich., on Monday April 4th, Eliza, relict of the late William Edgcumbe, of Cobourg, and mother of Mr. James Edgcumbe, of this town, aged 76 years.

BUCK—On Wednesday, April 6th, 1892, at Norwood, of inflammation of the lungs, Ella May, beloved wife of H. G. Buck, eldest daughter of P. W. Reynolds, aged 26 years and 9 months.

Why is HOOD'S Sarsaparilla

Such a great success, and why is it impossible for other Sarsaparillas and blood purifiers to compete with this great medicine? **Because**

No Other Sarsaparilla or blood purifier gives as much medicine for the money as Hood's Sarsaparilla.

No Other Sarsaparilla has the careful personal supervision of the proprietor in all the details of its preparation, as has Hood's Sarsaparilla.

No Other Sarsaparilla has the merit to secure the confidence of entire communities and hold it year in and year out, as has Hood's Sarsaparilla.

No Other Sarsaparilla can produce from actual cures such wonderful statements of relief given to human suffering as Hood's Sarsaparilla.

No Other Sarsaparilla possesses the Combination, Proportion and Process Peculiar to Hood's Sarsaparilla, and which makes Hood's Sarsaparilla in curative effect Peculiar to Itself.

No Other Sarsaparilla combines economy and strength as does Hood's Sarsaparilla. It is the only preparation of which can truly be said, 100 Doses $1.

No Other Sarsaparilla has effected such remarkable cures as Hood's Sarsaparilla, of Scrofula, Salt Rheum, blood poisoning and all other blood diseases.

No Other Sarsaparilla has equalled Hood's Sarsaparilla in the relief it gives in the severest cases of Dyspepsia, Indigestion, Sick Headache, Biliousness, Heartburn, and other stomach disorders.

No Other Sarsaparilla overcomes That Tired Feeling, Restores the Appetite, and "Makes the Weak Strong," like

Hood's Sarsaparilla

N. B. If you decide to take Hood's do not be induced to take any other

Hood's Pills cure **Biliousness**

BOARD OF TRADE MEETING

A Conversational Session of the Members.

The Trent Valley Canal Question Considered—Letting Light (if Not Water) into the Canal—Another "Good Resolution"—Talking Over the Proposed System of Sewerage—Only Talk and and Nothing More—The Council Shows its Hand—Mr. Meldrum Addresses the Board—Seventy-five New Members Elected.

A general meeting of the Board of Trade was held last evening in the council chamber. There was a good attendance of members. Mr. R. Fair, president, occupied the chair. He stated that the meeting had been called to take up the question of the completion of the Trent Valley Canal. He then called upon Mr. John Carnegie for his opinion on the question.

Mr. CARNEGIE said that seventeen or eighteen members interested in the completion of the canal had waited upon the Minister of Railways and Canals. He was asked to go and was a member of the deputation which was unanimous in its demand. The scheme was never more strongly represented in the House or by the party in power than at the present time. The government had taken every precaution to assure itself and parliament that the work should be completed and the report of the commissioners had settled beyond dispute the question as to the great benefit, the completed canal would confer.

Mr. FAIR—Do you consider that, if a resolution was drawn up by the Board of Trade favouring the completion of the project, it would be of any benefit?

Mr. CARNEGIE—Yes, I think so. The members were very aggressive in their efforts. We have a strong representation in the government who are doing all in their power to further the step. There is no question but that all would like to see this partially completed. Our local representatives are alive to the importance and benefit which would accrue to the manufacturing, mercantile and agricultural interests of the country, if this highway was opened and are doing all in their power.

A RESOLUTION SUGGESTED.

Mr. J. H. BURNHAM thought it would be a good thing if the Board would pass a resolution at its meeting. The resolution would be forwarded to the Government.

Mr. J. M. IRVIN stated that he would like to see the thing carried out since the Royal Commission had spoken so strongly in its favor.

COUNCILLOR YOUNG thought a resolution could do no harm. The Board should strengthen the hands of the representatives in pressing upon the government the necessity of the completion of the work.

Mr. E. PEPLOW said he had no objections to moving a resolution on behalf of the Board favoring the scheme. He thought such a resolution should be carefully framed and thought out before being drawn up, and it should cover the whole ground. He had no objections to such a resolution being drawn up, urging the representatives to further the scheme. The Peterborough section were a unit in regard to continuing the work.

Mr. BURNHAM stated the Government were on the eve of doing something in reference to the scheme. An appropriation of $150,000 should be expended between Peterborough and Lakefield. He was strongly in favour of a resolution.

Councillor YOUNG was in favour of a committee being appointed to draft the resolution. He then moved, seconded by Mr. T. Hay, that Messrs. Peplow, Mulhern, Dobbin and the mover, be a committee appointed for that purpose.—Carried.

Mr. BURNHAM then read the names of the following new members, which were proposed. He suggested, and it was moved, that the vote of the chairman be the vote of the Board:—

NEW MEMBERS.

Drs. Halliday, J. Wilkinson, McGrath, Caldwell, Goldsmith, and Messrs. C. Young, R. Stevenson, Geo. McWilliams, Thomas Brady, Wm. Donell, A. Mooney, W. J. Scollie, W. A. Sanderson Geo. W. Wyatt, George Elliott, T. Rutherford, Jas Edgcombe, Peter Simons, F. S. Schneider, J. J. McBain, W. J. Scott, Geo. Matthews, J. Z. Rogers, J. B. Pentland, J. Gamble, J. W. Moore, C. Stapleton, jr., W. A. Hopkins, John Nugent, W. Radkins, W. H. Calder, John Stanger, R. W. Manchester, Walter Stocker, George Stevenson, W. R. Dayman, W. Brine, W. C. Madge, J. R. Metheral, Wm. McNabb, R. Mann, Thos. Gammell, J. H. Ames, John Watt, David Knox, Frank Mason, Dr. Yelland, Wm. Yelland, J. C. Higgins, W. A. Jamieson, J. W. Fitzgerald, R. A. Stone, H. W. Watson, A. Douglass, John Lee, A. Allison, J. A. Hurley, James Montgomery, T. Brackenridge, P. L. McHugh, J. B. Appleby, R. Carveth R. S. Davidson, Jas. Bague, J. W. Crosby, James Coughlin, Thomas Workman, T. Dolan, Jas. Fanning, A. Clegg, Wm. Roberts, E. C. Hill, Wm. Henderson, P. J. McNamara, John Fraser, Thomas Barrie, John E. Hayes, Thomas Irwin and J. D. Shevlin.

Mr. BURNHAM stated that the auditors had examined the treasurer's report and found everything satisfactory.

THE SEWERAGE QUESTION.

Mr. BENJ. SHORTLY was in favour of the sewerage system. The plan laid down by the engineer was, as far as he could see, first class in every way. The next generation coming up to assist in paying for it would make the burden very light for the present tax payers. It was absolutely necessary to have a system of first class sewerage put in immediately; if they did not the Provincial Board of Health would see that they did. He was in favour of a frontage tax and having the work carried on by sections. This was the only possible plan in his opinion. The Board should take some decided action in the matter.

Dr. FIFE said it was necessary to have sewerage, but which system was the best he was not prepared to state. We must keep up the pressure on the council. Opposition would be offered from Otonabee and Monaghan townships where the sewer empties into the river. A conference would shortly be held between those townships and the town, at which the secretary of the Provincial Board of Health would be present. We must meet this opposition and do what we could to overcome it in a fair and honourable manner. The system laid before them should be supported and he would like to see that system carried out.

Mr. FAIR—Will owners of private property in front of public property have to pay the whole frontage tax?

COUNCILLOR MELDRUM—I do not know. The council have not considered that yet but will do so.

Mr. T. HAY said the corporation would have to pay for half and the private party owning property on the opposite side of the street the other half. Churches could not reasonably be exempted. They would be getting benefit like any other building.

Mr. FITZGERALD agreed with Mr. Hay.

Dr. FIFE—There must be drainage for water as well as sewerage.

Mr. CARNEGIE—I understand that the system proposed includes roof drainage, but that it does not necessarily include cellar drainage. If the pipes were laid 10 feet the fall would be low enough.

COUNCILLOR MELDRUM said the system of Mr. MacDougall did not include drainage, except roof water. As far as the drainage of streets, cellars or lands is concerned it does not include that.

Mr. BARTLETT, C.E.—I am not very conversant with street drainage but I understand house drainage. I think the proposed system will drain cellars.

Councillor MELDRUM.—Mr. MacDougall said it would not drain cellars or streets. He (Mr. MacDougall) thought that the George street drain might be extended up past Murray street, and it would then drain the whole central part of the town.

Mr. CARNEGIE thought that if the proper drain were laid to the sewer, it would carry away the water.

Mr. J. M. IRWIN.—This town has never been free from contagious diseases, and will never be free until we have a proper system of sewerage. The town urgently requires its immediate construction. Peterborough, he asserted, has not been free from malarial or typhoid fever within the last ten years.

Mr. MULHERN.—I do not think the engineer has made any plans to drain the cellars. He made provision for taking the water off the roofs.

Councillor MELDRUM said he would like to hear some discussion as to how the proposed system was to be paid for, whether by assessment, frontage tax or by both. In his his opinion it should be paid for

BY A LOCAL AND GENERAL RATE,

the local rate for a sewer of a certain size. On Aylmer street, for instance, where a three or four foot pipe was necessary, it should be a general tax. If the town was going to have a system of sewerage let it be a good one—the very best. The only just way for its payment would be the combined rate. He said they would have to begin at a certain size, and then extend the smaller sewers as was required.

Mr. HAY thought, as the town council had the matter in hand, it would be well to let them alone. He believed they would do their duty.

Councillor MELDRUM—They have always done it. (Laughter.) Continuing, Mr. Meldrum said the council had always been in earnest in regard to the matter. They wanted to find out whether the emptying of the sewerage into the river was going to cause trouble. The Provincial and Township Boards would hold a meeting shortly. He had heard it said that not twenty-five per cent. of those on George street were going to use the sewer. There was no good laying down sewerage until the matter of the people using it was decided. Some towns had built their sewers by general assessment and others by local and general rate. There was another plan if the citizens would decide to carry it out. The whole system would cost $167,000 or $1.50 per foot on main and outlying sewers. Brockville had a perfect system of sewerage. They charged citizens 90 cents a foot frontage tax; all over that was borne by the town. If the same plan was carried into Peterborough, George street, for instance, would pay 90 cents and the rest of the town the balance. The large assessment on George street would pay much more towards the tax other parts of the town. We must know how we are going to pay for the sewerage and by what means it is to be built before we enter into a contract. The town of Brockville had to submit four by-laws to the people before everything was satisfactory for the construction of the system. Peterborough did not want to fall into a like blunder. It was well to be careful and informed in the matter of sewerage before submitting a by-law to the people.

THE TRENT VALLEY CANAL RESOLUTION.

The following resolution moved by Mr. E. Peplow and seconded by Mr. H. Paulen was carried:—

The Board of Trade of Peterborough have observed with some concern that so far this session no considerable sum has been put in the estimates to provide for work on the Trent Valley Canal, and notwithstanding that the commission recently appointed by the Government have decisively reported in favour of the construction of the canal, and the Government having expressed the intention at an early date, to resume and proceed vigorously with the work; that there will be justifiable dissatisfaction if these promises are not redeemed and that a committee of the Board of Trade prepare a suitable memorial to the Government, praying that such an application be at once made.

The meeting then adjourned at 9.45 o'clock.

Separate School Board.

A Regular Meeting Held Last Night.

The regular meeting of the Separate School Board was held on Wednesday evening, the 6th inst., there being present Dr. Brennan, presiding, and Messrs. Quinlan, Lynch, Sheehy, McGrath, and Lefellier. Rev. Father Rudkins, local superintendent was also present.

The minutes of last meeting were read and approved.

A communication from the provincial treasurer, enclosing cheque for $211 was received.

Accounts from R. S. Moore for printing forms for school reports, $2.50; Jas. McCormick, wood, 60c, were ordered to be paid when certified by the chairman of Property Committee.

Reports of attendance for the month of March:—

	No. on Roll.	Average.
Murray St School..	192	167
Convent.....	215	197
Lake street school..	121	107
	528	471

Supplies were asked for by the principal of Central School, and Miss Tracy, of Lake street school.—Referred to Committee on Supplies.

The Finance Committee, per Mr. McGrath chairman, reported, recommending payment of account of M. McFadden, $6.25.

The report was adopted on motion of Mr. McGrath, seconded by Mr. Sheehy.

Mr. Lynch moved, and Mr. Sheehy seconded a motion asking the Committee appointed at the last meeting to ascertain particulars regarding required addition to Lake street school; to get further details, the Committee not having acquired all necessary information.—Carried.

The Board adjourned.

The Family Medicine.

Trout Lake, Ont., Jan. 2, 1890.
W. H. COMSTOCK, Brockville.
DEAR SIR:—For a number of years I have used and sold your "Dr. Morse's Indian Root Pills." I consider them the very best for "Family Use," and all my customers speak highly of them.
Yours truly,
dw R. LAWSON.

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

Deeming's Fury.

MELBOURNE, April 7.—The inquest upon the body of Mrs. Deeming, formerly Miss Mather, found buried beneath the floor of the house at Windsor, near here, opened in the city court room yesterday.

The first evidence submitted was that of the doctor who found the body. There was intense excitement as the witness gave the ghastly details of the finding of the body, which, he said, had been doubled up, evidently with the object of saving labor in digging the grave.

Throughout the hearing Deeming wore a careless air, and on several occasions he laughed loudly at some of the statements.

An ironmonger named Woods and his wife both testified that they had sold the prisoner a spade, a trowel and a barrel of cement on Dec. 17.

When Miss Rouncewell, to whom he was to have been married, was called. Her identification of Deeming produced a marked effect on him. He turned ghastly pale, fidgeted nervously and kept his eyes upon her, evidently anxious to attract her attention. She would not look at him after the identification, but sat quietly listening to the inquest.

To place the question of Deeming's identification beyond all doubt he was placed in the courtyard of the jail with 50 other prisoners. Here he was seen and identified by 52 persons who had known him under 15 aliases.

He became wild with rage, and breaking from his guards rushed upon those who had identified him and struck one of them a severe blow. He attempted to hit others, but they eluded him, and finally the infuriated man was overpowered. He believes the game has ended for him, and a close watch is kept to prevent him from killing himself.

For Making the Dies.

WINDSOR, Ont., April 7.—Albert Fischer's trial began in the United States District Court at Detroit yesterday. He is the model maker who was arrested on a charge that he had made dies for the notorious Stinson gang of counterfeiters of Essex.

Fire in a Trenton Hotel.

TRENTON, Ont., April 7.—A fire broke out about 2.30 this afternoon in the Proctor House, occupied by Thomas Ventress, caused it is supposed by a defective chimney. The fire was confined to the upper story and roof. Loss about $3000, said to be covered by insurance.

She Never Talked Before.

SPRINGFIELD, Ohio, April 6.—Cora Stubbe, 25 years of age, of this city, who has never in her life uttered a single intelligible word, has begun to lisp a few syllables, to the surprise of the medical profession.

Cronin Witness Dead.

FORT MADISON, Iowa, April 7.—A two-story building in Santa Fe-avenue, occupied by S. V. Kitchen as a dwelling and meat store, caught fire, and in two minutes kegs of powder stored in the building exploded, killing all the inmates, nine in number, including the entire Kitchen family and three boarders.

Killed Nine Men.

CHICAGO, April 7.—John F. Beggs, the lawyer who was senior guardian of Camp 20, Clan-na-Gael, at the time of the murder of Dr. Cronin, and one of the five defendants in the celebrated trial, died yesterday. Beggs was the only one acquitted of the five indicted for the muder.

Twins Were no Novelty.

MIDDLETON, N.Y., April 7.—The census figures of the town of Tompkins, Delaware County, disclose the remarkable case of Abram Ostrom, aged 64, who is the father of 27 children, of whom 20, ten of them twins, are by one wife—his third—she being only 35.

To Enrich the Province.

WINDSOR, April 7.—Melvin Maynard of South Gosford died some time ago, leaving property worth $7000 and no legal heirs and no will. The Attorney-General of Ontario to-day made application to the Surrogate Court of Essex County for letters of administration to Maynard's estate, and his property will escheat to the crown.

Probability That the Republicans Retain the State.

PROVIDENCE, R.I., April 7.—Rhode Island to-day elected Governor, other state officers and the Legislature. It is believed at midnight that D. Russell Brown, Republican, is elected Governor, and both branches of the Legislature are also Republican, securing the re-election of Senator Aldrich.

Will of the Late Mr. H. E. Clarke, M.P.P.

TORONTO, April 7.—The will of the late M.P.P. for Toronto has been entered for probate. The personalty is sworn under $76,000 and the realty $54,000. Anne Clarke, widow, Ellen Clarke and Florence Clarke, daughters of the deceased, are appointed executrices.

Why the Schools Didn't Open.

WINDSOR, Ont., April 7.—Two schools could not open yesterday, as their principals were serving on the coroner's jury in the case of one Marinlette, killed by a street car. Three jurymen were in favor of censuring the railway company for running too fast, but the remainder would not agree to this and the jury were discharged.

Fell to His Death

ALLANDALE, Ont., April 7.—Robert Reynolds, a G.T.R. brakesman, fell from a train at Hendrie. Both legs were cut off and the skull smashed, the body being terribly mangled.

If you feel weak, tired, and all run down Hood's Sarsaparilla is just what you need to build up strength and purify your blood.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents. dw

---

Cure for A Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package. dw

---

Unsightly pimples, blotches, tan, and all stubborn humors of the skin are removed by using Dr. Low's Sulphur Soap. d w

---

Constipation claims many victims. Ward off this dread disease by the use of Small Sugar-Coated Burdock Pills when needed.

Cold Weather Trials.

DEAR SIRS.—This fall and winter I suffered from neuralgia in my face and had the best medical advice without avail. I at last thought of trying B B B., and after using one bottle have not felt any symptoms of neuralgia since. I regard it as a fine family medicine.

J. T. DROST, Hamilton, Man.

A Novelty in Road Engine Wheels.

A traction engine for use on common roads, which was exhibited at a recent show in England, was fitted with wheels embodying a novel principle. The rims were of cast iron, with square pockets, in which were inserted wooden blocks. These blocks were bedded on a cushion of felt, which was compressed when the weight of the engine came on the blocks, so that several of them could be resting upon the road at the same time. The blocks were kept in place by bolts let into the wood and secured by nuts and spring washers.

Quick Cancellation.

There have recently been introduced in the Pittsburg postoffice three machines for stamping letters, each of which are stated to be able to do the work of ten men, stamping 40,000 letters an hour. Letters of all sizes are placed in a chute, and a spring feeds them to the stamper, which cancels the stamps and stacks the letters up for sorting. The time on the face of the post-mark will change every minute by an electrical connection with a clock.

The Toughness of a Bolt.

The number of bendings which an ordinary seven-eighths inch stay bolt will stand, when riveted into plates of unusual thickness, one end being fixed and the other end moving one-eighth of an inch, has been proved by experiment to be from 2,000 to 5,000.

Self Application of Electricity

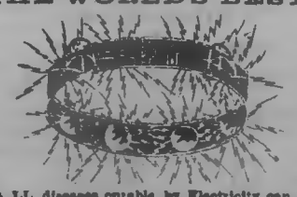
FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—168 Yonge St., Toronto.

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and contains the best in the world; we defy anyone to bring proof to the contrary.

Do not confound this Belt with the humbug combination of leather and moth with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro medical treatment and mention this paper. J. D. TULLY, Agent. Peterborough. dw

"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss.

Burdock Blood Bitters

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock Blood Bitters

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock Blood Bitters

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock Blood Bitters

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. Pimples, blotches, boils, rashes, eruptions, sores, etc., vanish at once before the wonderful purifying powers of B.B.B.

When to Water Horses.

The general opinion held by prominent horsemen and practical farmers is that the effects of watering horses after eating are not beneficial, because the water washes the grain from the stomach into the intestines, where it sets up an injurious fermentation. This has been a pretty generally accepted fact and what experiments have been made, by killing old horses immediately after eating and then watering, have tended to confirm it. Prof. J. W. Sanborn, of the Utah experiment station, has tried some experiments in this line, which led him to reject this long-cherished idea. He reasons that water does not, or cannot pass through the stomach as a stream, but filters through the food within the stomach and can carry with it only matters already soluble. Therefore digestion may not be adversely affected.

Again, the digestive agents in the intestines will work upon all matters escaping undigested from the stomach and no harm is caused if some of the feed should be washed through. Prof. Sanborn states the idea that where horses eat hay and then grain, and are then watered, the grain is not as liable to be washed through as where no hay is eaten first. He would have this hay serve as a filter, the same as straw in a cider filter.

His first experiments in this line were conducted in the winter, and the effect of watering before and after eating, he took from the weight and condition of the horses. A second trial extended not over a period of six months and the results were obtained in the same way. The summary of his results shows that horses watered before feeding grain retained their weight better than when watered after feeding grain. Horses watered before feeding had the better appetite and ate more. As far as can be determined there was no difference in the thoroughness with which the grain was digested when fed to either lot of horses. He recommends to water both before and after feeding.—Farm and Home.

No Cast-Iron Rules of Feeding.

At the late dairy convention in Nebraska, Mr. C. L. Gabrelson said: "The question of temperature, comfort and abundance of palatable food is, in my openion, of greater importance than the balanced rations of which we hear so much nowadays. That approximate rules may be worked out from observing many cows must be conceded, but since no two cows, any more than any two persons, are alike in form or habits, we cannot lay down cast-iron rules for feeding them."

Artificial Fertilizers.

Farmers who use artificial fertilizers are convinced that it is an advantage to expend money in that direction, no matter how much manure they may have. The fertilizers are a complete addition to the fertility of the farm, while the manure comes from the product of the farm itself. Unless something is brought on the farm to balance that which is removed, the farm will at some time begin to decline.

requires no special description.

No. 3 is especially adapted to morning glories, sweet peas and nasturtiums. A hedge or screen of the latter flower is a most brilliant sight, and will be sure to give great pleasure. With No. 2 a most delightful effect can be secured by using white morning glories for one hoop, blue ones for the next, then white, then pink. It will require considerable care and attention to keep the colors from running into and blending with each other, but it can be done, and the result will repay all labor —J. S. Sorenson, in Ladies' Home Journal.

As It Is in Leap Year.

Miss Twitter—I want to ask you something, Mr. Penn. I hope (blushing) you won't think me too forward?

Steele Penn—Have no hesitation, Miss Twitter.

Miss Twitter—I am going to have some handkerchiefs embroidered, and I was wondering if it would be safe to have the initals of my maiden name placed on them.

As a spring blood remedy there is nothing equals Dr. Williams' Pink Pills. They supply in a condensed form the elements necessary to enrich the blood, stimulate the nerves and build anew the system enervated by being "housed up" during the winter months. Sold by all dealers or sent on receipt of price—50 cents a box or six boxes for $2.50—by addressing the Dr. Williams Med. Co., Brockville, Ont., or Morristown, N. Y. dw

For several years I was persistently annoyed with an excessive accumulation of Dandruff and although using various preparations recommended and shampooing regularly once a week, no material relief was realized until my attention was called to Anti-Dandruff, which has produced unlooked-for results in my case, four applications removing every particle of Dandruff, and as a specific for this trouble it certainly has no equal.

Yours truly, W. T. RODINSON,
Can. Pac. Rys. Telegraph Co., Montreal, P. Q. dw

Cure For Dyspepsia.

As is well known, this troublesome complaint arises from over-eating, the use of too much rich food, neglected constipation, lack of exercise, bad air, etc. The food should be thoroughly chewed and never bolted or swallowed in haste, stimulants must be avoided and exercise taken if possible. A remedy which has rarely failed to give prompt relief and effect permanent cures, even in the most obstinate cases, is Burdock Blood Bitters. It acts by regulating and toning the digestive organs, removing costiveness and increasing the appetite and restoring health and vigor to the system. As a case in point we quote from a letter written by Miss L. A. Kuhn, of Hamilton, Ont.:—"Two years ago life seemed a burden. I could not eat the simplest food without being in dreadful misery in my stomach, under my shoulders and across the back of my neck. Medical advice failed to procure relief and seeing B B B advertised, I took two bottles of it, and have been entirely free from any symptoms of my complaint since." This gives very conclusive proof of the efficiency of this wonderful remedy. dw

It is a Very Sad Thing

To see young and beautiful people die when they might just as well live and enjoy health and strength. Many who suffer with coughs, colds and lung troubles, leading to consumption, imagine there is no hope for them, when in reality there is every hope if Miller's Emulsion of Cod Liver Oil is taken regularly. Spread the news everywhere that this great emulsion will make flesh and blood, cure coughs, colds, bronchitis, sore throats and lung troubles tending to consumption. In big bottles, 50c. and $1, at Peterborough Drug Store. dw

Treatment of a Common Trouble.

As a rule the use of the so-called worm remedies is not advisable. In attempting to rid a horse of worms the most important part of the treatment is to get the horse in such condition as to make him an unfit dwelling-place for the parasites; for it is a fact that the nearer the animals health approaches the perfect, the less liable is he to be infested with worms, or, indeed, with parasites of any kind. This being the case, let everything be done that will tend to build up the animal. See to it that he is not over-worked. Attend regularly to grooming. If the food is not all digested and if the horse acts as though chewing is painful have the teeth examined by a competent veterinarian. Feed regularly and do not put to hard work within too short time either before or after feeding. Keep a large, smooth piece of rock salt where he can lick it when in the stable, and if, as is usually the case, a tonic is indicated, give the following in the feed morning and night: Dried sulphate of iron two drachms, powdered gentian and powdered fenugreec of each four drachms, for one powder, to be continued for three weeks at least. Worms inhabiting an animal treated in this way will soon find the surroundings uncongenial.

Use the Wind.

There is much force in the wind, as many of us know almost too well. A wind that blows no man any good is a rare one, but a wind that cannot be harnessed and made to do much good is more uncommon. There are many things upon the farm that need a steady expenditure of force, such as the tilling of land and harvesting of crops, and the winds may not be able to do this kind of work. But there are, likewise, many offices that the winds can do, and their good effects may be stored up against a day of calm. The most familiar is the pumping of water, and windmills are almost synonymous with pumping. May not the windmill as well raise a huge weight, and thus store up power that may be liberated when needed? The corn-sheller, fanning mill, buzz saw, grain mill, and many other implements requiring a steady power, could thus be run at slight expense. Think of these things, and attempt to catch the breeze that now blows where it listeth, and make it a useful servant. The brain of man can do even more than it has thus far for the advancement of the farmers.

Piles in Hogs.

Hemorrhoids or piles occurring in the pig are practically incurable because of the difficulty of regulating the feeding of that animal. The patient should be fed on soft, easily digested food of which sour milk should form the greater part; in fact, it is well in all cases to change the animal's food completely. Constipation is usually present, and if the change of food does not control this promptly injections of castile soap-suds together with sweet oil should be resorted to, and if demanded castor oil may be given internally in doses of from four drams to three ounces, according to the size of the pig. If the piles are large and cannot be replaced they may be injected with olive oil and carbolic acid (crystals) equal parts; a small hypodermic syringeful into each pile. If the bowel itself protrudes foment it with a mixture of strong decoction of white oak bark three parts and tincture of opium one part. Even though the piles seem cured they are very liable to recur.

Improved Feed Bag.

The new form of feed bag shown in the illustration has been in use in England for some time, and is said to give great satisfaction, possessing advantages in allowing the horse to feed in a comfortable manner, besides giving perfect ventilation and preventing waste of the food. The bag is made of waterproof canvas, with a strong oak-tanned leather bottom, the whole article weighing less than three pounds. The sack-like protuberance under the throat prevents the animal throwing out the feed when it lifts up its head suddenly.

NEW FEED BAG.

Mother and Child are Doing Well.

Mrs. Brown was sick. Her friends said she would never get well. "What's the trouble?" "O, some kind of female weakness. The doctors have given up her case as hopeless. 'She may live for some time,' they say, 'but as for a cure, that is quite out of the question.'"

"I don't believe it," said a woman, who heard the sad news. "I dont believe she's any worse off than I was, five years ago, from the same trouble, and I don't look very much like a dead woman, do I?" She certainly did not, with her red, plump cheeks, bright eyes, and 150 pounds of good healthy bone, blood and flesh. "I'm going to see her and tell her how she can get well." She did so. She advised Mrs. Brown to take Dr. Pierce's Favorite Prescription. Mrs. Brown took the advice, also the medicine which cures all kinds of delicate diseases so common among women, and—got well. That was two years ago. Last month she presented Mr. Brown with a ten-pound son, and "mother and child are doing well." b

At Home and Abroad.

Physicians, travellers, pioneers, settlers, invalids and all classes of people of every degree, testify to the medicinal and tonic virtues of Burdock Blood Bitters, the most popular and effective medicine extant. It cures all diseases of the stomach, liver bowels and blood. dw

If you once try Carter's Little Liver Pills for sick headache, billiousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this. dw

Nothing More Pleasant

Than to feel a soft hand. Any lady using Dyer's Jelly of Cucumber and Roses will always have soft white hands. Try it. W. A. Dyer & Co., Montreal. 8d80

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Dr. Low's Worm Syrup has removed tape worms from 15 to 20 feet long. It also destroys all other kinds of worms. dw

The most agreeable, restorative tonic and mild stimulant is Wilbarn's Beef, Iron and Wine. dw

CARTER'S LITTLE LIVER PILLS.

CURE SICK HEADACHE, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD ACHE they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not stop here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

ONTARIO LEGISLATURE.

THE HOUSE WILL PROROGUE TO-MORROW.

Yesterday Was Occupied in Rushing Through Various Public Measures—Protection of Game—Municipalities and the Liquor Laws—Subsidies to Railways.

TORONTO, April 8.—At the Legislature yesterday afternoon Mr. Mowat's bill to further amend the law respecting Mortgages and Sales of Personal Property, also his bill respecting the Use of Tobacco by Minors, and Mr. Ross' bill respecting the Fees of Certain Public Officers, were read a third time and passed.

The last-mentioned bill provided for the reduction of the fees of Division Court clerks, registrars and sheriffs, and the payment of the surplus thus accruing to the Provincial Treasurer. Mr. Wood (Hastings) moved that the bill be not read a third time, but that it be referred to the Law Committee with instructions to add a clause providing that the surplus income be paid over to the counties and applied for the reduction of registration fees. The amendment was lost on a division, the vote being 31 yeas and 52 nays.

Mr. Kerns moved in amendment that the said bill be not now read the third time, but be forthwith referred back to the committee of the whole House, with instructions to amend the same by providing that the surplus income of registrars of deeds, which the said bill provides for applying for provincial purposes, be paid to the council of the county or city to be applied for the use of such county or city.

This was lost on the same division.

Mr. Clancy moved in amendment that no legislation regarding the registration of deeds would be satisfactory that did not confer upon county councils the power to pay by salary their own registrars and clerks.

This was defeated by 31 yeas to 52 nays.

Then Mr. Preston moved in amendment that the maximum net income of clerks of Division Court be $1500, of registrars of deeds be $2500, of sheriffs be $3000, of local registrars of the High Court, of deputy clerks of the Crown, County Court clerks and surrogate registrars $3000, and that the surplus be applied to public uses. This was also defeated on a division. This time the vote stood 32 yeas, 52 nays.

The following bills were read a third time and passed: To confirm a certain agreement made between the West Ontario Pacific Railway Company, the Ontario and Quebec Railway Company, the Canadian Pacific Railway Company and the Corporation of the city of London; respecting the town of Fort Arthur; to incorporate the town of Fort William; to provide for the division of the township of Sandwich East; to incorporate the Toronto and Ashbridge Bay Improvement Company; respecting the city of Toronto; to amend the act respecting the federation of the University of Toronto and University College with other universities and colleges; to amend the act respecting the taxation of patented lands in Algoma and Thunder Bay; to consolidate the acts respecting compensation to workmen in certain cases; to amend the Debentures Registration Act; to amend the Land Titles Act; respecting the Toronto and Mimico Electric Railway and Light Company; to incorporate the town of Tuesalon; to amend the Ontario Joint Stock Companies' Letters Patent Act.

The House went into committee to consider the following motions:

Mr. Ross—"That any judge, sheriff, stipendiary or police magistrate, while engaged in preparing or revising the voters' list required in unorganized territories, shall be entitled to receive out of any money voted by the Legislative Assembly for this purpose the sum of $4 per day and expenses, and any person acting as the deputy of such person shall be entitled to receive the sum of $2 per day and expenses."

Mr. Gibson—"That the compensation of the secretary and the wardens—to be appointed under the provisions of the Act for the Protection of Game and Fur-Bearing Animals—be fixed by the Lieutenant-Governor in-council and paid out of the license fees and fines collected under the provisions of the said act, and money appropriated by the Legislative Assembly, not exceeding $1200 exclusive of traveling expenses."

Mr. Harcourt—"That, owing to engineering difficulties, there be granted out of the consolidated revenue fund of the province to the Parry Sound Colonization Railway Company, for the construction of 44½ miles of railway westward from Scotia station, on the line of the Northern Pacific Junction Railway, a cash subsidy of $3200 per mile and not exceeding in the whole the sum of $143,000; that for the purpose of forming a Subsidy Fund there shall be set apart so much of the lands of this province belonging to the Crown as lie within a distance of ten miles on each side of that portion of the said Parry Sound Colonization Railway, to which aid is hereby granted, which lands shall be sold and the moneys thus obtained paid to the railway as subsidies."

Mr. Hardy's bill relating to the Provincial Fisheries did not meet with Mr. Meredith's approbation. It did not apply in the same way to streams in the Crown Lands as to streams in other localities. Mr. Meredith instanced a case where the land lying on one side of the Grand River belonged to the Crown, and on the other side to private individuals. The bill was amended so as to meet their case and passed the committee, as did Mr. Dryden's bill for the further protection of bees.

A Government resolution was carried granting a cash subsidy of $3000 per mile for 7 miles and $2000 per mile for 8½ miles to the Port Arthur, Duluth & Western Railway.

Mr. Conmee asked to be permitted to reinstate his bill respecting the licensing of railway employes, which he had withdrawn the day before. He urged that the object of the bill was to prevent railway companies from employing "scabs" during a strike. He was not allowed to reintroduce the bill, but he said he would next session.

Evening Session.

After recess the House went into committee and passed Mr. Davis' bill to incorporate the Ontario Ship Railway Co., Mr. Hardy's to consolidate and amend the mining laws, and Mr. Gibson's bill to amend the act for the protection of game and fur-bearing animals. The last was amended by making the open season for deer to extend from Nov. 1 to 15, instead of from Oct. 15 to Nov. 15. The section prohibiting the killing of does, fawns or wild deer without horns was amended so as to allow fawns to be shot. It was felt by all that fawns ought not to be shot, but several members, who were crack shots, said they could not take time to examine the animals while they were on the run. At Mr. Biggar's suggestion a clause was added to prevent railway companies from transporting deer or deerskins, except between Nov. 1 and 15, unless accompanied with an affidavit that it was killed in season.

Mr. Balfour and Mr. Sol. White asked for exceptional legislation for the counties near the Detroit River because the Michigan game laws allowed ducks to be shot after Sept. 1. Americans came over in crowds and shot and carried away the ducks which the Canadians were prevented from taking.

Mr. Balfour assured the House that if there was any one thing that made the people of his constituency dissatisfied with Canadian institutions it was these obnoxious and galling game laws.

The bill was amended so as to allow wood and teal duck to be shot between Sept. 1 and Dec. 15. The clause prohibiting the sale of partridge for three years was amended so as to read "two years." The clause allowing an owner to arrest any man found on his land with a gun was struck out.

The bill passed the committee.

The House passed in committee Mr. Hardy's bill to amend the Jurors Act.

Mr. Harcourt's bill to amend the Liquor License Act was amended by striking out the clause allowing municipalities to repeal local option after they had adopted it.

NEW WHITE STAR SHIPS.

Two Immense Passenger Steamers Said to be Contemplated.

NEW YORK, April 8.—Two immense passenger steamships are to be built for the White Star Line. The vessels will be larger than the two Cunarders now building on the Clyde. As the Cunarders are of 14,000 tons each, 600 feet long, and to be furnished with engines of 30,0000 horse power, the size of the new White Star liners can be imagined. Two new freight steamships, each larger than the twin screw vessels Nomadic and Tauric, are also in course of construction at the White Star office. In fact, the first of these two freighters, Navonic, will be ready for service in July and the other will be finished later in the season. The Runic and Cufic, single screw, White Star freighters will be withdrawn from the New York line when the new freighters go into service, and will probably then ply between Boston and Liverpool.

Did He Fire Bonsecours Market?

MONTREAL, April 8.—John O'Shea, a young man of 25, was arrested yesterday charged with setting the fire in Bonsecours market on Sunday morning. He was identified by several parties as the man who had been seen throwing a package into the stall of the market where the fire originated.

The Switchman Has Fled.

OTTAWA, April 8.—It is reported in Hull that the Switchman Meilleur who has figured conspicuously in the inquest into the death of Michael O'Connell, who was killed in the C.P.R. accident at Hull, has left his home and is now roaming in parts unknown.

Granted a Divorce.

OTTAWA, April 8.—The Divorce Committee of the Senate yesterday morning heard the evidence in support of the petition of Ada Donigan for a divorce from her husband, Joseph Donigan, now residing in New Hampshire, on the ground of adultery. The committee decided to grant the application.

Arrested In London, Ont.

JACKSON, Mich., April 8.—Hall Master Mosher of the prison has gone to London, Ont., to identify Convict Davis, who escaped from the prison in October through the tunnel. Davis is in the London Jail.

Round House Burned.

GALT, April 8.—The Grand Trunk engine house here on the Galt branch was entirely destroyed by fire yesterday. Engine No. 374 was badly damaged.

Armed with Winchesters.

DETROIT, April 8.—Acting on the advice of their counsel Prince Michael and his saterlites have armed themselves with Winchester rifles, and any attempt to mob them by the populace will result in the spilling of blood.

Who Wants This?

THE GOLDEN LION.

Home Decorating

The days for house cleaning, tearing up, and putting down, are once more upon us. Those who intend to decorate this Spring should act intelligently in the purchase of Carpets, Lace Curtains, &c., &c.

Whoever you are—Carpet buyers of present or future—we want a chance to sell you.

We have no outrageous prices or profits.

Do you remember what you paid for Carpets last time you had occasion to buy any? That was the time when Peterborough people had to pay too much for them. The Golden Lion, however, has worked quite a revolution in Carpet prices, by importing direct from the manufacturers—the same as the wholesale men do—and saving you the "middlemen's commissions." People don't have to go to Toronto now to buy Carpets.

A Carpet is an every day companion—you have to live with it. Our Stock is Large, our Styles are New and correct and are the best expression of artistic furnishings in this line, to be had at moderate cost.

And it is the same with our Lace Curtains and other Draping Fabrics. Curtailing prices all the time and giving better values, is what is making our store such a busy one. Nothing suits off a room more than a pretty set of Curtains; but you must have just what will harmonize well.

That's why we ask you to shop with us:

MILLINERY OPENING
—AT—
TURNBULL'S
—ON—
TUESDAY AND WEDNESDAY,
April 5th and 6th.

Our commodious Millinery Show Rooms will be formally opened to display all the Novelties, in Millinery, of the season on April 5th and 6th. We could have opened a week earlier, but thought that the weather might be unseasonable and it also gives us a longer time to make preparations for a more elaborate display. We have taken every advantage to procure New and Cheap Goods in order to make our Millinery Rooms unusually attractive.

SPRING MANTLES AND WRAPS.

There will also be on display a magnificent stock of Imported Spring Wraps and Jackets.

WHITE UNDERWEAR.

Ladies when in the show room will do well to examine our large stock of White Underwear.

ONTARIO LEGISLATURE.

THREE SESSIONS WERE HELD YESTERDAY.

The Business of the House is Now About Completed and the House Will Probably Be Prorogued To-day or Monday.

TORONTO, March 9.—The Legislature met at 11 o'clock yesterday morning and passed the following bills at their third read: To amend the General Road Companies Act; to amend the Act Respecting Infants; to amend the Act to incorporate the Western University of London, Ont., and the bill relating to the Provincial Fisheries.

Mr. Dryden's bill for the protection of bees met with a good deal of opposition from members representing fruit growing districts. The bill made it a criminal offence for a man to spray fruit trees with poison while the trees are in full bloom. Mr. Hiscott, Dr. Willoughby and Mr. Rorke denounced the bill as tyranical and outrageous. The interests of the fruit growers was of far greater moment than of the bee-keepers of the province. Mr. Awrey held that it was useless, at any rate, to spray trees while in full bloom. Bees had not been known to have been poisoned by getting honey from sprayed trees. Mr. Whitney had yet to be convinced that a bee would partake of any poisonous substance. Mr. Hiscott moved in amendment that the bill be not passed for three months. This was defeated by 37 to 52.

Mr. Davis' bill to incorporate the Ontario Ship Railway Company and Mr. Hardy's bill to amend the Juror's Act were passed their third readings.

Afternoon Session.

In the afternoon the report of the Public Accounts Committee was presented. Mr. Marter said that the committee had found great difficulty in identifying the goods invoiced. He mentioned several articles with their invoiced prices and stated that he was convinced that the Government had paid excessively for nearly every article they had bought. He did not blame the Government for patronising their friends, all things being equal, but he had found that all things were not equal, and so he thought the Government ought to look elsewhere for their supplies. He mentioned a meeting held in Room 16 by the Government just before the election in 1886. At that time the wholesale dealers of the city, from which the Government had purchased supplies, had been called together and reminded that elections cost money. The subscriptions which spontaneously followed ranged from $25 to $500. Mr. Marter reminded the House that it was not the practice of a business man to advertise the fact that he had resolved to deal only with one individual. By letting it be known that the Government would only deal with their friends they had made it impossible for them to obtain goods at the ordinary prices.

Mr. Garrow replied to these complaints and said one reason might be that many of the Government purchases were small—in reality only retail bargains.

Mr. Kerns and Mr. Clancy protested against the high prices which the Government had paid for supplies.

Mr. Clancy pointed out that in 1891 $795 had been paid out to Government officials as allowances, but by last year the sum had grown to $2941.

Mr. Hardy said he had expected to have to meet great accusations such as had from other quarters covered this country with slime and ignominy. He went over the items mentioned one by one and explained the circumstances which made the difference in price.

Mr. Mowat rose to explain the matter referred to by Mr. Marter concerning the election funds. He said that during his 20 years premiership he had called but one meeting for the raising of funds. That was in 1884, when the friends of the party had subscribed quite liberally. These friends were not dealers in wholesale supplies at all and only subscribed because they took an interest in the party.

The report of the Committee of Public Accounts was received by a majority of 53 to 11.

The Third Sitting.

At the evening session Mr. Hardy officially drew the Speaker's attention to the death of Mr. H. E. Clarke and asked that the writ be issued for the election of his successor.

Dr. Meacham moved that as his bill to amend the Medical Act had been killed in committee the report of that committee be referred back with instructions to amend the present act so as to suspend the clause allowing the council to prevent physicians from practising till all dues were paid up. He stated that the committee appointed to consider his bill had been packed with members opposed to it in order to defeat it, although such an action was in direct opposition to the rules of Parliamentary procedure. His motion was defeated without a vote.

Mr. McKay's bill to amend an act respecting the township of Harvey in the county of Peterboro caused a good deal of discussion between Mr. Fell and the mover of the bill, representatives of Victoria County on the one hand, and Mr. Stratton and Mr. Blezard, representatives of Peterboro County. The bill was one to compel the county of Peterboro to maintain four bridges in the township of Harvey, which at present are maintained by the county of Victoria.

Mr. Blezard moved in amendment that the whole matter be settled by arbitration.

Mr. Meredith wished to add a clause allowing the bridges to be abandoned by the consent of both county councils. This was lost by 32 to 39, and Mr. Blezard's amendment passed.

Mr. Hardy's bill to amend the Drainage Trials Act and his bill to consolidate and amend the mining laws were passed.

The House went into committee on Mr. Ross' bill respecting Voters' Lists in the unorganized territories. The bill is not to come into force till July, 1893, so Mr. Meredith was anxious that it should be left over till next session. He pointed out several sections of the bill that would allow of illegal actions on the part of officials and which would tend to make the constituency misrepresented at the House.

The bill grew and changed wonderfully under the patronage of both parties and when passed was another bill except in name.

Mr. Hardy's Assessment Amendment Act caused also some discussion. It provided that farm lands in cities, towns or villages should only be taxed as farm lands at farm values. Mr. Guthrie was the chief opponent of the bill. Mr. Whitney Mr. Awrey and Mr. Davis were of opinion that the principle of the bill was right and supported it. It was carried by 29 to 28.

The clause afterwards was amended by striking out "cities."

Mr. Mowat moved to have the clause apply only to towns under 5000. But Mr. Meredith jocularly suggested that this was to save Woodstock and the amendment was lost. A good half-dozen other exceptions were moved in amendment, but Mr. Awrey, who in reality was the prime mover of the bill, fought with a tenacity not to be baffled, and saved his bill intact with the loss only of the word "city."

The House adjourned at 2.30 a.m.

Gen. Wolseley Snubbed the Shamrock.

LONDON, April 9.—Secretary of War Stanhope informed John McNeill, member for South Donegal, yesterday in the House of Commons, that Gen. Wolseley did not wear the shamrock on St. Patrick's Day. Mr. McNeill replied, "The more shame for him."

ACROSS THE ATLANTIC.

DEEMING, THE MURDERER, A MENTAL MONSTROSITY.

His Trial This Month Will Be One of the Most Remarkable in the History of the World—More Infernal Machines in France.

PARIS, April 9.—The execution of Lieut. Anastay, who murdered the aged Baroness Dellard in December last, is fixed for 5 o'clock this morning.

Anastay will be guillotined in La Roquette prison, the authorities having rejected the military petitions in favor of the execution by shooting on the ground that Anastay committed a crime against the common laws and was tried by an ordinary tribunal.

Deibler, the chief executioner, has received a number of threatening letters from Anarchists.

The approaches to La Roquette will be strongly guarded.

DEEMING'S TRIAL.

An Effort Will Be Made to Prove Him Insane.

MELBOURNE, April 9.—It is believed the trial of Deeming will prove one of the most interesting that has ever taken place anywhere in the world.

The defence will be insanity, and many experts will be called to testify as to the species of madness with which his counsel claims he is afflicted.

Despite his air of bravade at the inquest and afterwards, the man appears to be breaking down. He frequently asks for stimulants.

When the taking of testimony was concluded yesterday the Coroner ordered Deeming to stand up. The prisoner took no notice, apparently having fallen asleep. A policeman shook him and he awoke with a start.

During the absence of the jury Deeming laughed and chatted with the lawyers, officers and others about him. He spoke to one of the court officials about the length of time it took them to arrive at a conclusion, and said: "Shall I go and assist the jury with their verdict?"

As soon as the verdict was given he turned to one of the persons standing near him and said: "I could have done in two minutes what has taken them so long to decide."

The coroner then announced that Deeming would be tried for the murder of his wife on April 22 and added: "I shall now issue a warrant." The prisoner replied: "You can put it in your pipe and smoke it."

Deeming fainted when he was taken to his cell and stimulants were given to revive him.

In an interview with his solicitor Deeming supplied Mr. Lyle with abundant material for his defence. Deeming remarked: "The world produces moral as well as physical monstrosities."

MINNEAPOLIS, Minn., April 8.—Deeming was at one time a resident of the North-west Territory under the name of Williams. In 1884, in the Province of Assiniboia, he began business as a watchmaker, but ultimately disappeared with a large number of valuable watches intrusted to him.

Was She a Victim of Deeming.

MELBOURNE, April 9.—The Telegraph, in an article about Deeming, says: "While going under the name of Williams, Deeming courted a girl living at Wollahra, New South Wales. The girl died suddenly and mysteriously and it is believed she was murdered by Deeming."

Soldiers at Evictions.

LONDON, April 9.—In the House of Commons yesterday Mr. William O'Brien made a motion that the House adjourn. The motion was in order that he might have an opportunity to call attention to the House to harsh and unconstitutional employment of soldiers in carrying out evictions for arrears of rent among the peasants on Clare Island, the population of which was last year saved from famine by public relief.

The Right Hon. William L. Jackson, Chief Secretary for Ireland, contended that to stop employment of soldiers in evictions would be an incitement to the people to resist any of the decrees issued by courts. He could not promise not to employ soldiers in this work when it was necessary.

After some debate on the motion to adjourn it was defeated.

A Posen Tragedy.

BERLIN, April 9.—Dr. Poniaski, a high Polish ecclesiastic of Inowrazlaw, Province of Posen, was assassinated today. Four men called at his house and handed him a card, on which was printed a command signed by the committee of the Polish Anarchists calling upon him to surrender all the money he had in his possession for the benefit of the Anarchists. The card stated that if he refused to obey the command he would be killed.

Dr. Poninski, who was very infirm from age, was terribly startled at the import of the message handed to him. He ran to a window and jumped to the garden.

The Anarchists followed him to the window, and before he could reach a place of safety they poured a volley of bullets into his body from their revolvers. He fell dead.

The assassins then fled but the alarm was given and the owner of Kosciesleg Castle, a brother of Dr. Poninski, and 20 others at once armed themselves, and mounting horses started in pursuit of the murderers. They were soon overtaken. The pursuers fired a volley into the group, killing two of the murderers. The other two placed their revolvers to their own breasts and killed themselves.

It has been learned that the four Anarchists came from Berlin purposely to murder Dr. Poninski.

For An Irish Parliament.

LONDON, April 9.—In the House of Commons Alexander Blane (Parnellite), member for South Armagh, gave notice that a month hence he would move that the time had come to establish an Irish Parliament in Dublin to manage and control affairs in Ireland, including land legislation, judicial appointments and the Irish constabulary.

Other Charges Against Mrs. Montagu

LONDON, April 9.—Edward Saunderson, member for North Armagh, asked in the House of Commons why Mrs. Montagu had not been prosecuted on the further charges of cruelty to her three sons. He was told that the Crown Solicitor had received instructions to hear further evidence.

A COLUMN OF CANADIAN.

PECULIAR VERDICT OF A SEAFORTH JURY.

Mysterious Death of a Carpenter on a Hotel Barn—Aftermath of the New German Murder Trial—Various Notes from All Parts of the Dominion.

SEAFORTH, April 9.—The hostler at the Queen's Hotel found on entering the barn yesterday morning the body of a man lying upon the floor with marks of blood on the face and on the floor. Several recognized the body as that of a man who had been seen about town the previous day. He gave his name as Hoggby and said he was a carpenter.

An inquest was held last evening, and from the medical evidence given as a result of a careful post-mortem examination the following verdict was rendered at an early hour this morning:

That the deceased came to his death from concussion of the brain, caused by violent contact with a hard, smooth, slightly rounded surface, but whether such injury was inflicted by a weapon in the hands of some person or by a fall the jury cannot decide from the evidence so far obtained.

A post-mortem examination revealed a severe fracture of the skull with an indentation as if made by some small weapon. There were several fractured ribs and a dislocation of the spinal column.

SEVEN MILLION DOLLARS.

Sir Hugh Allan's Estate To Be Divided Amongst His Sons.

MONTREAL, April 9.—The youngest son of Sir Hugh Allan, one of the founders of the Allan Steamship Company, attained his majority on April 2. By the terms of Sir Hugh's will, his estate, which is valued at about seven million dollars, was not to be divided until this event. The terms of the will, which is dated Jan. 25, 1880, are now being carried out. The young man gets six-twentieths of the profits of the business, and the other two sons, Bryce J. Allan and H. Montagu Allan, gets each seven-twentieths.

FELL DEAD IN A BROTHER'S ARMS.

Shocking Fatality in a Hunting Party Near Belleville.

BELLEVILLE, April 9.—At Squire's Creek in the township of Rawdon, near Sterling, Alexander McMullen, with two brothers, went out in a boat to shoot pike, and the boat becoming fast on some obstruction Alexander McMullen attempted to shove the boat off with the butt of his rifle, the muzzle being towards him. The rifle being at half cock, it was by some means discharged, the ball entering just below the ear on the right side and coming out of the top of his head on the left side. Death was, of course, instantaneous, and his lifeless form was caught as it fell by his horror-stricken brothers.

The young man was a member of No. 2 Company of the 49th Battalion.

Mrs. Surratt's Executioner Insane.

GRAND RAPIDS, Mich., April 9.—Captain Chris Rath, who hanged Mrs. Surratt and the other Lincoln conspirators in Washington, was suddenly bereft of reason yesterday on the run to Jackson with the mail train. He had been mail agent for 20 years between here and Jackson, and made the latter place his headquarters.

Robbed on a Pullman.

WINNIPEG, April 9.—Passengers on the Pullman coach attached to a special which arrived in this city last evening from Halifax report that while traveling at night between Chalk River and North Bay a sneak thief passed through the car and extracted money and articles from pockets of passengers who had left their clothing near the edge of their berths.

Kindled His Own Funeral Pyre.

TWEED, Ont., April 9.—While the workmen were clearing away the debris from the ruins of the mills recently destroyed by fire a quantity of human bones were discovered near the spot where the fire originated. It is supposed a drunken tramp with a lighted pipe had lain down there for the night, thereby causing the fire and losing his life.

Trade Only Fair.

NEW YORK, April 9.—Special telegrams to Bradstreets do not indicate any material improvements in the condition of general trade, taking the country as a whole.

General trade in Ontario is only fair. Prices of cottons, with the Dominion mills under one management, are steady. Demand for hardware is better, but grain is dull.

Montreal reports a fair distribution of general merchandise and a favorable outlook as to lumber.

Canadian business failures this week number 23, against 18 last week.

Wreck on the Canadian Pacific.

FARNHAM, Que., April 9.—About 6 o'clock yesterday two special freight trains collided on the main line of the Canadian Pacific Railway about two miles south of this station.

The two trains came together with fearful force, totally wrecking both locomotives and several freight cars and hurling one of the brakemen about 35 feet distant, inflicting fatal injuries.

Left Home But to Die.

SIMCOE, Ont., April 9.—The body of James Wells arrived here yesterday. Four weeks ago he left Victoria, where he had been spending a holiday with his parents, to resume his duties as a brakeman on the Mackinaw division of the M.C.R. While standing on top of a car at Penconning, Mich., he fell off and was killed.

Suicide at Wallaceburg.

WALLACEBURG, April 9.—About 11 o'clock last night a French-Canadian named Xavier Tessier committed suicide by jumping off the iron bridge which crosses the main stream. His body was recovered. His friends live in Penetanguishene.

The Crows' Nest Pass.

OTTAWA, April 9.—At a meeting of the Committee on Railways and Canals the use of Crows' Nest Pass in the Rocky Mountains, between the Northwest Territories and British Columbia, was granted to the Alberta Coal Company, starting in the Territories and the British Columbia Southern from beyond the Rockies, who desire to construct a railway through the pass.

Fifteen Days For Stealing a Rat.

BROCKVILLE, April 9.—This morning a constable lodged in jail a young man named Hiram Davidson, who was sentenced to 15 days hard labor by the Police Magistrate of Newboro for stealing a muskrat out of a trap.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal diseases, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

THE DR. WILLIAMS MED. CO.,
Brockville, Ont., or Morristown, N.Y.

SHILOH'S CONSUMPTION CURE.

This GREAT COUGH CURE, this successful CONSUMPTION CURE, is without a parallel in the history of medicine. All druggists are authorized to sell it on a positive guarantee, a test that no other cure can successfully stand. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

SATURDAY, APRIL 9, 1892.

For the Druggists' Eye.

To the Editor of the Examiner:

DEAR SIR—I noticed the letter of "Citizen" in last evening's *Review*, asking that the druggists of the town make an agreement at an early date to allow their clerks shorter hours during the summer season. I heartily concur in the opinion advanced, and would, not from any personal interest or concern in the matter, like to see such an arrangement made at an early date and carried into effect. Drug clerks, generally speaking, serve their employers longer hours than any other class of employees, and it is but right and fitting that they should be allowed some respite from their arduous labours during the season when the mercury registers very high. I am certain, sir, were such an agreement made among the local druggists, it would redound to their credit and magnaminity, and that a grateful public, which is not slow to recognize humanitarian motives, or kindly considerations, would assure the pharmicists that they would not suffer in the least from a pecuniary standpoint. In cases of sudden illness or serious attacks, nearly all, if not all, the apothecaries have telephones in their private residences as well as at their places of business, and I am positive no inconvenience or loss of accommodation would ensue to the public, if such a measure were carried out. Drug clerks work now until nine o'clock and even later every evening, and it would be but a deserved compliment and practical recognition on the part of their superiors to allow them a reprieve from duty at least two hours sooner for a period of three or four months. Hoping some of the different druggists of our town will start the ball rolling and show a good example. I remain, Sir,

Yours truly,
ET MODUS IN REBUS.

A Chance to Make $500—Or Better!

A slim chance, you fancy. Well, read and judge for yourself. You have Catarrh. $500 is offered for an incurable case of Catarrh in the head, by the proprietors of Dr. Sage's Catarrh Remedy.

SYMPTOMS OF CATARRH.—Headache, obstructions of the nose, discharges falling into the throat, sometimes profuse, watery acrid, at others, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in the ears, deafness; offensive breath; smell and taste impaired, and general debility. Only a few of these symptoms likely to be present at once. Dr. Sage's Remedy cures the worst cases. Only 50 cents. Sold by druggists everywhere. $500 or a cure. Either would be acceptable.

Canadian Apples All Right.

A rumour has been circulated in Great Britain, which is becoming a fine market for Canadian apples, that the apples were poisonous because of the use of paris green, in spraying to destroy injurious insects. In the Ontario Legislature, on Thursday, Mr. Meredith called attention to the report from England that attacks were made there upon Canadian apples because arsenic was used in sprinkling the trees during bloom to drive away insects, and Mr. Dryden said there was nothing whatever in the report. The attention of Mr. Fletcher, the Dominion entomologist, was called to it, and his evidence was taken down by the committee on the bill. The statement was no doubt circulated by interested parties to injure Canadian trade, but there was no truth at all in it.

It is not What we Say

But what Hood's Sarsaparilla does, that makes it sell, and has given it such a firm and lasting hold upon the confidence of the people. The voluntary statements of thousands of people prove beyond question that this preparation possesses wonderful medical power.

Hood's Pills cure Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

GRAND RE-OPENING

of Gough Bros. Mammoth Clothing, Hat and Boot Stores.

During the past month these stores have been undergoing extensive alterations, and now, with pardonable pride, we have much pleasure in announcing that these stores are the finest of the kind in Canada. Their aim has been to clothe a man or boy from head to foot. They have added department after department, until now they have reached the goal of their ambition. Each department is replete with all the latest novelties. We will not enlarge on the prices the goods will be sold at, suffice to say they will simply astonish our patrons.

A WORD ABOUT OUR CLOTHING DEPARTMENT!

NEVER in the history of the trade has such an array of fine clothing been placed before a buying public. Our stock this Spring embraces all the latest designs and patterns, and they were made under our own special supervision, the workmanship is of a superior quality. Notwithstanding all this our prices will be found lower than ever. When we came to you as the revolutionizers of the clothing trade, we promised you then that we would benefit the public, and now, after a long trial, have we kept our word? If so, let that be our best guarantee to the public that we will deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please everyone, still to those whom we did not please, as well as to those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes, and our judgment, like any human being's, may err. Still, we try to avoid errors as much as possible, and therefore it is our proud boast when any one had a grievance we never refused to make it right when brought to our notice. This spring we are going to redouble our exertions, and by keeping Good Goods, Nice Goods, square dealing and extremely low prices, we hope to merit a continuance of your generous patronage.

GOUGH BROTHERS,

The Wonderful Cheap Men, 377 and 379 George Street, Peterborough.

N.B.—EVERY PURCHASER OF A BOYS' SUIT WILL RECEIVE A BALL AND BAT FREE.

Provincial Vital Statistics.

Birth, Marriages and Deaths.

The report of Dr. P. H. Bryce, deputy, registrar-general, upon the registration of births, marriages and deaths, was presented to the House on Thursday. Special attention is directed to the following points:—(1) If we are to judge of the completeness of the returns by a comparison of the births, marriages and deaths in Ontario with those of any European country, or even with Massachusetts, it is apparent that they are either imperfect or that there exists a notably less natural increase of population in Ontario as compared with those of other countries; (2) the falling off in the population in some of the older counties is due in part to other causes than imperfect returns; (3) the marriage rate of the Province is abnormally low as compared with other countries; (4) the general death rate of Ontario cities compares most favorably with the most progressive American cities; (5) the death rate for the whole Province from contagious diseases is low. Some curious facts are given with respect to marriages. December, October and September were the favorite months for marrying. Comparatively few took place in August. The united ages of the oldest couple married was 149. The greatest disparity was the case of a man of 79 who married a maiden of 17 years. The Methodists again head the list in the number of marriages, the proportion being 1 in every 2.7 persons married. Two hundred and eighty-four pairs of twins were returned during the year and four cases of triplets. There were 23 deaths of persons over 100 years of age; phthisis, usually the principal cause of death in Ontario, gave place to pneumonia. The average age of cultivators of the soil was 60.5 years; of mechanics, 5.21; of business men, 48.3; of professional men, 51.1; of miscellaneous, 6.03; of females at work, 37.3.

CLARENCE L. DODGE, M.D., Clinton Avenue, Kingston, N. Y., says:—

"Castoria is a preparation that we should all be thankful for. We are given its component parts—and are thus not in the dark as to its composition. As a matter of fact, a large majority of the physicians of this country use it. Its active ingredient is undoubtedly senna, but its taste has been admirably covered by a most consummate blending of aromatics, the successful imitation of which has never been accomplished. The baby's palate has been catered to to that extent that no child has ever been known to refuse the second dose. We should not refuse to sanction the use of so pleasant and efficient a remedy."

DAVID ROSS

A MONTREAL MIRACLE.

After Seven Years of Helplessness, Health is Restored.

A Statement of the Remarkable Case of Miss Ramsay as Investigated by a Reporter of *Le Monde*.

Le Monde, April 1st.

During the past year newspapers in various parts of the county have chronicled accounts of marvellous cures from the use of a medicine known as Dr. Williams' Pink Pills for Pale People. These remarkable cures, many of them in cases hitherto held by medical science to be incurable, were known as the Hamilton miracle, the Cape Breton miracle, the Detroit miracle, the Saratoga Co. miracle, etc., and were vouched for by such leading newspapers as the Toronto *Globe*, Hamilton *Times*, Hamilton *Spectator*, Halifax *Herald*, Detroit *News*, Albany N. Y. *Journal* and others, whose high standing left no room to doubt that the facts were as stated. And now *Le Monde* is in position to add another laurel to the renown achieved by Dr. Williams' Pink Pills, by giving the facts of the case, and certainly a remarkable one, which cannot fail to interest Montrealers inasmuch as it is not only local, but gives the cure of a young lady well known and esteemed in the district in which she resides. The young lady who owes her restoration to health and strength is Miss Miss Ramsay, daughter of Mr John Ramsay, the well known manufacturers' agent, and one of Montreal's most esteemed citizens, who does business at 260 St. James street, and resides at 14 Coursol street. Some of the facts of this remarkable case having come to the knowledge of *Le Monde*, a reporter of this paper was detailed to make an investigation and in the interest of other sufferers, lay an accurate statement of the facts as be found them, before the public. Both Mr. Ramsay and his daughter were found to be enthusiastic in their praises of Dr. Williams' Pink Pills, and from the story told the reporter they had excellent reasons for their enthusiasm. At the age of 14 said Mr. Ramsay, my daughter was attacked by chorea, more commonly known as St. Vitus dance. Chorea, it may be said, is a diseased condition of the nervous system which may result from feebleness of constitution, overstudy, or from a shock or fright, leaving the patient in a more or less helpless condition, control of the limbs being lost. The trouble was brought on through a fright she received at a fire which occurred in our neighborhood. That was more than seven years ago, and these seven years have been filled with untold misery to my daughter. Her trouble was in the worst form, and until she began using Dr. William's Pink Pills, medical science seemed unable to successfully cope with it. When she was attacked I called in a physician who treated her for a long time, but without the least beneficial results. I felt discouraged, but determined to leave nothing undone that might tend to restore her health, and I accordingly called in another doctor. His treatment seemed to do her some good, but he left for the States, and she then relapsed into her old condition. I then placed her under the care of another doctor, whose treatment helped her, but she was all run down and so weak that she could scarcely move about. A year ago this last summer, I wanted to send her to the country, but the doctor said she could go no where as she was too far gone. He told me that I must get a nurse to take care of her, and that she must be kept in bed as her blood was all gone, and she might die at any moment. She lingered on, however, in this condition until last summer, when the doctor gave his permission to take her to the country, and she was away from the city from the first of June until the middle of September, when she came home much improved. But it did not last long, for in about a month she began to fail again; but le after bottle of medicine was taken which would stimulate her a little, when another relapse would come. About this time I saw in the papers the article telling of the case of Mr. John Marshall, of Hamilton, and I told her I would bring her a box of Dr. William's Pink Pills. She replied that there was another prescription for me to get which the doctor had left. I was now determined to give the Pink Pills a trial and told her to say nothing about it, but to try two boxes of pills first. Before the first box was finished we could notice an improvement, and after the second box she was not like the same woman at all. Would you believe it, when she had taken the fifth box she actually was able to attend to her household duties, and was not a bit the worse for it. Before she began taking the Pink Pills, if she attempted to sweep out her own room she would be utterly done out. What more can be said in favor of the wonderful merit of Dr. Williams' Pink Pills? Those who know my daughter, and have seen the remarkable change which the use of Pink Pills have wrought, can scarcely believe it, but it is a solemn fact, and my only regret is that I did not know of this wonderful medicine long ago. Since my daughter began to improve Dr. Williams' Pink Pills have been used by many of our friends and neighbours, and I do not know of a single case in which they have not proved beneficial.

The above are the facts of the case as related by Mr. Ramsay, and they certainly bear the strongest testimony to the curative properties of Dr. Williams' Pink Pills.

The facts are also vouched for by neighbors, including the family of Mr. J. S. Randolph, the well known Grand Trunk conductor, who also says the pills have been of inestimable value in his own family.

The remarkable and gratifying results from the use of Dr. Williams' Pink Pills in the case of Miss Ramsay, show that they are a scientific preparation designed to enrich and build up the blood and restore shattered nerves, and are a specific for all diseases arising from either of these causes; that they are also a specific for the troubles peculiar to females and all forms of weakness. In the case of young girls who are pale or sallow they speedily enrich the blood, and bring the bright, rosy glow of health to the cheeks. In fact there appears to be no disease dependent upon a vitiated condition of the blood, or shattered condition of the nervous system that will not speedily yield to a treatment with these pills.

These pills are manufactured by the Dr. Williams Medicine Co., Brockville, Ont., and Morristown, N Y., and are sold in boxes, (never in bulk by the hundred) at 50 cents a box, or six boxes for $2 50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co., from either addresses. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies, or medical treatment.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents. dw

Constipation claims many victims Ward off this dread disease by the use of Small Sugar-Coated Bardock Pills when needed

Foreign Gossip.

Herr Bathe, Civic Treasurer at Schoneck, Prussia, being detected in extensive embezzlements, has committed suicide.

Queen Victoria yesterday received at Costebelle a number of French sailors who served in the Crimean War.

The German Government has decided to adopt the Maxim gun and has ordered 180 of them for the navy.

Henry Wood of Brighton, who abused and murdered a girl 5 years of age, has been sentenced to death.

A St. Petersburg dispatch speaks of peasants in Kieff selling their children for a few roubles prior to immigration.

Ten houses in the Wardengowke District of Thorn burned Tuesday night. Two inmates of the dwelling perished, while 14 others were severely burned.

Severe earth tremors and rumblings occurred yesterday at Mecina, Province of Granada, Spain. Columns of water rose to a great height from fissures in the ground.

The British ship Erato, from Iquique, capsized and sank at Hamburg, at which port she arrived yesterday. Fifteen persons aboard of her were carried down and drowned.

Near Newry, Ireland, yesterday, John McCartan, a large land owner, was found lying in a roadway badly injured. He had been beaten and stabbed by a tenant named Byrne, who escaped.

Faith in Their Skill.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5 00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5 00 per month and medicines free.* These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by express, but at least one personal interview is preferable.

All correspondence should be addressed to Mr. John Murray, Manager, 271 Jarvis street, Toronto

The Great Sale at China Hall.

The stocktaking sale at China Hall has been a great success so far. It is a genuine clearing out sale and it will pay any one to take advantage of it. Every tea chamber or dinner sets the slightest bit damaged, is sold for half price, and to keep up the interest the whole stock is offered at cost. Such staple goods as chamber sets, hanging lamps, dinner sets, etc., at cost price, is an opportunity to embrace. See the show windows this week for index bargains and take a look through the store for other bargains. 2d

Another Morning Runaway.

A runaway occurred this morning on Hunter street. Mr. P. Hefferman, of Dcuro township left his horses and lumber wagon standing in front of Brisbin's flour and feed store. The horses took fright and dashed up Hunter street at a furious pace. On the corner of George and Hunter streets the wagon collided with great force with Mr. Michael O'Brien's wagon which was standing on the corner. The tongue of the wagon to which were attached the fiery steeds, broke off short and gave the animals their liberty. They plunged down George street but were brought to a sudden standstill in front of Mr. McKee's drug store. The seat of the wagon and some machinery was thrown out. Beyond the breaking of the tongue and an exciting time, no damage was done.

The Bottom of the Sea To-night.

The Ottawa *Free Press* of Thursday, says of the great spectacular sub-marine drama, "The Bottom of the Sea," which will be presented in Bradburn's Opera House to-night: "Standing room only," were the words that greeted the late comers at the Grand Opera House last evening on the occasion of the first presentation in this city of The Bottom of the Sea, a piece that relies for success chiefly upon its scenic and mechanical effects. The large audience seemed well pleased throughout and heartily applauded the various sensational incidents. A number of songs were given in superior style, and some first-class dancing introduced. The destruction of a steamer in mid ocean, and the scene showing divers at work at the bottom of the ocean, were remarkably realistic. A fight between the sub-marine visitors and an octopus was well managed and called forth thunders of applause."

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. dw

Look Up Your

Spring overcoats or suits, and have them cleaned, or dyed and repaired at PARKER'S Dye Works.

There Are Others,

But the barber shop you, reader, want to go to is BILLY MORGAN'S, the high-class barber, at 436 George street.

Bring us Up

For the BEST and CHEAPEST meat, ham, breakfast bacon. Pickled Pork a specialty. Pigs cheek 3c. a lb; Sausages, 3 lb. for a quarter.

JOHN J. HOWDEN.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection of this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. R. STRATTON.

New Charlotte Street Fruit Store.

Lowe & Son, proprietors of the new fruit and fish store, Charlotte street, desire to announce to the people of Peterborough that they are now fully prepared to attend to all orders for fruit, fish, canned goods, confectionary, and everything usually kept in this line. We have just opened out a fresh stock of California oranges, pine apples, bananas, lemons, apples, nuts, canned fish, etc. Fresh, salt and smoked fish will always be kept in season. New vegetables, lettuce, onions, radish, rhubarb, etc., fresh and good. Prices the very lowest. Premises formerly occupied by Smith's market.

1685 LOWE & SON.

Sproule's New Photographic Process.

Mr. G. B. Sproule is bound to maintain his reputation as a progressive photographer. He is not content to tread in beaten paths—but *strikes out new lines for himself*. He has originated a new process for finishing photographic work which is a distinct advance in its field where development and discovery are unusually active. The EXAMINER has had the pleasure of inspecting several portraits taken at random from his work, finished by the new process. The unique beauty of the tint, the depth and richness of the finish, the admirable distinctness of detail are all points in the process, which will give it, and deservedly, a wide popularity.

Monthly Prizes for Boys and Girls.

The "Sunlight" Soap Co., Toronto, offers the following prizes every month till further notice, to boys and girls under 16, residing in the Province of Ontario, who send the greatest number of "Sunlight" wrappers:—1st, $10; 2nd, $6; 3rd, $3; 4th, $1; 5th to 14th, a Handsome Book; and a pretty picture to those who send not less than 12 wrappers. Send wrappers to "Sunlight" Soap Office, 43 Scott Street, Toronto, not later than 29th of each month, and marked "Competition"; also give full name, address, age and number of wrappers. Winner's names will be published in *The Toronto Mail* on first Saturday in each month.

Proposal to Establish a Mission.

At a meeting of the Quarterly Board of the Charlotte Methodist church held last evening, the pastor, Rev. Geo. Edwards, occupied the chair. Rev. J. H. Locke was present on behalf of the George street Methodist church, to advocate Methodist church extension work in the town. The Board appointed a committee consisting of Messrs. A. L. Davis, Jas. Stevenson, O. C. Rowse, J. L. Hughes, R. Neill, and the pastor, Rev. Geo. Edwards, to meet and co-operate with the George street Methodist church committee next Thursday night in the matter of extension of mission work in the southern part of the town. The building of a mission church in that part of the town, and the carrying and prosecution of mission work will be discussed and considered.

Market Items.

The market this morning was largely attended by both buyers and sellers. The principal thing that claimed attention on all sides were potatoes, young pigs, maple syrup butter and eggs. Potatoes, loads upon loads were offered, selling at 40, 45 and 50c per bag; apples sold at 75 and 80c per bag, or 20c per peck. Then, too many, young pigs were offered for sale, seven and eight weeks old, selling at $4 and $5 per pair; maple syrup was limited selling readily at $1 per gallon; butter and eggs offered was fine in quality and large in quantity. Butter sold all the way from 20 to 24c per lb. but the prevailing prices were 22 and 23c.; eggs sold at 11c and 12c per doz—getting near Easter now, nothing but eggs galore this morning. The only turkey on the market weighed 22 lbs. It was owned by Mrs. Wm. Braden, Smithtown and sold for $2. Some pork was offered, selling at 7 and 8c per lb, mutton the same. Hogs per cwt. sold to-day at 6c; beef, a very limited quantity offered, brought 6½ and 7½c. The grain market is beginning to boom now. Twenty loads of oats were offered to-day selling at 29c per bush, a number of loads of peas sold at 60 and 65c; wheat is selling fairly well. fall 88c (straight) spring 77c, (standard); barley sold at 40c; hay, $12 00 per ton, many loads on, and straw selling readily at $8 per load.

A Great Artist Coming.

A treat of unsurpassed richness is in store for lovers of music in Peterborough. Frederick Boscovitz, the distinguished pianist, whose illustrated lecture concerts have carried off the musical honors of this season at Toronto, will give an entertainment at Bradburn's opera house on the 21st of April. Mr. Boscovitz, who was a pupil of Chopin, is an artist whose fame has resounded in every capital of Europe, and the importance of his appearing in this town on the date mentioned is too significant to be overlooked. Some slight idea of the consideration accorded him everywhere may be gathered from a criticism which appeared in the New York *Herald* as follows:—"The composers represented were Mr. Bryde, 1543 to 1623; Dr. John Ball, 1563 to 1622; Domenico Scarlatti, 1659 to 1725; Couperin, 1668 to 1733; Andre Campra, 1660 to 1744; Pignolet Mouret, 1682 to 1738; Ramseaux, 1683 to 1764; Krebs, 1713 to 1780; Gretry, 1741 to 1815; Kirnberger, 1721 to 1723; and Handel, 1685 to 1759. In illustrating the compositions of all these masters, the artist displayed all the versatility, scholarly intelligence and musical feeling which have long been recognized as his most sterling characteristics as a performer and interpreter. His essays upon the state of pianoforte literature, from the middle of the sixteenth to the nineteenth century, showed him to be remarkably familiar with the much neglected and important subject." For Mr. Boscovitz's concert here the prices arranged are 75c. A subscription list will open at Scholfield's drug store on Saturday. Subscribers will have first choice of seats.

Easter Cards.

A beautiful line of Easter cards, Easter booklets and Easter tokens at the Peterborough Bookstore. Beautiful new designs—very effective—large variety in samples and low prices.

News Nuggets.

—A large glass lamp was placed in front of the entrance to the Y. W. C. A. rooms this afternoon.

—At a meeting of Hiawatha Encampment I.O.O.F., held last night two candidates received their first and second degrees.

—There is some talk of the name of the Peterborough Amateur Orchestra being changed to the Olympic Club Orchestra.

—Chief of Police Rossel received a telegram this morning announcing the death of his uncle Mr. Jacob Rossel, of Smithville.

—The ninth annual session of the Bay of Quinte conference will be opened in the Methodist church, Port Hope, on June 3rd.

—The music rendered by the Salvation Army band in the evening parades is much admired. Their band has now nineteen pieces.

—There is considerable talk among the ratepayers favourable to another public meeting being held in the Opera House to discuss the sewerage question.

—Three peddlers from the country will receive a hearing before the County Magistrate next week, if they do not take out the necessary thirty dollar license.

—The work of drawing away the refuse from the streets is nearly completed. Thirty men and eleven teams do work pretty fast. The streets will not require cleaning again until after some heavy rains.

—At a meeting of the Young Women's Christian Association held last evening in their rooms, the matter of holding a reception for the members was discussed, and it was arranged to be held on April 29th.

—Fast bind fast find: Sneak thieves are making their annual visits. Mr. D. Bellegham's hall rack mourns the loss of a coat. The thieves must be bold indeed, when they board the inspector of anatomy in his den—the undertaker in his hall.

—Mr. Frank Fairen has in his possession a sample of a novel and unique cigar holder. It is one of the neatest little inventions out. It is adjusted to the top of a hat by means of a steel spring, and six cigars can be carried in it without breaking or mutilation.

—His Honor Judge Weller gave formal judgment to-day in the case of P.C. Crowley vs. Trust and Loan Co. He awarded the plaintiff $100 and costs. Mr. E. A. Peck appeared for the plaintiff and Mr. E. B. Edwards for the defendant.

—Residents on Charlotte street complain of the lack of light on the street between George and the G. T. R. station. The gas lamp has been removed and the electric light at Aylmer street is not far-reaching enough to satisfy the aspirations for light.

—The officers of the P. A. A. A held a meeting in the store of Mr. Wm. Leob. Several matters in regard to fees and how the finances of the club should be run were discussed at length, but no decision was arrived at or action taken. The directors will meet again next week.

—Mr. F. J. Daly, proprietor of the Grand Central Hotel, purchased a fine team of heavy horses for his 'bus line in connection with the Grand Central Hotel. The horses are bright bays with black points, stand 16½ hands high, and weigh 2,600 pounds. They were purchased from Mr. W. D. Grand's great sale barn, in Toronto, at a handsome figure.

—A public meeting will be held in the R. T. of T. Hall on Monday night, when there will be further discussion in regard to the proposed erection of a temperance hotel in the town. It is proposed to erect a first class temperance house in the town, to be built by a joint stock company with shares at $5 a piece, so that all who desire may have a hand in and help the matter along.

—The manufacturers' committee held a meeting last night. A deputation of a dozen workmen waited on the committee and requested that the wages of good corporation men be raised to $1.25 per day. Messrs. Geo. Seymour, Robt. Mickles and others addressed the meeting. The committee agreed to the demands of the deputation and will report favourably to the council.

Personal

Mr. P. M. Howard, publisher of the Hastings *Star* is in town.

Mr. Daniel Mahony, road master of the C. P.R., is about to be transferred to another station.

The Bottom of the Sea Company are in town and stopping at the Grand Central and Oriental.

Mr. Jas. Masson, M. P., Owen Sound, stopped over at the Snowdon House to-day on his way home.

Mr. W. H. Holland, General Inspector of the Manufacturers' Life Assurance Company, Toronto, is in town.

Mr. J. J. McIadoo, Mount Pleasant, is in town to-day. He intends removing to the Northwest shortly.

Messrs. Decoy, Martin, Lacherie, Chapman and Abbott of the Montreal branch of the Edison company are in town.

Mr. R. McWilliams, son of J. B. McWilliams, and Mr. D. C. King, son of Dr. King, have returned home from college.

Messrs. Sam Hughes, M.P., Hon. Senator Dobson and his nephew Lindsay Flood, are in town to-day, registered at the Snowdon.

At the annual meeting of the Canada Life Assurance Company Mr. Geo A. Cox was elected one of the directors, taking the place of Thomas Swinyard on the Board.

Mr. A. W. Ray, senior freight clerk, C. P.R., who has been suffering from a severe attack of inflammation of the lungs, is improving. His place is being filled by Mr. Steadman.

Eye, Ear and Throat.

Dr. Ryerson, Specialist in diseases of the Eye, Ear and Throat, will be at the Grand Central Hotel, in a professional capacity, on Saturday, April 30.

The Boom is Growing Fast and Furious.

Orders are pouring in from all parts of the town and Province for our "G. C." brand of hams, bacon and spiced meats, bologna sausage and lard. Take good care to get our make and you will have no other. To be had at George Carlton's, pork packer and grocer.

"The Hercules Duster,"

The best ever put upon the market. Will remove dust from the most highly polished article without the least danger of scratching. Ornamental as well as useful. Made in colours. See them at the Peterborough Bookstore, 417 and 419 George street. J. R. STRATTON.

Thanks to J. H. Adams.

As through him I have been freed from chills, biliousness, liver troubles, etc., etc. St. Leon Water did it; is the best medicine I ever found; is as good I tell all my acquaintances to go to your store in Brantford and get a supply. Truly, St. Leon is marvelous. A trial brings conviction. dw

CONTAGIOUS.—Until now ladies only were using toilet water; now-a-days you notice even gentlemen having their bottle of Persian Lotion as soon as pimples or freckles arise on their faces. 1d

A Riverside Ramble.

A Few Reasonable Paragraphs of an Aquatic and Industrial Character.

The ruins of Mann's woolen mills are still smoking.

The sidewalk which was scorched severely in the recent fire has been fixed and a new railing put along the side of the walk.

The windows in the vacant Brodie woolen mill are all broken. Many stones thrown by the hand of small boys have done the work.

The bridge on London street between Donel's planing mill and the Dickson Co's. saw mill's is in very bad repair.

The Dickson Company started up their two large saw mills last week. They report excellent prospects for a good season's lumber trade. They are at present employing about 130 hands.

Manufacturers report the water in the river very low at present, but they say it is gradually rising. Strange to say the 10th of May is regarded as high water mark on the Otonabee.

Meldrum, Davidson & Co., report the milling industry as very quiet, from a local aspect. They are taking in very little wheat at present, though many farmers are making inquiries as to the prices paid. Many of them have considerable wheat to sell yet.

Mr. Geo. McWilliams, manufacturer of windmills, pumps, etc., reports a brisk business ahead of him this summer. He is devoting special attention to the manufacture of windmills. He formerly manufactured pumps but he is going out of the latter industry as he thinks that a man making both windmills and pumps is something like a man being both physician and undertaker—one profession starving the other. For the handles of peevies and pike poles which he also makes, good maple can scarcely be obtained The maple logs coming from Havelock are the best.

Mr. J. R. Donel says business is fair. When there is a good building boom in the town the orders for sash, doors, blinds, etc., come in thick and fast. He thinks there will be considerable building operations this summer.

Everything about the Light and Power House is neat, clean and in first class order. The new driving wheel makes things hum. Mr. H. O. Fisk has general charge and is a good superintendent.

All the Dickson Co. men have not returned from the shanties yet. Many of them will be down with the logs, which are expected in two or three weeks They will come from Black Lake, Duck Lake, Eel's Creek, Jack's Creek and Mississauga River.

The ice will be clear in Little Lake next week. The "Daisy's" prow will soon be furrowing the billowy waves, her first cargo being, perhaps, the joint Sewerage Commission next Saturday.

The water in the race is very high; the supply held back at the dam causes the abundance of water in it now.

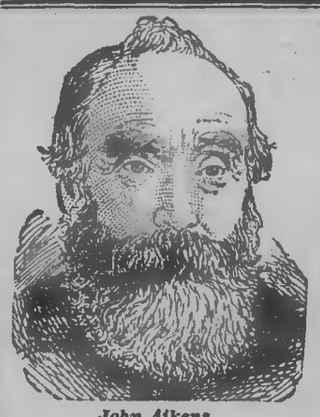
The Riverside Park needs some repairs and cleaning up. The first match of the season will take place on these grounds on the 15th of May between the Peterborough and Port Hope Gun Clubs. This park, if rightly handled in the way of developing its possibilities as a pleasure and sporting ground, will make one of the finest sporting grounds in the district. Its naturally and generally level surface, the proximity to the water, and its accessibility to the centre of the town, are all points in its favor.

Mr. H. A. Malhern, of the Otonabee Roller Mills, reports business as brisk and demand active for his flour. His mills are running to their full capacity.

Mr. J. Stephenson is busily plying the paint brush, polishing up his many canoes to fill the large orders he has for the summer. He says the present summer will be a great one for canoeing, judging by the many canoeists who are beginning to get their craft ready.

Mr. W. Faint runs his mattress factory with a vim. He has made one or two large mattresses to be used by the boys in the Y.M.C.A. "gym."

Mr. Frank Brave, foreman for Mr. Strickland, Lakefield, left the Peterborough House yesterday for Eel's Creek. He took a gang of thirty men with him, and will superintend the progress of the drives.



John Aikens

Of St. Mary's, Ont.

A Great Sufferer from

Dyspepsia

Perfectly Cured by

Hood's Sarsaparilla

The best stomach tonics known to medical science are so happily combined in Hood's Sarsaparilla that it cures Indigestion, and Dyspepsia in its severest forms, when other medicines fail. In many cases Hood's Sarsaparilla seems to possess a magical touch, so quick and so gratifying the relief. Read the following from an aged and respected citizen of St. Mary's, Ont.:

"I am very glad to give this testimonial as to what Hood's Sarsaparilla has done for me. I suffered very much with dyspepsia. I have been taking medicine

For 25 Years

and I never had anything do me as much good as Hood's Sarsaparilla. Every symptom of the dyspepsia has entirely disappeared and I feel that I cannot praise the medicine too highly. I

Eat Better, Sleep Better

and *feel stronger than I have for many years*. I have taken six bottles of Hood's Sarsaparilla bought of Mr. Sanderson, the druggist." JOHN AIKENS.

CORDIAL ENDORSEMENT.

From Mr. Sanderson, the Druggist.

"I know Mr Aikens to be a strictly honest, straightforward man, and take much pleasure in testifying to the truth of the testimonial he gives above." F. G. SANDERSON, Druggist, Queen Street, St. Mary's, Ontario.

HOOD'S PILLS, the best after-dinner Pills assist digestion, prevent constipation.

DRESS GOODS!

A WORD TO SPRING BUYERS

Newness is a factor in the make up of a handsome Spring Costume.

We make the point that our lines of Dress Goods are new, wholly new; new in design, new in colors and shades, and new in prices.

The new things the trade affords and what we haven't got, you need not look elsewhere for.

Jos. Armstrong & Co.

LeBrun's Old Stand, George St.

Gough Bros. in the Pulpit.

A Short Sermon on Sunday Church Going.

"Clothed and in his right mind." This teaches an impressive lesson. We are shocked Sunday after Sunday to see in a town of ten thousand inhabitants, so small an attendance at all the churches and the sad feature of the congregations is to see the "chief seats in the synagogue" occupied by the rich and well fed, while of the poor there are few to be seen. Why, dear brethren, is this thus? Thus it is The poor have their feelings of pride and as they cannot, with their "vile raiment," feel pious while sitting alongside the purse-proud and richly clad, they prefer a stay at home. Where is the remedy? It is suggested by the words of our text—'Clothed and in his right mind." Gough Bros., the great benefactors, have made it possible for the poorest to appear decently clad in church. Their abounding stock of clothing in such endless variety, is so fine and costs so little money, considering its value, that the poorest can afford to get a decent and stylish suit, good enough to wear in Westminster Abbey. At the same time they have suits that a millionaire need not be ashamed to wear, and at reasonable prices too. For it is a fact that as a rule the more money a man has, the harder bargain he drives, and Gough Bros. are ready to sell to the hardest bargain-driver on earth. They have the goods and there prices do the rest. Call and see them and you will return from their palatial shops, like, as our text says, the demoniac after being healed—"Clothed and in your right mind," with your right change in your pocket.

Y.M.C.A. Notes.

Praise, prayer and promise meeting tonight. A hearty welcome to all young men to this rally from 8 to 9. Lively singing led by orchestra, short testimonies. Come and bring a friend.

Bible study and consecration service Sabbath morning, at 9.15, conducted by Mr. R. M. Russell, topic, "The King in Zion," Ps. 22, 1 12.

Personal purity meeting Sabbath afternoon at 4.15, short and helpful straight talk to men only, by Mr. Isaac Richardson; cheerful singing led by Y.M.C.A. band.

Gospel and song service Sabbath evening at 8.30, praise, prayer and promise service. All welcome.

Bible study Thursday evening at 8 p.m.

Good Friday morning at 10 a.m. Junior Branch will meet when Miss Code will give an address. Open house all day at 8 p.m. a choice programme of instrumental and vocal music, physical drill by gymnasium class under Sergt. Major Rundle, to which all young men, especially strangers in town, are invited.

Police Court.

SATURDAY, April 9th.

Two young men were arrested last night while under the influence of liquor, and acting in a disorderly manner. They pleaded guilty, and were each fined $2.

David Doig was charged with purchasing iron stolen from E. Bowie. A search warrant was issued, and the iron found on Doig's premises. Mr. Doig said he was not in the shop at the time the iron was purchased, and did not know from whom it was bought. He said he often bought iron and bone together at the same time and at the same price. He took Mr. Bowie out to the shed, when Mr. Bowie said the iron was his, and picked it out. Mr. Bowie claimed that a great deal of the iron was new castings. The magistrate thought that the defendant should take the names of all boys and parties from whom he bought bone and iron. The case was enlarged a week.

A Prize Puzzle.

If a frog is at the bottom of a well, ten feet deep, how many days will it take him to get to the top if he climbs up one foot each day, and slides back six inches each night.

One Hundred Dollars in cash will be paid to the person who sends the first correct answer to the above prize puzzle, an elegant pair of diamond earrings in solid gold settings given to the one sending second correct answer. A complete education at business college given for fourth correct answer. An imported Music Box (playing six pieces) given for fifth correct answer. A silk dress pattern for each of the next five correct answers. A handsome parlor lamp to each of the next ten. AND A SOLID GOLD WATCH FOR THE FIRST CORRECT ANSWER FROM EACH PROVINCE. Every person answering must enclose four three cent stamps for two sample copies of the finest illustrated publication on this continent. We give these prizes simply to introduce it. Address, LADIES' PICTORIAL WEEKLY, (22), Toronto, Can.

Syrup of Figs,

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

A Big Contract.

The Edison General Electric Company to Furnish the Supplies to the Toronto Electric Railway Company.

The EXAMINER has for some time been in possession of information to the effect that the Edison General Electric Company had received an important order for electric railway supplies from the Toronto Street Railway Company, but from the fact that a definite arrangements had not been concluded between the City of Toronto and the Street Railway Company, the public use of it was not indicated. There is therefore perhaps, reason to credit the substantial correctness of the following Montreal dispatch, though the details of the extent of the company's operations that close the dispatch are necessarily largely speculative:—

MONTREAL, April 7—(Special.)—At 3 p.m. this afternoon the news spread through Montreal that the Edison General Electric Company had received from the Toronto Street Railway Co. the largest order for electric goods ever placed in Canada. In Montreal the Edison people control the Heron Island power, and many of the Montreal Island Water, Lighting and Power Company are interested in this same syndicate. That company possesses the Back River Water Power Company, and there is no lack of power. The contract now awarded covers, it is believed, $1,500 000, and will probably be succeeded by others. Last year the Edison people did nearly $800,000 of business in Canada, and in Peterborough they employ 600 men in their factory.

If the electric company and the City of Toronto come to an arrangement, of which there is no reasonable doubt, we may expect a season of great activity in one of the most extensive manufacturing establishments in the Dominion.

Most people suppose that the manufacture of tobacco consists merely of taking the leaf and pressing it into plugs. The fact is, however, that the process is a very delicate one, and the least false step will injure the flavor. The leaf must be carefully attended to for months after it leaves the planter's hand. It must neither dry to quickly or too slowly. Even after it has reached the factory the utmost delicacy of manipulation is required. The weather must be carefully studied for if there is too much moisture in the air when it is pressed it will mould, and the same will happen if too much moisture is sprinkled upon it for the purpose of opening the leaf. Again, if it is overdried in the oven it will turn crisp, and will nip the tongue in smoking. It is by careful attention to all these points that the "Myrtle Navy" has been brought to such perfection. The firm who manufacture it have their own storehouses in Virginia, and from the time the leaf leaves the planter's hands until it is turned out of the factory, months afterwards, in plugs, it is under the care of their skilled and trusted employees.

The Boundary Bridge Question

The Bill of Victoria has the Sting Taken Out of it in Committee.

The following is taken from the *Globe's* report of the proceedings in the Ontario Legislature on Friday:

The House then went into committee on Mr. McKay's (Victoria) bill "to amend an act respecting the Township of Harvey in the County of Peterborough." Mr. McKay explained that this bill provided for the maintenance of bridges between the Counties of Victoria and Peterborough. He claimed that the act at present enabled Peterborough to evade the liability for these bridges.

MR. BLEZZARD (East Peterborough) moved in amendment to include another bridge in the schedule for joint maintenance, a bridge now maintained altogether at the expense of Peterborough, although Victoria benefits by it.

MR. STRATTON (West Peterborough) spoke strongly against the bill, stating that the County of Peterborough had never consented to the detaching of Harvey Township from Peterborough except upon the distinct understanding that the Bobcaygeon bridges were no longer to be a charge upon the County of Peterborough.

Mr. Fell (East Victoria) replied briefly to the arguments of the Peterborough members, claiming that Victoria would be dealt with unjustly were the amendments accepted. After remarks from Mr. Guthrie, Mr. Wood (Hastings) and Mr. Meredith, the House got tangled up in a point of order over a proposal that the counties should maintain the fourth bridge added by the amendment in a proportion to be decided by three arbitrators, only until both counties decided to abandon it. Over an hour was taken up, and in the end the bill was reported with the fourth bridge added. The proportion to be paid by each county on all the bridges will be determined by three arbitrators, one appointed by each of the parties and one by the Superior Court.

It is probable in view of these facts that the Bill will be withdrawn.

The Spring,

Of all season in the year, is the one making radical changes in regard to health. During the winter, the system becomes to a certain extent clogged with waste, and the blood loaded with impurities, owing to lack of exercise, close confinement in poorly ventilated shops and homes, and other causes. This is the cause of the dull, sluggish, tired feeling so general at this season, and which must be overcome, or the health may be entirely broken down. Hood's Sarsaparilla has attained the greatest popularity all over the country as the favorite Spring Medicine. It expels the accumulation of impurities through the bowels, kidneys, liver, lungs and skin, gives to the blood the purity and quality necessary to good health and overcomes that tired feeling.

Ladies.

A pin in your brooch costing only 5 cents, at WYATT'S. If broken within three months will be replaced free of charge.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

Clearing Sale of Groceries.

As I am going extensively into liquors, I find it necessary to run off my entire stock of groceries to make room. So all requiring groceries will do well to bear this in mind as the stock must be run off within 30 days. W. J. MORROW, 340 George street.

Wabash Line.

A man going west should remember the great Wabash Route is the banner route to all south and south-west points. They run the finest equipped trains on earth. The only railroad using the palace reclining chair cars (free) from Detroit to St. Louis, Kansas City and Omaha. All trains go through the great tunnel at St. Louis. Time tables and all information from your nearest ticket agent or J. A. Richardson, Canadian Passenger agent, 28 Adelaide street east, Toronto.

FRANK L. CLINDENAN.

Some Call it a Miracle.

Canadian and American Physicians Were Defeated - A Boy's Extraordinary and Dangerous Condition—Neighbors and Friends Astonished—He is Cured—Paine's Celery Compound does the Work.

Amongst the wonderful and remarkable cures effected by Paine's Celery Compound, during the last few months, that of young Frank L. Clindenan stands out prominently as a proof of the healing and restorative qualities of that most extraordinary remedy.

It is now a case of great prominence, owing to the fact that the boy's family is well known around the town of Welland Port, Lincoln County, Ont., and the whole story is vouched for by Mr W. W. McKeague, the popular Welland Port druggist. The remarkable circumstances have given rise to great excitement throughout Lincoln County, and have induced the sick and suffering of all ages to use the same agent that restored to health a dear son who was so terribly afflicted.

The following testimony from the boy's father, Mr. Walter Clindenan, will deeply impress the reader with the fact that no other agency on earth could have produced such astounding results :—

"Three years ago last February my boy, ten years old, was taken with what the doctors called catalepsy. Three doctors informed me that there was not any hope for him. Last April we tried a specialist from Buffalo, but he got worse and had fits—two in one day. On the 28th day of May I called on my druggist, W. W. McKeague, and he recommended Paine's Celery Compound, and when my boy had taken four bottles he was entirely well."

Yours truly,
WALTER CLINDENAN.

Desiring to have fuller information before publishing Mr. Clindenan's letter, we communicated with Mr. McKeague, who was acquainted with all the circumstances of the case, and can now give the readers a few extracts from the popular druggist's letter. He says :—"The first time the boy came into my store his mother was with him, and told me that her boy took fits ; and it so happened he had one while in the store. He stood perfectly motionless, did not fall or froth at the mouth, but you could yell at him to the top of your voice, and he could not hear. His mother told me if he was putting a cup of tea to his mouth, and got it half way up and a fit came on, he would hold it just in that position until recovered from the fit.

"The first doctor told the family that it came from catalepsy ; another said it came from the stomach, and treated him, but he got no better. They took him to four or five different doctors, but none of them helped him, and the fits came on more frequently. They took him to a specialist in Buffalo, (specialist on fits alone) ; he gave them medicine for him ; and after he had the bottle about half done he got worse ; he would froth and fall down when the fits would come on, something he never did before. A short time after this the mother was in my shop, and told me all about it. I persuaded her to take a bottle of Paine's Celery Compound home to try it. This remedy did the good work, and it has made a wonderful change in him. I believe the diagnosis of the second physician was right, and that the trouble came from the stomach and nerves."

Count Westerloo Dead.

BRUSSELS, April 8.—Count de Merode-Westerloo, President of the Belgian Senate, died yesterday of influenza at the age of 68. He exercised a great influence in the clerical party and was president of the Malines Church Congress last year.

Italy Supports England.

CAIRO, April 8.—Italy is supporting very strongly the English resistance to the acceptance of the Sultan's firman. The situation continues to be very strained. The British squadron in the Red Sea has been reinforced by several vessels from the East India station.

English Anarchists to Meet in Hyde Park.

LONDON, April 8.—The Anarchists in London and various other centres in England propose to hold a demonstration in Hyde Park, this city, to show their sympathy with the four Walsall Anarchists who were recently sentenced to various terms of imprisonment at the Stafford Assizes.

The Free Wool Bill Passed.

WASHINGTON, April 8.—The free wool bill passed the House of Representatives by 194 to 80.

It is not what its proprietors say, but what Hood's Sarsaparilla does, that makes it sell, and wins the confidence of the people.

A Great Surprise

is in store for all who use Kemp's Balsam for the throat and lungs, the great guaranteed remedy. Would you believe that it is sold on its merits and that any druggist is authorized by the proprietor of this wonderful remedy to give you a sample bottle free It never fails to cure acute or chronic coughs All druggists sell Kemp's Balsam. Large bottles 50 cents and $1. dw

If you are tired taking the large old-fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them. dw

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Cold Weather Trials.

DEAR SIRS.—This fall and winter I suffered from neuralgia in my face and had the best medical advice without avail. I at last thought of trying B B B., and after using one bottle have not felt any symptoms of pain since. I regard it as a fine family medicine.

J. T. DAGGE, Hartney, Man.

Austrian School for Millers.

The milling industry of Austria has deteriorated to such an extent that a petition has been addressed by the Association of Millers in that country, asking the Government to establish a technical milling school. It is proposed to connect with the school an experimental mill and a testing laboratory. The course of study is to cover one year, while a two years' course will be provided for mill engineers. The course of study proposed is extremely practical, and the establishment of the school will, it is said, have a marked influence on a languishing industry.

Cut His Body in Halves.

MONTREAL, April 8.—William Brennan, a brakeman of the C.P.R., fell off the cars while shunting yesterday in the Dalhousie Square yard here. The wheels passed over him at his waist, cutting the body in two. Brennan, in spite of the nature of his wounds, endeavored to rise, but in a few seconds fell back on the ground dead.

Killed by Drugged Candy.

DETROIT, Mich., April 8.—It was reported from Port Huron that Nellie McClayton, daughter of a hotelkeeper there, has died from eating drugged candy, said to have been given her by Benjamin Mackey, a candy maker. Mackey was arrested here and was taken back to Port Huron. He is only 20 years old.

The Family Medicine

Trout Lake, Ont., Jan. 2, 1890.
W. H. COMSTOCK, Brockville.

DEAR SIR :—For a number of years I have used and sold your "Dr Morse's Indian Root Pills." I consider them the very best for "Family Use," and all my customers speak highly of them.

Yours truly,
dw R. L[illegible]N.

IT RESTS THE BACK Most women know all about the misery of washday. To many it means Backache, Sore Hands, Hard Rubbing over a steaming tub, and long hours. This falls to the lot of those who use poor, cheap, and injurious soaps.

This Soap does away with Hard Rubbing, Tired Backs, Hot Steam, and Sore Hands. It brings comfort to millions of homes, and will do so to yours if you will use it.

"August Flower"

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction into your head or medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Brown Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it up as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it; and as for Dyspepsia, she does not know that she ever had it."

Doubting Thomas.

Vomit Every Meal.

Burdock Blood Bitters

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock Blood Bitters

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock Blood Bitters

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock Blood Bitters

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. Pimples, blotches, boils, rashes, eruptions, sores, etc., vanish at once before the wonderful purifying powers of B.B.B.

Town and Country.

We people who spend most of our thought and nearly all of our time in trying to provide food for the working people—who in turn furnish other things that we need—too often forget that the prosperity of our country depends not alone on the success of our farmers, but on the thrift and enterprise of those men who even make the buttons for the farmer's coats, the shirt for his back, the shoes for his feet, and all those other things which we have seen in process of manufacture this morning. Yesterday I told a friend of mine that the population of Berlin was about six thousand, and I felt that I had been stretching; but now I find you have nearly eight thousand people and that your throbbing manufacturing enterprises enable you to make every township and county in Canada pay their tribute to you, because your goods go from one shore of the continent to the other. I want to say in this connection that the closer the bond of sympathy between people working in towns, and those who work on farms, the more will they be able to help one another, and to enjoy even privileges. Very often the countryman thinks the townsman is a man who waits to take advantage of him at every turn; and the townsman often thinks that the countryman is a fit subject to be skinned down close every chance he gets. When we know each other better, we will be able to work together more harmoniously for the advancement of the many interests of our one Dominion.—From address by Prof. Robertson.

Potato Experiments.

At the Maryland Experiment Station they tried four different methods of seeding for potatoes, and found the results as follows: Using a large potato to each hill they raised potatoes at the rate of 100 bushels upon 69.48 square rods, or about three-eighths of an acre. With a medium-sized potato in each hill it required 91.76 square rods; with the usual cut piece of two or three eyes, it required 119.20 square rods, and when only one eye was put in the hill it required 176.72 square rods, or over 1.1 acres. This would seem a convincing argument in favor of the whole large potato seed, but probably much would depend upon the distance between the hills and the richness of the soil, or its ability to grow a hundred bushels on three-eighths of an acre. New England farmers, who perhaps have not such rich soil, and plant closely in drills, think that they get better results from comparatively light seeding.

A Horseshoe Novelty.

The novelty in the horseshoe here represented is a strong band of thin steel, varying in width according to the class of horse, provided with one or more similar vertical bands, bent on at right angles, and is secured in a simple manner to the inner side clip, at the rear of the shoe. It is brought around near the top of the hoof, passing through a similar slotted clip on the opposite end of the shoe, and drawn quite tight. The shoe is held at the front and rear closely and firmly to the hoof. It can be easily put on or off, and the cost is the same as for ordinary horseshoes. It is an English invention.

Principles of Home Dairying.

For the man who loves the work and is willing to take all possible pains the home dairy is the proper thing. He will follow so far as practicable scientific teachings. In breeding his herds, which is the proper way, the greatest care will be made in selecting the sire. Gentleness also pays twofold, while regularity in care and feeding are indispensable. In regard to making the butter he should study the market to learn what kind has the most call and then try to supply it. In all cases conditions alter his needs, but success or failure depends entirely upon himself. He will therefore strive all the more to achieve success.

As a spring blood remedy there is nothing equals Dr. Williams' Pink Pills. They supply in a condensed form the elements necessary to enrich the blood, stimulate the nerves and build anew the system enervated by being "housed up" during the winter months. Sold by all dealers or sent on receipt of price—50 cents a box or six boxes for $2.50—by addressing the Dr. Williams Med. Co., Brockville, Ont., or Morristown, N. Y. dw

For several years I was persistently annoyed with an excessive accumulation of Dandruff and although using various preparations recommended and shampooing regularly once a week, no material relief was realized until my attention was called to Ani-Dandruff, which has produced unlooked-for results in my case, four applications removing every particle of Dandruff, and as a specific for this trouble it certainly has no equal.

Yours truly, W. T. RODINSON,
Can. Pac. Rys. Telegraph Co., Montreal, P. Q. dw

Cure For Dyspepsia.

As is well known, this troublesome complaint arises from over-eating, the use of too much rich food, neglected constipation, lack of exercise, bad air, etc. The food should be thoroughly chewed and never bolted or swallowed in haste, stimulants must be avoided and exercise taken if possible. A remedy which has rarely failed to give prompt relief and effect permanent cures, even in the most obstinate cases, is Burdock Blood Bitters. It acts by regulating and toning the digestive organs, removing costiveness and increasing the appetite and restoring health and vigor to the system. As a case in point we quote from a letter written by Miss L. A. Kuhn, of Hamilton, Ont.:—"Two years ago life seemed a burden, I could not eat the simplest food without being in dreadful misery in my stomach, under my shoulders and across the back of my neck. Medical advice failed to procure relief and seeing B B B advertised, I took two bottles of it, and have been entirely free from any symptoms of my complaint since." This gives very conclusive proof of the efficiency of this wonderful remedy. dw

It Is a Very Sad Thing

To see young and beautiful people die when they might just as well live and enjoy health and strength. Many who suffer with coughs, colds and lung troubles, leading to consumption, imagine there is no hope for them, when in reality there is every hope if Miller's Emulsion of Cod Liver Oil is taken regularly. Spread the news everywhere that this great emulsion will make flesh and blood, cure coughs, colds, bronchitis, sore throats and lung troubles tending to consumption. In big bottles, 50c. and $1, at Peterborough Drug Store. dw

THE KINGDOM OF WOMEN

"REST A PLENTY" BRINGS BEAUTY TO PRACTICERS THEREOF.

The Tailor-made Gown—Women's Whims—Decorations For Women—The Wedding Ring and Its Significance—Ribbons Everywhere—The "Senorita" Bodice.

"Rest a plenty, dear," is the Southern woman's advice in cases of trouble or illness, and there is more reason and sense in the prescription than in the united wisdom of all the doctors in America. Half the ills of feminine flesh and spirit may be laid at the door of strain and over-fatigue, and an afternoon of perfect repose will often ward off a week's illness. By repose I don't mean sitting in an easy chair with a book or some work, to be interrupted and made to jump up half a dozen times, with hands and brain just as active as if you were about your business. No; lie prone on a comfortable sofa or bed, with corset and boots removed and a light wrap thrown over you; have the room a bit darkened, and think about the pleasantest things you can conjure up. Follow the example of the lower animals. They realise that rest and warmth are the very best medicines.

Rest every now and then, even if there is nothing absolutely wrong with you. It will make you lovely, and to a real womanly woman beauty, or at least attractiveness, is as well worth working for as anything on earth.—New York Press.

The Tailor-Made Gown.

Worth has, it is probable, done more to extinguish the severe tailor gown as a visiting costume than any other person in the world, writes Mrs. Mallon in an article on "Some Visiting Toilettes," in the March Ladies' Home Journal. He has always despised them, called them "stable clothes," and insisted that the only place for them was in the street, when travelling, when driving one's self, or when taking long walks into the country. All his protestations against them went for nothing, but at last he carried the war into Africa by taking the fine cloths themselves and making them elaborate with rich trimmings. He has favored sapphire, navy and steel-blue; seal and golden brown; emerald and very dark green; black, bright scarlet, heliotrope and mode in the cloths, and has found no material too rich to combine with them. And so he has triumphed. And the cloth costume of to-day, intended for visiting, is a marvel of elaboration, having no machine stitching upon it except that used for the seams of the skirt and the seams of the bodice. Velvet is very generally used with cloth, but all-velvet gowns are also seen. Heavy silks or brocades are united with cloths, and velvet ribbon, fur, passementerie of all kinds, and very coarse lace are used as decorations. The materials are carefully blended, and the trimmings so skillfully applied that nothing seems incongruous. A garniture out of place, not in accord with the material is, as all good dressmakers know, less to be desired than none at all.

Women's Whims.

The latest whim of the San Francisco girl is a fancy for having her foot immortalized in a plaster of marble. In the studios of the fashionable sculptor the artist and his assistant are busy reproducing the pedal extremities of society's swell matrons and maidens at $10 a head, or rather a foot, for plaster, and from $70 to $100 in the flawless marble of Carrara. And this is how it is done. The woman with the pretty foot removes her dainty shoe and daintier stocking, dips her foot in oil, delicately perfumed, of course, and the sculptor forms a mould of plaster of Paris about it, which is taken off in sections before it is quite dry. A plaster replica is cast from the matrix thus formed, and if the marble fac-simile is desired, it is chisled out by the sculptor's assistants.

And the craze of the Parisienne is for wearing a lucky halfpenny as a charm upon the long gold, pearl-threaded chains, which now form part of her toilet.

Men and Women Asking For Advice.

Hundreds of Letters!

The Great Work is Done With Pleasure.

Our friends in every section of Canada are keeping our "Consulting Physician" busy. He does his work for suffering humanity with zeal and pleasure, and has already been very successful in many obstinate cases.

Men and women seem to appreciate our efforts in making the "Consulting Physician's Department" a success. Through our Physician, we give FREE advice, and prescribe for all who apply WITHOUT CHARGE. This work is done with the utmost care—as carefully done as any physician could possibly do this work.

Our Physician, who strongly believes in the great possibilities of Paine's Celery Compound, recommends its use only in cases where it is sure to act favourably. He would not presume to prescribe it where the case plainly demanded other remedies.

With our able Physician's work, and the great powers and healing virtues of Paine's Celery Compound, we firmly believe that we will be enabled to do a work for suffering Canadians of all classes that is beyond calculation in good results.

Sufferers, or their friends, when seeking advice, will please address, Consulting Physician's Department, Wells & Richardson Co., Montreal, P.Q.

At Home and Abroad.

Physicians, travellers, pioneers, settlers, invalids and all classes of people of every degree, testify to the medicinal and tonic virtues of Burdock Blood Bitters, the most popular and effective medicine extant. It cures all diseases of the stomach, liver bowels and blood. dw

If you once try Carter's Little Liver Pills for sick headache, biliousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this. dw

Nothing More Pleasant

Than to feel a soft head. Any lady using Dyer's Jelly of Cucumber and Roses will always have soft white hands. Try it. W. A. Dyer & Co., Montreal. 8480

Dr. Low's Worm Syrup has removed tape worms from 15 to 20 feet long. It also destroys all other kinds of worms. dw

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their remarkable success has been shown in curing
SICK
Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured
HEAD
Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head
ACHE
is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

How's Your Hat?

If it looks a little shabby or is out of date, you should see our stock of new spring styles just in, comprising Soft and Stiff Felt Hats of European and American Manufacture. We have them in all the Newest styles, and in sizes suitable for Men and Boys.

MILLS BROS.,
574 GEORGE STREET.

FROM THE CAPITAL.

Yesterday was a Dull Day in the Dominion Commons.

OTTAWA, April 9.—The House was in supply all the afternoon and evening, for the most part jogging along very quietly, but getting a little excited after recess when the militia estimates came up. In fact there was quite an "unpleasantness" It arose out of Mr. James Somerville calling attention to a story about Col. Fred Denison and the Governor-General's Body Guard. He read all the affidavits published a short time ago in E. A. Macdonald's Toronto paper, The Factor, and claimed that there ought to be an investigation. Denison stigmatized the story as a tissue of malicious falsehoods trumped up by "a drunken loafer" that is what he called him—named Slater, who had been prosecuted and imprisoned some years ago and who was not always responsible for his actions. He pitched into the member for Brant in great shape, but that gentleman quietly read some more affidavits and maintained that they could not all be made by drunken loafers.

WILL BE ADMITTED.

Testimony Taken Before the Committee to be Heard in the Boodle Trials.

OTTAWA, April 9.—Sir John Thompson last night gives notice of an important motion for Monday next, to the effect that the House gives permission for the use in the prosecution of N. H. Connolly, Thomas McGreevy, J. R. Arnoldi and others, and in civil suits against Andre Senecal and the other parties prosecuted in connection with last session's investigations, of the evidence taken before the committees, and allows the clerks, shorthand writers, etc., to be examined; the House, however, reserving to itself the right to protect all witnesses examined before the House or a committee of the House.

HON. C. F. FRASER.

Now On His Way To Toronto From British Columbia.

VANCOUVER, B.C., April 9.—Hon. Christopher Fraser, Minister of Public Works for Ontario, is in the city with his wife and daughter en route to Toronto. He is looking and feeling much better than when he left Toronto nearly five months ago, and is anxious to reach Toronto as speedily as possible in order to look after the necessary details regarding the completion of the new Parliament buildings.

Cartwright at Ingersoll.

INGERSOLL, April 9.—Sir Richard Cartwright addressed the electors in the Town Hall here last evening. The hall was comfortably filled. Mayor Stevens occupied the chair.

In the course of his address Sir Richard said he did not deny that the Reform party had received a very severe reverse at the last general elections and a much greater one at the more recent bye-elections which have been held during the past few weeks. He then went on to enumerate the reasons why the Reform party should have been successful in the late elections, and pointed out that every constituency had been bought up.

Aikins Secures His Divorce.

OTTAWA, April 9.—The Divorce Committee of the Senate yesterday granted Mr. J. A. M. Aikins, son of the ex-Lieut.-Governor of Manitoba, a divorce from his wife, the daughter of the late Lieut.-Governor of Nova Scotia. Mr. B. B. Osler, Q.C., appeared for Mr. Aikins and proved a bigamous marriage in New York between Mrs. Aikins and one Blanchard.

And Such Is Fame.

OTTAWA, April 9.—The Major-General commanding the militia forces is investigating the charges which have been made against E. A. Macdonald, who holds a commission in the 12th York Rangers, and who has lately openly avowed himself as an annexationist. The militia authorities at first decided to allow Macdonald's action to pass unnoticed, but since he had announced himself as a candidate for the vacant seat in Toronto it has been decided that it will be advisable to take steps towards a court-martial and ultimate expulsion of Macdonald from the force.

An Indian Mission School.

OTTAWA, April 9.—A deputation consisting of Messrs. N. Clarke Wallace, Sproule, Hughes, Guillet, White (Cardwell), Cochrane and Coatsworth waited on the Minister of the Interior yesterday and presented a memorial from the Women's Methodist Missionary Society of Canada signed by Mrs. James Gooderham of Toronto, president; Mrs. E. S. Cox, secretary, and Mrs. Burns of St. Thomas, asking that an appropriation be made towards the construction and maintenance of an Indian mission school at Fort Simpson, B.C.

The deputation was most courteously received and given assurances that a substantial amount for the purpose would be placed in the supplementary estimates.

A New Librarian.

OTTAWA, April 9.—Mr. H. H. Brigh, a prominent Conservative lawyer of Nova Scotia, has been appointed librarian of the Supreme and Exchequer Courts to take effect on July 1 next. On June 30 the present librarian, Mr. D. W Ternent, who has served for nearly 11 years past, will receive his superannuation with a life allowance of $25 a month.

Rufus Pope to Resign.

OTTAWA, April 9.—Mr. Rufus Pope, M.P., has determined to resign at the close of the session. As a step in this direction he has relinquished his position as English Conservative whip for Quebec Province, which has been assumed by Mr. Cleveland of Richmond.

The Duty on Saw Logs.

OTTAWA, April 9.—Mr. William Little of Montreal and others waited on the Premier yesterday and urged the reimposition of the export duty on saw logs.

Trow May Run in North Perth.

OTTAWA, April 9.—Mr. Trow, ex-M.P. for South Perth, is in the city to-day. He is spoken of as being a candidate in North Perth in place of Mr. Grieve, who was unseated by the Supreme Court.

TWO HUSBANDS IN A YEAR.

A Wayward Wife Elopes With and Marries Her Husband's Partner.

WINNIPEG, April 9.—Chief Clarke has arrived from Moosejaw with a woman named Mrs. Dale, whom he arrested there on a charge of bigamy.

Last July the accused was married in this city to a farmer named Stephen Burk, who lived at Rathwell. During the past winter she packed up her effects and went off with a man named Dale, who was a business partner of Burk, and married him, and the couple have since been living at Moosejaw.

She is an Englishwoman, but came here from London, Ont.

A Mob Pelted Lord Masham of the Fair Trade League With Cabbages.

LONDON, April 9.—The Fair Trade League met in St. George's Hall in Bradford last evening. Lord Masham, a millionaire plush manufacturer and the founder of the league, attempted to make an address. The rear of the hall and the gallery was packed with laborers and factory hands.

Somebody threw a cabbage head at Lord Masham, and policemen were called in to restore order.

Lord Masham then began to praise the wisdom of Americans in passing the McKinley bill. Groans and hisses drowned his voice. When he advocated the passing of a similar bill by Parliament the uproar was renewed. Three men were ejected and more policemen were summoned, but the mob continued to howl.

After trying for ten minutes to continue his address, Lord Masham sat down and Henry Byron Reed, a Conservative member of Parliament for East Bradford, attempted to speak. He is a woman suffragist and was greeted with cries of "Petticoat Reed," "No more McKinley," "Three groans for Reed," and prolonged howls. He spoke for 20 minutes, but his voice was only occasionally heard, and he then gave up. The meeting was dispersed by the police, while the gallery hissed and sang "God Save the Queen" and "Ta-ra-ra, Boom-de-ay."

SUICIDE WITH DYNAMITE.

A Miner Explodes It on His Breast After a Quarrel With His Wife.

WILKESBARRE, Pa., April 9.—Michael Curry, a miner, aged 50, of Port Griffith, quarreled with his wife and left the house yesterday threatening to kill himself.

His wife followed half an hour afterwards and came upon his remains on the mountain side. His head was blown off and an arm and a leg were gone.

He had taken three sticks of dynamite from his tool chest, placed them on his breast after lying down and exploded them with a stone.

Conscience Made a Coward of Him.

BRUSSELS, Ont., April 9.—Dr. McTaggart, the senior partner of the firm of McTaggart & McIntosh, private bankers, the doors of whose establishment was recently closed, arrived here a day or two ago and has been busy going through the books and papers preparatory to making out a full statement for presentation to a meeting of creditors, to be held shortly. He is sanguine that the estate will pan out well with careful management.

His first knowledge of his partner's flight was by a telegram from the Merchants' Bank, London, and he at once left Alabama for Brussels. He had, and still has, unbounded confidence in Mr. McIntosh and can't understand why he would leave as he did without consulting or advising with him.

Dr. McTaggart's plan is to collect in outstanding money as quickly as possible without harassing those interested and declare a dividend to depositors and continue the process until all are paid. He does not know McIntosh's whereabouts, but says McIntosh had a large amount of money in the business and still there of course, excepting a small sum he drew prior to leaving.

SCRATCHED 28 YEARS

A Scaly, Itching, Skin Disease with Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

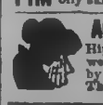
Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly relieve and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

Sold everywhere. Price, CUTICURA, 75c.; SOAP, 35c.; RESOLVENT, $1.50 Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.



ACHING SIDES AND BACK, Hip, kidney, and uterine pains and weaknesses relieved in one minute by the Cuticura Anti-Pain Plaster. The first and only pain-killing plaster.

THE GOLDEN LION.

Home Decorating

The days for house cleaning, tearing up, and putting down, are once more upon us. Those who intend to decorate this Spring should act intelligently in the purchase of Carpets, Lace Curtains, &c., &c.

Whoever you are—Carpet buyers of present or future—we want a chance to sell you.

We have no outrageous prices or profits.

Do you remember what you paid for Carpets last time you had occasion to buy any That was the time when Peterborough people had to pay too much for them. The Golden Lion, however, has worked quite a revolution in Carpet prices, by importing direct from the manufacturer—the same as the wholesale men do—and saving you the "middlemen's commissions." People don't have to go to Toronto now to buy Carpets.

A Carpet is an every day companion—you have to live with it. Our Stock is Large, our Styles are New and correct and are the best expression of artistic furnishings in this line, to be had at moderate cost.

And it is the same with our Lace Curtains and other Draping Fabrics. Curtailing prices all the time and giving better values, is what is making our store such a busy one. Nothing sets off a room more than a pretty set of Curtains; but you must have just what will harmonize well.

That's why we ask you to shop with us:

ROBERT FAIR,

MILLINERY
OPENING
—AT—
TURNBULL'S
—ON—
TUESDAY AND WEDNESDAY,
April 5th and 6th

Our commodious Millinery Show Rooms will be formally opened to display all the Novelties, in Millinery, of the season on April 5th and 6th. We could have opened a week earlier, but thought that the weather might be unseasonable and it also gives us a longer time to make preparations for a more elaborate display. We have taken every advantage to procure New and Cheap Goods in order to make our Millinery Rooms unusually attractive.

SPRING MANTLES AND WRAPS.

There will also be on display a magnificent stock of Imported Spring Wraps and Jackets.

WHITE UNDERWEAR.

Ladies when in the show room will do well to examine our large stock of White Underwear.

LEGISLATURE'S LAST LAP

THE THIRD READING STAGE ARRIVED AT.

Liquor Legislation—Reporters in Polling Booths—Awrey World's Fair Commissioner—Inspector Archibold and the Crown Attorney.

TORONTO, April 11.—The Legislature met Saturday morning at 11 o'clock and passed the following bills: To amend the General Road Companies Act; bill respecting Insurance Companies; to amend the act providing against frauds in the supplying of milk to cheese or butter manufactories; to confirm the agreement made between the commissioners of the Queen Victoria Niagara Falls Park and the Canadian Niagara Power Company; to amend the act respecting the income and property of the University of Toronto University College and Upper Canada College, and Mr. Hardy's bill to amend the Registry Act.

The Liquor Act.

Mr. Harcourt's bill to amend the Liquor License Act did not pass without opposition. It is quiet evident that there is a strong temperance sentiment in the House. Mr. Awrey pointed out that a retailer after losing his license might set us a brewer's agent and sell without a license. He might even sell in in a local option constituency contrary to the wishes of the people. No change was made in the bill to meet these objections.

The local option clause was amended by providing that no municipal council should have power to repeal the local option by-law in less than three years after the passing. The bill had not yet passed the committee when the House rose at one o'clock.

Mr. Awrey for the World's Fair.

In the afternoon Mr. Dryden introduced a bill appointing Mr. Awrey commissioner for the province at the World's Fair. He stated that as Mr. Awrey was president of the Central Farmers' Institute and also of the Agriculture and Arts Association, there was probably no man more in touch with the farming interests of the province. Mr. Meredith promised that under the circumstances he would offer no obstruction to the appointment. He wished it thoroughly understood that the Opposition did not intend to withdraw a title of their censure of Mr. Awrey for his questionable actions while president of the Institute. The bill has passed its second and third readings.

The House passed in committees. Mr. Ross' bill to amend and explain certain portions of the Public School Act, also his bill to amend the act respecting election of members of the Legislative Assembly.

For Inspector Archibald.

Mr. Ross' bill to empower the University of Toronto to deal with certain Upper Canada College lands and Mr. Hardy's Municipal Amendment Act were passed by committee. During the discussion of this bill Mr. Meredith called Mr. Mowat's attention to the fact Inspector Archibald and County Crown Attorney Curry had attended a meeting of the Law and Order Society and had discussed the workings of their departments. This Mr. Meredith held was not in the interests of justice. The public had a right to expect the officers of the Law to keep from any actions which would tend to embue them with "pet hobbies" and by which they would be influenced in the fulfilment of their duties. Mr. Mowat promised to investigate the causes of this complaint at once.

The session, it is hoped, will end on to-day.

Planing Mill Destroyed.

OWEN SOUND, April 10.—About 5 o'clock Sunday morning fire was discovered in McLaren's planing mill in River-street. The building and machinery are totally destroyed. The building was a stone structure, owned by S. J. Parker; insured in Easters for $700; McLaren's insurances on contents are in Phœnix $700 and in Lancashire, $1200. Cause of fire unknown.

Made Sure of It This Time.

TRENTON, April 11.—Yesterday morning the Proctor House was found to be on fire. It had started in the rear this time and there being a wind the place was completely destroyed.

The origin of the fire is a mystery. The building is covered by insurance, but the proprietor will lose heavily on contents.

A Libel Suit to Follow.

LONDON, April 8.—The marriage of Sir Edward William Watkin, aged 73, Bart., and member of the British House of Parliament for Hythe, East Kent, to Mrs. Ingram, aged 83, widow of the founder of The Illustrated London News, took place at St. George's, Hanover-square. The sun shone brilliantly. The aged bride and bridegroom were both clad soberly. Mrs. Ingram did not present the utterly enfeebled appearance that her children have described. She answered the usual questions clearly and firmly. Sir Edward has a son who is married to a daughter of his bride.

Several newspapers have heretofore been compelled to make retractions of statements they had made in connection with the wedding; yesterday the sons of Mrs. Ingram entered suit against The Pall Mall Gazette for libel for asserting in its issue of to-day that they were opposed to the marriage of their mother to Sir Edward Watkin and for other statements.

A Revolt in Pahang.

SINGAPORE, April 11.—A Pahang native, who has arrived here, declares that two British officers named Stewart and Harris have been murdered by Malays. The murders are believed to have been commanded by an important chief, Panglima Muda, who was expected to have made an attack upon Pekan, the centre of European trade in Pahang, on the night of April 6. The Europeans stockaded the jail and sent the ladies to the mouth of the river to embark on the first steamer. Reinforcements have been despatched from Singapore. It is rumored that the Sultan of Pahang instigated the revolt.

SINGAPORE, April 10.—The European ladies sent from Pekan on account of the native uprising have arrived here safely by steamer. The insurgents are still threatening to attack Pekan. The cruiser Hyacinthe and the gunboat Rattler have proceeded to Pekan with a number of police.

A Great Fire in London.

LONDON, April 11.—A fire broke out last night in the steam printing establishment of Page & Pratt, Nos. 5, 6 and 7 Lodgate Circus building, E. C.

The flames spread to the adjacent buildings and destroyed the establishments of Davis & Timmins, metal workers and merchants, No. 21 Charles-street and seven other firms. The loss is immense.

The fire was the largest that has occurred in London since Capt. Shaw left the fire brigade. His successor, Capt. Simmonds, managed admirably.

LONDON, April 11.—Despatches from Japan briefly announce a disastrous fire in Tokyo, Japan.

DEEMING BREAKS DOWN.

THE REMARKABLE PLEA OF THE DEFENCE.

His Mania For Murder Due to Pre-Natal Influences—The Rising of Natives At Pekan of a Serious Nature—Anarchist's Ghastly Joke—Turkey Modifies the Sultan's Firman.

MELBOURNE, April 11.—The defence of Deeming, the murderer, is to be of an extraordinary character. It will, in substance, be that, owing to a prenatal impression on his mother, who happened to be frightened by the butchery of an animal, he was born with an irresistible mania for homicide, which he gratified at every opportunity and with unnatural cunning. No attempt will be made to deny that he has been guilty of the crimes attributed to him, the defence resting solely on insanity, and the greater the murders laid to his charge the better satisfied the defence will be.

There is also no denial that he is "Jack the Ripper," and that he committed several if not all of the crimes laid to the charge of that mysterious assassin. A vast majority of the public believe, however, that Deeming is responsible for every act he has committed, and that his motive in murdering his many wives was to get them out of the way so that he could marry another woman, who in her turn would fall a victim when he met another girl who attracted him.

The Government will be asked to pay the expenses of Deeming's witnesses from England, as his relatives are very poor. The cost of this to the Victoria authorities will be very great, and they are not pleased at the prospect.

Deeming appears to be losing in mental and physical strength, and shows every sign of breaking down under the strain.

Interviewed, the prisoner's counsel, Mr. Lyle, said: "This abnormal offspring of a mother's womb has a defence which will open a question the whole English speaking race must face and which has already been dealt with by some European countries. In the meantime my first duty is to secure him a fair trial."

The remarks made by Deeming's solicitor in regard to the question which the defence would open and the lawyer's minute inquiries as to the prisoner's birth and circumstances connected with his early childhood are taken by many persons who are closely watching the case as foreshadowing the line of defence which will be adopted at the trial—that Deeming's nature had received a malignant impress prior to his birth which had influenced and marked all his actions during his life, and had left him mentally incapable of overcoming homicidal impulses with which he was afflicted, in fact that he was what the prisoner himself had described as a "moral monstrosity."

The Ghastly Guillotine.

PARIS, April 11.—Louis Anastay, the ex-sub-lieutenant who murdered his benefactress, the Baroness Dellard, on Dec 4, was executed in the Place de la Roquette at 5.10 o'clock Saturday. In accordance with the French custom, the condemned man did not know that he was to meet his death this morning until the prison officials entered his cell and told him to prepare for execution. The guillotine was erected in the usual place, directly in front of the jail. The customary crowd of sightseers was present. Anastay walked to the guillotine without showing much nervousness, but he was extremely pale. He laughed nervously as he reached the guillotine. Here he embraced the chaplain who had administered the last rites of the church to him and bade him farewell. The prisoner was soon bound and thrown upon the bascule, the sliding board which carries the culprit beneath the knife. Then Anastay was pushed forward until his neck rested upon the block; there was a quick, whirring sound as the heavy knife fell, and the head of the murderer dropped into the basket placed to receive it.

Anastay's crime was, as stated in the despatch, the murder on Dec. 4 of the Baroness Dellard, who was 70 years old, and whose son, Baron Dellard, is one of the highest functionaries in the French War Office. The Baroness had often given aid to Anastay, and on the evening of the murder he visited her again to ask for money. She refused to give him any, whereupon he cut her throat. Just then the Baroness' servant, Delphine Hourle, carrying a lighted lamp entered the room, which was in darkness. Anastay rushed at her and struck her in the throat with the knife. The woman struggled fiercely, and in the conflict the lamp went out and Anastay lost the knife. He fled, and the wounded woman promptly gave the alarm. After a long search Anastay was captured, and shortly after his arrest he made a full confession of his crime.

Anastay's Gruesome Bargain With His Brother.

PARIS, April 11.—Anastay requested his brother, who is a medical student, to experiment on his head as soon as it was decapitated by the executioner. He promised to reply by movements of his eyes to certain questions which his brother would ask regarding the sensations which he experienced when the knife cut his head from his body, and matters of a physiological nature. The object of this proposed gruesome conversation was to afford a test as to whether any vestiges of life remained in a human head immediately after it has been severed.

Sale of C.P.R. Lands.

WINNIPEG, April 11.—Sales of Canadian Pacific Railway land this season are enormous. Over 2000 acres were sold Saturday morning before 10 o'clock. On Monday sales aggregating 4000 acres; Tuesday and Wednesday they were a little less, averaging nearly 3000 per day; Thursday was the heaviest of the week, when the total of 5000 acres was disposed of; and on Friday 4160 acres, a total for the week of nearly 20,000 acres. Sales of first quarter of present year compare with corresponding period of 1891 very favorably and the increase has been something enormous, but the second quarter will be even greater. For the first quarter of 1891 sales aggregated 15,000 and for January, February and March of current year a total of 80,000 acres, an increase of 433 per cent.

Frightened to Death.

NEW YORK, April 11.—Mrs. Fannie Cohen, the aged wife of a drygoods merchant living at 72 East 90th-street, was frightened to death at 3 o'clock yesterday by the clang and rattle of a number of fire engines which been summoned to a fire in the adjoining house.

On hearing the engines she jumped from her bed, raised the window and looking out she saw the engines puffing and belching out fire and smoke, shrieked and fell to the floor a corpse.

CHIT-CHAT FROM OTTAWA.

The Government still After the Coonellys.

OTTAWA, April 11.—Council had its usual Saturday session, sitting from eleven until five with a brief intermission for refreshments. It is understood that the work for the balance of the session was mapped out and a good deal of it put in shape for introduction in the House this week.

The Redistribution Bill was not touched, but will probably be attended to during recess and the measure brought down immediately after the Easter holidays, as promised by Sir John Thompson.

Owing to the continued illness of Sir Alexander Campbell and the near approach of the close of the Provincial Legislature session, Chief Justice Haggerty was at today's meeting of the privy council appointed deputy to the Lieut.-Governor of Ontario for the purpose of prorogation.

Suit has been entered in the Exchequer Court to recover the modest sum of $370,064.51 from Patrick Larkin, Nicholas K. Connolly, Michael Conuolly, Owen C. Murphy and Robert McGreevy forming the firm of Larkin, Connolly & Co., being moneys improperly obtained in connection with their contracts. There are eight counts:

First—$50,000 paid to Robert McGreevy for influencing "Uncle Thomas" as Harbor Commissioner.

Second—$201,116.70, difference between Larkin, Connolly & Co.'s tenders for Quebec Harbor works and John Gallagher's, which was passed over improperly.

Third—$93,000, Bob McGreevy's share of the profits on this contract.

Fourth — $25,000, paid Thomas McGreevy for getting the dredging contract at 35 cents instead of 28.

Fifth—$100,000, paid by Harbor Commissioners in excess of amount actually due.

Sixth—$19,873, amount of reduction in value of plant at Esquimalt graving dock made by the engineer through the influence of Thomas McGreevy.

Seventy—$31,879, profits through changes made in construction of Esquimalt graving dock.

Eight — $86,195.81 paid Robert McGreevy out of profits of Esquimalt graving dock.

Double Drowning.

OTTAWA, April 11.—Two shanty teamsters named Larocque and Gonlin attempted to cross the Gatineau River at a place where the ice was still holding. They were driving their horses and broke through the surface, the whole outfit being drowned.

Fielding Reads the Papers.

HALIFAX, N.S., April 10.—Provincial Secretary Fielding has given notice in the Nova Scotia Legislature of resolutions providing for tax impositions of duties as a means of augmenting the provincial revenue. The act will be similar to that which both Ontario and New Brunswick have, at the sessions just closed or closing, imposed on inheritances.

A German Duel.

BERLIN, April 11.—Herr Menther and Herr Silbermeir, managing directors of rival collieries at Hermsdorf, who have been on bad terms for some time, met in the streets of Breslau to-day, and after some words commenced firing at one another. Several shots were exchanged and finally Silbermeir fell dead. Menther was arrested.

End of the Suspense.

CAIRO, April 11.—The Sultan has consented to issue an irade supplementary to the firman at the request of the French and Russian Ambassadors. This relieves the tension of the situation in Egypt. The reading of the firman will probably take place on Monday or Tuesday, thus allowing the French squadron time to arrive at Alexandria from the Piræus.

The Reading of the Firman

CAIRO, April 11.—The ceremony of reading the firman investing the Khedive is definitely fixed for Thursday.

Mrs. Sampson Freed and Sampson Shorn.

LONDON, April 11.—The woman known as Edith Sampson, who attempted suicide some days ago, was brought before the police magistrate and severely admonished not to attempt suicide again. He then ordered her discharge. She claims to be the wife of Sampson, the American strong man, who was sentenced to 12 months at hard labor for stealing the jewelry and money of Mrs. Bernstein, who became infatuated with him.

Sampson's hair was taken off at the jail and he was set to work picking oakum.

Disorganized the Diamond Trade.

PARIS, April 11.—By the failure of Armand & Schwot and D. L. Moppes & Co., wholesale jewelers, with heavy liabilities, the whole extensive diamond and pearl trade of Paris is disorganized.

To Deliver An Address.

LONDON, April 11.—Mr. Gladstone has consented to address a great London demonstration before the general elections.

To Crush the Dahomeyan Warriors.

PARIS, April 11.—The Parliamentary Budget Committee has passed a credit of $620,000 for operations in Dahomey.

Crisp News by Cable.

The accouchement of the Empress of Germany is expected to take place in June.

The Earl of Dunraven has sold his famous yacht Valkyrie to a Russian Grand Duke for £4500.

Maurke's famous German cement works at Lehrte were destroyed by fire yesterday. Two workmen perished.

The Russian famine is said to have caused a loss to the Imperial Treasury of 800,000,000 roubles, or about $240,000,000.

Discount was easy on the London market during the past week. A further reduction of the Bank of England rate is expected.

Owing to the depression in trade in Australia a tour of the Antipodes proposed for Paderewski will probably be abandoned and he will return to the United States.

Sir Arthur Sullivan's illness at Monte Carlo will cause a long delay in the production of his new opera, now being rehearsed at the Savoy Theatre.

For the first time during the current agitation of the so-called unemployed in London the red flag of anarchy was displayed at the meeting yesterday.

The Austrian Government contemplates taking stringent measures to prevent the emigration of young men to America without having served their time in the army.

In the House of Commons yesterday, Mr. Alexander Blane, Parnellite member for South Armagh, gave notice that a month hence he would move that the time had come to establish an Irish Parliament in Dublin.

NASAL BALM

It is a certain and ready cure for Cold in the Head and Catarrh in all its stages.

If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease CONSUMPTION, *don't fail* to use it, it will cure you or cost nothing. Ask your Druggist for SHILOH'S CURE, Price 10 cts., 50 cts. and $1.00.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $3.00 for six months.

Daily Examiner.

MONDAY, APRIL 11, 1892.

Taxation.

To the Editor of the Examiner:

DEAR SIR,—Kindly allow me space in your paper for a few remarks in reply to a letter written by Mr. J. Hampden Burnham in your last issue.

A just system of government will not permit in its form any unforeseen change, which would prevent a person receiving the full value for any investment made prior to such change. This every person of sense will admit. In the same way the introduction of a new system of taxation, which would lower the value of present investments, is not in accordance with right and justice, unless full reparation be made.

Mr. Burnham claims that the vested right of a house owner is that all properties taxed at present shall continue to be taxed; but that it is not the vested right of house-owner to demand that future improvements shall be taxed. Merely saying that this is the vested right and that not the vested right of a person is far from proving it.

THE RIGHT OF EVERY MAN

is justice. The right of every owner of a taxed house is that no other person shall be permitted to decrease its value by building another house which shall be free from taxation. This and nothing less than this is the vested right of every house-owner; this and nothing less than this we must consider to be the vested right of every house-owner, till Mr. Burnham or some one else can show us that right is wrong and wrong is wholly right. Let Mr. Burnham apply this most proper definition of vested rights to the case in which A, the owner of the old house, paid $550 for it, and B, the owner of the new house, paid $500 for his, let him do so and he will see that no objection arises from the cost of A's house, but from the $50 confiscated.

Now since this pet scheme of Mr. Burnham's has been most conclusively disposed of, let us turn our attention to a few remarks he makes in defense of the system of taxation, which it was

THE OBJECT OF HIS PLAN

to improve. In my letter of two weeks ago, I pointed out that the single tax system would not have the desired affect. Mr. Burnham tries to overcome my arguments by saying that, in my illustration "The speculator chains his capital ($40) up at 5 per cent. to pay his taxes. This is so him a great drawback." He has not shown that it is a "great drawbeck." But in my previous letter I thought I had stated so clearly as scarcely to need repetition, that the speculator required in both cases the same capital, that the price of land was in each instance subject to the same fluctuation, and that therefore, under each system, the inducements to speculate were equal. What matters it to the speculator in what particular way his $40 is invested, so long as the profits of speculation are the same? It does not matter if the whole cost of land is paid in taxes or any other way, and I repeat that in each case, the same capital is required, the same fluctuation takes place, and the profits are the same. This was most conclusively proved in my last letter by the illustration mentioned, which Mr. Burnham has so signally failed to prove untrue.

Yours, etc.,
CAIUS.

Peterborough, April 8th, 1892.

No Other Sarsaparilla has the merit by which Hood's Sarsaparilla has won such a firm hold upon the confidence of the people.

No Other combines the economy and strength which make "100 Doses One Dollar" true only of Hood's Sarsaparilla.

No Other Possesses the Combination, Proportion, and Process which make Hood's Sarsaparilla peculiar to itself.

Hood's Pills cure Sick Headache.

GRAND RE-OPENING

of Gough Bros. Mammoth Clothing, Hat and Boot Stores.

During the past month these stores have been undergoing extensive alterations, and now, with pardonable pride, we have much pleasure in announcing that these stores are the finest of the kind in Canada. Their aim has been to clothe a man or boy from head to foot. They have added department after department, until now they have reached the goal of their ambition. Each department is replete with all the latest novelties. We will not enlarge on the prices the goods will be sold at, suffice to say they will simply astonish our patrons.

A WORD ABOUT OUR CLOTHING DEPARTMENT!

NEVER in the history of the trade has such an array of fine clothing been placed before a buying public. Our stock this Spring embraces all the latest designs and patterns, and they were made under our own special supervision, the workmanship is of a superior quality. Notwithstanding all this our prices will be found lower than ever. When we came to you as the revolutionizers of the clothing trade, we promised you then that we would benefit the public, and now, after a long trial, have we kept our word? If so, let that be our best guarantee to the public that we will deal honestly and squarely with them in the future. We are not so egotistical as to believe that we please everyone, still to those whom we did not please, as well as to those we did please, we sincerely return thanks for past patronage. As we are not infallible we are prone to make mistakes, and our judgment, like any human being's, may err. Still, we try to avoid errors as much as possible, and therefore it is our proud boast when any one had a grievance we never refused to make it right when brought to our notice. This spring we are going to redouble our exertions, and by keeping Good Goods, Nice Goods, square dealing and extremely low prices, we hope to merit a continuance of your generous patronage.

The Great Cause of Education.

Rev. S. T. Bartlett, of Lakefield, Preached Educational Sermons in the Mark Street Methodist Church Yesterday to Large Congregations.

Yesterday was Educational Sunday in the Mark street Methodist church, Ashburnham, Rev. S. T. Bartlett, pastor of the Lakefield Methodist church, preached both the morning and evening discourses; large congregations completely filling the sacred edifice in all parts, were present at both services. In the evening Rev. Mr. Bartlett made a few preliminary remarks in regard to the

AIMS AND OBJECTS OF THE EDUCATIONAL

Society of the Methodist church. He stated that the object of the Society was to supplement the revenues of the different colleges and universities with the free will offering of the people, and to assist in educating candidates and probationers for the work of the Methodist ministry. They had five colleges and universities in the Dominion to assist in their work, and where students were educated for the work of the ministry. These were Albert College, Belleville; Victoria University, Cobourg, soon to be removed to Toronto; Wesleyan Theological College, Montreal; Sackville University, Sackville, N. B., and Wesley College, Winnipeg. The revenue of the society last year was $20,000. One fourth of that amount was kept within the bounds of the conference to defray the expenses of examinations of students and probationers for the ministry and to loan poor students sums to defray the expenses of their college training, the sums to be payable any time within ten years. The other three-fourths of the amount was divided as follows: $500 went to Albert College every year; 50 per cent. goes to Victoria University, and of the remainder, 18 per cent. went to the Wesley Theological College, Montreal; 14 per cent. to Sackville, and 14 per cent. to Wesleyan College, Winnipeg. All subscribers of one dollar and upwards had their names appear in the reports of the Educational Society, of which Rev. Dr. Potts, Toronto, was the General Secretary.

The reverend gentleman chose as his text Proverbs, 3rd chapter and the 14th verse: "Happy is the man that findeth wisdom and the man that getteth understanding." The inquiry after knowledge and truth goes back to the remotest time. Many of our ancient progenitors would sooner have suffered death than be deprived of the privilege of acquiring learning. Man has always felt within him the stirrings of hunger and thirst, an intense longing after knowledge. Where this knowledge was misapplied there was danger and there was death. Only as our researches and strides were in harmony with God's law could we know the truth. Christ said "you shall know the truth and the truth shall make you free." This command involved three great principles, knowledge, truth, the subject of knowledge, and freedom, as the result of truth.

There was a

DIFFERENCE BETWEEN UNDERSTANDING AND WISDOM.

Understanding was the capacity or the power to apprehend truth in its relations to life. Wisdom was the power to execute truth as we have understood it. The trouble was not that we had sufficient understanding, but we did not have sufficient wisdom. The facilities for developing and educating the mind were never greater than they are to-day. Knowledge was power and rightly applied was wisdom. The speaker strongly advised young people to make use of the flying moments. All could solve the great problems of life on paper and for others, but to do it for ourselves and execute right principles was a different matter. Evil men had understanding. They can criticise other men they know. It is not because we do not know enough that we fail, it is because we fail in the practical application of this to life. We could all form or build an ideal, but to go out into practical life with all its cares, perplexities and drawbacks and bring ourselves up to that ideal requires the highest and greatest powers I know, I ought, I am and I will, were the four cardinal points of correct living. The intellectual, however valuable it is, cannot do the best and most for us. We should all cultivate it, but when we stop there and build our hopes upon the flash and quickening of the understanding, we utterly fail. The infinite, eternal and omnipotent power of the most High God dwells within us. Until we become educated to that, we fail. We are not to rest with that which is intellectually speculative. There were truths which were speculative and grand in our own being.

WISDOM WAS NOT A NATURAL POSSESSION.

The heart was deceitful and desperately wicked. Though it is not natural, it is possible for all of us to obtain that wisdom to have our intellects quickened by divine guidance. A great many who knew enough were not wise, except in their own conceits. There must be at the foundation of all wisdom an admitted consciousness of lack of power. We must see how much we need wisdom. There must be well-directed search for it. Wisdom did not lie on the surface, but was the result of well-directed test and Heaven's grandest experiment. There were two things essential for wisdom which we lacked, absolute acquaintance with truth and power to execute the practical part of it. Experience was a child of development. The happiness of a man who got wisdom consisted in his consciousness of right until the mind active applied and quickened goes out after the light. No man could be happy unless right and unless he understood God's Word and put it to a practical test in the principles of action and precept. Happy was the man in the proper development of all his faculties and mind. The Bible and not conscience should tell all of us what was right.

When you buy your spring medicine you should get the best, and that is Hood's Sarsaparilla. It thoroughly purifies the blood.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

---

What is Dandruff?

A disease of the scalp that causes falling of the hair, fading of the hair, in fact, death of the hair. It irritates the scalp and causes scaly eczematic eruptions—produces baldness. Bear in mind that Ayer's Hair Vigor removes Dandruff with 3 applications—stops falling and restores fading of the hair to its original color. Sold by druggists at 75 cents per bottle. dw

Chapped Hands.

Made smooth, soft and white by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6186

Origin of Sterling.

An Agent of Stirling Worth.

Camden gives the following account of the origin of the word. About the time of Richard I, money coined in the eastern parts of Germany came into special request in England, on account of its purity, and was called Easterling money, as all the inhabitants of that region of Germany were called Easterlings. Ultimately, some of these people, skilled in coining, were sent for to London, to bring the English coin to perfection; and to the new issues under their direction, the name of Easterling, contracted afterwards to Sterling, continued to be applied. The word became fixed in the language.

With us the word Sterling is synonymous with honesty, genuineness and worth. We speak of men possessing "sterling" qualities, and often apply the word when speaking of preparations of great merit and worth.

Canadians of every class and rank, well know the honest, true and remarkable qualities of Paine's Celery Compound as a curative agent. It is the only remedy that can truly claim "stirling" qualities. Like "stirling silver," it has the ring of true honesty—it has never been deceptive—it has fulfilled all expectations and promises.

Men and women have given it the place of honor in their homes, and have discarded the worthless and misleading medicines that failed to accomplish good. The thousands in our country who have testified so strongly in favour of Paine's Celery Compound, are its missionaries for spreading about the "stirling" qualities of this grand preparation for nervousness, weakness, sleeplessness, moroseness, dyspepsia, neuralgia and rheumatism. Its fame has been made by those who have been cured and given a new life. Paine's Celery Compound is not a cure all—a remedy for all the ills that flesh is heir to; but it is an infallible, sure and speedy cure for the numberless ills that result from a broken-down nervous system.

Our best doctors in Canada recommend it, and prescribe it with pleasure and confidence. This fact proves its "stirling" worth as a healer and cleanser. Try it, dear reader: you have doctored long with other agents which have done you no good, here you are offered the key to new health, it is for you to use it, and open the door to happiness and joy.

News About Town

It is the current report about town that Kemp's Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles cost 50c and $1. dw

If You are Going To Buy a Piano or Organ

don't fail to pay a visit to

JACKSON & Co.'s

ESTABLISHED PIANO AND ORGAN WORKS,

360 Aylmer St., Peterborough.

Being extensive dealers in only Reliable and Standard makes of

GRAND, SQUARE AND UPRIGHT PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS,

AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that **we positively will not be undersold.**

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

All kinds of Instruments Tuned or Repaired on short notice.

Jackson & Co.

360 Aylmer St., Peterborough.

Etc., etc., etc., on hand.

H. SPEARS.

Navigation Open at Chemong.

Chemong lake is now clear of ice and ready for navigation. When Pigeon lake and Gannon's Narrows are clear we may expect steamers plying soon. There is a prospect of a lively summer at Chemong Park. Mr. Fobert has already applications for rooms at his hotel. The cottages are well engaged. Already three new cottages are furnished and several more are under course of construction.

A Creditable Performance.

Webster & Brady's big scenic production "The Bottom of the Sea," was played at the opera house on Saturday night. A fair house greeted its production. The play is a good one and was well put on. Mr. Felix Haney in the role of "Barney Doigh," was the company in himself. He acted with ease and ability. The rich Irish brogue and wit flow as spontaneously from his tongue as a brooklet down the mountain's side. Miss Camille Cleveland as "Eulis Le Brun, daughter of Ernest Le Brun, a retired French merchant, forms the central figure of the play around whom the plot forms and thickens. Her acting was natural and graceful. George P. Webster, as "Alexis Bazilli," impersonates the polished villain and deceitful scoundrel with a cold and relentless nature and in the end dies like a dog, stubborn and unyielding to the last. The dancing of Lu. Burgess chief cook of the Invincible) was one of the features of the evening, and cleverly executed. Miss Jole Sutherland, as "Deniketti," maid to Miss Le Brun and the wife of the veritable Barney, is a pretty actress, a pleasing dancer, and has a charming stage appearance. The rest of the cast rendered a fair and ordinary support. The scenery and its effects were surpassing and grand, especially in "the wreck in mid-ocean" in Act II, and the laying of the West India cable on board the French man-of-war "Invincible" in Act III. The play is of a novel and original order throughout, very different in its effect and production from the conventional drama.

Oh, What a Cough!

Will you heed the warning. The signal perhaps, of the sure approach of that most terrible disease consumption. Ask yourselves if you can afford, for the sake of saving 50c., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. If never fails. d w

Horse and Buggy Stolen

Mr. R. Tivey Has His Horse and Buggy taken From the Albion Hotel Yard, Ashburnham, on Saturday Night by Indians.

On Saturday evening Messrs. Roland Tivey, jr., and his brother Albert Tivey, drove over to Peterborough from Ashburnham with a black horse and pleaton buggy. Mr. Roland Tivey remained over town, while Albert Tivery drove back to Ashburnham. He tied the horse under the sheds of Mr. Patrick Hogan, and walked back to Mr. Wm. McGregor's barber shop to get shaved. A number were before him and he had to wait about twenty minutes. When he returned to get his horse and buggy he found them missing. He immediately notified his brother that the horse and vehicle had been stolen. Mr. Roland Tivey procured a livery rig from Connor Bros. livery and started out in pursuit. He drove to Keene and Allendale but could find no trace of the missing horse and buggy. About noon yesterday an Indian drove up to the Albion Hotel, Ashburnham, with the stolen property. The buggy bore evidence of fast driving, and was completely bespattered with mud. It appears that a large number of Indians from the Hiawatha reserve were in town Saturday and that four of them removed the equipage from the Albion hotel shed and drove home. Their names are said to be Crow and Cow—two of the four being named Crow and the other two Cow. They drove to Hiawatha, and when once home they had no further use for the outfit. They took it to an Indian friend's and told him that it belonged to the Albion hotel, and to take it back to Ashburnham. Accordingly this was done and brought back yesterday noon. It appears the Indians took the horse and buggy more for a lark than any intention of theft on their part. The matter has been settled and the Indians will not be prosecuted.

Building and Saving's Society Meeting

The Peterborough Working Men's Building and Savings Society will hold their regular monthly meeting to-night in Mr. Stevenson's office, Water street.

No. 3 Company, Attention!

The members of this Company will assemble for drill at the drill shed, to-morrow evening at 8 o'clock sharp. As this is the first drill of the season, a full attendance is particularly required. By order,

W. H. HILL, Capt.

Baby Carriages A beautiful line now on display at the **Peterborough Bookstore.** Peterborough Bookstore. A choice from twenty-five different varieties. The largest and most elegant collection of this kind of goods ever shown in Peterborough. The inspection of ladies cordially invited—prices away down—417 and 419 George street. J. E. STRATTON.

A Slight Blaze.

An alarm of fire was sounded at 7.45 last night. The scene of the fire proved to be the dry goods store of J. Dolan & Co. George street. A large bill which was stuck to the side of the wall inside the window fell off on the incandescent lamp and took fire. Happily there were no goods in the window to become ignited. Some slight damage was done to the goods near the window by the by the smoke.

At St. Peter's Cathedral.

The services during holy week at St. Peter's Cathedral will be as follows:—On Thursday at 8 o'clock the ceremony of the blessings of the holy oils by His Lordship Bishop O'Connor. On Friday at 9 o'clock there will be the ceremony of the Adoration of the Cross. On Saturday at 7 o'clock the blessing of the Easter water and the paschal candles will take place, followed by the holy sacrifice of the mass at 8.15. On Easter Sunday there will be three masses: one at 6 30, another at 8, and the third at 10 30, when His Lordship will pontificate.

South Ward Mission Work.

A movement is on foot in the southern part of the town to erect a Methodist mission building. A subscription list is in circulation to raise funds for the purchase of a lot and a considerable amount has been secured. The site of the proposed building is at the west of the exhibition grounds. It is to be built on the co-operative plan; some will contribute material, some labour and some moral support. Something like the means adopted to procure material for Solomon's temple. One of the most significant offerings is building sand—"sand" being a prime necessity in aggressive Christian work.

Monthly Prizes for Boys and Girls.

The "Sunlight" Soap Co., Toronto, offers the following prizes every month till further notice, to boys and girls under 16, residing in the Province of Ontario, who send the greatest number of "Sunlight" wrappers:—1st, $10; 2nd, $6; 3rd, $3; 4th, $1; 5th to 14th, a Handsome Book; and a pretty picture to those who send not less than 12 wrappers. Send wrappers to "Sunlight" Soap Office, 43 Scott Street, Toronto, not later than 29th of each month, and marked "Competition"; also give full name, address, age and number of wrappers. Winner's names will be published in *The Toronto Mail* on first Saturday in each month.

St. Andrew's Sunday School.

The building committee met on Friday evening with the architect, Mr. Belcher, and decided how to enlarge the present Sunday school room to meet all the necessities both of the school and of the ladies of the congregation, providing the latter with a separate parlour for all their meetings, etc. The work of building will be proceeded with at once. It was also decided at the quarterly meeting of all the officers of the Sunday school, held in St. Andrew's Manse on Thursday evening, that an entertainment be given on April 28th, proceeds to be devoted to replenishing the library. A committee was appointed to make all necessary arrangements.

Mr. Boscovitz's Coming Concert.

The announcement that the distinguished pianist, Boscovitz, is to play here at Bradburn's Opera House, on Thursday, April 21st, has set all our musical people in a state of excitement. The great artist is so well known by reputation that the bare mention of his name is sufficient for most people. Still we may quote a notice which appeared in the Boston *Evening Transcript*: "Mr. Boscovitz comes back to us as charming a Chopin player as ever. His playing of Chopin is still, as it was years ago, something quite unique in its fascination. He is almost the only pianist who has made credible to us the old story that the Polish ladies and their cavaliers used to be irresponsibly stimulated to furious dancing by Chopin's playing of his own Mazurkas. Graceful and winning too were the pianist's own compositions. The audience was lavish in expressions of pleasure and appreciation." Subscription list open at Scholfield's drug store. Subscribers have first choice of seats.

News Nuggets.

—Port Hope began lacrosse playing today.

—No one has slept in the cells since Friday night.

—A dog case was withdrawn at the police court this morning.

—The private office of the Grand Central is receiving improvements.

—Mr. Wm. Morgan while splitting wood this morning, bruised his right foot.

—Joseph Stanford has sold a house and lot on Charlotte street to Mr. Harry Rush.

—There will be a rehearsal in the first degree in Peterborough Lodge of Oddfellows to-night.

—All the companies of the battalion will turn out for company drill to-morrow night in the drill shed.

—Invitations have been issued for the Olympic Club ball, in Bradburn's Opera House, Wednesday evening April 20th.

—It is earnestly requested that there shall be a large attendance at the practice of the Philharmonic Society to-morrow night.

—A case of abusive language from Ashburnham, which was to have come up before County Magistrate Edmison this morning, was settled out of court.

—Don't forget the mass meeting to be held in the R. T. of T. Hall to-night. Local speakers will address the meeting and discuss the temperance hotel question. There should be a large attendance.

—Last week a span of the iron bridge over the Genessee river, Rochester, gave away and precipated a woman and four men into the river. They were fortunately saved from going over the falls after much effort. The bridge was built over twenty years ago, and built on the bowstring principle, with an arc and cord. This bridge was the model from which the Hunter street bridge over the Otonabee was built, and which went down one cold night. This form of bridge has long since been condemned as unsafe. Several of them in Rochester are to be removed.

—Lt.-Col. J. Z. Rogers has received word from Col. VanStraubenzie, D. A. G., informing the military authorities here that if they wish to take part in the assembly of troops to be held in Montreal or St. John, N. B., from 20th to 23rd May, they will please give due notice. No provisions are made for forage or transport, and it is not likely the battalion will accept the invitation, as they would have to defray all their own expenses. When they go on a trip, and defray their own expenses, the battalion will go wherever they desire best—to a point which the officers may agree upon.

Personal.

Mr. Watt, of Havelock, has accepted a position in a town shoe store.

Mr. Sam Hughes, M.P., Lindsay, stopped in Peterborough to-day on his way to Ottawa.

Miss Susie Traxler who has been visiting friends in town for the past two weeks left this morning for Chatham.

Mr. M. T. Ostrom has just returned from St. Paul, where he was visiting his brother Geo. S. Ostrom, and also visited the Columbia Iron Mines, of which his brother is secretary treasurer, the capital being $3,000,000.

Mr. T. J. Anderson who lives near Apsley, traveller for Brophy, Calas & Co. shoe dealers, Montreal, is confined to the Nicholl's hospital through an attack of inflammation.

Church Chimes.

The local union of Christian Endeavor Societies will hold a sunrise prayer meeting in the Y. M. C. A. rooms next Sunday morning at seven o'clock.

Rev. W. C. Allen, of Millbrook, will give the special Wednesday evening address in St. John's church. His subject will be "The gift of God." The address will be the last one in the series.

At St. John's during the present week, there will be services every evening except Saturday. On Good Friday there will be services at the church at 11 a.m. and 8 p.m., and also the Mission School, South Ward, on the evening of Good Friday.

Rev. J. W. McCleary, rector of St. Luke's who has returned from Washington, N.J., conducted the services yesterday. His brother J. McCleary returned to Washington on Thursday last.

Collections for the Home Missionary Association were taken up in Murray street Baptist church yesterday.

Rev. J. Thom, B.A., pastor of the Mark street Methodist church conducted services in Lakefield on Sunday.

Rev. S. T. Bartlett, of Lakefield, conducted special educational services at Bethel yesterday afternoon.

A "social hour" will be held at the close of the Y.P.S.C.E. meeting in St. Paul's church to-night.

Special preparatory services will be held in St. Paul's church on Friday morning and evening, to be conducted by the pastor, Rev. E. F. Torrance. Communion services will be held next Sunday.

Rev. Geo. Edwards, pastor of the Charlotte street Methodist church, preached from the II Psalm yesterday morning, giving an outline of the Sunday School lesson for the benefit of the teachers and others. In the evening he spoke on the subject of "Repentance" with great power and earnestness to a large congregation.

Mr. John Jeffries, B.A., will conduct a special Bible class in the George street Methodist church on Friday evening. The subject will be "The Resurrection."

The musical part of the services next Sunday in the George street church will be of a special character.

There will be a Christian Endeavour rally on Easter Monday in the Charlotte street Methodist church. It will be a rally for all the Christian Endeavour Societies in the county. At the morning session reports from the various societies and of committee work will be read. In the afternoon the working of the societies will be discussed by representatives. There will also be a question drawer answered by Mr. W. S. Leslie, editor of the *Christian Endeavour Herald*, Toronto. Tea will be served from five to seven o'clock and in the evening there will be three stirring addresses by noted clergymen. The meeting will close with a consecration service.

of Lower Cabot, Vt., formerly of Dalton, N. H.

A Faithful Pastor

Is held in high esteem by his people, and his opinion upon temporal as well as spiritual matters is valued greatly. The following is from a clergyman long influential in New England, now spending well earned rest in Cabot, Vt.:

"C. I. Hood & Co., Lowell, Mass.:

"We have used Hood's Sarsaparilla in our family for many years past, with great benefit. We have, with confidence, recommended it to others for their various ailments, almost all of whom have certified to great benefit by its use. We can

Honestly and Cheerfully

recommend it as the **best blood purifier** we have ever tried. We have used others, but none with the beneficial effects of Hood's. Also, we deem Hood's Pills and Olive Ointment **invaluable.** Mrs. Stone says she cannot do without them." REV. J. P. STONE.

Better than Gold

Mr. Geo. T. Clapp, of Eastondale, Mass., says: "I am 32 years of age, and for 30 years have suffered with running sores on one of my legs. A few years ago I had two toes amputated, physicians saying I was suffering from gangrene and had but

A Short Time to Live

Eight months ago as a neighbor urged me, I began taking Hood's Sarsaparilla. The whole lower part of my leg and foot was a running sore, but it has almost completely healed and I can truthfully say that I am in **better health** than I have been for many years. I have taken no other medicine and consider that I owe all my improvement to

Hood's Sarsaparilla

It is better than gold." "I **cheerfully verify** the above statement of Mr. Clapp, whom I have known 30 years." J. M. HOWARD, Druggist, Eastondale, Mass.

HOOD'S PILLS are purely vegetable.

The great Chronometer and Regulator in chief, to the whole world, is the earth itself. Turning upon its axis once in what we call one day of twenty-four hours, the sun appears to cross the meridian once in that interval and is the only perfect time known. But the great objection to the sun as a family timepiece is, we can't always hustle around looking for him to judge the time by, and it is too big to carry around with us, so we have to call in the watchmaker's aid to find the correct time. Who is your watchmaker? Try R. W. MUNCASTER.

The new things the trade affords and what we haven't got, you need not look elsewhere for.

Jos. Armstrong & Co.
LeBrun's Old Stand, George St.

Peterborough's New Industry.

Repairs and Alterations Going Bravely on in the Brick Building at the South End of George Street, for Mr. B. F. Ackerman's Wholesale Harness Factory.

The repairs and alterations in the large brick building at the south end of George street formerly known as Main & Marks, carriage factory are progressing favorably. Mr. B. F. Ackerman, of Port Perry, who was recently granted exemption by the town council from taxation on the property for ten years on his establishing a wholesale harness industry, has had workmen busily engaged in making alterations and renovations to the property for the past two weeks. Already a great change has been made in the premises. The building which has thirty feet frontage and is seventy feet deep, is three stories high. New pine floors have been placed on all the flats, the first and third floor being double. The whole structure has been plastered from ceiling to attic. A large double window has been placed on the north side of the building in the second storey. This has been done to allow a flood of light into what what will be the sewing room. Mr. Ackerman intends using the second floor for manufacturing purposes. The top storey will be used for storing leather. On the ground floor will be the office situated to the left of the front entrance and also the show room. The walls and ceilings of these rooms are being finished in oak wainscoting, which when oiled will present a fine appearance. The rear room will be used as a store room. Mr. Ackerman will have over 6500 square feet of flooring for his new industry when all is ready for operation. The frame lean-to on the north side of the premises will be used for manufacturing horse collars. New stairways have been placed in position and many other improvements made. It is Mr. Ackerman's intention to have two large plate glass placed in position in front of the office and show room. This, while entailing considerable expense, will add much to the beauty and attractiveness of his manufacturing establishment. Some $700 have been expended in interior repair and alterations. The plastering was done by the Smith Bros., and a splendid job was done. Messrs. J. Elliott and C. A. Alexander are doing the carpenter work, and Mr. George Schneider the painting and graining.

Mr. Ackerman will remove to Peterborough the latter part of this week. All his old employees and their families will remove here from Port Perry. Mr. Ackerman is now looking for about ten houses in a central locality to situate his men. He will employ between twenty and thirty hands the year round. Operations will begin in a very few days, as soon as the stock and machinery can be removed from Port Perry and placed in its new quarters in Peterborough.

Young's Point.

(From Our Own Correspondent.)

I notice in the Lakefield *Chronicle* "Tourist" takes up his pen to endeavour to combat a proposed railway extension to this place. In his long array of arguments I fail to understand his motives for such a course of conduct if it be not injury to his own petty interests whatever they may be, and they cannot be of very great magnitude if a line of four or five miles of railway would interfere so much with the discharge of his duties. It is to be sincerely hoped that he will become reconciled to the project and perhaps he may obtain a position on the new road when in operation.

The steamer "Misty Eilen" is at present undergoing repairs in the locks here previous to being launched upon the water for the season.

Mr. Nicholas Calhahar, of Campbellford, clerk in the employ of Rathbun Co., stopped here on Wednesday last on his way back to the Company's limits.

Miss M. A. Febert, of Bridgenorth, is at present visiting at Mr. P. A. Kearney's, postmaster.

The water is unusually low in the Otonabee this spring. It is thought that it will not rise much above the present mark.

Ladies.

A pin in your brooch costing only 5 cents, at WYATT'S. If broken within three months will be replaced free of charge.
